Office of the

265131
Indian Commissioner

for Manitoba and the Northwest Territories,

In your reply refer to
No. 122/82
and date of this letter and
address
Hon. David Laird,
Indian Commissioner,
Winnipeg, Man.

Winnipeg,

27th September 1904.

Sir, -

170,367

I have your letter of the 22nd instant in which you state that if the Bishop of Mackenzie River will say that the pupils at the Hay River school for whom the full grant was not paid were in residence the full quarter, although sick, the payment will be made on a supplementary return covering the time deducted by the Department. May I suggest that the requirement of the supplementary return be dispensed with, and that payment of the shortage be made upon the returns already in the possession of the Department? Hay River is quite a distance, and is beyond mail communication. Letters have to await the carriage of Hudson's Bay people or other traders. The requirement of a supplementary return would mean that payment could not be made until the first mail is received from Hay River next Summer. His Lordship has already stated, as you will observe on reference to the copy of his letter of the 29th ultimo which the Commissioner enclosed to you on the 10th instant, that the children were all at the school and had to be fed and cared for just the same as if they were attending the classes. It is quite evident from the returns and the correspondence that in this school the returns are made up from the registers kept in the class-room, in which failure to attend the class is noted as absence. It

would be very difficult in a country so circumstanced as Hay River to return the pupils to their homes when ill, indeed their illness would be an additional cause for keeping them in the institution where they can be properly cared for. I trust the Department will be able to concur in my suggestion and promptly meet the shortage in the payment to the Hay River school.

Your obedient servant,

Asst. Indian Commissioner.

Ottawa, 3rd. October, 1904.

122/82

Sir:-

I have to acknowledge the receipt of your letter of 27th ultimo, in further reference to the payments made to the Church of England Boarding School at Hay River during the year 1902, and in reply I beg to say that in view of your statements as to the difficulty of obtaining supplementary returns to account for the shortage made in that year, the Department has forwarded a cheque covering the balance of the grant to the Rev. ^{Dean} ~~Dean~~ Griswold, Winnipeg.

As this payment is irregular the supplementary returns will be required as soon as they can be conveniently obtained. The following statement shows how this balance is made up.:

Balance due Sept. Quarter /02	\$248.40
" " Dec. Quarter /02	110.40
" " Mar. Quarter /03	92.40
" " June Quarter /03	135.60
Total	<u>\$586.80</u>

I have the honour to be,

Sir,

Your obedient servant,

Hon. David Laird,

Indian Commissioner,

Winnipeg,

Man.

H. J. MOLEAN
Secretary.

Sir,

I have your letter of the 3rd. instant advising me that a cheque covering the balance due on the grant of the Hay River Boarding School for the fiscal year 1902-1903 has been issued in favor of Rev. Dean Griswold, Winnipeg. I am afraid this is not the proper address, as up to the present Mr. George Grisdale, of Winnipeg, was receiver of Government funds on behalf of the Bishop of McKenzie.

As to procuring supplementary returns, I will attend to same without delay, but it will take a considerable amount of time before they come to hand.

Your obedient servant,

David Laird

Dear Sir

EXTRACT
on 160370.13

I am sending off to the Superintendent General of Indian Affairs the Annual Report of our School for the year ending June 30th/06. which has been waiting a chance to mail for some time since. I trust it will reach the Department in safety and be of interest. There is no regular mail going south from here after the 30th of June until December and as I knew it would be too late for last year's publication I have taken my leisure and am sending it in time for this year. Press of work at Mid-summer, generally prevents my having it ready to send back with Mr. Courroy after Treaty payments and that is, usually our only chance until winter.

I received a Circular in January from the Assistant Secretary, dated October 25th/06, saying that a Cash Book and forms, had been sent me and requesting that I shall keep a strict account of all receipts and expenditures in connection with our Mission. The Book and forms

can hardly reach me before the 8th or 10th of July next
when the next regular mail passes our door going North.
I have to say that, owing to the facts, that there is but little
cash in circulation in this locality, our being on the rough
Northern border of the Treaty Limit and that all the settlements
for goods bought, freight charges, for white help, childrens passages
etc. etc, are made by the Bishop of the Diocese, who resides
at Athabasca Landing, which is more than nine hundred
miles south of us, I am unable to give you even an approxi-
mately fair estimate of our expenses, which I know runs up some-
where between four and six thousand ^{dollars} annually. I have
already written the Bishop on the matter and trust you
will get some statement from him in the near future.
I have been led to believe that the Government is likely to take
over this work from the Mission Society. If such is the case
I feel sure that the change will be for the good of the work
which to my mind is a most promising one and well
worth the expenditure, if rightly directed.

We have always been cramped for want of sufficient means
to fit up buildings and carry on the work as it really needed.
We also labor under peculiar disadvantages in having to
secure all our necessary imported provisions in
quantities large enough to meet all chance require-
ments of a whole year as there is no place within

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

nine hundred miles from where we could possibly see any considerable quantity of flour, bacon, beans, rice or any staple food, at any price, and the selling price in the country here is always well up to and beyond the high water mark of ordinary profits. In another particular we are peculiarly situated, to receive our goods in September we must order the previous December and anticipate every need for a year from the time when they are delivered. To be safe we have also to anticipate how many new scholars we can secure in ^{the} intervening summer between the time that we write out our order and receive our goods. Some seasons we can only secure two or three and last summer we might have secured thirty had we been able to accommodate them. As it was we could only take eleven. Again our great isolation makes it very difficult to secure suitable men and women for moderate remuneration who are willing to endure the privations and lack of social enjoyments for years at a time. Our Missionary term holds us for five years, unless in cases of broken health, which is a long period to be bound to a ceaseless round of tedious toil with little or no diversion other than we can make for ourselves. I have taken the liberty of drawing your attention to these facts for your information and consideration in case the work is taken over by your Department. These are some of the things that are likely to be

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

IV

overlooked in the first instance and which are amongst the drawbacks with which we have yearly to contend and for which we have to prepare. For my part I am expecting to withdraw from the work this coming July after fifteen years of service, owing chiefly to my wife's broken health which has been brought on to a very great extent by overwork and the anxious care of nine years in this Institute.

Hoping that the statement of these few facts may be of interest as well as of some small value to your Department in planning for the future, in case you take the work over.

Believe me, dear Sir,

Respectfully yours,

Thos. J. Marsh.

Ottawa, March 13, 1908.

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's letter of the 4th inst. and in reply I beg to say that the last payment to the Hay River Boarding School was for the quarter ended December 31, 1906. The cheque was for \$354.00 and was sent on September 24, 1907, to Mr. George Grisdale, Synod Office, Winnipeg, Man., to whom all cheques for this school have been sent.

The reason that the grant has not been paid since the above date is that the quarterly returns have not been received from this school. Upon receipt of the returns the grant will be promptly paid, but the Department can make no payment till the returns are received.

The matter of a grant for a school at Whitefish Lake will be dealt with in another letter.

I have the honour to be,

Right Reverend Sir,

Your obedient Servant,

J. D. MOLEAM

The Secretary,

Department of Indian Affairs/

My Dear Sir/

Re yours of the 13th. 170307/1

I cannot understand how it is that no returns have been received by the Department from the school at Hay River since Dec. 31, 1906, and fear that they must have gone astray. Both the Principal (Rev. T. J. Marsh) and the schoolmistress (Miss Potts) have left, but I understood from the latter that the returns up to June 30 had been sent as usual.

It will take a long time to get them now.

~~That they cannot be sent.~~

1906

They cannot be obtained until next September or October. I could, however, within a week or two obtain a list of the names of those who have been in regular attendance during the last year, or at all events during the first six months of that year, and perhaps under the circumstances, as we are badly in need of the Grant, you would be willing to accept that. The returns for the last six months are probably now on the way. This I know is somewhat irregular, but next September is a long way off, and it will be doing us a favor if you can thus help us out of the difficulty.

With very kind regards, and great respect,

I am

Very truly yours

W. D. Reeve.
Bishop.

MEMORANDUM:

Deputy Superintendent General:

With reference to the attached letter from Bishop Reeves asking for some assistance for the Hay River Church of England School, I have to say that in our redistribution of funds we allowed the Hay River School an increase to \$100.00 per capita for its estimated pupilage, that is 20 pupils at \$100.00 - \$2000.00. At present this is all that we can do for this School. When the Rev. Mr. O'Meara was here he brought to my attention the case of the Hay River School. It appears that the work of this Diocese has been divided; the northerly portion being administered by the Bishop of the Yukon and the southerly portion by the Bishop of Moosonee. I told Mr. O'Meara at that time that the Department would not be able to consider the case of this school specially and apart from the general question.

HAY RIVER INDIAN BOARDING SCHOOL.
.....

During the year 1909 I visited Mackenzie River District as far North as the Arctic Coast, crossing over the mountains from Fort McPherson and going down the Porcupine River by way of Rampart House and Fort Yukon to Dawson.

On the way I was able in the month of July to visit Hay River School, and since that time I have had several reports from the Principal, Rev. A. J. Vale. I now desire to give the following brief report concerning the Indian Boarding School at Hay River:-

During 1908 - 1909 there were 35 children in attendance at the school, 15 boys and 20 girls. In addition there were 9 day pupils.

In 1909 - 1910 there were 38 boarders, 16 boys and 22 girls.

The health of the pupils has been uniformly good with the exception of a few minor ailments. No deaths have occurred in the school during the last two years - up to March 1910 which is the date of the latest news received.. The management and discipline of the school seem good.

The children were taught with a view of their returning to their former homes in most cases. The practical side was therefore emphasized. The boys were given ample instruction in gardening and fishing. They were also given opportunities to learn properly the use of an axe and other tools used in carpentering.

366422

The girls received practical instruction in cooking, sewing, housekeeping etc.

One of the teachers ^{also} ~~last~~ gave instructions in wood carving, and several of the children made good progress in this art. The ordinary school work has of course been carried on regularly.

I had occasion to ~~mark~~ notice the marked improvement shown in the cases of a number of children.

One young man who left the school last summer accompanied me on a winter journey from Fort McPherson to Rampart House. I observed that he had made good use of his term of schooling. He was moreover persevering in his endeavours to teach others.

The Hay River School has done good work, and under its present management continues to exert a beneficent influence, not only directly amongst the children, but also through them among the tribes to which they belong.

Mr. Frank Pedley,

Deputy Sup't General of Indian Affairs,
Ottawa.

Dear Sir:-

I wish to ask if the grant of \$2000.00 towards Hay River Indian School, Mackenzie River District, was paid last year. If not would you please have it paid to the Imperial Bank, Athabasca Landing, to be placed to the credit of the account of the Diocese of Mackenzie River, which is held in the name of Archdeacon J.R. Lucas. I shall be glad if you will send me notice of the payment, and also notify Archdeacon Lucas at Fort Smith, Mackenzie River District..

I enclose you herewith a short report of Hay River School which I visited last Summer. When in Ottawa about a year ago you asked me to send in a report concerning the school. Up to a short time ago I have been travelling ever since I was in Ottawa, and only now am I able to send you this statement.

Last year you kindly gave a grant of \$100.00 each for 20 pupils, or \$2000.00 for the school. I wish to make application for a grant for 30 children at \$100.00 per

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2.

366422

capita, or \$3000.00 in all.

You can readily understand that the expense of carrying on a school in a place like Hay River is great. We have to keep continually begging from friends to make ends meet. I think the school is well worthy of further support, and it would be a great relief if your department could increase the grant to at least \$3000.00 per annum.

I expect Bishop Holmes will visit Hay River this summer, and if you desire it he will be able to give further information concerning the progress of the school. I expect he will be back at Athabasca Landing by August.

Yours sincerely,

Isaac O. Stringer

Bishop of Yukon.

P. 17
Ottawa, June 23, 1910.

Right Reverend Sir,

I have the honour to acknowledge the receipt of Your Lordship's letter of the 4th instant in reference to the grant earned by the Hay River Boarding School during the past fiscal year.

In reply I beg to say that at the time of Your Lordship's visit to Ottawa last spring the question of an increased grant to boarding schools in the West was under consideration. The proposal then was to close the Elkhorn Industrial school and distribute the funds expended annually in its maintenance among the different boarding schools under the auspices of the Church of England. In this redistribution provision was made to pay a per capita grant for 20 pupils at the rate of \$100.00 ~~ka~~ at the Hay River school.

The Department was unable, however, to carry out the proposal to close the Elkhorn school and consequently the funds to increase the grant at Hay River and other schools were not available.

*Look
at this*
A reference to official letter of May 4th, 1909, will show that the Department had in view the redistribution referred to above when Your Lordship was advised that an increased grant would be paid the Hay River school.

It is regretted very much that Your Lordship's

Right Rev. I. O. Stringer,
Bishop of Yukon,
Whitehorse, Yukon.

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

request could not under the circumstances be complied with, but you will readily recognize the impossibility of making an exception in the case of the Hay River school when there are other institutions operating under similar conditions.

The total earnings of this school for the nine months ended December 31st, 1909 were \$1080.00. The grant for the June quarter was paid direct to the Principal, who acknowledged the same, while that for the September and December quarters was paid to His Lordship the Bishop of Athabasca. The earnings for the March quarter will be paid upon receipt of the usual quarterly return and the cheque will be sent, as directed, to the Ven. Archdeacon J. R. Lucas.

I have the honour to be, Right Reverend Sir,

Ottawa, March 8rd., 1911.

Right Reverend Sir,-

I have the honour to enclose herewith an Agreement, in duplicate, between Your Lordship and His Majesty the King, represented by the Superintendent General of Indian Affairs, for the future maintenance and management of the Hay River Boarding School, and I have to request that you will be good enough to sign this document in the presence of a subscribing witness and affix your official seal, returning same to the Department at your earliest convenience, as this Agreement goes into effect on the 1st. of April next.

On the return of this document the signature of the Deputy Superintendent General will be affixed and one copy will then be returned to you. Certain alterations and improvements may be necessary at Hay River to bring the buildings up to the required standard. The Inspector of Treaty No. Eight when at Hay River during the coming summer making treaty payments will be instructed to inspect and report on the improvements needed. A reasonable time will be granted by the Department to allow you to have these improvements made, and in the meantime the increased per capita grant will be paid for 25 pupils at \$125.00 from April 1st. next, provided this Agreement is completed.

Your obedient servant,

J. D. McLEAN

The Hon. Frank Oliver,

Supt. General of Indian Affairs,

Ottawa.

382359

Dear Sir :-

Acting upon your kind suggestion to me when we had the pleasure of meeting you, I am venturing to approach you respecting the Grant allowed by the Indian Department to the Hay River Protestant Boarding School.

Hitherto the Department has given a grant of \$72.00 for 20 pupils. This year, the grant was increased to \$100.00 per capita. The Pupilage has for some years reached a total of from 35 to 40. Taking the minimum number of children actually in residence the whole year round as Thirty-five (35), I would respectfully urge that the Grant from your Department should be so increased as to cover that number. This would involve a total outlay of \$3500.00.

The children are drawn from the Chipewyan, Slave, Hare, & Tukudh, (or Loucheux) tribes.

The cost of the upkeep of this School is very great in consequence of the heavy freight charges on imported goods.

Your Honor was pleased to warmly commend the farming operations undertaken by the staff at Hay River, assisted by the boys of the school.

Hoping your Department will extend its Grant so as to cover a pupilage of Thirty-five (35) Boarders.

I have the honor to be,

Yours respectfully,

Jas. R. Lucas

Archdeacon, & Diocesan Sec., & Treas.

This seems to be met by the change made in the School grant. Since this letter was written.

Prop. Theobald

FOUR COPY

Ottawa, March 7th., 1911.

EX'D.

Right Reverend Sir,-

In reply to the enquiry of Archdeacon Lucas with reference to the Hay River School, I have to state that Your Lordship is correct in supposing that this School will benefit by the recent increase in the per capita grants. It was understood however that the Bishop of the Yukon had this school under his charge and the Contract for the Hay River School was forwarded to him for execution. I trust that this action was correct. If not, the mistake can be rectified. In the meantime the Hay River School will receive the increased grant from the 1st. of April under the prescribed conditions.

It is noticed that the attendance has been from 35 to 40 pupils, and if the building can accommodate that number under the new regulations I think we would be disposed to pay for the increased number, but it should be distinctly understood that there must be no overcrowding and that more pupils are not in the building than it can accommodate with a proper care for sanitation. Inspector Conroy will be asked to report on this phase of the subject when he is at Hay River next summer.

Your obedient servant,

Asst. Deputy and Secretary.

The Right Rev. Geo. Holmes, D.D.,
Bishop of Athabasca,

Athabasca Landing, Alta.

MAR 27 1911
DEPARTMENT OF

Ottawa, March 25, 1911.

MEMORANDUM:-

Mr. Oliver.

In reference to the extract from a letter addressed to you by Mr. Alfred J. Vale, Principal of the Hay River Boarding School, Great Slave Lake, I beg to say that it is not the practice of the Department to acknowledge the receipt of quarterly school returns; the sending of a cheque for the earnings constitutes a receipt. Mr. Vale's return for the September quarter reached the Department on the 7th of February, last, and a cheque for the earnings due, amounting to \$360.00, was sent on the 8th of that month to the Imperial Bank, Athabasca Landing, to be deposited to the credit of the McKenzie River Diocesan Fund, and the cheque was acknowledged by the Treasurer of the Diocese. The December quarter return has just come to hand and a cheque is being sent to the bank.

With regard to the school supplies. In September, 1909, a requisition for stationery was received and promptly filled. Some of the material did not reach the school till January 6th, 1910, and on that date the Principal acknowledged the receipt. Since that date there has only been one

DIocese OF YUKON

RIGHT REV. J. STRINGER, D.D.
BISHOP

Dawson, Yukon, Canada May 11, 1911.

The Secretary, Department of Indian Affairs,
Ottawa, Canada.

Dear Sir:

I beg to acknowledge yours of March 3rd which reached Dawson during my absence on a visit to a distant tribe of Indians. I wish to acknowledge also your enclosure of two copies of a Form of Agreement regarding Hay River Boarding School. Bishop Holmes is this year visiting Hay River and other places along the Mackenzie River route, and he has the oversight of Hay River for the time being, he and I having the supervision of Mackenzie River Diocese between us. However it is impossible to reach him till the Autumn, and in order that the matter may not be delayed, I am signing the two Forms of Agreement on his behalf as well as for myself, and herewith enclose them to you.

In signing this agreement I wish to bring to your notice several points in which some alteration seems to be required, or at any rate a liberal interpretation in the practical application of the rules.

First- in section One, Sub-Section One in order that a per capita grant may be obtained for twenty-five children, only one pupil for every twenty or fraction of twenty, is allowed to remain in the school at any one time. This would mean that only two extra could remain in the school at one time, or in other words, twenty seven is the maximum limit. You are probably aware that the children are received from many different points in the Northern District, and practically the only time that they can be brought to the school is for a short period in the Summer. Supposing twenty-seven are taken in during the Summer, and through an epidemic of illness or for any other reason, a number of them either die or have to be sent home, it may be practically impossible to procure other children till the following Summer. In the meantime the cost of the school is going on at almost the same rate as if the full number of children were in school, and the management is handicapped for lack of funds. The only remedy I can suggest, that in a remote school like Hay River the number of pupils allowed to remain at one time in excess of twenty-five should be increased.

Secondly- Under Section One, Sub-section Two (a) The rule regarding the school age of seven or over, if rigidly enforced, may be sometimes a hardship. It is our experience

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

that sometimes we are asked to take orphans, or children who have no one to care for them, and sometimes these may be under the age of seven, and yet it might be an advantage all around to receive them into the school. The maximum limit of twenty-seven children, however, might forbid this. If the management were permitted to receive children of five or at any rate six years of age, under exceptional circumstances, or were even allowed to receive such, without being counted in the matter of the excess number of pupils, it would I think be a reasonable relief.

Thirdly- Section One, Sub-Section Four (a) requires that no child shall be admitted unless he or she be a duly enrolled member of Hay River band of Indians residing at Hay River and vicinity, Indians now under the supervision of H.A. Conroy Inspector Treaty No. 8. I am not sure how far North Mr. Conroy's inspector-ship extends. When I passed down the Mackenzie River in 1909, a number of Indians at Simpson, Wrigley, McPherson, Norman and other places, requested me to have their children taken to the school. The same is, I believe, true every year. The Boarding School was established for the purpose of providing for the Indians connected with the Church of England in the whole of the Mackenzie River Diocese or District, and I thought that was the understanding with the Department. I think it is reasonable that the Northern Indians should have the advantage of the school even though not under a formal treaty. I trust you will find some way to overcome this disability.

Fourthly- Section One, Sub-section four (b) states that no half-breed child shall be admitted unless permitted by the Supt. General, and that in any case, no grant shall be allowed for such child. It would seem reasonable that in a remote region like Mackenzie District, some latitude should be allowed the management in admitting such children as it is impossible as a rule to consult your Department beforehand. The Bishop or Archdeacon Lucas in the Annual Summer visits to the Coast, may be asked to take such children. Often there is no way of finding out beforehand what children are available, and at least a year would have to elapse if the consent of your Department must be first obtained. Then again some half-breed children are practically Indians, and in some cases also it might be a difficult task to prove whether a child were Indian or half-breed. I presume this rule would apply only to half-breed children, whose white parent is providing for his or her support.

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

D.I.A.--3--

Fifthly- In Section Two Subsection One, certified returns are required for each quarter before the grant is paid. This regulation in the case of Hay River will cause a long delay especially at certain seasons of the year. I would suggest that the payments be made at least one quarter in ~~advance~~ advance. They could be based on the returns of the preceding quarter ~~and~~ if it be found that these returns can reach Ottawa in a reasonable time.

I can assure you that the management of the school will endeavor as far as possible to carry out the instructions of the Department. But I know you will recognize the difficulties with the Hay River school. I hope you will be able to give the matter special consideration, and that you will endeavor to give such relief from the strict reading of the general regulations as the circumstances require.

I remain,

Yours sincerely,

Isaac A. Stringer

Bishop of Yukon.

P.S.-- When you return me a signed copy of this agreement, will you also please send the blank copy to Bishop Holmes, addressed to Athabasca Landing, Alberta, so that he may receive it on his return from Mackenzie River in August. I expect to meet Bishop Holmes in London, Ontario, on the 6th of September. In the meantime, I shall be glad to hear from you regarding the above suggestions.

Ottawa June 9, 1911.

Right Reverend Sir.-

In reference to your Lordship's letter of the 11th ultimo, I have the honour to enclose herewith the duplicate agreement relating to the future maintenance and management of the Hay River Boarding school duly executed by the Deputy Superintendent General.

In reference to the several points in the agreement which you note, I beg to state in reference to the number of pupils for which the per capita grant is ~~authorized~~ authorized, that if the building can accommodate a greater number of children under the requirements as called for by the new regulations, I think ^{we} ~~and~~ would be disposed to pay for an increase in number, but it should be understood that there must be no overcrowding and that more pupils are not in the building than it can accommodate with a proper care for sanitation. Mr Inspector Conroy has been instructed to report on this phase of the subject when he is at Hay River during the present summer.

The regulation regarding the age of admission will be adhered to. The Department cannot pay the grant for any pupil under seven years of age.

The ^{cause} in the agreement limiting the recruiting ground to Hay River and vicinity has been changed to include the Indian bands residing in the MacKenzie River

Right Rev. I.O.Stringer, D.D.

SEPTEMBER 25th 1912

Scfr

423484

Sir:-

I have the honor to report upon the condition of the Indian (Anglican) Boarding School at Hay River, Great Slave Lake, which I visited on September 6th and 7th, also upon September 9th and 10th, accompanied by Dr A.L. McDonald, the Department's Medical Officer.

This School is under the immediate charge of the Rev: A. J. Vale, with Miss Page as Matron.

Buildings

The Buildings, which are of Logs, are situated upon the river bank at the mouth of Hay River, and are surrounded by a large garden, in which a variety of vegetables and flowers are successfully grown, showing no signs of frost at the date of my visit.

Pupils

There are 25 pupils receiving the Government Grant.

Accommodation

The accommodation appears to be somewhat cramped, but is sufficient for the needs of the above stated number; there are, however, a staff of older boys and girls, who are retained as house and farm helpers, who should have more accommodation provided for them.

The children all look healthy and bright; I examined their handwriting, which is excellent and asked them, individually, a number of

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

questions; their replies were most intelligent and they have evidently been well taught.

Health and Sanitation

There was one child ill; Dr McDonald, who examined her, stated that there was nothing serious the matter.

The water supply is not as good in the Fall as it should be; the samples observed contained Animalculae in large numbers. Hay river from which it is taken is very sluggish at this point and vegetable matter appears to accumulate in it. I would recommend that the Drinking water for the establishment be brought from Great Slave Lake, which is a comparatively short distance from the School, this should at least be done during the summer months.

General

I am informed by the Rev: Mr Vale that arrangements are being made for the erection of additional accomodation. The building at present occupied as his dwelling and the staff Mess-house has a portion, which, when completed, can be used for isolation purposes in case of contagious disease occurring. Much outdoor Relief appears to be given to the Indians by Mr Vale in the way of medicines &c. and both he and Miss Page and Miss LeRoy, who constitute the present staff are doing excellent work. An additional teacher is required as the male teacher employed left this summer.

I have the honor to be, Sir,

Indian Agency

Fort Smith, N.W.T.

Dec. 3rd., 1913.

Sch
Sir:-

454712

I have the honour to report as follows, upon the affairs of this Agency during the past six months.

X X X X X X X X X X

While upon the Treaty trip last Summer I made thorough inspection of the Indian Boarding Schools at Resolution and Hay River, the pupils in both these institutions were in excellent health, the gardens and potato fields looked well, the buildings as reported before at Resolution are very good but work has not yet commenced upon those of Hay River School.

In this connection I might say that we have an ex-pupil of the Hay River School as a domestic servant at the Agency, she is clean, neat and obedient, and thoroughly understands English.

Dear sir,

I have much pleasure in sending you the list of pupils in our School entitled to receive the Grant for the year. During the past year we had one boy leave as his term agreed for previous to the new regulations had expired and his parents desired him to return to them. Those eligible for this year are as follows -

Girls.

01. Lucy Andrew.....10.
03. Madeline Etenaishi...16.
04. Jane Enoch.....15.
05. Sarah Kikuvitchik....12.
06. Laura Kikuvitchik....15.
07. Annie Chigocha.....9. 9.
08. Selina Edwards.....12.
09. Florence Flett.....7.
010. Hannah Soto.....11.
011. Pansy Soto.....9.
012. Catherine Peter.....13.
013. Ruth Ross.....14.
014. Maria Vittrekwa....10.
015. Sarah Justin.....8.
016. Laura Blazes.....6.

Boys.

1. Douglas Hope.....14.
2. John Hope.....9.
3. James Njootli.....13.
4. Andrew Campbell.....16.
6. Antoine Mackay.....8.
7. Murdo Juthi.....13.
8. Alfred Goose.....7.
9. Abraham Stewart.....14.
10. John Joseph Stewart.....10.
11. Javan Sitichinli.....16.
12. James Francis.....14.
13. William Sibbiston.....13.

No doubt you will have had a visit from our new Bishop, Right Reverend J. R. Lucas, and he will have given you all the particulars you may require further than those given above. In my letter of last year I stated that there had been a special arrangement made with our Bishop regarding our School, I will be glad to furnish any thing that is required if you will kindly indicate what is needed. I am yours,

Obedient Servant.

MEMORANDUM:-

Mr. Scott.

With reference to your memorandum of today, asking what stock the Hay River boarding school has on hand, I beg to say that they have one stallion, one steer, two cows and a couple of young stock. They were cultivating the ground, and working the potato crop with the horse, apparently successfully. They had between seven and eight acres broken, which was put under crop. They raise a large quantity of potatoes and a fair amount of garden truck. The new building is under construction, and should, I think, be finished this year. The curriculum follows along the lines prescribed by the Department, besides which considerable attention is given to outside work which will be useful to the scholars later on. Discipline is excellent. Heating and ventilation arrangements were as satisfactory as the old building would allow, and adequate fire protection was installed. The water supply is excellent and easily accessible.

Memorandum,-

Mr. Scott.

489335

With reference to the cost of supplying a pair of oxen to the Hay River Mission, I am of the opinion that the estimate quoted hereunder is approximately correct, but there would be a considerable risk at the present time in delivering these animals in good order at their destination. From my own knowledge of the conditions at Hay River I am of the opinion that the interests of the Mission would best be served by postponing the departure of these animals until such time as the transportation facilities have become improved on the Peace River and Slave River sections; the journey is long and has considerable attendant risks, and it would not seem to me to be wise to forward these animals when there does not seem to be a pressing need for them.

492643

Dear Sir,

There is a matter I wish to bring to your notice concerning the conveyance of Indian children to the Hay River Boarding School.

The above school serves the whole of the Anglican Diocese of Mackenzie River, and the children attending it are brought from their homes by steamer at distances ranging from 250 to 1200 miles. This involves the Mission in a very heavy expenditure yearly for fares. I venture to approach your Department therefore with the view of obtaining help towards meeting this heavy and inevitable outlay, and would respectfully call your attention to the following:-

These children are in several cases, orphans, and even when such is not the case, their parents are unable to defray the expense of sending them to the school.

The children are all promised to the school for periods ranging from Five years and upwards, so that the expense incurred would not be asked for in any particular case under that time.

No child has been taken to the school for many years past without having been thoroughly inspected and examined by the Government Doctor. This precaution, I consider, is of the utmost importance, and as a consequence we have enjoyed a perfectly complete bill of health, and immunity from death.

It has been reported to me that the fares of some children who

MEMORANDUM.

JD
Mr. Scott,-

With reference to the application from the Right Rev. J. R. Lucas, Bishop of Mackenzie River, for a refund of the expenses incurred in taking children to the Hay River Boarding School I beg to say that the Bishop bases his claim on the increased cost of maintenance and management of the school and states that it has been reported that the fares of some children who were sent to the Roman Catholic boarding school at Fort Providence last year were paid by the Department.

I can only find that the fares were paid in one instance for a girl going to this school, that was from Fort Simpson to Providence and amounted to \$5.50.

I spoke to Mr. Bury about this matter and he does not think the Department should assume responsibility for the transport of any of these pupils, as there are plenty of children in the vicinity of the schools.

Mr. H. Bury,
Indian Schools Dept.,
Ottawa, Canada.

Dear Mr. Bury:-

In reply to your request that you be furnished with a list of some of our pupils who have left the School in the past, I have much pleasure in submitting the following:-

1. Arthur Hardisty (Slavi Indian). - Returned to his father, worked on the Steamer as deck-hand, was interpreter for the R.N.W.M. Police at Simpson, and now has returned to hunting and trapping.
2. Daniel Bompas (Slavi Indian). - Worked for several years on the Hudson Bay Company's Steamer as a deck hand. Later married and settled at Hay River. Wife died last winter. He is now assisting in the building of our new school.
3. Jessie Mc Swain (Half-Breed). - Married to Wm. Morasi a fellow pupil of our school. He was hired for a time as a helper at our Mission. Later, he desired to return to his own people at Norman; after about 3 years' sojourn there he died. Widow is still living at Fort Norman.
4. Rosie Mc Swain. - Became a domestic for a White Woman in the country, and later married a white man and lives at the present somewhere in the Peace River District.
5. Nellie Mc Swain. - Served as Domestic to Bishop Reeve; later married to Hudson Bay Company's former District accountant. Died in Edmonton.
6. Thomas Wm. Mc Swain (Half-Breed). - Engaged for a time after leaving school as a Mission helper; is now for the 4th year interpreter for the Hudson Bay Co. in this place.

POOR COPY

7. Charles Norn (Half-Breed). - Hired as Interpreter and Fisherman for our Mission; has been here now for upwards of 20 years. Is married and has a son at school. Acts as the Official Interpreter for the Treaty Party and sometimes for the Police. Leads an ex/emplary life in every way.
8. Josephine Lamalise (Slave Indian) - Left school to keep house for her father after the death of her mother.
9. John Richard Berens - Hired for a time as outdoor worker on Mission Staff. Left to work on the H. B. Co's steamer, has done so for 4 seasons and is at present so engaged. We are trying to secure him now as an outdoor helper again.
10. Harriet Morasi - Indian girl from Norman; returned to her home, was married this summer to Albert Grostite who also was a former pupil of our school. Spent a year in Ontario with Rev. and Mrs. T. J. Marsh.
11. Edward Heron - Son of H. B. Co's Fort Master; a very bright and clever scholar, returned home, hired as clerk for H. B. Co., and has for the last 6 years been in charge of a Trading Post for the Company. Is married to one of our old girl pupils and has a family. Lives at Fort Nelson, B.C.
12. John Francis Heron (brother of Edward) - Is now interpreter for a fur trader at Fort Resolution, N.W.T.
13. William Heron (another brother) - Is cook at the H. B. Co's District Headquarters, Fort Smith, N.W.T.
14. Louise Bedzetiya - Returned home to Simpson; is a hunch-back; hired as Domestic to H. B. Clerk, and later was taken by the family to Edmonton - no further news of her.
15. Emily Alice Berens. - A clever and neat scholar, hired as domestic to Indian Agent, A. J. Bell, at Fort Smith, N.W.T., and went with them to Saskatoon. Later returned to Athabasca and married last year.
- 16 & 17. John & Stirling Mc Kinley (1/4 Breeds) - Sons of H. B. Co's clerk, now living in Athabasca; last heard of them one in printing office; other a carter with his own teams.
18. Jacob Njootli (Peel River Indians) - Returned home as elder brother had died; he had to take charge of the home. Built a house and taught a small school of children

ARCHIVES PUBLIQUES
CANADA

POOR COPY

voluntarily in his home during evenings. Later went to Choutla Indian School, Carcross, Yukon, to prepare for the ministry; is at present in Dawson; has spoken of volunteering for active service in defence of the Empire.

19. Sarah Njootli (sister of Jacob) - Left school last year (1915) and is engaged as Domestic in Bishop Lucas' home at Chipewyan, Alta.
20. Jane Enoch (Peel River Half-Breed) - Left school 1915 - is married to Hudson Bay Clerk trading in the Mackenzie River Delta.
21. Donald Isaac (Peel River Indian) - Hired as Mission helper for two years and then joined Hudson Bay Company's steamer. This season (1916) is in full charge of the deck hands on steamer.
22. Madeline Etenaishi (Hay River Slave Indian) - Last year hired as domestic to H. B. Co's Fort Master at Fort Resolution. The latter went to Edmonton on leave. Madeline returned here and now has been engaged as domestic to the Protestant Minister, Rev. G. W. Bowring at Fort Simpson.
23. Douglas Rae Hope - Returned home and is engaged on the SS. "Northland Trader" owned and operated by the Northern Trading Company.

Most of the others have returned to their homes; some, I regret to say, go back to their old mode of living; others, I am pleased to say, have married Indian men and are keeping their houses and families beautifully clean and tidy. One is known as the model housekeeper at Fort Simpson.

I trust these details may be what you desire and will prove of use to you.

yours sincerely,

Alf. J. Hale

HAY RIVER BOARDING SCHOOL. (Anglican.)

SCHOOL
OCT 13 1916
At the time of my visit to Hay River the new school building was in process of erection. As will be seen by the photograph it is a commodious structure and compared with the old building is a great improvement. It is expected that the new school will be ready for occupancy about the month of June next.

Up to the present time the school work has been considerably handicapped owing to the lack of accommodation.

The measurements of the school are 94 ft. x 30 ft. and it will be two storeys in height.

The usual classes were held during my stay at Hay River and I was especially struck, with the proficiency of the pupils in reading and writing. Several Eskono children receive tuition here and exhibit great aptitude for learning.

The class work was generally well up to the standard and the boys appeared to thoroughly enjoy their outside work. The pupils, both boys and girls, appear singularly healthy and vigorous.

I was able to secure from the school principal a Mr. A. J. Vale, a statement or record of the doings of ex-pupils of the school. This statement is attached.

Sgd. H. J. Bury.

Diocese of Mackenzie River

THE RIGHT REV. J. R. LUCAS, D.D.
BISHOP

Bishop's House,

Chipewyan, Alberta.

August 27th, 1917

The Hon. Superintendent General,
Department of Indian Affairs,
Ottawa.

503932

Dear Sir,

It is with much pleasure I have to report that the new Indian Boarding School at Hay River, Great Slave Lake, N.W.T., is now completed, and was formally opened by me on June 28th. last.

It has since been visited by Inspector H.A. Conroy of Ottawa and G. Card, Esq. the Indian Agent living at Fort Smith, and in whose district the school is situated. They have probably presented their Reports to your Department. I beg to enclose three photos of the building but hope to obtain better ones for you during my next visit.

I am also enclosing a List of Children at present in the school, who are eligible for the Indian Department's Per Capita Grant as from July 1st, 1917. All these children have been medically examined, and the List itself scrutinized by Mr. Conroy with the one exception of of 030, Elsie Edward, who arrived at the school by a later trip.

In addition to the 42 names of children thus given, there are three others under Six years of age, concerning whom Mr. Conroy has promised to report to you. I trust your Department will consent to give the per capita Grant for these also, as they are orphans, and on account of their tender age require more care and attention than those who are older.

May I be allowed to express my gratitude to your Department

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's letter of the 27th ultimo, enclosing a list of the children at present in attendance at the Hay River Boarding School and who are eligible to receive the per capita grant.

[Signature]

In reply I beg to say that, as the building at this school has now been completed and furnished, the Department will provide a grant for 45 pupils from the First of July last, an increase of 20 in the number for which the grant was previously paid. The admission of the 42 children, whose names and register numbers are given, is approved. The Department cannot, however, allow any grant for the three orphan children mentioned by you, as they are under the age limit for admission as grant earning pupils.

[Signature]

The Department concurs in the hope expressed by Your Lordship, that the new boarding school at Hay River may result in an increase of usefulness and benefit to the Indian children who may be sheltered within its walls.

I have to thank you for the three photographs of the building which were enclosed in your letter.

Your obedient servant

J. D. McLEAN

Dear Dr. MacDonald -

In a report which has just come to hand from the Hay River Boarding School, I have learned of a serious out-break of diphtheria among the pupils last summer.

While no complaint at all has been made by the management, I understand that you passed by the school at the time of the out-break, but were not able to stop to give them any medical assistance. Will you kindly let me know how it came that you were not able to give any service to the school at this trying time.

Yours very truly,

Health & Sanitation:

This year the health of the children is good. In July we received by SS "Mackenzie River" a little girl from Arctic Red River who was reported to be suffering from Diphtheria - the whole of the new pupils were isolated in the Isolation Hospital (built last summer) - the little girl placed in a tent with a nurse. The new pupils, however, were infected and had to stay in the hospital six weeks. They were cleaned up - all things burned - and moved over to the large school. One week later it was found that the Indian girl that had been helping Mrs. Hunter (nurse) had the disease - the school was quarantined - no one being allowed to visit from the village. In all forty-three (43) boys and girls had the complaint. Through the faithful work of Mrs. Hunter and the Matrons, assisted by Mrs. Bowring (a trained nurse) no deaths occurred from the disease, though all were worn out by the tremendous strain.

Is Dr. MacDonald at our disposal.

Dr. MacDonald visited us, but could not stay as requested.

I have to report the death of one pupil from Laryngitis. At present all the pupils are exceptionally well. The strict quarantine regulations kept the disease from spreading to the village. The rooms are splendidly ventilated - the furnaces are a great success - each boy and each girl has a separate bed - and all are cheerful and happy.

Water is supplied from Hay River and the Great Slave Lake.

M. W. J.

Dear Mr. Scott.

Superintendent-General.
Indian Affairs.
Ottawa,
512929

Your letter of April 13 received on June 2nd. Re the outbreak of diphtheria at Hay River Mission. I beg to enclose the following extracts taken from my report to the department, dated Aug 13, 1917. The "Isle party" arrived at Hay River on the 18th July, and met the S. S. McKenzie River on her way back from Fort McPherson. She had on board seventeen children for the Mission School at Hay River, and one of the children a little girl, had been isolated on board the boat for diphtheria. She was in charge of Dr. Doyle of the R. N. W. M. P. of Fort McPherson, and Mrs Hunter, one of the staff of the Hay River Mission who was on board took charge of the patient as nurse. On their arrival here the patient seemed quite recovered from the disease, but as a precaution I advised that all the children should be isolated from the children at Hay River, and as they have an isolation building separated from the school and the immediate surrounding buildings, it suited the purpose well, as an isolation hospital. Mrs Hunter undertook to look after the case of the patient and of the whole number until such time as all danger of the disease was over. All precautions were taken, and instructions given as to the care & treatment of the patients in case it should break out again. The patient at no time had

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

been seriously sick, although the throat showed quite a patch of false membrane at first. Mr Inspector Comroy, who was also on board, instructed me to proceed down to Fort Simpson as there was an Indian brought up from Fort Norman, to the Hospital at Simpson, suffering from a diseased foot; which in his opinion required to be amputated to save his life. He however had to return to Fort Resolution, to finish up paying Treaty to a portion of the Indians, who were not present when Treaty was paid them a few days ago. They were delayed by ice & could not get into the Fort in time.

Hoisted the S.S. Northland, at Resolution the night of July 24th and arrived at Hay River on the 26th. Two more patients had developed the disease. (Two more of the children which were brought up from the Lower M'Clungie district.) The cases were of a mild form but distinctly diphtheretic in character. They were responding favourably to the treatment ordered & were not suffering very much. I proceeded to Simpson & arrived there on July 30th, where I found the Indian, one Bedzeta Francis, aged 65 years suffering from Cancer of the foot. I amputated the foot & returned to Hay River, arriving there on Aug 6th. Mr Hunter, informed me that already 14 of the children had had diphtheria, up to that date, out of the 17 arrivals. There were now only three more which had not been affected, so far. They were all recovering nicely, no complications following. They were all to be kept in isolation until all danger

3
of communication of the disease was over, before
they will be allowed among the other children in
the school. Most of their clothing will be destroyed
and they will be thoroughly disinfected and
all precautions taken to confine the disease.
There were no deaths following the out-
break, and I knew of nothing that I could
do, further than what was done. I trust
the above explanation will be satisfactory

I remain

your obedient servant -

A. L. McDonald.

519667

Dear Sir,

In July 13th, 1916, I wrote you respecting the conveyance of Indian Children to the Hay River Boarding School, pointing out the great distances over which they travelled and the heavy expenses incurred by the Diocese in connection with their fares. I mentioned having heard the report that the fares of some children who had been sent to the Roman Catholic Boarding School at Fort Providence had been paid by the Department through your Agent at Fort Simpson, and expressed the hope that you would extend the favour to us.

In your reply of August 23rd, 1916, No. 170367, you stated that the Department could not pay the cost of transport of any child to the schools, that it was through an oversight the fare of a child going to Providence was paid but it would not be done again.

I regret to trouble you again on this matter, but last July (1918), I was informed by your Agent of Fort Simpson, himself, that the Department was paying the fares of the children who were going up to the Providence School. He stated this quite frankly and openly to me in the presence of Inspector H.A. Conroy, and seemed surprised that I was not receiving the same benefit. These being the facts, I feel I must again bring the matter to your notice in the hope that you extend to us the help asked for as in the case of the children attending the Roman Catholic Schools in the Mackenzie River District.

I am, dear Sir,

Yours faithfully,

Jas R Lucas
Bishop.

Memorandum,-

Mr. Scott.

With reference to the Rt. Rev. J. R. Lucas's letter of January 18, last, regarding the transportation of Indian children to the schools, I beg to say that, if the Department pays such fares in the Mackenzie district for one mission, I would recommend that they pay them for the other mission as well.

170367/1

Ottawa, February 27, 1919.

Approved
MEMORANDUM.

Scd
Mr. Scott, -

On referring to the Fort Providence Mission School file I find that the Department paid for the transport of eleven children from Fort Good Hope, two from Fort Macpherson and one from Arctic Red River to that school, amounting in all to \$349.00. These children were rounded up by the Royal Northwest Mounted Police and their transport was paid for out of the vote for destitute Indians.

The Hudson's Bay Company have sent in an account for the transport of the children referred to by Bishop

Lucas from Fort Macpherson to Hay River, amounting to

\$218.25. - 3100

I agree with Mr. Conroy that the Hay River School

is entitled to the same consideration as was shown to the Fort Providence School, and the schools can hardly be expected to pay the cost of bringing pupils from such a distance, if it is necessary that they be taken in.

Dear Sir,

I have pleasure in acknowledging the receipt of your
170367/1
letter of March 14, informing me that your Department had forwarded
a cheque to the Bank for \$218.25, to cover the cost of the transport-
ation of children from Fort McPherson to the Hay River School.

In reply to your observation that the Department considers
there should be sufficient children available without going to such
remote points for recruits, I would respectfully say, that after very
careful consideration, the school has been established in the only
place where fish and potatoes can be procured in sufficient quanti-
ties to ensure an adequate supply of food for a large number of chil-
dren. Also, that if a School were established further North, the in-
crease of freight charges on all imported food and material would
throw a much heavier burden of expense upon the Department and Mis-
sion, for equipment and maintenance.

I might add that the Roman Catholics who have a larger
number of children to consider, have no School further North than
Providence which is only 80 miles from Hay River, and they gather re-
cruits from Arctic Red River only 35 miles distant from Fort McPher-
son, whence our children were drawn.

I am, dear Sir,

Ottawa, April 24, 1920

Right Rev. Sir,-

I have to acknowledge the receipt of Your Lordship's letter of the 21st instant, enquiring in regard to the quarterly returns of the St. Peter's Boarding School at Hay River.

In reply I beg to say that the September return for that school was received on March 24th, last, but the December quarter return has not yet been received. The grant due for the September quarter amounts to \$1,586.66. The Department has already made an advance of \$2,000.00 on the September and December quarters and in addition the sum of \$319.80 has been paid the Militia Department for supplies purchased for the school.

I would be pleased to receive the December and March quarter returns at an early date so that the balance of grant due the school may be paid.

I have the honour to be,

Noted & Estimated

Ottawa, Sept. 18, 1922.

MEMO FOR FILE:

Bishop Lucas called at the Department and, among other matters, referred to the laundry, stable and fencing that was being done this year at the Hay River Boarding School. The Deputy Minister promised favourable consideration to accounts in this connection and for a team of oxen that are being purchased, if properly certified vouchers are forwarded to the Department in April. I have noted the matter for the 1923-24 Estimates.

The Bishop also asked for an increased pupilage. We promised one supernumerary for the remainder of this fiscal year and we will endeavour to vote a pupilage of 50 from April first, 1923.

Duncan C. Scott, Esq., C.M.G.,
Deputy Superintendent General of
Indian Affairs,
Ottawa, Ont.

Dear Sir:-

During my recent visit to Ottawa I discussed with the Superintendent of Indian Education, the question of an increased per capita grant for the school at Hay River, but was informed that this could not be done without placing on the Department the additional financial responsibility of increasing the per capita grant for other schools belonging to other religious bodies in the McKenzie River valley. While it is not the desire of our Society to add unnecessarily to the heavy financial burden already being borne by your Department, I should like to make it quite clear that the present per capita grant of \$145. for the Hay River School, plus \$20. bonus, is not sufficiently large in the opinion of our Society, to help to meet the requirements of this School, and I have been requested to refer this question to you for further consideration.

For your information I may state that our Society, on assuming responsibility for the maintenance and administration of this School from Jan. 1st of this year, has been obliged to meet a deficit of over \$2,600., and as the estimate, submitted by Bishop Lucas, for operating this School for the current year, leaves our Society liable to a grant of nearly \$4,000., you will see how serious the situation is from our point of view.

Commending this matter to your favourable consideration, I have the honour to be, Sir,
Your obedient servant,

L.R. Westgate

Field Secretary & Acting General Secretary, M.S.C.C.

Ottawa, Feb. 26, 1923.

Dear Dr. Westgate:

I have your letter of the 17th instant, in which you request an increased per capita grant for the Hay River Indian Boarding School.

I wish to assure you that careful thought has been given to this matter, and I regret to state that, until Parliament provides funds for a general increase in per capita grants to all Indian residential schools, favourable consideration cannot be given.

Yours very truly,

R.A. *od*

D. C. Scott, Esq., C.M.G.,
Deputy Superintendent General,
Department of Indian Affairs,
OTTAWA, ONT.

Dear Dr. Scott,

The Board of Management M.S.C.C. at the annual meeting last week, gave very careful consideration to the tentative proposals which have been laid before you with regard to,-

- 1, The educational and medical needs of the Anglican Indians and Eskimo of the MacKenzie River Delta, and the adjoining Arctic Coast.
- 2, The future, in relation to the foregoing, of the existing Hay River Residential School.

The Board decided:-

- 1, That the pressing need is the provision of a residential school for Eskimo, with a small hospital attached; the same to be located at Herschel Island or some other suitable point on the Arctic Coast.
- 2, That the existing Hay River School should remain at its present general location.

I am leaving this evening to attend, at London, Ont., the Triennial Session of our General Synod. On the conclusion of the latter, in about ten days time, I shall hope to visit Ottawa and consult you, personally, on the above important decision of the Board of Management.

Believe me,

Yours very faithfully,

(Sgd.) S. Gould,

Memorandum:

Dr. Scott.

Mr. Moran, of the Northwest Territories Branch, Department of the Interior, has shown me their files with reference to hospital wings in the Fort Resolution and Hay River Indian Residential Schools. That Department has refused to designate these schools as hospitals, the Department of Health having advised them that it would be "an extremely dangerous situation to set up. Children are potential subjects of all of the infectious diseases, and having such a focus near a school seems to me to be contrary to all the recognized principles of health protection. I certainly think a hospital (separate building) is required and should be insisted upon." On these grounds, the Interior Department are not paying grants for the hospitalization of patients being treated at the Fort Resolution or Hay River Indian Residential Schools.

Our Department is allowing grants for patients at both schools (Files Nos. 74-139 and 50-139). The Department has written to Dr. Bourget, the Indian agent, regarding the advisability of keeping a patient with an infectious disease at the Hay River School. As a matter of policy, should we allow hospital patients in our residential schools? There is no question but what the authorities of the schools were prompted solely by charity, as they have kept this patient for 24 years without grant.

I presume that the Interior Department will probably cooperate with us in the provision of funds and in the erection of hospitals which may be found necessary in the Northwest Territories. The present discussion leads me to believe that a hospital, to be conducted either under Protestant or State auspices, should be established at Hay River, where the land is suitable for gardening. Further, it appears that Fort Resolution requires a hospital and this fact was brought to our attention by His Lordship Bishop Breynat in October, 1923 (134-4-5). There is a physician at Resolution but not at Hay River. Bishop Breynat's scheme was a combined residential school and hospital, which was changed eventually and which would certainly not be a proper arrangement.

If funds are provided by either the Department of the Interior or this Department, or by both, the Department of Health would submit plans for suitable buildings.

This memorandum has been written, following Mr. Moran's visit, in the interests of the health of the Indian children in residential schools and in the interests of all members of communities who require hospital treatment.

These
W. L. G. Grier
Supt. of Indian Education.

POOR-COPY

Ottawa, June 1, 1925.

Reverend Sir:

I have to inform you that this Department and the Department of the Interior have compared reports which have been received from the Hay River Indian Residential School and I regret to state that there has been duplication of the grants.

The Department of the Interior has been paying a grant of \$400 per annum for the conduct of a day school for children that are not wards of the Indian Department. This grant is conditional upon the regular attendance of ~~some~~ ^{ten} children, and it is my duty to point out that on the list of names directed to the Interior Department there are not ten who are not enrolled as pupils of the Hay River Indian Residential School.

More serious than this has been the duplication of maintenance grants in the case of three Storkersen children. The Department of the Interior has been allowing maintenance grants since April 1st, 1923, and their names have also been included on the returns to this Department and our grant has been allowed for the June and September quarters, 1923. These three names were included on all subsequent quarterly returns showing the enrolment at the Indian residential school; but, as the average attendance was more than 50 in each quarter - and grant paid for only 50 - it cannot be said that there was duplication of grants since October first, 1923.

I feel that an explanation for this action is due to the Department. The geographical situation of this school makes it difficult for us to refuse to admit children when applied for by the Rev. Principal on the grounds that they are not wards of this Department and therefore ineligible. We have to rely on the school management to deal fairly, and the facts mentioned in this letter are such that I feel our confidence has been misplaced.

Ottawa, Ontario.

Dear Sir:-

Your letter of the 1st instant (No 139-2-1) relative to (1) the payment of a grant by the Department of the Interior for the tuition of non-treaty pupils at our Society's Hay River School on condition that there should be not less than ten such pupils receiving tuition, and (2) the duplication of maintenance grants from your Department and the Department of the Interior for the three Sterkersen children for the June and September Quarters 1923, has been delivered to me, and in reply I beg to state as follows:-

(1) With regard to the grant paid by the Department of the Interior for the tuition of non-treaty children on condition that not less than ten children of this class should receive tuition, I have to inform you that the first intimation which I received of this grant being subject to this condition was derived from your letter now before me. It is possible, of course, that when the Department of the Interior undertook to make this grant to the Diocese of Mackenzie River, this condition was imposed, and that our Society was not informed of its existence at the time that the school was transferred to its control. I have examined all available correspondence in this connection, but having failed to locate any mention of this condition, I am writing to the Diocesan authorities, and also to the Department of the Interior for further information in this connection.

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR-COPY

When this information has come to hand I will communicate with you again.

In the meantime I beg to state that as this grant was payable by the Department of the Interior upon receipt of their own official forms which contained full information from the Principal about the pupils who were receiving this tuition, I am at present unable to understand how those responsible for the management of the School could be thought to have acted unfairly.

(2) With regard to the receipt of a maintenance grant from both your Department and the Department of the Interior for the Storkersen children for the June and September quarter of 1923, I have to inform you that no maintenance grant was received by our Society in this connection from the Department of the Interior before April of the present year. That grant did indeed cover maintenance for these children as from April 1st 1923, but as it has so recently been sanctioned and received, I am unable to understand how it could be thought that those responsible for the management of this School have been acting unfairly.

This School, as you are no doubt aware, did not come under the control of our Society until January 1st, 1923, and as the instruction which has been given to the Principals of all of our Society's Schools, to furnish me with a copy of their quarterly returns to your Department, did not come into operation at the Hay River School until after my visit to that institution in July and August of 1923. I am not in possession of the information which those forms contained for the March, June and September quarters of that year. The grants paid by you, however, and the number of children on the returns forwarded to you for the June Quarter 1923, and up to the end of the December Quarter 1924, so far as I have received them, are as follows:-

		<u>Average attendance for which grant was paid.</u>	<u>No of pupils on Register</u>
June Quarter	1923	48.82	(not available)
Sept. "	1923	46.53	(not available)
Dec. "	1923	50.	57
March "	1924	50.	57
June "	1924	50.	56
Sept. "	1924	50.	63
Dec. "	1924	50.	58

From these figures it is quite clear that your Department was not providing our Society with a maintenance grant for any pupils over the sanctioned number of 50 for the period mentioned, and as the grant from the Department of the Interior has but recently been sanctioned and paid, it is obvious that the maintenance expenses of all pupils above that

number, were being met from another source, namely from the funds of our Society.

Had our Society been receiving a regular quarterly maintenance grant from your Department for more than 50 pupils for the period in question, and at the same time another regular quarterly maintenance grant from the Department of the Interior for any pupils over this number, our integrity might justly have been questioned. In the light, however, of the information which I have set forth in this letter, and it is the only information which I have available at present, I see no reason why it should be questioned, and the facts as I have given them will, I believe, fully vindicate it.

Since receiving your letter I have written to the Principal of the Hay River School requesting him to furnish me with copies of the returns he forwarded to your Department for the March, June and September Quarters 1923, and when these have come to hand I will communicate with you again.

In the meantime, and before closing this letter, I should like to state that if there is any further information which you desire, and which you think I may be able to furnish, I shall gladly forward the same on receipt of your request.

I should also like to state that, in a work such as this in which we are engaged, where so many numerous details have to be attended to, and where distances between our respective centres are so vast as to prohibit more frequent meetings for conference and counsel, misunderstandings such as this one now before us, are very liable to arise. But these should not, I think, be allowed to affect our confidence in each other, and I very much hope that the explanations which have been set forth in this letter may furnish you with an assurance that your confidence in those responsible for the management of the Hay River School has not been misplaced.

Believe me Sir,

With very good wishes,

Your obedient servant,

L. A. R. Nestgate

Dear Mr. Scott:-

The Rev. Dr. Westgate, in accordance with our standing arrangements, has forwarded to me a copy of a letter to him (No. 139 -2-1) dated June 2nd, from Mr. J.D. McLean, Assistant Deputy Secretary, together with copy, dated June 9th, of his reply to the same.

The tone of Mr. McLean's letter, together with his charge of unfair action, and by implication, of deliberate dishonesty, on the part of the "school management" of the Hay River Indian Residential School, reflect so severely upon the honour of the Church that I have no course open before me than to refer the same to you for your kind consideration, and such action as, I trust, will remove from the management of the Indian Residential Schools administered by the Missionary Society of the Church of England in Canada, all charges and imputations of unfair tactics or dealings in the financial relationships existing between the Church, as represented by the Missionary Society, and your Department.

While, as noted in Dr. Westgate's reply, the matter under discussion, will be carefully followed up and investigated; I feel that the facts and considerations set out in that reply, are such as to immediately clear the "school management" of the charges or imputations made in Mr. McLean's letter, and such, I trust, as will enable you to take the action which I very respectfully, but officially, request.

Believe me,
Yours faithfully

Ottawa, June 17, 1925.

Dear Canon Gould:

I have your letter of the 13th instant, with reference to official communication of the 2nd concerning the Hay River Indian Residential School. I hasten to assure you that the letter in question was unfortunately worded and that the Department certainly did not intend to leave the impression that there is not the fullest confidence in your Society. When this communication was prepared, the Department was aware that the responsibility for the returns rested, of course, with someone at Hay River; and the only reason that the Rev. Principal was not addressed was the expressed wish of your Society to have critical letters directed to the general office. It was expected that Dr. Westgate would ask the school management at Hay River to furnish an explanation, and the officers of this Department regret exceedingly the misunderstanding, which must not in any way destroy our confidence in each other or affect our cordial relationships.

Yours very truly,

Duncan C. Scott

Dear Sir.

No answer necessary
ABD
In reply to your letter regarding some confusion in the manner of making out the reports for this school. I beg to state I have obeyed the orders I received from Bishop Lucas who told me he was acting under instructions given him from Dr. Scott's Office. He will return to Toronto in the Fall and you can easily get in touch with him and the whole situation I am persuaded will be made quite clear and show we have not attempted to misrepresent the pupilage at this school and the attendance has been rendered according to instructions.

Until receipt of your letter I was not aware of any irregularity I have made out the Report for the last Quarter ending June 30th had it signed by the agent and am sending it with this. I trust it will be found to be in accord with the wishes of the Department.

I hope to see Mr Finnie of the Department of the Interior in a few days time and will take up the matter with him and ask him to give you the result of our conference when he returns to Ottawa. I trust you be able to see we have tried to do what was right.

I am yours sincerely,

A. J. Vale
Principal.

C O P Y

139-2-1
from Interim file 4740.

Anglican Indian Residential School,

Hay River, N. W. T.

(via Waterways, Alta)

Hay River, N. W. T. July 21st 1925.

O. S. Finnie, Esq.,
Director,
North West Territories.

Dear Mr. Finnie:-

As the time we may have together during your visit to Hay River may be very limited, I have written down in brief statement an answer to your letter of enquiry.

According to a letter received from the Secretary of the Department of Indian Affairs Ottawa, there appears to be some confusion regarding the names sent in our reports to your Department and to his.

I have in each case reported all the names on the Register in the Class room. That was done according to the instructions given me by Bishop Lucas.

While in your Office in March 1924 you very kindly told me arrangements had been made to pay for the Half Breed and other destitute children in this part. I then informed you we were already in receipt of such from the Department of Indian Affairs. You expressed pleasure that such was the case. On my arrival in Winnipeg in May 1924 I told Dr. Westgate of the arrangement you had said was existing and he, I understand, made application for a grant for the Storkerson Children in addition to the Grant allowed for 50 children in our school as we had more than that number in residence at the time. This led to considerable correspondence, as there appeared to be some difficulty to locate certain Blank Forms to be filled in before such a grant could be made. Unfortunately some part of this correspondence took place during my absence on furlough and I could not get the necessary Blanks in time to forward same to you and to Dr. Westgate at Winnipeg.

During the interval consumed by this correspondence under our limited Mail Service much time

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

went bye. Our School met with a serious loss of six pupils by death and in one of my letters to Rev. Dr. Westgate I advised him, the number now would not total the number allowed by the Indian Department namely 50 pupils, and in order that the full Number might be retained I told him of my action in putting the names of the Sterkerson Children again on the list for the Grant from the Department of Indian Affairs. This I think was in the Spring of 1925 or late winter. Up till that time the only information I had was to the effect they could not receive the Grant from the North West Territory until the Blanks had been filled out and been received in Ottawa.

In the meantime a letter was sent to me saying the Grant had, through the kindness of your Office, been allowed on the Understanding such Blank would be forth coming in due time. The Blanks have since been sent and I understand a grant was made.

I sincerely regret any confusion my action may have led to, and at the same time desire to assure you I have faithfully tried to carry out to the best of my ability the instructions received from all Parties concerned both in Ottawa and Dr. Westgate in Winnipeg.

I am dear Sir,

Yours sincerely,

(signed) Alfred J. Vale)

Principal.

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

Ottawa, December 17, 1925.

Reverend Sir:

With reference to previous correspondence regarding the pupils at the Hay River Residential School for whom this Department should pay grant, it has been learned that you have informed the Department of the Interior you are not asking the Indian Department to pay grant for #038, Martini Storkersen; #039, Aida Storkersen; #062, Bessie Storkersen and #60, Charles Cammell and that you have recently applied to that Department for grant for #025, Polly Carter. The names of the above five children have, therefore, been struck off the June quarter return received from the Hay River School and their names should not appear on future returns to the Department of Indian Affairs.

We understand that an adjustment, made necessary by the duplication of grant for the June and September quarters, 1923, will be made by the Department of the Interior.

It is noted that #049, Margaret McDonald; #072, Violet Cardinal; #078, Annie Fitzgerald; #46, Alfred Norn; #47, Henry Norn; #66, Richard Blake; and #67, Edward Blake, are stated to be half-breeds. This Department has a ruling which permits the admission as grant-earning pupils to Indian residential schools of those half-breeds who are living the Indian mode of life with Indian communities. If you do not ask the Interior Department to pay grants for these seven children, you should forward to me applications and certificates of health for them, also full particulars regarding where they have been living, in order that this Department can decide if these children come within the terms of the ruling regarding the admission of half-breeds. In the meantime, we are allowing the grant requested for them on the June quarter return.

In future, when a child is presented for admission, you should forward an application to whichever Department you believe should be responsible for his maintenance. If it is found that the application has been directed to the wrong Department, it will be transferred to the correct Government office. If it is decided that the applicant is a ward of either Department, grant will be allowed from the date of entrance to the school.

I enclose a supply of the forms required for the children for whom this Department pays grant. I understand that you have already received a supply of forms from the Department of the Interior for those children for whom they are responsible.

Your obedient servant,

J. D. McLean,

Asst. Deputy & Secretary.

Dear Sir:-

I hereby reply to your letter of December 17-1925 dated and numbered 139-2-1 with reference to application forms for certain pupils of this Residential School. I have by this same mail forwarded to your Indian Agent at Fort Resolution the blanks filled in to the best of my ability. I regret not being able in all cases to give the full information as the children are far from their home and I cannot get the information sought.

I have asked the Agent at Resolution to be good enough to sign and forward same to you by the first chance.

I wish to thank you for the efforts you have made in getting this matter righted as far as we can. I will follow out the instructions given when making out the next report which will be for Quarter ending Mar 31 for the others had gone forward before your letter reached me.

I am yours sincerely,

A. J. Vale
Principal.

Dear Sir:-

This is but a brief note to inform you that our Commission are nominating to the Executive Committee of our Society, the Rev. W. B. Singleton, B.A., for the Principalship of the Hay River School, and are arranging for Mr. Singleton to leave Edmonton on the 16th instant to enter on his duties at this institution. As soon as the steamer service serves after his arrival, the Rev. Canon A. J. Vale, the retiring Principal will be leaving the school. It is expected, however, that he will have some considerable time with Mr. Singleton to advise him with regard to all the departments of the work and place the same under his supervision. Our Commission consider themselves fortunate in securing Mr. Singleton's services, and will furnish you through our General Secretary, with fuller particulars at a later date with regard to his past services and his general qualifications for this appointment.

Believe me, Sir,
Yours very truly,

T. B. R. Westgate

Dear Sir:-

With further reference to my letter of August 4th, relative to the Principalship of the Hay River School, I now beg to state that the Rev. Wilfred Burnett Singleton, B.A., who is being recommended by our Society for this appointment, is a graduate in Arts of the University of Manitoba. He is forty years of age, and in Priest's Orders, having been Ordained by Archbishop Matheson some years ago. He has recently been in charge of the Parish of Emerson, Manitoba, where his services were highly appreciated by his congregation. During the Great War he served Overseas, part of the time with the Field Ambulance, and part as a Chaplain. It is hoped that his appointment may, in due course, be confirmed by your Department.

Believe me, Sir,

Yours very truly,

T. B. R. Westgate

Owing to the inadequate Grant which is given by your Department to meet the operating costs of this school so remotely situated, these costs fall heavily on the funds of our Society. Our Society, however, has always met the same, but I should be glad if your Department gave further consideration to the question of the Grant for this school, and take steps to have it advanced sufficiently so as to cover more nearly the operating costs which must be met from year to year.

Ottawa, April 11, 1928.

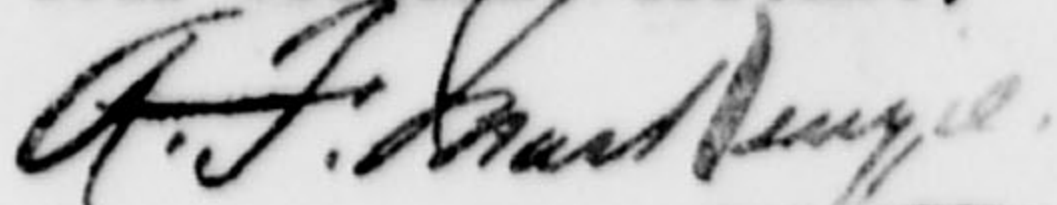

Reverend Sir:

I have your letter of the 3rd instant, with reference to the supply of wood at the Hay River Indian Residential School and concerning an increased per capita grant.

I wish to point out that the Indian residential schools in the North have been very generously dealt with in the matter of increased pupilages and per capita grants, as shown in the undermentioned tabular statement, which has reference to the Hay River School. I regret that there are no funds available for an increase in the per capita grant at the present time. I might state that, in addition to the larger grants, the Department has dealt as generously as possible in connection with the supplying of equipment and the effecting of repairs.

Dear Sir:- Re: The Per Capita Grant for Hay River School

I beg to acknowledge the receipt of your letter of the 11th. inst. (139-2-1) relative to the per capita Grant for the Hay River School, and to thank you very cordially for the same.

In writing to you again in connexion with this important matter, I desire first of all to assure you of our Society's deep appreciation of all the financial help your Department has given towards meeting the operating expenses of this institution. The gradual and substantial increases in the pupilage and per capita rates between the years 1917 and 1926 as set forth in your tabular statement have also been noted with much satisfaction. The situation, however, from our Society's point of view is still difficult, and our Commission desire me to lay the following statement of cash receipts and disbursements for the year 1927 before you for your information and sympathetic consideration:-

Average attendance	1st. Quarter	30.91	
Grant received	Do.		\$1390.95
Average attendance	2nd. Quarter	32	
Grant received	Do.		\$1440.00
Average attendance	3rd. Quarter	36.41	
Grant received	Do.		\$1638.45
Average attendance	4th. Quarter	45.33	
Grant received	Do.		\$2034.85
Average attendance for the year			36.16
& total grant received.....			\$6504.25

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

In addition to this, certain grants are receivable from the Department of the N.W.T., and although these have not been received in full for the year 1927, it is expected that they will total approximately \$1300. Neither this total, nor that set forth above as received from your Department, includes the Grant towards the Nurse's salary, as the medical work is looked upon by our Society as quite distinct from the educational. The total cash receipts, therefore, during 1927 may be reckoned at \$7804.25 or in round figures, say, \$8000.00

For the same period the cash disbursements made by our Society, as set forth in the Report of our Commission's auditor, amounted to \$12,152.67, leaving a cash balance of over \$4000. which our Society had to provide. The capacity of enrollment is fixed by your Department at 50 pupils, and consequently, the per capita rate should be \$240. to meet an annual expenditure of \$12,000.

As the greater number of the children in residence are recruited from districts around the lower parts of the MacKenzie River, it would appear to be a safe and wise policy to have the Hay River School transferred to a suitable location somewhere in that part. So long, however, as it remains where it is, our Society will be faced with an annual heavy deficit unless a capacity enrollment is maintained and the per capita rate substantially increased.

I have the honour to be, Sir,

Your obedient servant,

L. A. R. Nestor

Field Secretary, M.S.C.C.

Resolution, N.W.T.,
March 5th, 1929.

Sir:

x

x

x

The gardens at both missions, Hay River and Providence were fair this fall, an average of potatoes and vegetables being harvested, but it seems to us that if a certain amount of money could be spent in making land and clearing a large tract and help these Missions in making much more extensive gardens, with the help of artificial watering or more by pumping water on the gardens, splendid crops could be raised and give a food to these children that can not be substituted by imported goods. It can be done, once the land would be cleared, even fifteen to twenty acres at each place devoted to that purpose, and we intend to do that ourselves when we can clear that twenty acres patch of the agency, and have our Indians work at it themselves. We believe it would be a life saver to them. They like vegetables and are very fond of potatoes.

Ottawa, April 2nd, 1929.

Rev. Sir:

Mr. Indian Agent Bourget, in a communication to the Department, recommends that more extensive gardening operations be carried out at the Hay River Indian Residential School, and that, for this purpose, a certain amount of clearing should be done. He states that good crops of vegetables and potatoes could be raised, and that they would be of great benefit in the diet of the pupils. He also states the children like vegetables and are fond of potatoes. I shall be pleased to have a report from you as to the extent of the gardening operations you can arrange to carry out this coming summer.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

I very deeply regret to have to report that during my recent visit to the Hay River School I learned of the death by drowning of the boy pupil Benjamin Martin. This took place on July 3rd, just one day before my arrival, when Benjamin, along with about 19 or 20 other boys from the school, and under the supervision of Mrs. Singleton, wife of the Principal, were bathing in their customary bathing place. The water rested on a sandy bottom, and was not over three feet deep. As the pupils had used this spot for bathing for many years, and had previously bathed there this year, not even the slightest accident or misadventure was anticipated. The boys were all in the water at the same time, and Benjamin was not missed until they were dressing to return to the School. As soon as his absence was discovered, a search was made for him among the bushes along the shore, but failing to find him, the supervisor sent one of the bigger boys to call the Principal and men agents, and also to notify the local detachment of Mounted Police. Shortly after these arrived Mr. Boxer, General Assistant on the school staff, discovered the body lying in the water face downwards, and only about 30 feet from the shore. A determined effort was made to restore respiration but without effect. As there was no mark of any kind on the body the conclusion formed by those present was that death was due to "either cramps or heart failure". Corporal Cook who is in charge of the local detachment of the R.N.M.P. conducted an investigation, and informed the Principal that he did not attach any blame to the school management. The loss of this promising pupil is the more deeply to be regretted as it was the fond hope of his father that he should be prepared for the sacred Ministry of the Church, and arrangements were being made to accomplish this end.

During my visit I arranged with the Principal that in future he himself should accompany the boys when they went bathing. Messages of very deep sympathy were sent by me and the Principal of the School to the bereaved father, and I also arranged for Bishop

... who was at Hay River at the same time on his way North, to furnish him with a detailed account of his son's death. The School management were deeply grieved over the whole affair, but after receiving the information set forth above, I reached the same conclusion as the head of the local Mounted Police detachment, and feel that no blame can be attached to the School management.

I have the honour to be, Sir,

July 5th 1929.

Statement of Miss M. Hackett R.N.

Begin.

I, Minnie Hackett R.N. am attached to the staff of the Anglican Indian Residential School at Hay River N.W.T..

At about 6.15 P.M. on July 3rd 1929 I was called to go over to the Boys bathing beach at ~~MMH~~ the Lake Shore as one of our scholars Ben. Martin, had been missing and was likely drowned. I ran right over and found Mr Boxer trying artificial respiration. I found that the boy had been in the water almost an hour, and on the arrival of Corpl Cook a few minutes later, we decided that further first aid was useless.

The Body was taken to the Mission and thoroughly examined for marks or bruises by Corpl. Cook and myself, but there were no marks at all.

I know that this boys health was good generally, ~~MMH~~ apart from cold, he has had excellent health during the past year while I have been stationed at Hay River.

Hay River N.W.T.

July 5th 1929

Statement of Mr Eric Calrow.

Begins.

I, Eric Calrow, am employed by the Anglican Mission at Hay River N.W.T. as Farm Instructor. Last Wednesday Afternoon, July 3rd 1929, I was working in the field when Miss Sowden, the Matron-in-charge came to me at about 5.30.P.M., and told me that one of the Boys, Ben Martin, was missing. The rest of the boys had come out of the water at the lake shore and commenced to dress, when they discovered that there was a set of clothes without an owner, and on looking them over found that they belonged to the boy Ben Martin. I ran over to the beach and saw Mr Boxer, our engineer, in the water searching, and Mrs Singleton searching along the shore, the boys were still dressing by the smudge. I found that the boy must have been missing for almost half an hour, so decided to get a canoe, as neither Boxer or myself can swim.

I returned quickly to the school, passing Mr Singleton, The Principal running to the beach. I returned with the canoe, but found that Boxer had recovered the body out of the lake at a distance of about 25 or 30 feet from the shore. Corpl. Cook was then sent for, and in the meantime artificial respiration was tried, but was of no avail. The body must have been in the water well over $\frac{1}{2}$ of an hour, so Corpl. Cook and Const Salkeld decided that the body should be taken to the Mission.

The wind was blowing on shore and the water felt cold to me, but the day was mild, and I have known the boys to go in to swim on days very much worse than last Wednesday. They never go alone, Mrs Singleton, the Principal's wife was in charge that day, and some of the older boys are quite good swimmers.

Hay River N.W.T.

July 5th 1929

Statement of Albert Boxer.

Begin.

I, Albert Boxer, am employed by the Anglican Mission at Hay River N.W.T. as Engineer.

Last Wednesday Afternoon between 5.15 and 5.30 P.M. I was called by the Chief Matron to go quickly to the Boys Bathing beach, one of the boys could not be found. I was over there in a very few minutes and immediately went into the water and began to search with my feet and watching all the time as the waves broke almost to the bottom in the shallow water. I cannot swim so I sent back to the Mission for one of the life jackets, so that I could get out into the deeper water. I had great difficulty in keeping my feet as the ground swell was strong. This beach is only very shallow on calm days, and you have to go about 200 yards before you get three feet of water.

After searching for about half an hour I saw the boy Ben Martin face down on the sand and each wave lifting up the body, and only about 25 or 30 feet from the shore, and close to a drift log that the boys play around. I would judge that this log was in about 2 feet of water on a still day.

I carried the boy ashore to the smudge fire, and with Mr Singleton commenced artificial respiration. The boy was set to the Police Barracks which are over two miles away from the beach, and we worked on the body until the arrival of Corp. Cook and Sgt. Salkeld. I knew the boy had been in the water at least $\frac{1}{2}$ of an hour, and the first aid rendered was of no avail. There was no marks or bruises on the body. Our Nurse, Miss Hackett and Corp. Cook decided that further First Aid was useless, so the body was carried back to the school.

Hay River N.W.T.

July 5th 1929

Statement of Mrs W.B. Singleton.

Begins.

I, Martha Singleton, wife of the Principal, Rev. W.B. Singleton, of the Anglican Residential School, Hay River N.W.T. was in charge of the older boys of this school on Wednesday July 3rd 1929. I took them for their usual afternoon swim on the lake shore, a distance across the portage from the school of about three quarters of a mile.

There were twenty one boys in the group. We left the school at 4.30 P.M. The boys lit a fire on the beach to protect them from mosquitoes, undressed and went into the water. They bathed in a group, playing together. They were in the water about twenty minutes. I was seated by the fire all the time watching. Until the boys had partially dressed, no one noticed that Ben Martin's clothing was untouched. Immediately we called and searched the beach and near bush, but could not find him. I then ran to the Mission to give the alarm, and returned quickly to the beach with Mr Boxer, the engineer, having sent word to Mr Singleton who was in the village, and to Mr Calrow working in the field. Mr Calrow followed us almost immediately.

He and Mr Boxer searched in the water but did not find the boy. I returned to the school with three boys for a canoe and met Mr Singleton coming to the beach. I returned again to the beach with the boys and found that Mr Boxer had found the body of Ben Martin in the water and he and Mr Singleton and Mr Calrow were giving first aid. I returned again to the school for the Horse and brandy.

Hay River N.W.T.

July 5th 1929

Statement of Miss Helena Sowden.

Begins.

I, Helena Sowden, am the Matron-in-Charge at the Anglican Residential School at Hay River N.W.T.

For almost the whole of the past six years I have been in charge of the Boys of the school, and it is the custom each day, between the hours of 4 and 6 P.M., for the boys to engage in some kind of recreation.

Every Wednesday I take relief duty in the kitchen, and on these days some other member of the Staff takes charge of the boys for their recreation.

Last Wednesday afternoon it was arranged for the Principal's wife, Mrs W.B. Singleton, to take the boys bathing at the usual place on the lake shore. Before they left I handed each boy his towel and bathing suit, and watched them leave the school grounds about 4.30 P.M. in Mrs Singleton's charge.

About three quarters of an hour later Mrs Singleton returned and said that "she could not find the boy Ben Martin" and requested me gather the men at once, and send them over to the beach. I did this ~~thing~~, and all our three men were over in a very short while, and soon after received the very sad news that Ben Martin's body had been recovered from the lake drowned.

Ben Martin is a Treaty Indian boy, aged eleven years, and his parents live at McPherson. The practice of the boys bathing in the lake each summer, has always been carried on whilst I have been on the Staff of the Mission, and no thought of danger ever occurred, as the beach is very shallow, and has been considered quite safe even for the smallest children.

Hay River N.W.T.

July 5th 1929

Statement of Rev. W.B. Singleton

Begins.

I, W.B. Singleton, Principal of the Anglican Indian Residential School, Hay River N.W.T. have been in charge of this school for the past twenty two months. I have followed the usual routine and customs which were in effect at the time of my assumption of duty. In the past, the boys have been allowed to bathe in the Lake, but always in charge of a member of our staff. I myself being an efficient swimmer, very often take the older boys for their swim.

Last Wednesday July 3rd 1929, the boys were under the charge of my wife. At that time I was doing parochial work in the village, our Indians having just returned from their winters hunt.

While returning to the school from the village at about 5.30 PM. I met the Head Matron, Miss H. Sowdon who informed me that a boy named Ben Martin was missing from the bathing party of boys on the shallow beach across the portage. I hurried to the beach, and a few minutes after my arrival there, our engineer, Mr Boxer found the body and carried it ashore. During the next half hour we employed the method of artificial respiration, but without avail as the boy had already been in the water for at least half an hour. Our Staff Nurse, Miss M. Hackett was at the shore rendering and directing the First Aid attempted. I was aware that the boys were going to bathe at the beach that afternoon. Knowing however, that the boys had often bathed there before, I did not think that there could be any danger on such a shallow beach.

This boy came to the school with his brother Robert a little over two years ago. He is a Treaty Indian of the Tukudh Band and a son of the Rev. John Martin, Anglican Missionary at McPherson. He is eleven years and has always enjoyed good health while at the school.

Re-Ben, Martin, Anglican Indian Residential School
Hay River N.W.T.
Accidentally Drowned

P.C.R.
Mil

On July 3rd 1929 at 6.15 P.M. one of the boys from the above school came to the Detachment and told me that I was wanted at the Lake shore, as BEN, Martin, a school boy had been drowned whilst bathing. Accompanied by Reg. No. 6809 Const H.

Salkeld I left immediately for the boys bathing beach, and found that the body had been recovered from the lake. First Aid was being tried by the Nurse stationed here and Mr A. Boxer, the engineer from the Mission, but without any result. Investigating I found that the boy had been in the water for almost an hour, so it was useless to carry on with artificial respiration. Const Salkeld and I took the body over to the mission and washed it, and examined it very thoroughly with the Nurse for any marks or bruises, but there were none. Const Salkeld and I made a coffin and got it ready for burial, which took place here the next day, July 4th 1929.

I have taken statement from all the persons concerned, which I attach herewith.

The Bathing beach is quite safe under all ordinary conditions, as there is only 3 feet of water at a distance of 200 yards out. It slopes gradually and there are no holes, the danger arises when the sea is breaking on the shore, and BE a ground swell working. At the time this accident occurred the wind was from the east, but had died down considerably since the morning. Mr Singleton, the Principal of the school, had no idea that there could be the least danger in allowing the boys to bathe that day, they have apparently gone into the water when the sea has been quite as bad as on Wednesday last. The boys were in the care of Mrs Singleton, and though she cannot swim, several of the older boys are quite good. I think the boy drowned was simply swept off his feet and the back wash kept him down, as no call was heard by Mrs Singleton or any of the boys, and twenty out of the twenty one in the group were in the water, he was not missed at all until his clothing was not claimed.

HAY RIVER, N.W.T. July 15th. 1929.

Mr J.D. McLean,
Asst. Deputy and Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir.-

In reference to your letter of inquiry of April 2nd, concerning the extent of the gardening operations which we can arrange to carry out during this present summer, I would reply as follows.

As a result of a remeasurement made by us of our present available garden space at this school we find the area to be approximately $4\frac{1}{2}$ acres. This acreage is sown as follows

Potatoes and Vegetables..... 3 acres.
Oats 1 acre.
Hay $\frac{1}{2}$ acre.

This amount of available garden is different from that reported to your office last year. We then broke and sowed to hay about an acre and half of land nearer the Lake which has proved to be too shallow for favorable growth. Last year also we used a half acre of land belonging to the Police which is not at our disposal this year. Lastly, being inexperienced in the estimation of land at sight I gave a too generous measurement of our fields.

Besides the $4\frac{1}{2}$ acres at present in use we have a half acre of newly broken soil which will be ready for use next summer. Until this year, we have not possessed the necessary machinery for adequately breaking up new soil for favorable growth.

POOR COPY

Due to the rush of work here during each summer and fall and also to shortage of help, we are unable to clear and break more than one half acre of new land each year. This summer the amount will be even less as our men are to be responsible for the erection of our new hospital building.

I quite agree with our Indian Agent, Dr Bourget, that this school needs a much larger supply of vegetables, and accordingly much more garden space. Last year our garden crop was a partial failure due to late spring and early frosts. Also through the winter there was a shortage of fish. The staple foods for the children for the greater part of last winter therefore were bread, rice, beans, dried peas, oatmeal, tapioca, sago, jams and deer and caribou meat. Our children are enjoying good health and looking very fit.

Our wood problem is a heavy one. Due to the incapacity of a team of oxen to haul it down the river during the winter we must endeavor to raft it during the summer months. This along with other urgent duties makes it impossible for us to do much breaking of new land of which we need at least ten acres more for garden purposes. I am confident that twice this amount could be cleared along the River bank.

Yours Sir, very sincerely.

W. B. Singleton

Principal.

Rev. Sir:

I have your letter of the 15th ultimo, concerning gardening operations at the Hay River Indian Residential School. I note the difficulties you are having in the matter of breaking up new land, and I am pleased to state that the Department will allow a grant of \$400 to be expended this year in this connection. Under separate cover an accountable cheque for this amount is being directed to you, and, before the end of the calendar year, you should forward to the Department labour returns, in duplicate, showing the receipts of the men employed. A supply of these returns is also going forward by separate mail.

Your obedient servant,

A. F. MacKenzie

Very little news has come through from our Indian Boarding School at Hay River this winter. The number of children in residence this winter has been smaller than usual, partly due no doubt to the fact that there were

several deaths at the school last winter. It is becoming increasingly difficult to get the parents at Fort McPherson and other points far away from Hay River to send their children to the School. This is accentuated somewhat by the presence of the large Roman Catholic School at Aklavik in the Mackenzie Delta. If the Roman Catholic Church can provide such an institution at Aklavik where they have practically no people, why cannot our Church provide a School for the relatively large number of Indians of our Faith at Fort McPherson, is a question our Indians often ask.

[Handwritten signature]
Dr. Harold W. McGill,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Ont.

Dear Dr. McGill:-

In my letter of October 22nd last, I laid before the Secretary of your Department all the information in my possession about the pupilage at our Hay River School, and the per capita grant for the same. This school has an official capacity of 50 pupils, and there are 53 Treaty pupils in residence at present and 5 Non-Treaty, but the Secretary when replying to my letter on November 10th (No. 139-2-10) stated that "at the present time it is not possible for the Department to allow grant for more than thirty (30) pupils".

This decision has given me and our Commission one of the severest shocks we have had for some years, as we are charged with the heavy responsibility of keeping our expenditure within the sanctioned appropriation, and this is absolutely impossible of achievement if the grant for the Hay River pupilage is reduced from fifty to thirty pupils. As the Bank overdraft of our Society on account of our Indian Residential Schools, stood, on May 31st last at \$26,960.81, you will realize the critical nature of the situation which will confront us at the close of the current calendar year, and I most sincerely trust your Department may yet be able to afford some help in relieving us of the heavy load of anxiety which rests upon us at the present time.

In making this request I am not unmindful of the difficulty your Department may have before April 1st of next year of providing the full per capita grant for fifty pupils, but as five of the pupils are Non-Treaty and the grant for them should be paid by the N.W.T. Branch of the Department of the Interior, our Commission will endeavour to carry 50% of the cost of the remaining 15 pupils if your Department will agree to provide a like amount, this arrangement to stand until the end of March next only, when it is expected provision will be made in your estimates for the year

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

1935-36, and for all subsequent years for the per capita grant to be paid for fifty pupils.

If you will kindly give this urgent and important matter your own personal attention, and arrange with the Honourable the Minister of the Interior to provide the grant for the five Non-Treaty pupils from the mid-summer holidays 1934, and for your Department to provide the grant for the same period for half of the fifteen Treaty pupils, our Commission and our Society will be duly grateful.

I may say that I had purposed making this matter one of the subjects of discussion when I visited Ottawa as an Anglican member of the joint-delegation from various churches to confer with the Rt. Honourable the Prime Minister, but as the arrangements for that delegation have not yet been completed, and as the end of our financial year is so close at hand, the critical nature of the situation has made it imperative for me to write to you at once.

Yours very truly,

L. A. Westlake

MEMORANDUM:

The Honourable the Superintendent General,-

A request has been received from Reverend Dr. Westgate, Field Secretary, Missionary Society of the Church of England in Canada, Winnipeg, Man., that grant be provided for an increase of 20 in the pupilage at the Hay River Indian Residential School, North West Territories. At present, grant is allowed for 30 pupils at \$200 per capita, less 15%. During the past summer, the Anglican missionaries at Aklavik and northern posts recruited some 23 additional children and sent them to Hay River. Dr. Westgate now urges that per capita grant be provided for 20 additional pupils.

In August, last, Dr. Westgate forwarded an account for \$1,045, from the Hudson's Bay Company's Mackenzie River Transport System, for the transportation of the children from Aklavik to Hay River. Before these children left their home, the Department wired Dr. Truesdell, Indian Agent, Aklavik, that we would not be responsible for their transportation. Dr. Westgate was also informed, and further, he was advised that it would not be possible for the Department to allow grant for an increased number of pupils.

I quote from Dr. Westgate's reply:-

"This decision has given me and our Commission one of the severest shocks we have had for some years, as we are charged with the heavy responsibility of keeping our expenditure within the sanctioned appropriation, and this is absolutely impossible of achievement if the grant for the Hay River pupilage

- is reduced

Indian Affairs (RG 10 Volume 6472, file 905-1, part 1)

is reduced from fifty to thirty pupils. As the Bank overdraft of our Society on account of our Indian Residential Schools stood, on May 31st, last, at \$26,960.81, you will realize the critical nature of the situation which will confront us at the close of the current calendar year, and I most sincerely trust your Department may yet be able to afford some help in relieving us of the heavy load of anxiety which rests upon us at the present time.

"In making this request, I am not unmindful of the difficulty your Department may have before April 1st of next year of providing the full per capita grant for fifty pupils. Our Commission will endeavour to carry 50% of the cost, if your Department will agree to provide a like amount - this arrangement to stand until the end of March, next, only, when it is expected provision will be made in your Estimates for the year 1935-36 and for all subsequent years for the per capita grant to be paid for fifty pupils.

"If you will kindly give this urgent and important matter your own personal attention and arrange with the Honourable the Minister of the Interior to provide the grant, our Commission and our Society will be duly grateful."

Some years ago, the Department provided for a pupilage of 50 children. It was noted, however, from the returns that not more than 30 Indian pupils were enrolled. On making enquiry, it was found the school accepted approximately 30 Indian children and 20 Eskimo and half-breed children. Grant for 30 Indian children was paid by this Department and for 20 half-breed and Eskimos, by the North West Territories and Yukon Branch of the Department of the Interior. Three years ago, in preparing our Estimates, we reduced the Appropriation to provide for 30 pupils, which, as pointed out above, was the maximum number for which this Department had paid. This explains the reference in Dr. Westgate's letter to a reduction from 50 to 30.

It is now understood the North West

- 3 -

Territories and Yukon Branch is not paying grant for any Eskimo and half-breed children at the Hay River School, as they have all been discharged. It would appear the church authorities have recruited Indian children to replace the Eskimo and half-breeds, to the number of 20 children, and request grant for them.

The Estimates for the coming fiscal year, 1935-36, do not make provision for an increased pupilage. I submit Dr. Westgate's request for an increased grant for 20 pupils for your consideration and direction as to the reply that should be given him.

Territories and Yukon Branch is not paying grant for any Eskimo and half-breed children at the Hay River School, as they have all been discharged. It would appear the church authorities have recruited Indian children to replace the Eskimo and half-breeds, to the number of 20 children, and request grant for them.

The Estimates for the coming fiscal year, 1935-36, do not make provision for an increased pupilage. I submit Dr. Westgate's request for an increased grant for 20 pupils for your consideration and direction as to the reply that should be given him.

Harold W. Hill

Deputy Superintendent General.

Dear Dr. Westgate:

I have your letter of the 7th instant, relative to providing for an increase of 20 in the pupilage at the Hay River Indian Residential School. I have placed the request of your Society before the Honourable the Superintendent General, and, when I have his direction in the matter, you will be advised.

Yours very truly,

Deputy Superintendent General.

Failure to receive from your Department
any grant for twenty of the pupils in our Hay River
School, has inflicted a very severe hardship on our
Society, and our concern is all the more acute when
we find that approximately \$16,000.00 has been paid
to the Roman Catholic Schools for the services of
watchmen and no proportionate grant was made to our
Society's schools for the same purpose.

EXTRACT FROM LETTER FROM REV. T.B.R. WESTGATE, D.D.,
Field Secretary, M. S. C. C., 39-43 The Bible House,
Alexander Avenue, Winnipeg, Man., dated Mar. 18/35.

Original on 1-1-10.

While dealing with matters pertaining to this school, I desire to direct your attention to the statement made at the top of page 9 of my letter of the 19th ulto., namely, "Failure to receive from your Department any grant for twenty of the pupils in our Hay River School has inflicted a very severe hardship on our Society....."

During my visit to your Department on December 20th, last, I discussed this matter with the Deputy Superintendent General, and also with the Acting Superintendent of Indian Education, and received the impression that it would receive consideration. Previous to my visit I find from our records that I had placed the whole situation before the Deputy Superintendent General in my letter of December 7th of last year, and he replied to the same on December 19th, No. 139-2-1, stating that he had placed my request before the Honourable, the Superintendent General, and would advise me later of his direction. On January 8th of this year I wired the Deputy Superintendent General again in this connection, and he replied by wire on the same date stating the Minister was withholding his decision pending approval of estimates which were then before the Treasury Board.

From all the facts of the case so far as they have reached our Commission, the members are unable to see any substantial reason why the grant for these twenty pupils should not be paid in full, but they are prepared to adhere to the generous offer made in the third paragraph of my letter to the Deputy Superintendent General on December 7th last, namely, to carry half the cost of tuition and maintenance of the fifteen Treaty children, if your Department will carry the cost of the remaining fifteen and the North West Territories Branch of the Department of the Interior will carry the cost of the five non-treaties.

I cannot refrain from repeating, Sir, that failure to receive any grant for these children has inflicted a very severe hardship on our Society, and I earnestly hope the matter may now receive the sympathetic consideration it deserves, and that our generous offer may be immediately accepted.

Ottawa, March 25, 1935.

Rev. Sir:

I have to refer to that portion of your letter of the 18th instant, renewing your request that a grant be provided for an increase of 20 in the pupilage at the Hay River Indian Residential School.

In this connection I would say that this request has been given careful consideration. The Department is opposed to bringing children from Aklavik, Fort McPherson and other far northern posts, approximately 900 miles, and the consequent cost involved in their transportation, and is unable to give favourable consideration to providing a per capita grant for them. If there are, in the neighbourhood of the Hay River School, more than 30 Indian children - the number for which the grant is allowed - who are of school age and members of the Church of England, the Department will be prepared to favourably consider the providing of a grant for an increased pupilage. It is regretted, however, that the Department will be unable to provide a grant for an increase in the pupilage for the children who were brought from northern posts last summer; neither can transportation expenses be paid to bring these children to the school and in returning them to their homes.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Reverend Sir:

Referring to previous correspondence, regarding your request that grant be provided for an increased pupilage at the Hay River Indian Residential School, I now have to inform you that, after discussing the matter with Reverend Canon Gould, who recently visited the Department, it has been decided to allow grant for ten extra pupils as from April 1, 1935. This will provide grant from that date for a total of 40 pupils.

Your obedient servant,

A. F. MacKenzie

Original on 160-2

December 27, 1935.

Dear Canon Gould:

I have your letter of the 16th instant, setting forth your understanding of an interview with myself on the 7th instant, regarding the situation brought about through the erection, by your Society, of a residential school at Aklavik, North West Territories, to accommodate the Indian and Eskimo children from the lower Mackenzie Valley.

As agreed in my letter to you of May 14th, 1935, grant is being provided for a total of 50 pupils at Hay River, as from April first, 1937. In the event of the residential school at Hay River being continued for approximately 15 children from that neighbourhood, the Indian pupilage that can be provided for at the new school at Aklavik will be 35 children, or, the total number for which grant can be provided at both schools is 50 pupils. Payment of the grant to Aklavik could begin as from the time the pupils now at Hay River have been transferred to that school.

JS
The Department would favourably consider continuing the residential school at Hay River for the benefit of the Anglican Indian children in that neighbourhood and provide grant for approximately 15 pupils - it being understood, however, as all the buildings in question at this point are owned by your Society, that the Society will be responsible for the entire cost of any reconstruction

- or repairs

Rev. Canon S. Gould, M.D., D.D., D.C.L.,
General Secretary, M. S. C. C.,
604 Jarvis Street,
Toronto 5, Ont.

or repairs that may in future be required.

Regarding the request that a grant of \$2,000.00 be provided towards the equipment of the new residential school at Aklavik, I would say, while no funds have been specially provided in our Appropriation for the coming fiscal year for this purpose, it will, no doubt, be found possible to grant some assistance towards the cost of furnishing the building.

The Department agrees that the senior Indian pupils from the lower Mackenzie Valley, now at the Hay River School, remain and complete their education and that the others from that district be transferred to the new school at Aklavik during the summer of 1937.

Yours very truly,

HAROLD W. MCGILL

Deputy Superintendent General.

The Deputy Sup't General,
Department of Indian Affairs,
Ottawa, Ont.,

Dear Dr. McGill:

Re. Residential School at Hay River, N.W.T.

May I express to you my sincere thanks and the deep gratitude of the Diocese of Athabasca in planning to continue the School and Hospital at Hay River on Great Slave Lake. The closing of this school would have left the Protestant Indians from the Arctic Circle to Fort Chipewyan without a school for their children. I know how delighted our Missionaries and the Indians will be to hear the good news that it will not be closed. I trust that its continuation will be justified by the use which will be made of it, and that it will continue to be a great blessing to many children, - in mind and body and soul.

As Bishop of the Diocese of Athabasca and as one trying to help the Indians of the Mackenzie Valley in every way, I wish to thank you sincerely. May I assure you of my loyal co-operation in every way.

With every good wish to you in this New Year of 1936.

Believe me,

Yours faithfully,

A. H. Sovereign
Bishop

Dear Doctor McGill:

I have the honour to report on a visit to the Church of England School at Hay River.

I found that most of the children attending this institution are from the McPherson reserve. Of course school was not on when I was there, but I saw a great many of the children that were still there, and was informed that on the last boat 26 children are being sent North, 6 of whom are leaving school and 20 are going to the school at Aklavik when it is opened. The Principal informed me that he was more or less in the dark as to what would take place, as when the McPherson children were taken to Aklavik they would not have enough children to keep the present school going, and he thought His Lordship, the Bishop, intended making different arrangements so that the children remaining there would receive some training.

I saw all the children that were in residence there, and was very well pleased with their appearance and also with their work. I believe these children have been getting a very good training, as they have been taught only what would be of Doctor Harold W. McGill,

HAY RIVER C. E. SCHOOL (Continued),-

use to them when they left school. The boys have been allowed to do a certain amount of hunting and fishing, which is, in my opinion, a very good idea.

The school has maintained a good garden, and have sown 11 acres to oats and hay. They have 8 cows and calves and two horses and some chickens. I walked over the garden, and found it to be well cared for.

They have a small hospital in conjunction with the school, and I believe the nurse is paid by the Department, although I was not advised of this.

There are two crippled women there who will no doubt remain there until they die, and I am glad to know that we have a place for people in such a state, who cannot help themselves, and would be left to die unless they were taken care of by someone.

The staff at the school consists of three ladies and three men, including the Principal and his wife.

I know the Department have often felt that it was a waste of money to maintain this institution but after seeing it and learning what I did on this trip, I believe the effort and money expended have been justified. I would refer you to my report on the work carried on by the Church at Aklavik.

I have the honour to be,

Sir,

EX'D.

Ottawa, August 28, 1936.

Dear Sir:

I have your letter of the 13th instant, reporting on your visit to the Hay River Church of England Indian Residential School. I note that the children who were present at the time of your visit are in good health; that, in your opinion, they receive a very good training at this school; and that the effort and money expended have been justified by the results achieved in the training of the children at this school.

The church authorities are transferring the pupils from the more northern districts to the new school at Aklavik, but it is understood that they will retain approximately 15 children from Hay River and neighbourhood and carry on the work at this school. The Department has agreed to provide a grant for 15 pupils at Hay River and 35 at the new Anglican School at Aklavik from the date it is opened - this being the grants provided for these schools during the current fiscal year.

Yours truly,

A. F. MacKenzie,
Secretary.

M. Christianson, Esq.,

EX'D.

Ottawa, August 31, 1937.

Dear Dr. Westgate:

I have for acknowledgment your letter of the 28th instant and also copies of telegraphic communications that have passed between you and the Reverend H. G. Cook, of Fort Simpson, enclosed therewith.

I note that it is your intention to operate an Indian day school, rather than a residential school, at Hay River, on the understanding that the Department will pay per capita grant on an enrolment of 50 pupils at the Aklavik Residential School. This is the first intimation we have had of this change. We would like to have a letter indicating the exact date on which this change will take place.

I can see no serious objection to the payment of a per capita grant for 50 pupils at Aklavik, if the school at Hay River is operated as a day school and if the pupils in attendance at Aklavik are drawn from the immediate neighbourhood of the school. I cannot convince myself that the practice of transporting Indian children hundreds of miles to a residential school is a wise one. In addition to this, I am not at all satisfied with the course of instruction provided at Indian residential schools in the North West Territories. P. W. Head, M.D., Indian Agent, Fort Norman, in a letter to the Department dated July 9th, states:

"The one complaint of the Indians that I have to draw to the attention of the Department is the question of school instruction. They claim their children are taught nothing useful to them in their mode of living and that when they come home they are useless for work in the bush. Some even go so far as to state that they will not let their children return to school."

Rev. T.B.R. Westgate, D.D.,
Field Secretary, M.S.C.C.,
39-43 The Bible House,
Alexander Ave., Winnipeg, Man.

It is my

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

R-COPY

It is my understanding that certain church authorities have given this matter a great deal of study and hope to submit to the Department for consideration a revised curriculum for their northern schools in the immediate future.

In view of these comments, I can only express regret that it was considered necessary to send the Grosstete children to Aklavik. I do not know that there is anything we can do about it now that they have been sent, other than ask that these children be returned to Fort Simpson at the end of the school year.

The records indicate that we are making a contribution of approximately \$600.00 to the salary of a teacher at Fort Simpson.

The mother of these children, it is true, may experience considerable difficulty in providing them with the food and clothing necessary to enable them to take advantage of the local day school facilities. In this respect, however, the children do not differ from hundreds of other children throughout the Dominion. The appeal of an Indian agent for relief allowances for a family such as this is always sympathetically considered by the Department.

Yours very truly,

R. A. Hoey,
Supt. of Welfare & Training.

Department of Mines & Resources,
Ottawa, Ont.

Dear Mr. Hoey:

Your letter of the 31st ultimo has come to hand, and I am forwarding a copy of the same to the Rev. Canon S. Gould, General Secretary of our Society, in order that he may communicate with you direct in the matter of the operation of an Indian Day School at Hay River instead of the Residential School which closed on August 31st last. Your statement that you had not received any indication of this change until you received my letter of August 28th last, came as a surprise to me, as I had concluded from the following information embodied in Canon Gould's letter to me on March 23rd last that the proposed change had been mentioned and approved. His letter reads in part, as follows:-

"When in Ottawa a few days ago, I talked over the situation with Dr. McGill, Director of Indian Affairs; he agreed that, under the circumstances, we would be justified in sending at our expense the few pupils at Hay River, whose parents might not be satisfied with a Day School, down to the Alkivak Institution."

As Anglican Indian Day Schools do not come within the jurisdiction of our Commission, but are operated by the Diocese in which they are located, in collaboration with your Department, the Rt. Rev. Dr. A. H. Sovereign, Lord Bishop of Athabasca, proposed calling on you on his way to and from the recent meetings of our General Synod in Halifax. Through his visit and the further information you will receive from our General Secretary, any oversight on our part or misunderstanding in the matter, will, I feel sure, be fully and satisfactorily cleared up.

Your opinion that it is not wise to transport Indian children hundreds of miles to a Residential School, is shared by our Commission, and this is the chief reason why our Society

Indian Affairs (RG 10 Volume 6472, file 905-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Cont. 2.

Decided to discontinue the Residential School at Hay River, seeing that most of the pupils for that school were recruited from the lower parts of the MacKenzie River basin.

I have noted the complaint of the Indians, as reported by Dr. Head in his letter to your Department on July 9th, and beg to state that I am quite unable to accept their statement that, "their children are taught nothing useful to them in their mode of living, and that when they came home they were useless for work in the bush." The question is one of "vocational training" to which our Commission has given a great deal of attention, and while some progress has already been achieved in this direction, the facilities required have not, for lack of funds, been provided. Similar criticism to that embodied in Dr. Head's report was investigated by our Commission some years ago, more particularly with regard to the Indians in the northern areas of the country, and we were emphatically informed at that time, that the biggest catches of furs brought to the trading posts were brought by boys who had graduated from our Society's Schools. In the light of the information we received at the time of our investigation of this matter, we are unable to attach any great significance to the complaint Dr. Head reported.

On March 14th, 1935, your Department in a letter of that date, No. 1-1-10, advised us of four regulations recently adopted by the N. W. T. Council regarding the age limit for the discharge of pupils from Residential Schools in that part, and in those regulations provision was made for boys, 12 years of age, and in good physical condition, to be granted leave of absence during the hunting and trapping season. This regulation was made known to the principals of our Schools concerned, and has not, I feel sure been ignored, and any further regulations your Department may see fit to adopt along the same line will likewise be carefully observed.

I have noted your request that the two Grosstete children recently sent from Fort Simpson to Aklavik, be returned next year, and will submit the same to the members of our Commission at their next meeting.

Yours very truly,

TBRW/FS

Field Secretary, M. S. C. C.

Dr. Harold McGill,
Director, Indian Affairs Branch,
Department of Mines and Resources,
Ottawa,
Canada.

Dear Dr. McGill:- Re Hay River School, Great Slave Lake, N.W.T.

You are no doubt aware that the Indian Residential School at the above Post has been discontinued and the pupils have returned to their homes at Fort McPherson and Aklavik.

It is our wish to care for the education of the boys and girls of the Hay River Settlement by means of a Day School, and we ask for your approval. It is our plan to have the present Principal, Rev. W. B. Singleton, B.A., B.D., to remain in charge of this School, and also through the present nurse to keep the Hospital open.

I hope to be in Ottawa about Wednesday or Thursday of next week and will plan to see you personally.

W.S.
Would you kindly send to Mr. Singleton a supply of the official quarterly Report Forms.

May I also ask for information as to the amount of stipend which the Department will allow Mr. Singleton, and if it is in accordance with your usual policy, may I ask you to send it direct to Ven. Archdeacon Little, D.D., Athabasca, Alta., Treasurer of the Diocese. I believe that your Department usually sends this stipend in quarterly portions. I believe that your Department also makes an allowance for fuel.

I trust that our general plan and policy, as outlined above, will receive your commendation, for it is our wish, and I know it is your wish also, that our Indian wards should receive a proper education to fit them for their life and work in our North Land.

I hope to see you soon. With every good wish, and with many thanks,

Believe me,
Yours faithfully,

A. H. Sovereign

Dear Mr. Hoey, -

Re: School teacher, Day School, Hay River, N.W.T.

Rev. H. B. Singleton, who has been at Hay River Post for several years is leaving by the first boat out, which will be about July 7th, and he has had charge of the School at this point.

Rev. S. Earl Richards is leaving by the first boat and will arrive at Hay River on June 14th and will be with Mr. Singleton for three weeks. May I recommend to you the appointment of Mr. Richards as the Teacher at this station. He is from Wycliffe College, Toronto, and is thoroughly dependable and efficient. Mr. Singleton will have three weeks in which to train him. I trust that it will be possible for you to appoint him in place of Mr. Singleton.

With every good wish,

Believe me,

Yours faithfully,

EXD.

May 28, 1938.

Right Reverend Sir:

The Department is in receipt of your letter of the 20th instant nominating Reverend S. Earl Richards as teacher of the Hay River Day School. The appointment of Mr. Richards is approved.

In the current year's appropriation we have made arrangements for a salary of \$650.00 for the teacher at this point. This amount will be paid on the basis of 10 months in the academic year. A supply of quarterly return forms will be forwarded to Mr. Richards and at the end of each quarter he should send a return giving the information requested on the form regarding the Indian children only who are attending this school.

It is noted from your letter that Mr. Richards will commence duties about July 7. I presume that the school will be conducted during the summer and that the two months holiday period will be taken during the winter. I would appreciate, however, if you would definitely advise me on that point. Mr. Richards should forward his first return at the end of September, 1938.

Yours truly,

Rt. Rev. A.H. Sovereign, M.A., D.D.,
Peace River, Alta.

OF THE
DIRECTOR

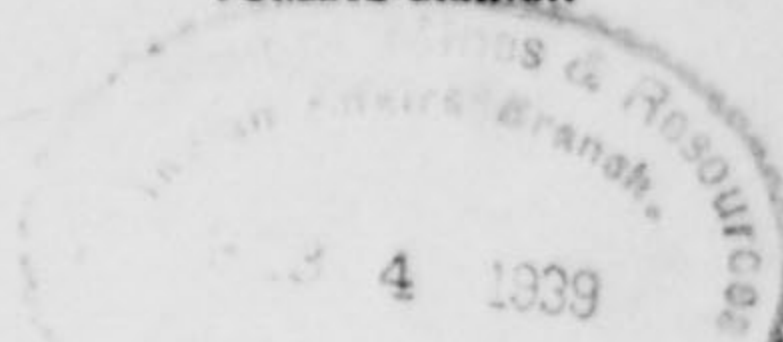

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

139-2-1
R

Ottawa,

LANDS, PARKS
and
FORESTS BRANCH

3rd February, 1939.

Memorandum.-

Dr. H. W. McGill,
Director, Indian Affairs Branch,
Department of Mines and Resources.

Anglican Day School at Hay River,
N.W.T.

Following the closing of the residential school at Hay River the Anglican Missionary authorities have operated a day school. The return for the quarter ended 30th September, 1938, showed 18 children in attendance, 16 of whom were Indians and 2 half-breeds. The December return indicated the 2 half-breeds had moved to Providence early in October but 2 additional Indian children were in attendance, making 20 Indians in all. The Northwest Territories Administration pays a grant to the day schools for the tuition of white, half-breed and Eskimo children when the average daily attendance is 5 or more but as the pupilage at the Hay River school is now exclusively Indian, our grant cannot be paid. Before notifying the Missionary authorities I would be pleased to know whether your Branch is in any measure responsible for the grant claimed by the Mission.

Dept. of Mines & Resources
Ottawa, Ontario

Dear Dr. McGill:

re Hay River Day School, N.W.T.

I have received word from Ven Archdeacon Little, Athabasca, Alberta, that he has not received any payment on the Grant which the Indian Department makes to this Mission for the School conducted by Rev. S. E. Richards, our missionary at that point. As you are aware, the Residential School has been closed and the pupils transferred to the Aklavik school. In its place, in conformity with the policy of the Indian Department, a day school has been regularly conducted for two years, ending June 1939, -one year under Mrs. W. B. Singleton, the wife of the missionary at Hay River for 1937-38 and for the past year 1938-39 under the personal supervision of Rev. S. E. Richards. The Grant for this work was to be \$650.00 per year but Archdeacon Little tells me that he has not received any payments whatever on this account. The records for the attendance have been sent regularly to your Department and show a large attendance.

Would you please investigate this matter for me and let me know at your early convenience.

You will be pleased to know that the plans for the erection of the Hospital at Fort Norman are progressing favorably and according to time-table. We are cutting all material in Edmonton and putting all the pieces together in bundles so that at Fort Norman the building will be put together very quickly- a kind of knock-down house. This will save much in the way of freight charges for sawed-off ends and also in the time for actual building operations. Many thanks for all your cooperation,

Believe me, yours faithfully,

Arthur H. Sovereign

Dr. Harold W. McGill
Superintendent of Indian Affairs
Ottawa, Ontario

Dear Dr. McGill:

I have just returned from a month's journeys down north as far as Fort Norman. I wish to speak to you about the Day School at Hay River.

You will remember that it was agreed that the Diocese of Athabasca should receive \$650.00 per year, provided that there were sufficient pupils, for the teaching of this school by the resident Missionary. This Day School was to take the place of the Indian Residential School as far as the Indians of Hay River and vicinity were concerned.

This School has been faithfully and efficiently carried on from the time the school was closed,--from September 1st, 1937 to June 30th, 1938,--and from September 1st, 1938 to June 30th, 1939,--but we have received no returns whatever for this work. You will remember that I wrote to you about it and you intimated that your Department had not received the reports from the principal of the School through Mr. Meikle at Fort Smith. I have taken the matter up with Mr. Meikle when I have in Fort Smith and he states that the reports of attendance, etc. had been sent to your Department regularly,--in fact, he showed me the files. Then I took the matter up with Rev. S. L. Richards, Hay River and he assured me that he had faithfully sent all the reports to Mr. Meikle and Mr. Meikle confirms this.

I cannot understand therefore, how the reports from Mr. Meikle to your Department have gone astray.

I trust that it will be possible for you to discover these reports and to send to me as representative of the Diocese of Athabasca, the \$1,300.00 which would represent the grant for the two years. The work has been loyally and carefully done and I know that your Department would wish to see that the remuneration was made to the Diocese. I know that you will do all in your power to see that this is done.

With every good wish and with many thanks,
Yours faithfully,

A. H. Sovereign

Ottawa, August 24, 1939.

My dear Bishop Sovereign:

I desire to acknowledge receipt of your letter of August 18, in which you inform me that you have not yet received the \$650 per annum grant payable by this Branch for the operation of the Hay River Indian Day School.

The officials of the Welfare and Training Division inform me that they have recently secured returns from the Hay River school, through the North West Territories Division of the Lands, Parks and Forests Branch, and that immediately following the receipt of these returns the Treasury Division was requested to send forward cheques to the amount of \$1,300, less one month. It would appear that the Hay River Residential School received per capita grant for the month of September, 1937.

Mr. Meikle, to whom you refer in your communication, is not an employee of this Branch and it is difficult to understand why the Hay River Indian Day School returns were sent to him. There is no reason whatever why they should not have been sent direct by the teacher to this Branch. This is the practice followed by other teachers in outlying sections of the Dominion and in districts where the Department is not represented by an Indian agent. Mr. Meikle, no doubt, sent all these returns to the

OFFICE OF
INDIAN AGENT

Fort Resolution, N.W.T.
July 20th, 1942

Dear Sir:-

Attention Mr. P. Phelan
Chief, Training Division.

RE: Day School at Hay River, N.W.T.

I beg to report that Rev. E. Richards who teaches Day School at Hay River, wishes to be informed regarding regulations in connection with the above noted matter.

At certain period during the school months, when practically every Indian family leaves the Fort for the bush there are not sufficient school pupils present to warrant teaching school. Would it be in order for the teacher to accept white and halfbreed pupils at school at any time during the year and enter them on the Forms provided by the Indian Affairs Branch, ?....

These white and halfbreed children have no other opportunity to attend school in that Settlement.

Respectfully submitted.

J.H. Riopel,
Indian Agent.

The Secretary,
Dept. of Mines & Resources,
Indian Affairs Branch.

Right Reverend Sir:

In forwarding his annual report the teacher of the Hay River Indian Day School writes as follows:

"I represent the Indian Agent when he is not here in everything -- gratis -- I teach far more outside of school hours than in -- in fact attendance is so erratic that the school is just a waste of good Government money when we need every cent for the war effort. Cleanliness and good living example etc. being shown and talked about."

We are also in receipt of a letter from Dr. J.H. Riopel, the Indian Agent, in which he states:

"I beg to report that Rev. E. Richards who teaches day school at Hay River, wishes to be informed regarding regulations in connection with the above noted matter."

"At certain period during the school months, when practically every Indian family leaves the Fort for the bush there are not sufficient school pupils present to warrant teaching school. Would it be in order for the teacher to accept white and halfbreed pupils at school at any time during the year and enter them on the forms provided by the Indian Affairs Branch?"

"These white and halfbreed children have no other opportunity to attend school in that settlement."

As you are aware, we allow an amount of \$65.00 a month for a period of nine months toward the salary of the teacher. However, we are not responsible for the education of halfbreeds or white children. I should appreciate receiving your comments regarding the future of this school.

Yours truly,

Rt. Rev. A.H. Sovereign, M.A., D.D.,
Bishop of Athabasca,
Peace River, Alta.

file 139-2-1

Mr. R. A. Hoey,
Supt. of Welfare & Training
Indian Affairs Branch,
Dept. Mines & Resources,
Ottawa, Ontario.

Dear Mr. Hoey:

Many thanks for your letter of August 3rd just received
re Hay River Indian School.

I feel that Rev. S. E. Richards must have written those lines when he was badly discouraged. I do not agree with him at all in regard to these statements. As a matter of fact, as you are well aware, it is the policy of the Indian Department more and more to emphasize the policy of Day Schools. It is true that so many of these Indian families are nomadic during the winter but it is also true that more and more, families are remaining at central points. I still feel that the Residential School is the ideal but I also know that Day Schools also may do effective work.

You and I know quite well that the Indian children of today will be forced to go out into the world to compete with their white brothers as they grow to maturity. The fur-bearing animals will be forced further and further north and trapping will not be the source of sustenance for our Indian Wards. It is therefore the responsibility of the Government and of every citizen in Canada to do his and her part to see that these children receive an education according to their capacity,-- reading, writing and arithmetic. They cannot be good citizens without it.

I am writing to Mr. Richards at Hay River and have asked him to give greater attention to this Day School. I have tried to point out to him its importance and I feel quite sure that he will do his utmost to see that this School is kept up to a high standard. I have even suggested that he should in the mornings go to the Indian huts and wake up the families and literally take the children to school. I know that has frequently

ARCHIVES PUBLIQUES
CANADA

POOR COPY

Mr. R. A. Hoey - 2

been done in other parts of the North. The Indian parents do not realize how important education will be to their children in days to come. I will await an answer to my letter from Rev. S. E. Richards and will report to you at once on receipt of his letter.

May I ask for my own information if your Department will allow the half-breeds and white pupils to attend the School at the same time. Will your Department make any special grant towards this school work on behalf of the whites and half-breeds? Our Government, which includes us all, surely should be responsible for the education of children, whether white, half-breed or Indian, within the Northwest Territories. For example, at Fort Smith a grant of \$500.00 per year was given to our Church towards the salary of a qualified teacher who would teach the white children as well. Would not this come under a similar plan?

May I thank you for writing to me in regard to the above School.

With every good wish and with many thanks,

Believe me,

Yours faithfully,

Right Reverend Sir:

Today the enclosed form was received with reference to the Hay River Day School. It is signed by Miss Winifred Neville, who is the nurse at the Hay River Hospital. In a letter dated March 23, 1944, she wrote us as follows:

"I am sorry that you have not been notified that Mr. Richards left Hay River last September, nobody as yet filling his place.

"At the wish of Bishop Sovereign I have been teaching school for a few hours in the afternoon, unless prevented from doing so, due to more sickness than usual. Was told not to keep a register."

We have not heard anything from you regarding Miss Neville teaching at the Hay River School and consequently no payment has been made to her, although I presume she is being paid as a nurse. I should appreciate your comments with reference to the enclosed form, which might be returned with your reply.

Yours truly,

Rt. Rev. A.H. Sovereign,
Bishop of Athabasca,
Peace River, Alta.

Dear Mr. Hoey:

Re: Hay River Day School.

Many thanks for your letter of August 3rd just received in reference to the Hay River Day School and its operation by Nurse Neville.

I note that there has been an enrolment of seventeen children but as usual the attendance has not been very regular. As you know, that is a common characteristic in our Northland. As a matter of fact, the children do what they wish and come and go as they please. There is practically no discipline whatever in the Indian homes. However the fact that seventeen children have been reached is most commendable. As the wave of development moves Northward, more and more these children have need of education; otherwise the results will be disastrous. They should be taught to read and write and do common arithmetic and should also have a knowledge of Canadian geography and democratic institutions.

You are quite right in your statement that Nurse Neville is in charge of the little Outpost Nursing Home at this point and serves these people faithfully in time of sickness and accident. Might I humbly suggest to your Department that an honorarium might be paid to Nurse Neville of one-half of that which was paid to Rev. S. L. Richards.

I heartily approve of her plan and gladly confirm the plan.

With every good wish and with many thanks, believe me,

Yours faithfully,

C. H. Sovereign

MEMORANDUM

E&D.

Ottawa, 16th November, 1946.

Bernard Neary, Esq.,
Supervisor of Training,
Indian Affairs Branch,
O t t a w a.

Re: Day-school at Hay River

I am submitting herewith copy of a letter from a resident of Hay River requesting the establishment of a day-school and enclosing the results of a survey of school-age children in the area.

On October 7th I inspected the facilities with respect to education at Hay River, and found the residents very desirous for a school. Later en route to Providence I again visited Hay River and made a further investigation. On this occasion the mission priest assured me that if a day school was established he would co-operate fully in seeing that the children of his faith attended, provided that provision was made for religious instruction. I informed him that such provision would be made..

Mr. Rogers, manager of the airport, offered to assist in setting up a school by supervising the repair of one large room in the existing unused vacant school building and wiring same for electricity. This room is approximately 36 feet by 24 feet, and has six large windows on the south side. It also is equipped with a large blackboard on two sides, and there are some desks available.

In view of the religious factor involved, it would be advisable for the Government to either purchase the existing school building from the Anglican authorities, or lease the building and install a teacher of the Roman Catholic faith.

As there are approximately forty children who

...

Indian Affairs (RG 10 Volume 6472, file 905-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

are potential attenders, the proposed school-room can readily be partitioned into two rooms, if required. Provision has been made in the 1947-48 estimates for the employment of two teachers and the supplying of necessary classroom requirements.

It is emphasized that the above is to be regarded only as a temporary expedient to meet the immediate requirements of the residents and until the situation has clarified.

Encl.

C o p y

Hay River Post,
Hudson's Bay Co.,
Sept. 12, 1946.

J. W. McKinnon,
Inspector of Schools,
C/o Mr. Fraser,
Mining Recorder,
Yellowknife, N.W.T.

Dear Sir,

Attached please find a list of the children 16 years and under residing at Hay River at the present time. I included the children under six years of age as they are potential school material. This only includes the people of Hay River and not the native people of Providence that are working here at present and may if conditions warrant it become permanent residents. There are about ten children in this group and they would all be Catholic.

After discussing the matter with various residents, I have come to the conclusion that a public school is what is needed and for the present in the old townsite of Hay River. As the new townsite develops there may be more White people come in and the white children population would probably be enough to warrant another and separate school for the White children which could be erected in the new town site. Until this time comes there are only a couple of children that would not have to cross the river every day to a school in the new townsite.

In my opinion and I am speaking as a resident and not as an employee of the Hudson's Bay Co.-a school would be a very good thing for Hay River and should be started as soon as possible. Many others of the settlement feel the same way and we do hope you can do something for us in this line.

Thanking you for your interest in our problems, I remain,

P.S. If I can afford you any other information am at your service.

S.F.D.

Yours faithfully,

(Sgd) Stanley F. Dean

MEMORANDUM

ED.

HAY RIVER INDIAN DAY SCHOOL

At a meeting with Mr. McKinnon, the following decisions were reached concerning these schools.

1. That there be two teachers employed, one to be Roman Catholic and the other Church of England.
2. That there be thirty minutes' religious education provided for.
3. That the Indian Affairs Branch run the school and that whites and breeds attend on a per capita basis.
4. That Mr. Roger of the Department of Transport at Hay River be approached concerning teacher accommodation.
5. That Father Gillis at Fort Smith be written concerning Dr. Alderwood's proposal of a non-denominational school.
6. That the teacher's salary be \$1,570.00 per annum.
7. That the school be run on a ten-month basis.
8. That Mr. Roger be also written concerning repairs required to put this school in proper condition.

Dear Mr. McKinnon: Re: Hay River

I have just received word from Bishop Sovereign of the Diocese of Athabasca and also from Nurse Winifred Neville of Hay River. The Bishop asks me to assure you of his full co-operation and says that he will gladly agree to the use of the former school room for a public school. Nurse Neville also welcomes the suggestion, speaks of some repairs of which you are probably well aware, and expresses her hope that the school will be firmly established from the beginning on non-denominational lines.

I shall be glad to discuss this matter further with you if occasion arises and trust that your plans may be worked out happily.

Sincerely,

(Sgd) H. A. Alderwood,
Superintendent.

The following proposals were made concerning the above school at a recent meeting of educational officials of the Bureau of Northwest Territories and Yukon Affairs and the Indian Affairs Branch.

- (a) that the Indian Affairs Branch operate this school,
- (b) that whites and half-breeds also attend with the payment of a per capita grant being made for them by the Bureau of Northwest Territories and Yukon Affairs,
- (c) that whilst this is a one-room school the teacher's position should be alternated between one of Church of England belief and Roman Catholic belief (the limit of such tenure of office being three years),
- (d) that if this becomes a two-room school, one teacher shall be Church of England and the other Roman Catholic,
- (e) that religious instruction can be conducted by a Church of England minister or a Roman Catholic priest or by any person duly authorized by such clergyman or by a teacher when so authorized during the last thirty minutes of the teaching day,
- (f) that if school accommodation does not permit of the pupils being placed in separate rooms for the purpose of religious teaching, provision shall be made by the

..... Inspector

POOR-COPY

OFFICE OF THE
DEPUTY COMMISSIONER

ADMINISTRATION
OF THE
NORTHWEST TERRITORIES
CANADA

OTTAWA

February 12, 1947.

R. A. Hoey, Esq.,
Director, Indian Affairs Branch,
Department of Mines and Resources,
O t t a w a.

With reference to your attached proposals concerning the Hay River Day School, I suggest the following revisions:

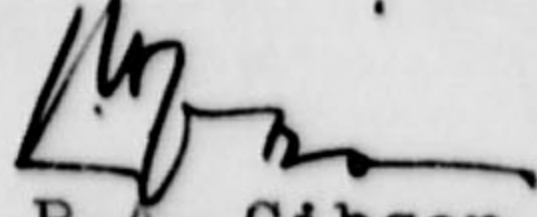

That Section (c) be revised to read as follows: "That whilst this is a one-room school the teacher should be chosen on the basis of qualifications and experience, the school to be conducted along non-denominational lines."

That Section (d) be revised to read as follows: "That if this becomes a two-room school it might be advisable to choose a second teacher from the other religious denomination."

These suggestions are advanced as a result of conversation with officials of the Indian Affairs Branch and are in line with procedures that have been adopted by provincial authorities when confronted with a similar situation.

Inspector McKinnon has already received the verbal approval of this arrangement from the bishops concerned of both the Roman Catholic and Anglican churches with the proviso that periods of school time be set aside for religious instruction. In view of this fact there should be no difficulty in operating the school along non-denominational lines.

In talking this over with you on the telephone this morning you informed me that the situation was going to straighten itself out shortly because all teachers are going to be full time employees of the department and contributors under the superannuation scheme.

R.A. Gibson,
Deputy Commissioner.

- (a) That the Indian Affairs Branch operate this school,
- (b) That whites and half-breeds also attend with the payment of a per capita grant being made for them by the Bureau of Northwest Territories and Yukon Affairs.
- (c) That whilst this is a one-room school, the teacher should be chosen on the basis of qualifications and experience, the school to be conducted along non-denominational lines,
- (d) That if this becomes a two-room school, it might be advisable to choose a second teacher from the other religious denomination.
- (e) That religious instruction can be conducted by a Church of England minister or a Roman Catholic priest or by any person duly authorized by such clergyman or by a teacher when so authorized during the last thirty minutes of the teaching day,
- (f) That if school accommodation does not permit of the pupils being placed in separate rooms for the purpose of religious teaching, provision shall be made by the Inspector of Schools whereby the time

allotted for religious teaching of Church of England children shall be carried on during the prescribed period of one-half of the teaching days in each month, and the religious teaching of the Roman Catholic children shall be carried on during the prescribed period of one-half of the teaching days of each month,

- (g) That no separation of pupils by religious denominations shall take place during the secular school work.
- (h) That no pupils shall be permitted to be present at any religious teaching unless the parents or guardians of such pupils desire it. If the parents or guardians do not desire the attendance of pupils during such religious teaching, then such pupils shall be dismissed before the religious teaching is begun, or shall remain in another room.
- (i) That Bishop Sovereign of the Diocese of Athabasca be approached regarding these proposals and the amount of rent he would wish for use of the former Hay River Residential School.
- (j) That Bishop Trocellier, Vicar Apostolic of Mackenzie, be approached regarding the above proposals.

Ottawa, February 14, 1947.

Dear Bishop Treceulier:

On the 14th of December, 1946, Dr. Alderwood wrote to Mr. J. W. McKinnon, Inspector of Schools for the Northwest Territories, concerning the proposed Day School at Hay River.

The following proposals in connection with this school have been made, after consultations between educational officials of the Bureau of Northwest Territories and Yukon Affairs and the Indian Affairs Branch:-

- (a) That the Indian Affairs Branch operate this school.
- (b) That whites and half-breeds also attend with the payment of a per capita grant being made for them by the Bureau of Northwest Territories and Yukon Affairs.
- (c) That whilst this is a one-room school, the teacher should be chosen on the basis of qualifications and experience, the school to be conducted along non-denominational lines.
- (d) That if this becomes a two-room school, it might be advisable to choose a second teacher from the other religious denomination.
- (e) That religious instruction can be conducted by a Church of England minister or a Roman Catholic priest or by any person duly authorized by such clergyman or by a teacher when so authorized during the last thirty minutes of the teaching day.
- (f) That if school accommodation does not permit of the pupils being placed in separate rooms for the

Re: Day-School at Hay River, N.W.T.

Dear Mr. Hoey:

Thanks so much for your letter of February 14th just received in relation to the Day School at Hay River. Your outline of the plans is most concise and clear, and I think the whole plan is feasible and fair to all concerned.

There is certainly a great need for a well-operated school at Hay River, N.W.T. We have now left behind us the earlier stages of life along the Mackenzie Valley. We have passed the period in which our Missionaries were called upon to take charge of the School and perform all of their other duties. Moreover, Hay River will immediately become a very important settlement beginning this year. It is the terminus of the Great North Road, and already a community of white people is unfolding there. We are receiving requests for land and Lots continually. I venture to say it will become the most important settlement north of Fort Smith, with the exception of Yellowknife. Already several white families are living there, - and their children, along with the Metis and native children, should be adequately cared for. I may add that apart from the aeroplane service from Edmonton via Fort Smith, there is a regular plane service from Peace River to Lower Hay three times per week through the C.P.A.

There is just one point which does not seem to be clear, and that is the question as to whether the Indian Affairs Branch will erect the school, or will this be left to someone else.

May I thank you and the Indian Affairs Branch for your letter and for this information in reference to a definite step forward in the adequate provision for the education of the children at Hay River.

With every good wish, believe me,

Yours faithfully,

Arthur H. Sovereign

Dear Mr. Hoey,

Your letter of February 14th, regarding the proposed Day School at Hay River, N.W.T., has been received, and its contents have been given due consideration. We understand that this question had already been brought to the attention of Bishop Trocellier.

In his name, therefore, we take pleasure in advising that the proposals as outlined in your letter of the 14th inst., if strictly adhered to, merit, in our opinion, recommendation and approval as a systematic basis for the satisfactory operation of a Day School at Hay River.

Kindly accept our sincere personal wishes for the complete success of this school. We welcome the proposal as another step forward in the development of the Northwest Territories.

Very truly yours,

Charles Gilles O.M.I.

Hay River Day School

With reference to your letter of February 12 concerning the above school, I have written to both Bishop Sovereign and Bishop Trocellier in connection with the amended proposals.

I attach for your files copies of the letters which have been received from both these denominations.

It is now our intention to write to Mr. W.P. Earle, who is our Acting Indian Agent at Fort Resolution. We intend to have him arrange with Mr. Roger of Hay River to have the necessary repairs made to this school as soon as possible. It is understood that Mr. Roger is a Department of Transport employee at Hay River and that Mr. McKinnon has discussed our plans with him.

It is our intention to operate this school as the majority of the pupils will be Indians. However, half-breed and white pupils will also be expected to attend and we will charge your administration at a per capita rate for their tuition fees.

Would you please indicate your approval of these proposals.

Re - Hay River Day School.
Your File - 139-2-1

Many thanks for your memorandum of the 27th ultimo from which it is noted that Bishop Sovereign and Bishop Trocellier are agreeable to the proposed arrangements for the operation of a day school at Hay River.

In so far as the Northwest Territories Administration is concerned we will be pleased to reimburse your Branch on a per capita basis for the tuition of white children and those of mixed blood. It is assumed that you will bill us quarterly following receipt of the regular school returns.

Ottawa, March 10, 1947.

Mr. W. P. Earle, Acting Indian Agent,
Fort Resolution, Northwest Territories.

Hay River Day School

There formerly existed at Hay River a residential school, operated by the Church of England. This school has now been closed for some years and it is now our intention to re-open it as a day school. Mr. J. W. McKinnon, Inspector of Schools for the Northwest Territories, recently visited this school. After discussing the situation with Bishop Sovereign, of the Church of England, and Bishop Trocellier, of the Roman Catholic Church, the following proposals were sent to each of these gentlemen as the basis for the operation of this school:

- (a) That the Indian Affairs Branch operate this school.
- (b) That whites and half-breeds also attend with the payment of a per capita grant being made for them by the Bureau of Northwest Territories and Yukon Affairs.
- (c) That whilst this is a one-room school, the teacher should be chosen on the basis of qualifications and experience, the school to be conducted along non-denominational lines.
- (d) That if this becomes a two-room school, it might be advisable to choose a second teacher from the other religious denomination.
- (e) That religious instruction can be conducted by a Church of England minister or a Roman Catholic priest or by any person duly authorized by such

Indian Affairs (RG 10 Volume 6472, file 905-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

clergyman or by a teacher when so authorized during the last thirty minutes of the teaching day.

- (f) That if school accommodation does not permit of the pupils being placed in separate rooms for the purpose of religious teaching, provision shall be made by the Inspector of Schools whereby the time allotted for religious teaching of Church of England children shall be carried on during the prescribed period of one-half of the teaching days in each month, and the religious teaching of the Roman Catholic children shall be carried on during the prescribed period of one-half of the teaching days of each month.
- (g) That no separation of pupils by religious denominations shall take place during the secular school work.
- (h) That no pupils shall be permitted to be present at any religious teaching unless the parents or guardians of such pupils desire it. If the parents or guardians do not desire the attendance of pupils during such religious teaching, then such pupils shall be dismissed before the religious teaching is begun, or shall remain in another room.
- (i) That Bishop Sovereign of the Diocese of Athabasca be approached regarding these proposals and the amount of rent he would wish for use of the former Hay River Residential School.
- (j) That Bishop Trocellier, Vicar Apostolic of Mackenzie, be approached regarding the above proposals.

Both Bishop Sovereign and Bishop Trocellier were written in this regard and I attach for your information copies of the answers which have been received from both these Bishops.

It is now our intention to proceed with the opening of this school. From Mr. McKinnon we have the information that Mr. Roger of Hay River is willing to have the necessary repairs

.... and

Indian Affairs (RG 10 Volume 6472, file 905-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and alterations made as soon as possible. We are informed that Mr. Roger is a Department of Transport employee at Hay River and that he is anxious to co-operate in every way with the operation of this school.

It is intended that the Indian Affairs Branch will operate and pay for this school. This is because of the fact that the majority of the pupils will be Indians. However, we intend to put in qualified teachers and good equipment and will expect that white and half-breed children will attend.

I have tried to give you as complete a picture as possible for your files, so that you will be fully aware of our policy in regard to the maintenance and operation of this school. Therefore, will you kindly contact Mr. Roger and let us have an estimate of (a) the cost of the labour and (b) the cost of the materials required for the opening of this school.

Bernard F. Neary,
Supt. of Welfare & Training.

Ottawa, March 10, 1947.

Dear Bishop Sovereign:

We have received your letter of February 22 and also one from Father Gilles, Bursar of the R. C. Missions of Mackenzie, on behalf of Bishop Trocellier. As both denominations have agreed to the proposals set forth in my letter of February 14, we have now written to Mr. W. P. Earle, our Acting Indian Agent at Fort Resolution, requesting that he prepare an estimate of the cost of labour and materials to put this school into operating condition.

As most of the children will be Indians, it is our intention to operate this school and to charge tuition costs to white and half-breed children attending it. Due to the present shortage of building materials, it will not be possible to erect a new school at Hay River at this time. It has been proposed that we use, temporarily, the former Hay River Residential School. We would like to have your concurrence in this proposal and a letter from you as to the amount of rent which you would wish.

I do appreciate your co-operation in this regard and hope that we can provide suitable educational facilities at Hay River for all those who require it.

Yours sincerely,

Director.

Dear Mr. Hoey:

Re: Hay River Indian School

Thanks so much for your letter of March 10th just received in reference to the establishment of a Day School at Hay River for the native, half-breed and white children. I also note that the Roman Catholic Church has agreed to the proposals.

*to Mr. Hoey
Superintendent*

I note that it will be very difficult to obtain materials for the erection of a school at that Post, and we therefore agree to the temporary use of the school-room by your Department for school purposes. The main building of the former Hay River Residential School has been largely dismantled, but the former school-room, actually used for the school-teaching, is in good shape, though it may need a check-up, but the last time I saw it it was in good order. It is well-built, and is conveniently situated.

I believe that a fair rental value would be twenty-five dollars per month, and I trust this will be satisfactory to your Department.

I assure you of our full and sincere co-operation in this wise and practical plan to provide educational facilities for the boys and girls of that important and unfolding community. As you know, it will be the terminal of the Great North Road from Peace River to Great Slave Lake, and will rapidly grow and develop.

With every good wish,
Believe me,

Yours faithfully,

Arthur H. Sovereign

Mr. R.A. Hoey, Director,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Hoey:

I beg to acknowledge copy of letter forwarded to his Excellency Bishop G. Trocellier of Fort Smith, N.W.T., regarding the proposals in connection with the operation of the day school at Hay River, which your Department proposes to open for the joint use of Indian, Half-breed and White children.

We have no objections to your Department operating such a school nor can we see any reasons for its being opened to Indian and White children but we are opposed to the manner in which it is proposed to conduct this school.

The ordinances of the North West Territories provide for separate Catholic schools for Catholic children. This is a right which we cannot set aside for any consideration. Therefore, this firm attitude on our part must be remembered by all your officials in any scheme of schools which they propose for the Territories in question.

Yours very truly,

J. O. Plourde

R.C. Signals Radio Station,
Hay River, N.W.T.,
9th April, 1947.

Mr. J. W. MacKinnon,
Superintendent of Education,
Dept. Mines & Resources,
Ottawa, Ontario.

Sir:

I have been in receipt of your letter of the 25th February for some time now and it has been my intention to write to you earlier but this has been impossible for reasons I shall outline below.

The four copies enclosed with your letter of the St. Johns Ambulance magazine have been forwarded to the school and should prove quite useful.

Now for a short report on the school and its progress. The school opened immediately all the lesson plans and texts were received from the Dept. of Education, Alberta. These, I wish to point out, came via C.P. Airlines very promptly and additional lesson plans and texts have been received since from time to time.

The last two weeks of January saw the school in operation and it has been steadily maintained since five days weekly from one to four o'clock P.M., giving the pupils a 15 hour school week plus their home study assignments. To date I have supervised the work and the marking of all test papers and very satisfactory progress has been made. Only seven (7) pupils are attending as it has been impossible to consider a larger number due to the limited accommodation and the absolute lack of fuel.

Mr. Camsell of the Dept. of Mines and Resources, whom I understand you met whilst you were here, has loaned one room of his house for the school and provides the fuel for heating purposes.

For the last five weeks I have been unable to carry on with the work due to pressure of my own work. A new radio station building was shipped in over the winter road and erected at the end of February. This has necessitated the move of the complete station, plus redecorating, etc., and has been a great drain on my available time.

....

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

In this connection I was very fortunate in securing the services of Mrs. Amy Kraus, a housewife of this settlement, who has carried on in a very satisfactory manner for this last mentioned period. She is a woman of about forty years of age and has, herself, a reasonably good education which she has apparently supplemented with reading and discussion. She has shown a natural flair for teaching work and is well liked by all the children. She has good control of the classes and is especially capable with the younger children.

Mrs. Kraus has asked me to approach you with regard to her opportunity to secure a permanent teaching position with the Department when the school is erected here this coming fall. Or, should a school not be erected, (which would be very unfortunate in view of the groundwork we have both put in), she would be willing to carry on this same type of school next year at a salary.

She is so interested in the work that she is willing to go "outside" this summer and take a course in teaching methods in Edmonton. I would be very pleased if you would write to me suggesting any such course that may exist. Mrs. Kraus is willing to undertake such a course entirely at her own expense if given any encouragement with reference to teaching employment here in the future. I have no hesitation whatsoever in fully recommending this offer for full consideration.

The seven children attending the school have set up an attendance record which rivals that of any school I have ever seen. Only about two absentee days have been recorded both due to sickness.

It has been quite a problem grading these children as some are of Grade 6 standing in Reading and Writing and only Grade 3 standard in Arithmetic. The next will be an exactly opposite case. However, we have now succeeded in grading them all and they are progressing quickly since, due to the small number involved, instruction almost amounts to personal, private instruction. The teacher appointed to teach school here should find his or her work the much easier for this.

Any suggestions you may have to offer will always be appreciated and I would like to hear what you think of the offer made by Mrs. Kraus so that I may pass the information along to her. We are both going to carry on when I get back to the school shortly until the end of June. However, due to construction work and the installation of new equipment planned for this radio station in the coming year,

it will be impossible for me to carry on the school work on any basis other than supervision next year.

I hope that this interim report of how this venture is going will prove both interesting and informative to you and that you will take the trouble to reply to my questions in the near future. In the meantime, I remain,

Yours truly,

(Sgd) T. D. Hodnett) W.O. 2

Indian Affairs Branch,
O t t a w a.

Dear Colonel Neary,

Find enclosed copy of a letter received from Sgt.-
Major T. D. Hodnett of Hay River, N.W.T. It is a source
of gratification to learn that the children like school
and from this letter we realize the great need of a properly
organized school at Hay River.

You will note from the attached letter that Mrs.
Amy Kraus has been assisting with the school class at that
point and would be willing to go outside this summer and
take special training at her own expense in order to assist,
provided her appointment were approved by the Department.

Any comments that you might make regarding this
matter would be appreciated.

Yours very truly,

J. W. McKinnon

*Mr. Neary
to be
white*

Dear Sir,

[In reply to your letter of March 10th, regarding the opening of an Indian School at Hay River, I discussed the matter with Mr. Roger on my last trip to Hay River and also with Mr. Dean and several other residents of that post. All were of the opinion that the present building which was used as residential school is entirely beyond repair, and that it would cost more to fix it up than it would to erect a new building.

Note AS you perhaps already know, there is expected an increase in the population of Hay River Settlement, and undoubtedly white children of school age will make up a large proportion of the increased residents.

I have heard that a very serviceable school has been built at Fort McPherson, based on the modern style, with adequate lighting and other facilities. I am of the opinion that Hay River should now merit such a school, in view of the fact that possible tourists and others of the general public from the provinces will visit the settlement and a modern school would show ~~them~~ the interest taken by the government in the welfare of the children in this new community.

Another factor which I would like to draw to your attention is the widely scattered plan of the settlement, which should receive some consideration when choosing the site of the school in order to have a central location, so that the children will not have to

Herewith is the original memorandum from Mr. Gibson to Mr. Hoey regarding the proposed Hay River Project of which we have now prepared copies for our own use.

OTTAWA

June 11, 1947.

Mr. Hoey

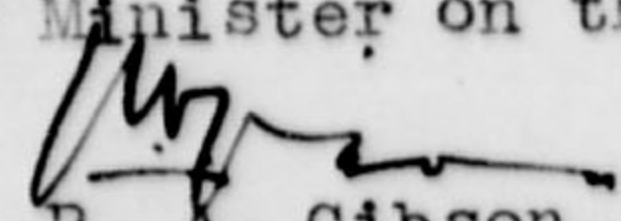

Re - Indian School at Hay River.

This morning we discussed over the telephone a message which School Inspector J.W. McKinnon has addressed to you with copy to me. Apparently the message did not reach you, so I am sending you a copy of what I received.

It is evident that Mr. McKinnon finds an even greater need of a school at Hay River than there was when he visited the point last year. There is apparently a contractor who would be willing to construct the building. No doubt the Director of the Surveys and Engineering Branch, who has engineers supervising construction in the Mackenzie District, would be able to give you useful advice as to whether the contractor who made the offer is reliable and also whether the price he has quoted is fair and reasonable. It is certainly a great deal larger sum than we would have paid for such a building before the war, but of course the cost of constructing buildings, particularly in remote districts, has increased a great deal. If you want a report from our agent at Yellowknife on Peter Matson please advise me.

As we agreed over the telephone, I discussed the subject tentatively with our Department Minister who says that he is now sending to our Acting Minister the list of items for consideration in connection with the supplementary estimates. He is prepared to receive a recommendation from you about the Indian School at Hay River which the Northwest Territories Administration would support to the extent of participation in the benefits by other than Indian children.

Will you please let me have a copy of the memorandum you send to the Deputy Minister on this subject.

R. A. Gibson,
Deputy Commissioner.

POOR-COPY

Extracts from letter received from
Mr. J. W. McKinnon, written at Edmonton,
July 22nd.

Hay River School

"I have wired Ottawa indicating that there are about 70 children of school age at Hay River and a school is greatly needed. I indicated that Mr. Peter Mattson, head foreman of the new Yellowknife Hotel, was at Hay River and said he would provide the materials to build a 4-roomed school and residence at a cost of \$50,000. The reply from Colonel Neary was that a supplementary estimate of \$50,000 had been approved.

"The plans arrived at Yellowknife on Friday, July 18th, and were discussed with Mr. McNiven and Mr. Lindstrom. Mr. McNiven had a little time to spare, hoping to scan the plans, and he expressed the opinion that Mr. Mattson should not get a cent more than \$35,000. Following this, I spent five or six hours with Mr. William Lindstrom, engineer and superintendent of the new Yellowknife Hotel, and, in Mr. McNiven's opinion, the finest and keenest builder in the country.

"There are approximately 300,000 cubic feet in the new Yellowknife School, which means that it is costing about 50¢ per cubic foot. We expect to follow the plans as submitted, but to eliminate the basement, as has been done with the new Yellowknife school. The building will be placed on cement pillars sunk to permanent frost level. The building will be lowered 12 inches off grading, and the stairs and halls will be eliminated from the basement.

"The capacity of the school is about 36,000 cubic feet, which at 50¢ per cubic foot would approximate \$18,000. The residence is about 16,000 cubic feet, which would approximate \$8,000; thus the total cost would be about \$27,000. However, Mr. Lindstrom felt that, should the building cost \$31,000 or \$32,000, we would be getting it done reasonably and that at that price the following features should be included in the contract:-

1. School placed on cement pillars at least 9' down in the ground and 18" above ground;
2. Eliminate the fireplace in the residence;

Indian Affairs (RG 10 Volume 6472, file 905-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3. Place accordion doors and false studding between the two rooms, making them convertible into an auditorium or community hall;
4. Put in a pressure system, i.e., a well under the building with a 2,000 gallon tank and feed water to the school for flush toilets, sinks and hot water system;
5. Supply Delco light plant - 32 volt D.C. and 110 volt A.C.;
6. Install cess-pool and two inside toilets;
7. Put built-in cupboards in each room and supply table for each;
8. There should be maple flooring in the rooms.

"Peter Mattson will be sending me in tomorrow's mail, I expect, a letter promising to do the above at \$32,000. We have agreed that this is fair.

"He has also promised at that price to install sand boxes and ice-slide, swings, teeters, etc.

"It is imperative that this school get under way as the people at Hay River were ready to rebel when I landed - they thought the plans had fallen through.

"We must speed it along and get Mattson going this next week, if possible. He could have the school opened by September.

EXTRACT
139-51-1
Fort Rae School

"On Thursday, July 17th, I visited Fort Rae to discuss the proposition suggested in Colonel Neary's wire regarding renting the Buffam property at \$50 per month with the option to buy. This Mr. Buffam agrees to, providing the government guarantees to purchase the property by the 1st May. This should be done.

.....

"The residence alone is worth \$8,000 today. The store would make an ideal classroom. The Roman Catholic priest intimated that hospital space could be used as dormitory facilities for perhaps twelve children during the first year. George Buffam is honest and promised to hold the property for a week or so. If the property is leased, the government should take the 55 cords of wood, which would heat all the buildings for the first winter. Oil cannot be had. The school supplies and equipment for about thirty children should be forwarded, together with a 45-gallon drum of naphtha oil, as the wind charger is not always sufficient for the lights. Radio batteries are also required."

Ottawa, July 29, 1947.

MEMORANDUM

Mr. MeikleRe: Hay River.

I visited Hay River on June 9th and discussed educational needs with the Manager of the Hudson's Bay Company, the Roman Catholic priest, Miss Neville of the Anglican Mission, representatives of the R.C.C.S., and many others. In the evening I was invited to attend a meeting of all the Indians at this settlement. They requested that they be provided with a government-operated day school, informed me that there were over 70 children of school age in the vicinity, and stated that it was possible there would be over 100 by the fall of the year.

I visited the homes of the community which, in many instances, left much to be desired. There is need of a housing programme at this settlement, together with considerable adult education.

As Hay River is in a good farming area I am of the opinion that considerable emphasis should be placed on agriculture. The Indians here are trying to make gardens by means of dog power which is not any too suitable. If a small gasoline tractor could in some manner be made available for their use, it would materially assist them in their efforts.

39-2-1
X
OTTAWA, 27th October 1947

MEMORANDUM TO MR. R.A. HOEY

Re - Conversation with Bishop Trocellier and Father Plourde

This morning I talked with these two gentlemen for an hour and a quarter, chiefly about conditions in the Northwest Territories.

At a suitable moment in the conversation I brought up the question of the Hay River school. They expressed the opinion that there are really not enough children in the Hay River district to justify the building of a two-roomed school. They said that most of the Indian children who constitute the greater majority would be with their parents forty or fifty miles down the highway during the winter. On being pressed about the proposed arrangement for a single school with a Catholic and a Protestant teacher and with a period assigned at the end of each day for religious instruction they said:

- (a) That this is contrary to the policy of the church, but
- (b) That they would be willing to accept it as a temporary expedient on the understanding that the senior teacher would be a Catholic. They base their argument on the assertion that three-quarters of the children would be Catholic. They did not insist that the children be divided vertically into two classes.

It seems to me that the necessity for building a school should be re-considered, but if it is deemed that such a necessity exists, then we should go ahead with the plan as at present envisaged, with the understanding that an effort will be made to find a senior teacher of the Catholic faith to act as principal.

Noted for [unclear] [unclear]
In the course of the discussion Bishop Trocellier asked that a new residential school be built at Fort Resolution, or if this should be impossible, that a four-roomed class-room building be erected. He asked for a second fire escape on the school at Providence. (This in my opinion should be provided at once). He also asked for a new four-roomed class-room building at Aklavik.

Re: Hay River, N.W.T.,
Proposed Day School

My dear Mr. Phelan,

Rumor has it that it is the intention of the Department of Indian Affairs to build a new neutral day school at the above place. We have no objection to a project of this nature if provision is made for a school for Catholic Indian and white children of the locality. It is unnecessary for me to remind you of the legal rights of Catholics in the Northwest Territories in the matter of education and I shall not, therefore, insist on them in this letter.

It will be of interest to you to have on hand a complete list of the children of Hay River, both Catholic and non-Catholic. This list also gives you the racial origin of each child of school age.

It would be unfortunate for the Department to attempt, at Hay River, the setting-up of a school system which Catholics could not approve of, and to which they would not be authorized by their Church to send their children.

Hoping, therefore, that you will be kind enough to bear the above in mind when arranging school accommodations for Hay River, I remain,

Very truly yours,

J. O. Plourde

OTTAWA

Dr. Keenleyside

Referring to your memorandum of the 27th ultimo in which you summarized your conversation with Bishop Trocellier and Father Plourde, I might say that at the meeting of the Sub Committee of the Northwest Territories Council on Education held in your office yesterday morning, our School Inspector, Mr. McKinnon, explained how he had arrived at his estimate of the number of children who would attend the school which is being built at Hay River. It was decided to go ahead with the construction of the school as planned.

In this connection we have in mind the expression of opinion contained in the penultimate paragraph of your memorandum of the 27th ultimo and the possibility that it may be feasible to work out some arrangement that will be accepted as satisfactory by the interested parties.

The question of what should be done about the schools at Aklavik, and Bishop Trocellier's request that a new residential school be built at Fort Resolution, were allowed to remain in abeyance.

The Indian Affairs Branch is building a fire escape for the school at Providence.

R. A. Gibson
R. A. Gibson,
Deputy Commissioner.

Mr. H. L. Keenleyside,
Deputy Minister,
Department of Mines and Resources,
O t t a w a .

Dear Sir,

After mature consideration, I must rectify the position which I took during the interview which you gave Reverend Father Plourde and myself regarding the proposed establishment of a school for Catholic white and Indian children at Hay River. I did not then intend to discuss that question and I may have left you under a misconception as regards the elementary requirements concerning the education of Catholic children.

It must be understood that all Catholic children are to be under the exclusive care or direction of Catholic teachers and placed in separate class-rooms. All text books in use in all schools must be approved of by the Catholic Church authorities. Therefore, it now appears clear to me that your project cannot be implemented.

It has always been and will always be the policy of the Catholic Church to provide special and separate schools for the children under her care, and I see no other way of safeguarding the principles of the Catholic Church in matters of education. She has never abandoned any of her rights in this sphere.

Therefore, Catholic schools having been guaranteed by law for the Northwest Territories I cannot accept any substitute for them for the children under my spiritual guidance and I hereby ask the Northwest Territory Council to provide such schools whenever they are needed. The combination which you suggested cannot be thought of and must not be implemented in any part of the Northwest Territories.

Hoping that the above statement will clarify my position in the matter of Catholic education, I remain, dear Mr. Keenleyside,

Very truly yours,

*+ J. Brocelyn
Bishop of Edmonton

Dear Mr. Hoey:

The attached is a copy of the letter which His Excellency Bishop J. Trocellier, Vicar Apostolic of Mackenzie, wrote to Mr. Keenleyside on October 30th last to clear up any misunderstanding as to the position he had taken in regard to the erection of the day-school at Hay River, and his stand in connection with Catholic education.

Both the general principles of the Catholic Church on education and his own personal opinion on the same point are expressed in such clear terms that it is not necessary for me to enlarge upon them.

We hope that your Department will be favourable to the policy which has been in force in both the departments of Indian Affairs and the Northwest Territories for close to a hundred years.

Very truly yours,

J. O. Plourde, O.M.I.

Extract from Annual Report on Fort Resolution
Northwest Territories Agency, dated 1947-48.

Hay River

It is expected that the village of Hay River will, on the completion of the highway from Grimshaw, become an important community. Fishing at Hay River is exceptionally good, the people always have sufficient to eat. Because of the good fishing several companies offer employment to Indians during the winter months. Up to the present additional employment with highway construction gangs has been available but I understand that since the Indian is not a reliable worker, there is a growing tendency to import white labour.

The Indians at Hay River have called for less action on my part than those in any other settlement. Miss Neville of the Anglican Mission attends to most of their medical problems, although she can do nothing about the Tuberculosis situation. There is a need, however, for a new modern nursing station at this community. Constable D. Allan of the R.C.M. Police handles the distribution of Indian welfare rations; his assistance is greatly appreciated.

Although the Indians at Hay River are better off financially than those of Fort Resolution since they have a greater opportunity for employment, their houses and persons are not as clean.

139-2-1

July 22, 1948.

Dear Mr. Douglas:

I have been advised that you might be interested in teaching in one of our Indian day schools again.

We are anxious to obtain the services of a qualified and experienced male Principal for a new Indian School which is being erected at Hay River, Northwest Territories.

This school is a four-room school with a separate principal's residence. It is designed to handle not only the present but the future school population of Hay River. This town, it is anticipated, will grow rapidly when the new Grimshaw Highway is completed from Peace River. Hay River will be a northern terminus of this highway and will be on the main line of communication to Yellowknife.

We have introduced a new salary schedule recently, to become effective 1 September, 1948, with considerable increases over the salaries of 1947.

In the event that you are interested in further details of this position, I attach for your completion a copy of one of our application forms so that we can be brought up to date on your latest teaching experience.

Sincerely yours,

B
Bernard F. Neary,
Superintendent of Education.

July 27, 1948.

Mr. Bernard F. Neary,
Supt. of Education,
Indian Affairs Branch,
Ottawa, Canada.

Dear Mr. Neary,

Ref. File 139-2-1

Your letter of 22nd. inst. received and contents noted. Until the receipt of your letter I have not entertained any idea of returning to Indian Day Schools. However, I think I would like further information regarding the above reference.

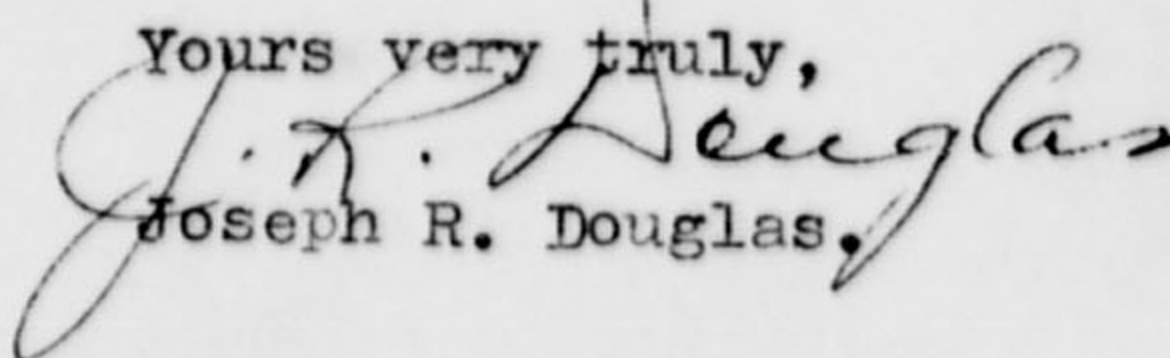

At present I am the principal of a two-room school in this company town. Our accommodations are such that we have every convenience, electric lights, water, and the benefit of social life in a white community. I teach grades V to X and my wife handles the Junior room. Thus we are both gainfully employed,

However, I am of an adventurous spirit and your frontier position has aroused my interest. In this connection would you advise me of the following:

Are there any other whites in the community besides the school staff? Is there a store or trading post in this community? Is there a Mission Church in the community? What are the present means of transportation and communication with this outpost? Is there a resident doctor at Hay River or near there?

If you can give me further information as to the future development of this new community, I may consider applying for the position. But, please understand, I would have to first break my contract if possible with this school section.

Yours very truly,

Joseph R. Douglas.

P.S. Kindly send me a copy of the new salary schedule.

Hay River Indian Day School

Dear Mr. Douglas:

I have for answer your letter of July 27 and wish to advise you that we would be prepared to hire both your wife and yourself. There is a considerable settlement of Whites in the Hay River community besides the intended school staff; in fact there is a Royal Canadian Signal Corps station and the headquarters of trucking firms who are using Hay River as the northern terminus of the Grimshaw highway. Transportation is by this new highway from Edmonton or by air from Edmonton.

There is a Roman Catholic Missionary at Hay River, but I cannot advise you as to whether he is permanently stationed there. However, in view of the fact that it is anticipated that Hay River will be the second largest town (next to Yellowknife) in the Territories, it is presumed one will be stationed there permanently.

I cannot advise you with regard to the Doctor but hospital facilities are available at both Fort Resolution and Fort Providence. While the school will be a four-roomed one, we do not expect to have more than two teachers for the first year. As the town grows, other members will be added to the staff. Our salary schedule for teachers with first class certificates runs from \$1,500.00 to \$2,220.00 for the 10 month academic year and from \$2,280.00 to \$3,000.00 for the 12 month calendar year (Welfare Teachers).

If the school becomes a three-roomed one, you would be entitled to classification as a Principal Grade One.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Mr. J. R. Douglas,

Re: Teaching Staff at Hay River
Day School, Hay River, N.W.T.

On August 26th, I received a letter from
Sergeant Major Hodnett of the R.C.C.S. at Hay River.
For your information, the following is an extract
from same:-

"With regard to hiring of the teaching staff, may
I point out the excellent qualifications of a
Mr. Beverly Tansley of Sheho, Sask. Both he and
his wife are qualified teachers and, I believe,
Mr. Tansley has now secured his degree from the
University of Saskatchewan".

You might be interested in obtaining this
gentleman's services in connection with the Hay River
school.

Extract from Mr. Johnston, District Engineer
dated October 18th on an inspection of the Hay
River Day School.

RE: HAY RIVER:

Work on this project has not progressed at the rapid rate owing to the difficulty in obtaining sub-tradesmen as required. This refers to plumbers, heaters, electricians and sheet metal workers for hot-air furnace and duct installation. This has resulted in having to keep the carpenter crew at a smaller force than would otherwise be the case. However, all these tradesmen have either recently been at that point, or are engaged there now, so that it will be possible shortly to add more carpenters to the labour force. An estimate was given by Mr. Mattson on September 22nd, that with the crew then engaged, the project could be finished in January. However, as soon as it is practicable to do so, I am adding as many carpenters as appears reasonable for the size of the job, so as to be assured of completion during the present calendar year.

Stanley S. Dean, Esq.,
Manager, Hudson's Bay Post,
Hay River, Northwest Territories.

Dear Sir:

As you are probably aware, Mr. Norbert Bellavance has been transferred by the Department from the Seine River Indian Day School, in the Fort Frances Agency, to open the new school at Hay River.

Would you please provide him with the following janitor supplies when he arrives:-

2	corn brooms	12	bars toilet soap
2	push brooms	12	" laundry soap
50	lbs. sweeping compound	4	dozen paper towels
		4	" toilet paper.

You are also authorized to provide him with up to ten dollars' worth of other minor cleaning supply items which he might require. This account should be sent to Dr. L. J. Mulvihill, Superintendent, Indian Agency, Fort Resolution, Northwest Territories, for payment, in the usual manner. Your co-operation in this regard would be sincerely appreciated, so that Mr. Bellavance can assume his new duties as soon as possible.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Dear Sir:

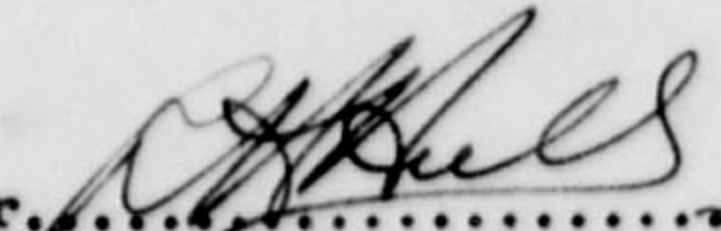

Your letter of December 7th addressed to Mr. M. Taylor of the Bond Construction Co. Ltd., has been turned over to us for our action.

Our trucks are running regularly from Edmonton and Grimshaw, Alberta to Lower Hay River, N.W.T. The rate from Grimshaw is \$40.00 per ton or 2½ cents per pound for less than 5 ton loads and from Edmonton \$ 60.00 per ton or 3½ cents per pound for less than 5 ton loads. We also have a heated van and the rate for perishables is from Grimshaw \$ 75.00 per ton and from Edmonton \$ 100.00 per ton.

At the present we have not laid down any schedule but average about two trips per week into Lower Hay River. Shipments can be consigned to the above at Grimshaw or Edmonton and if Edmonton, please send c/o Bond Construction Co. Ltd. I will be in Edmonton at all times and will be very pleased to be of service.

Yours very truly,

OFFICE OF THE
DEPUTY COMMISSIONER

ADMINISTRATION
OF THE
NORTHWEST TERRITORIES
CANADA

905-1
11514

OTTAWA

December 30, 1948.

D. M. MacKay, Esq.,
Acting Director,
Indian Affairs Branch,
O t t a w a.

As you know, Superintendent D. J. Martin has been appointed Stipendiary Magistrate, and will reside at Hay River settlement, Northwest Territories. In addition to his duties as Stipendiary Magistrate, he will have administrative work for the Department to attend to and will be supplied with a clerk. Mr. Martin expects to commence his duties about the 1st March, 1949.

Arrangements are being made to erect a residence, an office building and a warehouse next summer at Hay River, but it is necessary that we provide Mr. Martin with suitable accommodation as from the 1st March. The new four-room day school which has been completed at Hay River contains two large offices and several cloakrooms, in addition to the classrooms. It is considered that there is sufficient available office space in this building to accommodate Mr. Martin and his clerk in 1949 until his office building is ready for occupation.

Would you please issue the necessary instructions to your school principal, and ask him to co-operate in every way with Mr. Martin, who will be our senior departmental representative in this settlement.

P.S.

I understand that this was discussed over the telephone with Colonel Neary who says that this can be arranged. Your co-operation is appreciated.

Deputy Commissioner.

R. A. Gibson,
Deputy Commissioner.

Memorandum:

DEPUTY MINISTER.

As previously mentioned to you, we have appointed Mr. Norbert Bellavance as teacher at the Hay River Indian Day School. He is a teacher with a Manitoba Certificate and many years of experience in Indian, Provincial and Alaskan Schools. We feel that he should be able to get this new school off to a good start.

Please find attached a submission for an Order-in-Council covering the payment of a standard married northern living allowance of \$1500. to Mr. Bellavance while he is engaged in his teaching duties at Hay River, Northwest Territories. You will note that he will commence immediately after the Christmas holidays.

Re: Hay River Indian Day School

I have for answer your letter of December 30, and we are quite prepared to have Mr. Superintendent Martin occupy one of the classrooms in our new school at Hay River on a temporary basis.

It is presumed that you will make a recommendation with regard to the janitor services required and also as to the heating arrangements effective 1 March, 1949. We have already notified Mr. Bellavance that he could anticipate the use of one of the classrooms or teacher's offices by Mr. Martin.

Hay River, Northwest Territories.

Hay River Indian Day School.

Dear Sir:

I am pleased to advise you that deadhead privileges have been accorded to you by the Royal Canadian Corps of Signals and that you will be able to forward Army Messages in accordance with their regulations.

Mr. Superintendent Martin will be using a room in the school and will arrive some time in March.

We are checking further into the house furniture situation as it has all been ordered and should have arrived by now.

I am writing to our Engineers with regard to the heating system and you might make local enquiries so that we can hire a janitor and caretaker to handle this system.

I am sorry to hear of your ill health and we will do everything possible to arrange for you to transfer to a smaller school at the end of June. In fact, Rocher River should be completed by that time and I would be pleased to recommend you for transfer to that school.

I would ask you to write me further about this matter in May, when we will probably have more definite

information concerning the progress made in its construction.

If there are over 40 children, we will certainly try to hire another teacher. If this is not possible, then I would ask that you have the primary children come in the morning and the older children in the afternoon, or vice versa. Many provincial schools are being run on this staggered system, due to the present shortage of teachers.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Re: School Situation Hay River, N.W.T.

A few days ago I forwarded to you a copy of Mr. Fred Fraser's report of January 20th regarding the school situation at Hay River, Northwest Territories.

The Deputy Commissioner has written to Dr. P. E. Moore, Director of Indian Health Services, concerning an X-ray survey of all school children and the need of more frequent visits to Hay River by the Medical Health Officer of Fort Resolution.

We are writing to Fred Fraser for information regarding accommodation of a second teacher.

I would suggest that you send a copy of Mr. Fraser's report of January 20th to Mr. W. J. Johnston, District Engineer, Department of Public Works, Edmonton, for his information and necessary action.

Major MacKay

Attention - Colonel Neary

Adverting to discussions over the telephone with Colonel Neary, I may say that I referred to District Administrator Fred Fraser the report which Reverend Father Plourde had sent me about a discussion which Mr. Fraser had with the Hay River Board of Trade. A copy of Mr. Fraser's personal and confidential reply is attached.

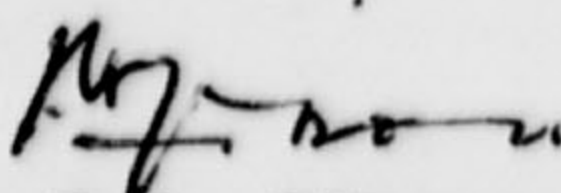

I called Father Plourde on the telephone and gave him the substance of what Mr. Fraser had reported to me. Father Plourde expressed regret that Mr. Fraser should have seen fit to discuss with the local Board of Trade a matter which was obviously controversial, without first referring to the department and getting direction. Father Plourde then went on to say that the Roman Catholic Church is of the opinion that it would not be an acceptable solution of the situation to have Roman Catholics taught in one room of the public school and the Protestants taught in another room. He considers that a separate building is required. I explained the difficulties of the situation at some length and said that it seemed to be the opinion of the departmental officers concerned with education in the Northwest Territories that children could be taught together, irrespective of religious persuasion, provided there was a time reserved at the beginning or the end of the day - or at some other convenient time - for the giving of religious instruction, and also that the principal of each school was of the religious denomination of the majority of the children and the other teacher was of the faith of the minority. However, I indicated that the subject would be discussed again at a meeting of the Subcommittee on Education which will be held tomorrow. Father Plourde asked me to have read at that meeting the recent letter written by Bishop Trocellier.

Colonel Neary and I have been discussing this matter and we believe that, as there is only a limited time for the discussions of the Subcommittee, it is quite unnecessary to go into

Indian Affairs (RG 10 Volume 6472, file 905-1, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

the argument about what Mr. Fraser said to the Board of Trade. We believe that we should spend our time deciding what instructions should be given to the school teacher who has written you for direction. As the school has been established by your branch, I would suggest that either yourself or Colonel Neary lead the discussion on this subject. Mr. Lamberton has been asked to put an item on the agenda.

R.A. Gibson,
Deputy Commissioner.

Memorandum:DEPUTY MINISTERHay River Indian Day School

Please find attached a draft letter which we intend to send to Mr. N. Bellavance, teacher at the Hay River Indian Day School, concerning religious education there.

This letter has been delayed in the hope that we would have appointed a Protestant teacher for the second classroom by this time. We have advertised extensively in Ontario and Western Canada and have received a number of satisfactory applications. However, these applicants will not be ready to report for duty until September 1, 1949. At the present time it seems likely that Mr. Bellavance will be the only teacher at this school for the remainder of the academic year.

Therefore, I would suggest that this letter be sent to him, if it meets with your approval.

Director.

15th February 1949.

N. Bellavance, Esq.,
Hay River, North West Territories.

Dear Sir,

I have your communication of the 27th January and in reply may say that letters mailed by you at Hay River addressed to the Indian Affairs Branch, Department of Mines and Resources at Ottawa are not entitled to free transmission in the mails, but must be prepaid at the rate of four cents for the first ounce and two cents for each additional ounce or fraction thereof unless you desire the item to be accorded complete air transport to destination, in which case the postage required would be 7¢ for the first ounce and 5¢ for each additional ounce or fraction thereof.

I may explain that the franking privilege applies only to correspondence on official business mailed by Federal Government Departments at Ottawa addressed to persons or firms receiving their mail at post offices which are served by ordinary surface conveyance.

In the case of post offices such as Hay River, North West Territories, which is served entirely by air, the free privilege does not apply, and any letters, therefore, mailed by you addressed to Federal Government Departments at Ottawa would require postage at the rates mentioned in the first paragraph of my communication.

Similarly letters mailed by Government Departments at Ottawa addressed to you at Hay River would also have to be prepaid in the same manner.

I am sending a copy of this letter to the Postmaster at Hay River for his information.

Yours sincerely,

Ludovic Germain

OTTAWA. 11th April 1949.

The Secretary,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir,

I have your communication of March 28th, 481-1-25 (Secy.), enclosing copy of a letter from Mr. Norbert Bellavance, teacher of the Hay River Indian School, N.W.T., in regard to the franking of mail matter posted at Hay River addressed to your Department.

Mr. Bellavance communicated with this Department in regard to the above and enclosed herewith is copy of our reply under date of February 15th.

I may explain that the franking privilege applies only to correspondence on official business mailed by or addressed to Federal Government departments at Ottawa addressed to or posted at post offices which are served by ordinary surface conveyance.

In the case of post offices, as per the attached list, including Hay River, N.W.T. which are served entirely by air the free privilege does not apply, and any letters, therefore, mailed at these offices or addressed to persons or firms receiving their mail at these offices would require postage at the rate of 4¢ for the first ounce and 2¢ for each additional ounce or fraction thereof, unless it was desired that the item be accorded complete air transport to destination in which case the postage required would be 7¢ for the first ounce and 5¢ for each additional ounce or fraction thereof.

Dear Sir.

I am enclosing two letters written by two school teachers. Miss D Babben is my niece. I had been visiting her home in Dixonville Alta, and told her about the school we have here. An. told her that maybe you would hold school in July & Aug. as there is the case of freeze up & break up. & the children have not been to school & are only getting half days now.

These girls would be willing to teach through July & Aug. & maybe continue until satisfactory. I also have a niece Miss Helma Babben who is teaching now & has 6 yrs. teaching & she would like to come to Hay River.

Yours truly

Mrs A. B. Hume, P. E. Trustee

Hay River - 1
Dixonville, Alberta.
May 23, 1949.

The Secretary-Treasurer,
Lower Hay River School Division,
Lower Hay River, N. W. T.

Dear Sir,

I wish to apply for the position of teacher in your school at Lower Hay River, providing, of course, said position is vacant or will be vacant for the coming term.

I hold an Elementary & Intermediate Interim Certificate for the Province of Alberta and have had 5 years teaching experience - 3 years in Rural schools and 2 in a graded school. Since I had not expected to return to teaching after my marriage I have not kept my Inspector's reports and so cannot send them as references. However, should you wish to investigate I am sure that the Peace River School Division, No. 10, Peace River, will recommend me favourably.

If my application is accepted would you kindly let me know if there is a teachers' or other available housing as I have children and would not be able to board in a home.

Thank you very much.

Yours very truly,
(Mrs.) Rosina E. Banks

Mr. William J. Klufas,
Hutchkiss, Alberta.

Dear Mr. Klufas:

I have received a letter from Mr. J. W. McKinnon, the Superintendent of Education for the Northwest Territories, indicating your interest in one of our schools.

Please find attached an application form which I would like to have you complete and return here as soon as possible. The position we have in mind for you is that of principal at the Hay River Indian Day School, Hay River, Northwest Territories. This is a new four-room school and there is a separate teachers' residence which you would be required to share with the other teacher and his wife. However, there is ample room as it is a big house. Naturally, if you are interested I will send you further details, both of the position and of the school as soon as I receive a reply.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Sir,

It has been brought to my attention that you
will be requiring a teacher for the next term at Hay
River.

At present I have not as yet decided as to
my course of action for next year whether it will be
back to University or whether I will go teaching.

Could you please send me full particulars
regarding the Hay River set up.

My qualifications are:-

- (a) First Class permanent Certificate.
- (b) 8 credits at the U of A.
- (c) Junior Permanent in Music, Bookkeeping
and Dramatics.
- (d) Six years - Armed Forces.

Sincerely yours,

(signed) William J. Klufas.

Dear Sir:

I understand you are interested in a teaching position in one of our Indian Day Schools. Please find attached one of our application forms which I would like to have you complete and return to me as soon as possible. I will then be able to advise you as to the salary which we can offer you for your teaching services in our schools.

We have a position vacant at the present which I think will interest you. It is a new four-room school at Hay River, N.W.T. It has a teacherage which will, of course, have to be shared with another teacher and his wife.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

APPLICATION FOR EMPLOYMENT IN INDIAN DAY SCHOOLS

1. PERSONAL QUALIFICATIONS

Name in full (please print) W. L. LUFAS WILLIAM JAMES
 (Surname) (Christian Name)
 Date of Birth 16 May 1915 Place of Birth Radway Alberta Canada
 Sex Male Religious Denomination Catholic (R) Health Good
 Canadian Citizen yes Service in H.M. Forces R.C.A.F. (6 years)
 Service number 17067

11. PROFESSIONAL & ACADEMIC QUALIFICATIONS

I attended high school at Radway (Maypole S.D.) in the Province of Alberta and received a Matriculation Certificate after successfully completing 4 years of high school. I then attended St. Boniface University for a period of 2 years and received a B.A. degree (only where applicable; give other details of additional education on back).

I attended a Teacher Training Course at Edmonton Normal School in the Province of Alberta for 18 months in the years 1935-36.

I hold a First Class Teacher's Certificate of a Permanent (temporary or permanent) nature in the Province of Alberta. It is numbered 98-38 dated at Edmonton and is valid until until cancelled.

111. TEACHING EXPERIENCE

Dates	Name of School	Town and Province	Total Years
1. <u>1935-39</u>	<u>St. Boniface</u>	<u>Radway Alberta</u>	<u>4</u>
2. <u>1939-40</u>	<u>St. Boniface</u>	<u>Radway Alberta</u>	<u>1</u>
3. <u>1940-41</u>	<u>St. Boniface</u>	<u>Radway Alberta</u>	<u>1</u>
4. <u>1948-49</u>	<u>St. Boniface</u>	<u>Radway Alberta</u>	<u>1</u>
5. <u>1949 (term)</u>	<u>Sylvan</u>	<u>Hotchkiss</u>	<u>4 mos</u>

(use other side for more detail)

My total teaching experience is 6 years in Indian Schools and 6 years in Provincial Schools.

IV. SUMMER SCHOOLS - In order to qualify for salary increments as shown in the schedule, I certify that I have attended the following professional summer schools conducted by Provincial Departments of Education or Canadian Universities for a duration of four weeks or more in length:

Year	Course Taken	By whom course was conducted	Length of Course in weeks
1. <u>1937</u>	<u>Education</u>	<u>By the Dept. of Education</u>	<u>3 weeks</u>
2. <u>1938</u>	<u>Chemistry</u>	<u>U. of Alberta</u>	<u>6 "</u>
3. <u>1939</u>	<u>Education</u>	<u>By the Dept. of Education</u>	<u>3 weeks</u>

V. SPECIAL QUALIFICATIONS

List any special qualifications you have for Indian work Only that I am interested in these people as Canadian citizens

VI. REFERENCES and INSPECTOR'S REPORTS

Please attach copies of references and your latest Inspector's Report (if any).

VII. I therefore request, in view of my qualifications and experience as detailed above, that I be classified as a Grade ... teacher and that my salary as a teacher in the ... Indian Day School for the 1947-48 academic year be set at \$..... according to the salary schedule.

I understand (i) that all salary increases are clearly described in the schedule regulations as for "satisfactory service", (ii) that therefore it will be necessary for the Indian Affairs Branch to carefully consider School Inspectors' and other reports submitted upon my teaching service.

(Note: Details of our salary schedule are available in all Indian Agency offices. If the application is sent in with part of Section VII left blank, we will inform you of the salary you would receive in our service).

16 July (date) 1948 (Signature) William J. Lufas (Address) Hotchkiss - 76 end of Angus 10148-145 St Edmonton (Perm)

I am now enrolled at the University of Alberta in the Alberta Faculty of Agriculture working towards Composite High School Certification and at present have 8 credits acceptable to the Faculty of Education.

I have a junior permanent certificate in music Book-keeping and Dramatics.

My Inspectors reports are not here but last two ratings were "G" and "VG". Then there are two other reports which in my opinion rate as above but now in Alberta ratings are discontinued.

My Experience in the R.C.A.F.
along educational lines.

For Attention B.F. Mary Sup of Education

Sir, re: your file 905-1 (E)

Receipt is hereby acknowledged of your letter dated 11 July 49.

Although I am very much interested in the Hay River Indian Day School, I have decided to go to University this winter. I am in receipt of DVA allowances for training and would like to complete my courses with the DVA.

I would be willing to alternate one year of teaching and one year of University until my course is completed if the Department of Veterans Affairs, ^{Edmonton} would allow such but I will not see them till the end of August.

I am interested in Indians and Metis as Canadian Citizens. May I make application to you at some later date.

Sincerely Yours.

William J Klufas

Forests Branch

Box 117,
Yellowknife, N.W.T.,
July 12, 1949.

R. A. Gibson, Esquire,
Deputy Commissioner,
Northwest Territories Administration,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir:

Attached, herewith, are monthly Day School returns for the Hay River Indian Day School. You will note that one copy is for the Northwest Territory Administration files and the other two copies are to be forwarded to the Indian Affairs Branch for their information and retention.

You will note that Mr. Bellevance listed on the attached form all Indian children as being absent and the reason for same is given as their desire for a separate school on the island. In this connection, you might refer to my recent report on the Hay River Indian Day School. It should be borne in mind that initially the Indians of Hay River asked for the organization of the new school and indicated their desire for same by a signed petition. I am inclined to the view that both Mr. Bellevance and the local Priest are the parties desiring the separate school on the island and not the illiterate Indians.

Had Mr. Bellevance desired the attendance of the Indian children, he would have visited their homes and solicited their support. There is absolutely no need for a separate school in Hay River as the present building

- 2 -

will meet the needs of the community for at least many years to come. There is a need, however, of implementing compulsory attendance within the Hay River Local Administrative District Unit, and, for the enforcement of same, a truant officer.

There are some 60 children living within the Hay River Local Administrative District and a number is being added each week. Therefore, there is only one method of operating the school efficiently, that is by the enforcement of regular attendance of those living in the immediate vicinity of the settlement. When children live permanently in a settlement, I can see no good reason for irregular school attendance and this is the case at Hay River.

Yours very truly,

'sgd' J. W. McKinnon,

J. W. McKinnon,
Superintendent of Education,
Mackenzie District, N.W.T.

Re: Hay River Indian Day School

We are forwarding to you herewith copy of a letter dated July 12, 1949, received from Mr. J. W. McKinnon, together with two copies of the Monthly Day School Return for the month ending June 30, 1949.

You will note Mr. McKinnon's remarks regarding the question of providing for the education of the Indian children of the Hay River community. He is of the opinion that there is no need for a separate school at Hay River, as the school accommodation is quite ample. Also, he draws attention to the need of implementing compulsory attendance within the Hay River Local Administrative District Unit.

We should be pleased to have your views concerning these matters.

R. A. Gibson,
Deputy Commissioner.

MEMORANDUM:

DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH.

Hay River Community Society - Film Projector.

We are prepared to have the Hay River School used as a community centre for a trial period of one year ending June, 1950. At the end of this time we will get a report from the Principal as to the care taken of the building during the time it is used as a community centre.

It is felt that the projector could then be kept in the school rather than in the community hall.

Misc.4-1 HAY RIVER

9937 - 103 Street, (C.R.File: 12967-2)
Edmonton, Alberta. (C.E.File: Misc.4-1)

August 3, 1949.

R. BLAIS, CHIEF ENGINEER, DEPARTMENT OF PUBLIC WORKS, OTTAWA.

In the construction of the four-classroom day school and teacherage at Hay River, N.W.T., during the past year, it was necessary to retain the services of a janitor who would also act in the capacity of watchman. This arrangement became effective February 22, 1949, when work was suspended under Mr. Peter Mattson, contractor. A Mr. Frank Obermuller had been engaged on the job for some time under Mr. Mattson, and his services were continued in this joint watchman and janitor service. The rate of wages for workmen under the contract had been approved while the project was under the control of the Department of Mines and Resources and the same wage scale was continued during the time (after June 1, 1948) when the Department of Public Works had supervision of the work. Mr. Obermuller was willing to remain on duty after the contract had been terminated, providing he received approximately the same pay as he was receiving when work was proceeding under the contractor. During the time the work was going on under the contractor, Mr. Obermuller received the benefit of board deductions at \$1.25 per day.

Since February 22, 1949, Mr. Obermuller has been engaged as follows:

Watchman - rate per month	\$150.00
Board Allowance - per month	75.00
Total	<u>\$225.00</u>

This is the equivalent of \$2,700.00 per year.

School session stoped on July 15th, and Mr. Obermuller has temporarily terminated his services with the Department as of July 22nd. Mr. Obermuller has been in the office and advises me that the teacher at Hay River informed him he would only be allowed \$2,300.00 per year if he remained as watchman of the school when the administration was taken over by the Department of Education in the Northwest Territories. He is unwilling to lose this \$400.00 per year, but states he would continue at work if he received the same pay as he had received from this Department (Public Works).

Our carpenter forces are completing work on the school project at Hay River, and it is expected work will be finished before school opens, presumably around September 1st. Thus, within the next month this school project will not be under the control of this Department, and its administration will, presumably, be under the Department of Education.

I am writing at this time to draw this situation to your attention as the school buildings at Hay River are rather important structures and it is very necessary that a competent watchman with some general mechanical knowledge be available in order to operate the oil furnace, electric generator and other mechanical equipment.

(O V E R)

POOR COPY

Mr. Obermuller claims to have worked for some years as a journeyman electrician, although I have only his own word for this. His services while under this Department at Hay River are reported to be satisfactory.

I would suggest this matter be brought to the attention of Col. Bernard F. Neary, Department of Education, Indian Affairs Branch. If I should have drawn this letter to the attention of some one in the Northwest Territories rather than to Col. Neary direct, I would be glad to be supplied with the name of the party concerned.

W. J. Johnston

W. J. Johnston,

OFFICE OF THE
DEPUTY COMMISSIONER

ADMINISTRATION
OF THE
NORTHWEST TERRITORIES
CANADA

AUG 29 1949

OTTAWA

August 24, 1949.

11611

Dear Mr. Nielsen:

This will acknowledge your letter of
June 15th, 1949, relative to the purchase of a new film
projector by the Hay River Community Society.

Consideration has been given to the
matter of assisting in the purchase of a projector. It
is understood that the proposed projector is the 16 mm
Visual Sound Educator priced at \$665. The Northwest
Territories Administration is prepared to contribute
50% of the cost.

This contribution will be made to the
Hay River Community Society on the understanding that
educational films will be shown to the children of the
area, and that the projection equipment will be made
available to the principal of the school for film show-
ings as and when required.

Your Society might wish to consider
utilizing the Hay River school as a community centre for
its various activities including film showings, handi-
craft classes, Boy Scouts, Girl Guides, etc., in which
event the projector could be kept in the school rather
than in the community hall. The Indian Affairs Branch
has intimated that it is prepared to have the Hay
River school used as a community centre for a trial
period ending June, 1950, at which time a report would
be obtained from the principal as to the care taken
of the building during the time used for community
activities.

John I. Nielsen, Esq.,
Sec/Treas.,
Hay River Community Society,
Hay River, N.W.T.

Yours very truly,
[Signature]
for Deputy Commissioner

September 21, 1949.

Memorandum:

DIRECTOR.

Hay River Indian Day School.

I have read Mr. Gibson's memorandum of September 15. As you are aware, Mr. Bellavance was written outlining clearly the policy regarding religious instruction at this school. This letter will be on file for the other teachers at the school who now number four. Two of these teachers are Protestants and two are Roman Catholics.

I would not recommend that any action be taken concerning the writing of another letter to Mr. Bowerman until another meeting of the Sub-committee has been held.

I would recommend that Mr. Gibson be advised that Mr. Bowerman has not been appointed the Principal of the Hay River School.

Bernard F. Neary,
Superintendent of Education.

MEMORANDUM

Mr. R. A. Gibson
Director
Lands and Development Services

I wish to refer to your letter of September 15, 1949, with enclosures regarding the matter of religious instruction at the Hay River Indian Day School.

In this connection, I enclose for your information a copy of the instructions sent to Mr. N. Bellavance, on March 21st last, who was the senior teacher of the school at the time. These instructions should be on file in the school but, in case they are not, a copy is being forwarded to Mr. Bowerman requesting him to adhere to them until further advised.

Perhaps I should add that Mr. Bowerman is employed as senior teacher. A principal has not yet been named and this will not be necessary until such time as the enrolment would justify the employment of more than two teachers.

[Signature]
Director.

Memorandum:

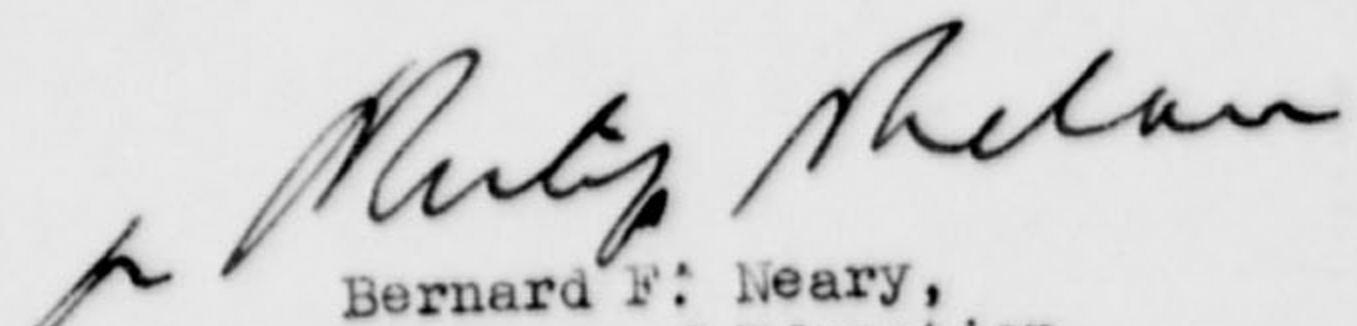

DIRECTOR.

Hay River Indian Day School.

I have read Mr. Gibson's memorandum of September 15. As you are aware, Mr. Bellavance was written outlining clearly the policy regarding religious instruction at this school. This letter will be on file for the other teachers at the school who now number four. Two of these teachers are Protestants and two are Roman Catholics.

I would not recommend that any action be taken concerning the writing of another letter to Mr. Bowerman until another meeting of the Sub-committee has been held.

I would recommend that Mr. Gibson be advised that Mr. Bowerman has not been appointed the Principal of the Hay River School.

Bernard F. Neary,
Superintendent of Education.

Major MacKay, Director,
Indian Affairs Branch.

As promised in our telephone conversation this morning
I am sending you herewith:

- (1) A copy of a letter dated the 6th instant received from Mr. J. W. McKinnon, Superintendent of Education for the Mackenzie District, to which is attached a copy of one dated the 29th ultimo written him by Mr. W. A. Bowerman, Principal of the Indian Day School at Hay River on the subject of religious instruction.
- (2) A copy of a letter dated the 26th of July written to me by Mr. McKinnon to which is attached a copy of one dated the 5th idem written him by Archdeacon D. B. Marsh.

As you are aware the Northwest Territories Council has approved of a manual of instructions to school teachers and mimeographed copies of this manual are being mailed now. This manual does not deal definitely with the matter of religious instruction although this subject has been discussed at a number of meetings of the sub-committee of the Northwest Territories Council on education. I am under the impression that the reason why no definite instruction was issued about religious instruction is because the Indian Act seems to contemplate religious instruction of some kind whereas the Northwest Territories Ordinance is not so definite on the subject and, in fact, there was an opinion that a child should not be compelled to take religious instruction against the wishes of the parents. ~~In fact~~ it was proposed for the Northwest Territories schools that there should be an alternative to religious instruction in the form of some non-religious but cultural study or exercise.

The records of the sub-committee seem to indicate that the opinion about religious instruction in the schools run by the Northwest Territories Administration could be summed up about as follows:

2 ...

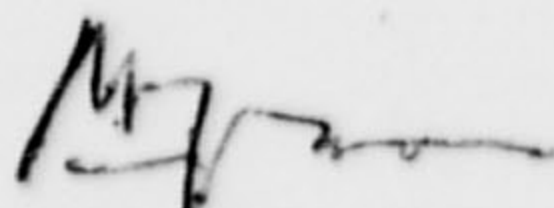

Indian Affairs (RG 10 Volume 6472, file 905-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Should any element of a community desire it, the last half-hour of the school day can be devoted to religious instruction. The parents of a child will determine whether the child shall receive instruction from a Roman Catholic Priest or a Protestant Clergyman, or, for that matter, no religious instruction whatever. The principal of the school will make arrangements for the convenience of the reverend gentlemen who will conduct the religious exercises. Those children who are not being given religious instruction will remain at school but their time will be occupied with special studies perscribed by the principal and in this connection musical appreciation, current events, visual education, handicrafts, vocational training and subjects in related fields are suggested for consideration. All teachers will remain on duty until 4 P.M. each day.

However, as I said before, no definite order has been issued and no doubt there will be further discussion on the subject. The fact that religious instruction is one of the features that will probably be dealt with in the Indian Act to be considered at the present session of Parliament, seems to indicate that the issuance of an item for the manual of instructions to teachers might be delayed for a while. However, I take it that when Mr. Bellevance was acting as Principal of Hay River School you gave him some instruction on this subject although it is possible that he did not leave these instructions on file for his successor.

No doubt you will be discussing this subject with our Deputy Minister and I shall be glad indeed to receive a copy of the letter you write to Principal Bowerman so that we may advise Superintendent McKinnon and also have the information available for the next meeting of the sub-committee on education.

R. A. Gibson,
Director.

COPY/BH

Box 117,
Yellowknife, N.W.T.
July 26, 1949.

R. A. Gibson, Esquire,
Deputy Commissioner,
Northwest Territories Administration,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir:

Attached herewith is copy of letter from Archdeacon
D. B. Marsh.

It appears that there would be considerable value in
dismissing school at 3:30 p.m. for purposes of having the children
go to the Church for religious instruction. This policy is
followed at Fort Rae and could easily be put into effect in the
Mackenzie District as the Church is in the centre of most settle-
ments. This policy would remove the common criticism that there
is too much religion in the school.

This letter is submitted for your information and in
the hope that there may be some future solution to this problem.

Yours very truly,

(signed) J. W. McKinnon

via Edmonton, Alta.

Dear Mr. McKinnon:

I am leaving for the Eastern Arctic to-night but I had a letter the other day from Miss Neville at Hay River in which she says that there is a Roman Catholic school teacher in the school at Hay River and that religion is taught all afternoon.

I feel sure you would like to check up on this matter though I think you had better make enquiries first.

Please use this as an advice and not a complaint as I do not know for certain that this is happening.

I hope you are having a good summer and that you may have much success in your work.

Yours sincerely,

(signed) D. B. Marsh

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within return is a true and faithful statement of the attendance and tuition at the Hay River Indian Day School for the Quarter ended December 31st 19 39.

Teacher Rev. S. E. Richards

P. O. Address Hay River

Dated Dec 21st 19 39

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J. H. Rissel
Indian Agent

Dated at Fort Resolution N.W.T.
this 5th February 19 40

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return must be added and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. 144.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic Schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school, work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day school should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Hay River Indian Day School for the Quarter ended June 30th 1939.

Teacher Rev. S. E. Rihou

P.O. Address Hay River N.W.T.

Dated June 30th 1939

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

J. H. P. Piquet
Indian Agent.

Dated at Fort Resolution N.W.T.
this 5th February 1940

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return *must be added* and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I.A. 409
R. 8005

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation in this regulation should be made without the Department's approval.
2. Salaries of teachers will be paid on a basis of 10 teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.
3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.
4. All teachers will be required to give at least one month's notice of their intention to resign.
5. All questions relating to the day school should be referred to the local Indian Agent.

11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. 144.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic Schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interval of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day school should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Hay River School for the Quarter ended June 28 1940

Teacher J. E. Richards

P.O. Address Hay River, N.W.T.

Dated July 6 1940

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

J. H. Riopel
Indian Agent.

Dated at Et. Resolution N.W.T.
this 27th July 1940

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return must be added and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I.A. 409
9037

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation of this regulation should be made without the Department's approval.
2. Salaries of teachers will be paid on a basis of ten teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.
3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.
4. All teachers will be required to give at least one month's notice of their intention to resign.
5. All questions relating to the day school should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Peter's Day School for the Quarter ended June 27 1941

Teacher Rev S.E. Richards
P.O. Address Hay River N.W.T.

Dated July 2nd 1941

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

J. H. Riopel
Indian Agent.

Dated at Ft. Resolution N.W.T.
this 12th Aug 1941

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return must be added and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I.A. 409

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation of this regulation should be made without the Department's approval.
2. Salaries of teachers will be paid on a basis of ten teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.
3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.
4. All teachers will be required to give at least one month's notice of their intention to resign.
5. All questions relating to the day school should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the HAY RIVER DAY School for the Quarter ended Dec. 31 1941

Teacher Rev. S.E. Richards
P.O. Address Hay River N.W.T.

Dated Jan 6 1942

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

J. H. Riegel
Indian Agent.
Dated at Fort Resolution N.W.T.
this 12 Jan 1942

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return *must be added* and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I.A. 409

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Hay River Day School for the Quarter

ended June 30 19 43

Teacher J. E. Richards

P.O. Address Hay River N.W.T.

Dated Aug 6 19 43

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

J. H. Riopel
Indian Agent.

Dated at Fort Resolution N.W.T.
this 12 Aug 19 43

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return *must be added* and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I.A. 409

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation of this regulation should be made without the Department's approval.
2. Salaries of teachers will be paid on a basis of ten teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.
3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.
4. All teachers will be required to give at least one month's notice of their intention to resign.
5. All questions relating to the day school should be referred to the local Indian Agent.

INDIAN DAY SCHOOL REGULATIONS

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Hay River School for the Quarter ended December 19 44

Teacher Winifred Gicelle

P.O. Address Hay River N.W.T.

Dated December 3 19 44

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

J. H. Rippel
Indian Agent.

Dated at Fort Sam Sask.

this 27th Jan 19 45

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return must be added and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

FOUR COPY

St. Peter's Mission,
Hay River, N.W.T.
February 23rd, 1943.

Noted
Mr. Philip Phelan;
Dept. Mines and Resources,
Ottawa, Ontario.

Dear Sir;

In answer to your enquiry re the June Quarter
school report for the Hay River Day School for last year.

May I point out that the Indians went out into the
bush for their spring hunt and took the children with them
so that there were not enough children left in the fort to
hold school and for that reason no school was held and no
report sent in.

In view of the possibility of a recurrence of the
same thing this spring would it be better for me to send in
a report even when no school is taught.

Yours for victory,

S.E. Richards

OFFICE OF THE
DIRECTOR

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

LANDS, PARKS
AND
FORESTS BRANCH

Ottawa,

20th July, 1939.

Memorandum.-

Dr. H. W. McGill,
Director, Indian Affairs Branch,
Department of Mines & Resources.

Anglican Day School at Hay River,
N.W.T.

Attached for your records are the original copies of the returns from St. Peter's Anglican day school at Hay River, N.W.T. for the quarters ended 31st March and 30th June, 1939.

During the time the average daily attendance of white and half-breed children in this school amounted to 5 or more we paid a grant of \$50.00 per quarter, but as the attendance is now exclusively Indian, this grant has been discontinued. I understand that your Branch pays the salary of the teacher in charge.

R. A. Gibson
for R. A. Gibson,
Director.

Rev. Sir:

We have no record of having received a return from the Hay River Indian Day School for the quarter ended September 30th, 1939. Consequently, no payment was made for this quarter. If the school was open during the September quarter, the enclosed form should be filled in and forwarded to the Department.

A supply of Day School Return Forms will be forwarded to you under separate. In future, please forward your returns promptly at the end of the December, March and June quarters.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Mr. Phelan;

Yours of Nov. 28th last received and contents noted.

I regret that the mail service here is very inconvenient in this matter as the last summer mail plane goes out in September and it is not possible for us to send a report for that quarter until this first winter mail plane which will go out from here in a day or two now.

Enclosed please find our reports for the two quarters which we trust will be satisfactory.

Yours very truly,

S. E. Richards

Missionary in charge.

Ottawa, January 4th, 1940.

Rev. Sir:

I regret that it is necessary to return the enclosed forms, but they are of no use to this Branch unless they are prepared on our own forms.

We are sending you eight of these forms - four of which should be used for the past year and the remainder will be available for the quarters ended March 31, June 30, September 30 and December 31, 1940. All the information requested should be given and, in future, one of these returns, properly filled in, should be forwarded promptly at the end of each quarter.

Please let us have the returns for the past year, properly completed, at an early date.

Yours truly,

Philip Phelan,
Chief, Training Division.

AIR MAIL.

Ottawa, January 6th, 1941.

Dear Sir:

I am in receipt of the returns which you forwarded for the Hay River Day School for the quarters ended September 30th and December 31st, 1940. A cheque will be issued in favour of the teacher for the four months in these two quarters.

However, I wish to draw your attention to circular letter of May 10th, 1940, a copy of which is enclosed. You will note from this that between April 1st, 1940, and March 31st, 1941, provision is made for only nine months' salary for each teacher of an Indian day school. Mr. Richards was paid for three months in the June quarter and four months in the September and December quarters, making a total of seven months for which he has received salary. Consequently, we can only pay for two months in the March quarter.

If Mr. Richards so desires, the school may be closed for either the month of February or March, 1941.

Yours truly,

Philip Phelan,
Chief, Training Division.

C O P Y

Original on..... 139-2-1

Ottawa, February 7, 1945.

Dr. J. H. Riopel, Indian Agent,
Fort Resolution, N.W.T.

I am in receipt of the return for the December quarter showing attendance of children at Hay River, and it is noted that this is signed by Winifred Neville.

Right Reverend A. H. Sovereign, Bishop of Athabasca, wrote to the Department on August 10, 1944, suggesting that Miss Neville could teach the school and requesting information regarding what amount we could allow her for her services. In reply to that communication he was written as follows on August 24:-

"I have your letter of the 10th instant, with reference to the day school at Hay River.

Very careful consideration has been given to your suggestion that Nurse Neville be allowed some remuneration for teaching the school for a short period during the past few months. I regret that as Nurse Neville is paid salary as a full-time nurse, present regulations do not permit our making a separate payment for her services in operating the school."

Philip Phelan,
Chief, Training Division.

Fort Resolution, N.W.T.
April 4 1939

Attention Mr. Philip Phelan.

Dear Sir,

I beg to report that Rev. S. E. Richards of
Hay River sent me the attached requisition for books and
other supplies to be used in connection with the day-
School at Hay River.

I do not know if these supplies are purchased through
the Department or by the Church of England Society, so
I beg the Department to let me know of the usual pro-
cedure in this case that I may inform Mr. Richards.

Respectfully submitted,

J. H. Riopel
Indian Agent.

Supt. Indian Education
Indian Affairs Branch
Ottawa, Ont.

Dear Sir:-

Enclosed herewith a requisition for school supplies which I take the liberty of forwarding directly, in order to avoid a delay of two weeks by sending same to the Indian Superintendent at Fort Resolution.

I would greatly appreciate a prompt shipment of these supplies, as there are none on hand to start school with.

Yours very truly,
Herbert Bevanance

Hay River, N.W.T.
January 31, 1949.

Mr. F. Fraser
Fort Smith, N.W.T.

Dear Sir:

I have received some school supplies from Ottawa, which I have cancelled from my requisitions. I think the balance of supplies, as shown on enclosed requisition, will have to be purchased in Edmonton, as most of them are not likely to be stocked at Ottawa.

The items marked "X" are not absolutely necessary before next term.

I'm very keen on securing slides or film strips (the Projector is here); but I have no catalogue, and don't know the proper procedure for their purchase.

Yours very truly,

"Norbert Bellavance"

Requisition for School Material

Date July 1st 1949

For Hay River, N.W.T. School Yellowknife Agency

NOTE:—

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "Number Authorized".

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Attached, herewith, is list of school supplies requested by William A. Bowerman, teacher, Hay River, N.W. T. Statistics, re attendance of the Hay River School, as compiled by Mr. Bowerman, is also enclosed.

I realize that some school supplies have already been forwarded to Hay River and that some supplies were to arrive soon after I inspected the school. Mr. Track should check the attached list with Mr. Bellavance's requisition of July 1st, and with previous requisitions. These supplies should be shipped over the Hay River Road as the close of navigation is drawing nigh.

Yours very truly,

J.W. McKinnon

J.W. McKinnon,
Superintendent of Education,

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Capitol Theatre Building,
Ottawa, Ontario.

Dear Colonel Neary:

Attached is requisition for school material which was received from W. A. Bowerman of the Hay River Indian Day School. In view of the extremely heavy enrollment at this school, it would be appreciated if this requisition could be attended to without delay. The supplies should be forwarded to Hay River via the Hay River Road.

Yours very truly,

J.W. McKinnon

Philip Phelan, Esq.,
Chief, Education Division,
Indian Affairs Branch,
Dept of Mines & Resources,
Ottawa,

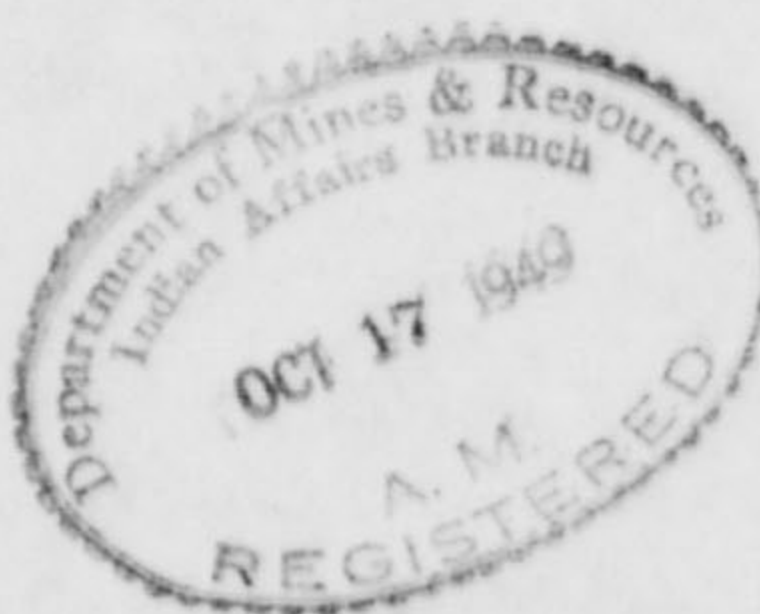

Dear Sir:

We thank you for your letter of Sept 24th in
regards to transportation to the Hay River
Indian Day School.

We would recommend that all shipments to this
point be made c/o Dennison and Siddon Trucking
Service, Peace River, Alta. We have received
a great deal of freight via this routing and
have received very satisfactory service.

Yours very truly,

I. F. Kirkby,
Supt of Indian Agencies

Certificate of attendance for hectograph and bonus library books

The annual average attendance at my school for ~~1948-49~~ ^{SEPT. OCT. NOV. DEC. 1949} year was 108 pupils; therefore my school is entitled to 21 hectograph books (see article 18 for details).

At my day school, I have averaged the attendance for September, October, November and December, 1949, and it is 85 %; therefore my school is entitled to 8 blocks of library books (see article 19 for details).

(Residential schools CANNOT obtain these bonus library books).

Canada

DEPARTMENT
of
MINES and RESOURCES
Lands and Development Services Branch

Box 117,
Yellowknife, N.W.T.,
January 27, 1950.

R. A. Gibson, Esquire,
Deputy Commissioner,
Northwest Territories Administration,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir:

Attached, herewith, are annual requisitions covering school supplies for the Hay River Indian Day School. Requisitions marked "Indian" should be forwarded immediately to Colonel B. F. Neary, for purposes of being filled by their Branch. I would suggest that the remaining requisitions be placed by our Branch as there are over one hundred White children attending the above school. You will note that there are four classrooms in operation at Hay River which accounts for the size of this requisition. There is also the possibility that some two hundred children will be enrolled at this school after the summer vacation.

As this is a new school, there is great need of plenty of reference material and reading books. All supplies should be forwarded to

W. A. Bowerman,
Hay River Indian Day School,
HAY RIVER, N. W. T.,
Via Mae's Transport, Edmonton.

By using this address, it will be forwarded to the Principal of the Hay River school via the Mackenzie Highway.

Yours very truly,

'sgd' J. W. McKinnon

J. W. McKinnon,
Superintendent of Education,

Re: Requisitions (1950) for Hay River
Indian Day School

We are transmitting to you herewith lists of school supplies required for the "Indian" portion of the enrolment of the Hay River Indian Day School. These lists were forwarded to this Office by Mr. J. W. McKinnon, Superintendent of Education for the Mackenzie District, Northwest Territories.

We attach a copy of Mr. McKinnon's letter in this connection.

Dear Mr. Grantham:

Mr. W. Bowerman, teacher, Hay River Indian Day School has requested certain school supplies which it is felt would be used by non-Indian children as the highest grade in which Indian children are graded is Grade 2.

I am forwarding to you the request for materials required for teaching typewriting which is not intended for use by Indian children, also a request for certain science equipment and blackboard work supplies

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

905-4 (E6)

, March 2, 1950.

Dear Mr. Bowerman:

It is indeed unfortunate that you did not see fit to read and follow the instructions in the February 1, 1949 issue of the Indian School Bulletin in connection with the library books available to Indian schools.

As in previous years the only library books available to schools are those listed in the Bulletin annually and only these books will be supplied.

Our stock is almost depleted and we are not able to give you a choice of books available at this late date, and no action is taken on your latest request as shown on the form mimeographed in green ink.

To help your school out we are arranging to send you a quantity of books, but this favour will not be extended again unless a requisition is submitted for books that will be listed in the Bulletin annually.

You might be interested to know that in the next issue of the Bulletin, March 1, 1950 there will be a new list and full instructions on Supplementary Reading books for the academic year 1950-51.

I expect that you will be taking advantage of the offer.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Dear Sir:

Enclosed are duplicate copies of
Appendix A to the March issue of the Indian School
Bulletin, requisitioning supplementary reading
books and library books for the Hay River Indian
Day School.

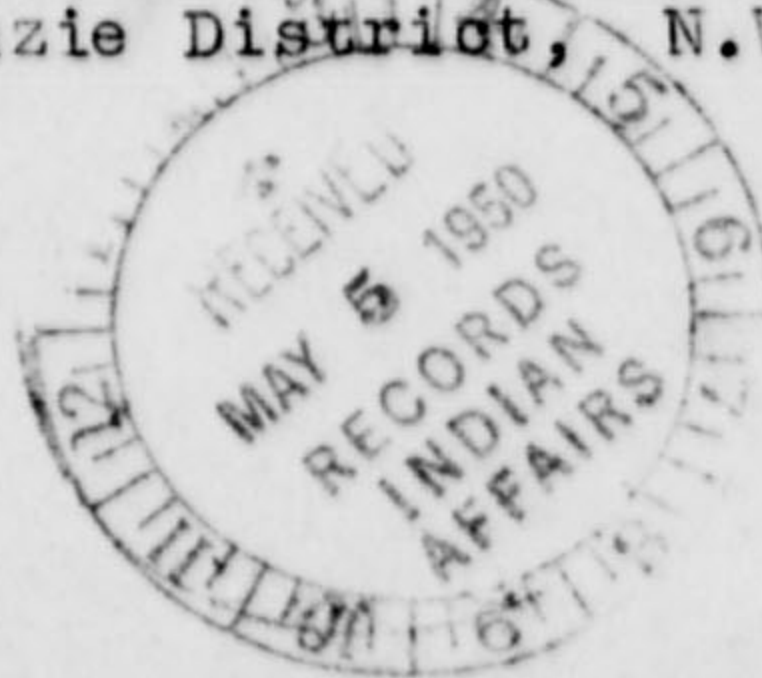

It is hoped that this requisition will
be filled in its entirety as this is a new school
and is in dire need of an abundance of supplementary
reading material.

Yours very truly,

[Handwritten signature: J.W. McKinnon]

Science Equipment Required by
Hay River Indian Day School

We are forwarding herewith a copy of a letter received from Mr. H.R. Low, Advisor on Education to the Northwest Territories Council, relating to instruction in science in the Hay River Indian day school. A copy of the list of science equipment required is attached.

As mentioned by Mr. Low, this Administration has just recently supplied the school with a number of science equipment items and a few chemicals, as indicated in the attached list. These items were surplus stock forwarded from the education office at Yellowknife, N.W.T.

We are forwarding the new list of requirements for your consideration, in view of the fact that this is an Indian day school.

Deputy Commissioner,
Northwest Territories Council,
Norlite Building,
Ottawa, Ontario.

Attention: Mr. E.N. Grantham.

I have just been visiting the Hay River
~~River~~ Indian Day School and find that there are eight
pupils in Grade 8, seven in Grade 9 and one in Grade 10.
Mr. Ryan, who is a qualified High School teacher, would
like to provide instruction in Science and he has given
me, as in the attached statement, a list of his require-
ments in the way of equipment. The Education Office at
Yellowknife has been able to help in regard to a few items
and these are not included in the attached list.

I would suggest that this request from the
Hay River Indian Day School be met as soon as possible and
in accordance with the present policy of supplies and equip-
ment for schools.

403548

HAY RIVER.

The Mission is situated on the east bank of the Hay river, about a quarter of a mile from its mouth. It is far enough back from Great Slave Lake to escape the sweep of wind and is further sheltered by a varied growth of fair-sized timber.

The school is an old building, the original log house has been added to from time to time to meet the steady increase of attendance. The result is not all that might be desired. The ceilings of the first two stories are low, the lighting is insufficient and the ventilation poor. The third story, however, is very much higher, having for ceiling the gable roof and the lighting and ventilation are extremely good. The ground floor of the original building consists of a large class room 22 x 17.7 x 8.5 a bedroom, study and rather dark stairs leading to the upper floor.

The accompanying snap-shot will show the locations of the several additions. A is the original main building, B containing kitchen and pantry, joins the main building at C. This latter contains a dining room 21.8 x 15.7 x 7; a pantry and small bedroom. The upper floor is one large room, used as an annex to the main dormitory. D is a single story lean-to, 22 x 18 x 8 at the low end, and is used as the main

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

Hay River, cont.

school room. It is well lighted and fairly ventilated.

It will be seen, however, that the numerous additions to the main building do not tend to make a convenient boarding school. I understand that Bishop Holmes intends tearing away the additions next summer, and erecting a new building adjoining the main one. When the new building is finished it will afford greatly increased accommodation; and I think the school will be entitled to a materially increased grant as soon as the wing is in operation. The present buildings will accommodate, in the class rooms floor space 785- 49 pupils: cubic space 6478 - 25 pupils: and in the dormitories 1375 feet floor space, and cubic space 12,000 ft. 24 pupils. The present average attendance is 32.

There are four cellars, one 10 x 10 x 5.6, floored and walled in planks, one 8 x 8 x 5.6, walled in logs: one 9 x 9 x 5 walls and floor of planks; and one 10x 10 x 6, also walled and floored with planks. These serve as store rooms for vegetables etc.

The foundations of the buildings are wooden blocks. The walls are of substantial logs, lime plastered. The main building has a plank roof/ but the additions boast metallic shingles.

Five stoves are used for heating during the winter, oil lamps for the staff and candles for the pupils.

The water supply is obtained from the river; a pump is used in summer/ but two large holes are dug through the ice in winter. Barrels for storing water are conveniently situated.

There are no fire extinguishers, but pails are always kept filled and ready, and axes for emergencies are placed near the doors. In summer the garden hose is kept attached to the pump: a fire bell, is so situated that it can

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

by River cont.

be rung from either outside or inside the building, and can be heard as far as the Hudsons Bay store. Fire drill is regularly practised, and an excellent record has been established. In summer every pupil is outside the building in less than a minute. In winter the pupils, attired in sufficient clothing, are outside the building in less than three minutes. The older children are trained to assist the younger ones..

The class work follows pretty closely the regulations laid down by the Department. Besides this, there is considerable attention paid to the general practical knowledge so essential to the Indian boy or girl. The boys are taught the use of saw, axe and plane, and are kept at work until they are capable of erecting a house. They learn to haul and square logs, and set them in place. They learn general farm work; are proficient at breaking ground and tending it, and learn to milk and tend cattle. The Mission deserves to be highly commended for its practical and efficient work.

The latrines, three in number are all outside. new holes are dug every year. The outbuildings include a house for cleaning fish; for storing fish, with a cellar for ice; a shop, a tool house|stable, warehouse- a new building 2½ stories high; two woodsheds; staff's dwellings; church; 2 sled stores and an interpreters house. The stables are well away from the dwelling houses. all the outbuildings are in good repair.

There are nine or ten acres of land under cultivation as garden. This year the crop of potatoes amounted to over 1,000 bushels.

The Mission owns two milch cows, one bull, three calves. Young heifers are to be sent in in the spring. A horse formerly used for ploughing and hauling wood has strayed into the woods and has failed to be located.

I would recommend that the Depart/ent send in a few

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

Hay River concluded.

fire extinguishers. The school room needs some wall maps of Canada, and particularly of the North Country. A Globe would be very beneficial and Ogilvies and McConnells charts of the North would be also useful.

Two dozen more slates, with pencils are needed. I would mention in connection with all the schools in my district, that when occasionally the annual reports from the Principals go astray, or are delayed, it is on account of the difficult and unreliable mail service.

DEPARTMENT OF INDIAN AFFAIRS
APR 1 1912

Dear Sir

I now write to ask you to furnish me with full details required to proceed with the erection of a new Indian Boarding School House at Hay River Great Slave Lake, to replace the one now in use.

I believe the late Bishop Holmes, was in possession of such details, but owing to his death in England, they are not available just now, and as we can have things imported but once a year it is necessary for us to act at once or a year's delay must ensue.

May I therefore ask for an early reply to enable me to take immediate steps to secure the needed articles to be imported?

I am

Yours obediently
Rev. Alf. J. Vale

(Principal of School now at home on furlough)

Ottawa, April 4, 1912.

Rev., Sir,-

I have to acknowledge the receipt of your letter of the 30th ultimo asking to be furnished with full details necessary to proceed with the erection of a new Indian boarding school at Hay River, Great Slave Lake.

In reply I beg to say that before the Department can deal intelligently with this matter it should know how many pupils you contemplate providing for and what amount of money will be available for the erection of the building. As the Department has no details as to the style of building the late Bishop Holmes contemplated putting up it would be glad if you would give full particulars as to what you think would be required and the Department will then endeavour to prepare plans which will meet your needs.

Your obedient servant,

Assistant Deputy and Secretary.

Dear Sir

I'm reply to your letter ~~no~~ 170367/5 under date of April 4-1912. I beg to say I also have no details as to the style of building the late Bishop Holmes contemplated putting up for the Indian Boarding School at Hay River.

We are anxious to erect a building which shall comply with the Standard of Government requirements for such a school as will accommodate at least (40) forty children, male and female we expect it to cost from \$3.00,000 to \$5.000.00. Much of this money will have to be paid out in freighting the necessary building materials into the country.

We are limited to frame or log building as no other material is within reach. and shall greatly appreciate any help you can give us by suggesting a plan or outlining the required air space in Class Room

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

Rev. Sir,-

Copies sent

I have to acknowledge the receipt of your letter of the 19th instant, and in reply I beg to say that, under separate cover, you are being sent two copies of the Correspondence and Agreement relating to the Maintenance and Management of Indian Boarding Schools.

The Department realizes that owing to the difficulty of transporting material it is not possible for you and others similarly situated in the northern country to erect modern buildings. It is necessary, however, to have the required air space both in the class-rooms and dormitories, which is 250 cubic feet per pupil in the former and 500 cubic feet in the latter. There should also be hospital accommodation for the isolation of pupils ill with infectious diseases. Outside water closets should be kept in a sanitary condition.

*Long
J.C.
A.M.
H.S.*

It is also possible to provide a certain amount of ventilation even in the most simply constructed buildings. In the class-room this can be provided by running a six or seven inch pipe, either galvanized iron or ordinary stove piping, from the stove pipe down to within six inches of the floor to sit on, say, three supports. This will draw off the foul air from the floor and it will be carried away in the smoke pipe through the chimney. This vertical pipe can be placed at any convenient

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

OR-COPY

convenient position between the stove and the chimney. The dormitories and other rooms may also be ventilated to a certain extent, provided there is a large chimney from the ground floor up. If openings are made into this chimney near the floor and shutters provided so that they can be closed if necessary it will be found that a great deal of the impure air will be carried away by this means through the chimney. All the windows should be made so that they can be lowered from the top as well as raised from the bottom.

From the above information in regard to the cubic air space you will be able to calculate the dimensions of your building for forty pupils. I am sending you, under separate cover, a copy of a plan prepared last year for a boarding school for forty pupils on the Sarcee Indian Reserve, Alberta. This plan was not used, but it may be that from it you can get some ideas as to the laying out of your building.

Your obedient servant,

Assistant Deputy and Secretary.

THE RIGHT REV. J. R. LUCAS, D. D.
BISHOP

November, 13th, 1914. 191

472146

My dear Mr Conroy,

I am sending my last letters to the North to-day and am anxious that Mr Vale of Hay River should know definitely whether or not he may reckon upon the 50000 sq. feet of lumber being sawn at the Simpson Mill this winter as you kindly promised me last summer. Will you be good enough to drop him a line at once that he may know by this mail. I should also be thankful for a line to the same effect at your early convenience.

What an anxious time we are passing through. We have three nephews in the army and our two sons are training in Toronto. By God's help we shall come out on top, but the path to victory is a terrible one as I have already witnessed.

Hoping you are well, and with kind regards to Messrs Bury and La Mothe,

I am,

Yours very sincerely,

Jas R. Lucas.

Bishop of Mackenzie River.

Ottawa, November 27th., 1914.

Sir,-

The Right Reverend Bishop Lucas has written to the Department, stating that the Rev. A. J. Vale. of Hay River, will be in need of 50,000 feet of lumber early next spring. I understand that Mr. Inspector Conroy discussed this matter with you while at Fort Simpson last summer, and I have to request you to make arrangements to have the above quantity of lumber sawn at the Agency mill, in order that it may be freighted to Hay River as soon after the opening of navigation as possible.

Dear Mr Conroy,

Acting upon your advice given during our conversation while travelling up the Athabasca River, I am enclosing receipt from the Hudson's Bay Co. for \$36.00, being the amount paid by me for passage of the two Fontaine girls from Chipewyan to MacMurray. You will remember that these girls were on their way to the Hay River Boarding School, but were quarantined at Chipewyan by Dr. Macdonald on account of measles, and were sent back to their home. Under these circumstances, I hope the Department will see its way to refund this amount to the Diocese, and will ask that the cheque be sent to the Imperial Bank at Athabasca, to credit of the Mackenzie River Diocesan account.

May I also remind you of your promise to speak to Mr Scott respecting the supply of at least 50M feet of lumber for the Hay River Building.

I hope to see you shortly in Ottawa before leaving for England.

With kind regards,

Yours very sincerely,

J. R. Lucas.

Bishop.

TRACTION AND STATIONARY,
GAS AND GASOLINE ENGINES, ETC.

Calgary, Alberta. _____ 191

We would like to call your attention to the fact that our windmills are equipped with only one pitman and one wrist pib, have self oilers, roller and ball bearings, instead of babbit. They are double braced in the wheel and arms, with extra heavy braced vane and galvanized heavy guage fans. Our towers stand two feed wider at the ground level than any other on the market. Braces and girts every five feet. Compare this with towers only braced every ten and twelve feet, with girts the same distance. Our towers are also galvanized after completion, so that every nut and blot is thoroughly protected.

In purchasing a windmill, it is well to bear in mind that we manufacture the lines referred to. In addition, we have a large stock of repairs on hand at all distributing points, and we also have a large staff of travellers and experts throughout Alberta.

Trusting that we may receive your order, which will have our best attention, we are,

Yours very truly,

GOOLD SHAPLEY & MUIR CO. LTD.

Dear Sir:

We have your favor of the 29th ult. addressed to Brantford, which was turned over to us, as we have charge of the Province of Alberta. For your information we would advise that we are prepared to deliver either an 8 ft. or 10 ft double geared Ideal pumping mill and any sized tower you may desire, for the following prices, less our regular agent's discount of 30% and 2% for cash on delivery. These prices, of course, do not include charge for erection:

8 ft. double geared mill	\$60 f.o.b. Edmonton	} ^{net} \$81.60 for Comm'n
10 ft. " " "	84 " "	
30 ft. 4 post tower	60	
40 ft. 4 post tower	75	
50 ft. 4 post tower	110	

We are completely out of windmill catalogues, but as soon as a supply arrives, which will be in a few days, one will be forwarded you. In the meantime, we are enclosing a couple of leaflets.

? Height Tower 30' or 40'. Ground lies low - no hills around.

Rt. Rev. J. Lucas,
Bishop of MacKenzie Diocese,
Fort Chipewyan, Alberta.

Dear Sir:-

Your letter of the 29th, ulto, addressed to our Home Office in Toronto has been forwarded to us at Regina as business for the West is transacted through our Regina Office.

We are sending you under separate cover one of our General Catalogues, in the front part of this you will find a good description of our Windmills. These Windmills come in different sizes. The size which is used for Pumping Water is usually an 8' Wheel or a 10' Wheel. The size of the Wheel depends to a large extent on the depth of the well from which the water is to be pumped. The height of the tower depends to a large extent on the location of the well. If there is a considerable amount of brush or trees near the well, it is, of course, necessary to have a higher tower. However, if the land is fairly open it is not necessary to have a Tower of as great a height as where the brush or trees are in evidence. *required*

The regular price of an 8' Wheel is \$47.00, this includes the large galvanized wheel and also the Gearing and Pump Rods. The price of a 30' Galvanized Steel Tower is \$63.00 making a total of \$110.00 F.O.B. Regina. The price of a 10' Wheel is \$62.00 and a 30' Tower for a 10' Wheel is \$66.00, making a total of \$128.00. Should you require a wheel only which you could use when you erected a wooden tower the price would be \$47.00 for an 8' wheel and \$62.00 for a 10' wheel. This price would include everything except the tower. *Col Regina \$83.00 net*

As we have no Representative in your part of the country we would be willing to allow you a wholesale discount off the above quotations and also in view of the fact that this will be used for School purposes we would allow an extra discount of 5% or in other words a total discount of 25% from the prices quoted.

Bishop's House,
Chipewyan, Alberta,
January 15th, 1917.

The Deputy Secretary
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir,

497736

As the new Boarding School at St. Peter's Mission, Hay River, Great Slave Lake, N.W.T., is approaching completion, I beg to submit the following Requisition for School Material, which you kindly promised to supply when needed.

- SCHOOL DESKS for 50 pupils, with shelf underneath for books.
- 50 Iron Beds, complete, for children, with Mattress if possible.
- 4 Full-sized Single Beds for the Staff, with Mattress.
- 1 Full-sized Double Bed " " " "

The question of supplying Beds for the Staff was not brought up by me last Spring. I hope the Indian Department will make the Grant for this purpose. Whether or not this is possible, I will ask you to be kind enough to write to Miss K. Halson, Dorcas Sec. W.A., 249 Albany Avenue, Toronto, Ont., and inform her of your action respecting the same, as I have prepared her for a letter from you on the subject.

If it is not customary for the Department to place orders for Desks and Beds, with firms, I shall be grateful if you will send particulars of what may be ordered on account of the new School, to Miss Halson, who has had much experience in procuring such things for other Schools, e.g., "The Pas" in Saskatchewan. This will avoid several months delay. The goods should be shipped in knock-down condition, and forwarded, freight paid, to the Hudson's Bay Co. Peace River, Alta., and addressed,
The Indian School,
Hay River, Great Slave Lake, N.W.T.
C/O H.B.Co. Peace River, Alta.

WINDMILL.

Your Mr. Bury informed me last Summer that your Department would be willing to supply a Windmill Outfit for the use of the School. This will prove a great boon in many ways, and I hope therefore, you will consent to its purchase and erection this year. We have provision for the erection of a large water tank at the top of the new building, to hold from 500 to 1000 gallons. This will serve as a protection from fire, and also for necessary uses in the school. The Windmill will be used in connection with the above. As a good PUMP will also be needed, I would ask for this- together with piping necessary to reach from the river to the cistern. #350 feet of piping will be required for this purpose.

If you will please send your reply to this by the 22nd or 23rd of the month, it will reach me by the mail leaving Athabasca on March 1st.

I enclose two letters from Firms dealing in Windmills. As the depth to be reached will be less than 30 feet, the 8 feet wheel will be large enough. The Tower should be 30 feet high. Please let me know whether or not, you have placed the order with either of these firms- or whether you prefer that I should do so. In that case, please return their letters.

CISTERN. As to the Cistern, with pipe connections for Sanitary purpose.

2.

and for Fire protection, may we look to you for help in the purchase of these? I am ordering them from Edmonton so as to ensure delivery at an early date.

I have also ordered 4 Chemical Fire Extinguishers.

We shall make adequate provision for fire-escape ladders, and shall greatly appreciate help from you towards the expense incurred in this connection.

ACETYLENE GAS PLANT.

Mr. Bury also advised me to apply to you for a Grant to enable us to install an Acetylene Gas Plant, as it has proved successful at the Resolution School. Hitherto, we have used candles, the most unsatisfactory light possible. If we have your consent to its installation, sent in by earliest opportunity, I will write to Archdeacon Tims of the Sarcee Mission, and ask him to procure what we need, unless the Department prefers to place the order for it. We shall require the fullest and plainest instructions for setting it up. The building is 94'x38', with two stories and Basement.

This letter is being sent in Duplicate, as a Trader leaves here this afternoon for Edmonton, and I am anxious this should reach you early. Other matters can be mentioned later.

I am, dear Sir,

Yours faithfully,

Jas. R. Lucas.

W. H. Mackenzie
MEMORANDUM,-

In reference to the supplies needed for the Hay River Boarding School I beg to say that The Globe Furniture Co., Limited, Waterloo, Ont., quoted the following prices for desks delivered to the nearest Railroad Station for any agency in Saskatchewan and Alberta,-

Globe Steel Automatic Desks

<u>Size</u>	<u>Single</u>	<u>Double</u>
1 and 2	\$4.70	\$5.55
3 and 4	4.55	5.40
5 and 6	4.40	5.25
Rears, all sizes	4.05	4.90
Fronts "	4.05	4.90

In a letter recently received from this firm they stated that they were preparing a new price list, but this has not been received yet.

Iron beds with springs and mattress for the pupils should be purchased in Edmonton for about \$8.00 each; single beds with springs and mattresses for the staff would cost about \$9.00 and a full sized double bed about \$10.00.

and fittings to make the drop fixtures. It is understood that the installation of this plant and also the erection of the wind-mill will be looked after by the management at no expense to the Department.

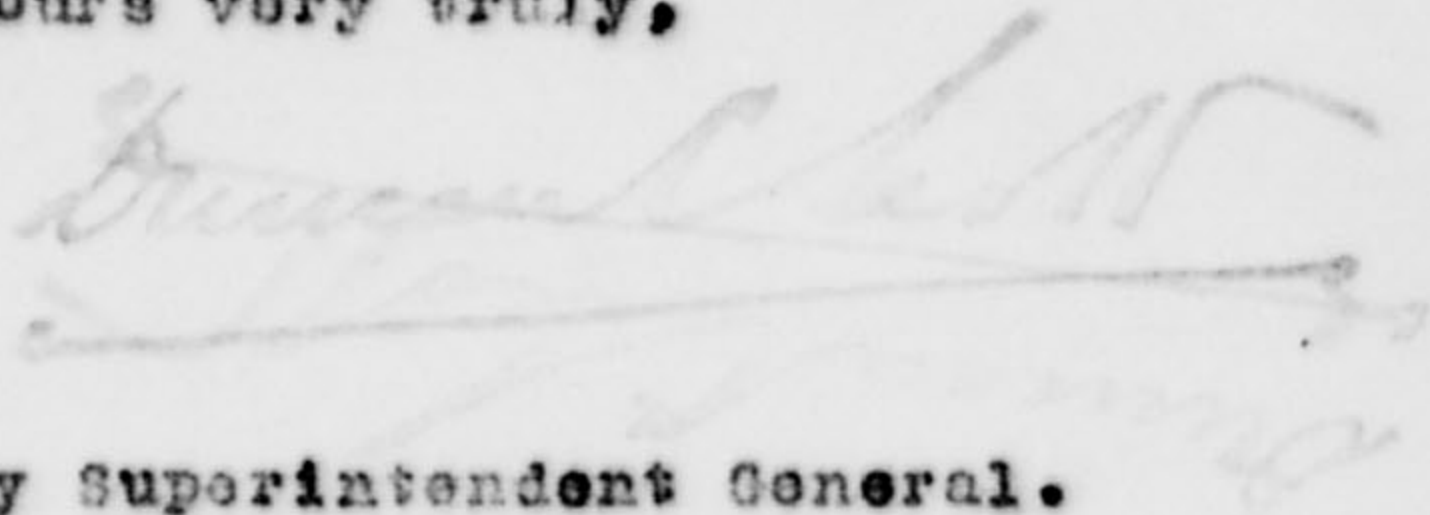

It is to be understood that this expenditure is once for all, and that the renewal of this equipment when necessary will be made by the school authorities.

As it is desirable to make the purchase out of this year's appropriation, the goods will be ordered at once, to be shipped as directed in your Lordship's letter.

I shall be glad to have your Lordship's confirmation of this arrangement.

Wm

Yours very truly,

Deputy Superintendent General.

Ottawa, February 9, 1917.

Sir, -

On October the 3rd last, in answer to his enquires, you forwarded particulars and price list of your wind engines and accessories to the Right Rev. Bishop Lucas, Ft. Chipewyan, N. W. T., for use in the new Indian Boarding School there.

The correspondence has been sent by the Bishop to this Department that the purchase might be approved, and as it is necessary that the materials should soon be forwarded and to prevent delay, the order sent you herewith is, -

1 Regular 8' galvanized ^{Ontario} wheel wind engine with gearing and pump, rods, bolts, etc. complete..... \$ 47.00

1 30' galvanized steel tower with all appurtenances and equipment complete ready to set up..... \$ 63.00

The price quoted is \$110.00 less 25% equals \$ 82.50
F. O. B. Regina.

The goods are to be safely packed and shipped and addressed to the Indian School, Hay River, Great Slave Lake, N. W. T., c/o Hudson Bay Company, Peace River, Alberta.

The freight should be prepaid to Peace River by you when shipped and the accounts for the goods in duplicate and the shipping bill sent to this Department for payment.

Your obedient servant,

Asst. Deputy and Secretary.

Thompson, Esq.,
Manager, Ontario Wind Engine & Pump Co.,
Regina, Saskatchewan.

February 12th. 1917.

Right Rev. Sir.

In my letter to Your Lordship of the 8th. instant, it was stated that the necessary gas piping would be sent you in addition to the acetyline generator for the plant for the Hay River boarding school. It has now occurred to us that you may already have installed the gas pipes in the building, and if so a further supply would not be necessary. I am, therefore, enclosing herewith a list in duplicate of material which will be required, if not now installed, to make the piping complete, and I would request Your Lordship to place the order for this piping with Messrs. Freese & Dobbin, Edmonton, and forward the account to the Department for payment after certifying to the receipt of the goods. 350 ft. of galvanized 1½" water pipe with wrot couplings should also be

Attention Mr. L. D. McLean.

Re No. 170367/5

Dear Sir:-

We wish to acknowledge with thanks receipt
of your order for school desks for Hay River Boarding
School, as follows 10 #5 Globe Steel Auto Double Desks
10 #4 " " " " "
5 #3 " " " " "

to be shipped in K.D. condition and addressed to the
Indian School, Hay River, Great Slave Lake, N.W.T.
c/o The Hudson's Bay Company, Peace River, ALTA.

Beg to advise that we will ship these desks
within the next few days and will wrap and crate ~~some~~
so that they will not be damaged in transit.

We will invoice these at F.O.B. factory
prices as we could not find freight rates to N.W.T.
They would have to go by rail, team and boat.

Hoping this is satisfactory to you, and
again thanking you for the order, we are,

Sirs:—

I am in receipt of your letter of the 23rd instant, with enclosures, relative to the desks which you shipped to the Hay River Boarding School; and in reply I have to request that you will furnish the Department with a copy of the shipping bill. You should state whether the freight was prepaid. If prepayment of freight was made, it should have been charged in your account. If it was not prepaid, you should arrange, if possible, with the railway Company for payment and send a receipt thereof to the Department. I may add that it is usual for all shipment of school desks, etc., to be prepaid by the firm making shipment, and in every case the Department requires a receipt for payment of such charges.

Handwritten signature

249 Albany Ave., Toronto, March 9th, 1917

To the Secretary
Department of Indian Affairs
Ottawa.

498549

Dear Sir

The Woman's Auxiliary has been appealed to by the Bishop of Mackenzie River Diocese to assist with the needed furnishings for the new Boarding School at Hay River, which is nearing completion.

We hope to have about \$500 to expend on the articles asked for- kitchen ware, furniture for Staff and dining room, stoves, chemical fire extinguishers, etc.

I am writing to ask if the Department will concede the same favour as was granted in connection with the School at Moose Port- refund freight charges on these goods. Such a kindness would enable me to expend the full amount of the money which I receive, while it would be very difficult to know what to spend if freight charges had to be held.

May I hope for a favourable reply at as early a date as possible as I have been notified by the Hudson's Bay Company that all supplies must be at Peace River Crossing by the 25th of April

I am Sir

Dear Madam -

I have to acknowledge the receipt of your letter of the 9th instant, in which you request a refund of freight charges on furnishings for the new boarding school at Hay River. For your information I have to state that I have already made considerable concessions by way of supplies, furnishings and equipment for this school, and these were supplied upon the understanding that the church authorities would be responsible for the freight on the goods from Peace River to their destination. I may state that this equipment was in the nature of beds, wind-mill, steel tower and an acetylene gas plant, with all the necessary piping attachments, etc.

In the case of the furniture which you propose to supply, I shall be pleased to extend the same treatment, that is refund to you the railway freight charges from Toronto to Peace River, you to be responsible for the charges on the transport from there to Hay River.

Dry Goods Dept.

Sec. Department of Indian Affairs,
Dominion Government Bldgs.,
Ottawa, Ont.

Dear Sir:-

Replying to your favor of March 1st, Folio 170367/5;
would say that we are enclosing illustration of the various lines
of beds which we can supply and will give as follows our stock
of the various widths, together with price, in order that you may
select the fifty beds required for the children;

No. 10	Ten Beds 3' wide	\$4.10 each.
" 20	Nineteen Beds 2'6" wide	3.75 "
" 30	Fourteen " 3' wide	3.25 "
" 40	Twenty-three Beds 3' wide	4.95 "

We can also supply Beds as per enclosed illustration
in 3'6", 4' or 4'6" widths at the same price as above quoted, in
quantities as desired for the staff.

Above quotations are for the regular 6' lengths only,
as we are not in a position to supply any other at the present
time.

We are enclosing illustrations of Springs, which we
can supply at prices as follows, for any width of bed you may select.

No. 205	\$2.95 each.
" 210	3.25 "

We are unable to enclose illustration of our No. 5
Mattress, but might say that the cover is of Fancy Ticking with
Excelsior filling, and with a layer of Wool both top and bottom.
The prices are as follows:-

Widths 2'6", 3' & 3'6"	\$4.15 each.
" 4' & 4'6"	4.60 "

We beg to state that the above prices are all net
thirty days F.O.B. Edmonton, and that we cannot guarantee the

Ottawa, March 24, 1917.

Gentlemen,-

I have to request that you will be good enough to furnish this Department with twenty, five foot institution beds, two feet six inches wide with springs and thirty, six foot beds, two feet six inches wide with springs at the price quoted by you, \$5.45 each, four six foot beds, three feet wide, with springs at \$6.65 and one six foot bed, four feet six inches wide, with springs, at \$7.05.

These beds are for the Hay River Boarding School and should be safely packed and shipped to the Indian School, Hay River, Great Slave Lake, N.W.T., c/o Hudson's Bay Company, Peace River, Alta.

The freight should be prepaid to Peace River by you when shipping and the account, for the beds, in duplicate, with the shipping bill sent to this Department for payment. This matter should be attended to at once, as the goods should be at Peace River before the 25th proximo.

Your obedient servant,

J. D. McLEAN

Dear Sir:

Your favor received enclosing check No. 4015 for \$82.50 covering our invoice No. 6993 for an 8 x 30 Mill shipped to the Indian School at Hay River, Alta. We, however beg to advise that there was freight of \$13.71 on this outfit, and the copy of our debit note is being enclosed. It would appear that the freight on the outfit was overlooked when making arrangements for the payment of the account.

Trusting that we may have a settlement for this balance by early mail, we are

Diocese of Mackenzie River.

The Right Rev. J.R. Lucas, D.D.
Bishop.

Bishop's House

Chipewyan, Alberta, Canada.

March 9th, 1917.

Dear Mr. Hunter,

Letters have come up from Hay River, and in one of them Mr. Vale refers to the Shoe mending outfit, suggesting that a plentiful supply of leather and nails, etc., should accompany it. Will you please see that these are included.

I have asked the Indian Department to furnish us with an Acetylene Gas Outfit. This, I think, they will do. I shall be glad therefore if you will get some information respecting this light which will prove useful in the future. The R.C. Bishop says the light is satisfactory, but he has had some trouble with the automatic "shut off" which does not shut off, automatically or otherwise, and so much Carbide is wasted. His generator is installed in the basement, and I suppose ours would be there also. I do not know what is the usual method adopted by the Department in respect of such a Grant, whether they place the order for it with any particular Firm, or leave that to the grantee. It would save much valuable time if you would kindly enquire at the office of the Indian Department as to what has been ^{done} in this matter. Mr. Bury knows all the facts connected with this matter. If you are able to communicate with the Firm which is to supply the Plant, you will need the Plan of the Building showing what piping and fittings would be required. This I am enclosing for your guidance. Should it become known to you that the Plant will not be installed this year, I should advise you to order some Coal Oil for your own use.

I have also asked the Department for a WINDMILL, Pump, and 350 feet of Piping. The size of the pipe has just reached me from Hay River, viz., 1½ inch. Of course connections and elbows will be needed. Mr. Vale has sent the following illustration of the "LIFT" of the pump, thus,

"Lift will be about 25 feet. Distance
from River about 225' "

I suppose it would be better for the Firm which supplies the Windmill to furnish the piping, also the pump. Otherwise, the Marshall-Wells Alberta Co. Edmonton, would do it as well as anybody as they are shipping a lot of material for me to Hay River. I hereby authorize you to act for me in procuring the material necessary for the above if the Grant has been made by the Indian Department for the Gas Plant and the Windmill. It will be wise to get "Spares" of parts easily broken. It all will have to be shipped C/O H.B.Co. Peace River freight prepaid to that point. If not prepaid, then, C/o H.B.Co. Edmonton. I hope this will not burden you too much. We expect this to be the last mail but for the winter, hence the urgency to get this out.

Ottawa, April 26, 1917.

Sir,

On February 12th last the Department wrote the Rt. Rev. J. Lucas, Bishop Of MacKenzie Diocese, Fort Chipewyan, Alberta, authorizing him to purchase from you for the Hay River Boarding School the water and gas pipes required there as per the accompanying list. If this has not already been supplied per his order, I have to request that you will at once forward the material listed prepaid to his address. The account for material and freight to be sent to the Department in duplicate for payment.

As it is necessary that the supplies should be forwarded at once that they may be taken in with the other supplies already sent forward, this should have your immediate attention, and as there is a rather difficult portage to make the parcels should be such that transport will be as easy as possible. The material should also be cut to length with threads, etc., on pipes so as to facilitate erection as much as possible before leaving your premises, the goods to be shipped as per address on the material list.

The list of piping etc. and sketch plan of lights is inclosed in duplicate.

Your obedient servant,

Messrs. Freeze & Dobbin,
Edmonton, Alta.

J. H. McLEAN

Asst. Deputy and Secretary.

April 26, 1917.

Right Reverend Sir,-

Lucas

In my letter to you of February 12th last in reference to water and gas pipes, etc., for the Hay River School, you were advised to purchase the material as listed from Messrs. Freeze and Dobbin of Edmonton, provided these had not already been installed in the building. As it appears from your letter of the 9th ultimo addressed to Mr. Hunter, that you had not at that time been in receipt of mine and that the necessary material may go forward as soon as possible, I have sent the list direct to Freeze and Dobbin requesting them to have same shipped at once (if not previously ordered) addressed to the Hay River School as per your instructions. The other goods supplied by us have already gone forward and will no doubt be received in due course.

The acetylene burners and fixtures necessary have been delivered to your Mr. Hunter here and will be shipped by him.

Yours very truly,

Rt. Rev. J. Lucas,
Bishop of Mackenzie Diocese,
Fort Chipewyan, Alta.

Ottawa, May 7th., 1917.

Sirs,-

Referring to your letter of the 1st instant, relative to your invoice of \$138.15 for desks shipped to Peace River, I beg to state that payment of your account is delayed owing to the non-receipt of the bill of lading which you were requested to furnish. As soon as this bill (or a copy thereof) is received, payment of your account will be promptly made.

Your obedient servant,

J. D. McLeod

Dear Sirs:-

Re No. 170367-5.

Indian School.

Hay River, Alta.

In reference to your letter of April 26th, We might say this will have our very best attention, and will be shipped North on the first freight, Friday May 4th, We are cutting the pipe in lengths so as to make transport as easy as possible, but as the list of pipe, and fittings differ from the details on the sketch. We are leaving it so that the lengths can be cut on the building right.

Hoping this will be satisfactory,

Yours Truly,

S. L. Dobbin & Co.

Dear Sirs,

Under separate cover I am sending you the plans of the Church of England, St. Peter's Mission Indian School, Hay River, Great Slave Lake. The four plans are labelled as follows:-

1. Foundation posts.
2. Details at right and left Dormitories.
3. Cross Section at middle rooms.
4. Plans comprising, ground floor, 2nd. floor, front, rear and end elevations.

The plans are dated July 1914 and the architect is Mr. L. R. Jarvis.

Should you desire a blue print of the "Truss over school room" indicated on plan No. 2 as above, Mr. Jarvis can furnish same.

The Right Reverend J. R. Lucas and Mr. W. R. Hunter advised me that you were in need of these plans.

Sincerely yours,

RAW/AMT.

Dear Sir:-

Att: Mr. L. D. McLean,

RE: #151717-5

50068723

500672

We are in receipt of yours of May 7th, and in reply beg to say that we cannot obtain a freight receipt from the G.T.R., at this end, as they claim that they only have the charges from here to Edmonton and from Edmonton to Peace River this shipment had to be transferred to two other roads, freight of which they have no tariff and have written the agent at Edmonton on several occasions to let them have the freight rate from Edmonton to Peace River, but have been unable to obtain same.

The agent at this end is again taking up this matter with the agent at Edmonton ^{again} and as soon as we receive the amount of freight from the agent we will send you freight receipt for same.

Hoping that this is satisfactory, we are,

Yours truly,

Hoosier Pneumatic Water Supply Systems

Hoosier Pneumatic Water Supply System
Hand outfit for shallow wells or cisterns

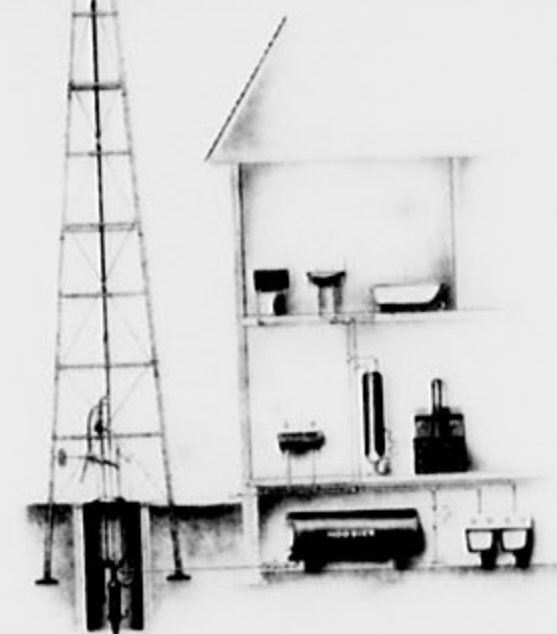

Hoosier Pneumatic Water Supply System
With Fig. 1226 Double Acting Power Pump operated by Hoosier Jr. Engine, for shallow wells

Hoosier Pneumatic Water Supply System

Operated by Star Windmill and Regulating Pumps, for deep or shallow wells

Every Hoosier Pneumatic Water Supply System is planned separately to exactly meet the conditions under which it must operate. No two wells present the same pumping problem; distances the water must be piped vary; and the water supply demand as to pressure and quantity is different in almost every installation; therefore, a system that is not especially planned to meet each peculiar condition cannot be expected to give efficient service. It is too much like trying to stop a square hole with a round peg.

In spite of the fact that each Hoosier System is planned separately, you will find their first cost is no more than other systems and their operating expense is far less. You will find that Hoosier Systems are easily within the financial reach of those of limited means. They range in size from hand outfits suitable for the smallest home to those which will supply an entire village with an abundance of water under high pressure.

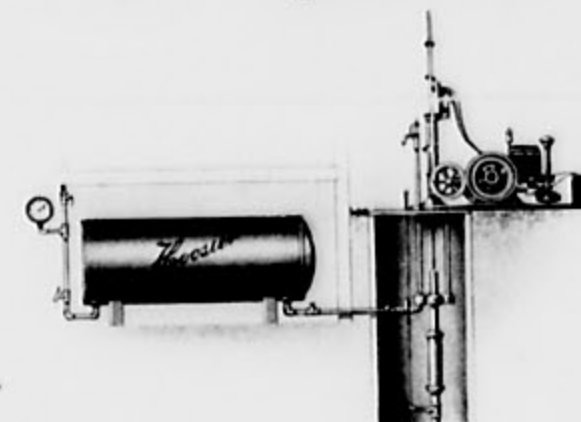

On this page a number of Hoosier Systems are illustrated and in our catalogue a great many more are shown. These, however, are shown simply as examples, and are only a few of the many combinations and arrangements that are possible with Hoosier Systems. They may be operated by hand, windmill, gasoline engine, or electric motor. We will gladly plan a system for you that will insure the most satisfactory service and lowest cost. The cost of these outfits will run from \$50 up and considering this small cost there is no longer any reason why every home should not enjoy all the convenient and sanitary features of running water under pressure.

POOR COPY

Replace this
drudgery and
this insanitary
condition with

—this—

—and this—

—and this—

—for watering
the live stock—

—making country homes more comfortable
and sanitary—saving money and labor—

HOOSIER Pneumatic Water Supply Systems bring to the country home the greatest convenience enjoyed by city residents — running water under pressure in every part of the home and about the premises. There was a time when this was looked upon as a great luxury in country homes; but now, higher standards of living, recognition of the vital importance of the sanitary conditions secured through the modern water supply system, and the great amount of labor saved, have brought us to a point where running water under pressure, is considered a necessity in the home.

WITH a Hoosier Pneumatic Water Supply System you may have running water in the kitchen, bath room, sleeping rooms and laundry; you may have hydrants about the premises for filling stock tanks, sprinkling the lawn and garden and for flushing the stables. In case of fire there is a large supply of water under pressure ready for instant use; and in such a case a Hoosier System will be worth many times its cost.

YOU may not be familiar with the great progress that has been made within the last few years in improving and simplifying water supply systems; if you will now look into this carefully, you will find that Hoosier Systems are simplicity itself and that any one can learn in a very few minutes all that is necessary to know about operating them. When once properly installed it is, at most, simply a matter of starting and stopping them. A great many Hoosier Systems are entirely automatic and will furnish an abundant supply of water without you going near them for weeks at a time.

WE want you to send for our catalogue, which tells all about Hoosier Pneumatic Water Supply Systems; how simple, efficient and inexpensive they are, and how they make life more pleasant for every member of the household. Reading this catalogue will undoubtedly open your eyes to a great many facts about water supply systems that you have been overlooking. Send for it today.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Model 12 Star Windmill 2 ^{Pitmans Gears} 2 has won its own way into the favor of the windmill buying public. It has proved for itself that it has no equal. Star Windmills found their way to the world's market almost half a century ago and more than a million have since done service in the various civilized countries throughout the world.

The Model 12 Star is perfectly aligned, has a direct centre lift, and it perfectly equalizes its load. Where there is perfect alignment, direct centre lift and perfect equalization of load, there can be no unequal strains. Where there are no unequal strains there can be no undue friction. Where there is no undue friction there can be no uneven wear. And finally, where there is no uneven wear there can be no unwarranted breakages with the consequent repair bills and the inconvenience of being without water when water is most needed. All this means that the Model 12 Star is designed and manufactured to whirl on smoothly and silently long after the average windmill has outlived its usefulness.

*Almost
two windmills in one*

The Model 12 Star Windmill 2 ^{Pitmans Gears} 2 is almost two windmills in one; not only in the matter of lasting efficiency but in design and construction, too.

It has two pitmans, two gears, two pinions, and two wrist pins. Each one of these parts bears only one-half the strain borne by the single parts on mills so constructed. Moreover, each two of these parts, as found in the Model 12 Star Windmill equally divide all loads and strains and distribute them squarely and evenly. This "double construction" is largely responsible for the Model 12 Star's extreme responsiveness, its unusual durability and its all 'round efficiency.

The pitmans are truss-shaped to give them extra strength; they are well braced and ribbed and capable of many times the load they will ever be compelled to carry; fitted with heavy babbitted bearings, easily and quickly removable, and have an extra big oil well. Without these two pitmans, even though there were two gears and two pinions, the load could not be so equally distributed.

The two gears are extra wide and are attached so as to make it impossible for them to bind with the pinions after the mill has been in service a year or two.

The pinions also, are extra wide so as to give added strength to the mill, and are securely keyed to the shaft. It will be noticed that both pinions are supported on the outside. This construction prevents the pinions from wearing out of mesh and reduces to the minimum the strain within the bearings.

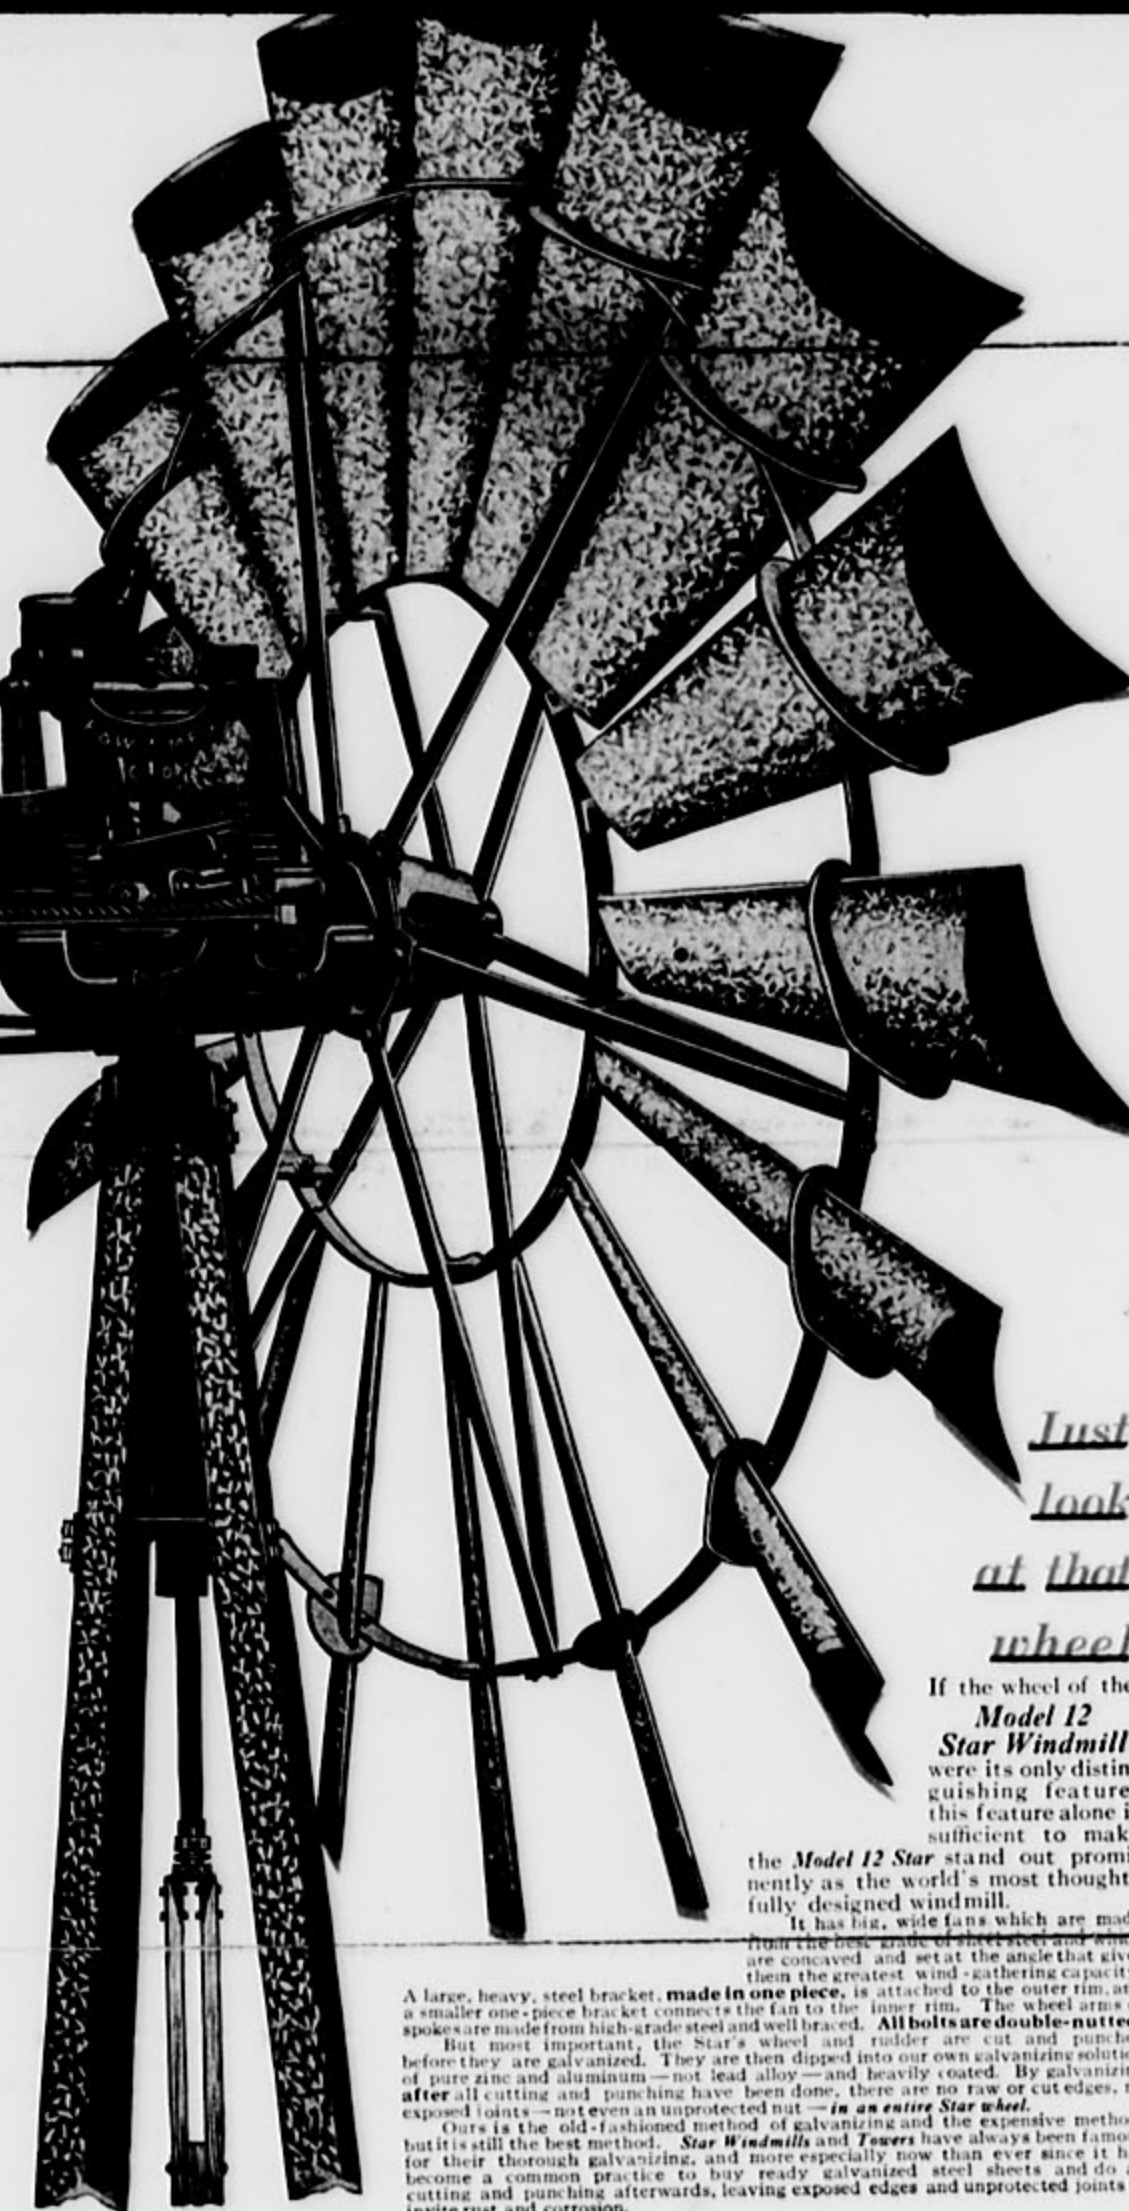

The wrist pins are big and powerful, made from the best grade of steel and furnished with castellated nuts which cannot possibly work loose to impair the efficiency of the mill.

An extra long cold-rolled, polished steel drive shaft of liberal diameter is easily able to bear all weights and strains upon it and makes possible extra long bearings—mighty factors toward durability.

continuous pumper

The Model 12 Star Windmill 2 ^{Pitmans Gears} 2 is essentially the windmill for light winds because of its extreme sensitiveness resulting from its perfect alignment, direct centre lift and perfect equalization of load; because of the absence of friction; because of its powerful wheel with its clearly demonstrated wind-gathering capacity; and because of its thorough lubrication.

The Model 12 Star is also the windmill for strong winds, for it is a continuous pumper. It cannot be blown out of gear with a bump to remain idle until the storm subsides. This is because there is no direct connection between the rudder and the brake. The brake has nothing to do with the governing of the mill. The brake applies only when the mill is pulled out of gear. In high winds the Model 12 Star keeps right on pumping. It takes advantage of every breeze from a zephyr to a storm. It is perfectly governed at all times and cannot exceed the speed limit to damage itself or the pump. The Model 12 Star is perfectly at home in any wind.

*Just
look
at that
wheel*

If the wheel of the Model 12 Star Windmill were its only distinguishing feature, this feature alone is sufficient to make the Model 12 Star stand out prominently as the world's most thoughtfully designed windmill.

It has big, wide fans which are made from the best grade of steel and are concave and set at the angle that gives them the greatest wind-gathering capacity. But most important, the Star's wheel and rudder are cut and punched before they are galvanized. They are then dipped into our own galvanizing solution of pure zinc and aluminum—not lead alloy—and heavily coated. By galvanizing after all cutting and punching have been done, there are no raw or cut edges, no exposed joints—not even an unprotected nut—in an entire Star wheel. Ours is the old-fashioned method of galvanizing and the expensive method, but it is still the best method. Star Windmills and Towers have always been famous for their thorough galvanizing, and more especially now than ever since it has become a common practice to buy ready galvanized steel sheets and do all cutting and punching afterwards, leaving exposed edges and unprotected joints to invite rust and corrosion.

100-1001

Because it is big and powerful, smooth and silent running.
Because it is perfectly aligned and stays perfectly aligned.

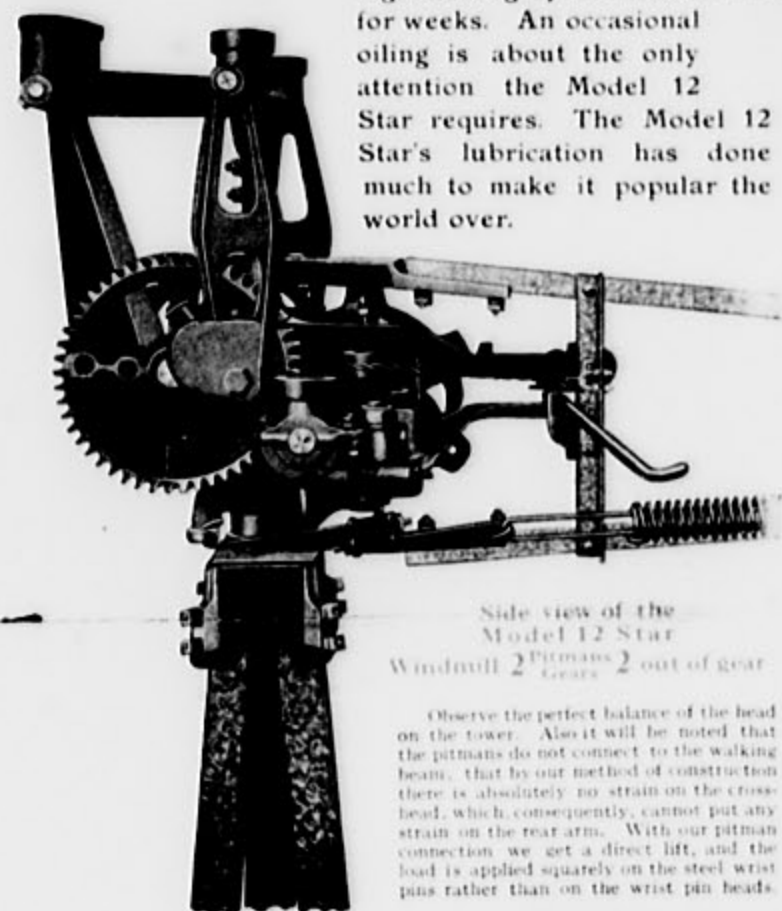

The Gears used in the Model 12 Star are extra wide to give them ample strength for the work they must do. These gears will never bind with the pinions. It will be noted that there are three adjustable strokes; the nuts on the wrist pins are in places easy of access, making it a simple task to shift the strokes.

An end to oiling troubles

With a Model 12 Star Windmill it is no longer necessary to mount the tower every few days to oil the mill.

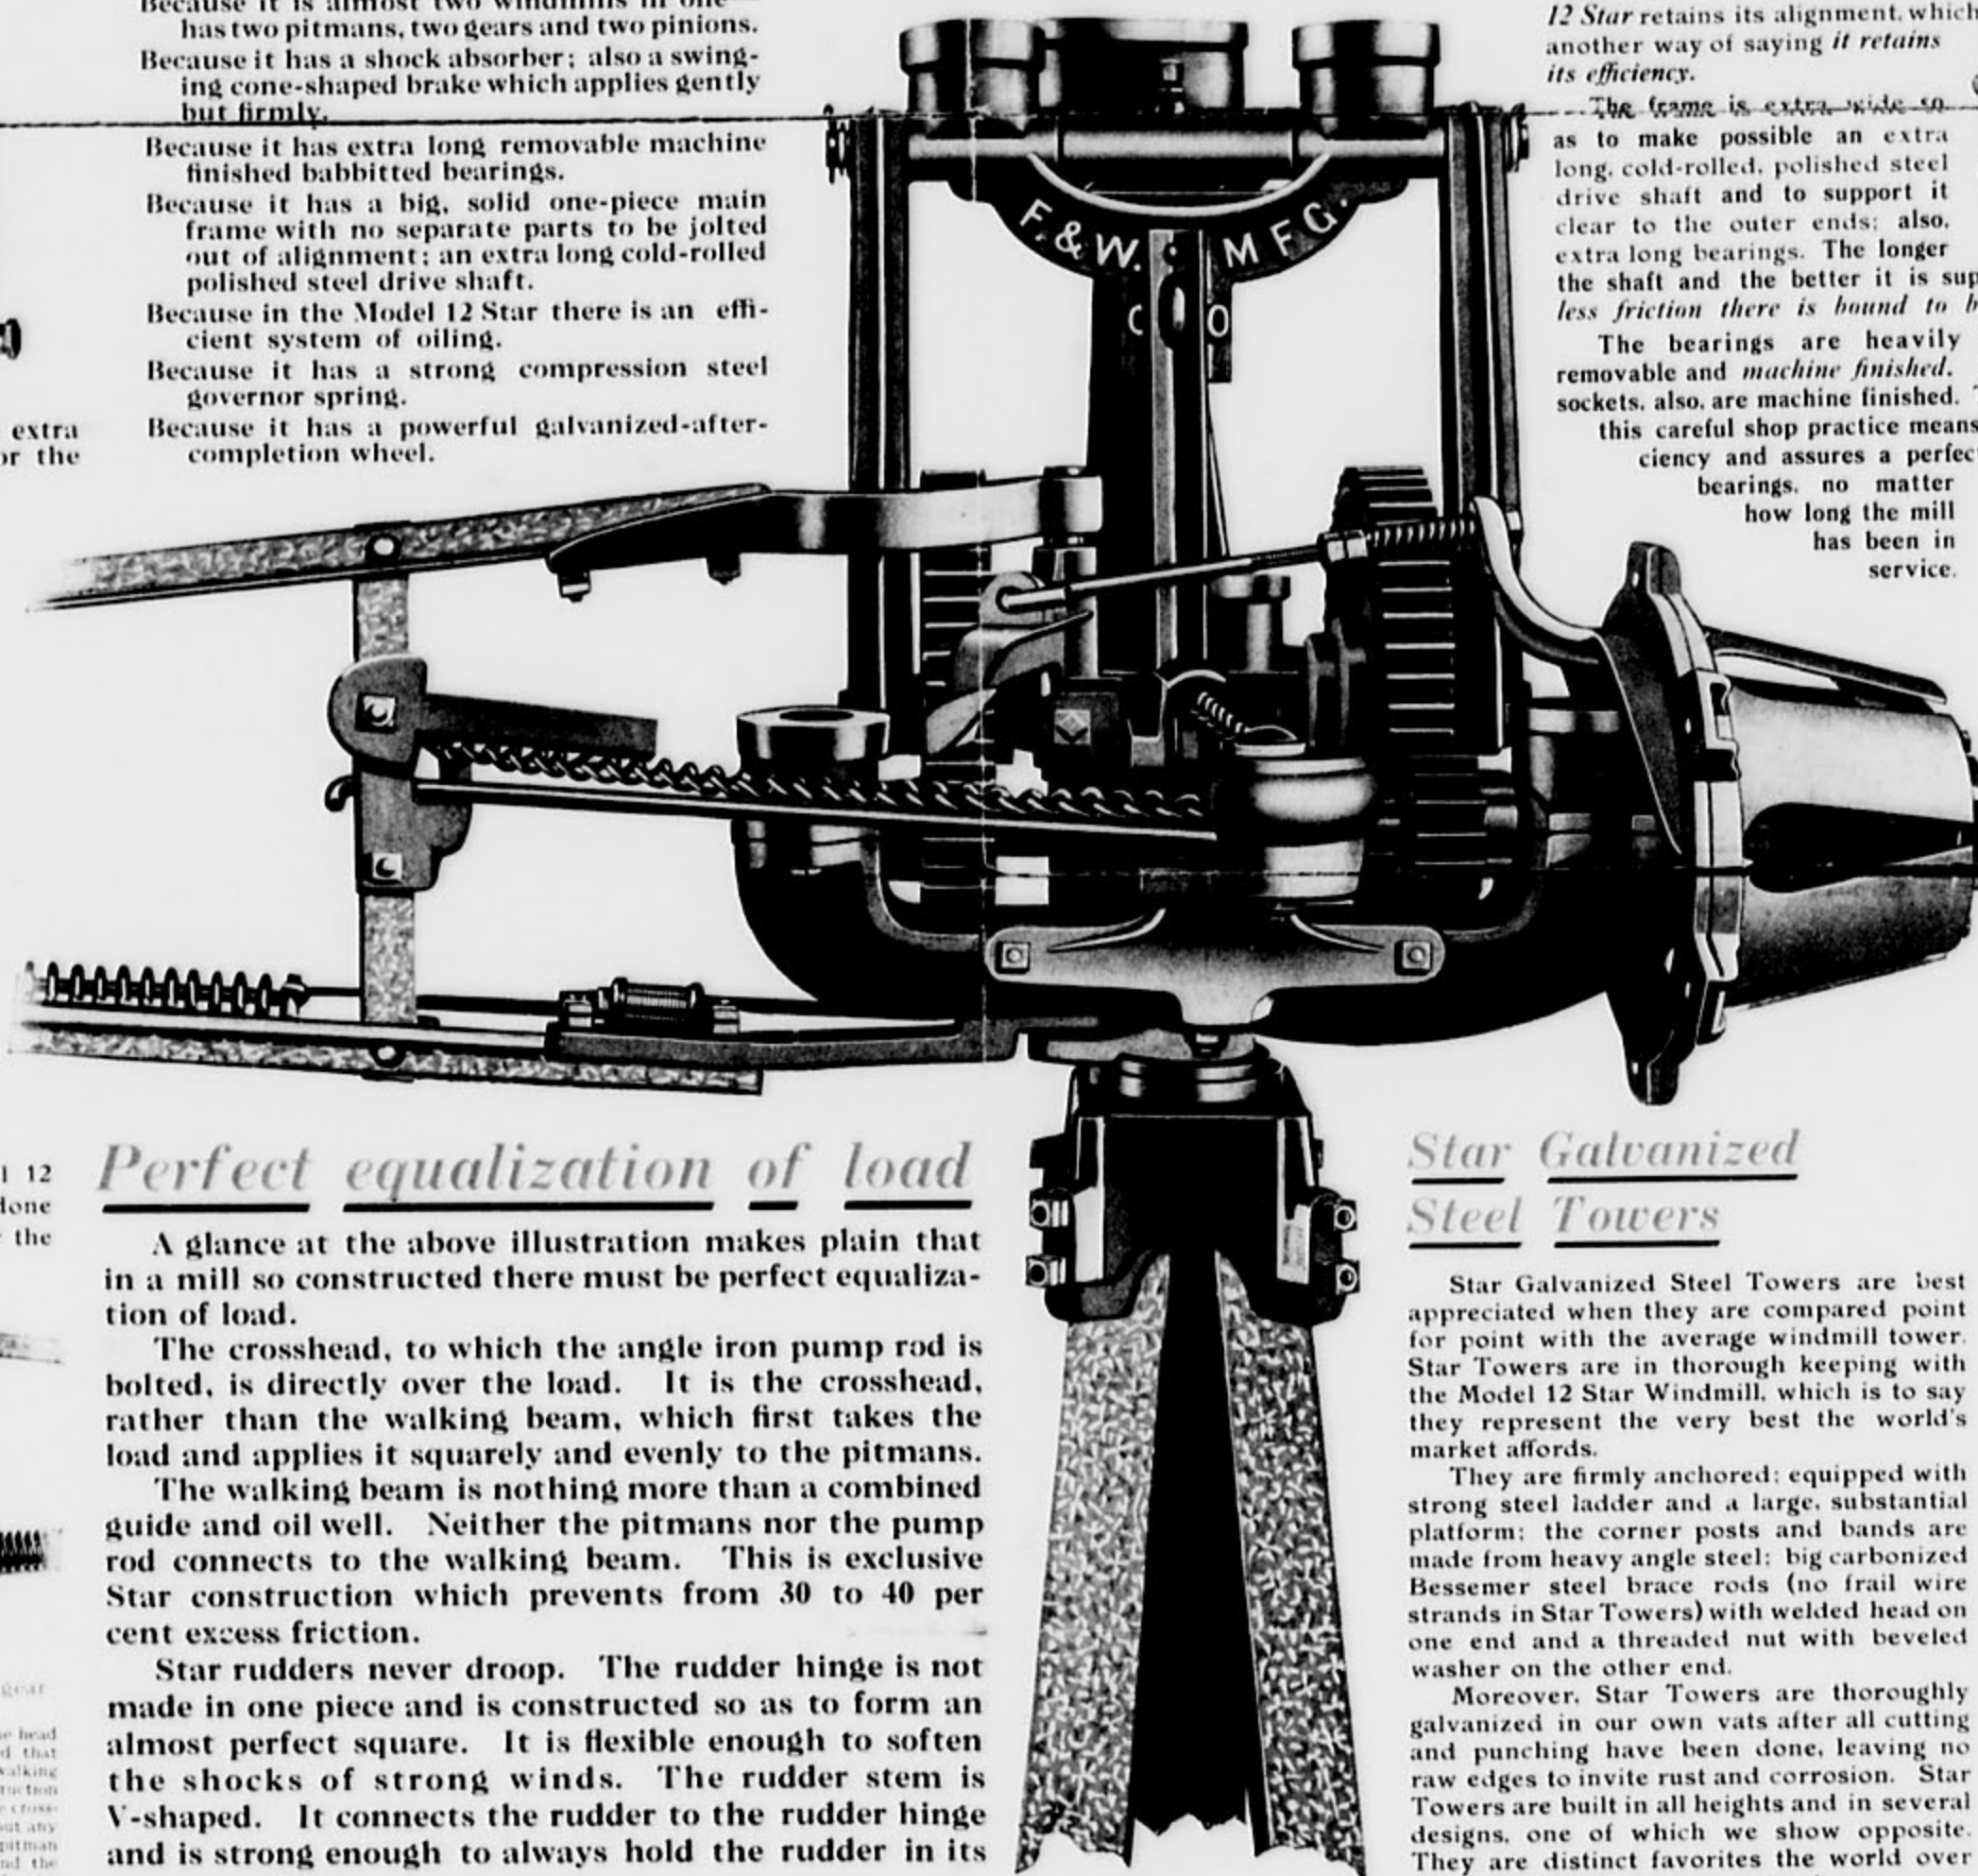

At each wearing point there is an extra big oil well which, if well packed with cotton waste or wool thoroughly saturated with a good, clean windmill oil which does not congeal or become gummy, will keep the bearings thoroughly lubricated for weeks. An occasional oiling is about the only attention the Model 12 Star requires. The Model 12 Star's lubrication has done much to make it popular the world over.

Side view of the Model 12 Star Windmill 2 Pitmans 2 out of gear

Observe the perfect balance of the head on the tower. Also it will be noted that the pitmans do not connect to the walking beam; that by our method of construction there is absolutely no strain on the crosshead, which, consequently, cannot put any strain on the rear arm. With our pitman connection we get a direct lift, and the load is applied squarely on the steel wrist pins rather than on the wrist pin heads.

Because it has a direct centre lift and it perfectly equalizes its load.
Because it is a frictionless windmill.
Because it is almost two windmills in one - has two pitmans, two gears and two pinions.
Because it has a shock absorber; also a swinging cone-shaped brake which applies gently but firmly.
Because it has extra long removable machine finished babbitted bearings.
Because it has a big, solid one-piece main frame with no separate parts to be jolted out of alignment; an extra long cold-rolled polished steel drive shaft.
Because in the Model 12 Star there is an efficient system of oiling.
Because it has a strong compression steel governor spring.
Because it has a powerful galvanized-after-completion wheel.

Perfect equalization of load

A glance at the above illustration makes plain that in a mill so constructed there must be perfect equalization of load.

The crosshead, to which the angle iron pump rod is bolted, is directly over the load. It is the crosshead, rather than the walking beam, which first takes the load and applies it squarely and evenly to the pitmans.

The walking beam is nothing more than a combined guide and oil well. Neither the pitmans nor the pump rod connects to the walking beam. This is exclusive Star construction which prevents from 30 to 40 per cent excess friction.

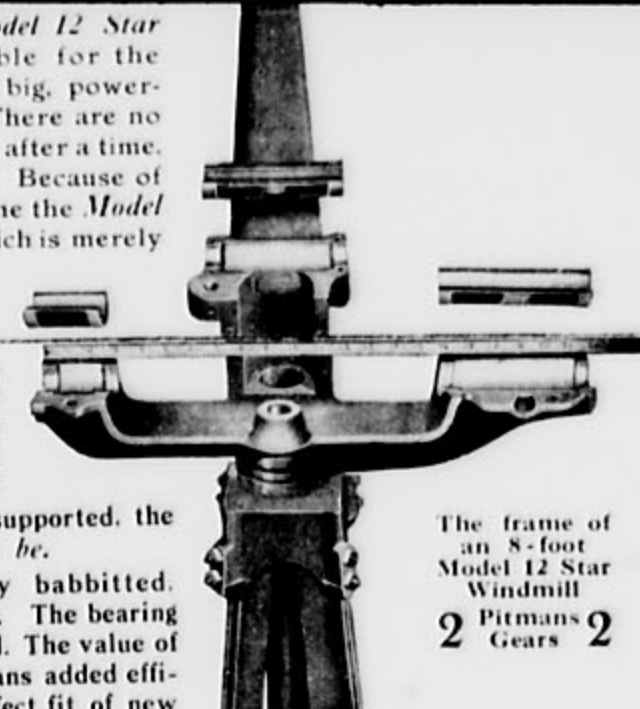

Star rudders never droop. The rudder hinge is not made in one piece and is constructed so as to form an almost perfect square. It is flexible enough to soften the shocks of strong winds. The rudder stem is V-shaped. It connects the rudder to the rudder hinge and is strong enough to always hold the rudder in its proper position.

Because it is scientifically designed and manufactured along lines which make for lasting efficiency.

The main frame of the Model 12 Star Windmill is largely responsible for the Star's lasting efficiency. It is big, powerful and made all in one piece. There are no separate parts to be jolted loose, after a time, to destroy the mill's alignment. Because of this massive one-piece main frame the Model 12 Star retains its alignment, which is merely another way of saying it retains its efficiency.

The frame is extra wide so as to make possible an extra long, cold-rolled, polished steel drive shaft and to support it clear to the outer ends; also, extra long bearings. The longer the shaft and the better it is supported, the less friction there is bound to be.

The bearings are heavily babbitted, removable and machine finished. The bearing sockets, also, are machine finished. The value of this careful shop practice means added efficiency and assures a perfect fit of new bearings, no matter how long the mill has been in service.

The frame of an 8-foot Model 12 Star Windmill 2 Pitmans 2 Gears

Star Galvanized Steel Towers

Star Galvanized Steel Towers are best appreciated when they are compared point for point with the average windmill tower. Star Towers are in thorough keeping with the Model 12 Star Windmill, which is to say they represent the very best the world's market affords.

They are firmly anchored; equipped with strong steel ladder and a large, substantial platform; the corner posts and bands are made from heavy angle steel; big carbonized Bessemer steel brace rods (no frail wire strands in Star Towers) with welded head on one end and a threaded nut with beveled washer on the other end.

Moreover, Star Towers are thoroughly galvanized in our own vats after all cutting and punching have been done, leaving no raw edges to invite rust and corrosion. Star Towers are built in all heights and in several designs, one of which we show opposite. They are distinct favorites the world over because of their extreme ruggedness.

DEPT. OF INDIAN AFFAIRS,

MAY 22 1917
 ARCHITECT.

We have received a letter from Rev. J. R. Lucas, dated March 27th, Chipewyan. Alta. to-day, with the order for the pipe already shipped, he also mentions about a pump and wind mill.

Kindly let us know as soon as possible, if wind mill, or pump has already gone forward. We are enclosing pamphlets on a pump, and wind mill giving good satisfaction in this country, in which we can recommend, an 8ft. wind mill head, a 30ft tower, pump 843I which would suit the above job which you will find in pamphlet, and a cylinder 3x14, the whole complete would cost One Hundred and forty-two Dollars. (\$142.00) f.o.b. Edmonton,

We would be glad to have an order, for this material, and also to quote prices or information at any time.

Yours Very Truly,

S. L. Dobbin & Co.,

Per. *S. L. Dobbin*

Ottawa, May 22, 1917.

Sirs,-

I beg to acknowledge the receipt of your letter dated 17th instant in reference to pipes sent by you on Department's order to Hay River school, and note your reference to pump and wind-mill requested by Bishop Lucas for use at the Hay River Boarding School, and in reply to inform you that the pump and wind-mill was sent in to them about February 1st last and will, no doubt, have reached them before this time.

mus

The Catalogue enclosed by you will be retained and placed on file that this may be available in the event of similar machinery being required in that vicinity at a later date.

Your obedient servant,

THE REV. J. R. LUCAS, D.D.
BISHOP

Bishop's House,

Chipewyan, Alberta, Canada.

March 27th, 1917.

The Deputy Superintendent General,
Department of Indian Affairs,
Ottawa,

501257

Dear Sir,

I beg to acknowledge with thanks, your letters of February 8th. & 12th, both of which reached me March 15th.

In reply to yours of Feb. 8th, I am pleased to note that owing to the location, and in accordance with precedence, you have consented to furnish the new School at Hay River, N.W.T. with beds, windmill, and Acetylene gas plant, together with the necessary gas piping and piping for use in connection with the water supply. I note also, that the installation of the gas plant and the erection of the windmill, renewal of this equipment will have to be effected at the expense of the school authorities.

With regard to the payment of freight to Peace River only, I would respectfully urge that in the course of our conversation in your office last April, I fully understood you to promise to supply the Desks and Beds free to destination. I hope therefore that you will confirm this.

With this reservation, I gladly confirm the arrangement you have outlined in your letter.

In reply to your letter of Feb. 12th, No. 170367-5ty, I have not placed the order for piping, so am sending your requisition for

same to Messrs Freese & Dobbin, Edmonton, by this mail, and shall carry out your instructions respecting the forwarding of the account to your Department for payment after certifying to the receipt of the goods.

I note that nothing has been said regarding a pump, and am therefore instructing Freese and Dobbin to supply a pump for use with the windmill, as the latter will be useless without it. Will you please let me know if it will be in order to charge this against the Department also. I sincerely hope it will, but in any case the pump must be procured even though we have to bear the cost.

Gratefully acknowledging the help your Department is giving in connection with our school,

I am, dear Sir,

Yours very faithfully,

Jas R. Lucas.

Bishop of Mackenzie River.

Most Rev. Sir -

I have to acknowledge the receipt of your Lordship's letter of the 27th March which reached me a day or two ago.

With regard to the payment of freight and supplies for the Hay River School from Peace River to Hay River, I have decided to recoup you for these charges upon receipt of accounts showing that you have paid the transportation. I think it much better to allow the church authorities to arrange this transportation and pay for it in the first place, as they will no doubt obtain closer prices than the Department would..

With reference to the pump I have to inform your Lordship that this was ordered from a firm in Regina at the same time as the wind-mill, and will be paid for by the Department.

Yours very truly,

W. B. M.

Dear Sir,

Acting upon your instructions tendered to me personally April last, I beg to enclose the following receipts showing payments made by me on account of the team of oxen and school slates for St. Peter's Mission, also for Furnace and Heating apparatus supplied to the new Boarding School.

You were good enough to promise a Grant to defray the cost of the above upon presentation of the accounts. I trust these will prove in order, and will ask you to have the amount placed to the credit of the "Mackenzie River Diocesan Account" in the Imperial Bank, Athabasca, Alta.

The Oxen form a good strong team, and will prove invaluable for farming and wood-hauling. We are deeply grateful to you for making their purchase possible.

The Slates were ordered in Edmonton at the request of your Department, as being more convenient.

The following are the Invoices and Receipts enclosed:-

Hudson's Bay Co.	Freight on Oxen.....	307.00	✓

The Deputy Superintendent General,

Ottawa

Dear Sir,

In reply to your letter of April 26th, No. 170367-5,
I beg to thank you for the trouble you have taken respecting
the water and gas pipes for St. Peter's Boarding School at
Hay River.

You will have learned from my letter of March 27th, that
I had forwarded your list to Messrs Freeze and Dobbin of Edmonton
according to your suggestion.

I note that you have delivered the acetylene burners and fix-
tures to Mr. Hunter.

Hoping everything will arrive in good condition,

I am, dear Sir,

Yours very faithfully,

Jas. R. Lucas.

Bishop of Mackenzie River.

Mr. McLean,
Secretary. Dept. of Indian Affairs,
Ottawa.

Dear Sir:-

On May 28th, last, when Mr. Hunter was in Edmonton, on his way to Hay River he was in to see us, and had us send a box of fittings, in addition to what had been shipped, which he found he would need to erect gas pipes for the Hay River boarding school. we sent the account in duplicate, as requested by Mr. Hunter, to Bishop Lucas, but have not had any reply from him. We are enclosing copy of the account, and hope to have this matter straightened out, with an early reply, we are,

Yours Very Truly,

S. L. Dobbin & Co.,

Sirs,-

I beg to acknowledge the receipt of your letter dated the 5th instant in reference to additional fittings supplied the Hay River School on the order of Mr. Hunter, and in reply to inform you that no communication has been received from Bishop Lucas in regard to this.

me
It is not customary for the Department to pay accounts for materials without a certificate showing the receipt of the goods, their destination, and value. In this instance, however, I have to request you to forward me the receipted bill for express to Peace River Landing as shown on your account, and on receipt here this account will be given consideration.

The Deputy Superintendent General,
Department of Indian Affairs,
Ottawa.

Dear Sir,

I have to acknowledge the receipt of your letter of June 5th, No. I70,367-5, which awaited me upon my return from the North in July.

The Imperial Bank has advised me of the payment of the accounts for Freight and supplied for the Hay River School of which your letter speaks. Please accept my warmest thanks for this.

I note what you have written respecting the prepayment of transportation charges by the church authorities, and fully agree. I have pleasure in enclosing cheque to your favour for \$7.90 being amount of credit passed by the H.B.Co. Peace River for overcharge on Freight of Furnaces, etc., as per B/L I6/425, in response to my complaint and of which I received advice, three days ago.

The accounts for freight on this year's Outfits have not yet come to hand. They will be forwarded by earliest opportunity.

I am, dear Sir,

Yours very faithfully,

Jas R. Lucas.

Bishop of Mackenzie River.

INDIAN BOARDING SCHOOL, HAY RIVER, N. W. T.

St. Peter's Mission

Hay River

Mackenzie District, N. W. T., Canada

November 25 1918

G. Card Esq.

Indian Agent

Fort Smith N.W.T.

Dear sir, Replying to your letter of Sept. 10 which reached me too late for

the last mail I now have pleasure in sending by chance passerby to Fort Resolution. I trust you will get it a month sooner in that way.

Regarding the food given last year to the village children as per account rendered by Bishop Lucas, would say this means a full meal given as per Boarding pupils. When the children attend the school they are invited to sit down at the table with the regular Boarders and fare the same. This food generally consist of such food as we can secure in the country e.g. Fish and country meat, potatoes and vegetables grown on our farm. During my absence on furlough last year a new system a food was established giving a much larger proportion of food imported such as Flour, beans rice butter bacon rolled oats etc. Some of the flour cost as high as \$20.00 per hundred lbs as it was secured in the country to augment the former supply. When these things are placed before the Department I feel certain they will see at once the charge was not too high. Our usual custom is to feed the children as much as possible along the lines they are likely to be able to secure on their return home. This we consider wise for the following reasons. The change of food will be less severe on their constitutions and they will be more readily satisfied with their lot again among their own people. Furthermore we have in the past found too much heavy food does not agree

Dear Sir,

The Principal of the Hay River Boarding School has sent a Requisition for the following School Materials which I hope you will have forwarded to him this Spring.

6 Complete Desks #3 size for two children.

3 Seats without Desks attached to #3 size to form rear of rows for two children.

2 Complete Desks No. 5 size, " "

Mr. Vale explains that the Desks already sent, total for 50, but provide seating for 44 only, as front ones have no desk and rear ones have desks but no seats to meet them. The new desks are needed on account of the increase in the number of pupils.

Also:

I Large Union Jack Flag

I Strong Storm ditto, smaller.

I am, dear Sir,

Yours faithfully,

J. R. Lucas.

Bishop of Mackenzie River.

Mr. Benson:-

Please see Bishop Lucas' letter of the 25th January, - re desks.

If they are to be supplied I presume they will be ordered from the Manufacturers with whom we have a special price arrangement. They should be shipped by all rail route to Fort McMurray, freight prepaid, addressed c/o Hudson's Bay Company, who will make delivery from that point. The receipted shipping Bill covering the freight charges prepaid should be attached to the account for the desks and sent to the Department when payment can be made.

The flags can be ordered from Bromley & Hague, Limited, Winnipeg, and sent by mail. The account should be sent to the Department.

Ottawa, March 11, 1919

EMOR.

Re. ~~de~~ for Hay River Boarding School.

W. J. Lucas
Bishop Lucas asked for 6 double desks No. 3, 3 rear seats No. 3 and 2 double desks No. 5. He says the desks already in the school total for fifty, but only provide seating accommodation for 44, as the front ones have no desks and the rear ones have no seats.

When the Bishop was written to they had an enrolment of 48, with an average attendance of 44, and there is provision for 45 pupils at this school.

The desks now in the school should be ample for all the pupils who would be in attendance in the class-room at one time.

520778

Dear Sir,

I beg to enclose copies, in duplicate, of Invoices from the Hudson's Bay Co., showing payment made by me for an Ox which was shipped to the Hay River School last Summer. This was mentioned by me to Mr. Duncan Scott last April while in Ottawa, and he kindly promised payment upon presentation of the account.

It would save a delay of several months if you could conveniently send the cheque for the above, direct to the Imperial Bank, Strathcona, Alberta, to the credit of the Mackenzie River Diocesan Account.

Hoping this will prove in order,

I am, dear Sir,

Yours faithfully,

Jas. R. Lucas.

Bishop of Mackenzie River.

Dear Sir,

I have pleasure in acknowledging receipt of your letter No. 170367, of February 26th, informing me that you had paid account in connection with the Hay River Boarding School, and had forwarded a cheque for the amount to the Imperial Bank, South Edmonton to the credit of the Mackenzie River Diocese.

Please accept my thanks for the trouble you have taken in this matter. The Bank Advice reached me by the same mail.

MEMO FOR FILE:

Bishop Lucas called at the Department and, among other matters, referred to the laundry, stable and fencing that was being done this year at the Hay River Boarding School. The Deputy Minister promised favourable consideration to accounts in this connection and for a team of oxen that are being purchased, if properly certified vouchers are forwarded to the Department in April. I have noted the matter for the 1923-24 Estimates.

The Bishop also asked for an increased pupilage. We promised one supernumerary for the remainder of this fiscal year and we will endeavour to vote a pupilage of 50 from April first, 1923.

Right Rev. Sir:

With reference to that portion of Your Lordship's letter of the 20th instant, I beg to say that a cheque for \$1747.50 has been sent to the Imperial Bank of Canada, Edmonton, for credit to the Diocese of Mackenzie River, being payment of \$1500 on the June quarter grant to the Hay River Boarding School, and the sum of \$247.50 being the balance of grant due for the March quarter.

A cheque for \$936.35 covering the amount of the account submitted by you for the transportation of pupils to and from the Hay River Boarding School has also been paid, and a cheque for this amount has been sent as above.

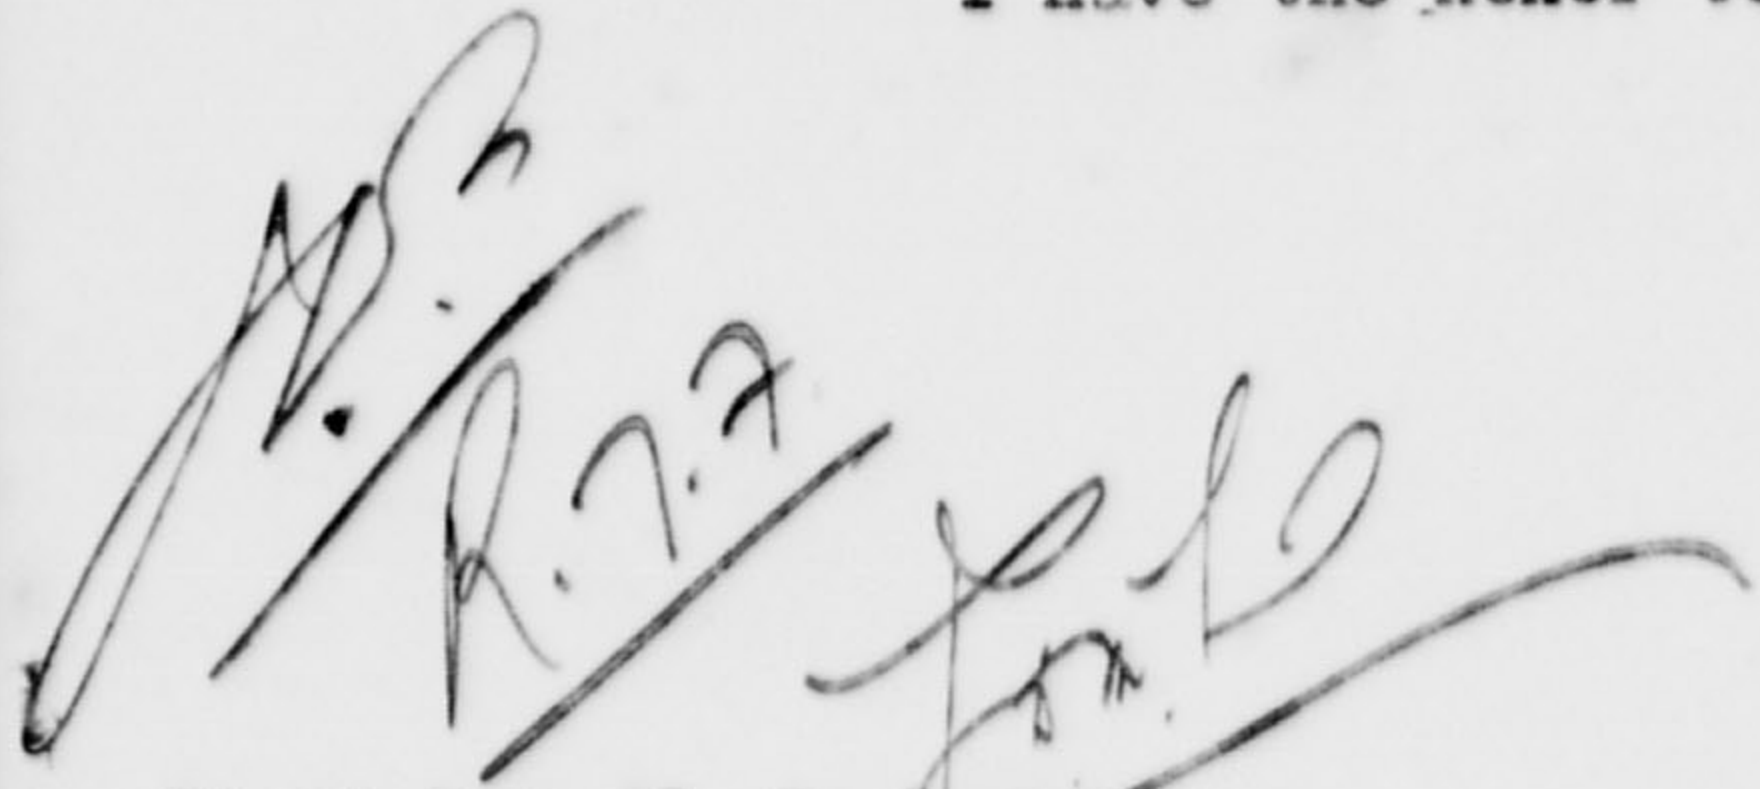

It is noted that you will submit vouchers next May covering the cost of the team of oxen, and this, if satisfactory, can be paid from next year's appropriation.

I have the honor to be, Right Rev. Sir,

Your obedient servant,

**COPY
FOR YOUR INFORMATION**

EXTRACT FROM A LETTER FROM BISHOP LUCAS TO REV. T.B.R. WESTGATE
DATED FEBRUARY 20, 1923.

"LIGHTING OF THE SCHOOL.

Again I quote from Canon Vale's letter.
"The Acetylene Gas has not been so satisfactory as in other years, and has given signs of possible danger of explosion. One slight explosion did occur when under repairs. No damage done. The plant is showing signs of need for repair. What do you think of a new system? I think you broached the subject one time. I am inclined to think well of what is known as the Delco Light. It is an Electric system and Automatic by means of a small gasoline engine. Said engine could be used for the Laundry and Ironing, etc., would be very convenient, clean and cool in the summer.

You will notice I have not ordered any Carbide. That was really an oversight, but if you think well of it may be a good miss. I suppose it had better be laid before the Commission. Will you take it up with them. We have never had enough light for the year and have to be very careful over it and stint the Staff under the present system. They have approached me with a suggestion that they contribute some of their money and get a larger supply that they may have a good light all the Winter. I have had to ask them to economize and they are nearly out as it is. With the new system I have suggested the initial cost would be heavier but in the course of, say, five years it would be saved and the cost then would be a very small fraction of the present. In addition, it could be extended to the Church, House, stable and hospital."

Regarding the above, I had intended bringing the matter to your notice during your visit. The present system was installed by the Indian Dept., but I was never greatly enamoured with it. Its annual cost is nearly \$200.00 and as explained above, does not meet all the requirements of the school and staff (though I have never sought to stint the latter and have ordered whatever was requisitioned by the Principal. I expect he thought the cost was already too high and so placed this restriction upon it).

As to any new system proposed, I feel that you have had so much experience in this direction that you will be able to deal with this matter effectually. If you decide to act this year, it would be well to advise Mr. Vale at once as to the particulars which will be needed before any order can be placed for the material.

If not, will you please send the usual order to Marshall Wells Alberta Co., Edmonton for 1400 lbs PEA CARBIDE.

The cost of Gasoline would have to be taken into account if used in connection with any proposed system. You might reckon it at about \$1.10 per gallon, cost landed at Hay River.

Hoping the above will not add unduly to your burdens.

Yours very sincerely,

(signed) Jas R. Mackenzie River.

Dear Sir:-

RE LIGHTING SYSTEM HAY RIVER SCHOOL

I enclose herewith an extract from a letter from Bishop Lucas dated February 20, 1923, concerning the lighting system at the Hay River School.

From what the Bishop has written, and this is confirmed by Canon Vale, the Principal of the School, you will see that the present acetylene gas system, which has already had one slight explosion, and appears now to be in a positively dangerous condition, should be removed, and another system installed.

If you will kindly give this matter very careful attention I shall be deeply obliged. I am endeavouring to arrange to visit the Hay River School during the coming summer and would be glad to be able to inform the Principal and his staff at that time that you are going to provide them with the comfort and safety which a new lighting system would afford.

Believe me, Sir,
Yours very truly,

T. B. R. Westgate

Field Secretary, M.S.C.C.

Reverend Sir:

I have your letter of the 13th instant, with reference to a lighting system for the Hay River Indian Boarding School. I regret to note that the acetylene gas plant at present in use is in a dangerous condition.

In reply I beg to state that the Deputy Superintendent General has directed that an item be placed in the Estimates for the coming fiscal year, for this purpose, and I shall be pleased if you will bring this need to our attention early next calendar year.

Your obedient servant,

J. D. McLEAN

Rev. Sir,-

Referring to your letter of the 7th instant, enclosing invoice of supplies forwarded to the Hay River School, I beg to state that while the invoice of Marshall-Wells Alberta Co. Ltd., is certified by the Rev. Canon Vale there is no evidence that it has been paid by the Church. If the account was paid will you please obtain from the firm a receipted invoice covering the amount of your claim and forward same to the Department. If the invoice has not yet been paid the cheque will be sent to the Marshall-Wells Co.

Your obedient servant,

A. F. MacKenzie

Duncan C. Scott, Esq., C.M.G.,
Deputy Superintendent General of Indian Affairs,
Ottawa, Ontario.

Dear Mr. Scott,-

In keeping with the arrangement made with you during our interview on the 26th ultimo, I enclose herewith all the correspondence, bills, etc., connected with the emergency expenditure I found it necessary to authorize at our Hay River School last July. The total amount which I have paid in this connection is \$476.25. This is made up as follows:-

Bill for lumber from the Crown Timber Agent, Fort Smith, N.W.T	\$315.00
Nails from the Northern Trading Co.....	9.00
Freight on lumber	150.00
Freight on nails.....	2.25
	<u>\$476.25</u>

I am unable, at present, to furnish you with a receipt from the Crown Timber Agent as this has not as yet come to hand, but will be pleased to forward it in due course if required.

As payment of these accounts, aggregating \$476.25 has already been made by me, I shall be grateful if you can let me have a cheque for this amount. The cheque should be made payable to me and forwarded to this office.

Thanking you in advance for your assistance in this matter, Believe me,

Yours very truly,

T. B. R. Westgate

Reverend Sir:

I am directed to acknowledge your letter of the 20th instant, enclosing correspondence and accounts relative to emergency expenditure at the Hay River Residential School.

In reply I am pleased to state the Deputy Superintendent General has directed that favourable consideration be given and I am returning the enclosures to you, so that they can be properly certified by yourself and attached to a voucher in duplicate, in your favour. You should have one receipted account, properly certified by yourself or the principal, for each of the four items, attached to one of the vouchers in your favour. The Auditor General will require a receipt from the Crown Timber Agent and you should secure this before submitting the voucher to the Department.

Your obedient servant,

Encl.

MINUTARY NOTES ON REQUIREMENT

From church authorities

VIII. HAY RIVER. SAW-MILL WITH PLANING OUTFIT COMPLETE AND STEAM ENGINE TO RUN THE SAME.

The present building, standing as it does on a point of land built up of sedimentary deposit, has begun to subside, with a result that the side walls have bulged out, the apex of the roof has curved in, the floors have lost their level, neither doors nor windows fit their frames. All efforts to prevent the subsidence have failed, and a new main School building is considered necessary.

A suitable site can be found about three or four miles further up the Hay River. Building stone could be procured for the basement, but timbers and lumber would have to be secured. Suitable timber can be found on the banks of Hay River, and as the Society have men on the school staff who could manage the engine and saw-mill, they hope that these may be provided next year, in order that timbers and lumber may be prepared for the building of the new School not later than 1925.

It is thought that a plant similar to the one installed at Lac la Ronge would meet the purpose. Should this be thought too expensive it should be born in mind that (a) the engine should not have less than 25 horse power, (b) the rip-saw, which should have inserted teeth, and not be less than 36 inches in diameter, and, (c) that the outfit should include carrier planer and all other appliances required for converting logs into dressed lumber.

Very Rev. Sir:

Relative to conversation with you during your visit to the Department on the 1st instant, regarding the need of a desk and teacher's chair for the use of the Hay River Residential School, I beg to say that you may arrange to purchase from the E. N. Moyer Co. Ltd., Edmonton, one teacher's sanitary desk, ash or elm, as per #10 in their catalogue, and also one teacher's chair, #3.

Please obtain accounts, in duplicate, covering the expenditure incurred in the purchase of the desk and chair, and certify thereon that the goods have been received and that the prices charged are fair and just. The above firm should prepay the freight charges to waterways, and the account for the same should be attached to the account for the desk and chair and submitted to the Department, when payment will be made.

Your obedient servant,

J. D. McLEAN

EXTRACT FROM MONTHLY REPORT OF C. BOURGET, M. D.,
Indian Agent, Resolution, N.W.T., Dated Feb. 12, 1924.

Original on 75-139.

HAY RIVER

Reverend Stoddart, Acting Principal, had me examine the building of the Mission and School in order to recommend the reparations needed very urgently in order to make the building safe. The foundations are getting weak and are spreading and the whole structure should be raised and put on solid blocks, so as to save the frame which could be used later on either as hospital or farm house, in the event of a new construction being made. Some of the apartments should also be fixed with steel ceiling and one dormitory lined with beaver board. The whole cost of these repairs asked for by Mr. Stoddart would amount to approximately two thousand dollars - the work to be done by a local contractor from Resolution, who has the equipment to raise the building. The work would be done as soon as your approval would be obtained. There is no doubt that the foundation requires some immediate attention as the whole construction is caving and the work would be a difficult proposition to make a permanent success, being on quick sand and no rock.

March 28, 1924.

Rev. T. B. R. Westgate,
41-43 The Bible House,
Alexander Ave.,
Winnipeg, Man.

Dear Sir:-

We have taken the matter of the equipment left by the White Beaver Oil Company up with their Montreal Office and they state they cannot accept your offer for the equipment there, but that they would offer the barrel of gasoline, canoe, ox, motor boat, dishes and parts for motor boat stored at your Mission for \$700.00. We have found out that the ox was only two years old when it left here, and we believe this animal alone should be worth at least \$200.00 to you at Hay River. The other equipment cost over \$1100.00 without any freight, and we hope that the whole equipment as stated above will be worth at least \$700.00 to you at Hay River.

If you wish to accept this offer we should be very glad to hear from you immediately.

Yours sincerely,

EMPIRE ENGINEERING & SUPPLY CO., LTD.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

During my visit to your Department last month I mentioned the fact that the White Beaver Oil Company had left in storage at our Hay River School a motor launch, a canoe, an ox, and certain other things as per enclosed list, which they were prepared to sell to our Society at a great reduction on cost. At the time of my visit I was given to understand that your Department would favourably consider an application to help in the purchasing of these articles when a statement was received setting forth the minimum sum which the Oil Company would accept. I have just received the enclosed letter pertaining to this matter, from which you will learn that they will sell the articles, etc., in question for \$700., and I shall be obliged if you will let me know at the earliest date possible if you will authorize our Society to purchase these articles for this amount. In my opinion the list of kitchen utensils should be purchased and paid for by the Society, but in view of the very heavy expenditure to which our Society is subject in providing fish and vegetables for their school at Hay River, and for which they receive a per capita grant of only \$165., I am of the opinion that the motor boat and parts, and the canoe, and the ox should be purchased and paid for by your Department. An early reply will oblige,

Yours very truly,

T. B. Westgate

Field Secretary M.S.C.C.

Ottawa, April 8, 1924.

Reverend Sir:

I have your letter of the 2nd instant, in which you refer to the Department's promise to give favourable consideration to an electric light plant for the Hay River Indian Residential School. I have to inform you that in the first draft of the Estimates for 1924-25 there was an item in this connection. Upon receipt of your recapitulation of the requirements for this year of the institutions under M. S. C. C. auspices, the item was struck out in view of your urgent request that a new site and a new building be secured at Hay River at the first opportunity. It is considered inadvisable to undertake improvements to plant when a new building may be erected in the not very distant future.

Your obedient servant,

J. D. McLEAN

April 7th. 1924.

The Secretary,
The Department of Indian Affairs,
OTTAWA, ONTARIO.

Dear Sir :-

--Re Motor Launch &c. for Hay River--
- School -

In reply to your letter of the 4th. instant, and with further reference to my letter of March 31st respecting the necessity of purchasing the motor launch, canoe, motor boat parts, ox &c. left by the White Beaver Oil Co. at our Society's Hay River School, I beg to state that this necessity arises chiefly, but not solely, in connexion with the provision of food and fuel.

1. With regard to food. The staff and children at this school subsist largely on fish, both in summer and winter. These are mostly secured from a point several miles out in the Great Slave Lake, and consequently several miles away from the school. In the summer regular trips have to be made to the nets almost daily for the purpose. In the past the "Komba", a steam propelled boat belonging to the school has been of service in this connexion, but the hull and machinery have now got so much out of repair as to be practically useless. When I visited their school last summer it was in "dry-dock", and I recommended the Acting Principal, for his own safety, to leave it there! In the autumn several thousands of fish have to be brought in quickly, dried on the fish stages, and put away ready for winter use and emergency. Last autumn the number thus put away was about 7,000. Thus, in the procuring of fish the motor launch would be of very great assistance, as trips could be made to the nets quickly, even with small barges or lighters in tow.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2. With regard to food or fuel. In a report just received from the Acting-Principal and dated Jan. 10, 1924, he devotes one paragraph to this question and begins with these words, "The wood has been a serious problem". His reference is, of course, to a supply of dry wood. Green wood abounds, but not close up to the school and much of this has to be towed in from the lake shore, or through three or four miles of "dead water" at the mouth of the Hay River. Thus, for the procuring of both dry and green wood for fuel purposes as well as for securing logs for lumber, the motor launch would be of very great assistance.

The canoe, motor-boat parts, and gasoline should be included with the launch.

3. The ox is very necessary for gardening and hauling purposes, and his purchase should be included with the rest.

The maintenance of this School cost our Society last year over \$ 15,000. The amount your Department allows us by way of per capita grant is for fifty pupils at \$165 each, or a total of \$ 8,250. Some time ago, during a visit to your Department I pointed out that I did not consider this grant either adequate or equitable, and I am still of this opinion. I shall be obliged if, in addition to purchasing the equipment referred to in the letter, you will carefully and sympathetically consider the question of increasing the per capita grant for this School.

Believe me, Sir,

Your obedient servant,

L. H. Matyatz

Field Secretary M.S.C.C.

April 11, 1924.

Memorandum:

Chirawa
Dr. Scott
Dr. Scott.

Dr. Westgate has urged that the Department purchase for the use of the Hay River Indian Residential School a motor launch with spare parts, a barrel of gasoline, a canoe and an ox, all of which can be secured by the M. S. C. C. from a local Oil Company for the very reasonable price of \$700.

I consider that the motor boat is necessary for the conduct of the school. It would be used for bringing in fish and towing wood. I wish to recommend that Dr. Westgate be instructed to purchase the equipment mentioned above and submit a receipted account and that the Department then give a grant of \$500 towards the cost. This amount represents what I consider the value of the motor boat concerned.

Russell D. Fisher
Supt. of Indian Education.

Ottawa, April 11, 1924.

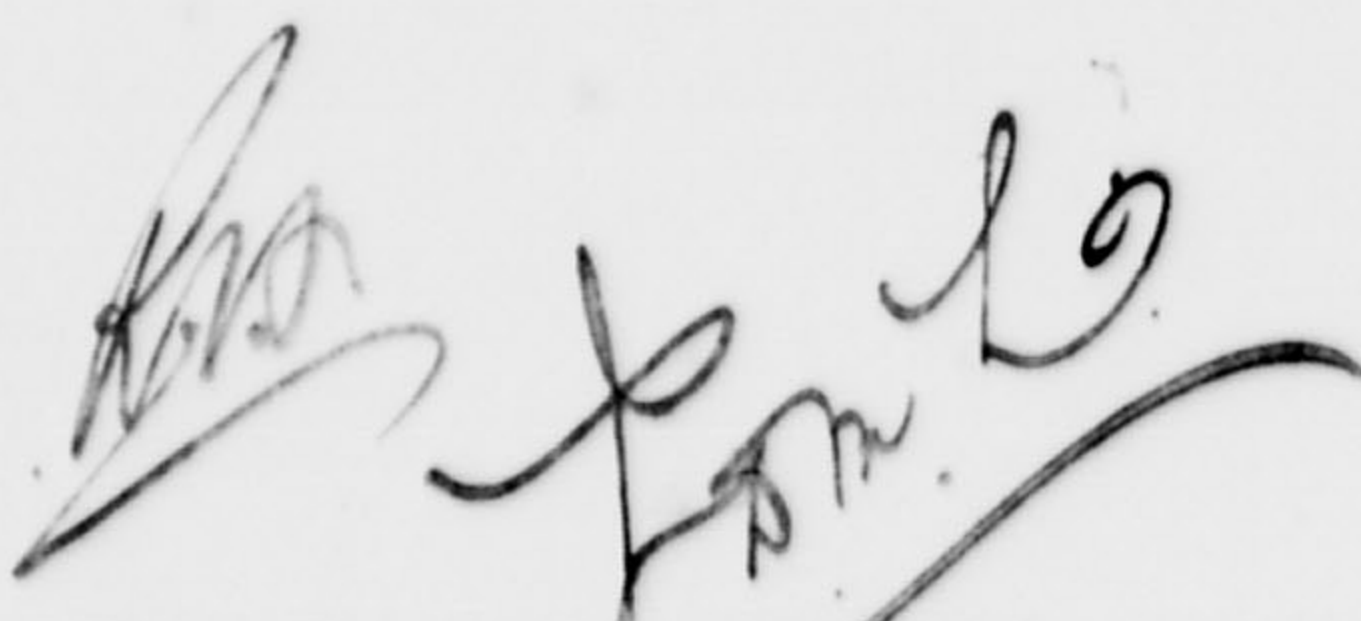

Reverend Sir:

I have your letter of the 7th instant, with reference to a motor launch and other equipment for the Hay River Indian Residential School. In reply I have to inform you that the Deputy Superintendent General has given favourable consideration and the Department will give a grant of \$500 if you expend \$700 in the purchase of a motor boat and parts, a canoe, gasoline and an ox from the White Beaver Oil Company at Hay River. You should submit to the Department a receipted account showing your expenditure in this connection and the Department will make arrangements to reimburse the M.S.C.C. to the extent of \$500.

I have noted that the maintenance of the Hay River Indian Residential School is a heavy drain on the finances of your Society; but I regret to state that the Department cannot give favourable consideration to an increased per capita grant at the present time.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Dear Sir :-

-- RE HAY RIVER SCHOOL, -C.O.F. E. --

With further reference to the list of requirements for our Society's Indian Residential Schools for the year 1924, forwarded to the Deputy Superintendent General on the 22nd. of last November, I beg to call your attention to the first paragraph of page 10 of the list submitted with that letter, dealing with the Hay River School. It reads as follows :-

"The present building, standing, as it does, on a point of land built up on a sedimentary deposit, has begun to subside, with the result that the side walls have bulged out. The apex of the roof has curved in; the floors have lost their level, and neither doors nor windows fit their frames. All efforts to prevent this subsidence have failed, and a new school building is a necessity."

As I have gathered from correspondence which has recently passed between our Society and your Department that the building of a new school cannot be undertaken in the immediate future, a good deal of repair work must be undertaken this summer on the present main school building to render it habitable until the new institution has been provided.

In addition to the paragraph quoted above from my own letter I beg to quote a paragraph from a letter dated Hay River, Feb. 11 and written by the Rev. D. A. B. Stoddart, M.A., B.D., the present Acting-Principal. He wrote as follows :-

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"We are facing rather a peculiar position. Both chimneys leading from the furnaces are practically in a state of collapse. The one leading through the boys' dormitory is particularly dangerous. I am securing from the Pure Oil Co's stock, up the river, two pipes, which we will place in position and make into the necessary chimneys. Our stock of stove piping is completely exhausted."

It is obvious from the above quotations that some steps towards the improvement of this situation should be undertaken without further delay, and I am writing to solicit your assistance in this matter.

In a letter from Mr. Stoddart dated March 21, he adds the following postscript:-

"Dr. Bourget (the Agent and physician representing your Department at Fort Resolution) has asked for an authorization to spend the sum of \$ 1,000 in repairs on our school during the coming summer".

This sum, if granted, would be a very considerable help in meeting the cost of the repairs necessary, but I do not think it would be sufficient to make the school reasonably comfortable for the staff and the children for another two, possibly three, years.

To jack up the building, it is estimated that not less than ten 10 ton jack-screws would be required. In addition to this four iron rods would be required to draw the walls back to the perpendicular, making them secure. This heavy work, along with the regular school work, would over-tax, I fear, the capabilities of our staff there, and some extra labour would be required. An expert could, I believe be secured, either at Fitzgerald or Fort McMurray.

As the boiler attached to the little engine in the saw-mill is leaking beyond repair, it is now quite out of the question for any lumber to be made on the spot, and this, along with the other items mentioned above, incline me to the opinion that \$ 1,000 will scarcely meet the expenditure which will be necessary if the school is to be sufficiently restored as to make it safe for occupation and a few years' further service. The sum of \$ 2,000 would probably do this, and I should be glad to know at your earliest convenience if instructions may be issued to the Rev. Canon Vale, the Principal, who will shortly return to take charge of the school, to effect repairs, the cost of which your Department will meet, provided they do not exceed the sum I have suggested.

I have the honour to be, Sir,

Your obedient servant,

L. A. R. Stoddart

Field Secretary, M.S.C.C.

MEMORANDUM

HON. CHARLES STEWART.

Rev. Dr. Westgate, Field Secretary of the Missionary Society of the Church of England, has drawn attention to the condition of the building in connection with the Hay River (N.W.T.) Indian Residential School. The present building, standing, as it does, on a point of land built up on a sedimentary deposit, has begun to subside, with the result that the side walls have bulged out; the apex of the roof has curved in; the floors have lost their level, and neither doors nor windows fit their frames. Both chimneys leading from the furnaces are practically in a state of collapse. It is urgent that steps be taken to have the necessary repairs carried out this season to make the building habitable until such time as funds can be provided for the erection of a new one. Dr. Westgate states that it will require the sum of \$2,000 to carry out the necessary repairs. Our appropriation for Indian Education could, no doubt, stand the expenditure of the amount required.

I would recommend your approval of authority being granted to have the repairs required to the building undertaken during the present summer, and also that the amount mentioned, viz: \$2,000, be allowed for the purpose.

Rev. Sir:

I have your letter of the 24th ultimo, regarding the condition of the building in connection with the Hay River (N.W.T.) Indian Residential School.

In reply I beg to say that the Superintendent General has approved of an expenditure not exceeding \$2,000 in carrying out the most urgent of the repairs required to make the building comfortable and safe for occupation for a few years' further service. You may, therefore, arrange with Rev. Canon Vale, the Principal, to undertake the repairs.

In the purchase of all material competitive prices should as far as possible be obtained. Accounts, in duplicate, from the firms from whom the material is purchased should be obtained. The Principal should certify thereon that the material has been received and that the prices charged are fair and just. The accounts should then be forwarded to the Department when payment will be made to the firms from whom the material is obtained. Time sheets, in duplicate, properly certified, for the labour other than that which can be performed by the school should be forwarded. Receipts should also be obtained for any freight charges on material.

The jack screws which you state will be required could, no doubt, be borrowed from some firm of contractors.

The above mentioned sum is the full amount which this Department can provide towards carrying out the repairs enumerated by you as being required to place the building in a habitable condition.

Your obedient servant,

Dear Sir,

As the District Agent, for the North-west Territories as Fort did not send me the Bill of Cost for the Lumber, but I believe sent it direct to Ottawa, and to save you a long delay I am now sending you a copy of the letter they sent me quoting prices at their Sawmill.

COPY OF THEIR letter. FILE No. 777.

Fort SMITH N.W.T.
28 July 1924

Sir,

In reply to your letter of the 21st instant I beg to advise you that our prices for lumber at our mill are \$50.00 per M. for rough lumber and \$65.00 per M. for Dressed lumber. An additional charge of \$3.00 per M. is made if the lumber is put on the Slave River Bank for shipment.

The Traffic Manager of the Alberta and Arctic Transportation Company advises me that the rate per M. from Fort Smith to Hay River is \$ 20.00.

You can instruct this officer when passing through.

Yours truly,

District Agent.

P.S. You will please note they quote here a rate of \$20.00 per M. yet on their Bill of Lading they have charged \$30.00. This I am told they justified to the Indian Agent at Fort Resolution by saying it took them a long time to get the lumber,

Your Obedient servant.

POOR COPY

Ottawa, October 15, 1924.

Reverend Sir:

I have your letter of the 23rd ultimo, containing a memo of the expenses incurred in the purchase of materials for the carrying out of the repairs to the buildings at the Hay River Indian Residential School, which were authorized in official letter of July 7th, last, to Rev. Dr. T. B. R. Westgate.

In reply I have to say that a voucher to the amount of \$166.96 has been received from the Hudson's Bay Company, covering the first item mentioned in your memo. This has been paid. The other accounts will, no doubt, be received in due course.

We note that you are negotiating with a contractor to carry out the work of the repairs, but that you will be unable to secure his services until next spring. The Department would like, if possible, that accounts be received for the material and labour, not exceeding the amount authorized, viz.: \$2,000, before the end of the present fiscal year ending March 31st, next, as the money for the purpose is provided in the Estimates which lapse on that date. It is noted that you will have the chimneys put in good repair this fall and will furnish accounts, properly certified, covering the cost. Your explanation regarding the price charged for the dressed lumber has been noted. The total amount the Department can provide towards the cost of material and labour for the purpose of carrying out the repairs cannot exceed the sum authorized in our letter to Rev. Dr. Westgate, viz.: \$2,000.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Sir:

I have the honour to enclose herewith accounts in duplicate of the emergency expenditure incurred at our Hay River Residential School last year. Your letter No. 134-7-5 dated November 26 1923 states that the Deputy Superintendent General had directed that favourable consideration be given this account provided a receipt from the Crown Timber Agent was furnished for the use of the Auditor General. We forwarded the account to Fort Smith on receipt of your letter but have only just received it back with a letter of apology from the District Agent stating that it had been overlooked.

I have the honour to be

Sir

Your obedient servant,

111. HAY RIVER SAW MILL WITH PLANING OUTFIT COMPLETE AND STEAM
ENGINE TO RUN THE SAME.

134-7-5

The present building, standing as it does on a point of land built up of sedimentary deposit, has begun to subside, with a result that the side walls have bulged out, the apex of the roof has curved in, the floors have lost their level, neither doors nor windows fit their frames. All efforts to prevent the subsidence have failed, and a new main School building is considered necessary.

A suitable site can be found about three or four miles further up the Hay River. Building stone could be procured for the basement, but timbers and lumber would have to be secured. Suitable timber can be found on the banks of Hay River, and as the Society have men on the school staff who could manage the engine and saw-mill, they hope these may be provided next year, in order that timbers and lumber may be prepared for the building of the new School not later than 1926.

It is thought that a plant similar to the one installed at Lac la Ronge would meet the purpose. Should this be thought too expensive it should be borne in mind that (a) the engine should not have less than 25 horse power, (b) the rip-saw, which should have inserted teeth, and not be less than 36 inches in diameter, and (c) that the outfit should include carrier planer and all other appliances required for converting logs into dressed lumber.

Dr. Bourget,
Indian Agent,
Fort Resolution. N.W.T.

Dear Sir,

In reply to your request for an estimate of the cost of the needed repairs to our school during the year 1925, I beg to forward the following account.

To cost of putting a new Foundation under the warehouse, used to store food in, \$100. This will include the moving of the house to a better location.

To build a new Ice House \$ 400.

Total\$500.

This is to be understood to be in access to the grant for the Repair of the Foundation and re fitting of the School, part of this work has been undertaken and the other will be completed in Spring of 1925.

Yours sincerely.

Alg. J. Vale

TO DATE OF THIS LETTER

Sir,—

I have the honour to send you, under same cover, a letter received from Canon Vale, Principal of the Hay River Boarding school; in which Mr. Vale gives us the estimates of costs for repairs and extensions to the School Buildings.

I was told unofficially that that School had been transferred to the Department of Indian Affairs for administration, but not notified by the Department, so I could not give Canon Vale any information regarding these repairs, except to transmit the letter to the Department for consideration.

These repairs have not been mentioned in the estimates, as Canon Vale was away at the time, and if the school is not the property of the Department they would not be mentioned; but not knowing if the school has been transferred or not I may be allowed to remit the correspondance as received.

I have the honour to be,

Sir,

Your obedient servant,

Ottawa, December 29th, 1924.

Rev. Sir:

The Department is in receipt of an account from the Department of the Interior, North West Territories Branch, for lumber supplied by their district agent at Fort Smith on the order of the Principal of the Hay River Indian Residential School. As this lumber was, no doubt, used in carrying out the repairs which were authorized in our letter of July 7th, last, I shall be pleased if you will arrange to have the account properly certified. If you can certify this account without forwarding it to the Principal, I shall be pleased if you will do so and return it to the Department at an early date in order that it can be paid. I may say that in a letter from the Principal dated September 23rd, last, containing a memorandum of the expenses to date to be charged against the grant authorized by our letter to you and which is referred to above, he acknowledges receipt of the lumber and drop siding mentioned in the enclosed account. It may, therefore, be that you could certify this account, and, if so, it should be attached to proper voucher forms, in duplicate, and certified in the usual manner.

I shall be pleased if you will instruct the Principal that future accounts covering the cost of any material or labour should be properly certified by him before they are forwarded to the Department. If these requirements are carried out it will save delay in the payment of accounts.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Dear Sir;

In reply to your letter of December 29th (NO.134-7-5) relative to the matter of lumber supplied for repairs to the Hay River School, I enclose herewith, as per your request, vouchers in duplicate for the sum of \$70.04, and I am returning the bills from the Fortsmith Branch of the Department of the Interior certified correct.

I am, of course, only able to make this certification on the strength of the Principal's letter dated September 23rd, 1924, to which you called my attention, and a copy of which was forwarded to your office by the Principal himself.

I do not think that there can be any doubt whatever that this sum is chargeable against the expenditure of \$2,000.00 sanctioned by the Department for the Hay River School as set forth in your letter dated July 7th, 1924 (NO.134-7-5).

With Compliments of the Season, believe me,

Yours very truly,

Dear Sir.

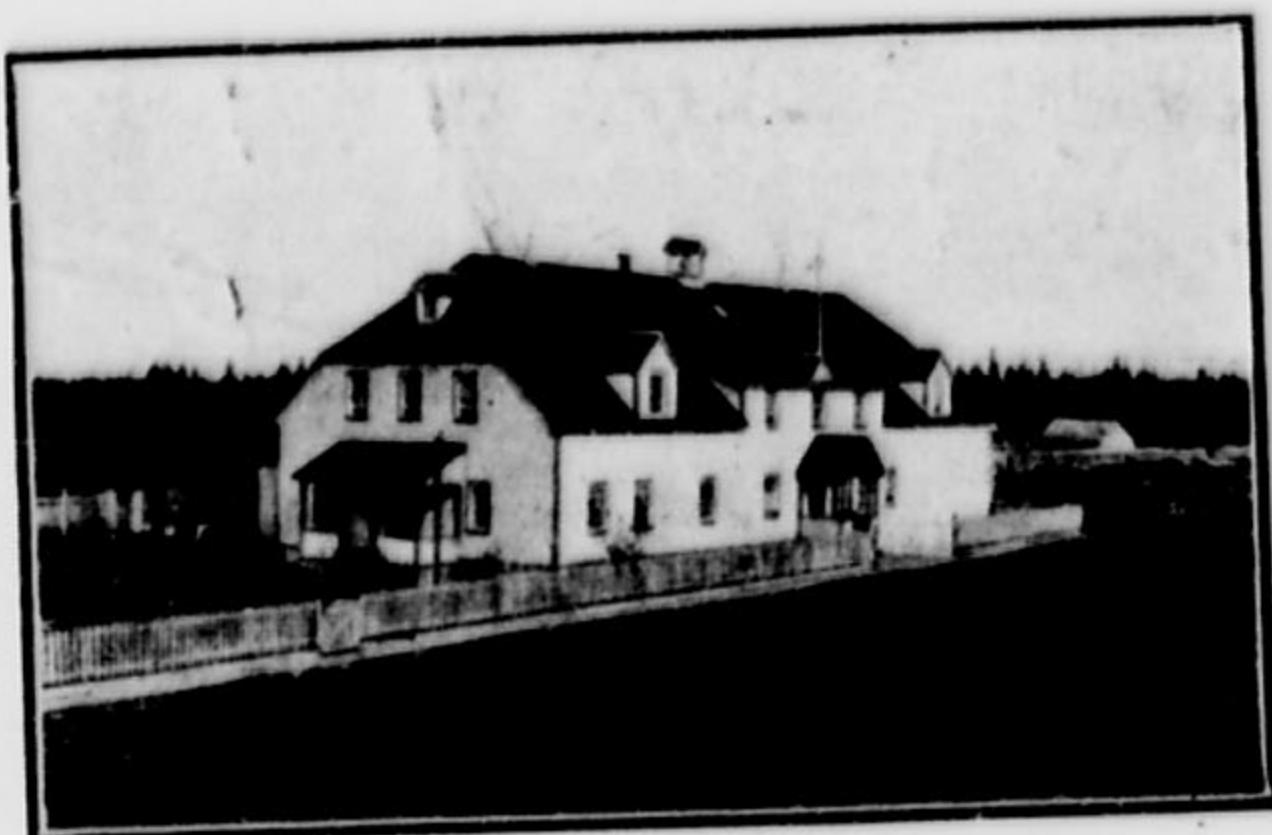

This is to certify John Cameron as hereunder signed has contracted to supply the necessary logs cut to the Dimensions as required to make the necessary Repairs for the Foundation of the Anglican Indian Boarding School as above. The price agreed upon being \$80.00. This is a fair price and the best I could obtain.

As he requires provisions while engaged in this work I have supplied same to him. As the work is now very nearly completed I have consented to pay him in full and taken his guarantee he will complete the contract in time for us to carry out the repairs in Spring.

This will therefore serve as a receipt from him for payment in full. I know your department wish these accounts to be returned within

Dear Sir,

Replying to your letter I34-7-5. under date of Oct 15th,
referring to the accounts to be charged against the sum of \$2.000
authorized by your letter of July 7th last to Re. Dr. T.B.R. Westgate

I now enclose accounts for the ¹⁹placing of the Chimneys and
also for the getting out of the logs for the foundation work. As this
refers to work done here I am sending the account to the Indian Agent
Dr. Bourget and asking him to endorse the same and forward to you.

I note what you say regarding the date limit as March 31st ne
next and will do my utmost to have the accounts reach you by that time

Yours very sincerely,

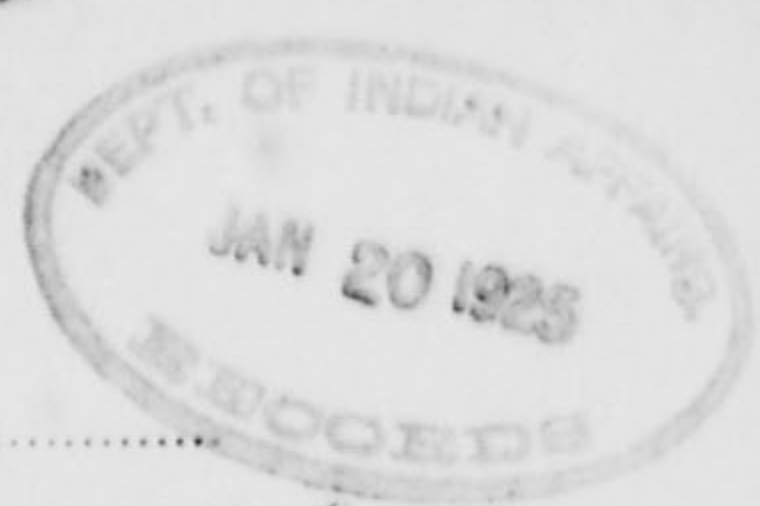

A. J. Vale

2 Sir

I have the honor to forward you, under same cover, some accounts received from Canon A. Vale, Principal of Hay river Boarding School. These accounts concern logs obtained for the repairing of the School and the installation of a chimney. The repairs have been asked in one of my reports of last spring; but as I have not received the authority from the Department to have them done, or received information that the Department had taken the administration of the School, I presume that Canon Vale has had the authority direct from the Department and the accounts do not need to be endorsed by me, being certified by Canon Vale himself.

I have the honor to be,
Sir,

Your obedient~~x~~ Servant,

C. Bourget M.D.
Indian Agent.

To The Assistant Deputy and Secretary,
Department of Indian Affairs,
Ottawa.

Ottawa, January 21st, 1925.

Rev. Sir:

Accounts have been received from Canon Vale, Principal of the Hay River Indian Residential School, for \$42 covering the cost of the labour of rebuilding the chimneys and also for \$80 for supplying logs for the foundation work at the school and labour in connection therewith. We will send you a cheque under separate cover covering these amounts.

only this matter
The Department would prefer, in future, that all accounts covering the expenditure of the \$2,000 which was authorized for repairs to this school be forwarded through your office and certified by you. We are informing Canon Vale accordingly.

Your obedient servant,

J.D. McLean

Ottawa, January 21st, 1925.

Very Rev. Sir:

The Indian Agent at Resolution has forwarded your letter of December 12th, last, with accounts covering the wages paid to the three men engaged in removing the old chimneys and putting new ones in their places and for the cost of the logs and labour required to make repairs to the foundation at the Hay River Indian Residential School to the amounts of \$42 and \$80, respectively. We are forwarding a cheque in payment of these accounts to Rev. Dr. Westgate. We note that John Cameron who supplied the logs has given a guarantee that he will complete the work on the foundation in time to carry out the other repairs in the spring.

In connection with accounts for repairs which are authorized, I should be pleased if, in future, you would forward all such accounts to the Rev. Dr. Westgate, as we prefer that he certify same before payment is made.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Department of Indian Affairs,
Ottawa, Ont.

Dear Sir;

I beg to acknowledge receipt of your letter of January 21st, relative to the payment of accounts under the sanctioned expenditure of \$2,000.00, for repairs to the Hay River School, and note that you desire that these should be forwarded through my office and certified by me.

Before Canon Vale left for Hay River last summer, I informed him that this sum of money had been sanctioned for this purpose, and instructed him to certify all payments arising out of these repairs, and forward the same direct to you. I gave him these instructions after I gathered from the Superintendent of Indian Education at the time of his last visit here, that it was the wish of the department to have payments made direct to firms for goods supplied, instead of having them first paid by our Society, and then for our Society to be reimbursed by you.

It would now appear that these instructions should not have been issued by me, and I shall gladly certify any further accounts which may be presented. It is quite possible however, that others will reach you before your letter to Canon Vale can be delivered, and if you find it necessary to have these also certified by me I shall gladly do so on receipt of the same, believe me Sir,

Your obedient servant,

T. B. R. Westgate

Reverend Sir:

I have your letter of the 26th ultimo, in which you refer to the payment of accounts which are being incurred at the Hay River Indian Residential School. With reference to the procedure when submitting accounts, I have to inform you that my letter of this file number of the 21st ultimo referred only to the accounts that are now being presented from Hay River. This school is so far from the lines of communication, that an exception is being made. It is the Department's wish to have payments made direct to firms for goods supplied, instead of having them first paid by your Society. When an expenditure has been authorized at Indian residential schools generally, the principal should certify to the accounts and should submit them to the local Indian office for our representative's signature and for forwarding to Ottawa for payment. Cheques will then be issued direct to the firms who supplied the material or performed the work.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Dear Sir:-

With further reference to your letter of July 17th, 1924, No. 134-7-5, in which you authorized an expenditure of \$2000.00 for repairs urgently needed at our Society's School at Hay River, as these repairs could not be effected before the last fiscal year expired, I should be obliged if you will let me know if this amount is available for the same purpose during the fiscal year on which we have just entered.

In a letter from the Principal dated January 27th, last he states that he would be able to proceed with these repairs as soon as navigation opens this summer, but I will be unable to grant him the necessary authorization until I have received an assurance from you that the grant will be available to meet the cost of the same up to the amount specified.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

I am very deeply obliged to you for your letter of the 4th instant (134-7-5) in which you undertake to give consideration to an itemized list of repairs of an imperative nature required at our Society's Hay River School.

From the statement attached to my letter of October 30th last, addressed to the Deputy Superintendent General, it will be seen that the erection of a new School building on a different site, is a matter which can not be postponed indefinitely. However, until this can be accomplished it is essential on account of the long and cold winters which prevail in the northern latitude in which this school stands, that the heating and lighting systems should be maintained in an efficient state. The repairs, therefore which are of immediate urgency are as follows:-

1. New Furnaces,
2. An electric lighting system,
3. Enlargement of dormitory space for the girls.

1. With regard to the furnaces when I visited this school in the summer of 1923 I examined them carefully and concluded that they would soon have to be replaced by new ones. In a letter recently received from the Principal and dated Mar. 21st last he asks for new furnaces to be sent in this year. The Hudson's Bay Co, inform me that they can supply two
at \$400.00 each
or a total cost of \$ 800.00

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

no RSR
2. The Acetylene gas plant now in use is in much the same condition as the furnaces. The cost of carbide even with the best of plants is very expensive, and where the plant is defective this cost is increased. The cost of this item alone at this school last year was approximately \$200.00 and is not likely to be any less this year. An electric lighting system would add both comfort and safety to the school, and reduce our Society's operating expenses which at present are exceedingly high. This system could be removed to another building at a later date.

no RSR
3. A third and very urgent requirement is more dormitory space for the girls. There are more girls in residence at present than boys, and as this is always likely to be the case, in the opinion of the Principal, he suggests that an upper story be built above the Kitchen. This suggestion has my own approval. A window from the present dormitory could be enlarged to make a doorway, and the heat from the Kitchen would help to keep it warm. He estimates the cost at \$300.00

Any assistance which you may be able to render in providing the above requirements will be greatly appreciated by our Society.

As the per capita earnings of this school for 1924 were only \$8,250.00 and the maintenance expenses, as given in our Auditor's report, amounted to \$15,622.94, you will see that our Society had to raise the sum of \$7,373.94 to keep it in operation.

Believe me, Sir,

Your obedient servant,

L. A. R. Nestgate

DEPARTMENT OF INDIAN AFFAIRS
CANADA

May 13, 1925.

Memorandum:

Approved
Dr. Scott.

Dr. Westgate has urged the Department to undertake certain improvements at the Hay River Indian Residential School. There is an item of \$3,000 in the Estimates to care for urgent repairs and to supply sawmill equipment for this institution. We have been requested from time to time to abandon this institution and rebuild on another site and I cannot recommend that any major improvements be undertaken. I wish to suggest, therefore, that the request for electric lighting and for a small addition to the girls' wing be refused.

Dr. Westgate's third request is for two furnaces, which are badly needed. The cost in this connection will be \$800 and I wish to recommend that he be allowed to purchase two furnaces considered suitable, after securing competitive prices, and have them shipped to the school.

Russell L. Ferrier
Supt. of Indian Education.

Ottawa, May 14, 1925.

Reverend Sir:

I have your letter of the 8th instant, with reference to urgent repairs at the Hay River Indian Residential School. As it is not the intention to use the present building indefinitely, the Department cannot agree to undertake capital expense unless absolutely necessary. I regret that I cannot authorize the installation of an electric lighting plant nor an addition to the girls' dormitory. I am pleased to inform you, however, that the Deputy Superintendent General has approved of replacing the two furnaces. You are authorized to purchase, after securing competitive prices, two furnaces that will be suitable for the school. Your estimate of \$800 should not be exceeded in this connection. A properly certified voucher, in duplicate, in favour of the firm awarded the business, should be directed to the Department for payment. Support it with a statement showing the firms asked to quote and the prices quoted.

ON June 16 1925

Dear Sir:

- FURNACES FOR HAY RIVER SCHOOL -

I beg to advise you that I have the assurance of our Transport Manager at Edmonton that the Furnaces which are being shipped by the Pease Western Foundry Company, Winnipeg to Waterways, on account of your school at Hay River, will be delivered if possible, by the first trip of our steamer.

Yours faithfully,

For A. BRABANT

FUR TRADE COMMISSIONER.

Dear Sirs:

ATTENTION MR. T. B. R. WESTGATE.

Further to your inquiry for 2 only Wood Furnaces for Indian Residential School at Hay River, our Mr. Worton called on you some days ago and as he was not sure of the size that you required because there was no plan, we are quoting you on our #55 and #63 Hilborn Furnaces. The prices are as follows:

2 #55 Hilborn Furnaces with casings with a capacity of
60,000 cubic feet each, \$200.90 each \$401.80
2 #63 Hilborn Furnaces with casings with a capacity of
60,000 cubic feet each, \$197.90 each \$395.80
This price is f.o.b. Winnipeg.

Freight and insurance to Hay River will be
approximately \$117.00 each furnace.

We are sending you leaflets illustrating the
Hilborn Furnace, also catalogue and we would be very pleased
to let you have the exact price on these goods, showing cor-
rect installation if you could send us plan of the building
to be heated.

We also note that you require prices on collars
for the casing. These are as follows f.o.b. Winnipeg.

8"	19¢ each
8½"	19¢ "
10"	24¢ "
12"	29¢ "
14"	37¢ "

Dear Sirs: -

We are in receipt of your favor of the 18th
and under separate cover have mailed you latest copy
of our Furnace catalogue.

On pages 17 and 19 of this catalogue you
will find illustrated our different types of Wood Furnaces.

We are attaching herewith Net Prices covering
these Furnaces and Casings, and as we have not the size
of the building which you intend to heat, we are unable
to quote on any specific Furnace, but if you will kindly
give us the dimensions of the building we will be pleased
to quote you on the most suitable Furnace for heating same.

We trust you will favor us with your order for
these goods, which will have our very best attention, and
if you require any further information regarding same if
you will kindly write or 'phone us we will be pleased to
give you this.

Yours very truly,

Dear Sirs:-

Re Shipment A. J. Vale, Hay River

In reply to your telegram of todays date, we have gone into the matter of breakage on fire box, ^{considered} to above consignee and find that there are apparently two smoke outlets on this fire box exactly alike, they protrude from furnace about six inches and are about six inches in diameter. To each of these outlets was fastened a cast iron collar and it was one of these collars which was broken and will need to be replaced.

Trusting this information is clear to you.

Yours truly,

MacCosham Storage & Dist. Co. Ltd.

The Secretary,
Department of Indian Affairs,
Ottawa,
Ont.

Sir,

Referring to your letter NO. 139-2-5, dated the 14th May last, I have the honour to submit the following for your information.

Four firms were asked to quote prices on Wood Furnaces for our Hay River School and that of the Pease Western Foundry Ltd. having been judged the most satisfactory the Contract was awarded them.

Certified vouchers, in duplicate, showing cost of Furnaces plus carrying charges to Hay River are enclosed herewith as directed.

The various prices submitted were as follows:-

Pease Western Foundry Ltd.....	\$380.00
Gurney North West Foundry Co.,.....	\$503.50
Clare Bros. Western Ltd.,.....	\$395.80
Empire Stove & Furnace Co., Ltd.,.....	Did not quote

as they do not make a wood burning Furnace.

The above prices are F.O.B. Winnipeg and the carrying charges of \$240.53 must be added in each case.

It will be noted that 1 firebox was received at Edmonton, in bad order and the correspondence showing the action taken to remedy the matter is attached hereto. Trusting that this may be found in order and that cheque will issue, in due course, to the Pease Western Foundry Limited.

I have the honour to be
Sir,
Your obedient servant.

ANGELICAN INDIAN RESIDENTIAL SCHOOL
HAY RIVER, N.W.T.
(VIA WATERWAYS, ALTA.)

HAY RIVER, N.W.T. July 23-1925

J.D. McLean Esq.,
Assistant Deputy and Secretary
Department of Indian Affairs
Ottawa.

Dear Sir,

This is to certify, H.A. Swansen, building Contractor, has completed his work on the Contract let to him, for the sum of \$875.00, to make the necessary repairs to the above School. He has jacked up the building and placed it upon an entirely new solid foundation, which he guarantees to last without sagging, as before, until the logs decay through natural causes.

I was obliged to advance him cash to the value of \$350.00 to pay his help and provide him with food supplies to the value of \$39.35, leaving a balance still owing to him of \$485.65.

I am sending this to Dr. Bourget, Indian Agent at Fort Resolution for his signature, before sending it to you, through Rev. Dr. Westgate, which I believe is the way you desire the accounts to be rendered. Dr. Bourget endorsed my action in getting the work done when I did as the building was in danger of collapse, and it was the only chance to get it done this year.

Will you be good enough to pay to Rev. Dr. WESTGATE, Sec'y Indian and Eskimo Commission, The Bible House, Winnipeg, the amount I have advanced and the remainder to H.A. Swansen, Fort Resolution N.W.T.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

As the original amount allowed last year for Repairs was \$2,000.00 The accounts sent in last year were under \$1,000.00 and the Total this year is \$873.00, You will see I have kept the expenses under the sum allowed. The Building now is in better condition than when first built, as far as the Foundation is concerned.

Trusting my action taken has been in accord with your instructions and in the correct form of sending in the account,

I am yours Sincerely,

Alf J. Vale
Principal.

Resolution,
N.W.T.

July the 28th 1925

To Reverend Doctor Westgate,

The Bible House,

Winnipeg Man.

Sir,

I have the honour to send you under some cover the accounts of the repairs at the Anglican Mission School of Hay River, N.W.T. sent to me by Canon A.J. Vale for signature and I also enclose a quit claim by Mr. Swanson, the contractor, in favour of the Hudson Bay Co. This Mr. Swanson had to obtain money immediately in order to pay his help, and this was the only solution. The amount could be paid direct to the Hudson Bay Co.

I have the honour to be

Sir,

Your obedient servant,

(sgd.) C. Bourget M.D.

Indian Agent

Sir:

I have the honour to enclose herewith accounts of the repairs to our Indian Residential School at Hay River, showing disposition to be made of the \$ 875.00 which was the amount of the contract entered into between the School and H.A. Swanson Building Contractor. I also enclose certificate from the Rev. Canon Vale, Principal of the School, which has been certified by Dr. Bourget, the Indian Agent, and Dr. Westgate, Secretary of the Indian and Eskimo Commission.

As set out in the accounts the sum of \$ 350.00 in cash and \$ 39.35 for food supplies have been furnished by the Principal of the School and the remaining balance in full, \$ 485.65, has been paid by the Hudson's Bay Company to Mr. H.A. Swanson. May I request, therefore, that a cheque for the former amount may, in due course, issue to the Indian and Eskimo Commission M.S.C.C. and for the latter sum to the Hudson's Bay Company, Fur Trade Department, Winnipeg, who will in turn credit their depot at Ft. Resolution.

I have the honour to be

Sir

The Secretary
Department of Indian Affairs
Ottawa.

Dear Sir.-

I am very pleased to report the New Furnaces installed by you for us at this school last Fall are a very great success and improvement over the former ones we had. We are persuaded we are not getting the maximum heat from them for lack of proper equipment as used for the other furnaces. Will you therefore be good enough to send us the following supplies which will we think give us a very much better service and help us to get the full benefit of these splendid furnaces.

Some funds available for repair

Cost? \$25.00

HOT AIR CONDUCTING PIPES 39 feet Galv. Iron Pipe. 10" Diameter.
45 " " " " 12" "
6. only Elbows 90 degrees 10" "
1. " " 45 " 10" "
2. " " 90 " 12" "

6. only Floor Registers 20" X 16".
S MOKE CONVEYING PIPES FROM FURNACES TO CHIMNEYS.

14 feet Extra Heavy Pipes 9" "
2. Only Elbows 90 degrees 9" "

Note. For convenience in shipping these pipes might be sent ready for rivetting and a supply of rivets. we will then put them together. The Elbows had better be sent complete.

yours sincerely

A. J. Vale
Principal.

OUR COPY

Ottawa, April 21st, 1926.

Sir:

The Department is in receipt of a communication dated the 8th ultimo from the Principal of the Hay River Indian Residential School, in which he reports the success of the new furnaces installed last year, and requests that a supply of hot air and smoke pipes be furnished. This request is recommended by you, and the Department will approve of the supplying of same.

I have, therefore, to request that you will arrange for the purchase and delivery at the school of the following:

Hot Air Conducting	39 Feet Galv. Iron Pipe, 10" diameter,
Pipes:	45 " " " " 12" " ;
-----	6 Only Elbows, 90 degrees, 10" " ;
	1 " Elbow, 45 " 10" " ;
	2 " Elbows, 90 " 12" " ;
	6 Only Floor Registers, 20"x16",

Smoke Conveying	14 Feet Extra Heavy Pipes, 9",
Pipes from Furnaces	2 Only Elbows, 90 degrees, 9".
to Chimneys:	

For convenience in shipping, these pipes should be sent out to size, ready for rivetting, and the necessary supply of rivets should also be forwarded. When they arrive, they could be put together at the school. The two elbows required should be sent complete and ready for use. You will, no doubt, be able to arrange for the purchase of these materials in Edmonton or elsewhere.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ontario.

Dear Sir:-

Our Commission have received a somewhat lengthy and expensive list of requirements from the Principal of our Hay River School, the following items amongst others being included:-

1 hot water heating tank for hot water system - 45 gallons capacity, and fitted for 1 inch pipe connection. Estimated cost \$50.00.

1000 feet of inch lumber boards about 12 feet long for repair work. Estimated cost \$60.00.

1 scow for bringing in wood, hay, fish etc. Estimated cost not given, but this when delivered will probably amount to \$400.00.

While our Commission are assured these requirements are essential they are unable to undertake to provide them all without some further assistance, and I have been directed to ascertain if your Department would be responsible for 50% of the cost of the same.

In the list of requirements submitted by our Society to your Department last November for inclusion in the Estimates for the current year, the sum of \$1000. was given as the amount likely to be required for "General Repairs", and our Commission trust that you may be able to help them in the way requested from funds provided from this source. As shipping arrangements must be made at an early date, I shall be obliged if you will give this matter the earliest attention possible.

Believe me, Sir,

Yours very truly,

T. B. R. Westgate

Ottawa, May 16, 1927.

Reverend Sir:

I have your letter of the 6th instant, with reference to improvements at the Hay River Indian Residential School. I note that a hot water tank, 1000 ft. of lumber and a scow are required. I am pleased to inform you that \$1,000 is available for repairs and replacements at this institution, and, in view of your proposal that one-half the items mentioned be provided by the Department, I have to authorize you to purchase 1000 ft. of lumber, at an estimated cost of \$60. The account, in duplicate, properly certified by yourself or the Rev. Principal, should be forwarded to the Department for payment. Your Society should supply the hot water tank, without cost to the Department.

With reference to the scow for transporting wood, hay, fish, etc., the estimated cost of which is \$400, I am pleased to state that the Department will give a grant of \$200 for the purpose. You should forward, when timely, receipts showing an expenditure of approximately \$400 in this connection and the Department will reimburse you to the extent of our grant.

Your obedient servant,

J. D. McLean

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

Re - Hay River School.

With further reference to my letter of May 6th and your reply on May 16th, 1927, folio 139-2-5, re a hot water tank, 1000 ft. of lumber, and a scow for our Society's School at Hay River, I beg to state that during my visit to your Department on the 1st instant I discussed these requirements with the Supt. of Indian Education and having informed him of the difficulty which our Society would experience in meeting the cost of operating this school this year, I was advised to direct a special letter to you in this connection. As the total cost of the requirements mentioned is not likely to exceed the sum of \$1,000 and as this amount is available from your Department for repairs and replacements at this institution this year, it will be a very great help to our Society if your Department will undertake to meet the total cost of these requirements provided, of course, that they do not exceed the total appropriation for this institution. Quotations have already been received for the hot water tank, the lumber, etc., but the orders have not yet been placed, and as it is a matter of great importance that the orders should be placed in the very near future, so that the materials may reach the school before the end of the short navigation season, I shall be obliged if you will furnish me with your decision in connection with the meeting of the total cost at the earliest date possible.

Believe me, Sir,
Yours very truly,

Reverend Sir:

I have your letter of the 18th instant, with reference to improvements at the Hay River Indian Residential School.

The Department will meet the total cost of effecting the improvements mentioned in my letter of May 16th, provided that the total does not exceed \$1000. You may make arrangements for a hot water tank, 1000 ft. of lumber and a scow for transporting wood, hay and fish. In due course, properly certified accounts, in duplicate, covering the cost of the activity, should be forwarded to the Department for payment. As explained in my earlier letter, these are the only improvements that can be allowed at this school this year, as our funds are completely assigned.

Your obedient servant,

Copy to Mr. Vale
I believe Canon Vale has taken ^{up} with his headquarters, before leaving the North, the question of paint for the school, which would be of benefit. The most serious feature of the Institution at present is the great shortage of wood cut in the woods, much bigger than usual, but unfortunately it was burnt during the forest fires, and it left Mr. Singleton the new principal, in the very bad position of having the two men employed, working every day cutting wood and hauling a relatively long distance with one team of oxen, just bringing a day supply ahead. This is a serious condition, because were the men to fall sick, or the oxen to have accidents it would leave the school without wood and no help to be procured from the Fort, the Indians being away in the woods. This year this condition was exaggerated from the wood burning in summer, but as a rule the supply is never sufficient and is a draw back to the school. The only possible course and recommendation would be to make the necessary expenditure to have a supply cut by special wood cutters so that there would be a supply of a year in advance. This would give better wood, save the situation, time and money in the long run and leave the employees able to attend to fishing and other works, clearing land for vegetables etc. The wood cut in advance on the river is very good but needs a year to dry, the same thing applies to the drift wood, which is far better if given a few months to dry and does not create so much creosote in the chimneys, eliminating a danger of fires.

Ottawa, March 31st, 1928.

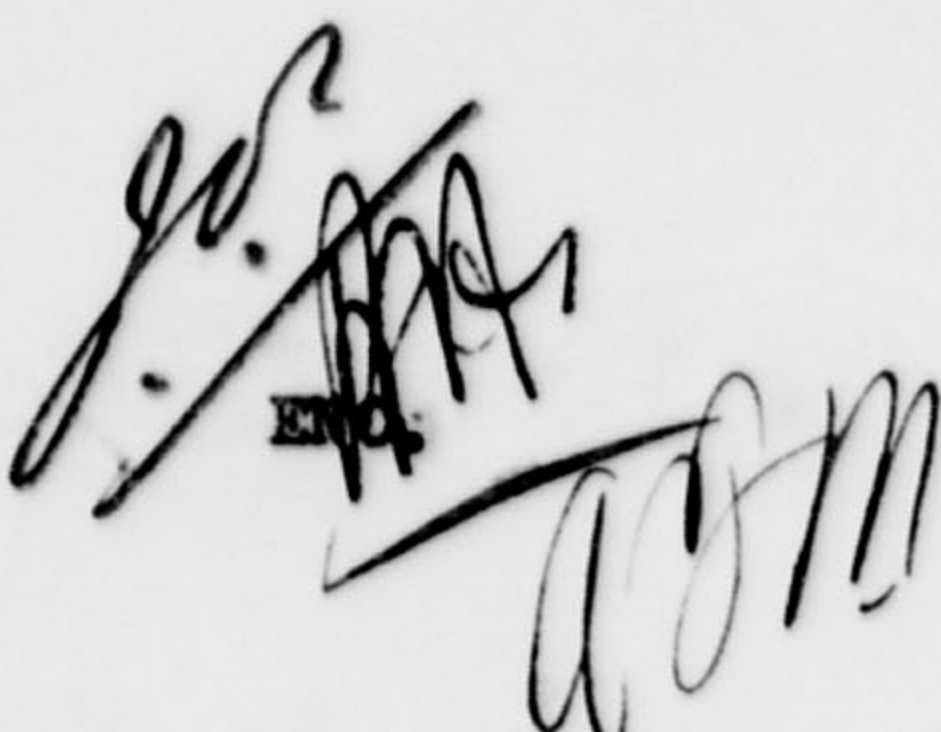

Rev. Sir:

I enclose herewith for your information copy of the report of Mr. Indian Agent C. Bourget on his visit to the Hay River Indian Residential School. I should be grateful if you would take up with the school authorities the question of having an adequate supply of wood on hand. You will note the Agent's recommendation that, in order to have a supply of wood, the services of special wood cutters should be obtained and that a year's supply be delivered at the school in advance, in order that it can be thoroughly dry and ready for use. If this arrangement were carried out it would relieve the school employees of this extra work, and they could devote their time to better advantage at other work needed at the school.

Your obedient servant,

A. F. Mackenzie,
Acting Asst. Deputy and Secretary.

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 31st. ult. No. 139-2-5, enclosing an Extract from the report which you had received from the Indian Agent at Ft. Resolution relative to the wood supply at our Society's School at Hay River. The difficulty in this connection, and the shortage of wood cut in the woods referred to by Dr. Bourget, were not unknown to our Commission, but this shortage was due to a bush fire which destroyed nearly 200 cords of wood in the bush last Summer. Previous to that disaster, I had never heard of any shortage of wood fuel, and am very doubtful if any serious shortage ever existed. I quite agree, however, with Dr. Bourget's suggestion that there should be a year's supply always cut in advance. This has been the policy which has been adopted at all our Schools situated in the wooded areas and steps will be taken during the coming Summer to have a sufficient quantity of wood cut at this School to carry it through the winter of 1929-30. Owing to the inadequate Grant which is given by your Department to meet the operating costs of this School so remotely situated, these costs fall heavily on the funds of our Society. Our Society, however, has always met the same, but I should be glad if your Department gave further consideration to the question of the Grant for this School, and take steps to have it advanced

The Secretary,
Department of Indian Affairs,
Ottawa,

Dear Sir:

Re: Hay River School, C. of E.

With reference to your letters March 31st. and April 3rd. (139-2-5) I beg to state that the Principal of the Hay River School has presented to our Commission an urgent request for a small portable Engine for sawing wood to help the School management in providing the school's wood supply. I am informed by the Fairbanks-Morse Co. that a 3 H.P. engine will cost \$146.00, with a discount to our Society of approximately 15.5%. I am also informed by the Hudson's Bay Co. that the freight from Waterways to Hay River would amount to approximately \$30.00. The freight from Winnipeg to Waterways would be approximately \$18.50, the rate being \$3.35 per 100 lbs., according to information received from the C. N. R. freight Department, thus making a total cost to deliver the engine at Hay River of approximately \$175.00. The purchase of a belt, if required, would probably bring the total up to \$200. or \$225.

As \$2,000.00 is available for improvements at this School this year, a part of which will be required for the Isolation Ward referred to in my letter of March 26th., I shall be glad to know if your Department will grant authority to have this engine purchased and forwarded, and pay for the same out of the appropriation mentioned.

While writing, I beg to state also, that the Principal has advised our Commission of the necessity of having a rat-proof store-room built for flour and other supplies, the total cost of this will not exceed \$400.00

*Not School
infirmary*

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

I shall be glad to know, therefore, if your Department will authorize this expenditure, provided the total expenditure for the Isolation Ward, the purchase and delivery of the Engine, and the building of the Cache, does not exceed the total sum available for improvements at the School this year.

An early reply will oblige.

I have the honour to be, Sir,
Your obedient servant,

L. B. Westgate

Ottawa, May 1, 1928.

Reverend Sir:

I have your letter of the 26th ultimo, with reference to improvements at the Hay River Indian Residential School.

As you were informed in official letter of the 3rd ultimo, \$2,000 is available for this activity. Provided that the entire expenditure for the isolation ward, the engine for cutting wood and the preparation of a rat-proof store room for flour, etc., does not exceed the total amount available, the work may be proceeded with. I should be grateful if you would place the order for the engine and arrange for shipment. I note that the total cost, including that of a belt, is approximately \$200.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:

With further reference to your letter of May 1st. #139-2-5 authorizing the purchase of a gasoline engine for our Society's School at Hay River, I beg to state that after despatching to you my letter of April 26th., I learned from the Rev. A. J. Vale, Principal of the Chapleau School, and for some years Principal of the Hay River institution, that a 6 H.P. Oil-burning Engine, Brantford make, was for sale by a Company which was boring for oil on the banks of Hay River about 10 or 12 miles from the Hay River School. He informed me that this engine cost originally \$420.00 and was practically as good as new last year. Before purchasing therefore, the engine sanctioned in your letter of May 1st. I beg to state that I am asking Mr. Singleton, the present Principal of the Hay River School, to examine this engine and report to me as to its condition and the lowest price which the Company would accept for the same.

I have also learned since writing to you on the 26th. of April that while the 3 H.P. engine would be strong enough to operate a pole-saw, it could not drive a circular-saw in the saw mill for converting logs into lumber. A 6 H.P. engine could be used for this purpose where small logs are concerned, and for this reason I am persuaded that it would be advisable to purchase the 6 H.P. engine referred to, even though the cost should exceed the \$200.00 you have sanctioned.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

It is fully understood that only the sum of \$2,000.00 is available for improvements, etc. at the Hay River School this year, and I shall be glad to have authority from you to purchase the 6H.P. engine to which I have referred, upon receipt of Mr. Singleton's recommendation, and provided the price is considered fair and just.

Believe me, Sir,

Yours very truly,

L. A. Westgate

Field Secretary, M.S.C.C.

Ottawa, June 13, 1928.

Rev. Sir:

I have your letter of the 7th instant, with reference to the authority granted for the purchase of a gasoline engine for the use of the Hay River Indian Residential School. It is noted that a 6 H.P. oil burning engine can be obtained from a Company which was boring for oil, and that this engine would be more satisfactory for the purpose for which it is required.

If, after an inspection of the engine to which you refer, it is found to be in serviceable condition and satisfactory for the purpose, the department will approve of the purchase of this 6 H.P. engine. It should be obtained as cheaply as possible, and the cost should not be greatly in excess of the sum of \$200, which was authorized for the purchase of the 3 H.P. engine. A certified account, in duplicate, should be forwarded in due course covering the purchase price of the oil burning engine referred to.

Your obedient servant,

A. F. MacKenzie
A. F. MacKenzie,

HUDSON'S BAY COMPANY

WINNIPEG. MAN. December 11th. 1928

No. 849

Rev. T.B.R. Westgate, D.D.,
Field Secretary,
Church of England Missionary Society,
41-43 The Bible House,
Alexander Avenue,
Winnipeg.

Dear Sir:-

SAW MILL FOR HAY RIVER SCHOOL

With further reference to your letter of November 19th and our No. 846, we are pleased to forward our quotation covering a small cable drive saw mill without timbers as follows, f.o.b. Hay River, together with descriptive catalogue:-

No. 1	Variable Belt Speed Saw Mill as manufactured by the American Saw Mill Machinery Company and illustrated and described in their catalogue on pages 12, 13, 30 and 31.....	\$705.00
1 Only	Circular Rip Saw 36"	43.70
1 "	" " Cross Cut Saw 36"	43.70
1 "	Extra Cable	16.85
50 Feet	Super Service Rubber Belting 8"x 5 Ply	47.40

We have estimated the length of belting required as being 50 feet, which may be altered to the actual length required, together with the quoted figure on this item in proportion.

For your information we wish to add with regard to the 24 inch saws already on hand at Hay River, that we are strongly under the impression that same will have a 1-3-8 inch hole, which cannot be used with the No. 1 Mill quoted on as this required saws to be bored with 2 inch holes.

Trusting that the foregoing will meet your requirements, and awaiting your further favours.
Yours faithfully,

FOR C.H. FRENCH
(Sgd) J. G. Woolison
FUR TRADE COMMISSIONER.

are likely to be required. They felt that this action should be taken now as your estimates for the ensuing fiscal year are under preparation, and would beg to suggest that an appropriation based on the enclosed figures be included in the same.

As soon as the information requested from the Principal has been received, I will communicate with you again, but beg to suggest, in view of the urgency of the need, that provision be made in your estimates for next year to meet the cost of the fixtures required to place the saw mill at this School in a satisfactory working condition.

I have the honour to be, Sir,

Your obedient servant,

L. B. H. Westgate

TBRW/EMW

Field Secretary, M.S.C.C.

P.S. In connection with the above, I am sending you under separate cover catalogue No. 25, supplied by the Fairbanks-Morse Co., Ltd. T.B.R.W.

Dear Sir:- Re:- Motor Launch for Hay River.

The Principal of our Society's School at Hay River, has directed the attention of our Commission to the urgent need of a new motor launch to enable the School management to secure the large quantity of fish required yearly to feed the staff and pupils, and patients in the hospital. In his letter of Jan. 11th, last, setting forth his application for this very necessary item of equipment, he writes, in part, as follows:-

"What we require is an adequately large and strong boat suitable for big lake fishing. Our staple meat diet is fish, the daily school requirement being 100 fish. The Northern climate being subject to almost daily winds, and this lake being of very shallow depth, and extremely so within two miles of the River mouth, the waves rise up very quickly. Last fall due to almost constant wind, we could reach our nets on an average of only twice a week. Then generally it was with much misgiving as to the safety of our fisherman and boy helper, who were out a mile and a half in the Lake from three to five hours at a time, in a small canoe skiff. Frequently I went out with a boy myself, and due to the distance, the slowness and difficulty of travel, and the quickly rising winds, I realized that we have not adequate equipment for fishing on a large scale. Both the size and speed of the boat have to be considered for regular and successful fishing for a school like this. This model or a boat which I describe is based on one owned by a neighbor fisherman, who declares it capable of easily enduring a rough lake. This design, improved upon to greater strength according to his advice, is as follows:-

Dimensions. Length 25' bottom, 30' top.
Width 5' bottom, 8' top.
Rib 2"x 4" and 16" apart.
Plank Material 1 1/2".

Stern built for outboard motor.
Estimated cost of boat \$85.00.
Suggested boat builder, Mr. Mercredi or Frank Conibear.
Fort Smith, N.W.T."

In a later letter dated Feb. 8th, he further writes,
in part, as follows:-

" The fish scarcity continues to be serious in this community. All the people are experiencing it alike. Eight large nets altogether yield an average of twenty to thirty fish every two days. With much labor we have moved part of our nets five miles out into the Lake from a three mile point with a little better result. We may place some of them two or three miles further still."

The boat at present in use, was bought in 1924 for \$700.00. of which amount your Department provided \$500.00. and our Society the balance. It was a second hand boat when purchased, but the service it has rendered seems to me to have fully justified the expenditure. Now, however, it is not sea-worthy, and the Principal states that "the engine is worn out, and not worth the great expense needed to repair it". He suggests that a new boat be provided of the dimensions set forth above, and that it be provided with a 6-8 h.p. Kermath engine, which would cost, according to the attached price list, approximately \$425.00. To this would have to be added the cost of freight. The Principal states that this engine was recommended to him by the engineer on the Hudson's Bay Co's Liard River steamer, who "insists that a fairly heavy and strong engine is necessary for freighting purposes on large waters such as Great Slave Lake where the force of contrary winds is so great". He also states that "this engine is popular in Northern waters".

As the boat and engine I have described are undoubtedly an urgent necessity at this institution, not only for procuring the daily and annual fish supply, but also for hauling a large when collecting the wood and hay required, our Commission have instructed me to apply to your Department for authority to purchase the same in time to go forward by the first steamer going North from Fort McMurray this summer.

As the saw-mill required at this School is not to be provided this year (see your letter Jan. 8th, 1929, 139-2-5), and as the engine sanctioned in your letter of June 13th, 1928, 139-2-5, is not being purchased, I trust that you may be able to grant the authorization requested, or place the orders direct for the boat and engine specified by the Principal.

I have the honour to Be, Sir,
Your obedient servant,

L. A. Heston

Ottawa, March 25, 1929.

Reverend Sir:

I have your letter of the 19th instant, with reference to a motor launch for the Hay River Indian Residential School. You may make arrangements for the building of a suitable boat and the purchase of an engine, at an estimated cost of \$510 plus the freight on the engine. This amount of money is available in our appropriation for the coming fiscal year for this school. Some time ago, there was also authorized an infirmary wing. There will be no further funds for improvements at this institution at the present time. I am returning the enclosure regarding the marine engine, for your information.

Dear Sir:- Re - Paint for Hay River School.

The Acting Principal of our Society's School at Hay River has included in his list of requirements for the current calendar year, the following items which our Commission have instructed me to ask if you will be good enough to supply:-

Paint, white marine	2 gals.
" black "	1 "
" dark grey, suitable for canoes	1 "
" floor, dark yellow	1 "
Varnish, diamond E, fine	1 "
Kalsomine, rose shade, 5 lb. pkts	2 pkts.
" dark tan 5 " "	2 "
" deep cream 5 " "	3 "
Ceiling paint, No. 30, Inside Bapco. cream ..	1 gal.
Floor paint, Marswells, No. 70. tan	2 qts.
Stain varnish, dark oak	1 pt.
White wash brushes, medium	3 only
Paint brushes, medium	6 "

The total estimated cost of the above, without freight, is not over \$30.00. If your Department will kindly order the above it will be greatly appreciated by our Commission. The shipment should be consigned to Rev. W. B. Singleton, Principal St. Peter's Indian School, Hay River, N.W.T., via Waterways, Alta.

Believe me, Sir,
 Yours very truly,

WINNIPEG, MAN. June 6th, 1929.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:- Re - Motor Launch for Hay River School.

With further reference to my letter of March 19th last re a motor launch for our Society's School at Hay River, N.W.T., and your reply to the same on March 25th, 139-2-5, I beg to state that it was only on the 3rd instant that I received a reply from the boat builders at Fort Smith to my letter of April 2nd, desiring to know if they could build a boat according to the dimensions given, and at an approximate cost of \$85.00. Mr. Mercredi in his reply states that he could not build a boat for the sum specified, and advised me to apply to a boat builder at Waterways. I have already written to a boat builder at Waterways, but do not expect to hear from him before I leave here at the end of this week to visit Hay River. I am, moreover, somewhat doubtful about the ability of small boat makers to install a valuable engine satisfactorily in a boat of their own make, and feel that it would be better to pay a little more and have a boat properly made, and the engine properly installed.

Acting on the recommendation of the district manager of the Hudson's Bay Company for the Mackenzie River district, I wrote to the Alberta Motor Boat Co., Ltd., Edmonton, to ascertain if they could build a boat according to the dimensions given by the Principal of the Hay River School, the cost of the same, and the earliest date at which they could have it ready. Their reply was just received here yesterday, and you will find the same enclosed herewith for your information. From the description of the boat recommended in this letter, I am in doubt as to whether it would be the most suitable model for the Hay River School's use, as the boat required is largely for fishing purposes. I am satisfied, however, that the boat required could not be built for the sum of \$85.00 as suggested by the Principal, and as I expect to be in Edmonton on Monday, June 17th, on my way to Hay River, I should

like to have authority from you to place the order with the Alberta Motor Boat Co., for a boat which will meet the requirements of the Hay River School. I am of the opinion that after I have talked the matter over with the Alberta Motor Boat Co., that I can persuade them to build a suitable boat for less than \$475.00., but am unable at present even to estimate what the amount would be. I should be glad, therefore, to have authority from you to place an order with this Company for the most suitable boat I can get, and on the best terms I can secure, it being understood that the price will not exceed \$300.00 or \$350.00 at the outside. If I can secure it for less I shall certainly do so. There can be no question whatever about the urgent necessity of this boat, and where the health of the staff and pupils depends so largely on an adequate supply of fish, I consider it would be well worth while to spend the extra amount, and provide them with a really serviceable boat and engine to assist them in procuring the same. A letter from you in reply if written immediately would reach me at Edmonton by June 17th if addressed in care of Bishop Gray, 10049 - 103rd St., Edmonton.

Thanking you in advance for any help you may be able to give in this important matter.

I have the honour to be, Sir,

1126 ALEXANDER AVE. EAST

WINNIPEG, MAN. June 22, 1929

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Sir:-

I have the honour to inform you that the Commission are in receipt of a communication from the Rev Dr. Westgate with further reference to the boat required for our Hay River Indian Residential School. Your letter of June 13th. sanctioned the sum of \$600.00, but in view of the present report received from Dr. Westgate who has gone exhaustively into the whole matter, I am instructed to enquire whether your Department cannot see their way to increase this grant to \$900.00.

The total cost of a boat guaranteed by Captain Matheson who is the agent for the Kermath engines, is as follows:

Kermath 6 - 8 H.P. engine	\$425.00
Cost of boat & installing engine	300.00
Freight to Waterways	105.00
" to Hay River	100.00

\$930.00

The boat recommended would have the following dimensions:-

Length 25': Breadth 7': Depth 3'6"

Oak ribs 1½" x 1" on 8" centres

The hull to be built of edge-grain fir, 1" plank

The bow to be covered in and steering wheel, rudder, seat, etc. complete.

Captain Matheson reports that a boat of this type would last for twenty years, and the Commission, therefore, earnestly request your sympathetic consideration of this matter.

I have the honour to be, Sir
Your obedient servant,

Rev. Sir:

I have your letter of the 16th of August, last, giving an estimate of the paints required for the exterior of the school building, new hospital wing and school residence at the Hay River Indian Residential School.

In this connection I have to say that the Department will approve of an expenditure not exceeding the sum of \$150 towards the cost of the paint required. You should obtain itemized accounts, in duplicate, covering the cost of the paint. These you should forward to C. Bourget, Esq., M.D., Indian Agent, Fort Resolution, N.W.T., who is being informed of the authority granted you to incur the above expenditure and requested to certify the accounts and send them to the Department, when payment will be made.

Relative to the fox fencing, the Department is not prepared to supply this material.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

WINNIPEG, MAN. 27th March 1930

The Secretary
Department of Indian Affairs,
Ottawa Ontario

Sir:

I have the honour to refer to your letter No. 139-2-5 dated the 3rd July last, in connection with the boat for our Hay River School.

The Commission have received word of the safe arrival in a satisfactory condition of this boat and have paid the Northern Boat Building Company account.

In compliance with your instructions, that receipted invoices in duplicate should be submitted to you we requested the Boat Building Company, when we made payment on January 7th, to receipt and return the necessary documents. This they neglected to do and although we have repeatedly renewed our request the vouchers have not yet come to hand.

In view of the fact that your fiscal year ends on the 31st of March we are therefore taking the liberty of enclosing the Commission's cancelled cheque for \$ 841.77 as evidence of the payment of the account and will be obliged if a Departmental cheque for \$ 725.00 may issue prior to that date. We are wiring to-day to the Northern Boat Building Company to have them forward receipted invoices immediately and will, on their arrival mail them to the Department.

Trusting that you may be able to give favourable consideration to our request for payment.

I have the honour to be

Sir

Your obedient servant,

Asst. Secy-Treas.

Encl. 1.

Ottawa, April 3, 1930.

Reverend Sir:

I have your letter of the 27th ultimo, enclosing paid cheque, showing the expenditure in connection with the boat for the Hay River Indian Residential School. Funds were not available during the last few days of the fiscal year, which is now closed, and it will be satisfactory if you will forward receipted invoices, in duplicate, when they are available. The Department will then make its grant of \$725. I am returning your paid cheque.

Your obedient servant,

ENCL.

A. F. MacKenzie
A. F. MacKenzie,

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

It is important that supplies for our Hay River School, if they are to be delivered there by the first boat going North this summer, be ordered in the immediate future, and I shall be obliged if you will kindly let me know at your earliest convenience the sum available to meet the improvements included in our general list submitted to your Department by our Society last autumn. You will find these set forth on pages 4 & 5 of that list as follows:-

- | | |
|---|-----------|
| (a) A shed for the sawing outfit. | |
| Estimated cost | \$ 200.00 |
| (b) Ice house. | |
| Estimated cost | \$ 100.00 |
| (c) Dog corral, posts and wire. | |
| Estimated cost | 200.00 |
| (d) Paint for buildings. | |
| Estimated cost | 200.00 |
| (e) Parts for windmill. | |
| Estimated cost | 50.00 |
| (f) Barbed wire for fencing. | |
| Estimated cost | 100.00 |
| (g) Equipment for sinking well beneath the School. Estimated cost | 100.00 |
| (h) Disc harrow (small). | |
| Estimated cost | 200.00 |

POOR COPY

	Carried forward	\$ 1,150.00
(i) Circular saw and engine.		
Estimated cost		500.00
(j) General repairs.		
Estimated cost		350.00
		<u>\$ 2,000.00</u>

With regard to section (d) the Principal gives the following list of paints, oils, etc., which he recommends should be supplied:-

Shingle stain, dark green, 1 coat	66 gals.
Paint Diamond A. white 2 coats	22 "
Paint Trimming, Apple green #432	1 "
Raw Linseed Oil	11 "
Turpentine	1 1/2 "
Paint brushes, long bristles, 4 ins.	4 only

With regard to section (c) the Principal has impressed upon me the importance of having the dog corral renewed, and Bishop Geddes who called here this morning, stressed the same matter. The posts can and will be secured locally, and the labour undertaken by the school management, but the wire must be supplied from this part. The Principal states that the most suitable wire to be used in that known as "Fox-Fencing". The corral should be 8' high, 100' long and 50' wide, making the total length of wire 300' by 8' high. At this school the dogs are used in securing the wood supply, in visiting the fish nets in the lake during the winter time, and also in the garden work. It is important, therefore, that they should be cared for, and I greatly hope that this item along with the others given in our general list may be granted.

I have the honour to be, Sir,
Your obedient servant,

L. R. Westgate

Rev. Sir:

I have your letter of the 8th instant, regarding the materials and supplies required in carrying out the improvements mentioned by you at the Hay River Indian Residential School.

In this connection I have to inform you that the sum of \$1200 is the total amount available for this school during the current fiscal year. You may, therefore, arrange for the purchase and forwarding of the materials, etc., required, and the Department will pay the cost to the amount stated above, upon receipt of itemized accounts, in duplicate, properly certified.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

DEPARTMENT OF INDIAN AFFAIRS

To.....Make cheque payable and send to
The General Treasurer,
Missionary Society, Church of England
— in Canada. —
404 Jarvis Street, Toronto, (5) Ont.

DATE 1930		SERVICE	AMOUNT	
July	23	To grant allowed towards the cost of supplying a motor boat for the use of the Hay River Indian Residential School, as per receipted account attached	\$	725 00
The Department agreed with the Church authorities to provide a grant at the above mentioned rate towards the cost of a boat for the Hay River Indian Residential School, which is conducted under the auspices of the Missionary Society of the Church of England. The receipted account attached shows a total expenditure for the above purpose to have been \$841.77, of which amount the Department agreed to pay, as stated, \$725.00.				
<i>26-7-30</i> <i>2784</i> <i>23/7/30</i> <i>2784</i>			TOTAL,	\$ 725 00

I HEREBY CERTIFY that this Voucher is correct, that the material has been supplied, the work performed and that the charges are fair and just; also that the expenditure has been incurred legitimately and that each item of the same is a fair and just charge against the Government of Canada.

Dear Sir:-

Re:- Electric lighting plant for Hay River
School, C. of E.

For some years past our Society has included in its list of requirements for the Hay River School an electric lighting plant to take the place of the acetylene plant which has been in use so long that it is quite worn out. In a letter written by Bishop Geddes from Hay River on Feb. 16th, 1933, he states that the plant has developed so many leaks which they cannot locate, that it has become more of a menace than a help to the school. He further describes its condition in the following words:- "But the plant to my mind is in much the same condition as the rifle of the man who said that if he had a new lock, stock and barrel, he would have a good gun".

Two years ago I secured from the Principal a rough plan of the buildings to be served by the electric light plant, with a list of the lights required for the various buildings. I submitted these plans, etc., to the Mumford-Medland Ltd., successor to R. A. Lister & Co. (Canada) Ltd., who are established at Wall St., and Portage Ave., Winnipeg, and asked them to furnish me with a quotation on a plant which they considered would meet the requirements of the case, and I enclose herewith a copy of their reply, along with the original of the plan of the buildings as prepared by the Principal.

You will please note that the prices quoted are f.o.b. Waterways. It is estimated that the carrying charges from Waterways to Hay River will be approximately \$200.00.

In view of the great urgency of the need of this plant, I beg to recommend that the quotation for the Used Demonstrator LISTER BRUSTON Fully Automatic Light Plant, quoted at \$1,190.00 f.o.b. Waterways, be accepted, and that an authorization be issued by your Department for the purchase and delivery of the same.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

Our Society will undertake to meet the cost of installation, including expert labour, cement for the foundation on which the engine and generator will rest, shelter for the batteries, etc., etc., we cannot undertake to meet any part of the initial cost of the plant itself.

Your prompt and sympathetic consideration of this pressing need will be greatly appreciated by our Society.

Your obedient servant,

Encls.

Memorandum:

MR. R.A. GIBSON

Hay River Indian Day School

In replying to Mr. McKinnon's signal concerning the above school, Colonel Neary, our Superintendent of Welfare and Training has sent the following message to Mr. McKinnon:-

"Retel Hay River. Have requested inclusion sum of fifty thousand dollars in supplementary estimates for building four room school at Hay River. Have arranged with our Surveys and Engineering Branch for forwarding four room school plan and teachers residence plan to their representative W.A. Campbell, Hay River settlement. Suggest you contact him by Army Signal giving specific location recommended site of school or give name local inhabitant Hay River who can show Campbell exact site. This important from engineering point of view."

We have also seen Mr. Buck of Surveys and Engineering and have arranged for the forwarding of the plans mentioned in the above message.

F. H. Peters, Esq.,
Surveyor General.

School Site of 3 acres
Hay River Settlement, N.W.T.
Your Files 18110 and 62286

Your Mr. J. D. Bradley called here this afternoon and left for our information a preliminary plan of Block "H" showing as Lot 9 a school site of 3 acres chosen by Mr. A. H. Gibson, the Acting District Agent, and Mr. G. Palsen, D.L.S.

Inasmuch as the above site is different from the one originally chosen by School Inspector McKinnon and approved as to water and drainage by Mr. W. A. Campbell, Local Engineer of the Surveys and Engineering Branch, it will be necessary for Mr. Campbell to investigate the new site and furnish a report which will require to have the approval of the Indian Affairs Branch before the subdivision survey is proceeded with. It was suggested to Mr. Bradley that a wireless message be despatched to Surveyor Palsen requesting him to contact Mr. Campbell so that the necessary inspection can be arranged.

As soon as we hear from the Indian Affairs Branch a further communication will be sent to you.

POOR-COPY

Edmonton July 23

I received the following letters from Peter Matson today. I don't know why the dope wants other blue prints and perhaps they are not needed. You could discuss this with Col. Neary and do as you see fit. McNiven, Lindrom and myself at Neary's and Gibson's request have followed the course suggested. The blue prints for the Yellowknife school were not followed exactly - the cellar was eliminated and position of the doors changed. Similarly we would follow exactly the blue prints for the Hay River school with the only exception the elimination of the basement and raising of the door and eliminating of the (window or transom) above it. G

Get copy of the prints and study same. Whatever you do tie him down to the suggestions listed in my letter previous which I discussed fully with him and he agreed to. If you haven't any other prints of the building, perhaps you could either have them drawn up or else wire him that the plans submitted were the ones to be followed and if interested to submit his offer - if not to notify us to that effect, so other interested parties might be contacted.

Fraser says he is an excellent contractor and honest - but find out how much money must be submitted. It is hoped we could advance payment either through the Yellowknife Bank which would be the best - and have the bills submitted there for payment. Perhaps \$8,000 could be submitted and when one-quarter completed another \$8,000. They have the accounting system already set up. Mr. McIlroy of the M & R there could attend to it and issue the cheques as the bills were submitted.

Matson would have to be bonded for about \$3,000 I believe. These particulars should be clarified and he informed. We must not be too rigid - as I doubt if we can obtain another contractor at present for the job. He said he would do it for \$32,000 when there - so have no alarm - but if separate prints can be obtained fine and good.

The floors should be of maple and the rest of good quality lumber. - same as that used at McPherson - check and find out type. The accordion doors can be put in by any type of fair carpenter. Lindstrom says as one story wood lattice work or supports above will be plenty strong enough and no iron beam is needed.

50 word wire or letter - and here is hoping we get going right away. It is possible I've held him down to a fairly fair figure - and he is leary whether he can make it pay or not. It is a good idea that my ideas be submitted by Hoey or Neary to him - also wire telling that they will be sent immediately.

~~Aer~~ Are there separate prints on the stairs, the framework, the type cement, kind of wood, separate detailed plans of walls, floors, etc. See if so - quite possible this is so. Also showing insulation, lights, plumbing. Be sure you contract for the supplying of everything - wiring, plumbing, etc. There should be details of doors, windows, type of flooring, etc. Perhaps I have a letter yet don't know.

Hay River, N.W.T.

July 22, 1947.

Department of Mines and Resources.

In regard to the school at Hay River, N.W.T., I have been in touch with School Inspector Mr. McKinnon discussing the building of the school, also the residence. I obtained blueprints from Mr. McKinnon, from which the building of the school and residence are to be constructed with different changes to this blueprint.

I am very interested in getting the contract and would appreciate if the proper blueprints and details could be forwarded to me as quickly as possible.

As for plumbing and electrical instalments, I would like your advice if separate percentage contract could be obtained.

Trusting to hear from you at an early date, I remain,

Yours very truly,

(Sgd) Peter Mattson

OFFICE OF THE
DEPUTY COMMISSIONER

ADMINISTRATION
OF THE
NORTHWEST TERRITORIES
CANADA

OTTAWA

26th July, 1947.

R. A. Hoey, Esq., Director, Indian Affairs Branch, Ottawa.

The attached copy of letter written by Mr. Peter Mattson at Hay River on July 22nd, the original of which was handed to Mr. Phelan yesterday, was forwarded from Edmonton by Mr. McKinnon on July 23rd and received on July 25th.

The original of the letter was handed by Mr. Lamberton to Mr. Phelan, who gave assurance that a wire would be sent directly to Mr. Mattson, informing him that the detailed specifications for the new Hay River school will be forwarded as soon as preparation is completed.

Mr. McKinnon is quite concerned about the time lag in getting the contract awarded and the building begun. During his discussion of the plans with Mr. Mattson, the latter suggested a cost figure in the neighbourhood of \$32,000. However, without the detailed specifications Mr. Mattson was, of course, in no position to submit a definite figure. Mr. McKinnon believes that Mr. Mattson is the only contractor available and prepared to accept the contract.

Mr. McKinnon suggests that Mr. Mattson be informed as to the arrangements for financing building operations. With respect to the school building, he suggests that accordion doors be installed between the classrooms, and that arrangements be made as soon as possible regarding the electric wiring and plumbing installations.

You will, of course, understand that it will be necessary for these preliminary details to receive priority of attention if construction is to get under way as soon as desired.

Hay River Indian Day School

I have for answer your letter of July 26
concerning the construction of the above school.

The time lag about which Mr. McKinnon
is complaining is entirely due to delays in the provision
of specifications by the Surveys and Engineering Branch.
I understand that Colonel Neary has asked Mr. McKinnon to
visit the Architects of this Branch immediately upon his
return to Ottawa. There he will be able to discuss with
the men who are draughting the specifications the local
conditions which he found at Hay River.

PRECIS FOR THE CLERK OF THE PRIVY COUNCIL:

Requesting authority for the construction of a four-room Indian day school and teacher's residence at Hay River, Northwest Territories, for which funds are provided in the 1947-48 estimates.

THE GOVERNOR GENERAL IN COUNCIL:

The undersigned has the honour to report:

THAT it is immediately necessary, and funds are provided in the 1947-48 estimates, Indian Affairs Branch, Mines and Resources, to construct a four-room Indian day school and teacher's residence at Hay River, in the Northwest Territories;

THAT it is essential that educational facilities be provided for the Indian children in the Hay River district;

THAT Section 36 of the Public Works Act, Chapter 186, R.S.C. 1927, provides, in part, as follows:-

"Whenever any works are to be executed under the direction of any Department of the Government the Minister having charge of such Department shall invite tenders by public advertisement for the execution of such works except in cases (a) of pressing emergency in which delay would be injurious to the public interest...";

THAT efforts have been made to interest builders and contractors in the vicinity of Hay River but the builders and contractors have advised that they would not be interested in tenders if invited as aforesaid, as they have all the work they can do in their own localities;

THAT a competent building contractor, namely Mr. Peter Mattson, Hay River, who, our officials state, is a very reliable man, has agreed to undertake the construction of the said building immediately, on the basis of cost plus ten per-cent;

THAT it is considered that the construction of this building is a pressing emergency and within the exception provided in Section 36 above recited, and further, it is considered that the work can be more expeditiously and economically executed as suggested herein.

The undersigned, therefore, recommends that authority be granted for the construction of this building as outlined, this being the only arrangement possible at the present time, being essential that this work be undertaken at once and carried to completion in order that the building will be available by the time the next school term commences.

Respectfully,

Acting Minister

A.Memorandum:DEPUTY MINISTERConstruction of four-room school and teacher's residence, Hay River, Northwest Territories.

Mr. J. W. McKinnon, Inspector of Schools, strongly advises the immediate construction of a four-room Indian Day School and Teacher's Residence at Hay River.

Plans and specifications of the building required were forwarded to Mr. W. A. Campbell, Hay River Settlement (representative of the Surveys and Engineering Branch).

We are now advised that Mr. Peter Mattson, Hay River, N. W. T., is prepared to construct this school and residence on a basis of cost plus ten per cent. Mr. Mattson is stated to be a very reliable contractor. An amount of \$30,000.00 is included in the supplementary estimates, 1947-48, for the construction of these buildings.

I enclose Memorandum to Council requesting authority for the construction of the above buildings.

Proposed Hay River Indian Day School

On his return last week from a survey trip throughout the Mackenzie District, Mr. J. W. McKinnon, our Inspector of Schools, discussed with Mr. C. H. Buck of your branch the plans for the above mentioned school.

In view of the local situation at Hay River Mr. McKinnon was most anxious that some educational facilities be provided as quickly as possible. Since it appeared that the preparation of the detailed specifications for the proposed school would not be completed in time to allow for construction this fall it was decided to ask the contractor if he would accept a contract on a cost plus 10% basis. Should such a procedure be acceptable to the contractor, it was planned to proceed with the immediate construction of the teacher's residence and to use same as temporary classrooms quarters during the coming winter season. A wire received to-day from the contractor indicates his acceptance of this proposal, and hence this plan will be carried out.

The teacher's residence will be constructed according to the plans and specifications already prepared by your branch, with the exception of the fact that a furnace room will be substituted for the complete basement and provided in the existing plans.

It will not be possible to prepare the plans for the school without any undue haste and in the light of all

2

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

available information concerning construction conditions. In this respect Mr. McKinnon has advanced the following suggestions:

- (1) That the basement be eliminated from the proposed new school building and that a furnace room be substituted;
- (2) Having in mind the subjects that will be freed by the elimination of the basement stairways that inside toilets be provided in the school building;
- (3) That the building be completely equipped with wiring and plumbing installations, to allow for the installation of a Delco light plant and a water-pressure system;
- (4) That accordion doors be placed between two of the classrooms so that the rooms may be readily convertible into a small auditorium for school purposes;
- (5) That built-in cupboards be installed in each classroom.

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the 14 AUGUST 1947

PRIVY COUNCIL

CANADA

The Committee of the Privy Council have had
before them a report dated August 6, 1947, from the
Acting Minister of Mines and Resources, representing;

That it is immediately necessary, and funds are
provided in the 1947-48 estimates, Indian Affairs
Branch, Mines and Resources, to construct a four-room
Indian day school and teacher's residence at Hay River,
in the Northwest Territories;

That it is essential that educational facilities
be provided for the Indian children in the Hay River
district;

That Section 36 of the Public Works Act, Chapter
186, R.S.C. 1927, provides, in part, as follows:-

"Whenever any works are to be executed under the
direction of any Department of the Government the
Minister having charge of such Department shall invite
tenders by public advertisement for the execution of
such works except in cases (a) of pressing emergency
in which delay would be injurious to the public interest..";

That efforts have been made to interest builders
and contractors in the vicinity of Hay River but the
builders and contractors have advised that they would
not be interested in tenders if invited as aforesaid,
as they have all the work they can do in their own
localities;

That a competent building contractor, namely
Mr. Peter Mattson, Hay River, who, our officials state,
is a very reliable man, has agreed to undertake the
construction of the said building immediately, on the
basis of cost plus ten per-cent; and

That it is considered that the construction of
this building is a pressing emergency and within the
exception provided in Section 36 above recited, and
further, it is considered that the work can be more
expeditiously and economically executed as suggested
herein.

The Honourable
the Minister of Mines and Resources.

Contractor to cover such above-mentioned orders, the Contractor shall apply them so that the cash discounts thereon will be obtained. Provided always, however, that if His Majesty fails to provide funds to the Contractor to cover such orders or fails to pay for same as provided for above, the Contractor shall be entitled to the benefit of all cash discounts in respect of purchases made by it with its own funds of materials required for the carrying out of this contract. It is understood that His Majesty may supply the Contractor with materials or may make available to the Contractor funds with which to purchase materials required for the purposes of this contract and any and all materials or funds so supplied or made available shall be used by the Contractor solely for the purposes of this contract.

SECTION 5. LISTS OF MATERIALS AND EQUIPMENT SUPPLIERS

The Contractor shall, before placing any orders for any equipment or materials required for the performance of this contract submit to the Minister a list of the suppliers from which, and the price at which it proposes to purchase such materials or equipment, and the Contractor shall, if so directed by the Minister, purchase any or all of such materials or equipment from the same or from some other supplier or suppliers designated by the Minister, with which the Department of Mines and Resources may have made special arrangements for the supply thereof with respect to priorities in the delivery thereof.

SECTION 6. PAYMENTS

(a) As promptly as possible after the 1st day of each month during the prosecution of the work, the Contractor shall furnish to the Minister a certified statement or progress claim of the cost of the work (determined in accordance with Schedule "A") for the preceeding period, such statement to be accompanied by two copies of all payrolls, vouchers and invoices and such other information as the Minister may require and thereupon, if such statement is satisfactory to the Minister, the Contractor will be paid the amount which may be due within fifteen (15) days after such statement or progress claim has been received by the Minister;

(b) Payments shall be made only on the production and delivery by the Contractor to the Minister of a certificate in wiring signed by the Indian Agent and, if required by the Minister, by a cost accountant appointed or approved by the Minister, certifying the amount to which the contractor is entitled as aforesaid;

(c) The Contractor shall, when making his final requisition for payment furnish to the Indian Agent satisfactory

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

ARCHIVES PUBLIQUES
CANADA

(b) In this contract unless the context otherwise requires:

"Engineer" shall mean the Indian Agent of the Fort Resolution Agency, Indian Affairs Branch of the Department of Mines and Resources, having control over the work and shall extend to and include any of the officers or employees of the Department of Mines and Resources acting under the instructions of the Director of the Indian Affairs Branch, and all instructions and directions, or certificates given, or decisions made by any one acting for the Director of the Indian Affairs Branch, shall be subject to the approval of the Director of the Indian Affairs Branch, and may be cancelled, altered, modified and changed as the Director of the Indian Affairs Branch may see fit; Provided always, and it is hereby understood and agreed that any act on the part of the Director of the Indian Affairs Branch in connection with and in virtue of the present contract, and any instructions or directions or certificates given, or decisions made by the said Director of the Indian Affairs Branch, shall be subject to approval or modification or cancellation by the Minister.

"Minister" shall mean the Minister of Mines and Resources of Canada, and his successor for the time being in office and includes the Deputy Minister or any acting Deputy Minister, and any duly authorized representative of the Department of Mines and Resources.

SECTION 2.

SUBJECT MATTER

The Contractor covenants and agrees:

- (a) To erect a shall at Hay River in the Fort Resolution Agency, in the Northwest Territories, subject to the conditions mentioned in this contract, all of which is hereinafter referred to as "the work"
- (b) To provide all labour, materials, plant and equipment (except such materials as are included in the Government issue, if any) required for the proper completion of the work, and to perform all the work of and incidental thereto;
- (c) To provide an efficient administration for and to superintend efficiently the work at all times;
- (d) To perform and observe all covenants, terms, provisos and conditions contained in the contract on the part of the Contractor to be performed and observed;

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

POOR COPY

(e) To carry out and perform the work with all possible despatch and to complete the work to the satisfaction of the Minister.

SECTION 3.

PRICE - COST PLUS PERCENTAGE

His Majesty covenants and agrees:

(a) To pay to the Contractor the cost of the work, as defined in Schedule "A" hereto attached which cost as so defined is hereinafter referred to as "the cost of the work".

(b) To pay to the Contractor a fee equal to fifteen per cent (15%) of the cost of the work payable in monthly payments bearing the same proportion to the total that the cost of the work done (as certified by the Indian Agent) during the month for which payment is claimed bears to the estimated cost of the work.

(c) It is understood that the "cost of the work" and the Contractor's fee will not exceed Thirty Two Thousand Dollars (\$32,000.00)

(d) The said fee referred to in subsections (b) and (c) hereof shall be deemed to cover the entire profit of the Contractor and the necessary services of all executive officers of the Contractor and also all overhead expenses of the Contractor at its general offices and at any regularly established branch office, including but without limiting the generality of the foregoing the services of the purchasing, accounting, estimating and contract departments at such general offices or regularly established branch office.

SECTION 4.

REFUNDS AND TRADE DISCOUNTS

The Contractor covenants and agrees to take advantage of any and all refunds and trade discounts and such refunds and trade discounts and any profits (save and except the fee payable to the Contractor as provided in Section 3 hereof) which may be received by the Contractor in any way in connection with the work shall be credited by the Contractor to His Majesty. It is understood and agreed, however, that the Contractor shall notify His Majesty immediately upon placing each order for material to be used in connection with the work upon which a cash discount will accrue, for the purpose of enabling His Majesty to take advantage of such cash discount, if His Majesty deems it advisable, by advancing funds to the Contractor to cover such above-mentioned orders or by paying for such orders out of funds set aside by His Majesty for that purpose, and upon His Majesty advancing such funds to the

SCHEDULE "B"

GENERAL CONDITIONS

(Cost Plus Percentage Construction)

INTERPRETATION

Unless the context otherwise requires,

(a) The term "the agreement" means the particular agreement or contract of which in each specific case, these general conditions are expressed to form a part;

(b) The terms "this contract" and "the contract" mean and include the agreement, these general conditions, the specifications and/or labour conditions referred to in the agreement or in these general conditions and all other schedules, exhibits or other documents (if any) annexed to the agreement or referred to therein as being part thereof. In the event of any inconsistencies, the provisions of the agreement and/or these general conditions shall prevail over the specifications and similarly the provisions of the agreement shall prevail over these general conditions;

(c) The words "herein", "hereby", "hereof", "hereunder", and similar expressions refer to the contract as a whole and not to any particular subdivision or part thereof;

(d) "Specifications" means any and all specifications, plans and/or drawings at any time furnished for the carrying out of this contract, including the specifications, plans and/or drawings (if any) referred to in the agreement;

(e) "Minister" means the Minister of Mines and Resources of Canada and his successor for the time being in office and includes the Deputy Minister and any Acting Deputy Minister and any duly authorized representative of the Department of Mines and Resources.

(f) "Engineer" shall mean the person designated in the agreement;

(g) "Work" means the work done or required to be done by the Contractor, and when the context permits, includes labour and materials shown or described in the specifications;

(h) The term "sub-contractor" includes a person, firm or corporation having a contract with the Contractor (other than contracts of hire for personal services) for the execution of a part or parts of the work and also a person, firm or corporation furnishing material to the Contractor in connection with the work;

(i) "Other Contractor" means any person, firm or corporation

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

employed by, or having a contract directly or indirectly with, the Minister otherwise than through the Contractor;

(j) "Government issue" means all materials, machinery, tools and/or equipment (if any) which may be supplied by His Majesty to the Contractor for the purposes of the work and includes also any specifications supplied to the Contractor for the said purposes, provided however, that the Contractor shall not be entitled to be supplied with any Government issue except as and to the extent (if any) specifically provided in the agreement;

(k) "Allied firm" means any firm, company or corporation which directly or indirectly controls or is controlled by or is affiliated with the Contractor, and includes any individual or individuals directly or indirectly controlling the Contractor or any such company or corporation as aforesaid;

(l) Any and all rights, powers, authorities and discretions herein, expressed to be conferred upon or vested in His Majesty may be exercised by the Minister (as defined herein) and/or any other person or persons duly authorized in that behalf;

(m) The singular number, where used herein, shall include the plural and vice versa and reference to persons shall include corporations and vice versa.

2. SUCCESSORS AND ASSIGNS

This contract shall enure to the benefit of all and shall be binding upon the heirs, executors, administrators or successors and assigns (subject as hereinafter provided) of the Contractor and the successors of His Majesty; provided that the Contractor shall not be entitled to assign or sublet this contract or any of the work except as herein expressly provided.

3. QUALITY

The work shall be performed by the Contractor using the best materials and finished in the best and most workmanlike manner, and in strict conformity with the contract, and to the complete satisfaction of the Indian Agent and the Minister, and at such places as the Indian Agent shall, from time to time, direct.

4. TIME

Time shall be deemed to be material and of the essence of this contract.

5. CHANGES IN THE WORK

The Minister may, through the Indian Agent from time to time, by

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

written instruction or drawings issued to the Contractor, make changes in the work, issued additional instructions, require additional work or direct the omission of work previously ordered, and the provisions of the contract shall apply to all such changes, modifications and additions with the same effect as if they were embodied in the contract plans, drawings and specifications.

Instructions shall be deemed to have been duly given to the Contractor if given to the Superintendent or to a foreman of the Contractor on the work. or if given to the Contractor personally or, if the Contractor is a firm or corporation, to a member of such firm or officer of such corporation.

If there is any change in the work, the Minister shall decide if there has been such a material increase or decrease in the scope of the work so that an adjustment should be made in the Contractor's fee and the Minister's decision on the adjustment to be made shall be final.

6. INDIAN AGENT SOLE JUDGE OF WORK AND MATERIALS

The Indian Agent shall be the sole judge of the work and material, in respect of both quality and quantity, and his decision on all questions in dispute with regard thereto, or as to the meaning or intention of the contract and as to the meaning or intention of the contract and as to the meaning or interpretation of the plans, drawings and specifications shall be final, and no work under the contract shall be deemed to have been performed, nor materials or things provided, so as to entitle the Contractor to payment therefor unless and until the Indian Agent is satisfied therewith, as evidenced by his certificate in writing, which certificate shall be a condition precedent to the right of the contractor to be paid therefor; provided that any such decision may be altered or cancelled by the Minister.

7. WORK SUBJECT TO CONTROL OF INDIAN AGENT

The work shall, in every particular, be under and subject to the control and supervision of the Indian Agent.

8. FOREMAN OF WORKS

A competent foreman shall be kept on the ground by the Contractor during working hours, to receive the orders of the Indian Agent. Such foreman shall be considered as the lawful representative of the Contractor and shall carry out all requisitions and instructions of the Indian Agent.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

9. DEFECTIVE WORK OR MATERIAL

Should the Contractor use or employ, or intend to use or employ, any material, plant, tools, equipment, articles or things, which in the opinion of the Indian Agent, are not in accordance with the provisions of the contract or are in any way unsuitable for the work, or any part thereof, or should the Indian Agent consider that any work is for any reason, improperly, defectively, or insufficiently executed or performed, the Indian Agent may order the Contractor to remove the same, and to use and employ proper material, plant, tools, equipment, articles and things or to properly re-execute and perform such work, as the case may be, and thereupon the Contractor shall immediately comply with such orders and if the Contractor fails to comply with such orders within twenty-four hours the Indian Agent may, at any time thereafter, execute or cause to be executed the orders so given.

10. CONSUMABLE TOOLS, MATERIALS AND SUPPLIES

All usable tools (other than tools customarily provided by tradesmen) and all consumable materials and supplies left over after the completion of the work shall, if the Minister so desires, be taken over and be paid for by the Contractor at a fair and reasonable price to be determined by the Minister.

11. WORK NOT COMPRISED IN CONTRACT

His Majesty may, at any time, without payment therefor, send and employ on, in and about the work other contractors, and workmen, with such horses, machinery, tools, plant, equipment, materials, articles and things as the Indian Agent may deem necessary to do any work not comprised in the contract, and the Contractor shall afford them all reasonable facilities, to the satisfaction of the Indian Agent, for doing such work, the work of the Contractor being interfered with as little as the Indian Agent may deem practicable.

The taking of possession of the whole or any part of the work of the Contractor for such purpose shall not be deemed in acceptance by or on behalf of His Majesty of the whole or any portion of the work comprised in this contract.

12. POWER TO TAKE WORK FROM CONTRACTOR

In case the Contractor shall make default or delay in commencing, or in diligently executing any of the work or portions thereof to be performed, or that may be ordered under the contract, to the satisfaction of the Indian Agent, the Indian Agent may give a general notice to the Contractor requiring him to put an end to such default

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

or delay, and should such default or delay continue for six days after such notice shall have been given by the Indian Agent to the Contractor, or should the Contractor make default in the completion of the work, or any portion thereof, within the time limited with respect thereto in or under this contract, or should the Contractor become insolvent or abandon the work or make an assignment of this contract without the consent required or otherwise fail to observe and perform any of the provisions of the contract, then and in any of such cases, the Minister, for and on behalf of His Majesty, and without any further authorization, may take all the work out of the Contractor's hands and may employ such means as he may see fit to complete the work, and in such cases the Contractor shall have no claim for any further payment on account of the fee stipulated to be payable to the Contractor or in respect of work performed, but shall be chargeable with, and shall remain liable for all loss and damage which may be suffered by His Majesty by reason of such default, or delay, or the non-completion by the Contractor of the work, and all horses, machinery, tools, plant and equipment, and all rights proprietary or otherwise, licences, powers and privileges, whether relating to or affecting real estate or personal property, acquired, possessed or provided by the Contractor for the purposes of the work, or by the Indian Agent under the provision of the contract may be used, exercised and enjoyed by His Majesty, for the purpose of carrying out the work as fully to all intents and purposes as they might theretofore have been used, exercised and enjoyed by the Contractor.

13. INSURANCE

(a) The Contractor, unless otherwise instructed by the Minister, shall insure all materials, equipment and Contractor's plant during transit and at all times during the construction and until the final acceptance of the work and shall keep the same and all buildings and structure being constructed and/or erected insured against loss by fire, in such insurance company or companies and in such amount or amounts as may be approved of by the Indian Agent and the policies of such insurance shall be made payable as the interests of the Contractor and His Majesty, may, respectively, appear, and the original policies together with certified copies thereof shall be forwarded to the Indian Affairs Branch; provided that such buildings or structures need not be insured by the Contractor from and after the date of the occupation thereof by His Majesty.

(b) The Contractor shall maintain such insurance as will protect him from claims under Workmen's Compensation Acts and from any other claims for damages for personal injury, including death, which may arise from his operations under the Contract. Certificates of such insurance shall be forwarded to the Indian Affairs Branch and shall be subject to their approval as to adequacy of protection; and the Contractor shall indemnify and save harmless His Majesty from and

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

against all claims and demands, loss, costs, damages, actions suits or other proceedings by whomsoever made, brought or prosecuted in any manner based upon, occasioned by, or attributable to any such death, or injury, or any damage to, or infringement of, any property or right.

14. GOVERNMENT ISSUE

(a) All items comprised in any Government issue supplied to the Contractor for the purposes of the contract shall always be and remain the property of His Majesty and shall be used by the Contractor solely for the purposes of the Contract and the Contractor shall account fully to the Minister for such Government issue in such manner as the Minister may require.

(b) The Contractor shall be responsible for and shall indemnify His Majesty for all loss or damage of or to any and all such Government issue while on the premises of or in the care or subject to the control of the Contractor and shall at its own expense replace, repair or restore to the complete satisfaction of the Minister any and all such Government issue which may be so lost or damaged; provided that the Contractor shall not be obligated to make good damage caused by reasonable wear and tear or due to causes beyond his control.

15. PRECAUTIONS AGAINST FIRE

The Contractor shall take special precautions to prevent fire occurring in or about the work, and shall observe and comply with all laws and regulations in force respecting fires, and with all regulations and instructions made and given from time to time during construction, by the Indian Agent with respect to fires and the prevention and extinguishing of fires.

16. ASSIGNMENTS

The Contractor shall not assign or sublet the contract without the written consent of the Minister first obtained; provided however, that (unless, in any case, the Minister objects thereto and subject also as herein provided) the Contractor may sublet such portions of the work herein contracted for as is customary and usual in the construction of such work, but His Majesty shall not in any way be held liable for the payment of any moneys due to any sub-contractor, and the Contractor shall be held responsible for the proper performance of every portion of the work herein contracted for.

17. SUB-CONTRACTORS

The Contractor shall, before entering into any sub-contracts for work or materials, notify the Indian Agent in writing of the names

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

of all such proposed sub-contractors and the terms and conditions of such sub-contracts and shall not enter into any such sub-contracts without obtaining the approval of the Indian Agent thereto.

The Indian Agent may, on request, furnish to any sub-contractor wherever practicable, evidence of the amounts certified to on his account.

The Contractor agrees to bind every sub-contractor by the terms of the General Conditions, Drawings and Specifications, as far as applicable to his work.

18. MEMBER OF H.OF C. NOT TO BENEFIT

No member of the House of Commons of Canada shall be admitted to any share or part of the contract, or to any benefit to arise therefrom.

19. ACCOUNTS

The Contractor shall keep proper accounts and records in such form and detail as shall be satisfactory to the Minister of the cost to the Contractor of the work and the invoices, receipts and vouchers relating thereto, and such accounts records, invoices, receipts and vouchers shall at all times be open to audit and inspection by the Minister or his authorized representatives (who may make copies thereof and take extracts therefrom) and the Contractor shall afford all proper facilities for such audits and inspections and shall furnish the Minister and his authorized representative with all such information as he or they may from time to time require with reference to such accounts, records, invoices, receipts and vouchers. If any part of the work is performed by an allied firm (as defined herein) the Contractor shall also cause such allied firm to keep similar accounts, records, invoices, receipts and vouchers with respect to the cost of the work performed by such allied firm, and to permit the same to be inspected and audited by the authorized representatives of the Minister. The Contractor shall cause all such accounts, records, invoices, receipts and vouchers as aforesaid to be preserved and kept available for audit and inspection at any time and from time to time until the expiration of five (5) years from the date of the termination of the work.

20. WORK TO BE FREE FROM ALL ENCUMBRANCES

Before making any payment on any progress or final estimate the Minister may require the Contractor to furnish evidence that all work performed, and material supplied and all structures built for which payment is being made are free and clear from all lawful claims

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

or liens under any law for labour, workmanship, materials or otherwise; the Contractor shall indemnify and hold harmless His Majesty from and against any and all kinds of claims or liens accruing from labour and services performed and material furnished or otherwise, and any of the same in or about the works.

21. PATENT CLAIMS AND ROYALTIES

(a) His Majesty shall indemnify the Contractor against all actions, claims or proceedings for infringement of any patent or industrial design rights or of any alleged patent or industrial design rights (hereinafter referred to as "patent rights") in carrying out his contract, and for royalties or other payments which may be payable in connection with any such patent rights (including any amounts properly payable by the Contractor to any of its sub-contractors pursuant to any similar covenant of indemnity given by the Contractor to any sub-contractor), in respect of anything the model, plan or design of which shall have been provided by or on behalf of His Majesty, but this indemnity shall apply to this contract only.

(b) Save and except as set forth in sub-section (a) of this section, the Contractor shall indemnify His Majesty against all actions, claims or proceedings for infringement of any patent rights and for royalties or other payments which may be payable in connection with any such patent rights in carrying out this contract.

(c) Before making any payments with respect to any patent rights, the Contractor shall supply to the Minister a statement showing all payments and claims for payment by way of royalties or otherwise which the Contractor or any of its sub-contractors will or may be obligated to make or proposes to make to the owner or holder of any patent rights in connection with this contract, and the basis thereof and the parties to whom the same are payable, and shall from time to time promptly advise the Minister of any and all claims or arrangements made or proposed, which would or might result in further or different payments being made by the Contractor or any of its sub-contractors by way of royalties or otherwise as aforesaid.

(d) If and when the Minister shall so direct, the Contractor shall make no payment by way of royalties or otherwise with respect to any patent rights referred to in any statement furnished by the Contractor as provided in sub-section (c) of this section, except with the consent of the Minister and subject to such conditions as the Minister may impose and from and after the giving of any such direction by the Minister, His Majesty shall indemnify the Contractor against any action, claim or proceeding for infringement

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

of the patent rights covered by such direction or for non-payment of royalties or other payments in respect thereof.

22. SANITATION

The Contractor shall comply with, and the work shall be carried on subject to all regulations made by any lawful authority and applicable to said work, and all orders given by the Indian Agent with respect to sanitation or preservation of health on the work. The Contractor shall make adequate arrangements, to the satisfaction of the Indian Agent, for the medical and sanitary supervision of all his employees.

23. INDIAN AGENT'S MARKS

The Contractor shall protect, and shall not remove or destroy, or permit to be removed or destroyed, the stakes, buoys and other marks placed on or about the said work by the Indian Agent or his assistants, and shall furnish the necessary assistance to correct or replace any stake, buoy or mark which through any cause may have been removed or destroyed.

24. NOTICES

Any notice, order, direction or other communication given to the Contractor under any of the provisions of this contract shall be sufficiently given if delivered to the Contractor personally, or to his foreman, or left at the Contractor's office, or mailed at any post office to the Contractor or foreman addressed to the address mentioned in the contract, or to the Contractor's last known place of business or residence.

25. PROGRESS MEASUREMENTS AND CERTIFICATES NOT BINDING

The progress measurements and progress certificates shall not in any respect be taken as binding upon the Indian Agent or as final measurements or as fixing final amounts; they are to be subject to the revision of the Indian Agent in making up his final certificate, and they shall not in any respect be taken as an acceptance of the work or as a release of the Contractor from responsibility in respect thereof.

26. PROTECTION OF WORK

The contract and all information issued in connection therewith are confidential and their use must be strictly confined

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

to the work and to the purpose of the contract; and particulars contained therein; and other matter issued in connection therewith; must not be disclosed to unauthorized persons.

The Contractor shall at all times take and cause to be taken all reasonable measures, for the protection of the work against espionage and sabotage, and on the order of the Minister shall dispense with the services of any person employed in, about or upon the work or cause the same to be dispensed with. The Minister shall at all times through such agency as he may see fit be entitled to maintain on or about the premises where the work or any part thereof is being carried on such police or other protective force as in the opinion of the Minister may be advisable.

27. CANADIAN WORK AND MATERIALS

To the full extent that the same are procurable, only Canadian labour, parts and materials (unless otherwise agreed by the Minister) shall be used in connection with the work.

27a. EMPLOYMENT OF EX-SERVICE MEN

In engaging labour for the work contemplated by this contract, either from the National Employment Service or from Trade Unions with which the contractor has collective agreements, the contractor shall specify that preference shall be given to competent and available ex-service men.

The contractor shall maintain and keep available for inspection by the Minister a record of the names and addresses of ex-service men employed, together with a record of the steps taken to implement this requirement.

28. SALARIES

The salaries payable to engineers, superintendents, draftsmen and foremen shall only be such as shall be approved by the Minister.

29. TERMINATION

(a) Notwithstanding anything in this contract contained the Minister may, by giving notice to the Contractor, terminate the contract (save and except the provisions of this section and of section 19 of these general conditions) as regards all or any part or parts of the work or works not theretofore completed. Upon such notice being given, the Contractor shall cease work (including the procuring of materials for the fulfilment of the contract) in accordance with and to the extent specified in such notice but shall

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

proceed with all reasonable speed to complete such part or parts (if any) of the work or works as are by the terms of such notice to be completed and shall also proceed with all reasonable speed to complete up to such time and/or stage as may be specified in the notice any part or parts of the work or works as required by such notice. The Minister may, at any time, or from time to time give one or more additional notices with respect to any or all parts of the work which remain to be completed after the giving of any previous notice or notices.

(b) All work completed by the Contractor under or pursuant to the provisions of the contract before or after the giving of any notice, subject to acceptance by His Majesty in accordance with the provisions of the contract, shall be paid for on the basis provided in the agreement (the Contractor being allowed such fraction of his stipulated fee as shall be proportionate to the amount of the work theretofore completed) and the Contractor shall be entitled to be reimbursed the actual cost to the contractor of work not completed under or pursuant to the provisions of this contract and/or any notice given pursuant thereto plus a fair and reasonable profit in respect of work done thereon, provided that no reimbursement shall be made for materials which have been or may be rejected after inspection as not complying with the terms and conditions of this contract and the specifications.

(c) In the event that the Contractor and the Minister are unable to agree upon the amount in respect of which the Contractor is entitled to be reimbursed as aforesaid, the matter shall be referred to the Exchequer Court.

(d) Whenever practicable the Contractor shall procure materials required for the performance of the contract on terms that will enable it to terminate any contracts entered into by the Contractor upon conditions and terms similar in effect to those herein provided for in respect to termination by the Minister and the giving of a notice or notices as aforesaid; and generally the Contractor shall co-operate with His Majesty and the Minister and do everything reasonably within its power at all times to minimize and reduce the amount of His Majesty's obligations under the provisions of this section.

(e) Upon reimbursement being made to the Contractor as herein provided, title to the materials and/or work in progress in respect of which such reimbursement is made shall pass to and vest in His Majesty (the Contractor hereby agreeing to execute and deliver all requisite instruments by way of further assurance) and such materials and/or work in progress shall be delivered to the order of the Minister, but the materials thus taken over will in no case be in excess of what would have been required for performing the contract in full if no notice had been given under the provisions hereof.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

ARCHIVES PUBLIQUES
CANADA**

POOR COPY

(f) If it is established to the satisfaction of the Minister by the Contractor that by reason of any action taken by the Minister under the provisions of this section exceptional hardship has resulted to the Contractor then the Minister may, notwithstanding any other provisions of this section, in his absolute discretion grant such allowance (not to include in any case, however, any allowance or compensation for loss or profit) to the Contractor as, in the opinion of the Minister is warranted by the circumstances.

(g) Any action, decision or determination by the Minister under the provisions of this section shall be final and binding upon the Contractor.

(h) The Contractor shall have no claim for damages, compensation loss of profit, allowance or otherwise by reason of or directly or indirectly arising out of any action taken or notice given by the Minister under or pursuant to the provisions of this section except as and to the extent in this section expressly provided.

(i) The right of termination and of giving notice hereinbefore provided shall be in addition to and not in substitution for any other right possessed by His Majesty and/or the Minister.

30. LABOUR CONDITIONS

The Contractor shall comply with and be subject to all the terms and conditions of the Labour Conditions (if any) referred to in the agreement and to all variations and modifications thereof that may at any time be enacted or brought into force during the continuance of the contract.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

POOR COPY

SCHEDULE "A"

Definition of work

The 'cost of the work' shall mean and include the reasonable and proper costs and expenses incurred or paid by the Contractor (except with respect to the provisions of Section (j) for the following items only:

Section (a) The total amount actually and properly payable to sub-contractors in connection with the work;

Section (b) Wages of workmen and salaries of engineers, superintendents, draftsmen, foremen, clerical staff, time-keepers and watchmen actually and properly engaged on the work;

Section (c) Cost of materials actually used in the work or required in connection therewith (with the exception of the Government issue) and not included under Section (a) of this Schedule "A";

Section (d) Costs actually and properly incurred for inspection, delivery, installation and removal of materials, plant, tools, and supplies used in connection with the work, it being understood that minimum transportation rates are to be taken advantage of wherever possible;

Section (e) Costs of renting, erecting, maintaining and removing temporary offices, sheds and similar structures actually and necessarily required in connection with the work;

Section (f) Travelling expenses actually and, in the opinion of the Minister, necessarily incurred, in connection with the work;

Section (g) Cost of maintaining and operating the Contractor's plant and equipment actually and properly used in connection with the work and of effecting such repairs thereto as in the opinion of the Indian Agent are necessary for the proper execution of the work inclusive of any repairs which may be necessary because of defects in the plant and equipment when brought to the work;

(Section (h)) Assessments under any Workmen's Compensation Act, employer's contribution to Unemployment Insurance (if any), premiums actually and properly payable in respect of all insurance policies and bonds, if any, called for by the contract or ordered by the Minister, all royalties actually and properly payable for the use of any patented invention, all fees actually and properly paid for building permits;

Section (i) The cost of all consumable materials, supplies and tools (other than tools customarily provided by tradesmen) actually and properly used in connection with the work;

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

Section (j) Rental for such power-driven or other plant owned by the Contractor or an allied firm as are actually and properly used in connection with the work or kept in readiness on the work upon the recommendation of the Indian Agent and with the approval of the Minister during the month in respect of which claim for such rental is made, provided that if any of the said items shall be used or kept in readiness as aforesaid for less than a full month then the Contractor shall be paid the pro rata amount thereof; as and when it is decided what items of plant are necessary for completion of the work. Any item of plant which has been brought to the work shall be deemed to be kept in readiness on the work, notwithstanding that such item of plant may be undergoing repairs, provided that the Indian Agent is of opinion that such repairs are required for the proper execution of the work and have not been rendered necessary because of any defect which existed in such item of plant when brought to the work, and provided also that if the time required to effect such repairs exceeds one month, no rental shall be paid for the time in excess of one month.

Section (k) Amounts actually and properly payable by the Contractor for the rental of power-driven or other plant (not owned by the Contractor or by an allied firm) rented by the Contractor for the purposes of the work, including ordinary maintenance and operating repairs thereof; provided that the Contractor shall previously have advised the Indian Agent that the renting of such plant is necessary to expedite the performance and completion of the work, and provided further that the renting of such plant and the amount of the rental thereof shall have been recommended by the Indian Agent and approved by the Minister for the month or months in respect of which payment of such rental is sought by the Contractor;

(Section (l)) Bank charges necessarily and properly incurred by the Contractor for the transfer of funds, required for the purposes of the work, from the head office or regularly established branch office bank account (whichever is nearer to the work) of the Contractor to a bank account which the Contractor has opened in the vicinity of the work (hereinafter called the "Work Account") including the re-transfer of any funds remaining upon the completion of the work in the work account to the head office or regularly established branch office bank account, provided that in order to keep such charges to a minimum the Contractor will, insofar as possible, deposit in the work account, to be used for the purposes of the work to be performed hereunder, the cheques issued by His Majesty to the Contractor as payment under the provisions hereof which cheques are payable at par at any branch of a chartered bank in the Dominion of Canada.

(Section (m)) Such other items of cost which have been properly and reasonably incurred by the Contractor solely for the purpose of the work and which have been recommended by the Indian Agent and approved

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

by the Minister provided that in addition to any other item which may not be allowed there shall not be allowed as an item of cost any of the following:-

- (1) Allowances for interest on invested capital, bonds debentures, bank or other loans.
- (2) Entertainment expenses.
- (3) Dues and other memberships other than regular trade associations.
- (4) Donations.
- (5) Losses on other contracts.
- (6) Losses from sale or exchange of capital assets.
- (7) Depreciation on buildings, machinery or equipment paid for by the Crown.
- (8) Fines and penalties.
- (9) Amortization of unrealized appreciation of values of assets.
- (10) Expenses, maintenance and/or depreciation of excess facilities.
- (11) Increase in reserves for contingencies, repairs, compensation insurance and guaranteed work.
- (12) Federal and Provincial income, excess profits or surtaxes.
- (13) Unreasonable compensation for officers and employees.
- (14) Bond discount or finance charges.
- (15) Premiums for life insurance on the lives of officers.
- (16) Legal and accounting fees in connection with re-organizations, security issued, or capital stock issues.
- (17) Losses on investments, bad debts and expenses of collection.
- (18) Advertising and selling expenses.

THIS AGREEMENT made in triplicate as of this

day of

, 19 .

BETWEEN:

HIS MAJESTY THE KING in right of Canada
(hereinafter called "His Majesty") herein
represented by the Honourable the Minister
of Mines and Resources (hereinafter called
"the Minister")

OF THE FIRST PART

- and -

MR. PETER MATTSO (hereinafter called "the
Contractor")

OF THE SECOND PART

WITNESSETH that it is agreed by and between the parties
hereto as follows:

SECTION 1. CONTRACT AND INTERPRETATION

- (a) The contract consists of the following:
- (i) this agreement
 - (ii) the general conditions attached hereto,
and referred to as Schedule "B" (Cost
Plus Percentage Construction)
 - (iii) the labour conditions attached hereto
 - (iv) the definition of cost attached hereto
and marked Schedule "A"
 - (v) all plans, drawings, specifications or
other documents or exhibits (if any)
attached hereto and initialled or other-
wise identified by the parties hereto,
or referred to herein as being a part
hereof

all of which shall be applicable to and shall form part of this
Contract and be binding upon the parties hereto as fully and to
the same extent as if set out or incorporated herein;

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Contractor to cover such above-mentioned orders, the Contractor shall apply them so that the cash discounts thereon will be obtained. Provided always, however, that if His Majesty fails to provide funds to the Contractor to cover such orders or fails to pay for same as provided for above, the Contractor shall be entitled to the benefit of all cash discounts in respect of purchases made by it with its own funds of materials required for the carrying out of this contract. It is understood that His Majesty may supply the Contractor with materials or may make available to the Contractor funds with which to purchase materials required for the purposes of this contract and any and all materials or funds so supplied or made available shall be used by the Contractor solely for the purposes of this contract.

SECTION 5. LISTS OF MATERIALS AND EQUIPMENT SUPPLIERS

The Contractor shall, before placing any orders for any equipment or materials required for the performance of this contract submit to the Minister a list of the suppliers from which, and the price at which it proposes to purchase such materials or equipment, and the Contractor shall, if so directed by the Minister, purchase any or all of such materials or equipment from the same or from some other supplier or suppliers designated by the Minister, with which the Department of Mines and Resources may have made special arrangements for the supply thereof with respect to priorities in the delivery thereof.

SECTION 6. PAYMENTS

(a) As promptly as possible after the 1st day of each month during the prosecution of the work, the Contractor shall furnish to the Minister a certified statement or progress claim of the cost of the work (determined in accordance with Schedule "A") for the preceeding period, such statement to be accompanied by two copies of all payrolls, vouchers and invoices and such other information as the Minister may require and thereupon, if such statement is satisfactory to the Minister, the Contractor will be paid the amount which may be due within fifteen (15) days after such statement or progress claim has been received by the Minister;

(b) Payments shall be made only on the production and delivery by the Contractor to the Minister of a certificate in wiring signed by the Indian Agent and, if required by the Minister, by a cost accountant appointed or approved by the Minister, certifying the amount to which the contractor is entitled as aforesaid;

(c) The Contractor shall, when making his final requisition for payment furnish to the Indian Agent satisfactory

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

(b) In this contract unless the context otherwise requires:

"Engineer" shall mean the Indian Agent of the Fort Resolution Agency, Indian Affairs Branch of the Department of Mines and Resources, having control over the work and shall extend to and include any of the officers or employees of the Department of Mines and Resources acting under the instructions of the Director of the Indian Affairs Branch, and all instructions and directions, or certificates given, or decisions made by any one acting for the Director of the Indian Affairs Branch, shall be subject to the approval of the Director of the Indian Affairs Branch, and may be cancelled, altered, modified and changed as the Director of the Indian Affairs Branch may see fit; Provided always, and it is hereby understood and agreed that any act on the part of the Director of the Indian Affairs Branch in connection with and in virtue of the present contract, and any instructions or directions or certificates given, or decisions made by the said Director of the Indian Affairs Branch, shall be subject to approval or modification or cancellation by the Minister.

"Minister" shall mean the Minister of Mines and Resources of Canada, and his successor for the time being in office and includes the Deputy Minister or any acting Deputy Minister, and any duly authorized representative of the Department of Mines and Resources.

SECTION 2.

SUBJECT MATTER

The Contractor covenants and agrees:

- (a) To erect a shall at Hay River in the Fort Resolution Agency, in the Northwest Territories, subject to the conditions mentioned in this contract, all of which is hereinafter referred to as "the work"
- (b) To provide all labour, materials, plant and equipment (except such materials as are included in the Government issue, if any) required for the proper completion of the work, and to perform all the work of and incidental thereto;
- (c) To provide an efficient administration for and to superintend efficiently the work at all times;
- (d) To perform and observe all covenants, terms, provisos and conditions contained in the contract on the part of the Contractor to be performed and observed;

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

(e) To carry out and perform the work with all possible despatch and to complete the work to the satisfaction of the Minister.

SECTION 3.

PRICE - COST PLUS PERCENTAGE

His Majesty covenants and agrees:

(a) To pay to the Contractor the cost of the work, as defined in Schedule "A" hereto attached which cost as so defined is hereinafter referred to as "the cost of the work".

(b) To pay to the Contractor a fee equal to fifteen per cent (15%) of the cost of the work payable in monthly payments bearing the same proportion to the total that the cost of the work done (as certified by the Indian Agent) during the month for which payment is claimed bears to the estimated cost of the work.

(c) It is understood that the "cost of the work" and the Contractor's fee will not exceed Thirty Two Thousand Dollars (\$32,000.00)

(d) The said fee referred to in subsections (b) and (c) hereof shall be deemed to cover the entire profit of the Contractor and the necessary services of all executive officers of the Contractor and also all overhead expenses of the Contractor at its general offices and at any regularly established branch office, including but without limiting the generality of the foregoing the services of the purchasing, accounting, estimating and contract departments at such general offices or regularly established branch office.

SECTION 4.

REFUNDS AND TRADE DISCOUNTS

The Contractor covenants and agrees to take advantage of any and all refunds and trade discounts and such refunds and trade discounts and any profits (save and except the fee payable to the Contractor as provided in Section 3 hereof) which may be received by the Contractor in any way in connection with the work shall be credited by the Contractor to His Majesty. It is understood and agreed, however, that the Contractor shall notify His Majesty immediately upon placing each order for material to be used in connection with the work upon which a cash discount will accrue, for the purpose of enabling His Majesty to take advantage of such cash discount, if His Majesty deems it advisable, by advancing funds to the Contractor to cover such above-mentioned orders or by paying for such orders out of funds set aside by His Majesty for that purpose, and upon His Majesty advancing such funds to the

ARCHIVES PUBLIQUES
CANADA

POOR COPY

evidence, supported by a statutory declaration in form approved by the Minister establishing payment by the Contractor of the items listed in all preceeding requisitions and such other information as the Minister may require;

(d) The final payment shall not become due until the Indian Agent and, if required by the Minister, a cost accountant appointed or approved by the Minister, shall have issued a certificate that such payment is due and the Contractor shall have produced proof satisfactory to the Minister that no lien does or can exist against the work; in respect to materials, equipment or payment of wages;

(e) Five copies of all progress claims and summaries of invoices in connection with the work shall be rendered by the Contractor to the Indian Agent.

SECTION 7.

CONTRACTOR'S ADDRESS

The address of the Contractor for all purposes of and incidental to this contract is hereby declared to be

Mr. Peter Mattson,

Hay River, Northwest Territories.

SCHEDULE "B"

GENERAL CONDITIONS

(Cost Plus Percentage Construction)

INTERPRETATION

Unless the context otherwise requires,

(a) The term "the agreement" means the particular agreement or contract of which in each specific case, these general conditions are expressed to form a part;

(b) The terms "this contract" and "the contract" mean and include the agreement, these general conditions, the specifications and/or labour conditions referred to in the agreement or in these general conditions and all other schedules, exhibits or other documents (if any) annexed to the agreement or referred to therein as being part thereof. In the event of any inconsistencies, the provisions of the agreement and/or these general conditions shall prevail over the specifications and similarly the provisions of the agreement shall prevail over these general conditions;

(c) The words "herein", "hereby", "hereof", "hereunder", and similar expressions refer to the contract as a whole and not to any particular subdivision or part thereof;

(d) "Specifications" means any and all specifications, plans and/or drawings at any time furnished for the carrying out of this contract, including the specifications, plans and/or drawings (if any) referred to in the agreement;

(e) "Minister" means the Minister of Mines and Resources of Canada and his successor for the time being in office and includes the Deputy Minister and any Acting Deputy Minister and any duly authorized representative of the Department of Mines and Resources.

(f) "Engineer" shall mean the person designated in the agreement;

(g) "Work" means the work done or required to be done by the Contractor, and when the context permits, includes labour and materials shown or described in the specifications;

(h) The term "sub-contractor" includes a person, firm or corporation having a contract with the Contractor (other than contracts of hire for personal services) for the execution of a part or parts of the work and also a person, firm or corporation furnishing material to the Contractor in connection with the work;

(i) "Other Contractor" means any person, firm or corporation

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

employed by, or having a contract directly or indirectly with, the Minister otherwise than through the Contractor;

(j) "Government issue" means all materials, machinery, tools and/or equipment (if any) which may be supplied by His Majesty to the Contractor for the purposes of the work and includes also any specifications supplied to the Contractor for the said purposes, provided however, that the Contractor shall not be entitled to be supplied with any Government issue except as and to the extent (if any) specifically provided in the agreement;

(k) "Allied firm" means any firm, company or corporation which directly or indirectly controls or is controlled by or is affiliated with the Contractor, and includes any individual or individuals directly or indirectly controlling the Contractor or any such company or corporation as aforesaid;

(l) Any and all rights, powers, authorities and discretions herein, expressed to be conferred upon or vested in His Majesty may be exercised by the Minister (as defined herein) and/or any other person or persons duly authorized in that behalf;

(m) The singular number, where used herein, shall include the plural and vice versa and reference to persons shall include corporations and vice versa.

2. SUCCESSORS AND ASSIGNS

This contract shall enure to the benefit of all and shall be binding upon the heirs, executors, administrators or successors and assigns (subject as hereinafter provided) of the Contractor and the successors of His Majesty; provided that the Contractor shall not be entitled to assign or sublet this contract or any of the work except as herein expressly provided.

3. QUALITY

The work shall be performed by the Contractor using the best materials and finished in the best and most workmanlike manner, and in strict conformity with the contract, and to the complete satisfaction of the Indian Agent and the Minister, and at such places as the Indian Agent shall, from time to time, direct.

4. TIME

Time shall be deemed to be material and of the essence of this contract.

5. CHANGES IN THE WORK

The Minister may, through the Indian Agent from time to time, by

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

written instruction or drawings issued to the Contractor, make changes in the work, issued additional instructions, require additional work or direct the omission of work previously ordered, and the provisions of the contract shall apply to all such changes, modifications and additions with the same effect as if they were embodied in the contract plans, drawings and specifications.

Instructions shall be deemed to have been duly given to the Contractor if given to the Superintendent or to a foreman of the Contractor on the work, or if given to the Contractor personally or, if the Contractor is a firm or corporation, to a member of such firm or officer of such corporation.

If there is any change in the work, the Minister shall decide if there has been such a material increase or decrease in the scope of the work so that an adjustment should be made in the Contractor's fee and the Minister's decision on the adjustment to be made shall be final.

6. INDIAN AGENT SOLE JUDGE OF WORK AND MATERIALS

The Indian Agent shall be the sole judge of the work and material, in respect of both quality and quantity, and his decision on all questions in dispute with regard thereto, or as to the meaning or intention of the contract and as to the meaning or interpretation of the plans, drawings and specifications shall be final, and no work under the contract shall be deemed to have been performed, nor materials or things provided, so as to entitle the Contractor to payment therefor unless and until the Indian Agent is satisfied therewith, as evidenced by his certificate in writing, which certificate shall be a condition precedent to the right of the contractor to be paid therefor; provided that any such decision may be altered or cancelled by the Minister.

7. WORK SUBJECT TO CONTROL OF INDIAN AGENT

The work shall, in every particular, be under and subject to the control and supervision of the Indian Agent.

8. FOREMAN OF WORKS

A competent foreman shall be kept on the ground by the Contractor during working hours, to receive the orders of the Indian Agent. Such foreman shall be considered as the lawful representative of the Contractor and shall carry out all requisitions and instructions of the Indian Agent.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

9. DEFECTIVE WORK OR MATERIAL

Should the Contractor use or employ, or intend to use or employ, any material, plant, tools, equipment, articles or things, which in the opinion of the Indian Agent, are not in accordance with the provisions of the contract or are in any way unsuitable for the work, or any part thereof, or should the Indian Agent consider that any work is for any reason, improperly, defectively, or insufficiently executed or performed, the Indian Agent may order the Contractor to remove the same, and to use and employ proper material, plant, tools, equipment, articles and things or to properly re-execute and perform such work, as the case may be, and thereupon the Contractor shall immediately comply with such orders and if the Contractor fails to comply with such orders within twenty-four hours the Indian Agent may, at any time thereafter, execute or cause to be executed the orders so given.

10. CONSUMABLE TOOLS, MATERIALS AND SUPPLIES

All usable tools (other than tools customarily provided by tradesmen) and all consumable materials and supplies left over after the completion of the work shall, if the Minister so desires, be taken over and be paid for by the Contractor at a fair and reasonable price to be determined by the Minister.

11. WORK NOT COMPRISED IN CONTRACT

His Majesty may, at any time, without payment therefor, send and employ on, in and about the work other contractors, and workmen, with such horses, machinery, tools, plant, equipment, materials, articles and things as the Indian Agent may deem necessary to do any work not comprised in the contract, and the Contractor shall afford them all reasonable facilities, to the satisfaction of the Indian Agent, for doing such work, the work of the Contractor being interfered with as little as the Indian Agent may deem practicable.

The taking of possession of the whole or any part of the work of the Contractor for such purpose shall not be deemed in acceptance by or on behalf of His Majesty of the whole or any portion of the work comprised in this contract.

12. POWER TO TAKE WORK FROM CONTRACTOR

In case the Contractor shall make default or delay in commencing, or in diligently executing any of the work or portions thereof to be performed, or that may be ordered under the contract, to the satisfaction of the Indian Agent, the Indian Agent may give a general notice to the Contractor requiring him to put an end to such default

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

or delay, and should such default or delay continue for six days after such notice shall have been given by the Indian Agent to the Contractor, or should the Contractor make default in the completion of the work, or any portion thereof, within the time limited with respect thereto in or under this contract, or should the Contractor become insolvent or abandon the work or make an assignment of this contract without the consent required or otherwise fail to observe and perform any of the provisions of the contract, then and in any of such cases, the Minister, for and on behalf of His Majesty, and without any further authorization, may take all the work out of the Contractor's hands and may employ such means as he may see fit to complete the work, and in such cases the Contractor shall have no claim for any further payment on account of the fee stipulated to be payable to the Contractor or in respect of work performed, but shall be chargeable with, and shall remain liable for all loss and damage which may be suffered by His Majesty by reason of such default, or delay, or the non-completion by the Contractor of the work, and all horses, machinery, tools, plant and equipment, and all rights proprietary or otherwise, licences, powers and privileges, whether relating to or affecting real estate or personal property, acquired, possessed or provided by the Contractor for the purposes of the work, or by the Indian Agent under the provision of the contract may be used, exercised and enjoyed by His Majesty, for the purpose of carrying out the work as fully to all intents and purposes as they might theretofore have been used, exercised and enjoyed by the Contractor.

13. INSURANCE

(a) The Contractor, unless otherwise instructed by the Minister, shall insure all materials, equipment and Contractor's plant during transit and at all times during the construction and until the final acceptance of the work and shall keep the same and all buildings and structure being constructed and/or erected insured against loss by fire, in such insurance company or companies and in such amount or amounts as may be approved of by the Indian Agent and the policies of such insurance shall be made payable as the interests of the Contractor and His Majesty, may, respectively, appear, and the original policies together with certified copies thereof shall be forwarded to the Indian Affairs Branch; provided that such buildings or structures need not be insured by the Contractor from and after the date of the occupation thereof by His Majesty.

(b) The Contractor shall maintain such insurance as will protect him from claims under Workmen's Compensation Acts and from any other claims for damages for personal injury, including death, which may arise from his operations under the Contract. Certificates of such insurance shall be forwarded to the Indian Affairs Branch and shall be subject to their approval as to adequacy of protection; and the Contractor shall indemnify and save harmless His Majesty from and

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

against all claims and demands, loss, costs, damages, actions suits or other proceedings by whomsoever made, brought or prosecuted in any manner based upon, occasioned by, or attributable to any such death, or injury, or any damage to, or infringement of, any property or right.

14. GOVERNMENT ISSUE

(a) All items comprised in any Government issue supplied to the Contractor for the purposes of the contract shall always be and remain the property of His Majesty and shall be used by the Contractor solely for the purposes of the Contract and the Contractor shall account fully to the Minister for such Government issue in such manner as the Minister may require.

(b) The Contractor shall be responsible for and shall indemnify His Majesty for all loss or damage of or to any and all such Government issue while on the premises of or in the care or subject to the control of the Contractor and shall at its own expense replace, repair or restore to the complete satisfaction of the Minister any and all such Government issue which may be so lost or damaged; provided that the Contractor shall not be obligated to make good damage caused by reasonable wear and tear or due to causes beyond his control.

15. PRECAUTIONS AGAINST FIRE

The Contractor shall take special precautions to prevent fire occurring in or about the work, and shall observe and comply with all laws and regulations in force respecting fires, and with all regulations and instructions made and given from time to time during construction, by the Indian Agent with respect to fires and the prevention and extinguishing of fires.

16. ASSIGNMENTS

The Contractor shall not assign or sublet the contract without the written consent of the Minister first obtained; provided however, that (unless, in any case, the Minister objects thereto and subject also as herein provided) the Contractor may sublet such portions of the work herein contracted for as is customary and usual in the construction of such work, but His Majesty shall not in any way be held liable for the payment of any moneys due to any sub-contractor, and the Contractor shall be held responsible for the proper performance of every portion of the work herein contracted for.

17. SUB-CONTRACTORS

The Contractor shall, before entering into any sub-contracts for work or materials, notify the Indian Agent in writing of the names

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

of all such proposed sub-contractors and the terms and conditions of such sub-contracts and shall not enter into any such sub-contracts without obtaining the approval of the Indian Agent thereto.

The Indian Agent may, on request, furnish to any sub-contractor wherever practicable, evidence of the amounts certified to on his account.

The Contractor agrees to bind every sub-contractor by the terms of the General Conditions, Drawings and Specifications, as far as applicable to his work.

18. MEMBER OF H. OF C. NOT TO BENEFIT

No member of the House of Commons of Canada shall be admitted to any share or part of the contract, or to any benefit to arise therefrom.

19. ACCOUNTS

The Contractor shall keep proper accounts and records in such form and detail as shall be satisfactory to the Minister of the cost to the Contractor of the work and the invoices, receipts and vouchers relating thereto, and such accounts records, invoices, receipts and vouchers shall at all times be open to audit and inspection by the Minister or his authorized representatives (who may make copies thereof and take extracts therefrom) and the Contractor shall afford all proper facilities for such audits and inspections and shall furnish the Minister and his authorized representative with all such information as he or they may from time to time require with reference to such accounts, records, invoices, receipts and vouchers. If any part of the work is performed by an allied firm (as defined herein) the Contractor shall also cause such allied firm to keep similar accounts, records, invoices, receipts and vouchers with respect to the cost of the work performed by such allied firm, and to permit the same to be inspected and audited by the authorized representatives of the Minister. The Contractor shall cause all such accounts, records, invoices, receipts and vouchers as aforesaid to be preserved and kept available for audit and inspection at any time and from time to time until the expiration of five (5) years from the date of the termination of the work.

20. WORK TO BE FREE FROM ALL ENCUMBRANCES

Before making any payment on any progress or final estimate the Minister may require the Contractor to furnish evidence that all work performed, and material supplied and all structures built for which payment is being made are free and clear from all lawful claims

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

or liens under any law for labour, workmanship, materials or otherwise; the Contractor shall indemnify and hold harmless His Majesty from and against any and all kinds of claims or liens accruing from labour and services performed and material furnished or otherwise, and any of the same in or about the works.

21. PATENT CLAIMS AND ROYALTIES

(a) His Majesty shall indemnify the Contractor against all actions, claims or proceedings for infringement of any patent or industrial design rights or of any alleged patent or industrial design rights (hereinafter referred to as "patent rights") in carrying out his contract, and for royalties or other payments which may be payable in connection with any such patent rights (including any amounts properly payable by the Contractor to any of its sub-contractors pursuant to any similar covenant of indemnity given by the Contractor to any sub-contractor), in respect of anything the model, plan or design of which shall have been provided by or on behalf of His Majesty, but this indemnity shall apply to this contract only.

(b) Save and except as set forth in sub-section (a) of this section, the Contractor shall indemnify His Majesty against all actions, claims or proceedings for infringement of any patent rights and for royalties or other payments which may be payable in connection with any such patent rights in carrying out this contract.

(c) Before making any payments with respect to any patent rights, the Contractor shall supply to the Minister a statement showing all payments and claims for payment by way of royalties or otherwise which the Contractor or any of its sub-contractors will or may be obligated to make or proposes to make to the owner or holder of any patent rights in connection with this contract, and the basis thereof and the parties to whom the same are payable, and shall from time to time promptly advise the Minister of any and all claims or arrangements made or proposed, which would or might result in further or different payments being made by the Contractor or any of its sub-contractors by way of royalties or otherwise as aforesaid.

(d) If and when the Minister shall so direct, the Contractor shall make no payment by way of royalties or otherwise with respect to any patent rights referred to in any statement furnished by the Contractor as provided in sub-section (c) of this section, except with the consent of the Minister and subject to such conditions as the Minister may impose and from and after the giving of any such direction by the Minister, His Majesty shall indemnify the Contractor against any action, claim or proceeding for infringement

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of the patent rights covered by such direction or for non-payment of royalties or other payments in respect thereof.

22. SANITATION

The Contractor shall comply with, and the work shall be carried on subject to all regulations made by any lawful authority and applicable to said work, and all orders given by the Indian Agent with respect to sanitation or preservation of health on the work. The Contractor shall make adequate arrangements, to the satisfaction of the Indian Agent, for the medical and sanitary supervision of all his employees.

23. INDIAN AGENT'S MARKS

The Contractor shall protect, and shall not remove or destroy, or permit to be removed or destroyed, the stakes, buoys and other marks placed on or about the said work by the Indian Agent or his assistants, and shall furnish the necessary assistance to correct or replace any stake, buoy or mark which through any cause may have been removed or destroyed.

24. NOTICES

Any notice, order, direction or other communication given to the Contractor under any of the provisions of this contract shall be sufficiently given if delivered to the Contractor personally, or to his foreman, or left at the Contractor's office, or mailed at any post office to the Contractor or foreman addressed to the address mentioned in the contract, or to the Contractor's last known place of business or residence.

25. PROGRESS MEASUREMENTS AND CERTIFICATES NOT BINDING

The progress measurements and progress certificates shall not in any respect be taken as binding upon the Indian Agent or as final measurements or as fixing final amounts; they are to be subject to the revision of the Indian Agent in making up his final certificate, and they shall not in any respect be taken as an acceptance of the work or as a release of the Contractor from responsibility in respect thereof.

26. PROTECTION OF WORK

The contract and all information issued in connection therewith are confidential and their use must be strictly confined

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

to the work and to the purpose of the contract; and particulars contained therein; and other matter issued in connection therewith; must not be disclosed to unauthorized persons.

The Contractor shall at all times take and cause to be taken all reasonable measures, for the protection of the work against espionage and sabotage, and on the order of the Minister shall dispense with the services of any person employed in, about or upon the work or cause the same to be dispensed with. The Minister shall at all times through such agency as he may see fit be entitled to maintain on or about the premises where the work or any part thereof is being carried on such police or other protective force as in the opinion of the Minister may be advisable.

27. CANADIAN WORK AND MATERIALS

To the full extent that the same are procurable, only Canadian labour, parts and materials (unless otherwise agreed by the Minister) shall be used in connection with the work.

27a. EMPLOYMENT OF EX-SERVICE MEN

In engaging labour for the work contemplated by this contract, either from the National Employment Service or from Trade Unions with which the contractor has collective agreements, the contractor shall specify that preference shall be given to competent and available ex-service men.

The contractor shall maintain and keep available for inspection by the Minister a record of the names and addresses of ex-service men employed, together with a record of the steps taken to implement this requirement.

28. SALARIES

The salaries payable to engineers, superintendents, draftsmen and foremen shall only be such as shall be approved by the Minister.

29. TERMINATION

(a) Notwithstanding anything in this contract contained the Minister may, by giving notice to the Contractor, terminate the contract (save and except the provisions of this section and of section 19 of these general conditions) as regards all or any part or parts of the work or works not theretofore completed. Upon such notice being given, the Contractor shall cease work (including the procuring of materials for the fulfilment of the contract) in accordance with and to the extent specified in such notice but shall

proceed with all reasonable speed to complete such part or parts (if any) of the work or works as are by the terms of such notice to be completed and shall also proceed with all reasonable speed to complete up to such time and/or stage as may be specified in the notice any part or parts of the work or works as required by such notice. The Minister may, at any time, or from time to time give one or more additional notices with respect to any or all parts of the work which remain to be completed after the giving of any previous notice or notices.

(b) All work completed by the Contractor under or pursuant to the provisions of the contract before or after the giving of any notice, subject to acceptance by His Majesty in accordance with the provisions of the contract, shall be paid for on the basis provided in the agreement (the Contractor being allowed such fraction of his stipulated fee as shall be proportionate to the amount of the work theretofore completed) and the Contractor shall be entitled to be reimbursed the actual cost to the contractor of work not completed under or pursuant to the provisions of this contract and/or any notice given pursuant thereto plus a fair and reasonable profit in respect of work done thereon, provided that no reimbursement shall be made for materials which have been or may be rejected after inspection as not complying with the terms and conditions of this contract and the specifications.

(c) In the event that the Contractor and the Minister are unable to agree upon the amount in respect of which the Contractor is entitled to be reimbursed as aforesaid, the matter shall be referred to the Exchequer Court.

(d) Whenever practicable the Contractor shall procure materials required for the performance of the contract on terms that will enable it to terminate any contracts entered into by the Contractor upon conditions and terms similar in effect to those herein provided for in respect to termination by the Minister and the giving of a notice or notices as aforesaid; and generally the Contractor shall co-operate with His Majesty and the Minister and do everything reasonably within its power at all times to minimize and reduce the amount of His Majesty's obligations under the provisions of this section.

(e) Upon reimbursement being made to the Contractor as herein provided, title to the materials and/or work in progress in respect of which such reimbursement is made shall pass to and vest in His Majesty (the Contractor hereby agreeing to execute and deliver all requisite instruments by way of further assurance) and such materials and/or work in progress shall be delivered to the order of the Minister, but the materials thus taken over will in no case be in excess of what would have been required for performing the contract in full if no notice had been given under the provisions hereof.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

ARCHIVES PUBLIQUES
CANADA

(f) If it is established to the satisfaction of the Minister by the Contractor that by reason of any action taken by the Minister under the provisions of this section exceptional hardship has resulted to the Contractor then the Minister may, notwithstanding any other provisions of this section, in his absolute discretion grant such allowance (not to include in any case, however, any allowance or compensation for loss or profit) to the Contractor as, in the opinion of the Minister is warranted by the circumstances.

(g) Any action, decision or determination by the Minister under the provisions of this section shall be final and binding upon the Contractor.

(h) The Contractor shall have no claim for damages, compensation loss of profit, allowance or otherwise by reason of or directly or indirectly arising out of any action taken or notice given by the Minister under or pursuant to the provisions of this section except as and to the extent in this section expressly provided.

(i) The right of termination and of giving notice hereinbefore provided shall be in addition to and not in substitution for any other right possessed by His Majesty and/or the Minister.

30. LABOUR CONDITIONS

The Contractor shall comply with and be subject to all the terms and conditions of the Labour Conditions (if any) referred to in the agreement and to all variations and modifications thereof that may at any time be enacted or brought into force during the continuance of the contract.

SCHEDULE "A"

Definition of work

The 'cost of the work' shall mean and include the reasonable and proper costs and expenses incurred or paid by the Contractor (except with respect to the provisions of Section (j) for the following items only:

Section (a) The total amount actually and properly payable to sub-contractors in connection with the work;

Section (b) Wages of workmen and salaries of engineers, superintendents, draftsmen, foremen, clerical staff, time-keepers and watchmen actually and properly engaged on the work;

Section (c) Cost of materials actually used in the work or required in connection therewith (with the exception of the Government issue) and not included under Section (a) of This Schedule "A";

Section (d) Costs actually and properly incurred for inspection, delivery, installation and removal of materials, plant, tools, and supplies used in connection with the work, it being understood that minimum transportation rates are to be taken advantage of wherever possible;

Section (e) Costs of renting, erecting, maintaining and removing temporary offices, sheds and similar structures actually and necessarily required in connection with the work;

Section (f) Travelling expenses actually and, in the opinion of the Minister, necessarily incurred, in connection with the work;

Section (g) Cost of maintaining and operating the Contractor's plant and equipment actually and properly used in connection with the work and of effecting such repairs thereto as in the opinion of the Indian Agent are necessary for the proper execution of the work inclusive of any repairs which may be necessary because of defects in the plant and equipment when brought to the work;

(Section (h)) Assessments under any Workmen's Compensation Act, employer's contribution to Unemployment Insurance (if any), premiums actually and properly payable in respect of all insurance policies and bonds, if any, called for by the contract or ordered by the Minister, all royalties actually and properly payable for the use of any patented invention, all fees actually and properly paid for building permits;

Section (i) The cost of all consumable materials, supplies and tools (other than tools customarily provided by tradesmen) actually and properly used in connection with the work;

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

Section (j) Rental for such power-driven or other plant owned by the Contractor or an allied firm as are actually and properly used in connection with the work or kept in readiness on the work upon the recommendation of the Indian Agent and with the approval of the Minister during the month in respect of which claim for such rental is made, provided that if any of the said items shall be used or kept in readiness as aforesaid for less than a full month then the Contractor shall be paid the pro rata amount thereof; as and when it is decided what items of plant are necessary for completion of the work. Any item of plant which has been brought to the work shall be deemed to be kept in readiness on the work, notwithstanding that such item of plant may be undergoing repairs, provided that the Indian Agent is of opinion that such repairs are required for the proper execution of the work and have not been rendered necessary because of any defect which existed in such item of plant when brought to the work, and provided also that if the time required to effect such repairs exceeds one month, no rental shall be paid for the time in excess of one month.

Section (k) Amounts actually and properly payable by the Contractor for the rental of power-driven or other plant (not owned by the Contractor or by an allied firm) rented by the Contractor for the purposes of the work, including ordinary maintenance and operating repairs thereof; provided that the Contractor shall previously have advised the Indian Agent that the renting of such plant is necessary to expedite the performance and completion of the work, and provided further that the renting of such plant and the amount of the rental thereof shall have been recommended by the Indian Agent and approved by the Minister for the month or months in respect of which payment of such rental is sought by the Contractor;

(Section (l)) Bank charges necessarily and properly incurred by the Contractor for the transfer of funds, required for the purposes of the work, from the head office or regularly established branch office bank account (whichever is nearer to the work) of the Contractor to a bank account which the Contractor has opened in the vicinity of the work (hereinafter called the "Work Account") including the re-transfer of any funds remaining upon the completion of the work in the work account to the head office or regularly established branch office bank account, provided that in order to keep such charges to a minimum the Contractor will, insofar as possible, deposit in the work account, to be used for the purposes of the work to be performed hereunder, the cheques issued by His Majesty to the Contractor as payment under the provisions hereof which cheques are payable at par at any branch of a chartered bank in the Dominion of Canada.

(Section (m)) Such other items of cost which have been properly and reasonably incurred by the Contractor solely for the purpose of the work and which have been recommended by the Indian Agent and approved

by the Minister provided that in addition to any other item which may not be allowed there shall not be allowed as an item of cost any of the following:-

- (1) Allowances for interest on invested capital, bonds debentures, bank or other loans.
- (2) Entertainment expenses.
- (3) Dues and other memberships other than regular trade associations.
- (4) Donations.
- (5) Losses on other contracts.
- (6) Losses from sale or exchange of capital assets.
- (7) Depreciation on buildings, machinery or equipment paid for by the Crown.
- (8) Fines and penalties.
- (9) Amortization of unrealized appreciation of values of assets.
- (10) Expenses, maintenance and/or depreciation of excess facilities.
- (11) Increase in reserves for contingencies, repairs, compensation insurance and guaranteed work.
- (12) Federal and Provincial income, excess profits or surtaxes.
- (13) Unreasonable compensation for officers and employees.
- (14) Bond discount or finance charges.
- (15) Premiums for life insurance on the lives of officers.
- (16) Legal and accounting fees in connection with re-organizations, security issued, or capital stock issues.
- (17) Losses on investments, bad debts and expenses of collection.
- (18) Advertising and selling expenses.

THIS AGREEMENT made in triplicate as of this

day of

, 19 .

BETWEEN:

HIS MAJESTY THE KING in right of Canada
(hereinafter called "His Majesty") herein
represented by the Honourable the Minister
of Mines and Resources (hereinafter called
"the Minister")

OF THE FIRST PART

- and -

MR. PETER MATTSO (hereinafter called "the
Contractor")

OF THE SECOND PART

WITNESSETH that it is agreed by and between the parties
hereto as follows:

SECTION 1.

CONTRACT AND INTERPRETATION

(a) The contract consists of the following:

- (i) this agreement
- (ii) the general conditions attached hereto,
and referred to as Schedule "B" (Cost
Plus Percentage Construction)
- (iii) the labour conditions attached hereto
- (iv) the definition of cost attached hereto
and marked Schedule "A"
- (v) all plans, drawings, specifications or
other documents or exhibits (if any)
attached hereto and initialled or other-
wise identified by the parties hereto,
or referred to herein as being a part
hereof

all of which shall be applicable to and shall form part of this
Contract and be binding upon the parties hereto as fully and to
the same extent as if set out or incorporated herein;

Contractor to cover such above-mentioned orders, the Contractor shall apply them so that the cash discounts thereon will be obtained. Provided always, however, that if His Majesty fails to provide funds to the Contractor to cover such orders or fails to pay for same as provided for above, the Contractor shall be entitled to the benefit of all cash discounts in respect of purchases made by it with its own funds of materials required for the carrying out of this contract. It is understood that His Majesty may supply the Contractor with materials or may make available to the Contractor funds with which to purchase materials required for the purposes of this contract and any and all materials or funds so supplied or made available shall be used by the Contractor solely for the purposes of this contract.

SECTION 5. LISTS OF MATERIALS AND EQUIPMENT SUPPLIERS

The Contractor shall, before placing any orders for any equipment or materials required for the performance of this contract submit to the Minister a list of the suppliers from which, and the price at which it proposes to purchase such materials or equipment, and the Contractor shall, if so directed by the Minister, purchase any or all of such materials or equipment from the same or from some other supplier or suppliers designated by the Minister, with which the Department of Mines and Resources may have made special arrangements for the supply thereof with respect to priorities in the delivery thereof.

SECTION 6. PAYMENTS

(a) As promptly as possible after the 1st day of each month during the prosecution of the work, the Contractor shall furnish to the Minister a certified statement or progress claim of the cost of the work (determined in accordance with Schedule "A") for the preceeding period, such statement to be accompanied by two copies of all payrolls, vouchers and invoices and such other information as the Minister may require and thereupon, if such statement is satisfactory to the Minister, the Contractor will be paid the amount which may be due within fifteen (15) days after such statement or progress claim has been received by the Minister;

(b) Payments shall be made only on the production and delivery by the Contractor to the Minister of a certificate in wiring signed by the Indian Agent and, if required by the Minister, by a cost accountant appointed or approved by the Minister, certifying the amount to which the contractor is entitled as aforesaid;

(c) The Contractor shall, when making his final requisition for payment furnish to the Indian Agent satisfactory

ARCHIVES PUBLIQUES
CANADA

(b) In this contract unless the context otherwise requires:

"Engineer" shall mean the Indian Agent of the Fort Resolution Agency, Indian Affairs Branch of the Department of Mines and Resources, having control over the work and shall extend to and include any of the officers or employees of the Department of Mines and Resources acting under the instructions of the Director of the Indian Affairs Branch, and all instructions and directions, or certificates given, or decisions made by any one acting for the Director of the Indian Affairs Branch, shall be subject to the approval of the Director of the Indian Affairs Branch, and may be cancelled, altered, modified and changed as the Director of the Indian Affairs Branch may see fit; Provided always, and it is hereby understood and agreed that any act on the part of the Director of the Indian Affairs Branch in connection with and in virtue of the present contract, and any instructions or directions or certificates given, or decisions made by the said Director of the Indian Affairs Branch, shall be subject to approval or modification or cancellation by the Minister.

"Minister" shall mean the Minister of Mines and Resources of Canada, and his successor for the time being in office and includes the Deputy Minister or any acting Deputy Minister, and any duly authorized representative of the Department of Mines and Resources.

SECTION 2.

SUBJECT MATTER

The Contractor covenants and agrees:

- (a) To erect a shall at Hay River in the Fort Resolution Agency, in the Northwest Territories, subject to the conditions mentioned in this contract, all of which is hereinafter referred to as "the work"
- (b) To provide all labour, materials, plant and equipment (except such materials as are included in the Government issue, if any) required for the proper completion of the work, and to perform all the work of and incidental thereto;
- (c) To provide an efficient administration for and to superintend efficiently the work at all times;
- (d) To perform and observe all covenants, terms, provisos and conditions contained in the contract on the part of the Contractor to be performed and observed;

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

ARCHIVES PUBLIQUES
CANADA

POOR COPY

(e) To carry out and perform the work with all possible despatch and to complete the work to the satisfaction of the Minister.

SECTION 3.

PRICE - COST PLUS PERCENTAGE

His Majesty covenants and agrees:

(a) To pay to the Contractor the cost of the work, as defined in Schedule "A" hereto attached which cost as so defined is hereinafter referred to as "the cost of the work".

(b) To pay to the Contractor a fee equal to fifteen per cent (15%) of the cost of the work payable in monthly payments bearing the same proportion to the total that the cost of the work done (as certified by the Indian Agent) during the month for which payment is claimed bears to the estimated cost of the work.

(c) It is understood that the "cost of the work" and the Contractor's fee will not exceed Thirty Two Thousand Dollars (\$32,000.00)

(d) The said fee referred to in subsections (b) and (c) hereof shall be deemed to cover the entire profit of the Contractor and the necessary services of all executive officers of the Contractor and also all overhead expenses of the Contractor at its general offices and at any regularly established branch office, including but without limiting the generality of the foregoing the services of the purchasing, accounting, estimating and contract departments at such general offices or regularly established branch office.

SECTION 4.

REFUNDS AND TRADE DISCOUNTS

The Contractor covenants and agrees to take advantage of any and all refunds and trade discounts and such refunds and trade discounts and any profits (save and except the fee payable to the Contractor as provided in Section 3 hereof) which may be received by the Contractor in any way in connection with the work shall be credited by the Contractor to His Majesty. It is understood and agreed, however, that the Contractor shall notify His Majesty immediately upon placing each order for material to be used in connection with the work upon which a cash discount will accrue, for the purpose of enabling His Majesty to take advantage of such cash discount, if His Majesty deems it advisable, by advancing funds to the Contractor to cover such above-mentioned orders or by paying for such orders out of funds set aside by His Majesty for that purpose, and upon His Majesty advancing such funds to the

ARCHIVES PUBLIQUES
CANADA

evidence, supported by a statutory declaration in form approved by the Minister establishing payment by the Contractor of the items listed in all preceeding requisitions and such other information as the Minister may require;

(d) The final payment shall not become due until the Indian Agent and, if required by the Minister, a cost accountant appointed or approved by the Minister, shall have issued a certificate that such payment is due and the Contractor shall have produced proof satisfactory to the Minister that no lien does or can exist against the work; in respect to materials, equipment or payment of wages;

(e) Five copies of all progress claims and summaries of invoices in connection with the work shall be rendered by the Contractor to the Indian Agent.

SECTION 7.

CONTRACTOR'S ADDRESS

The address of the Contractor for all purposes of and incidental to this contract is hereby declared to be

Mr. Peter Mattson,

Hay River, Northwest Territories.

SCHEDULE "B"

GENERAL CONDITIONS

(Cost Plus Percentage Construction)

INTERPRETATION

Unless the context otherwise requires,

(a) The term "the agreement" means the particular agreement or contract of which in each specific case, these general conditions are expressed to form a part;

(b) The terms "this contract" and "the contract" mean and include the agreement, these general conditions, the specifications and/or labour conditions referred to in the agreement or in these general conditions and all other schedules, exhibits or other documents (if any) annexed to the agreement or referred to therein as being part thereof. In the event of any inconsistencies, the provisions of the agreement and/or these general conditions shall prevail over the specifications and similarly the provisions of the agreement shall prevail over these general conditions;

(c) The words "herein", "hereby", "hereof", "hereunder", and similar expressions refer to the contract as a whole and not to any particular subdivision or part thereof;

(d) "Specifications" means any and all specifications, plans and/or drawings at any time furnished for the carrying out of this contract, including the specifications, plans and/or drawings (if any) referred to in the agreement;

(e) "Minister" means the Minister of Mines and Resources of Canada and his successor for the time being in office and includes the Deputy Minister and any Acting Deputy Minister and any duly authorized representative of the Department of Mines and Resources.

(f) "Engineer" shall mean the person designated in the agreement;

(g) "Work" means the work done or required to be done by the Contractor, and when the context permits, includes labour and materials shown or described in the specifications;

(h) The term "sub-contractor" includes a person, firm or corporation having a contract with the Contractor (other than contracts of hire for personal services) for the execution of a part or parts of the work and also a person, firm or corporation furnishing material to the Contractor in connection with the work;

(i) "Other Contractor" means any person, firm or corporation

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

employed by, or having a contract directly or indirectly with, the Minister otherwise than through the Contractor;

(j) "Government issue" means all materials, machinery, tools and/or equipment (if any) which may be supplied by His Majesty to the Contractor for the purposes of the work and includes also any specifications supplied to the Contractor for the said purposes, provided however, that the Contractor shall not be entitled to be supplied with any Government issue except as and to the extent (if any) specifically provided in the agreement;

(k) "Allied firm" means any firm, company or corporation which directly or indirectly controls or is controlled by or is affiliated with the Contractor, and includes any individual or individuals directly or indirectly controlling the Contractor or any such company or corporation as aforesaid;

(l) Any and all rights, powers, authorities and discretions herein, expressed to be conferred upon or vested in His Majesty may be exercised by the Minister (as defined herein) and/or any other person or persons duly authorized in that behalf;

(m) The singular number, where used herein, shall include the plural and vice versa and reference to persons shall include corporations and vice versa.

2. SUCCESSORS AND ASSIGNS

This contract shall enure to the benefit of all and shall be binding upon the heirs, executors, administrators or successors and assigns (subject as hereinafter provided) of the Contractor and the successors of His Majesty; provided that the Contractor shall not be entitled to assign or sublet this contract or any of the work except as herein expressly provided.

3. QUALITY

The work shall be performed by the Contractor using the best materials and finished in the best and most workmanlike manner, and in strict conformity with the contract, and to the complete satisfaction of the Indian Agent and the Minister, and at such places as the Indian Agent shall, from time to time, direct.

4. TIME

Time shall be deemed to be material and of the essence of this contract.

5. CHANGES IN THE WORK

The Minister may, through the Indian Agent from time to time, by

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

POUR COPIE

written instruction or drawings issued to the Contractor, make changes in the work, issued additional instructions, require additional work or direct the omission of work previously ordered, and the provisions of the contract shall apply to all such changes, modifications and additions with the same effect as if they were embodied in the contract plans, drawings and specifications.

Instructions shall be deemed to have been duly given to the Contractor if given to the Superintendent or to a foreman of the Contractor on the work, or if given to the Contractor personally or, if the Contractor is a firm or corporation, to a member of such firm or officer of such corporation.

If there is any change in the work, the Minister shall decide if there has been such a material increase or decrease in the scope of the work so that an adjustment should be made in the Contractor's fee and the Minister's decision on the adjustment to be made shall be final.

6. INDIAN AGENT SOLE JUDGE OF WORK AND MATERIALS

The Indian Agent shall be the sole judge of the work and material, in respect of both quality and quantity, and his decision on all questions in dispute with regard thereto, or as to the meaning or intention of the contract and as to the meaning or interpretation of the plans, drawings and specifications shall be final, and no work under the contract shall be deemed to have been performed, nor materials or things provided, so as to entitle the Contractor to payment therefor unless and until the Indian Agent is satisfied therewith, as evidenced by his certificate in writing, which certificate shall be a condition precedent to the right of the contractor to be paid therefor; provided that any such decision may be altered or cancelled by the Minister.

7. WORK SUBJECT TO CONTROL OF INDIAN AGENT

The work shall, in every particular, be under and subject to the control and supervision of the Indian Agent.

8. FOREMAN OF WORKS

A competent foreman shall be kept on the ground by the Contractor during working hours, to receive the orders of the Indian Agent. Such foreman shall be considered as the lawful representative of the Contractor and shall carry out all requisitions and instructions of the Indian Agent.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

9. DEFECTIVE WORK OR MATERIAL

Should the Contractor use or employ, or intend to use or employ, any material, plant, tools, equipment, articles or things, which in the opinion of the Indian Agent, are not in accordance with the provisions of the contract or are in any way unsuitable for the work, or any part thereof, or should the Indian Agent consider that any work is for any reason, improperly, defectively, or insufficiently executed or performed, the Indian Agent may order the Contractor to remove the same, and to use and employ proper material, plant, tools, equipment, articles and things or to properly re-execute and perform such work, as the case may be, and thereupon the Contractor shall immediately comply with such orders and if the Contractor fails to comply with such orders within twenty-four hours the Indian Agent may, at any time thereafter, execute or cause to be executed the orders so given.

10. CONSUMABLE TOOLS, MATERIALS AND SUPPLIES

All usable tools (other than tools customarily provided by tradesmen) and all consumable materials and supplies left over after the completion of the work shall, if the Minister so desires, be taken over and be paid for by the Contractor at a fair and reasonable price to be determined by the Minister.

11. WORK NOT COMPRISED IN CONTRACT

His Majesty may, at any time, without payment therefor, send and employ on, in and about the work other contractors, and workmen, with such horses, machinery, tools, plant, equipment, materials, articles and things as the Indian Agent may deem necessary to do any work not comprised in the contract, and the Contractor shall afford them all reasonable facilities, to the satisfaction of the Indian Agent, for doing such work, the work of the Contractor being interfered with as little as the Indian Agent may deem practicable.

The taking of possession of the whole or any part of the work of the Contractor for such purpose shall not be deemed in acceptance by or on behalf of His Majesty of the whole or any portion of the work comprised in this contract.

12. POWER TO TAKE WORK FROM CONTRACTOR

In case the Contractor shall make default or delay in commencing, or in diligently executing any of the work or portions thereof to be performed, or that may be ordered under the contract, to the satisfaction of the Indian Agent, the Indian Agent may give a general notice to the Contractor requiring him to put an end to such default

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

or delay, and should such default or delay continue for six days after such notice shall have been given by the Indian Agent to the Contractor, or should the Contractor make default in the completion of the work, or any portion thereof, within the time limited with respect thereto in or under this contract, or should the Contractor become insolvent or abandon the work or make an assignment of this contract without the consent required or otherwise fail to observe and perform any of the provisions of the contract, then and in any of such cases, the Minister, for and on behalf of His Majesty, and without any further authorization, may take all the work out of the Contractor's hands and may employ such means as he may see fit to complete the work, and in such cases the Contractor shall have no claim for any further payment on account of the fee stipulated to be payable to the Contractor or in respect of work performed, but shall be chargeable with, and shall remain liable for all loss and damage which may be suffered by His Majesty by reason of such default, or delay, or the non-completion by the Contractor of the work, and all horses, machinery, tools, plant and equipment, and all rights proprietary or otherwise, licences, powers and privileges, whether relating to or affecting real estate or personal property, acquired, possessed or provided by the Contractor for the purposes of the work, or by the Indian Agent under the provision of the contract may be used, exercised and enjoyed by His Majesty, for the purpose of carrying out the work as fully to all intents and purposes as they might theretofore have been used, exercised and enjoyed by the Contractor.

13. INSURANCE

(a) The Contractor, unless otherwise instructed by the Minister, shall insure all materials, equipment and Contractor's plant during transit and at all times during the construction and until the final acceptance of the work and shall keep the same and all buildings and structure being constructed and/or erected insured against loss by fire, in such insurance company or companies and in such amount or amounts as may be approved of by the Indian Agent and the policies of such insurance shall be made payable as the interests of the Contractor and His Majesty, may, respectively, appear, and the original policies together with certified copies thereof shall be forwarded to the Indian Affairs Branch; provided that such buildings or structures need not be insured by the Contractor from and after the date of the occupation thereof by His Majesty.

(b) The Contractor shall maintain such insurance as will protect him from claims under Workmen's Compensation Acts and from any other claims for damages for personal injury, including death, which may arise from his operations under the Contract. Certificates of such insurance shall be forwarded to the Indian Affairs Branch and shall be subject to their approval as to adequacy of protection; and the Contractor shall indemnify and save harmless His Majesty from and

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

ARCHIVES PUBLIQUES
CANADA

against all claims and demands, loss, costs, damages, actions suits or other proceedings by whomsoever made, brought or prosecuted in any manner based upon, occasioned by, or attributable to any such death, or injury, or any damage to, or infringement of, any property or right.

14. GOVERNMENT ISSUE

(a) All items comprised in any Government issue supplied to the Contractor for the purposes of the contract shall always be and remain the property of His Majesty and shall be used by the Contractor solely for the purposes of the Contract and the Contractor shall account fully to the Minister for such Government issue in such manner as the Minister may require.

(b) The Contractor shall be responsible for and shall indemnify His Majesty for all loss or damage of or to any and all such Government issue while on the premises of or in the care or subject to the control of the Contractor and shall at its own expense replace, repair or restore to the complete satisfaction of the Minister any and all such Government issue which may be so lost or damaged; provided that the Contractor shall not be obligated to make good damage caused by reasonable wear and tear or due to causes beyond his control.

15. PRECAUTIONS AGAINST FIRE

The Contractor shall take special precautions to prevent fire occurring in or about the work, and shall observe and comply with all laws and regulations in force respecting fires, and with all regulations and instructions made and given from time to time during construction, by the Indian Agent with respect to fires and the prevention and extinguishing of fires.

16. ASSIGNMENTS

The Contractor shall not assign or sublet the contract without the written consent of the Minister first obtained; provided however, that (unless, in any case, the Minister objects thereto and subject also as herein provided) the Contractor may sublet such portions of the work herein contracted for as is customary and usual in the construction of such work, but His Majesty shall not in any way be held liable for the payment of any moneys due to any sub-contractor, and the Contractor shall be held responsible for the proper performance of every portion of the work herein contracted for.

17. SUB-CONTRACTORS

The Contractor shall, before entering into any sub-contracts for work or materials, notify the Indian Agent in writing of the names

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

OUR COPY

of all such proposed sub-contractors and the terms and conditions of such sub-contracts and shall not enter into any such sub-contracts without obtaining the approval of the Indian Agent thereto.

The Indian Agent may, on request, furnish to any sub-contractor wherever practicable, evidence of the amounts certified to on his account.

The Contractor agrees to bind every sub-contractor by the terms of the General Conditions, Drawings and Specifications, as far as applicable to his work.

18. MEMBER OF H.OF C. NOT TO BENEFIT

No member of the House of Commons of Canada shall be admitted to any share or part of the contract, or to any benefit to arise therefrom.

19. ACCOUNTS

The Contractor shall keep proper accounts and records in such form and detail as shall be satisfactory to the Minister of the cost to the Contractor of the work and the invoices, receipts and vouchers relating thereto, and such accounts records, invoices, receipts and vouchers shall at all times be open to audit and inspection by the Minister or his authorized representatives (who may make copies thereof and take extracts therefrom) and the Contractor shall afford all proper facilities for such audits and inspections and shall furnish the Minister and his authorized representative with all such information as he or they may from time to time require with reference to such accounts, records, invoices, receipts and vouchers. If any part of the work is performed by an allied firm (as defined herein) the Contractor shall also cause such allied firm to keep similar accounts, records, invoices, receipts and vouchers with respect to the cost of the work performed by such allied firm, and to permit the same to be inspected and audited by the authorized representatives of the Minister. The Contractor shall cause all such accounts, records, invoices, receipts and vouchers as aforesaid to be preserved and kept available for audit and inspection at any time and from time to time until the expiration of five (5) years from the date of the termination of the work.

20. WORK TO BE FREE FROM ALL ENCUMBRANCES

Before making any payment on any progress or final estimate the Minister may require the Contractor to furnish evidence that all work performed, and material supplied and all structures built for which payment is being made are free and clear from all lawful claims

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

or liens under any law for labour, workmanship, materials or otherwise; the Contractor shall indemnify and hold harmless His Majesty from and against any and all kinds of claims or liens accruing from labour and services performed and material furnished or otherwise, and any of the same in or about the works.

21. PATENT CLAIMS AND ROYALTIES

(a) His Majesty shall indemnify the Contractor against all actions, claims or proceedings for infringement of any patent or industrial design rights or of any alleged patent or industrial design rights (hereinafter referred to as "patent rights") in carrying out his contract, and for royalties or other payments which may be payable in connection with any such patent rights (including any amounts properly payable by the Contractor to any of its sub-contractors pursuant to any similar covenant of indemnity given by the Contractor to any sub-contractor), in respect of anything the model, plan or design of which shall have been provided by or on behalf of His Majesty, but this indemnity shall apply to this contract only.

(b) Save and except as set forth in sub-section (a) of this section, the Contractor shall indemnify His Majesty against all actions, claims or proceedings for infringement of any patent rights and for royalties or other payments which may be payable in connection with any such patent rights in carrying out this contract.

(c) Before making any payments with respect to any patent rights, the Contractor shall supply to the Minister a statement showing all payments and claims for payment by way of royalties or otherwise which the Contractor or any of its sub-contractors will or may be obligated to make or proposes to make to the owner or holder of any patent rights in connection with this contract, and the basis thereof and the parties to whom the same are payable, and shall from time to time promptly advise the Minister of any and all claims or arrangements made or proposed, which would or might result in further or different payments being made by the Contractor or any of its sub-contractors by way of royalties or otherwise as aforesaid.

(d) If and when the Minister shall so direct, the Contractor shall make no payment by way of royalties or otherwise with respect to any patent rights referred to in any statement furnished by the Contractor as provided in sub-section (c) of this section, except with the consent of the Minister and subject to such conditions as the Minister may impose and from and after the giving of any such direction by the Minister, His Majesty shall indemnify the Contractor against any action, claim or proceeding for infringement

POOR COPY

of the patent rights covered by such direction or for non-payment of royalties or other payments in respect thereof.

22. SANITATION

The Contractor shall comply with, and the work shall be carried on subject to all regulations made by any lawful authority and applicable to said work, and all orders given by the Indian Agent with respect to sanitation or preservation of health on the work. The Contractor shall make adequate arrangements, to the satisfaction of the Indian Agent, for the medical and sanitary supervision of all his employees.

23. INDIAN AGENT'S MARKS

The Contractor shall protect, and shall not remove or destroy, or permit to be removed or destroyed, the stakes, buoys and other marks placed on or about the said work by the Indian Agent or his assistants, and shall furnish the necessary assistance to correct or replace any stake, buoy or mark which through any cause may have been removed or destroyed.

24. NOTICES

Any notice, order, direction or other communication given to the Contractor under any of the provisions of this contract shall be sufficiently given if delivered to the Contractor personally, or to his foreman, or left at the Contractor's office, or mailed at any post office to the Contractor or foreman addressed to the address mentioned in the contract, or to the Contractor's last known place of business or residence.

25. PROGRESS MEASUREMENTS AND CERTIFICATES NOT BINDING

The progress measurements and progress certificates shall not in any respect be taken as binding upon the Indian Agent or as final measurements or as fixing final amounts; they are to be subject to the revision of the Indian Agent in making up his final certificate, and they shall not in any respect be taken as an acceptance of the work or as a release of the Contractor from responsibility in respect thereof.

26. PROTECTION OF WORK

The contract and all information issued in connection therewith are confidential and their use must be strictly confined

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

to the work and to the purpose of the contract; and particulars contained therein; and other matter issued in connection therewith; must not be disclosed to unauthorized persons.

The Contractor shall at all times take and cause to be taken all reasonable measures, for the protection of the work against espionage and sabotage, and on the order of the Minister shall dispense with the services of any person employed in, about or upon the work or cause the same to be dispensed with. The Minister shall at all times through such agency as he may see fit be entitled to maintain on or about the premises where the work or any part thereof is being carried on such police or other protective force as in the opinion of the Minister may be advisable.

27. CANADIAN WORK AND MATERIALS

To the full extent that the same are procurable, only Canadian labour, parts and materials (unless otherwise agreed by the Minister) shall be used in connection with the work.

27a. EMPLOYMENT OF EX-SERVICE MEN

In engaging labour for the work contemplated by this contract, either from the National Employment Service or from Trade Unions with which the contractor has collective agreements, the contractor shall specify that preference shall be given to competent and available ex-service men.

The contractor shall maintain and keep available for inspection by the Minister a record of the names and addresses of ex-service men employed, together with a record of the steps taken to implement this requirement.

28. SALARIES

The salaries payable to engineers, superintendents, draftsmen and foremen shall only be such as shall be approved by the Minister.

29. TERMINATION

(a) Notwithstanding anything in this contract contained the Minister may, by giving notice to the Contractor, terminate the contract (save and except the provisions of this section and of section 19 of these general conditions) as regards all or any part or parts of the work or works not theretofore completed. Upon such notice being given, the Contractor shall cease work (including the procuring of materials for the fulfilment of the contract) in accordance with and to the extent specified in such notice but shall

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

proceed with all reasonable speed to complete such part or parts (if any) of the work or works as are by the terms of such notice to be completed and shall also proceed with all reasonable speed to complete up to such time and/or stage as may be specified in the notice any part or parts of the work or works as required by such notice. The Minister may, at any time, or from time to time give one or more additional notices with respect to any or all parts of the work which remain to be completed after the giving of any previous notice or notices.

(b) All work completed by the Contractor under or pursuant to the provisions of the contract before or after the giving of any notice, subject to acceptance by His Majesty in accordance with the provisions of the contract, shall be paid for on the basis provided in the agreement (the Contractor being allowed such fraction of his stipulated fee as shall be proportionate to the amount of the work theretofore completed) and the Contractor shall be entitled to be reimbursed the actual cost to the contractor of work not completed under or pursuant to the provisions of this contract and/or any notice given pursuant thereto plus a fair and reasonable profit in respect of work done thereon, provided that no reimbursement shall be made for materials which have been or may be rejected after inspection as not complying with the terms and conditions of this contract and the specifications.

(c) In the event that the Contractor and the Minister are unable to agree upon the amount in respect of which the Contractor is entitled to be reimbursed as aforesaid, the matter shall be referred to the Exchequer Court.

(d) Whenever practicable the Contractor shall procure materials required for the performance of the contract on terms that will enable it to terminate any contracts entered into by the Contractor upon conditions and terms similar in effect to those herein provided for in respect to termination by the Minister and the giving of a notice or notices as aforesaid; and generally the Contractor shall co-operate with His Majesty and the Minister and do everything reasonably within its power at all times to minimize and reduce the amount of His Majesty's obligations under the provisions of this section.

(e) Upon reimbursement being made to the Contractor as herein provided, title to the materials and/or work in progress in respect of which such reimbursement is made shall pass to and vest in His Majesty (the Contractor hereby agreeing to execute and deliver all requisite instruments by way of further assurance) and such materials and/or work in progress shall be delivered to the order of the Minister, but the materials thus taken over will in no case be in excess of what would have been required for performing the contract in full if no notice had been given under the provisions hereof.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

(f) If it is established to the satisfaction of the Minister by the Contractor that by reason of any action taken by the Minister under the provisions of this section exceptional hardship has resulted to the Contractor then the Minister may, notwithstanding any other provisions of this section, in his absolute discretion grant such allowance (not to include in any case, however, any allowance or compensation for loss or profit) to the Contractor as, in the opinion of the Minister is warranted by the circumstances.

(g) Any action, decision or determination by the Minister under the provisions of this section shall be final and binding upon the Contractor.

(h) The Contractor shall have no claim for damages, compensation loss of profit, allowance or otherwise by reason of or directly or indirectly arising out of any action taken or notice given by the Minister under or pursuant to the provisions of this section except as and to the extent in this section expressly provided.

(i) The right of termination and of giving notice hereinbefore provided shall be in addition to and not in substitution for any other right possessed by His Majesty and/or the Minister.

30. LABOUR CONDITIONS

The Contractor shall comply with and be subject to all the terms and conditions of the Labour Conditions (if any) referred to in the agreement and to all variations and modifications thereof that may at any time be enacted or brought into force during the continuance of the contract.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

SCHEDULE "A"

Definition of work

The 'cost of the work' shall mean and include the reasonable and proper costs and expenses incurred or paid by the Contractor (except with respect to the provisions of Section (j) for the following items only:

Section (a) The total amount actually and properly payable to sub-contractors in connection with the work;

Section (b) Wages of workmen and salaries of engineers, superintendents, draftsmen, foremen, clerical staff, time-keepers and watchmen actually and properly engaged on the work;

Section (c) Cost of materials actually used in the work or required in connection therewith (with the exception of the Government issue) and not included under Section (a) of this Schedule "A";

Section (d) Costs actually and properly incurred for inspection, delivery, installation and removal of materials, plant, tools, and supplies used in connection with the work, it being understood that minimum transportation rates are to be taken advantage of wherever possible;

Section (e) Costs of renting, erecting, maintaining and removing temporary offices, sheds and similar structures actually and necessarily required in connection with the work;

Section (f) Travelling expenses actually and, in the opinion of the Minister, necessarily incurred, in connection with the work;

Section (g) Cost of maintaining and operating the Contractor's plant and equipment actually and properly used in connection with the work and of effecting such repairs thereto as in the opinion of the Indian Agent are necessary for the proper execution of the work inclusive of any repairs which may be necessary because of defects in the plant and equipment when brought to the work;

(Section (h)) Assessments under any Workmen's Compensation Act, employer's contribution to Unemployment Insurance (if any), premiums actually and properly payable in respect of all insurance policies and bonds, if any, called for by the contract or ordered by the Minister, all royalties actually and properly payable for the use of any patented invention, all fees actually and properly paid for building permits;

Section (i) The cost of all consumable materials, supplies and tools (other than tools customarily provided by tradesmen) actually and properly used in connection with the work;

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

ARCHIVES PUBLIQUES
CANADA

POOR-COPY

Section (j) Rental for such power-driven or other plant owned by the Contractor or an allied firm as are actually and properly used in connection with the work or kept in readiness on the work upon the recommendation of the Indian Agent and with the approval of the Minister during the month in respect of which claim for such rental is made, provided that if any of the said items shall be used or kept in readiness as aforesaid for less than a full month then the Contractor shall be paid the pro rata amount thereof; as and when it is decided what items of plant are necessary for completion of the work. Any item of plant which has been brought to the work shall be deemed to be kept in readiness on the work, notwithstanding that such item of plant may be undergoing repairs, provided that the Indian Agent is of opinion that such repairs are required for the proper execution of the work and have not been rendered necessary because of any defect which existed in such item of plant when brought to the work, and provided also that if the time required to effect such repairs exceeds one month, no rental shall be paid for the time in excess of one month.

Section (k) Amounts actually and properly payable by the Contractor for the rental of power-driven or other plant (not owned by the Contractor or by an allied firm) rented by the Contractor for the purposes of the work, including ordinary maintenance and operating repairs thereof; provided that the Contractor shall previously have advised the Indian Agent that the renting of such plant is necessary to expedite the performance and completion of the work, and provided further that the renting of such plant and the amount of the rental thereof shall have been recommended by the Indian Agent and approved by the Minister for the month or months in respect of which payment of such rental is sought by the Contractor;

(Section (l)) Bank charges necessarily and properly incurred by the Contractor for the transfer of funds, required for the purposes of the work, from the head office or regularly established branch office bank account (whichever is nearer to the work) of the Contractor to a bank account which the Contractor has opened in the vicinity of the work (hereinafter called the "Work Account") including the re-transfer of any funds remaining upon the completion of the work in the work account to the head office or regularly established branch office bank account, provided that in order to keep such charges to a minimum the Contractor will, insofar as possible, deposit in the work account, to be used for the purposes of the work to be performed hereunder, the cheques issued by His Majesty to the Contractor as payment under the provisions hereof which cheques are payable at par at any branch of a chartered bank in the Dominion of Canada.

(Section (m)) Such other items of cost which have been properly and reasonably incurred by the Contractor solely for the purpose of the work and which have been recommended by the Indian Agent and approved

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

by the Minister provided that in addition to any other item which may not be allowed there shall not be allowed as an item of cost any of the following:-

- (1) Allowances for interest on invested capital, bonds debentures, bank or other loans.
- (2) Entertainment expenses.
- (3) Dues and other memberships other than regular trade associations.
- (4) Donations.
- (5) Losses on other contracts.
- (6) Losses from sale or exchange of capital assets.
- (7) Depreciation on buildings, machinery or equipment paid for by the Crown.
- (8) Fines and penalties.
- (9) Amortization of unrealized appreciation of values of assets.
- (10) Expenses, maintenance and/or depreciation of excess facilities.
- (11) Increase in reserves for contingencies, repairs, compensation insurance and guaranteed work.
- (12) Federal and Provincial income, excess profits or surtaxes.
- (13) Unreasonable compensation for officers and employees.
- (14) Bond discount or finance charges.
- (15) Premiums for life insurance on the lives of officers.
- (16) Legal and accounting fees in connection with re-organizations, security issued, or capital stock issues.
- (17) Losses on investments, bad debts and expenses of collection.
- (18) Advertising and selling expenses.

Dear Sir:-

The contract for the erection of a day school at Hay River has been let to Mr. Peter Matson.

However, we will keep you in mind for the shipping in of school supplies, etc., when the building is completed.

Yours sincerely,

Bernard F. Neary
Supt. of Welfare & Training.

Ottawa, October 31, 1947.

Memorandum:

Mr. R. A. GIBSON,
Northwest Territories & Yukon Administration.

Principal's Residence and Electrical
and heating building
Hay River, Northwest Territories.

We have now received the blue prints of the proposed piling and foundation details for the above buildings, together with four copies of specifications for reinforced concrete work entailed in the design. Architectural drawings and specifications are in the course of preparation by the Surveys and Engineering Branch while the water supply and sewage disposal is also under study.

Could you please advise me if you have anyone at Hay River who could supervise the sinking of these piles as was discussed at a recent meeting of the Sub-committee on Education in the Northwest Territories.

POOR COPY

ELECTRICAL AND FURNACE BUILDING

HAY RIVER, N.W.T.

ABRIDGED SPECIFICATIONS FOR
REINFORCED CONCRETE WORK

EXTENT

The contractor shall construct all plain and reinforced concrete work, including all beams and slabs required for the proper completion of the structure in accordance with and to the full extent of drawings and specifications.

MATERIAL

Cement All cements used shall be Portland cement, provided that special cements may be used with the permission of the Chief Engineer, or his representative. Portland cement shall comply with the requirement of C.E.S.A. Specifications A5-1940.

High Early Strength Cement High Early Strength Cement shall comply with C.E.S.A. Specification A.57-1940.

AGGREGATES

(a) Fine Aggregate Fine aggregate shall consist of sand having clean, hard, durable, uncoated grains, free from deleterious substances, and shall range in size from fine to coarse within the following percentages by weight:

Passing No.	4 Sieve.....	95 - 100 per cent.
Passing No.	16 Sieve.....	45 - 70 per cent.
Passing No.	50 Sieve.....	15 - 30 per cent.
Passing No.	100 Sieve.....	3 - 8 per cent.
Volume removed by sedimentation - not more than		3 per cent.

Not more than 35 per cent shall pass a standard size sieve and be retained on next smaller standard sieve.

(b) Coarse Aggregate Coarse aggregate shall consist of crushed stone, gravel or other approved inert materials with similar characteristics or combination thereof, having clean, hard, durable, uncoated particles free from deleterious matter. After acceptance of a grading, a variation in the amount passing any sieve size of more than 10 per cent of the total will not be permitted. The grading shall be within the following percentages, by weight:

Passing a	1-in Sieve.....	95 - 100 per cent.
Passing a	3/4-in Sieve.....	35 - 70 per cent.
Passing a	3/8-in Sieve.....	10 - 30 per cent.
Passing a	No.4 Sieve.....	0 - 5 per cent.

(c) Admixtures Admixture may be used only in concrete with the approval of the Chief Engineer, or his representative, based upon evidence that the compressive strength of the concrete will not be reduced more than 10 per cent by the uses of such admixtures.

WATER

Water for concrete shall be clean and free from injurious amounts of oil, acid, alkali, organic matter, or other deleterious substances.

METAL REINFORCEMENT

All steel used as reinforcement shall comply with the requirements of C.E.S.A. Specification G.30-1938 for Billet-Steel Concrete Reinforcement Bars, or C.E.S.A. Specification G.31-1938 for Rail-Steel Concrete Reinforcement Bars. Hard Grade billet-steel or rail-steel shall not be used for stirrups, column or beam ties.

CONCRETE PROPORTIONS

Ordinary Concrete In ordinary concrete the water content per 87-1/2 lbs. sack of cement, and based on a compressive strength at 28 days for 2500 lbs. concrete shall not exceed 5.10 Imperial gallons.

Allowance shall be made for surface water present in the aggregate when computing the water content. In the absence of more exact determination, the amount of surface water may be estimated from the value given in the following:

AGGREGATE

APPROXIMATE QUANTITY OF SURFACE WATER

Very wet sand.....	3/4 gal. per cu. ft.
Moderately wet sand.....	1/2 " " "
Moist sand.....	1/4 " " "
Moist gravel or crushed rock.....	1/8 to 1/4 gal. per cu. ft.

Consistency and Aggregate Content In all concrete the proportions of fine and coarse aggregate and cement shall be such as to produce a mixture which will work readily into the corners and angles of the forms and around reinforcement with the method of placing employed on the work, but without permitting the material to segregate or excess free water to collect on the surface. The volume of coarse aggregate shall not be less than the volume of fine aggregate and not more than twice the volume of fine aggregate. These proportions do not necessarily apply to light-weight aggregates.

During the progress of the work, compressive tests shall be made when required by the Chief Engineer, or his representative.

The tests shall be carried out in accordance with C.E.S.A. Specification A.23-1942, Appendix VII "Method of Making and Storing Specimens of Concrete in the Field". The standard age of test shall be 28 days, but 7-day tests may be used provided the relation between the 7 and 28-day strength of the concrete is established by test for the materials and proportions used.

In all cases where the average strength of the test specimens falls below the required strength, the Chief Engineer, or his representative, shall have the right to order a change in the mix for the remaining portion of the structure. When conditions are such as to leave reasonable doubt as to the adequacy of the concrete for the purpose for which it is intended the Chief Engineer, or his representative shall have the right to order load tests to be made on the portion of the structure so affected.

The cost of all tests shall be borne by the Contractor.

Where cylinder tests are not called for the following quantities of fine and coarse aggregates in cubic feet are to be used per sack of cement measured dry.

Sum of separate volumes of fine and coarse aggregate in cubic feet measured dry per sack of cement:-

Assumed Compressive
Strength at 28 days

2,500

Plastic Concrete
Slump 0-4"

4-1/3

Moderately Wet
Concrete, Slump 5-7"

4

MIXING CONCRETE

(a) The mixing of concrete, unless otherwise authorized by the Chief Engineer, or his representative, shall be done in a mechanical batch mixer. The mixer shall be equipped with a suitable charging hopper, water storage and water measuring device. It shall be cleaned at frequent intervals when in use and maintained in such a condition that the mixing action will be unimpaired.

(b) Machine Mixing at the Site The mixing of each batch shall continue until there is a uniform distribution of material and the mass is uniform in colour and consistency. In no case shall the mixing time be less than two minutes after all the materials are put into the mixer.

(c) Ready Mixed Concrete Ready mixed concrete shall be proportioned, mixed and delivered in accordance with the requirements of C.E.S.A. Specification C.94-1938, "Specification for Ready Mixed Concrete".

(d) Hand Mixing When hand mixing is permitted by the Chief Engineer, or his representative, 10 per cent extra cement shall be used. Hand mixing shall be carried out on a water-tight platform and great care shall be taken to ensure that the mixing is continued until the mass is uniform in colour and consistency.

PLACING CONCRETE

(a) Conveying Concrete shall be conveyed from the mixer to the place of final deposit by methods which will prevent the separation or loss of materials.

(b) Depositing Concrete shall be deposited as nearly as possible in its final position to avoid rehandling. Concreting shall be carried on as a continuous operation until the panel, section, or other unit of the operation is complete. The top surface shall be generally level. When construction joints are necessary they shall be made in accordance with Item "Construction Joints".

(c) Compacting All concrete shall be properly compacted by suitable means during the operation of placing, and shall be thoroughly worked around reinforcement, around embedded fixtures, and into the corners of the forms.

(d) Re-tempering of Concrete The re-tempering of concrete that has partially hardened, that is, remixing with or without additional cement, aggregate, or water, will not be permitted.

CURING OF CONCRETE

After concrete has set sufficiently, its exposed surfaces shall be kept continuously wet. This shall continue for a period of at least 7 days after the concrete is deposited. In warm weather particular care shall be taken to prevent drying out of the concrete at any time during the curing period.

COLD WEATHER REQUIREMENTS

(a) Adequate equipment shall be provided for heating the concrete materials and protecting the concrete during freezing, or near freezing weather. No frozen materials, or other materials containing ice shall be used.

(b) All concrete materials and all reinforcement, forms, fillers and ground with which the concrete is to come in contact, shall be free from frost.

POOR COPY

(c) Concrete mixed and deposited when the temperature of the surrounding air is 40°F. or lower shall have a temperature of not less than 50°F. nor more than 90°F. Effective means shall be provided for maintaining the temperature of the concrete at not less than 50°F. nor more than 80°F. for at least 72 hours after placing. Whenever the atmospheric temperature is less than 50°F. a continuous record of the atmospheric temperatures in the vicinity of the concrete shall be kept. The housing, covering, or other protection used in connection with the curing shall remain in place and intact at least 24 hours after artificial heating is discontinued. No dependence shall be placed on salt or other chemicals for the prevention of freezing. Manure, when used for protection, shall not be allowed to come into contact with the concrete.

FORMS

Forms shall conform to the shape, lines and dimensions of the members, as called for on the plan, and shall be substantial and sufficiently tight to prevent leakage of mortar. They shall be properly braced or tied together so that they will maintain their position and shape. Care shall be taken to ensure that forms do not become dried and warped before concrete is deposited. Temporary openings shall be provided at base of column and wall forms and other places where necessary to facilitate cleaning and inspection. These openings shall be so placed that water for removing debris shall have a clear run to the outside of the forms. Bolts and rods used for internal ties shall be so arranged that when the forms are removed there shall be no metal within one inch of any surface. Wire ties will be permitted on unimportant work; they shall not be used through surfaces where discolouration will be objectionable.

WOOD FORMS

Wood forms for exposed surfaces shall be built of lumber dressed to a uniform width and thickness and free from loose knots and other defects. Joints shall be horizontal, or vertical. For unexposed surfaces, plastered surfaces and rough work undressed lumber may be used. Lumber once used in forms shall have the nails withdrawn and surfaces to be in contact with concrete thoroughly cleaned before being reused.

REMOVAL OF FORMS

Forms shall be removed in such manner as to ensure the complete safety of the structure. When the structure as a whole is supported on shores, the removable floor forms, beam and girder sides, column and similar vertical forms may be removed after twenty-four hours, providing the concrete is sufficiently hard not to be injured thereby. In no case shall the supporting forms or shoring be removed until the members have acquired sufficient strength to support safely their weight and the load thereon.

BOLTS, ANCHORS, ETC.

Build into concrete all bolts, anchors, etc., sleeves, pipes, etc., shown on concrete work.

REINFORCEMENT

Reinforcement before being placed shall be clean and free from coatings, including ice, that would tend to reduce the bond. Where there is delay in depositing concrete, reinforcement shall be reinspected and cleaned when necessary.

Reinforcement shall be accurately formed, to the dimensions indicated on drawings. Stirrups, column ties and beam ties, under 3/4 inch size, shall be bent around a pin having a diameter not less than twice the size of the bar for bends up to 90 degrees, nor less than three times the size of the bar for bends between 90 and 180 degrees. Where stirrups and ties are 3/4 inch in size and over the corresponding minimum pin diameters shall be three times and four times the bar size respectively. Except in standard hooks, other bars of structural or intermediate grade shall be bent around a pin having a diameter not less than 12 times the size of the bar. Bars of hard grade or rail steel shall be bent around a pin having a diameter not less than 12 times the size of the bar.

Reinforcement shall not be straightened or rebent in a manner that will injure the material. Bars with kinks, or bends, not shown on the drawing, shall not be used. Heating of the reinforcement will be permitted only when the entire operation is approved by the Chief Engineer, or his representative.

Reinforcement shall be accurately placed and secured against displacement by using annealed iron wire ties, or suitable clips at intersections, and shall be supported by concrete or metal supports, spacers, or metal hangers. Brick, wood, gypsum, tile or other similar materials shall not be used to support reinforcement. When it is necessary to splice reinforcement at points other than shown on the drawings, the character of the splice shall be approved by the Chief Engineer, or his representative.

Exposed reinforcement intended for bonding with future extensions shall be effectively protected from corrosion.

All reinforcement shall be placed so that its distance from the nearest face of the concrete shall not be less than that shown on the drawings.

CONSTRUCTION JOINTS

Joints not indicated on the drawings shall be so made and located as to least impair the strength and appearance of the structure, and shall be subject to the approval of the Chief Engineer or his representative. Construction joints in columns shall be located at the underside of floor members. At least two hours shall elapse after depositing concrete in columns before depositing concrete in the floor system.

Construction joints in floors shall be located near the middle of slabs, beams or girders, unless a beam intersects a girder at this point, in which case the joints in the girder shall be offset a distance twice the depth of the beam.

Where a joint is to be made, the surface of the concrete shall be thoroughly cleaned and all laitance removed. In addition to the foregoing, vertical joints shall be thoroughly wetted, but not saturated, and slushed with a coat of neat cement grout immediately before placing new concrete.

FLOOR FINISH

Floor, curb and exterior face of concrete shall be trowelled to a smooth even surface.

REINFORCED CONCRETE SPECIFICATIONS

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

ELECTRICAL AND FURNACE BUILDING

HAY RIVER, N.W.T.

ABRIDGED SPECIFICATIONS FOR
REINFORCED CONCRETE WORK

EXTENT

The contractor shall construct all plain and reinforced concrete work, including all beams and slabs required for the proper completion of the structure in accordance with and to the full extent of drawings and specifications.

MATERIAL

Cement All cements used shall be Portland cement, provided that special cements may be used with the permission of the Chief Engineer, or his representative. Portland cement shall comply with the requirement of C.E.S.A. Specifications A5-1940.

High Early Strength Cement High Early Strength Cement shall comply with C.E.S.A. Specification A.57-1940.

AGGREGATES

(a) Fine Aggregate Fine aggregate shall consist of sand having clean, hard, durable, uncoated grains, free from deleterious substances, and shall range in size from fine to coarse within the following percentages by weight:

Passing No.	4 Sieve.....	.95	- 100 per cent.
Passing No.	16 Sieve.....	.45	- 70 per cent.
Passing No.	50 Sieve.....	.15	- 30 per cent.
Passing No.	100 Sieve.....	3	- 8 per cent.
Volume removed by sedimentation - not more than			3 per cent.

Not more than 35 per cent shall pass a standard size sieve and be retained on next smaller standard sieve.

(b) Coarse Aggregate Coarse aggregate shall consist of crushed stone, gravel or other approved inert materials with similar characteristics or combination thereof, having clean, hard, durable, uncoated particles free from deleterious matter. After acceptance of a grading, a variation in the amount passing any sieve size of more than 10 per cent of the total will not be permitted. The grading shall be within the following percentages, by weight:

Passing a	1-in Sieve.....	.95	- 100 per cent.
Passing a	3/4-in Sieve.....	.35	- 70 per cent.
Passing a	3/8-in Sieve.....	.10	- 30 per cent.
Passing a	No.4 Sieve.....	0	- 5 per cent.

(c) Admixtures Admixture may be used only in concrete with the approval of the Chief Engineer, or his representative, based upon evidence that the compressive strength of the concrete will not be reduced more than 10 per cent by the uses of such admixtures.

WATER

Water for concrete shall be clean and free from injurious amounts of oil, acid, alkali, organic matter, or other deleterious substances.

METAL REINFORCEMENT

All steel used as reinforcement shall comply with the requirements of C.E.S.A. Specification G.30-1938 for Billet-Steel Concrete Reinforcement Bars, or C.E.S.A. Specification G.31-1938 for Rail-Steel Concrete Reinforcement Bars. Hard Grade billet-steel or rail-steel shall not be used for stirrups, column or beam ties.

CONCRETE PROPORTIONS

Ordinary Concrete In ordinary concrete the water content per 87-1/2 lbs. sack of cement, and based on a compressive strength at 28 days for 2500 lbs. concrete shall not exceed 5.10 Imperial gallons.

Allowance shall be made for surface water present in the aggregate when computing the water content. In the absence of more exact determination, the amount of surface water may be estimated from the value given in the following:

AGGREGATE

APPROXIMATE QUANTITY OF SURFACE WATER

Very wet sand.....	3/4 gal. per cu. ft.
Moderately wet sand.....	1/2 " " "
Moist sand.....	1/4 " " "
Moist gravel or crushed rock.....	1/8 to 1/4 gal. per cu. ft.

Consistency and Aggregate Content In all concrete the proportions of fine and coarse aggregate and cement shall be such as to produce a mixture which will work readily into the corners and angles of the forms and around reinforcement with the method of placing employed on the work, but without permitting the material to segregate or excess free water to collect on the surface. The volume of coarse aggregate shall not be less than the volume of fine aggregate and not more than twice the volume of fine aggregate. These proportions do not necessarily apply to light-weight aggregates.

During the progress of the work, compressive tests shall be made when required by the Chief Engineer, or his representative.

The tests shall be carried out in accordance with C.E.S.A. Specification A.23-1942, Appendix VII "Method of Making and Storing Specimens of Concrete in the Field". The standard age of test shall be 28 days, but 7-day tests may be used provided the relation between the 7 and 28-day strength of the concrete is established by test for the materials and proportions used.

In all cases where the average strength of the test specimens falls below the required strength, the Chief Engineer, or his representative, shall have the right to order a change in the mix for the remaining portion of the structure. When conditions are such as to leave reasonable doubt as to the adequacy of the concrete for the purpose for which it is intended the Chief Engineer, or his representative shall have the right to order load tests to be made on the portion of the structure so affected.

The cost of all tests shall be borne by the Contractor.

Where cylinder tests are not called for the following quantities of fine and coarse aggregates in cubic feet are to be used per sack of cement measured dry.

Sum of separate volumes of fine and coarse aggregate in cubic feet measured dry per sack of cement:-

Assumed Compressive
Strength at 28 days

2,500

Plastic Concrete
Slump 0-4"

4-1/3

Moderately Wet
Concrete, Slump 5-7"

4

MIXING CONCRETE

(a) The mixing of concrete, unless otherwise authorized by the Chief Engineer, or his representative, shall be done in a mechanical batch mixer. The mixer shall be equipped with a suitable charging hopper, water storage and water measuring device. It shall be cleaned at frequent intervals when in use and maintained in such a condition that the mixing action will be unimpaired.

(b) Machine Mixing at the Site The mixing of each batch shall continue until there is a uniform distribution of material and the mass is uniform in colour and consistency. In no case shall the mixing time be less than two minutes after all the materials are put into the mixer.

(c) Ready Mixed Concrete Ready mixed concrete shall be proportioned, mixed and delivered in accordance with the requirements of C.E.S.A. Specification C.94-1938, "Specification for Ready Mixed Concrete".

(d) Hand Mixing When hand mixing is permitted by the Chief Engineer, or his representative, 10 per cent extra cement shall be used. Hand mixing shall be carried out on a water-tight platform and great care shall be taken to ensure that the mixing is continued until the mass is uniform in colour and consistency.

PLACING CONCRETE

(a) Conveying Concrete shall be conveyed from the mixer to the place of final deposit by methods which will prevent the separation or loss of materials.

(b) Depositing Concrete shall be deposited as nearly as possible in its final position to avoid rehandling. Concreting shall be carried on as a continuous operation until the panel, section, or other unit of the operation is complete. The top surface shall be generally level. When construction joints are necessary they shall be made in accordance with Item "Construction Joints".

(c) Compacting All concrete shall be properly compacted by suitable means during the operation of placing, and shall be thoroughly worked around reinforcement, around embedded fixtures, and into the corners of the forms.

(d) Re-tempering of Concrete The re-tempering of concrete that has partially hardened, that is, remixing with or without additional cement, aggregate, or water, will not be permitted.

CURING OF CONCRETE

After concrete has set sufficiently, its exposed surfaces shall be kept continuously wet. This shall continue for a period of at least 7 days after the concrete is deposited. In warm weather particular care shall be taken to prevent drying out of the concrete at any time during the curing period.

COLD WEATHER REQUIREMENTS

(a) Adequate equipment shall be provided for heating the concrete materials and protecting the concrete during freezing, or near freezing weather. No frozen materials, or other materials containing ice shall be used.

(b) All concrete materials and all reinforcement, forms, fillers and ground with which the concrete is to come in contact, shall be free from frost.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

(c) Concrete mixed and deposited when the temperature of the surrounding air is 40°F. or lower shall have a temperature of not less than 50°F. nor more than 90°F. Effective means shall be provided for maintaining the temperature of the concrete at not less than 50°F. nor more than 80°F. for at least 72 hours after placing. Whenever the atmospheric temperature is less than 50°F. a continuous record of the atmospheric temperatures in the vicinity of the concrete shall be kept. The housing, covering, or other protection used in connection with the curing shall remain in place and intact at least 24 hours after artificial heating is discontinued. No dependence shall be placed on salt or other chemicals for the prevention of freezing. Manure, when used for protection, shall not be allowed to come into contact with the concrete.

FORMS

Forms shall conform to the shape, lines and dimensions of the members, as called for on the plan, and shall be substantial and sufficiently tight to prevent leakage of mortar. They shall be properly braced or tied together so that they will maintain their position and shape. Care shall be taken to ensure that forms do not become dried and warped before concrete is deposited. Temporary openings shall be provided at base of column and wall forms and other places where necessary to facilitate cleaning and inspection. These openings shall be so placed that water for removing debris shall have a clear run to the outside of the forms. Bolts and rods used for internal ties shall be so arranged that when the forms are removed there shall be no metal within one inch of any surface. Wire ties will be permitted on unimportant work; they shall not be used through surfaces where discolouration will be objectionable.

WOOD FORMS

Wood forms for exposed surfaces shall be built of lumber dressed to a uniform width and thickness and free from loose knots and other defects. Joints shall be horizontal, or vertical. For unexposed surfaces, plastered surfaces and rough work undressed lumber may be used. Lumber once used in forms shall have the nails withdrawn and surfaces to be in contact with concrete thoroughly cleaned before being reused.

REMOVAL OF FORMS

Forms shall be removed in such manner as to ensure the complete safety of the structure. When the structure as a whole is supported on shores, the removable floor forms, beam and girder sides, column and similar vertical forms may be removed after twenty-four hours, providing the concrete is sufficiently hard not to be injured thereby. In no case shall the supporting forms or shoring be removed until the members have acquired sufficient strength to support safely their weight and the load thereon.

BOLTS, ANCHORS, ETC.

Build into concrete all bolts, anchors, etc., sleeves, pipes, etc., shown on concrete work.

REINFORCEMENT

Reinforcement before being placed shall be clean and free from coatings, including ice, that would tend to reduce the bond. Where there is delay in depositing concrete, reinforcement shall be reinspected and cleaned when necessary.

POOR-COPY

Reinforcement shall be accurately formed, to the dimensions indicated on drawings. Stirrups, column ties and beam ties, under 3/4 inch size, shall be bent around a pin having a diameter not less than twice the size of the bar for bends up to 90 degrees, nor less than three times the size of the bar for bends between 90 and 180 degrees. Where stirrups and ties are 3/4 inch in size and over the corresponding minimum pin diameters shall be three times and four times the bar size respectively. Except in standard hooks, other bars of structural or intermediate grade shall be bent around a pin having a diameter not less than 12 times the size of the bar. Bars of hard grade or rail steel shall be bent around a pin having a diameter not less than 12 times the size of the bar.

Reinforcement shall not be straightened or rebent in a manner that will injure the material. Bars with kinks, or bends, not shown on the drawing, shall not be used. Heating of the reinforcement will be permitted only when the entire operation is approved by the Chief Engineer, or his representative.

Reinforcement shall be accurately placed and secured against displacement by using annealed iron wire ties, or suitable clips at intersections, and shall be supported by concrete or metal supports, spacers, or metal hangers. Brick, wood, gypsum, tile or other similar materials shall not be used to support reinforcement. When it is necessary to splice reinforcement at points other than shown on the drawings, the character of the splice shall be approved by the Chief Engineer, or his representative.

Exposed reinforcement intended for bonding with future extensions shall be effectively protected from corrosion.

All reinforcement shall be placed so that its distance from the nearest face of the concrete shall not be less than that shown on the drawings.

CONSTRUCTION JOINTS

Joints not indicated on the drawings shall be so made and located as to least impair the strength and appearance of the structure, and shall be subject to the approval of the Chief Engineer or his representative. Construction joints in columns shall be located at the underside of floor members. At least two hours shall elapse after depositing concrete in columns before depositing concrete in the floor system.

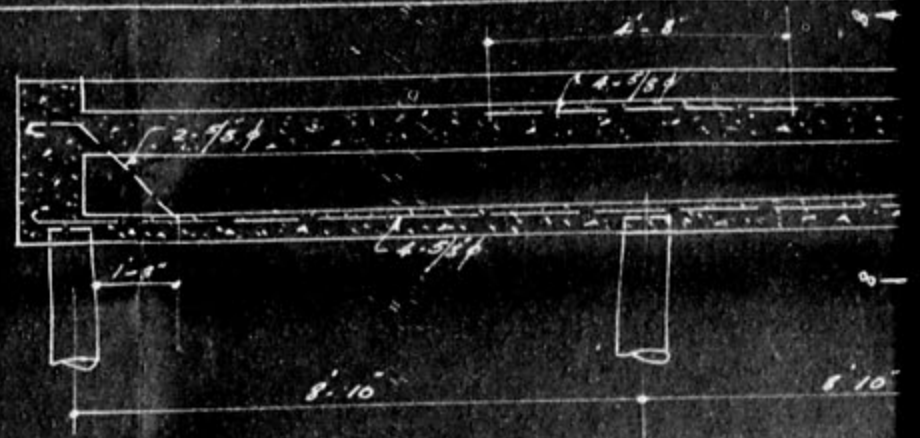

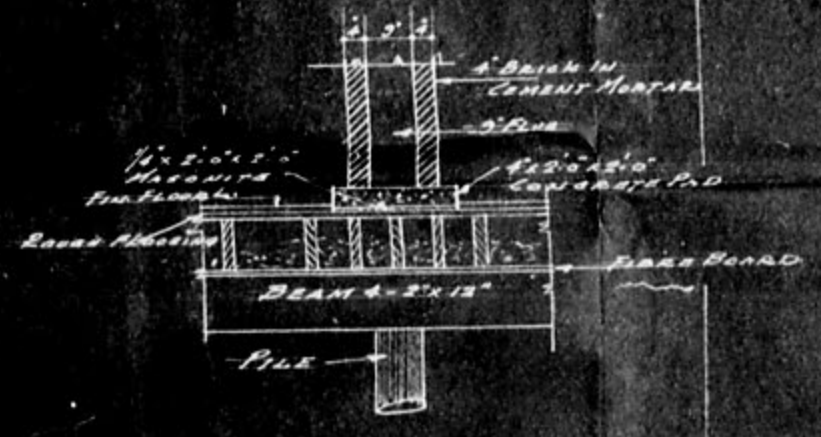

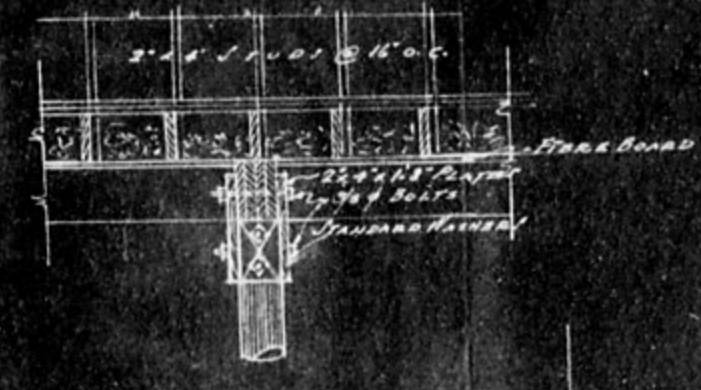

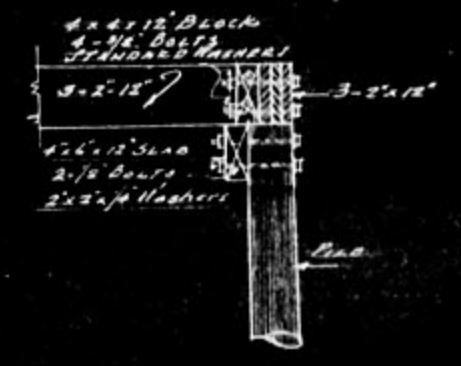

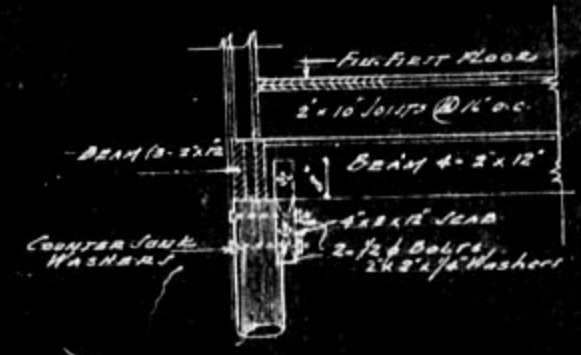

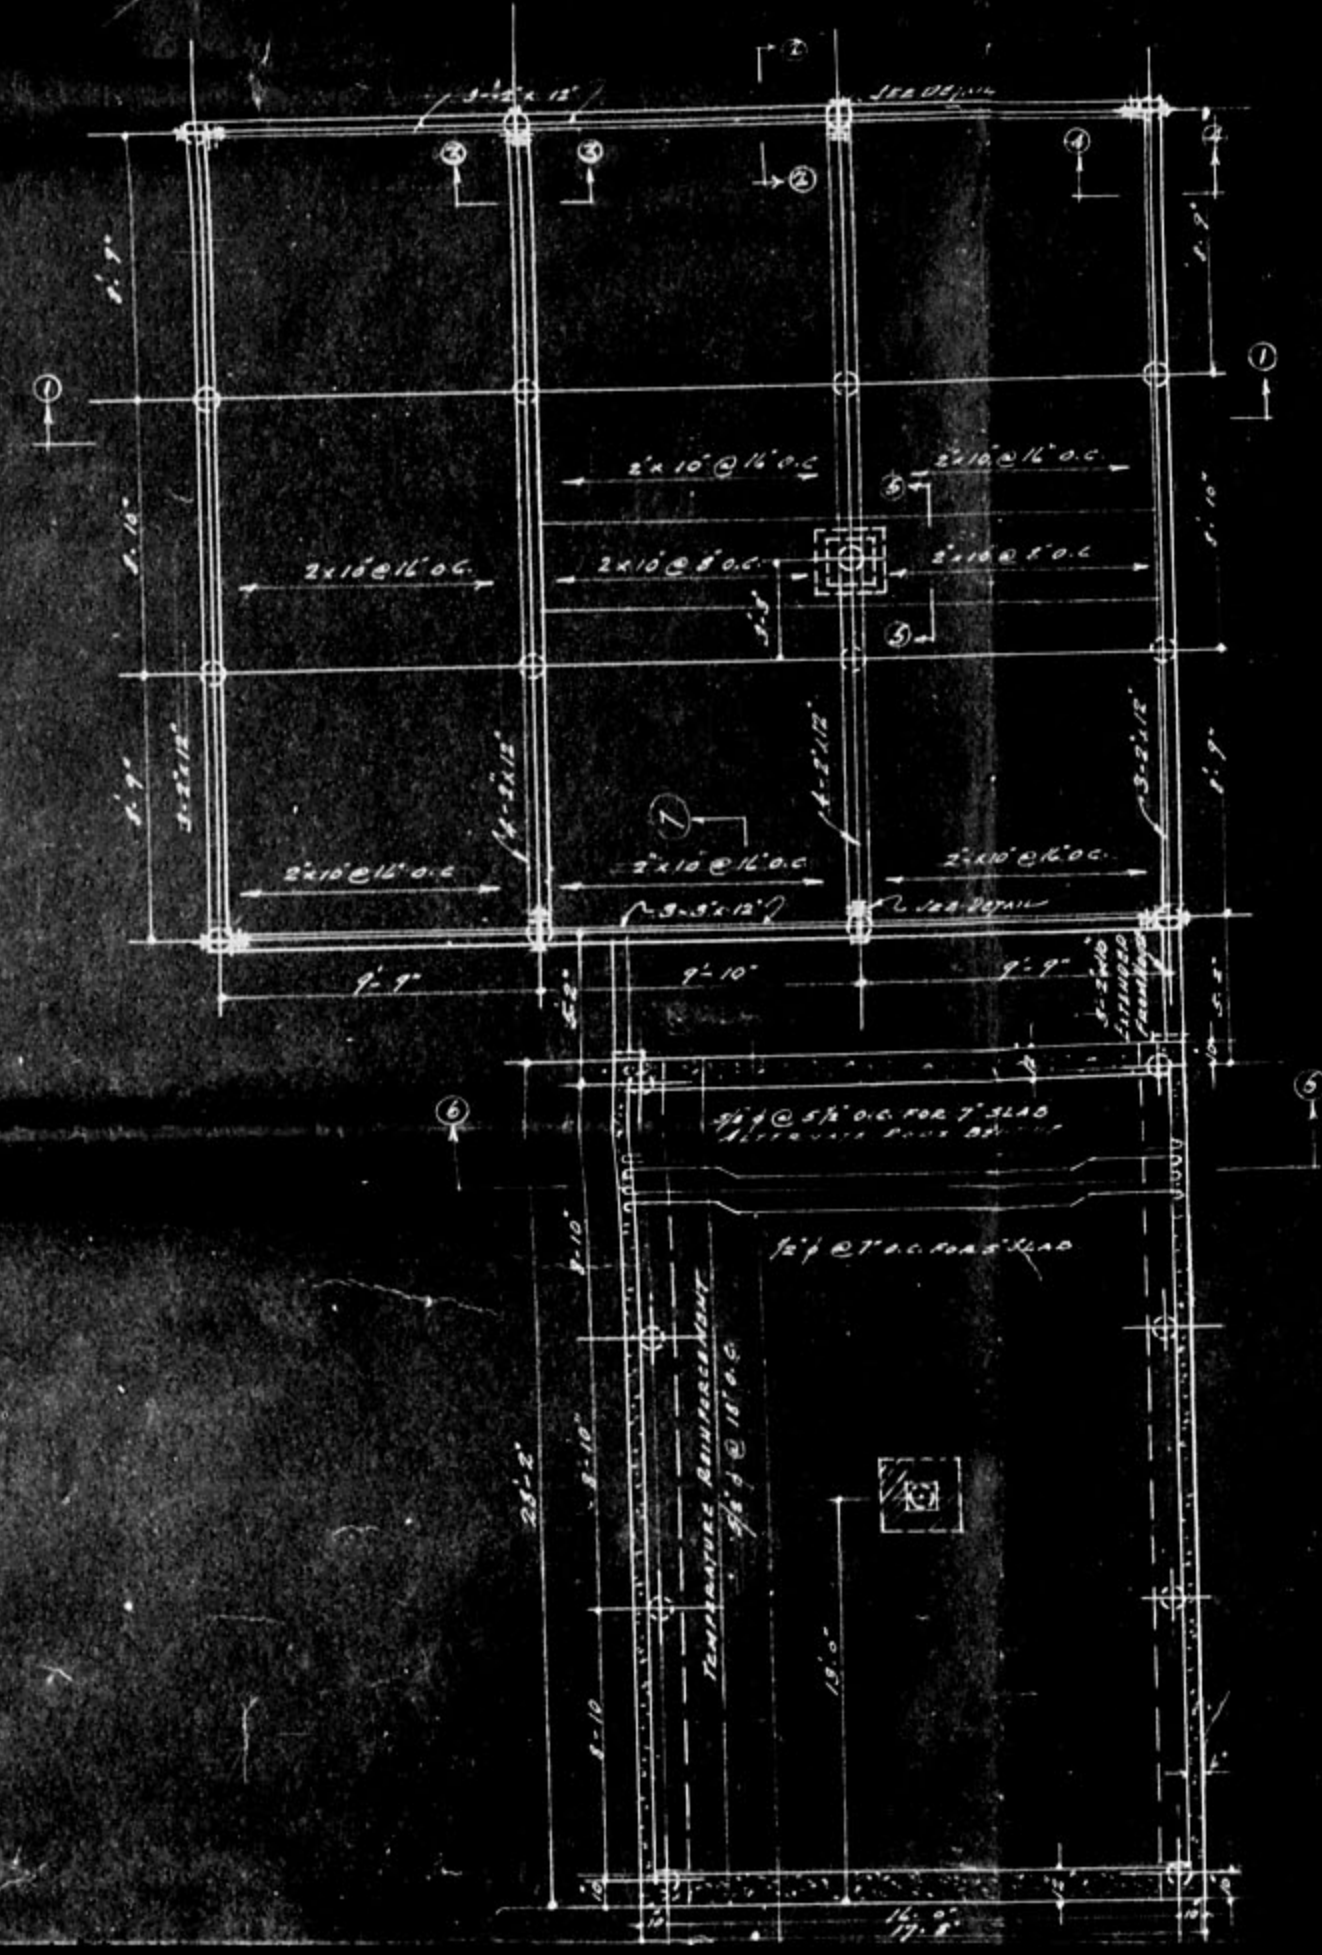

Construction joints in floors shall be located near the middle of slabs, beams or girders, unless a beam intersects a girder at this point, in which case the joints in the girder shall be offset a distance twice the depth of the beam.

Where a joint is to be made, the surface of the concrete shall be thoroughly cleaned and all laitance removed. In addition to the foregoing, vertical joints shall be thoroughly wetted, but not saturated, and slushed with a coat of neat cement grout immediately before placing new concrete.

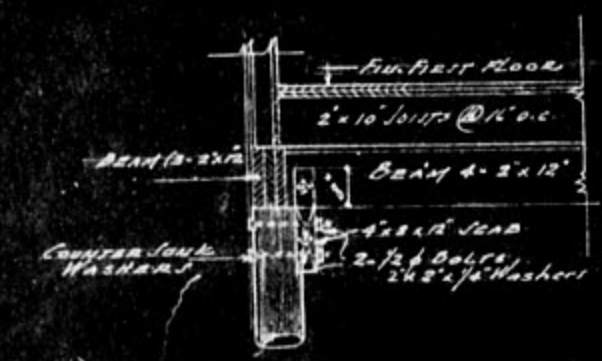

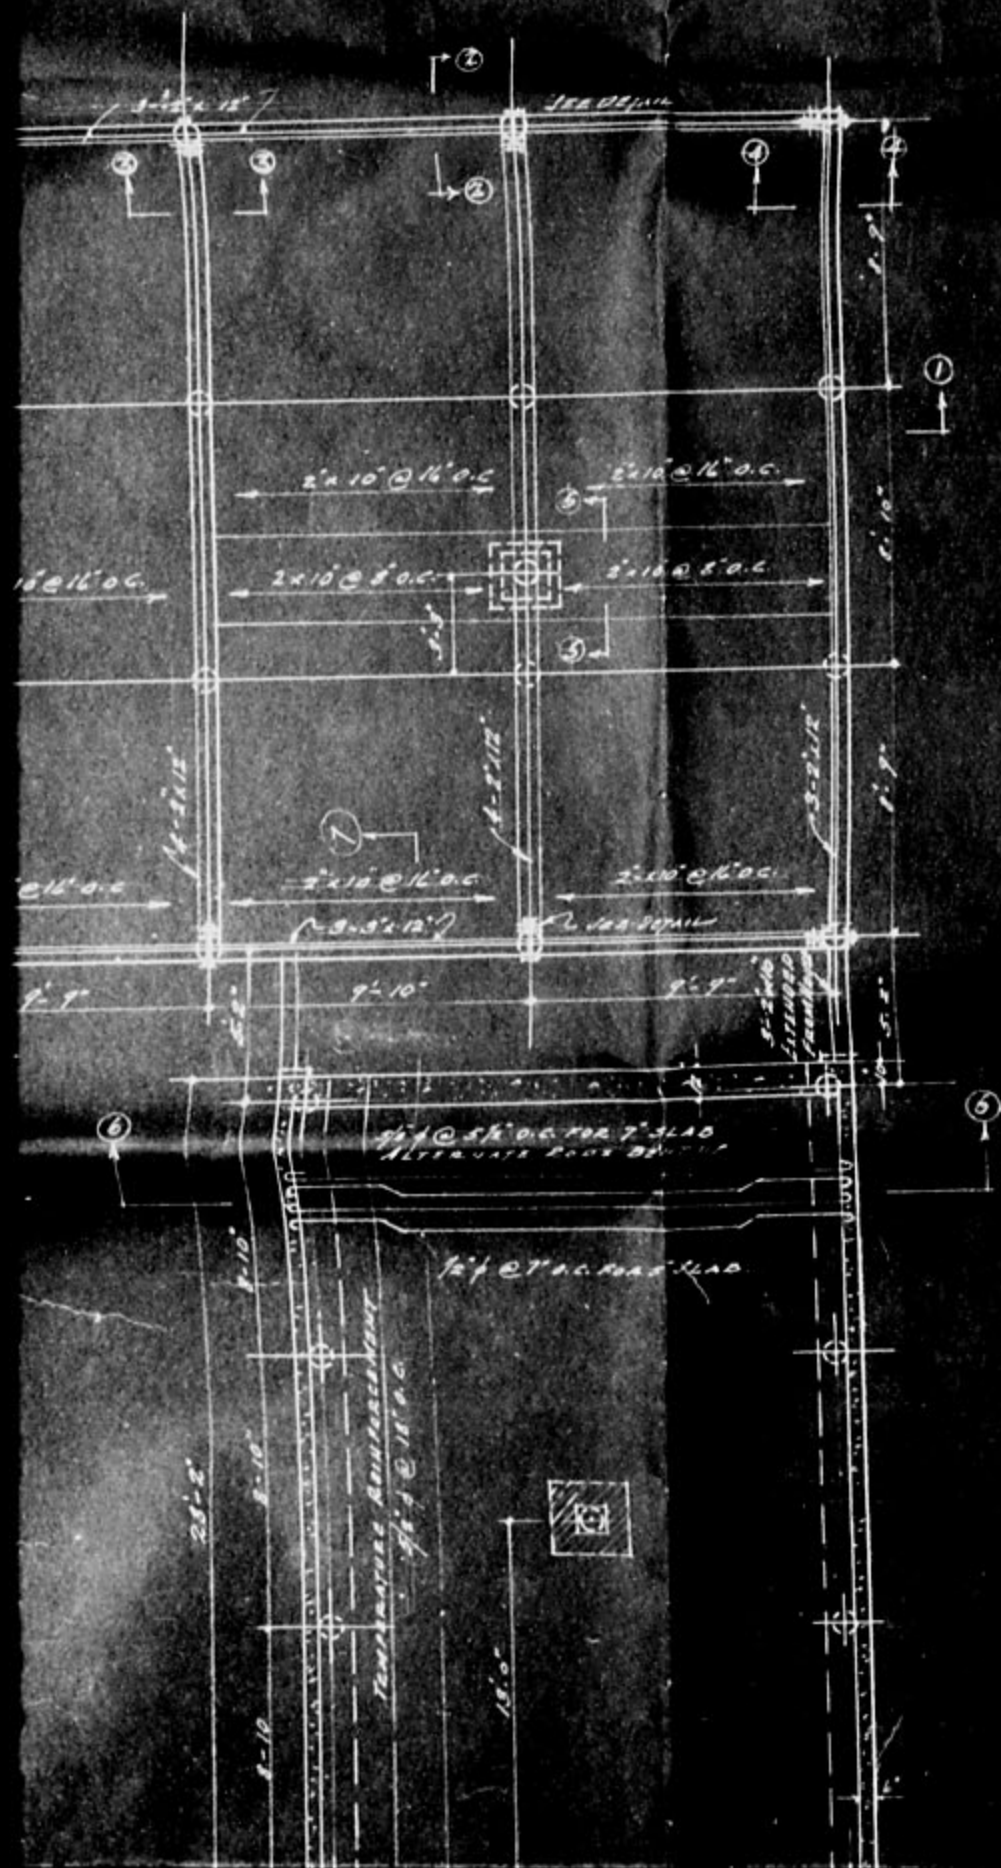

FLOOR FINISH

Floor, curb and exterior face of concrete shall be trowelled to a smooth even surface.

OFFICE OF THE
DIRECTOR

[Handwritten signature]

Copy - Mr. Hoey Ottawa, November 6, 1947.

Mr. Mills

I am advised by the Director, Indian Affairs Branch, that blueprints of the proposed piling and foundation details for the new school building and teacher's residence at Hay River settlement are now complete and that duplicate copies have been supplied to the contractor, Mr. Peter Mattson. The construction of these buildings at Hay River by Peter Mattson is authorized by Order-in-Council on a cost plus 10% basis, all bills and accounts to be certified by a cost auditor, Department of Finance, and then sent to the Chief Treasury Officer, Indian Affairs Branch, for payment.

The Director of the Indian Affairs Branch says that your Mr. W.A. Campbell, now at Hay River, would be able to interview Mr. Mattson and to ascertain if he is agreeable to the terms of the sample contract sent to him and if so to arrange to have Mr. Mattson proceed with the placing of the piles of the school building and residence. I am told that as soon as Indian Affairs Branch receives a reply from Mr. Mattson, indicating acceptance of terms, a contract in duplicate will be sent him for completion. In the meantime, however, it seems that no time should be lost.

I gather from our discussion today that Mr. Campbell is coming out shortly on account of ill health but that Mr. G.R. Barnes, Engineer, and Mr. B. Douglas, Draftsman, will be left on duty at Hay River temporarily. Will you please convey this information to Mr. Campbell and ask him to arrange to have Mr. Barnes contact Mr. Mattson.

Indian Day School and Teachers'
Residence at Hay River, N.W.T.

I have to report that I met Mr. Peter Mattson at Hay River, N.W.T., at 4 p.m. on October 20, 1947, and discussed his contract to construct the four room Indian Day School and Teachers' Residence at Hay River, N.W.T.

Work has not yet been started on this project. Mr. Mattson states that he has not yet received the plans and specifications of the buildings and that he intends to freight in materials from Fort Resolution (some from Grimshaw, Alberta) as soon as he can make out his estimate of materials and when ice conditions on Great Slave Lake will permit the winter freighting to commence (late in January 1948, I presume).

I gathered from Mr. Mattson that he is not in a position to finance the purchase of materials and he would be glad to know what arrangements are being made regarding this.

He did not know (nor have I heard) who is being appointed the Building Inspector of this project. If a man is being sent from Yellowknife, I should like to meet him before he leaves for Hay River.

Dear Sir: Re: Construction of Indian Day School and
Teacher's Residence, Hay River, N.W.T.
Under P.C. 3269 of August 14, 1947
Peter Mattson, Hay River, N.W.T. -Contractor

We are attaching herewith copy of letter dated October 23,
1947 from our Treasury Cost Auditor Mr. G.H. Colson covering his
interview with Mr. Mattson.

From this communication it would appear that plans and
specifications are not as yet in the contractor's possession, as
well as the fact that he is not in a position to finance the purchase
of materials for this undertaking.

We would appreciate your comments re the above as
well as the name of the Building Inspector or representative that
is to be assigned to this project if now available.

Yours truly,

HVB/FB

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES L.D.

Hay River Indian Day School

When the sum of \$30,000.00 was included in the supplementary estimates for the construction of a school at Hay River, it was presumed that this would be a standard type of school and that building conditions would be normal. However, we are finding that this is very far from being the case.

The specifications for the building being constructed are entirely different from any that has been built previously as an Indian day school. This is due to the permafrost condition which exists at Hay River. Because of this, we have previously requested you to appoint an official who could supervise the rather unusual type of construction necessitated by the climatic condition which exists in this area.

On August 14, an Order-in-Council No. P.C. 3269 was obtained for the granting of a contract for the erection of this school to a Mr. Peter Mattson of Hay River.

You will recall that on June 17 I received a letter from you in which Mr. Fred Fraser, Mining Recorder at Yellowknife, had sent you a wireless message reading as follows:

"RETEL THIRTEENTH MATSON REPORTED
COMPETENT AND RELIABLE IN EVERY WAY".

When the blueprints and specifications of the proposed piling and foundation details for these buildings were ready, they were forwarded to Mr. Mattson on November 3. On November 4

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

our Chief Treasury Officer drew to the attention of our Superintendent of Education the following comment which had been made by G. H. Colson, Treasury Cost Auditor, after a visit to Mr. Mattson at Hay River:

"I gathered from Mr. Mattson that he is not in a position to finance the purchase of materials and he would be glad to know what arrangements are being made regarding this".

It was then decided, before any further steps could be taken, that a sample copy of our standard contract should be sent to Mr. Mattson for his consideration.

We have now received an answer from Mr. Mattson reading as follows:

"To your letter of November 5 including sample contract, I have with careful attention noticed difficulties regarding Hay River School contract, which I am fully aware of and capable to fulfill and operate, with the exception of financial obligations as my funds are very limited. Therefore I require your financial backing as far as purchasing and transporting materials to school grounds, wages paid out, operational expenses required for construction".

"I have on instructions from Chief Engineer Campbell started operational forework, such as preparing holes for piling, road to school grounds, wood supplies for steam jetting, pilings ready for delivery, small building for equipment storage. Trusting you will find this satisfactory and that arrangements can be made for financing.

"Please notify if above arrangements can be made, as Hay River mail will not arrive until December 5."

In view of the fact that our nearest Indian Agent is Dr. Mulvihill, located at Fort Resolution, which is several

- 3 -

hundred miles away, it will not be possible for us to arrange the financing of this project as suggested.

Due to the fact that you will have a supervising engineer on the job, it is recommended that your Branch take over the responsibility for the construction of this school and principal's residence. We will set up the necessary encumbrance for the amount voted. While our Education Division is willing to assume the responsibility for the construction of standard one and two room school buildings, it is felt, in view of the technical and other difficulties involved in the erection of this Hay River School plant, that it should be handled by the Lands and Development Services.

Indian Affairs Branch.

Re - School Site of three acres
comprising Lot 9, Block H,
Hay River Settlement, N.W.T.
Your File 139-2-5 (W T)

I have your letter of the 25th ultimo
advising that the above school is being designated as
an "Indian Day School" and you ask if title to the land
upon which it will be situated can be vested in the Crown
for your Branch and you state that it is understood that
details of the property are available in this administration.

The present position is that an addition to
Hay River Settlement was surveyed this year which included
a block of land designated as above mentioned but up to
the present time the survey plan has not been completed and,
as a matter of fact, the Surveyor, Mr. George Palsen, D.L.S.,
has not yet returned to Ottawa. It will, therefore, be some
little time before a legal survey plan is available but the
tract is Crown land under the direct jurisdiction of this
Department and I can assure you that as soon as the survey
plan is received a permanent reservation in favour of your
Branch will be made in our records.

Re: Mr B. F. May - For Hay River Day School 5
(sent to DIA yesterday)

Dear Sir

W.D.
Regarding Hay River school construction I must draw your attention to certain difficulties, digging holes to permafrost which varies from different depths, in most cases I find that I must set in cribbing to hold sides from washing and falling in, about four feet down I have water to contend with, I therefore must have lumber to permit digging down to permafrost, will not have any difficulty in going down with loose cribbing, I had such experience in quicksand and water, to give an estimate on amount of lumber required in this matter will be very difficult as for unknown depths of cribbing.

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

Ottawa, December 6, 1947.

Hay River School and teacherage

Dear Mr. Mattson:

I have for answer your letter of November 26. In view of the technical difficulties involved in the erection of this school and residence, it has been decided that the Indian Affairs Branch will no longer be responsible for the construction of this building. This responsibility has been turned over to the Lands and Development Services Branch of the Department and therefore copies of all correspondence from you have been turned over to this other Branch so that they can contact you directly concerning the construction of this building, the letting of the contract, etc. Therefore, in the near future you will be receiving replies to your letters from Mr. J. S. Mills, of the Engineering and Construction Division.

Memorandum:

In accordance with your recent request attached hereto is a statement from Engineer W. A. Campbell in regard to Contractor Mattson. In connection with this matter the following is quoted from a recent letter received from our officer at Hay River:

"The contractor P. Mattson, received a copy of the standard form for cost plus contracts from Mr. Neary, Supt. of Welfare & Training, Indian Affairs Branch. The covering letter was dated Nov. 6 but was only received on yesterday's mail plane. Until this contract form was received Mr. Mattson was not aware that he would have to finance the operation and was under the impression that he was to submit accounts for materials and labour to the Indian Department for payment. He advises me that he will now have to go to Edmonton to arrange finances.

Encl.

"Mr. Mattson seems to be a competent and conscientious workman but as a contractor will require considerable assistance from the Department in arranging for materials and getting things organised."

Memorandum:

Re: Hay River School and Residency,
Contractor Mattson.

The following information is submitted in accordance with the verbal request of Mr. Gibson on the above man who will be responsible for the construction of the Hay River school and residency.

The selection of Mattson to take over the construction was made by officials of the Northwest Territories Bureau. On receipt of foundation plans for the residency by Mr. Mattson a discussion of the contract with him left me with the impression that he would not be able to finance the project. I am of the opinion that though Mr. Mattson would be an excellent tradesman on construction above floor level, his experience and knowledge of foundation work appeared to be limited, more particularly regarding steam jacking. I was not satisfied that Mr. Mattson could infuse sufficient momentum into arranging the necessary equipment and supplies for the preliminary work of piling.

It is not my intention of underestimating Mattson as being a thorough builder, particularly with timber construction, as I am of the opinion his finished work will pass the most rigid inspection. I would point out that there is no other man in Hay River or perhaps in Yellowknife who could or would undertake this construction.

T. S. Mills, Esq.,
Chief Engineer,
Engineering and Construction Division,

Lands and Development
Services BranchOFFICE OF THE
DIRECTOR

Copy - Mr. Hoey.

Mr. Mills

Ottawa, December 6, 1947.

Re - Hay River School.

Director, 6/12/47.

Mr. Hoey - This will serve as an acknowledgment of your memorandum of the 2nd instant. A copy of Mr. Mills' memorandum of the 3rd instant is attached for your file and you will be further advised as soon as we have additional information. Col. Neary has kindly agreed to arrange for the transfer of funds.

We discussed today with Col. Neary of Indian Affairs, your Messrs. Buck and W. Campbell, and our Mr. McKinnon and Mr. Sinclair, your memorandum of the 3rd instant and Mr. Hoey's of the 2nd instant re problems involved in the construction of the above school.

Mr. P. Mattson, the only contractor available, is from all reports a reliable contractor but is unable to finance the purchase of materials. Further, the Indian Affairs Branch wish to be relieved of all responsibility other than turning over of funds.

The first step is to have the contract with Mr. Mattson completed with the following understanding:-

- (1) Indian Affairs will turn over the \$30,000 to this Branch at once.
- (2) That the placing of piles, under way, should be proceeded with.
- (3) Your Mr. Bruce Douglas at Hay River will act as Clerk of Works, keep time and record of material used and submit pay lists to our Acting Agent, Mr. A.H. Gibson, Fort Smith, on the 15th and at the end of each month.
- (4) Mr. Douglas will submit progress reports as often as possible by air mail and estimates of requirements to meet expenditures bi-monthly, a sufficient time in advance to permit funds to be set up in the Fort Smith office on the 15th and end of each month.
- (5) Payment of accounts and wages will be made by our Fort Smith office on certification by Mr. Mattson and Mr. Douglas.

2.....

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

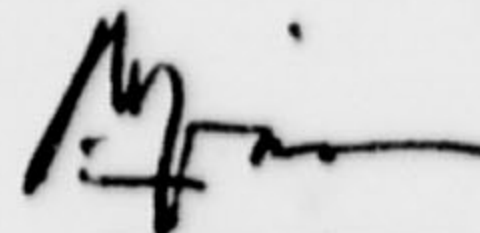

- (6) Since there will have to be a hold back on Mr. Mattson who is working on a cost-plus basis, advances for himself should be limited to what would be paid a foreman.

The Comptroller of the Treasury, Mr. McIntyre, agreed over the telephone to advise what arrangements could be made for cost audit.

It was agreed that if seasoned building material could be secured at comparable laid-down prices by purchasing and dismantling Abasand Oils Limited buildings at McMurray, Alberta, rather than use green local lumber, it would be preferable. Mr. Buck and Mr. W. Campbell are to discuss this at once with Assistant Chief Engineer Goodspeed of the Department of Public Works and Mr. Wilbur Norrish of Mines, Forests and Scientific Services Branch. The point was made that it would be desirable to arrange for the purchase of all material that could be bought with funds that are to be placed at our disposal.

Would you please take prompt action as outlined above and keep this office posted as to developments. I would also like you to plan adequate supervision for this project for the time next year when actual construction will get under way.

A copy of Mr. Hoey's memorandum of the 2nd instant is attached for your information.

The Honourable J. A. Glen,
Minister of Mines and Resources,
O t t a w a .

Dear Mr. Glen,

May I be permitted to offer a few remarks
regarding your letter of the 5th instant re the proposed
Hay River day school?

In the first place, I am obliged to say that
no arrangement between Mr. Keenleyside and His Excellency
Bishop Trocellier has been agreed upon. On the contrary,
His Excellency in a written document has exposed his
objections and refused in a very explicit manner to
accept the offer of the plan of Mr. Keenleyside.

Secondly, I cannot see why the Department has
seen fit to proceed with the implementation of a project
which His Excellency considers as a violation of the
rights guaranteed by law and confirmed by long years of
recognition, of white and Indian children of the Catholic
faith.

Under these circumstances, we respectfully
submit that we do not agree with your statement to the
effect that "the arrangement was agreed to and does not
contemplate any changes in or disturbs the existing
rights of persons of any religious denominations."

Very sincerely yours,

"J. O. Plourde, O.M.I."

Norlite Building, Wellington Street,
O T T A W A.

Construction of Indian Day School
and Teacher's Residence,
Hay River, N.W.T.

It was the intention that work in connection with the above would be carried out by Peter Mattson on a 'cost plus basis', but owing to the inability of the contractor to finance the project, the work has been taken over by the Chief Engineer, Lands and Development Services Branch. You will find on record that Encumbrance Certificate No.975 for \$20,000.00 has been issued by this office.

Had the work been proceeded with on a 'cost plus basis', the audit would have been carried out by the Cost Inspection & Audit Division, represented in this case by Mr. F. G. Coburn, Regional Administrator, Vancouver, but the fact that it has been assumed by the Engineering Branch of the Department, changes that picture. However, in the event that you should require some assistance in connection with the checking of accounts, Mr. Coburn advises me that he has two men working in that locality, one at Yellowknife and another at Snare River.

Your Department file in connection with the project is I.A. 1856-9.

W. Lauchlan
Chief Treasury Officer.

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES.

Four classroom Indian Day School,
Hay River, Northwest Territories.

Reference - your I.A. 1856-9

We acknowledge receipt of your letter of December 27 with two coloured prints of preliminary sketch plans for the above school. These plans are entirely satisfactory to this Branch and we feel that this school should meet the needs of the Indian community at Hay River.

It is understood that a similar set of plans for a two-room school is being developed for use in the Northwest Territories, the Yukon and other places where permanent conditions are encountered.

ADDRESS REPLY TO
ENGINEERING AND CONSTRUCTION
DIVISION

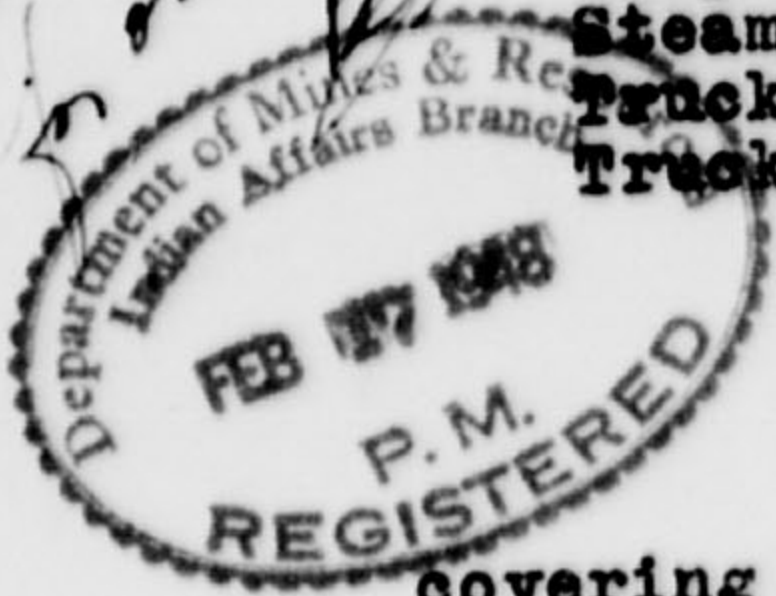

Lands & Development Services Branch
OTTAWA February 13th, 1948.

Memorandum:

Phone Mr. Buck and the is a copy for our info

Preliminary work has commenced on the Indian Day School buildings at Hay River, Northwest Territories. The Contractor, Peter Mattson, has submitted the following schedule of prevailing wage rates:

- | | |
|----------------------------------|--|
| Foreman | - \$ 1.50 per hour |
| Clerk and Time-keeper (combined) | - 175.00 per month and board |
| Labourers | - .80 per hour |
| Carpenters | - 1.25 per hour |
| Steam Engineer | - 1.25 per hour |
| Truck driver | - .80 per hour |
| Truck hire | - 300.00 per month, which includes cost of repairs and breakage but does not include driver or fuel. |

We would be pleased to have your approval covering the above schedule as soon as possible.

Mr. Mills

Since these rates are in line with those established by the Dept. of Labour and that currently being paid in the locality, the same are approved.

J. Mills
Chief Engineer.

Director, 16/2/48.

C o p y

Hay River, N. W. T.,

December 6, 1947.

Mr. B. F. Neary,
Supt. of Welfare and Training,
Indian Affairs Branch,

Dear Sir:

For your information I have received foundation plan of proposed day school here. at Hay River with the information of pilings to be constructed of concrete reinforced with four one inch rods - the dimensions of piles 12 x 12 inches x 28 ft. long Plans covering all details will arrive as soon as completed. In order to construct these piles I must build heated sheds large enough for storage and heating of material. I have not as yet estimated the amount of lumber required for this purpose but will as soon as I have worked out an estimate and amount of gravel, cement, storage space - maybe room for mixing and pouring cement. Material for this shed must be transported in over winter road as here are no lumber available for this purpose at local mill.

I must draw your attention to the letter of November 24th regarding financial difficulties. Kindly notify possibilities for financing as soon as possible as well as purchasing material urgently needed. I am getting seriously delayed in preparing and putting of timber pilings.

Yours very truly,

Peter Mattson

EXD.
M

Ottawa, March 22, 1948.

Memorandum:DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCHHay River Indian Day School

Included in our 1947-48 Supplementary Estimates was the sum of \$30,000.00 for the construction of a four-room Indian Day School at Hay River, Northwest Territories.

Encumbrance certificates to the amount of \$30,000.00 have now been raised and this construction is being carried out under the supervision of your Branch.

I have been advised by my Superintendent of Education that your Branch estimates \$46,000.00 will be required during the fiscal year to pay for the work being done and the materials being purchased at Hay River. It would therefore seem to be necessary to transfer \$16,000.00 to Hay River from other construction projects.

It would also seem evident that an additional sum will have to be voted in our 1948-49 supplementary estimates. At the present time we have \$20,000.00 for this work in our Main 1948-49 Estimates.

To summarize:

(a)	Amount voted in 1947-48 Supplementary Estimates ...	\$30,000.00
(b)	Amount required for transfer	16,000.00
(c)	Amount in 1948-49 Main Estimates	<u>20,000.00</u>
(d)	Total amount voted or to be transferred	\$66,000.00

We want to know your estimate of how much this school will finally cost.

C O P Y

P. C. 3269

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 14th August, 1947.

The Committee of the Privy Council have had before them a report dated August 6, 1947, from the Acting Minister of Mines and Resources, respecting:

That it is immediately necessary, and funds are provided in the 1947-48 estimates, Indian Affairs Branch, Mines and Resources, to construct a four-room Indian day school and teacher's residence at Hay River, in the Northwest Territories;

That it is essential that educational facilities be provided for the Indian children in the Hay River district;

That Section 36 of the Public Works Act, Chapter 136, R.S.C. 1927, provides, in part as follows:-

"Whenever any works are to be executed under the direction of any department of the Government the Minister having charge of such department shall invite tenders by public advertisement for the execution of such works except in cases (a) of pressing emergency in which delay would be injurious to the public interest....";

That efforts have been made to interest builders and contractors in the vicinity of Hay River but the builders and contractors have advised that they would not be interested in tenders if invited as aforesaid, as they have all the work they can do in their own localities;

That a competent building contractor, namely Mr. Peter Mattson, Hay River, who, our officials state, is a very reliable man, has agreed to undertake the construction of the said building immediately, on the basis of cost plus ten per cent; and

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

POOR COPY

That it is considered that the construction of this building is a pressing emergency and within the exception provided in Section 38 above recited, and further, it is considered that the work can be more expeditiously and economically executed as suggested herein.

The committee, therefore, on the recommendation of the Acting Minister of Mines and Resources, advise that authority be granted for the construction of this building as outlined above, this being the only arrangement possible at the present time and it being essential that this work be undertaken at once and carried to completion in order that the building will be available for use by the time the next school term commences.

A.D.P. Heamey,
Clerk of the Privy Council.

The Honourable
The Minister of Mines and Resources.

Copy - Mr. R. A. Hiley

Ottawa, April 9, 1948.

The Deputy Minister of Public Works,
Ottawa, Ontario.

Re - Hay River Indian School and Principal's
Residence

Before the arrangement was made to have the Indian schools in the Mackenzie District erected by your department the Indian Affairs Branch had entered into an arrangement with a contractor named Peter Mattson for the construction of an Indian school and principal's residence at Hay River, N.W.T., the authority for this action being Order in Council P.C. 3269, copy attached.

The project consists not only of a four-roomed day school but also a principal's residence and connected heating plant. The cost has been variously estimated at \$60,000 to \$85,000.

As you know the transportation expenses are higher, also wage rates, and there are the usual difficulties of construction in remote districts. Contractor Mattson is said to be a capable and trustworthy builder and he knows conditions in the district.

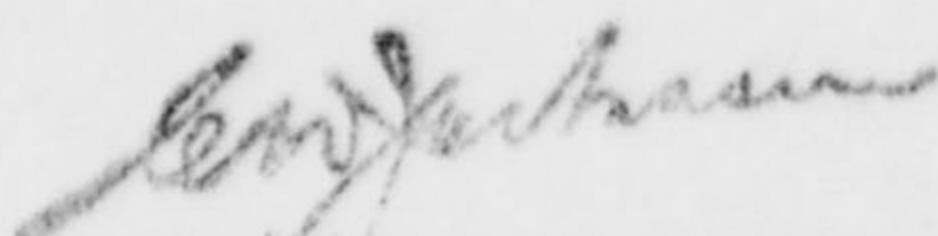

Out of funds available for 1947-48 we arranged for the footings which had to be of a special character owing to the perma frost condition. I believe that the orders have been placed for the greater part of the materials required for the construction of the school and principal's residence.

Our difficulty is to arrange for the adequate supervision of this job because the engineer on the Northwest Territories end of the Grimshaw-Great Slave Lake road is pretty

Indian Affairs (RG 10 Volume 6472, file 905-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

well occupied with the task in hand and in any event he is primarily a road builder. We would like to have your district engineer at Edmonton take over the responsibility for the completion of this job and if you approve we will see that your chief engineer here is furnished with full particulars so that the project may be carried to completion under the arrangements authorized.

Acting Deputy Minister.

Memorandum

With regard to Hay River Indian School buildings, Establishment 905, and further to our memorandum of April 3rd, the final expenditure figure for the above project is \$41,200.00 in the season 1947-48. This is below estimate for the reason that some of the suppliers' invoices for materials delivered in March will arrive too late for payment out of 1947-48 fiscal year funds. This figure covering expenditures, together with the tentative estimate of \$85,000.00, total cost given in our memorandum of April 3rd, should give Indian Affairs Branch some idea as to funds required during 1948-49.

Memorandum:

DIRECTOR, LANDS & DEVELOPMENT SERVICES BRANCH

Re: Hay River Indian School Buildings.
Your file IA 1856-9

We have your memorandum of April 24th with reference to the probable cost of the above building. I understand from the figures quoted that you will require approximately \$45,000.00 during the academic year 1948-49. In this year's appropriation we have provided an amount of \$20,000.00 and consequently it will be necessary for us to obtain an additional \$25,000.00 in the supplementary estimates.

Director.

Hay River.

9937 - 103 Street, EDMONTON, April 22

R. BLAIS, CHIEF ENGINEER, D.P.W., O T T A W A.

This will acknowledge your letter of the 19th instant - file Misc. 4-1 - with attached copy of letter of the 9th instant from the Acting Deputy Minister, Department of Mines and Resources, to the Deputy Minister of this Department.

There was not, however, enclosed with your letter a copy of the Order-in-Council P.C. 3269, as mentioned in the Acting Deputy Minister's letter.

Enquiry is made if I could take over the supervision of the construction of an Indian School and Principal's Residence, which is now under construction at Hay River, N.W.T. by Mr. Peter Mattson. This project has been under the direction of the Engineer representing the Department of Mines and Resources on the Grimshaw-Hay River road, up to the present.

I would be agreeable to take over the direction of the completion of these two buildings. I should be given all particulars regarding the past procedure which has been adopted in carrying out this project and should also be informed of the cut-off date when the interests of those who have previously directed this project will cease and my responsibility begins.

It is generally unsatisfactory to take over an unfinished job from another party, but in view of the request from the Acting Deputy Minister of the Department of Mines and Resources, I am, as above stated, willing to undertake this work. I may point out, however, that the work has been initiated by others and if the cost is too high I should not be asked to assume any responsibility for this. This does not mean that there is any intention of negligence here in completing this project, but merely that there has been divided responsibility and that I am called on to continue systems and methods which, when once started, cannot be changed.

I visited Hay River on March 21st in company with Mr. J.W. McKinnon, Inspector of Schools. Mr. McKinnon wished to see the progress made in the construction of this school and while I inspected the construction work to date, with him, my visit at that time had not the same interest in the project but was only of a general nature. From this visit, however, I am aware of the work which has been done to date, and the placing of concrete piles 12 X 12 inches - 28 feet, under the school building and timber piles under the proposed residence.

On account of the project being undertaken by others, and the need of my being fully informed of same and also to ensure proper supervision, I propose to put a Clerk on this job, full time, for a considerable period. A full check must be made of the materials which have been ordered, the prospects of a continuous flow of supplies to ensure the completion of the project, and also the ordering of any shortages which may develop from a study of the situation. Furthermore, if instructed to take over this project, I shall have an Engineer from this office visit Hay River for several days, learn fully all angles of the work to date, and what is proposed, and leave a clerk there, as a Departmental representative, to keep control of the situation; also from time to time an Engineer will visit the project during the remainder of its construction.

It will be necessary, providing I am asked to undertake this work, to put a man in charge of it practically immediately. I would therefore ask approval for a Clerk Grade 4, to be assigned to this staff for this work, for a three months' period beginning approximately May 1st.

LANDS AND
DEVELOPMENT
SERVICES BRANCH

Ottawa, May 1, 1948.

R. Blais, Esq.,
Chief Engineer, Department of Public
Works,
Ottawa.

I have your letter of the 24th ultimo file Misc. 4-1, with copy of Mr. Johnston's letter of the 22nd ultimo in reference to the supervision of the construction of the Hay River day-school by Mr. W.J. Johnston.

As explained in our Acting Deputy Minister's letter to your Deputy Minister of the 9th April, we would like Mr. Johnston to take over the responsibility for the completion of this job. Mr. Johnston has asked what out-off date is to be used for this project, and, after discussing the matter with the Chief Engineer of our Engineering and Construction Division, it has been suggested that May 30th be the date when Mr. Johnston should take over the supervision of this job.

Mr. Bruce Douglas, who is now in charge of the work at Hay River, will be able to supply Mr. Johnston's engineer with full particulars about supplies, materials and past procedure, and it is suggested that Mr. Johnston arrange to have his engineer visit Hay River during the month of May for this purpose.

The recommendation made by Mr. Johnston for the employment of a Clerk, Grade IV, to be assigned to this job, is approved, and I have been informed that the Indian Affairs Branch will provide the necessary funds when requested by your department. It is considered that Mr. Johnston should arrange for the employment of this clerk, and as Mr. Johnston will not be taking over direct supervision until May 30th, this will give him plenty of time to secure a suitable employee.

Re - Construction of Hay River Day School.
Your File - C.R. 12867-2
C.E. Misc. 4-1

This will acknowledge your letter of the 26th instant with enclosed report from District Engineer Johnston in reference to the arrangements he is making regarding the construction of the Hay River day school as from June 1st.

As you are aware, the Indian Affairs Branch of this Department is providing the funds for the construction of this school. The accounts received up to May 31 will be made a charge against the financial encumbrance provided for this purpose and any unused balance remaining as at that date will be returned to the Indian Affairs Branch.

In order that there be no misunderstanding regarding the accounts coming for payment after May 31, it is felt that as your Department will have both supervisory and financial responsibility you will wish to have the Indian Affairs Branch provide you with a financial encumbrance to cover the anticipated expenditures for the remainder of the current fiscal year. In this way the accounts would be handled by your Department in the same way as those dealing with our building program in the Mackenzie District for which financial encumbrances have been raised. It is assumed that you will take this matter up direct with Mr. R. A. Hoey, Director of the Indian Affairs Branch, to whom a copy of this letter is being forwarded.

Construction of Hay River Indian Day School

Your File - C.R. 12967-2
C.E. Misc. 4-1.

We have been advised by the Director of our Lands and Development Services Branch with regard to the arrangements made in turning over the construction of the Hay River Indian Day School to your Department as from June first.

We provided a sum of \$20,000.00 in our Main 1948-49 Estimates for work on this project. It is understood that this sum has been expended and that additional funds are required. Therefore, we have included in our Supplementary Estimates for 1948/49 the sum of \$35,000.00 for this work.

We have already had to transfer \$3,000.00 from other projects to the Hay River School building. We are now advised that another \$5,000.00 will be required for the June payroll. We are also advised by Lands and Development Services Branch that \$4,000.00 will be required by them to pay accounts anticipated for the period ending May 31, 1948. The situation,

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

June 3, 1948.

E. J.
R. A. Hoey, Esq., Director, Indian Affairs Branch,
Dept. of Mines and Resources, Ottawa.

In connection with the new four-room school and principal's residence now under construction at Hay River, the original intention was, as you know, to obtain electric power from local sources. We are today in receipt of a message to the effect that power will not be available locally for another year.

This matter has been discussed with Mr. Buck, Chief Architect of the Engineering and Construction Division, who has advised that an electric power generating plant should be purchased and installed in the new Hay River school. Since this school is being constructed by your Branch we are passing along this information to you, and we have advised both Mr. Buck and the Chief Engineer of the Department of Public Works that further instructions in connection with this matter will originate with your Branch.

Specifications for a suitable electric generating unit are being prepared by our Engineering and Construction Division, and will be forwarded by Chief Engineer Mills within a few days.

Memorandum:

DIRECTOR, LANDS & DEVELOPMENT SERVICES BRANCH

Re: Hay River Indian Day School.

We have carefully considered the contents of your memorandum of June 3rd and in view of the statement in your letter that electrical power will be available next year we consider it inadvisable to install an electric power generating plant at the present time. In any case, the funds for the erection of this building have all been transferred to the Public Works Department.

[Signature]
R. A. Hoey, Esq., Director, Indian Affairs Branch, Dept. of
Mines and Resources, Booth Building, Ottawa.

We note by your memorandum of June 8th that there is evidently a misunderstanding as to the need for some source of electrical power in order to supply the new four-room school with separate principal's residence at Hay River. The plans call for these buildings to be heated by forced draught hot air furnaces using oil as a fuel. Since electrical power is necessary to operate both the oil burner and the forced draught system, it will be necessary to ensure that a power supply is available.

It is, therefore, suggested that your Branch discuss the requirements with Chief Architect Buck of the Engineering and Construction Division in order that provision may be made in the supplementary estimates for the funds necessary to purchase the required equipment.

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH

Hay River Indian Day School

It is noted from your memorandum of June 11, 1948, that it will be necessary to provide a source of electrical power to operate both the oil burner and the forced draught system.

As no funds are provided for this additional expenditure in our 1948/49 main or supplementary estimates, could we please be advised as to the additional sum which will be required for this power unit. It will be necessary to include this amount either in our next supplementary estimates or by transfer of funds from another project.

DEPARTMENT OF PUBLIC WORKS, CANADA

19 June, 1948.

Director

Indian Affairs Branch,
Department of Mines and Resources.

With reference to the construction of Hay River Indian day school, enclosed is copy of report dated 11th June, 1948, from District Engineer W.J. Johnston dealing at some length with the matter of taking over the supervision of construction of the above school. Mr. Johnston seems to have gone very thoroughly into this matter, but would seem to be worrying unduly about the division of cost previous to the 31st May and subsequent to the 1st June. If you want the costs carefully segregated, we will arrange for any accounts covering material ordered previous to the 31st May to be sent in here and forwarded to you for payment, otherwise it would seem that he could arrange payment for any material which has not already been paid for, as the money is all coming from your Department and it is merely a matter of bookkeeping if you want to separate the costs later.

You will note that he estimates the completed cost of the work at approximately \$100,000. and in Mr. White's report he estimates the amount required to complete the work at \$40,000.00. Your 193-2-5 of the 3rd June, 1948, indicates that only \$23,000.00 will be available after Supplementary Estimates have been passed. If it is not too late, it might be advisable for you to include a further amount of \$17,000.00 in your Supplementary Estimates to cover Mr. Johnston's estimated expenditure.

As money will be required to meet the June pay-lists, will you please transfer as much as possible, as soon as possible, to this Department to cover expected commitments.

Kindly let me have your comments on Mr. Johnston's report at your earliest convenience.

(Signed) R. Blais,
Chief Engineer.

Extract from Annual Report on Fort Resolution
Northwest Territories Agency, dated 1947-48.

Hay River

It is expected that the village of Hay River will, on the completion of the highway from Grimshaw, become an important community. Fishing at Hay River is exceptionally good, the people always have sufficient to eat. Because of the good fishing several companies offer employment to Indians during the winter months. Up to the present additional employment with highway construction gangs has been available but I understand that since the Indian is not a reliable worker, there is a growing tendency to import white labour.

The Indians at Hay River have called for less action on my part than those in any other settlement. Miss Neville of the Anglican Mission attends to most of their medical problems, although she can do nothing about the Tuberculosis situation. There is a need, however, for a new modern nursing station at this community. Constable D. Allan of the R.C.M. Police handles the distribution of Indian welfare rations; his assistance is greatly appreciated.

Although the Indians at Hay River are better off financially than those of Fort Resolution since they have a greater opportunity for employment, their houses and persons are not as clean.

R. Blais, Esq.,
Chief Engineer,
Department of Public Works,
O t t a w a, Ontario.

Dear Sir:

We are in receipt of your letter of July 3rd with reference to the erection of the Hay River Indian Residential School.

We have arranged to transfer to your Department an additional amount of \$23,000. and in this connection I enclose copy of Encumbrance Requisition No. 938.

In the main estimates for the fiscal year 1948-49 we provided an amount of \$20,000. and this particular amount was transferred to you some weeks ago.

In the supplementary estimates for 1948-49 we obtained an additional \$35,000. We have transferred to the Lands and Development Services Branch an amount of \$7,000. which they stated they required to pay accounts for expenditures incurred previous to the work being placed under the direction of the Department of Public Works.

The payments to the Lands and Development Services Branch and to your Department now total \$50,000. and this only leaves a balance of \$5,000. in our current year's appropriation. This amount will be transferred whenever you require it.

Yours sincerely,

Director.

OTTAWA, June 29, 1948

Dear Sir:

Re: Hay River Indian School Buildings,
Your C.R. File 12967-2 and C.R.
File Misc. 4-1.

This will acknowledge your letter of June 19th, addressed to the Director of Indian Affairs Branch, with the various reports attached dealing with the above project.

With regard to the division of costs and the handling of accounts from the cut-off period of June 1st, we do not believe that Mr. H.J. Johnston should experience any trouble in dealing with these matters. Most of the material ordered on our Departmental purchase order forms has been invoiced and is included in accounts for the period May 6th to May 31st. It is possible that a few items were not invoiced prior to the end of May but our files at Hay River are open to the inspection of your officers at any time, and there should be no difficulty in keeping the records straight in this manner.

The following summary is detailed for the information of your officers:

Expenditures - 1948-49

Contractor's prime costs	\$21,713.96
Costs other than Contractor's	34.67
Advances on account of fee	600.00
	<u>\$22,348.63</u>
Less rebates, deductions	
from wages for board	815.45
Net Expenditures	<u>\$21,533.18</u>
Allotments total	\$23,000.00
Balance of funds on hand	1,466.82
Accounts on hand for payment	\$ 4,593.51

R. Blais, Esq.,
Chief Engineer,
Department of Public Works,
OTTAWA.

Less funds.....

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES

OR-COPY

Less funds on hand
Additional funds required.

Peter Mattson's Fee Account:

Credit in holdback, 1947-48. \$ 1,572.22
Credit in holdback, 1948-49. 1,572.22
10% fee due on accounts held 452.22
Total credit on account of fee \$ 3,592.22

Total Commitments this Department:

1947-48 expenditures (net) \$40,795.14
1948-49 expenditures (net) 21,533.18
Peter Mattson's credits 3,592.22
Unpaid accounts 4,293.31
\$70,814.05

Allotments:

1947-48 \$40,795.14
1948-49 23,000.00
Additional funds required \$ 7,018.91

Funds voted 1948-49,
Supplementary estimates \$35,000.00
Less funds received 3,000.00
Funds required this Department, additional 7,018.91

Funds remaining for Dept. of Public Works. \$24,981.09

You will note from the above figures that net expenditures for 1947-48 were \$40,795.14, due to rebates for board deductions amounting to \$416.70. Total allotments are, therefore the net expenditures for 1947-48 amounting to \$40,795.14, plus \$20,000.00 voted for 1948-49, plus \$35,000.00 in the Supplementary Estimates, or a total of \$95,795.14. If your estimate of \$100,000.00 is correct the amount of additional funds required is \$4,204.86. However, the figures presented herewith will give you a better of the situation as it is. It will be possible by this time for your officers to secure definite knowledge as to how much work is yet to be ordered, and what the cost of same will be. In addition the unpaid accounts held by us, amounting to \$4,293.31, include all the gravel charges amounting to nearly \$4,000.00. It is understood that the only substantial item of work yet to be ordered is the mill work.

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

With regard to the \$3,892.22 credit to Mattson on account of his 10% fee, as your Department has taken over all matters pertaining to financing and supervision, it would seem advisable now to transfer Mattson's credit on account of his 10% fee to you. However, this Department paid some items of equipment with the understanding that the holdback on account of the Contractor's 10% fee would stand as a guarantee that the equipment would be accounted for in full. We note that your inventory of equipment omits a number of items and we will supply you with a list of equipment purchased by us, shortly.

In connection with equipment we recently refused payment of Lionel Gagnier's account covering kitchen equipment (which included stove at \$75.00) amounting to \$155.50, on the ground that the Contractor was running up an unreasonable expense on account of kitchen equipment. We advised our officer at Hay River that the Contractor should pay this account himself. It is noted that your inventory of equipment includes a skill saw. We advised our representative, upon receipt of a purchase order covering this item, that we did not approve the purchase of same, and the account has not been presented to us for payment. The responsibility of payment or otherwise for this item will naturally be yours. We are mentioning these matters to make sure that our position is understood.

For your information we have allowed the Contractor 10% on his prime cost. This cost does not include some amounts spent by our Department.

It is our understanding that Indian Affairs Branch budgeted to take care of your June payroll estimated at \$5,000.00. If you have not received this initial allotment you should contact the Indian Affairs Branch.

With reference to the boiler used for steam-jetting holes for piles, as ordered from Reliance Welding Works, 9566 Jasper Avenue, Edmonton, Alta., we wrote to them on June 2nd, asking them to forward their invoice for the agreed price of \$500.00, f.o.b. Edmonton, repair work completed and without rental. To date, we have received no reply but it is our intention to forward the invoice to you for payment as soon as same is received. Otherwise, we would have to increase our \$7,018.91 requirement by \$500.00.

We will prepare as soon as possible and forward to you Progress Statement of expense classification, together with equipment list.

Yours faithfully,

H.A. Gibson

ADDRESS REPLY TO
ENGINEERING AND CONSTRUCTION
Division

MEMORANDUM

OTTAWA June 29, 1948.

Re: Electrical Power Supply,
Hay River Townsite, N.W.T.

In reply to Mr. Hoey's memorandum dated June 17th, bearing your marginal notation thereon of the 19th instant, in connection with the above, we make the following remarks:-

In your memorandum to this Division dated June 3rd, you advised that the local source of electricity for the School and Teacher's Residence will not be available before next year. Because of the forced hot air heating system used in these two buildings it is necessary that we provide a source of alternating current power for the coming heating season.

The estimated cost of lighting plant equipment for a permanent installation is approximately \$10,000.00 with an annual operating and maintenance cost of approximately \$1,200.00. The probable yearly cost of purchasing power from a local source at the Power Company's proposed revised rate of 18 cents per kilowatt hour is estimated at \$1,300.00. In view of these costs, we investigated the possibility of providing a temporary source of power necessary for the operations of the heating equipment until such time as the local power source is available.

The scheme we propose, consists of providing an automatically controlled generating unit to supply heating equipment only, no provision being made for supplying the lighting loads. This plant could be dismantled next year when the local power source is available and re-used at some other location or retained at this site as a standby unit. Lighting where necessary, could be provided through the use of Coleman or equivalent type of lighting units. Mr. Kosnar of this Division, contacted Messrs B.F. Neary, J.W. McKinnon and H.R. Lamberton and discussed the proposition with them and they were in favour of providing electric power for the buildings as outlined above, as a temporary measure until the local source is available, rather than providing a permanent generating plant installation.

A gasoline driven 5 KW, 110 volts, single phase, 60 cycle, alternating current generating unit with fully automatic control panel is recommended. In this connection we advise that the General Supply Company of Canada Limited, in Ottawa, have in stock a suitable unit which is a war surplus item. This unit is available at a reasonable price of \$950.00, and complete with automatic control panel, which can be supplied, the cost of the Department should not exceed \$1,100.00 f.o.b. Ottawa.

Should it be decided to proceed on this basis, the Department of Public Works should be advised of the availability of the above mentioned generating unit and it is also suggested that they be requested to enquire as to the type of motors on the heating system equipment and if necessary make arrangements to provide repulsion-induction motors to limit the starting current. If it were found from test, that power was available after allowance was made for the starting load of the School fan unit motor, it would be possible to provide a number of temporary lighting outlets in advantageous areas.

R.A. Gibson, Esq.,
Director,
Lands and Development Services Branch,
Department of Mines and Resources,
Ottawa, Ont.

.....2

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES

OUR COPY

It will also be necessary for the Department of Public Works to arrange for distribution conductors to be run between the two buildings and to make provision, as required, for generating unit exhaust and ventilation. It is suggested that the panel feeders be disconnected and temporary connections made between the existing service switches and heating equipment.

We submit the above scheme for Indian Affairs consideration and advice on their decision in connection with this proposal.

J. H. Mills

Chief Engineer.

Memorandum:DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH.Electrical Power Supply - Hay River Indian Day School

Reference your I.A. 1856-9

It is noted from your memorandum of 5 July, that a gasoline-driven 5 K.W., A.C. generating unit is recommended for use as a temporary power supply at the above school.

Your recommendation in this regard is accepted and it is requested that you advise the Department of Public Works accordingly. It is understood that the cost of this unit should not exceed \$1,100.00 f.o.b. Ottawa. The recommendations in paragraphs 6 and 7 of your letter are also accepted and it is requested that you notify the Department of Public Works accordingly.

I would ask that you refer to the Hay River Day School in such correspondence as your previous memorandum was headed "Hay River Townsite" and was sent to our Agencies Division rather than to the Education Division for attention.

Director.

Re: Electrical Power Supply, Hay River
Indian Day School and Principal's
Residence.

In reply to your notation of August 5th appearing on Mr. Hoey's memorandum to you of the 3rd instant, you are advised that we have written to the Department of Public Works in connection with the above, as requested by Mr. Hoey in his memorandum.

Attached hereto is a copy of our letter to the Chief Engineer, Department of Public Works in Ottawa, for your information.

Re: Electrical Power Supply, Hay River
Indian Day School and Principal's
Residence.

At the time of preparation of our drawings for the above two buildings the intention was that electrical energy would be available at the site from a local source.

It has developed however that this source of electrical power will not be available until next year, and the question of electrical power supply was investigated.

It has been suggested and concurred in by the Indian Affairs Branch that a temporary source of power should be provided to operate only the automatically controlled forced warm air heating equipment designed for these two buildings until the local electrical supply is available. Lighting for the buildings will be provided by the Indian Affairs Branch through the use of fuel burning lamps as required.

The type of generating unit required is a 5 KW. 110 Volt, single phase, 60 cycle, A.C. unit equipped with fully automatic control panel to start and stop as the heating loads come on and off.

You are advised that the General Supply Co. of Canada at Ottawa have a war surplus plant in stock of the above capacity which can be supplied subject to prior sale complete with automatic control panel at a cost not exceeding \$1,100.00 f.o.b. Ottawa. We suggest that this firm be contacted in an endeavour to provide power at the site as soon as possible.

It will be necessary for your engineers to provide conductors between the two buildings, use being made of the existing service switches and standpipes, and also to provide ventilation and exhaust openings in the walls for the generating unit.

It is suggested that the feeders to the lighting panels be disconnected until the local source is available. That temporary connections be run from the generating unit to the heating equipment thus preventing indiscriminate use of power. It is also suggested that your engineers be instructed to have motors supplied with the heating equipment replaced with low speed motors.

Dear Sir:

Re: Hay River Indian School Buildings,
Your file C.R. 12967 - and C.E.
Misc. 4 - 1.

Further to our letter of June 29th dealing with the transfer of all responsibility for construction of the Hay River Indian School Buildings, we attach the following for your information:

- 2 copies Expense Classification Statement.
- 2 copies Camp & Kitchen inventory.
- 2 copies Contractor's Equipment inventory.
- 2 copies of steel barrels statement.

We are returning to Indian Affairs Branch the unspent balance of \$826.63.

In the attached Expense Classification summary Peter Mattson's \$2648.00 accountable advance is closed out by being treated as a charge against the Contractor's fee.

		<u>13.20</u>
		\$1024.50

In addition to the above, we paid freight \$500.00 Edmonton to Hay River on a boiler on which we had an option from Reliance Welding Works, Edmonton, to purchase same for \$500.00, rather than pay rental. We wrote the Company for their invoice and have followed up, but to date have received no reply. If the invoice shows up, same will be forwarded to Department of Public Works for payment.

There is also a pile driver which was built from materials purchased. We have no list of the parts, but these presumably include the following items, which are not listed in this equipment report:

1. Parnell's Service Garage, invoice February 10/48 totalling \$250.10, for welding pile driver and hoist, and other machine work.
2. Bromley and Son Invoice February 17/48, 200' Best Plow Cable \$40.36.
3. J.H. Ashdown Hardware Co. Invoice February 4/48, snatch blocks and 1 inch block pipe \$27.79.
4. Timber, lumber, angle iron, bolts, etc. plus labour. Also, we presume, additional machine shop charges.

Hay River School Buildings -
 Peter Mattson, Contractor
 (Vote 935-64-905)

Expense Classification Statement
 Season 1948/49

Contractor's Expenses:

Gross Wages	7287.52
Kitchen & Camp Equipment	35.20
Contractor's Equipment	194.50
Materials & Supplies	8686.71
Employer's share Unemployment Insurance	33.86
Workmen's Compensation	260.83
Wood & Fuel	572.50
Gravel	4568.85
Freight & Express	1841.15
Cook House supplies	1576.79
Travelling Expenses	285.87
Miscellaneous	329.63
Rentals	<u>704.74</u>
	\$26,378.15

Expenses by Department, not subject to Contractor's fee.

4 Keg nails purchased in Ottawa	30.00
Air Express on mail to Hay River	2.00
Telegrams paid by Bruce Douglas	<u>2.67</u>
	\$34.67

Rebates:

1 For return of barrels	24.00
The above amount was credited to vote.	
2 For overcharge on A. Rivet's account, originally paid March 1948	39.36
The above rebate was received in June 1948, but was charged to 1947-48 revenue, not to the vote.	

Note:

While \$26,378.15 is the Contractor's gross expenditure, the \$39.36 overcharge for material paid in March should be deducted from the above total. The question of whether or not the barrel rebates should be deducted also is up to Department of Public Works, as is the matter of deduction from gross wages for meals amounting to \$815.45.

1948-49 Expenditures Statement.

Contractor's Gross Disbursements	\$26,378.15
Less Rebates:	
For barrels	24.00
For meals, deductions from pay	<u>815.45</u>
	<u>839.45</u>
Net Total	\$25,538.70

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
 ARCHIVES PUBLIQUES
 CANADA

Advances to Contractor on account of 10% fee.	600.00
Items of expenditure incurred by Engineering & Construction Division.	<u>34.67</u>

Net total expenditure \$26,173.37

Allotments, 1948-49 total	\$27,000.00
Unspent balance	826.63

Summary from beginning of work -

1947-48 net Expenditure	40,795.14
1948-49 net Expenditure	<u>26,173.37</u>
Total	\$66,968.51

Allotments:

1947-48	\$40,795.14
1948-49	<u>27,000.00</u>
	\$67,795.14

The unspent balance of 1948-49 allotment is being returned to Indian Affairs Branch.

Statement of Peter Mattson's Advance account:

Paid in 1947-48	2048.00
Paid in 1948-49	<u>600.00</u>
Total Advance	\$2,648.00

Note:

We are charging the \$2648.00 to Contractor's fee and crediting the accountable advance with like amount. Public Works are expected to use our expenditure figures as a basis for computing 10% fee, and the Public Works Department is hereby notified that the amount paid Peter Mattson on account of 10% fee is \$2648.00, the balance to be paid by Public Works.

Note:

Re: Progress Statement for 1947-48.

- 1 Adding Kitchen and Camp Equipment \$306.67 to the \$35.20 shown for 1948-49 does not equal the inventory total of \$489.55. The difference lies in reducing Materials and Supplies for 1947-48 by \$147.68.

.....3

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2. Wage items for 1947-48 were detailed rather than shown by gross amount, due to the difference in handling board deductions and Workmen's Compensation, a portion of which was paid by the wage earners prior to April 1, 1948.

3. Contractor's Prime Cost of \$39,094.72 is the total after deduction of \$5.00 rebate on empty gas drum, but does not include payroll deduction of \$416.70 for meals. This means that the 10% credit to fee account totalling \$3909.47 was figured on Contractor's gross cost less \$5.00 rebate on empty gas drum.

Re: Hay River Indian School
Buildings.

With reference to accounts incurred by Peter Mattson prior to June 1st of this year, I am returning the accounts forwarded to Mr. R.A. Hoey, Director, Indian Affairs Branch, under cover of your letter dated August 17th, your file C.R. 12967-2, C.E. Misc. 4-1.

I am sure you will agree that it would not be advisable for us to continue paying accounts covering the above project, even though they are dated prior to June 1st. You have representatives in the field who are competent to certify accounts and acknowledge receipt of supplies. You will have received by now, my letter of August 18th informing you that the unexpended balance was being transferred to the Indian Affairs Branch, which leaves our Branch without funds for the above project.

Ottawa, September 18, 1948.

Col. B.F. Neary,
Supt. of Education,
Indian Affairs Branch,
Capitol Theatre Building,
O t t a w a.

In order that you might be informed of the building progress at Hay River, I quote from a letter received on August 26th last.

Forwarded to Neary
"The school building itself is progressing slowly, mainly due to non-delivery of ordered materials. Mattson, however, has informed me in general discussion, that it is his plan to put on as many carpenters as he can possibly secure within limits to rush the main building to completion for use this fall. At the present date, the main building is in the studding stage on the upper floor and is sheathed in with ship-lap on the main floor. Foundation work, which is a large factor in the type of building being erected, is of course, completed. Continual rain throughout the last ten days has kept the crew from working most of the time.

The teacherage itself is much further advanced as is the boiler room attached to it. Shingling and outside finish has been completed and much of the inside work also. My personal estimate (and I wish to stress the point that it is only an estimate), is that the teacherage may be ready for occupancy by the end of September and the mail school building itself, possibly a month later if the ordered materials arrive in the near future. To substantiate such an estimate, I would prefer that you contact others in the area to get their idea".

DEPARTMENT OF PUBLIC WORKS

Ottawa, 24 September, 1948.

Director - Indian Affairs Branch,
Department of Mines and Resources.

Enclosed is copy of letter from our District Engineer W.J. Johnston in Edmonton querying the standing of Mr. Peter Mattson who was contractor for the erection of the school and teacher's residence at Hay River, N.W.T., when the work was being done under your department. Mr. Johnston is not sure as to how Mr. Mattson should be dealt with from the 1st June, 1948, on which date we took over the construction of these buildings from your Department. Will you please let me have a full explanation of the standing of Mr. Mattson so that I can inform our District Engineer.

(Signed) R. Blais
Chief Engineer.

RE: Hay River Indian School Buildings,
Peter Mattson, Contractor

Your memorandum of September 24, 1948, file C.E. No. P P 62, addressed to the Director, Indian Affairs Branch, dealing with the payments due Mr. Peter Mattson as contractor has been referred to this office for reply.

The contract for the construction of a four-room Indian Day School and teachers' residence at Hay River, Northwest Territories, was awarded to Mr. Peter Mattson under authority of Order in Council P.C. 3269, dated August 14, 1947. It was soon realized that Mr. Mattson was not in a position to finance this construction operation from his own resources. As there was no other qualified contractor available in the district to take over the work, it was decided to continue the contract with Mr. Mattson and to assist him in financing the project by paying all accounts promptly as they came due.

It was also decided that since there would have to be a hold-back on Mr. Mattson who was working on a 10% cost plus basis, advances to him would be limited to what would be paid a foreman. This advance which was accountable against his 10% fee was set at \$300.00 per month. In addition to this monthly advance he was given \$500.00 as an accountable advance against his fee, when it appeared that he lacked sufficient financial resources, to provide him with ready money for expenses payable in cash.

It is hoped that the above explanation of the arrangements made to enable Mr. Mattson to carry on the work will clarify for you the procedure which we followed in making payments to him. These arrangements seemed the best at the time but we are aware of no reason why you could not amend them as you see fit within the terms of the Order in Council and the contract with Mr. Mattson, to meet changed conditions.

Director.

 C.R. File - PP 62.

R. BLAIS, CHIEF ARCHITECT, P.E.C. - J. T. T. A. B. A.

I am replying to your letter of September 24th - C.R. File PP. 62 - asking a report on the progress of school buildings at Hay River and other points.

Extracts made
 1-5

RE HAY RIVER: - Work on this project has not progressed at too rapid a rate owing to the difficulty in obtaining sub-tradesmen as required. This refers to plumbers, heaters, electricians, and sheet metal workers for hot-air furnace and duct installation. This has resulted in having to keep the carpenter crew at a smaller force than would otherwise be the case. However, all these tradesmen have either recently been at that point, or are engaged there now, so that it will be possible shortly to add more carpenters to the labour force. An estimate was given by Mr. Mattson on September 22nd, that with the crew then engaged, the project could be finished in January. However, as soon as it is practicable to do so, I am adding as many carpenters as appears reasonable for the size of the job, so as to be assured of completion during the present calendar year.

1-5

RE ROCHER RIVER: - The 2-Classroom Day School and Teachers Quarters has been erected and has outside finish on the walls and a built-up tar and gravel roof recently completed by a roofing contractor from Edmonton. The roughing-in has been done for electricity. The hot-air furnace and heating ducts are now being installed. It was not possible for the plumbing contractor to deliver materials to destination this year, owing, in part to the lateness in which the contract was let, and also to the fact that there are only about four boats per season from Fort Smith to this point. Carpenter work has advanced to a point where three carpenters could finish by early December. Work on this project was closed down for the season on the 16th instant, largely due to the impossibility of having a generator delivered, which was necessary for operation of the blower in connection with the hot-air furnace. I wrote you by letter #2961 on October 6th, in reference to specifications calling for a fully automatic electric generating machine, and the reluctance of firms to supply this unit. I am still awaiting your instructions if a manually controlled machine could be installed.

So far as I know, no desks or schoolroom fittings have been received at Rocher River, and there is no furniture on hand for the teacher's quarters. In fact the arrival of these fittings, furniture, and so forth, at a settlement where there is little, if any, warehouse storage space, presents a problem and it is doubtful if such should be delivered until the school building is ready to receive these articles, which represent a considerable investment. It should, however, be possible to begin work next spring on the school project and have it completed early in June when the first boat arrives there. Incoming shipments of furniture, classroom supplies, fittings, rations for the teacher, and so forth, should be scheduled to arrive on the first boat arriving at Rocher River next year. That would permit the opening of school by July 1st if this were desired.

PUBLIC ARCHIVES
 ARCHIVES PUBLIQUES
 CANADA

POOR COPY

RE FORT NORMAN: - A carpenter crew is engaged at Fort Norman and is being retained there over freeze-up. The building is closed in with siding in place, and a tar and gravel roof has been proceeded with so as to protect the building, but not wholly completed, cold weather in the late fall preventing its completion. Electrical work has been completed, hot-air heating installed, and in operation. The carpenter crew will finish, it is expected, during January. At that time the class could be transferred if desired, from the present temporary quarters, to the new school building. The alternative would be to retain the school in its present quarters until the spring or early summer, when the weather would not be too severe for the transfer. This, however, is a matter for local decision. Some work will be needed next year, such as outside painting, installation of plumbing, and other small items of unfinished work.

RE FORT FRANKLIN: - Practically all materials have been delivered at Great Bear River and are held in storage there over winter. This Department had several prefabricated buildings erected during previous years at Great Bear River and also had a crew of men ^{at} work there during 1948. This crew had the materials for Fort Franklin placed within the prefabricated buildings, and also under our tarpaulins and tent shelters which were erected. It is intended to move the materials to destination at first barde in June, 1949.

RE FORT GOOD HOPE: - Practically all materials have been delivered at this point. The materials are either stored in a local warehouse, or within the shed which was erected by this Department on the school property. Thus sufficient materials are on hand to warrant beginning this work when weather conditions permit in 1949.

RE ARCTIC RED RIVER: - The bulk of materials have been delivered at this point and placed within existing buildings, or under tarpaulins, tents, and so forth. It would appear work could begin here in 1949 when weather conditions permit.

RE COPPERMINE: - Approximately 50% of the freight has been delivered at this point and is properly warehoused or stored for over winter. A quantity of gravel was also delivered in readiness for construction next year. Some 90 tons of freight is in custody of Hudson's Bay Company (Mackenzie River Transport) at Tuktoyaktuk - some 100 miles north of Aklavik. This material will be forwarded but cannot reach Coppermine until the latter part of July 1949.

GENERAL REMARKS: - The question of delivery of class-room furniture and fittings; of furniture and supplies and foodstuffs for the teacher's quarters, is one which should be given attention. If these articles are not ordered and delivered in 1949 it will mean that the programme of classroom instruction may be deferred a year, in the event of the buildings being completed and no fittings on hand for them. Thus all supplies should be ordered and sent forward for delivery, as follows:

Rocher River: to reach Waterways May 15th for forwarding by Hudson's Bay Co.

Hay River: to reach Waterways May 15th for forwarding by Northern Transportation Company;

Fort Norman: to reach Waterways May 15th for forwarding by Northern Transportation Company;

Fort Franklin: to reach Waterways Aug. 1st for forwarding by N.T. Company;

Fort Good Hope: to reach Waterways July 15th for forwarding by N.T. Company;

Arctic Red River: to reach Waterways July 15th for forwarding by N.T. Company;

Coppermine: to reach Waterways May 15th for forwarding by Hudson's Bay Co.

A spare copy of this letter is attached in case you may wish to submit same to the Indian Affairs Branch for attention of its Department of Education.

R. Blais, Esq.,
Chief Engineer,
Department of Public Works,
O t t a w a, Ontario.

Dear Mr. Blais:

I am in receipt of your letter of October 20th enclosing a copy of a report received from District Engineer Johnston covering the school buildings for which he is responsible. It is noted that the following schools will not be completed during the current fiscal year:

Hay River; Rocher River; Fort Norman;
Fort Franklin; Fort Good Hope and
Arctic Red River.

As we will soon be preparing our estimates for the fiscal year 1949-50, I would appreciate it if you could let me have an estimate of the amount that will be required to complete each of the above buildings so that funds may be provided in the appropriation for the next fiscal year.

The Copper Mine School is not under the jurisdiction of this Branch.

Yours sincerely,

Director.

DISTRICT ENGINEER'S OFFICE

9937 - 103 St., EDMONTON, October 29, 1948

27830

Mr. Bernard F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA - Ontario.

Dear Sir:

I acknowledge your radiogram of the 25th instant advising that 60 school desks had been ordered on June 28th for delivery to Department of Public Works at Hay River. I have a radiogram, dated October 25th from the representative of this Department at Hay River stating that 60 school desks have arrived at that point.

In your radiogram of October 25th you stated you intended ordering teacher's furniture when advised regarding the address. In your radiogram of October 23rd you wished to know the best means of transportation to Hay River. I have a report today from the Contractor at Hay River, reading as follows:

"EXPECT TO HAVE TWO CLASS ROOMS READY FOR SCHOOL
WITHIN TWO WEEKS WITH THE EXCEPTION OF PAINTING".

It will thus be seen that this project is reaching a stage where the completion date draws closer. There are, however, some shortages in materials and miscellaneous items which I am still endeavoring to obtain and which are in very short supply. Even if two class rooms are nearing completion I doubt if classes could be set up while construction is going on in this building. Every effort is, however, being made to have the building completed this calendar year, but I could advise you more closely in this respect in a month's time.

In regard to shipping teacher's furniture to Hay River, it is doubtful if bulky material of this kind should be sent by truck over the highway beyond what is immediately necessary for the teacher to set up housekeeping. I would suggest that the essential items might be shipped as follows:

DEPARTMENT OF MINES AND RESOURCES - SCHOOL PROJECT -
HAY RIVER, N.W.T., via NORTHERN ALBERTA RAILWAYS FREIGHT TO PEACE
RIVER, CARE OF SANDMAN & COMPANY.

The address of Sandman & Company is. "Faust" Alberta, and they should be notified when shipments are being made so they can arrange to collect same at Peace River.

From my knowledge of Hay River I would judge, with the school desks already supplied, that sufficient are on hand to set up classes at that point. Whatever balance of schoolroom equipment is necessary, and also the balance of household furniture, fittings and so on, should be held until opening of navigation on May 1st, 1949, and shipped as follows:

SUBJ. Building Programme

C.R. FILE NO. 12967-2

C.E. FILE NO. Misc.4-1

30483

November 10, 1948.

Director,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa.

Under date of June 19, 1948 I wrote to you stating that District Engineer W. J. Johnston, who had taken over the completion of the four-classroom day school and teacherage at Hay River, N.W.T., estimated the cost of completion of this work at \$17,000. and asked if you could arrange to have this amount placed in your Supplementary Estimates.

Under date of October 21, 1948 Mr. Johnston reported that the amount now required to finish this school was \$25,000. Copy of this letter is attached. As there seems to be some question as to the necessity for this full amount or whether some of it could be provided out of funds already authorized, he was asked to check his statement and say whether the \$25,000. was the total required to complete the construction of the school and teacherage in the current fiscal year and whether any money would be required next year or not. He replied under date of November 3rd, copy of which reply is also enclosed, and it will be seen that the full \$25,000. is required. May arrangements be made, please, to have this money obtained from some source and transferred to this Department so it may be encumbered for use of the District Engineer in completing this work.

In this connection I would call attention to the fact that we have today received a wire from Mr. Johnston stating that the necessity for this money is

P.W.D. 9

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES

urgent and that if he does not receive it immediately, he will have to close down the work. As a result of telephone conversation between our Mr. Anderson and your Mr. Phelan I have sent a wire to District Engineer Johnston that \$8,800. is being made available immediately and that the remainder of the \$25,000. will be available next week. It is hoped that you will be able to make it available by that time.

R. Blais
R. Blais,
Chief Engineer.

Hay River

9937 - 103 Street, Edmonton, Alberta. October 21, 1948.

C.R. File: 12967-2
C.E. File: PP 62 (Misc. 4-1)

R. BLAIS, CHIEF ENGINEER, OTTAWA.

It has been practically impossible up to now to give you an idea of the cost of construction of the four-classroom day school and teacher's quarters at Hay River, N.W.T. This was by reason of the fact that this Department (Public Works) took over the project after it had been started, and there was not a clear idea immediately of what materials had been ordered and what were still necessary to obtain. It has taken some time to collect this information.

A summary of the situation insofar as the Department of Public Works is concerned, and, neglecting previous expenditures and authorizations, is as follows:

Accounts received some time ago and awaiting funds	\$ 900.00
Paylist for two-weeks' period up to Oct. 16th	2,300.00
Additional outstanding accounts now on hand	<u>2,650.00</u>

Total of outstanding accounts at present	<u>\$5,850.00</u>
--	-------------------

Estimate of cost to complete work:

Labour - Paylist for four pay periods of two weeks at \$2,300.00 (assumed to Dec. 11/48)	9,200.00
--	----------

Materials - Additional purchases to be made (including generator at \$4,000.00) and contingencies	<u>9,950.00</u>
---	-----------------

Total	<u>\$25,000.00</u>
-----------------	--------------------

May the amount of \$25,000.00 be released at once to the District Treasury Office here to pay outstanding accounts and also expenses which will be incurred in the near future. For Estimate purposes I have given a completion date of December 11th for this project, but it may not be possible to reach this objective. There is now a considerable labour force at work here and work should be speeded up from now on. There would, however, be an unnecessary expense in adding to the present

C.R. File - 12967-2
C.E. File - Misc.4-1

R. BLAIS, CHIEF ENGINEER, PWD - O T T A W A.

I acknowledge your letter of the 23rd of October in reply to my letter No. 3208 of October 21st in which I ask that \$25,000 be released to the District Treasury Office, Edmonton, in order to pay outstanding accounts, and the further sum necessary to complete the 4-Classroom Day School and Teacherage at Hay River, N. W.T.

In paragraph three of your letter you state the Chief Treasury Officer has pointed out there was a balance on hand in the District Treasury Office in Edmonton of about \$5,700 at the end of September. The books in the District Treasury Office here close around the 22nd or 23rd of each month in order to comply with expenditures being made on behalf of the Department of Transport. Thus when my letter of October 21st was written it was practically a month after the closing of the books for the month of September in the District Treasury Office. My letter was written after checking with the District Treasury Office here and learning that their funds were practically exhausted.

Attached hereto is the most recent statement received, of the progress of work at Hay River, N.W.T. for period October 17th to 30th. It will be noted by this report that everything is going ahead in full swing for a project of this size.

Paylist for period October 17th to 30th has just been received amounting to \$2,983.47, before deductions have been made. There is at present engaged on this project the following:

Peter Mattson (Contractor)	1
Carpenters	12
Carpenter Helpers	3
Bricklayer and Helper	2
Painter	1
Labourers and Watchman	3
Cookhouse Staff	3
TOTAL -	25

From this it will be seen that every effort is being made to complete this project as fast as possible consistent with its size. Hot air heating has been completed, electrical installation is about completed, and in the Teacherage only, the plumbing is about finished.

Every effort is being made to complete this project during the calendar year, or at the most to have it so far along so that the completion would be not later than the middle of January, 1949.

Heavy commitments have been made for purchase of materials and I am still receiving requests for small amounts covering shortages which have developed, in order to complete the project. It must be stressed that the amount of \$25,000 is considered necessary; furthermore, that I had no part, whatever in the inception of this project and knew nothing of its earlier costs until sometime after I assumed control of the Project on June 1st. Thus, without any further delay, the amount of money should be made available at once.

(over)

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

POOR COPY

No provision has been made for purchase of an electric generator and this is necessary for lighting and also to operate the fan in the school which regulates the hot air heating. In fact, without this fan, electrically operated, the hot air system cannot be made to function efficiently. I am, however, withholding making an expenditure to the amount of \$4,000 until I am assured that money will be made available to complete the project. It is inconceivable at this time that the project so far advanced and with all steps taken to assure its completion, should be delayed at this stage by not having made available to it the money to complete it.

HAY RIVER, N.W.T.
November 1, 1948.

PROGRESS REPORT FOR THE PERIOD OCTOBER 17th to OCTOBER 30th

On the school -

Glass brick windows and chimney in the school were put in during this period. The heating installation is now completed and the electrical work is roughed in. Work has been going ahead rapidly on the two upstairs classrooms. These two rooms now have the insulation and gyproc on and the carpenters have started laying the floor. Painting is going ahead on the school and within a day or two the outside primer coat should be on.

On the residence -

The outside stairs are ready except for the railing. The plumber is still at work but will be able to give all plumbing a test within a few days. The electrical fixtures in the residence have nearly all been hung. Remaining fixtures to be hung are in the kitchen. The bricklayer has a good start on the residence chimney.

Outside toilets -

Asbestos shingles and metal cans are all that remains to be done.

Concrete footings are in for two oil tanks.

C.R. File 12967-2
C.E. File Misc.4-1

R. BLAIS, CHIEF ENGINEER, PWD - OTTAWA.

In connection with the school project at Hay River, N.W.T., Mr. Peter Mattson entered into an arrangement with Whalen Insurance of Yellowknife, N.W.T., for Public Liability and Workmen's Compensation Insurance; at least that is what I understand up to the present, although I am asking further particulars from the Insurance Company. I am also requesting a copy of the Policy.

It was in order for Mr. Mattson, as a Contractor, to do this, as he had no protection otherwise from claims of his workmen in case of injuries. The rate charged is 3½%, and the payroll is currently running around \$3,000 each fortnight. Thus per month, the premium will be in the vicinity of \$225.00.

This Contract is being carried out under an arrangement at present which practically amounts to the Department doing the work on a day labour basis, with Mr. Mattson providing the supervision. In other words, the Department does all purchasing and pays such accounts, and also pays the payrolls, similar to a day labour project.

It might be possible to eliminate this charge to Whalen Insurance if the project were to be continued for any length of time, but I anticipate it will be concluded about the end of this calendar year and it might not be worthwhile making a change.

I would, however, like to know that this Department pays to the Province of Alberta for Workmen's Compensation and benefits on its day labour projects. I would then have a comparison of costs of the two forms of Insurance.

Department of Mines and Resources,
Ottawa.

Enclosed is copy of letter No. 3559,
dated November 12th, from District Engineer W. J.
Johnston regarding the payment of insurance
premiums in connection with the work on the school
project at Hay River, N.W.T.

We are a little hazy here as to the
position of Mr. Mattson with regard to this work
and consequently have hesitated to cancel arrange-
ments which he has made. As Mr. Johnston points
out that the work should be completed here about
the end of the calendar year, it is presumably
not worth while making any change in these
insurance arrangements. However, if you wish any
change made in the present arrangement, will you
please let us know so that Mr. Johnston may be
notified immediately.

MEMORANDUM

Re: Hay River Indian School Buildings, Insurance.

With reference to your memorandum of November 27th to which you attach copies of letters from the Chief Engineer of the Department of Public Works and from Mr. Johnston, District Engineer for Public Works at Edmonton, the insurance question was dealt with and disposed of finally prior to turning the Hay River School Buildings project over to the Department of Public Works.

The contract with Mr. Mattson dated March 10, 1948, Section 2, Clause A, subsection 4, reads as follows:

"To insure all workmen employed on the work against injury, or death, resulting from their employment on the work."

Mr. Mattson accordingly took out a Policy with the Whalen Insurance Company on January 12, 1948. We tried to get the Employees' Compensation Division, Department of Transport, to accept responsibility for the Hay River Workmen under the Employees' Compensation Act, but were unsuccessful, in spite of the fact that Mattson's men were paid by Government cheque.

D.M. MacKay, Esq.,
Director,
Indian Affairs Branch,
Department of Mines and Resources,
Booth Building,
165 Sparks Street,
Ottawa, Ontario.

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

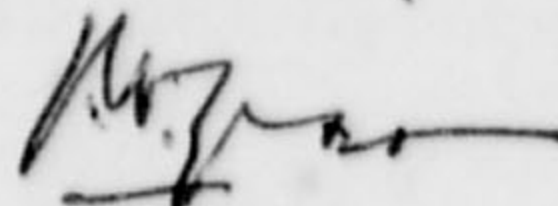

POOR COPY

We could hardly permit the employment of men without protection of any sort, and we therefore had to approve Mr. Mattson's action in taking out Workmen's Compensation Insurance.

Mr. Johnston refers to Public Liability Insurance in his letter of November 12th to Mr. Blais. The only Insurance paid for in this Branch was Workmen's Compensation. In fact, Mr. B.G. McIntyre, Comptroller of the Treasury, wrote Mr. E.A. Sawyer on March 24th that in his opinion it would not be proper to pay for Public Liability and Property Damage Insurance on the Hay River Project. Mr. McIntyre has since made it clear that his letter to Mr. Sawyer dated March 24th, does not refer to Workmen's Compensation Insurance.

We passed to Treasury all invoices rendered by the Whalen Insurance Company on account of Workmen's Compensation Insurance to May 31, 1948, and Treasury paid the accounts.

We have no definite information on the rate of insurance paid to the Province of Alberta by the Department of Transport for workmen employed by the Dominion Government. We do know that the Whalen Insurance Company's rate is below the rate charged by the Alberta Workmen's Compensation Board in all ordinary cases. In any event, the Employees' Compensation Division of the Department of Transport, has refused to insure Mr. Mattson's workmen under the provisions of the act, as noted in the fourth paragraph of this memorandum.

Director.

Mr. L.C. Hunter,
Superintendent,
Indian Agency,
Fort Norman, N.W.T.

The Department finds it necessary to return your voucher No. 178. From the wording on the voucher it appears that the charge was incurred in connection with freighting materials required for the erection of the Hay River School. If so, the account should be forwarded to the District Engineer of the Public Works Department under whose direction this school is being constructed.

PM
The Indian Affairs Branch provided the funds for the cost of the school but all of these have been transferred to the Public Works Department and consequently this account and any others of a similar nature should be forwarded to the District Engineer, Public Works Department, Edmonton, Alberta.

Bernard F. Neary
Superintendent of Education.

Confirming telephone conversation between our Mr. Gilbert and your Colonel Neary this afternoon re additional funds required for Hay River, in the amount of \$15,000., I am enclosing herewith copy of letter #4252 dated January 5th, 1949, from the District Engineer at Edmonton explaining the necessity for this increased amount. There is also enclosed, copy of progress report showing the status of the school construction as of January 1st, 1949.

Kindly advise at your earliest convenience if and when these funds will be made available.

EVG/S.

C.R. File 12967-2
C.E. File - Misc.4-1

R. BLAIS, CHIEF ENGINEER, PWD - O T T A W A.

I wrote and telegraphed you recently in respect to placing an order for an electric generator amounting to \$3,997.00 c.o.b., Edmonton, which is required at Hay River, N.W.T. There will be charged for transportation and also for sending an electrician to Hay River especially to install this generator.

The delivery of this generator is very urgent and I am asking authority to purchase. I have, however, pointed out that there are no funds available for it.

A statement of outstanding funds required as at this date, is as follows:

Accounts Outstanding (which includes account for gravel purchase)	\$ 7,000
Purchase and installation of Generator	\$ 5,000
Additional required for contingencies	\$ 3,000
Total -	\$ 15,000

The costs of this school have mounted beyond what one might normally expect. It is being operated on a cost plus Contract and has all the disagreeable features of such an arrangement. It is hoped to have the bulk of the construction finished by January 31st, although it is known that the generator will not be delivered and installed as at that date.

Attached is a brief statement showing progress of work as at January 1st, 1949. This report was received from Mr. T. Newcomen who is now on duty on behalf of the Department at Hay River.

May an amount of \$15,000 be encumbered at once please, and also authority received to purchase the generator

W.J. Johnston
W.J. Johnston
District Engineer.

PROGRESS REPORT - INDIAN SCHOOL

Up to January 1, 1949

School Building:

Ground Floor - East Entrance Hall and Stairs - Completed except for stair railings and floors to be sanded - no hardware.

North Classroom) Floors completed except for sanding.
South Classroom) Walls completed except for baseboard.
Cupboards and bookcases completed.
Hardware required.

West Entrance Hall and Stairs: Floors 60% laid. Stairs complete except railings. Walls 60% covered.

North Future Laboratory: Floors completed. No gyproc on walls, Ceiling completed. Doors and hardware required.

South Future Lavatory: Same as North Lavatory except gyproc on walls started.

North and South Coatrums: Ceilings completed. Walls 60% gyproc. Hardwood floors not laid. No hardware.

Second Floor: East Hall, North and South Classrooms: All completed except for sanding and hardware.

West Hall, Office, North & South future Lavatories:
also both Coatrums: Completed except for hardware and sanding.

Principal's House:

All completed except for sanding and hanging inside doors. Plumbing incomplete. Tile floors in kitchen and bathroom to be laid.

General Remarks:

Piping to fuel tanks to be connected up. No plans appear to have been made for outlet of sewage water in the Principal's House from bathroom or kitchen.

Temporary heating arrangements are being carried out pending the arrival of the power plant ducts and distributing fan are installed.

Suggested arrangements be made now for an electrician to be flown in immediately the generator is expected to arrive.

D. M. Mackay, Esq.,
Director,
Indian Affairs Branch,
Booth Building, Ottawa.

We are grateful for the courtesy extended by your letter of January 8th, wherein you very kindly agree to make available in your new school building at Hay River the temporary office accommodation required by Superintendent Martin. We note that the principal of the school has been notified concerning this arrangement.

With respect to the necessary janitor services and the heating requirements, no recommendation has been submitted by this Administration for the reason that the Hay River school has been erected by and is under the direction of your Branch. We should, however, be pleased to assist in the selection of the necessary maintenance personnel.

Gentlemen:

Could you please advise me whether you have
as yet received any parcels of furniture for shipping via
your trucks to the Hay River School.

This furniture was ordered from the T. Eaton
Company on November 12, 1948, and was to be sent to Peace
River, Alberta, care of your Company. I would appreciate
being advised as to whether any of these parcels have arrived
at Peace River as yet.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH

Hay River School Accounts.

We have had some considerable difficulty in arranging the transfer of funds necessary to meet payments on the accounts handed by Colonel Craig to the Superintendent of Indian Education.

This has been due to the fact that we have had to transfer to the Department of Public Works not only the funds necessary for the completion of Rocher River and Fort Norman but also the following additional sums:

Fort Good Hope	\$17,000.00
Arctic Red River	12,000.00
Fort Franklin	14,000.00
Hay River	15,000.00

The first three amounts are for the purchase of materials and the payment of freight charges. The final amount is for additional funds required at Hay River above those already transferred to the Department of Public Works and in addition to the \$34,000.00 required by your Branch.

As soon as Treasury Board approval has been obtained for the transfer of the sum required by your Branch for the payment of these accounts, we will set up the necessary E. R.

It is noted that Mr. B. Douglas of your Branch arranged for the ordering of most of these supplies. Therefore the accounts are being returned for your necessary action when the funds are transferred.

R. Blais, Esq.,
Chief Engineer,
Department of Public Works,
O t t a w a, Ontario.

Dear Mr. Blais:

I am in receipt of your letter of October 20th enclosing a copy of a report received from District Engineer Johnston covering the school buildings for which he is responsible. It is noted that the following schools will not be completed during the current fiscal year:

Hay River; Rocher River; Fort Norman;
Fort Franklin; Fort Good Hope and
Arctic Red River.

As we will soon be preparing our estimates for the fiscal year 1949-50, I would appreciate it if you could let me have an estimate of the amount that will be required to complete each of the above buildings so that funds may be provided in the appropriation for the next fiscal year.

The Copper Mine School is not under the jurisdiction of this Branch.

Yours sincerely,

Director.

Extract from Mr. Johnston, District Engineer
dated October 18th on an Inspection of the Hay
River Day School.

RE: HAY RIVER:

Work on this project has not progressed at the rapid rate owing to the difficulty in obtaining sub-tradesmen as required. This refers to plumbers, heaters, electricians and sheet metal workers for hot-air furnace and duct installation. This has resulted in having to keep the carpenter crew at a smaller force than would otherwise be the case. However, all these tradesmen have either recently been at that point, or are engaged there now, so that it will be possible shortly to add more carpenters to the labour force. An estimate was given by Mr. Mattson on September 22nd, that with the crew then engaged, the project could be finished in January. However, as soon as it is practicable to do so, I am adding as many carpenters as appears reasonable for the size of the job, so as to be assured of completion during the present calendar year.

Shipping instructions as follows:

To reach Waterways May 15th for
forwarding by Northern Transportation Company.

Ottawa, Ontario.

Re: School Situation - Hay River

I beg to advise you that I left Fort Smith on the afternoon of the 17th and proceeded to Yellowknife, leaving Yellowknife at 8:00 am., on the morning of the 18th for Hay River. Remained at Hay River until 3:00 p.m., on the 19th, and returned to Fort Smith from Yellowknife on the 20th instant.

On arriving at Hay River I met Col. Newcomen, Engineer of the Department of Public Works, who was sent to Hay River in December by W. Johnston to supervise the contractor in the construction of the school. I might say that I was very surprised at the advance in construction made on the school building since my last visit to Hay River on November 18th. There remains considerable work to be done, particularly on the ground floor. The 2 classrooms on the upper floor have been completed and painted, and there remains only a small amount of varnishing, the sanding of the floors and laying of the 1/4 round. On the ground floor there is a considerable amount of interior finishing to be done, and all of the painting.

I was informed that there is still a shortage of material, which Col. Newcomen had listed and which had not arrived, including the accordion doors which separate the two lower classrooms.

There is no doubt but that the contractor has been badly handicapped by the lack of electric power, and, as a consequence, adequate heating and lighting. No generator has, as yet, been secured, and I took immediate steps to see what could be done. I sent a wireless message to Mr. McNiven to see if one could be found in Yellowknife, but on my arrival there on the 19th was informed there was no generator of a size which would be suitable, they were either too small or too large, and the expense of shipping one of the larger machines over would be prohibitive.

The small generator moved to Fort Smith by Mr. Oldham from Trout Lake is exactly right for this job. This generator was loaned

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the R.C.M.P., until our new installation here was completed. I requested the return of it in November but was informed by the N.C.O. in charge that the generator was under seigure as stolen equipment and could not be released.

While in Yellowknife, I contacted Mr. Hunter, Department of Transport, from Edmonton, and he informed me his department were quite willing to turn this generator over to the Department of Mines and Resources and had no objection whatever to the generator being sent to Hay River. I understand all equipment at Trout Lake was taken over from the U. S. Army by the Department of Transport, therefore, I can see no reason why the R.C.M.P., could not release this generator. We could send it to Hay River in our plane, as I will be returning there in a few days.

Now to deal specifically with the complaints made by the Board of Trade.

It seems that no one has visited Hay River in connection with school matters since March of last year, and, consequently, those responsible have not a clear picture of the requirements of the settlement. There are at present 86 children of school age, and school desks for 40 pupils only have arrived. The principal also informs me that no school books, chalk or other required supplies are one hand -- he has no idea whatever if they have been ordered or when they will be received. Immediate steps should therefore be taken to order, and have shipped, an additional 60 desks, together with all the required text books, etc.

As there will be a large number of native children attending the school, the citizens are concerned that no x-rays have been taken in Hay River. Many of them state that they will not send their children to school to be confined in a closed space with other children who may have active tuberculosis. I think their stand has some justification. Would it be possible for the Charles Cammell Hospital to send in a portable x-ray unit with the required medical and technical personnel to carry out x-rays of the Hay River population?

Adequate provision does not appear to have been made for sanitation in the school, although there are washrooms, both upstairs and downstairs the only toilets are outside ones; no pits have been dug nor have any receptacles been provided. Would it not be possible to place sanitary closets in the school, which could be attended to at regular and necessary intervals by the janitor? This would be a much more satisfactory arrangement for the winter months, and the outdoor toilets would be quite satisfactory during the summer months.

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The principal, who appears to be a competent teacher, states that he will not be able to adequately attend 86 pupils, and that it will be necessary to have 1 more, and preferably 2 more teachers. I understand that about 60 of the 86 pupils will be in the primary grade, and the other 26 pupils will be from grades 4 to 10. The principal is obtaining this detailed information, which will be forwarded to his department within a short time. It does seem, however, that there should be 2 primary teachers for this year.

We estimated the population of Hay River in August to be between 400 and 500. I am informed by the Fisheries Inspector there have been 515 individual fishing licences issued for the vicinity of Hay River, which does not include Yellowknife. Of these, it is estimated that over 400 are newcomers. With the increased quota allotted by the Fisheries Department, the fishing industry will no longer be seasonal; and I think it is safe to assume that many of these fishermen will bring their families to settle in Hay River this summer. The Board of Trade think that the number of pupils who will be attending school at the commencement of the fall term this year will be increased to about 120, and I think this figure is not an over-estimate. Arrangements should be made accordingly.

When the principal arrived in Hay River, no accommodation being immediately available, he lived with the R.C. priest, and some of the parents complained about this. It looked as though there might be a few narrow-minded people who would object to their children being taught by a teacher of the R.C. faith. We had a discussion on this point, and I pointed out that teachers were not selected on the basis of their religious denomination, and that at Yellowknife and Fort Smith no such question had ever arisen. Religious instruction is not a part of the curriculum. The complaint was settled very amicably indeed, and I sincerely hope we will hear nothing along this line again.

The Board of Trade complained that the Medical Health Officer at Fort Resolution does not visit Hay River at frequent intervals. In their opinion, the school inspector should be at Hay River when the school opens in order to assist in the organization of classes and meet with the Board of Trade from time to time.

When the meeting with the Board of Trade concluded, they expressed their thanks and appreciation of my visit and of the

assistance I had been able to give them, and I assured them that their representations would be presented to the proper officials and that they would receive immediate and earnest consideration.

Re: Day School- Upper Hay River.

In reference to your letter, File 131-18-1 (E)
re buildings at Upper Hay River.

I have just returned from Hay River, and wish to
advise that the buildings referred to, were torn down over a
year ago, by the Yellowknife Transportation Co. The Floors
belonging to the building are still almost intact, and could be
used, but most of the material has disappeared, and all the
5 Ply Veneer ruined, as it was all left exposed to the weather.

There is a seizure notice on what is left by the
Provincial Lands & Mines, so they apparently are going to use
what is left. My valuation of the lumber etc. that could
still be used is \$300.00, that is for the foundations and floors
left out of the three buildings, besides rafters and sections
still left.

I would suggest that this material be taken over
as very soon it will all disappear. A school at Hay River
is needed, also at Hay Lake and Little Red River, and think
education is the only solution for the disgraceful conditions
existing today. You will find the Indians will co-operate
when it comes to building, and a start should be made at once.
Schools in this part of the country need not be expensive or
elaborate, and children even if only counting marbles, ought to be
in school. Health education alone would do more to help stamp
out T. B. than the Camsell Hospital is doing today.

I have resigned my position here, but will be
always interested in Indians and their education, and I trust
there will be no time wasted in getting something started.

Neil Walker
Neil Walker.
Superintendent.

Dear Sir:-

Replying to your radiotelegram received this day, with special reference to hiring of caretaker^{EX}: There are two men available: Frank Obermuller (holder of a "Class A Electrician" certificate from Victoria, B.C.) and Urie Lehou having had some experience with motors and being mechanically inclined. Mr. Obermuller expects a monthly salary of \$150.00, plus \$45.00 for board allowance, plus a free room in the school, plus a small electric stove. Mr. Lehou would be satisfied with \$150.00 net. The duties to be performed would be the following: 1. Sweeping and scrubbing of

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

the floors in the school building. - 2. Care of Power Plant and two oil furnaces. - 3. Taking off the storm windows, and installing screens.]

The supplying of water and emptying of toilet receptacles would have to be handled by other men, as these two prospective janitors do not have a truck or horses.

Two water tanks (barrel type) of about 50-gal. capacity would do; sorry I have no Eator's catalogue.

No blackboard brushes have been included in shipment of school supplies received about two weeks ago. I would appreciate at least six of them.

I'm afraid I'll need ten window shades 7 ft. long x 4 ft. wide for the two classrooms having southern exposure. Right now the sun is dazzling in these rooms, and I'm sure the pupils couldn't stand it without injury to their eyesight.

Yours very truly,
Herbert B. Lawrence

Mr. Norbert Bellavance,
Hay River, N. W. T.

Dear Mr. Bellavance:

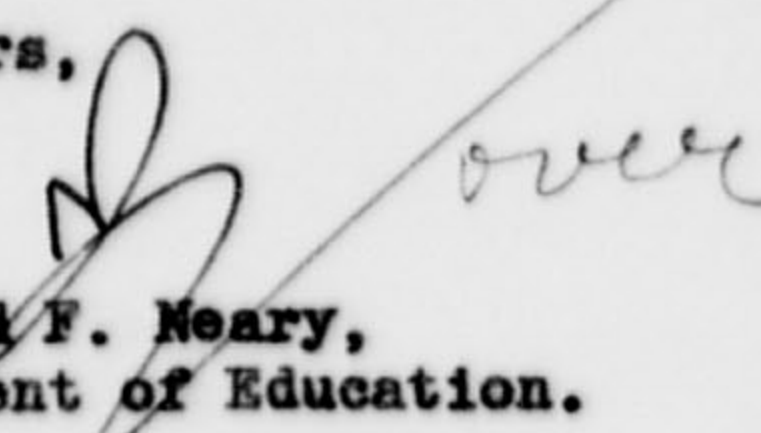

Caretaker, Hay River Indian Day School.

I have received your letter of February 9. As you are aware by now, the Department of Public Works are willing to assume responsibility for providing caretaking services at this school until it is officially turned over to this Branch as a completed project.

Payment of a caretaker in an amount of over \$400.00 a year involves the establishment of a Civil Service position. Therefore, I will be writing to you at further length concerning this matter at a later date.

We are requisitioning the water tank which you require and also the blackboard brushes. We are also requisitioning for the window shades which you need.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH.

Hay River Indian Day School,-

Transportation Facilities.

We have today received a letter from Mr. N. Bellavance, teacher at the above school, reading as follows:-

"I was asked today whether the Department intended to operate a van for the benefit of a few White children who live about 3½ miles from the school.

"I think one of the local Taxis would be willing to transport those children to and from school, providing this service were paid for.

"Please advise whether these transportation costs should be the entire responsibility of the parents concerned."

As these are White children, it is presumed that you will wish to arrange this matter through your local field official.

AIR MAIL

7th March, 1949.

Dr. L.J. Mulvihill,
Superintendent, Indian Agency,
Fort Resolution, N.W.T.

With reference to your letter of the 26th ultimo, I enclose a copy of Purchase Order 35745. You will note that delivery of the articles was to be made by Sandman and Company. We have a letter from them dated 24th January, 1949, which reads as follows:

"We have your letter of the 18th instant re shipments from T. Eaton Co.

There have been two shipments from this firm of roughly 200 and 800 pounds. These have gone forward to Hay River.

We have also forwarded two small express parcels from your dept.

Trusting this information covers your inquiry."

Your letter does not state if you have received the Invoices from the T. Eaton Company. Consequently, we are writing them today requesting that they forward another copy of their account to you. It is hoped that you will have this account returned before the end of this month, as we wish to pay for these goods from the current fiscal year's appropriation.

RE CONTRACT FOR SCHOOL PROJECT -
ORDER-IN-COUNCIL, PC.3269, Aug.14, 1947.

C.R. File 12967-2
C.E. File - Misc.4-1

R. BLAIS, CHIEF ENGINEER, PWD - OTTAWA.

Mr. P. Mattson, Contractor on construction of 4-Classroom Day School and Teacherage at Hay River, N.W.T. has been in Edmonton during the past several days and has discussed with me the possibility of terminating his Contract. Attached hereto is copy of letter from Mr. Mattson in this connection.

I have previously advised you by letter No.4716 on February 16th that this Project was likely to close down soon and the actual stoppage of operations was on the evening of February 21st. There was every reason for closing down work as it would have been continued at an excessive cost.

Attached hereto is a memorandum from T. Newcomen, who was Engineer in charge of this Project during its latter stages. This memorandum sets forth the work remaining to be done under the Contract. It will be noted that some of the work could more economically be done during the warm weather of the summer, and in fact the exterior painting should be deferred until this time.

School sessions are now being held in an upstairs room in the school. However, with the likelihood of more pupils entering school shortly, I believe it is intended that two classes be operated with one teacher in charge. At that time the two classes will be held in the two rooms downstairs and for this reason the accordion doors will be left open so that one teacher can supervise both school classes.

This school Project is still considered under construction and when recently in Ottawa I discussed the matter with Mr. B. Neary, Education Branch, Department of Mines and Resources. I explained to Mr. Neary that I considered the Department of Public Works should retain control of the building until all construction activities were finished and hand over the building as a completed structure. This means that the Department of Public Works is continuing to pay such expenses as lighting, heating, janitor service, and so forth. Such charges may conceivably continue for possibly three months, until all details of construction have been completed. Mr. Neary was agreeable to this proposal.

In the attached letter from Mr. Mattson he wishes termination of his Contract as at close of work on February 21st. He would thus have no interest in, and receive no profit from, any labour which might subsequently be performed. In regard to purchase of materials, this falls into two classes -- (a) -- materials which had just arrived on cessation of work and on which no labour charges had been incurred to place in the structure. (Statement A.) -- (b) -- materials on order but which through scarcity of materials or other causes, have not yet been received. (Statement B). The total for purchase and delivery charges on these two items under (a) and (b) might amount to around \$4500.00. Under the agreement made by Mr. Mattson he agrees to receive no commission on the purchase of such materials. It is considered this arrangement is in the public interest and the best which can be made under the circumstances. I recommend the acceptance of this offer of the termination of the Contract on the terms above outlined.

CANADA

If this proposal is accepted Mr. Mattson will have to supply a statement accompanied by a Statutory Declaration guaranteeing the Department from any defective workmanship, materials, and so forth, for a period of a year. I would like to receive copies of such a form to be completed, if such a statement has been prepared; otherwise if you have any instructions in this matter for me to pass on to Mattson I would be glad to receive same.

A spare copy of this letter is attached for attention of Education Branch, Department of Mines and Resources.

00R-COPY

EDMONTON, Alberta,
March 3, 1949.

Mr. W. J. Johnston,
District Engineer,
Department of Public Works,
9937 - 103 Street,
EDMONTON, Alberta.

Dear Sir:

In reference to a Contract entered into with me by the Department of Mines and Resources for the construction of a 4-Classroom Day School and Teacherage at Hay River, N.W.T., I am writing this letter to you as you are now in charge of the completion of this School Project. As you know, this work was begun under the direction of the Department of Mines and Resources, Surveys and Engineering Branch, who retained control of the Project until May 31, 1948, and since June 1st, 1948 it has been under the control of the Department of Public Works, Canada. My Contract in this connection was prepared on March 10, 1948 and the final papers therewith were signed on March 30, 1948 at Hay River, N.W.T.

The School Project has reached such a stage of completion that I do not feel I should continue as Contractor. All materials which had been received have been placed in the structure and it was considered advisable to close down the work on the evening of February 21st. It would have been expensive and unwarranted to retain carpenters and workmen and keep a cookhouse open after that date, as there were insufficient materials of all kinds on hand for the workmen to proceed.

Another factor which would make it advisable to terminate my contract now, would be the fact that some work should more properly be delayed to the summer season during warmer weather. This refers particularly to outside painting and other small cleaning up work.

Under the terms of my Contract I am not permitted to engage in other activities until the termination of this Project, and under these circumstances I am held bound to the job and unable to take other work. This will prove a hardship and hardly appears warranted with the relatively small amount of work remaining to be done.

I am agreeable to terminate my Contract as of the evening of February 21st and to waive all interest in materials which may still be required under the Contract and have not been supplied or delivered. Furthermore, I waive all interest in outstanding accounts in connection with the purchase and delivery of the generator and other items. These other items (including delivery charges thereon to Hay River) would include -- (a) -- materials just recently received and not placed in the work and shown in Statement "A" attached; -- (b) -- miscellaneous items on order and which, through shortage of materials, have been slow in arriving (See Statement "B" attached). Both Statements are necessarily of a general nature, as I have not complete particulars at hand of all small orders, but outside of the broad statement of fact, the details are not too important.

(over)

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Your field representative can supply you with a statement of the stage of construction reached as of February 21st and the various items of incompleting work now remaining. This incompleting work was in part due, no doubt, to the difficulty of obtaining materials of various descriptions necessary to complete the Project.

Terms of Closing out Project:

If my request for the cancellation of the Contract that work close down as of February 21st is approved, I would like prompt word that my request is approved so that I may make plans for other work. It is distinctly understood, however, - as I understand the situation - that the approval for cancellation of this Project must come from the Head Office of the Department of Mines and Resources at Ottawa, and I will not expect any expenses for living costs or board after my return to Hay River on March 4th (which is the date of my expected return to Hay River).

In reference to Section 3 - Cost Plus Percentage - Item (d), paragraph 2, of the Contract, I am prepared, if the Contract is terminated on the terms outlined above, to furnish a statement accompanied by Statutory Declaration. This would be to the effect that should any faults due to inferior workmanship, materials or equipment, appear in the work within one year from the date of acceptance by the Minister of Department of Mines and Resources of termination of the Contract, that such faults or deficiencies would be made good. In other words, the Statement and Statutory Declaration would be furnished for the Contract being terminated now, just as would be required had I completed the entire Project under the Contract.

Request for Funds:

May I ask that prompt decision be reached in the termination of this Contract, and I would also request, if possible, that a progress payment in the amount of approximately \$8000.00 be released to me as a further advance against my percentage of profit in connection with the Contract. The \$8000.00 immediately requested, is that I may make plans to engage in other activities very shortly.

Yours truly,

Peter Mattson.

Hay River Indian Day School.

Reference your 12967-2 - C.E. File Misc. 4-1

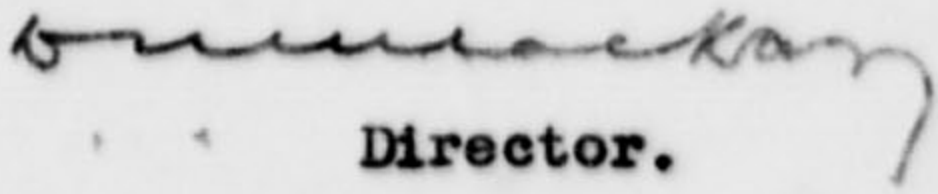

I have for acknowledgment your letter of March 8, 1949. We approve the closing out of Mr. Mattson's contract as recommended to you by Mr. District Engineer Johnston.

I note that you will be obtaining from him a statement accompanied by a Statutory Declaration guaranteeing the Department from any defective workmanship, materials, etc., for a period of a year.

I also note that your Department will retain control of the building until all construction activities are finished and will hand over the school as a completed structure. This means that the Department of Public Works will continue to pay such expenses as lighting, heating, janitor service, etc.

I understand that you have also received a letter from the Director of the Lands and Development Services Branch concerning the payment of Mr. Mattson's board charges. I feel that these should be deducted from the amount due him as there was nothing in the contract covering the payment of his board. I feel that he has been amply paid for his work on this project and that such a deduction should be made.

QUOTE FILE I.A.1856-9

837

Ottawa, March 9, 1949.

MEMORANDUM

Re: Hay River Indian Day School,
Northwest Territories.

With reference to Major Mackay's memorandum of January 18th bearing your marginal notation of the 20th instant, in connection with the above, you are advised as follows:-

The building was equipped with an oil fired forced warm air heating system. The oil burner selected for the job is a pressure gun type and has been arranged for fully automatic operation in accordance with regulations covering this type of system.

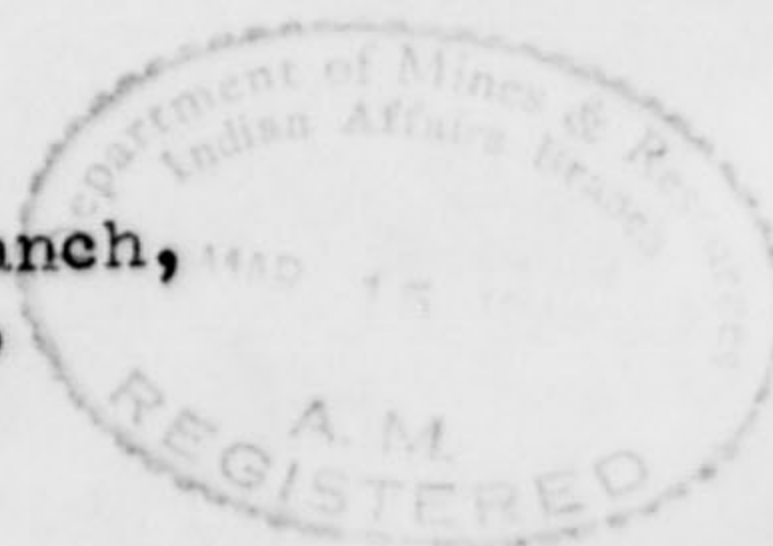

The control consists of a room thermostat which operates an oil burner and runs the fan between normal furnace bonnet temperatures of 120° and 150° F. A protector relay is arranged to stop the burner on ignition failure or excessive bonnet temperatures. The high limit for the bonnet temperatures has been set at 180° F. In addition a switch box and panel are provided.

It is felt that a reasonably intelligent man familiar with normal care and maintenance duties, would be suitable for the post. His duties in connection with the heating system, would involve periodic inspection and cleaning of the burner in accordance with the attached sheet of instructions regarding "Care and Maintenance of Oil Burning Equipment and Furnaces".

In connection with the electrical power supply, we outlined the situation in our memorandum to you dated June 29, 1948, and our recommendation to provide a temporary source of power until a local supply is available, was concurred in by the Director of the Indian Affairs Branch by his memorandum dated August 3, 1948. The Chief Engineer of the Public Works Department was advised accordingly in our memorandum to him dated August 12, 1948.

Since the Public Works Department took over control of this project as of June 1, 1948, this Division has been out of direct contact with the job, and no information appears on our file in connection with electric power developments subsequent to the above mentioned memoranda. We have however, learned through Northwest Territories files, that the Public Works Department has placed an order for a generating unit, about which we have no details, and that they have shipped a unit from Fort Smith on a temporary basis until delivery of the other set can be made. Whether or not the Public Works Department intends using the generating set on order as a permanent source of power supply for the school and principal's residence, is something we can not advise on, and we suggest that Indian Affairs contact that Department for further information in connection with the electrical supply situation.

R.A. Gibson, Esq.,
Director,
Lands and Development Services Branch,
Department of Mines and Resources,
Ottawa, Ontario.

POOR COPY

The duties of the caretaker in connection with the electrical system, will involve normal replacement of lighting luminaires and the care and maintenance of the lighting plant that is on order by the Public Works Department. It will be necessary that the caretaker familiarize himself with the operation and maintenance of this type of equipment. Booklets are usually made available by the manufacturer of lighting plants showing complete details of the unit and methods of operation and care of same. It is assumed that the District Engineer for the Public Works Department at Edmonton requested, at the time of placing the order, that this information be forwarded with the light plant.

J. Mills

Chief Engineer.

Major MacKay

We have asked the Northwest Territories Power Commission to consider whether that body could not supply all the electrical power that would be needed by government institutions at Hay River. Mr. Kosnar of the Engineering and Construction Service has prepared a memorandum for the consideration of the Northwest Territories Council on the 24th instant.

R. A. Gibson
R. A. Gibson,
Director.

Ottawa, February 22, 1949.

Re: Care and Maintenance of Oil
Burning Equipment and Furnaces.

The two main reasons resulting in service calls in connection with pressure gun type oil burners, are ignition failure and nozzle blockage.

Ignition spark is produced by a current sparking between two points called electrodes. After a time, these points become covered with carbon deposits and instead of a spark, arcs may be formed. When this happens, oil is not ignited and the combustion chamber of the furnace or boiler becomes saturated with oil. Consequently if an intermittent spark is produced, an explosion which can result in a fire, takes place.

To avoid this, the caretaker after having been instructed by a competent electrician, should reach in with a soft cloth and rub the carbon deposits off the points. This should be done perhaps once a month to make sure that the points are always clean. No adjustments of the spark gap should be made.

It would be advisable to have as a standby, an extra set of nozzles of the same type as supplied with the burner. Occasionally the orifice opening in the nozzle will become partially or totally plugged. Under these circumstances the nozzle should be removed and the standby nozzles installed. This operation should not take more than about 45 minutes.

The dirty nozzle can then be immersed in a 1/2 pint jar of tetra-chloride and thoroughly cleaned and set aside for replacement purposes. Under no circumstances should the orifice opening be enlarged, as it is carefully sized by the manufacturer to permit the exact amount of oil to be admitted to the combustion chamber in consideration of the burning rate required.

Filters at the oil tank and filters at the burner, should be removed and cleaned when the nozzles are replaced.

Mechanical failures apart from the above, should receive the attention of a skilled serviceman.

We see no reason why the caretaker should not be able to carry out the above normal service operations.

Ottawa, March 10, 1949.

Dear Sir:

Re: Hay River Indian School Buildings -
Peter Mattson's Board.

The Engineering and Construction Division did not charge Peter Mattson board during March, April and May due to the fact that Mr. Mattson operated the cook house at a personal loss up to February 28th. He purchased supplies locally at the Hudson's Bay Company, and the cost would run over \$1.25 per meal. The employees paid fifty cents per meal and the Department paid fifty cents, which means that Mattson took a loss of at least twenty five cents a meal. The Department took over the operation of the cook house on March 1st, reimbursing Mattson for his inventory of supplies on hand.

In our opinion, the free board supplied Mattson during March, April and May would come close to offsetting his losses during the period when he operated the cook house.

Yours very truly,

Director.

R. Blais, Esq.,
Chief Engineer,
Department of Public Works,
Ottawa, Ontario.

C.R. File 12967-2

C.R. File - Misc.4-1

R. BLAIS, CHIEF ENGINEER, PWD - OTTAWA.

I have today sent you the following message --

"SCHOOL CONSTRUCTION HAY RIVER EXPECTED TO CLOSE DOWN
END OF WEEK stop TWENTY THOUSAND DOLLARS ADDITIONAL
REQUIRED IN ORDER TO PAY ACCOUNTS UNDER THIS CONTRACT
WHICH INCLUDES BALANCE OF MATTSON'S FEE PAYABLE BY
THIS DEPARTMENT stop AM WRITING."

[A situation has been reached in the school construction at Hay River, N.W.T., that practically all materials on hand have been used up in the construction. There are some outstanding items of materials on order, principally hardware fittings and odd size doors, which have been slow arriving. This has resulted in it being impossible to complete all carpenter work. Likewise the generator on order has not yet been received. In view of these circumstances, Mr. Mattson has asked that his Contract be terminated and the balance of items not installed would not be considered as part of his Contract.

If the Contract be not terminated there would arise the question of holding a cookhouse open and the possibility of not having sufficient work for any workmen who might be retained as the final small materials were received. In balancing both sides of this question it appears more desirable to terminate the Contract rather than insist that Mr. Mattson remain on the job and place all final fixtures within the buildings. Mr. Mattson is to come to Edmonton on February 22nd, when this matter will be discussed and some agreement reached. All indications point, however, to the advisability of terminating the Contract at this time.

[A statement of bills outstanding, all paylists, and also an estimate of the labour charges until the work is closed down, would indicate that \$20,000 additional is required for this school construction project. This includes the proportion of Mr. Mattson's 10% profit on the total cost of the work as done by this Department, with deductions made for advances granted him on account of this Cost Plus Contract.

No item has been provided for Mr. Mattson's 10% profit while the work was being done by the Department of Mines and Resources, as it is my understanding that that Department will not only pay outstanding charges but also the proportion of profit to which Mr. Mattson would be entitled, up to and including May 31, 1948.

An estimate of the total cost for this Project would appear to be as follows:

SEE OVER PAGE -

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

PAYMENT BY DEPARTMENT MINES AND RESOURCES:

Net Payments	\$ 66,968.61
Outstanding Accounts	26,798.87
Balance of 10% profit to P.Mattson	<u>3,777.14</u>
<u>Total</u>	-- \$ 97,544.62

PAYMENT BY DEPARTMENT PUBLIC WORKS:

Payments to date (approx.)	68,000
Additional amount requested	<u>20,000</u>
<u>Total</u>	-- \$ 88,000.00

Cost of Project (approximately) \$ 185,544.62

There will be under 'Day Labour' a charge of a couple of carpenters and one or two painters for a period of a week or ten days but it is considered these charges can be included within the \$20,000 now asked for.

I am enclosing copy of letter No. 4716,
dated February 16th, from District Engineer W. J.
Johnston in which he points out that he requires an
additional \$20,000. for the Hay River school. Today
a telegram was received from the District Engineer
stating that this \$20,000. is required to pay
liabilities to the close of the present fiscal year
and that an estimated amount of \$7,500. will be
required for the work in the next fiscal year.

These figures do not include Mr.
Mattson's profit while working for the Department
of Mines and Resources nor for any commitments of
the Mines and Resources Department.

As the pay lists for February are being
held and the men are naturally anxious to receive
their pay, it would be appreciated if the funds
could be released as quickly as possible.

R. Blais

R. BLAIS, CHIEF ENGINEER, PWD - O T T A W A.

I am enclosing herewith copy of a report from Mr. T. Newcomen giving a summary of operations on the school at Hay River, N.W.T., for a two month period, approximately, concluding with February 21st, 1949.

I visited Hay River on the 8th instant. The school was then in session under Mr. N. Bellavance, Schoolmaster. As the weather had moderated, the classes were being held in the classrooms on the first storey. I inspected the buildings and grounds accompanied by the Caretaker-Watchman. Arrangements were made with Mr. Bellavance to obtain what additional wood fuel was required before spring thaw conditions made delivery impossible. It is necessary to lay in a supply of wood until such time as the generator is installed and conversion is made to oil heating.

It appears inadvisable to reopen work on this Project until the early summer by which time it is expected all materials will be on hand. Furthermore, this Department will have a carpenter crew at Hay River in connection with the erection of other buildings and part of this force can be released for whatever work remains to be done on the school. Thus, as the school is still considered as being under construction, accounts for the watchman service, and any necessary accounts for heating or the maintenance of the building, will be paid through this office.

#4777 - Misc. 4-1 HAY RIVER

W. J. JOHNSTON, DEPARTMENT OF PUBLIC WORKS, EDMONTON, ALBERTA.

I herewith beg to submit my report for the two months that I was supervising the Indian Day School project at Hay River.

I arrived at Hay River on December 24th. On going over the work the following morning, I found that a considerable amount of delay had been caused by two very important factors; first, the lack of a generating plant made it very hard for the men, especially the wood-finishing carpenters, to work through lack of light and also the extreme cold. They were obliged to use night lanterns for two hours in the morning and an hour and a half in the evening. Temporary heating arrangements were carried out by burning logs in the school furnace and also in a barrel stove in the teacher's residence. These arrangements, however, were not satisfactory as only the top half of the two buildings got any heat, causing considerable difficulty in carrying out painting work. The other main cause of delay was through the lack of material arriving. In some cases, I understand that the shortages had been reported but, evidently, never ordered; such as seven doors which had not arrived when I left; and in other cases the orders were not able to be filled owing to the lack of materials in the lumber mills.

Upon my arrival, there were employed the following men:

9 carpenters, one of whom was used as a pipe fitter;

2 painters;

3 labourers, as well as the usual monthly paid camp staff of four (a woman cook, woman cookee, watchman and bull cook. As the work progressed and material was used up, this staff was gradually reduced until, on the 8th of February, we retained only three carpenters, two painters and one labourer. At this period I could see that all the material on hand, and which had subsequently arrived after I got there, would be used up and thereby no more work could be done. Furthermore, due to the non-arrival of a generating plant, the sanding and floor finishing could not be done, and the balance of the painting would have to wait also until warmer weather; and, also because of the request of the contractor who wished to have his contract cancelled, I considered it advisable to communicate with you and recommend that we should close down the work until a later period when it could be resumed again after the arrival of the generator. Upon receiving your approval of this, I closed down the work on the evening of February 21st, leaving a watchman-carretaker (Frank Obermuller) at an authorized salary of \$150.00 plus \$75.00 to defray his board bill.

Due to the fact, as advised by you, that these buildings were still considered under construction status, I assumed that we were still responsible for the heating, and, therefore, I made arrangements to have logs (cut) supplied and delivered to the premises, when the school principal who was in residence by this time, considered it necessary to ask for the same. Upon closing down the work, I collected all construction

CANADA

POOR COPY

material, including spare lumber that was lying in the snow and placed it in the dry shed, which is locked. All camp equipment, such as beds, lanterns, mattresses, etc., were locked up in the bunkhouse. All cooking utensils I had locked up in the cookhouse. As regards this latter building, I might add that there is a certain quantity of kitchen ware belonging to the contractor. This I left untouched, but all kitchen equipment belonging to the Department I had crated up and placed in the adjoining storeroom. There is a summer bathhouse also on the property which I have had locked up. It only contains a round barrel stove for heating the water. All keys were left with the school principal, Mr. Bellavance.

A certain amount of food supplies was still left, and I turned this over to the care of the school principal. I have already turned in, for your information, a detail of work still necessary on this project; also a list of kitchen equipment belonging to the contractor. I am now attaching four further lists showing what is in the dry shed, also list of the food supplies left, in the bunkhouse, and the small amount of kitchen property belonging to the Department which is in the shed attached to the cookhouse. During the period I was there, the health of the men on the whole was good, and there was only one occasion of a minor accident.

As far as the school being used for teaching purposes was concerned, a small class was started by the principal the second week in February. One of the upstairs rooms being used. The number of pupils could have been very easily increased and extra grades handled but, due to the extreme cold of the downstairs rooms, this was found to be impossible, and until the warm weather sets in, or a generating plant arrives, the school cannot possibly be used to anything like its full capacity.

Mr. B. F. Heary
Supt. Indian Education
Indian Affairs Branch

Dear Sir:-

Please advise proper procedure for payment of trucking charges for school or teaching furniture. I paid some myself; I was going to forward these bills to your Office for reimbursement, but someone told me I had better address them to the agent of the N.W.T. Administration, Edmonton; which I did, over a month ago. I'm now holding three bills in favor of Sandman & Co., Faust, Alta., until I'm sure where to send them for payment.

A reply at your earliest convenience would be appreciated.

Yours truly,
Forbert B. Lawrence

Re Hay River Indian School Buildings,
Peter Mattson, Contractor

We attach three copies of Final Claim Statement covering the amount of Peter Mattson's ten per cent fee after deducting equipment purchased by him and other items. We also attach the following:

Three copies of letter to Mr. R. A. Gibson for authority to sell equipment to Peter Mattson.
Three copies of Peter Mattson's offer to purchase equipment.
Three copies of equipment listed at cost to the Department.

You will note that we are forwarding three copies of the Final Claim Statement on the assumption that you may want to supply Mr. Blais of Public Works and Colonel Neary of Indian Affairs Branch with a copy each.

The Claim is recommended for payment in the amount of \$3,873.60. Kindly forward cheque to this office as soon as possible for transmission.

The Deputy Minister - I con-
cur in the recommendation
made by Chief Engineer Mills and
Colonel H.C. Craig, our financial
adviser. (Sgd) R.A.G.
Director
28/3/49.

Colonel Craig

Will you please
review this carefully and let me
have your opinion as promptly as
possible. (Sgd.) R.A.G.
26/3/49. Director.

From the point of view of the
Dept. this is a very fair offer
and I think it should be accepted.
(Sgd) H.C. Craig

Mr. Gibson

Approved by Minister
(Sgd) W.W.J.

OTTAWA, March 26, 1949.

Memorandum

MR. PETEPIECE
(Sgd) A.N.

Re Hay River School Buildings,
Peter Mattson - Contractor

We attach copy of letter received from Peter Mattson in connection with camp and construction equipment purchased during the construction of the Hay River Indian School Buildings. The total cost, amounting to \$1,832.30, includes items of freight and express, although some portion of transportation costs from Edmonton to Hay River are not included due to the fact that we were not in a position to segregate freight costs accurately in this office. The kitchen equipment includes many items such as crockery, etc., which are normally written off or charged to operating expenses. The pile driver consists of timber, machine shop charges and steel. It was constructed especially for the job and its commercial value for anything but a similar job would be negligible. Mr. Mattson's offer of \$1,352.02 for the \$1,832.32 list of equipment is considered fair and reasonable.

By the terms of a cost-plus-fixed-fee contract, a contractor is either permitted or expected to make an offer for surplus materials and equipment but in Peter Mattson's case, there have been doubts in some quarters as to whether he can be considered as this kind of contractor. It was assumed that he is a contractor in connection with Workmen's Compensation Insurance, whereas the Comptroller of the Treasury assumed that Peter Mattson was no more than a foreman for the purpose of insurance on the buildings and materials.

It is essential that a settlement be reached with Peter Mattson during the current fiscal year. We telephoned Col. Craig and Col. Neary, outlining the offer made by Mattson and both considered it a fair offer.

We are referring this matter to you for a decision in view of the special circumstances and in view of the factor that there is involved the disposal by sale of Government property.

R.A. Gibson, Esq.,
Director,
Lands & Development Services Branch,
Department of Mines and Resources,
Ottawa.

page 2

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

We would, therefore, request a decision as to whether Mr. Mattson's offer may be accepted or if not, instructions as to the disposal of the equipment in question which is now at Hay River.

It is possible that there may be a further item of a boiler for which the Department will be paying for in the amount of \$612.00, for which the decision made for the foregoing material will be used as a precedent for disposing of this latter item.

(Sgd) T. S. Mills
Chief Engineer.

COPY/CR

Hay River, N.W.T.
March 18, 1949.

Mr. T.S. Mills,
Chief Engineer,
Dept. of Mines & Resources,
Ottawa, Ontario.

Dear Sir:

With reference to your letter of February 15, 1949 concerning an offer for the equipment bought and used in the construction of the Hay River Indian Day School, I am now in a position to make the following offer. Your cost, as per inventory, will be set down and my offer will be made on each part.

<u>Type</u>	<u>Cost</u>	<u>Offer</u>
Kitchen Equipment	\$ 489.55	
Less 40% due to loss and depreciation which is necessarily high in these small items	<u>\$ 195.82</u>	\$ 293.73
Construction Equipment	\$1024.50	
Less 20% depreciation	<u>\$ 204.90</u>	\$ 819.60
Pile Driver		
Less 25% as mostly timber construction which will have to be rebuilt for further use	\$ 79.56	<u>\$ 238.69</u>
Total Offer		\$1352.02

Also, in connection with the Steam Boiler, as soon as your negotiations have been completed with Reliance Welding I am willing to make an offer. Please advise me as soon as an offer is acceptable.

Mail service to Hay River is slow and indefinite and I would appreciate an answer to the above proposition by radio-telegraph. This will also give your office a chance to clear this item before the end of your fiscal year.

Yours truly,

Peter Mattson.

materials purchased. We have no list of the parts, but these presumably include the following items, which are not listed in this equipment report:

1. Parnell's Service Garage, invoice February 10/48 totalling \$250.00, for welding pile driver and hoist, and other machine work.
2. Bromley and Son Invoice February 17/48, 200' Best Plow Cable \$40.36.
3. J.H. Ashdown Hardware Co. Invoice February 4/48, snatch blocks and 1 inch block pipe \$27.79.
4. Timber, lumber, angle iron, bolts, etc. plus labour. Also, we presume, additional machine shop charges.

T. S. Mills,
Chief Engineer.

Mr. N. Bellavance,
Hay River Indian Day School,
Hay River, N. W. T.

Dear Mr. Bellavance:

Unfortunately, your letter of February 19 was mislaid on one of our files. You can forward these bills for trucking expenses concerned with school supplies, directly to me at the present time. When the re-organization of Indian Superintendencies takes place in the Northwest Territories it is very likely that instructions will be given to have these accounts forwarded through the Superintendent assigned to your area.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Re: Hay River School

We are attaching herewith Credit Invoice No. 8093 in the amount of \$24.00 covering the return of three empty steel barrels to the Imperial Oil Limited, Edmonton, Alberta. As these barrels were originally purchased on Invoice No. 2607 dated March 27th, 1948, and Invoice No. 2715 dated May 12, 1948, we are returning the above mentioned credit note to you so that you may send it to the Imperial Oil Company, Limited, for a refund.

Re: Hay River Indian Day School

Enclosed is a self-explanatory letter
and also a Credit Invoice from the Imperial Oil
Company.

This Branch has not purchased any
oil from the Imperial Oil Company, and we are
under the impression that possibly the Credit
Invoice was issued for the return of barrels
containing oil which were used during the
construction of the school.

Hay River Indian Day School

Dear Mr. Anderson:

We have just received a self-explanatory letter from Mr. C.H. Strang of Hay River, N.W.T., concerning the temporary buildings on the site of the above school. His letter reads as follows:-

"There are three buildings on school grounds in temporary use by contractor, one building used as kitchen and dining room, one building used as a bunk room and one shed.

Would you kindly inform me if these buildings are for sale and the purchase price as I understand they are not in use at the present time."

Would you please refer this matter to Mr. District Engineer Johnston as it is presumed he will be disposing of these buildings in the usual way.

Sincerely yours,

Director.

Ottawa, 8 July, 1949.

Director Indian Affairs Branch,
Department of Mines and Resources.

Your letter of June 21st containing requests from Mr. C. A. Strang of Hay River that he be informed if three buildings on the school grounds were for sale was referred to District Engineer W. J. Johnston.

In reply, Mr. Johnston states in his letter #1241 that these buildings are currently in use and should not be declared surplus for some considerable time. Copy of Mr. Johnston's letter is attached herewith for your information and I would suggest that you inform Mr. Strang accordingly.

C.R. File - 12967-2
C.E. File - Misc.4-1 (P.P.62)

R. BLAIS, CHIEF ENGINEER, PWD - OTTAWA.

I acknowledge receipt of your letter of June 23rd with attached copy of letter of June 21st from the Director of Indian Affairs Branch in regard to a request from Mr. C.A. Strang of Hay River, N.W.T. Mr. Strang was enquiring regarding three temporary buildings on the school grounds at Hay River, N.W.T., and used by the Contractor during the construction project there.

These buildings are currently in use holding building materials remaining on hand in connection with the school project and are also being occupied by our workmen who are completing carpenter work and other installations on the school project. The buildings should not be declared surplus for some considerable time and Mr. Strang notified accordingly.

The Dominion Government is this year embarking on other construction projects at Hay River, and buildings similar to the ones above mentioned would have to be provided if the ones now existing were not made use of. Under the circumstances I consider it would be unwise to release custody of these for some considerable time.

W.J. Johnston

Dear Mr. Strang:

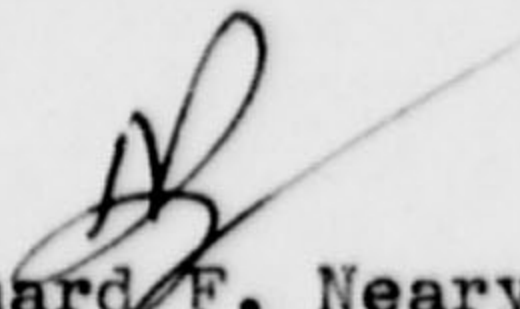

Hay River Indian Day School

As I advised in my previous letter of June 21st, I wrote to the Department of Public Works concerning the buildings at Hay River.

The District Engineer advises that these buildings are currently in use holding building materials in connection with this school project, and are also being occupied by workmen who are completing carpentry and other work in the school building.

These buildings will not be declared surplus for some considerable time. The Dominion Government is this year carrying on other construction projects at Hay River and these buildings will be used by the Department of Public Works.

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

Yellowknife, N.W.T.,
August 31, 1949.

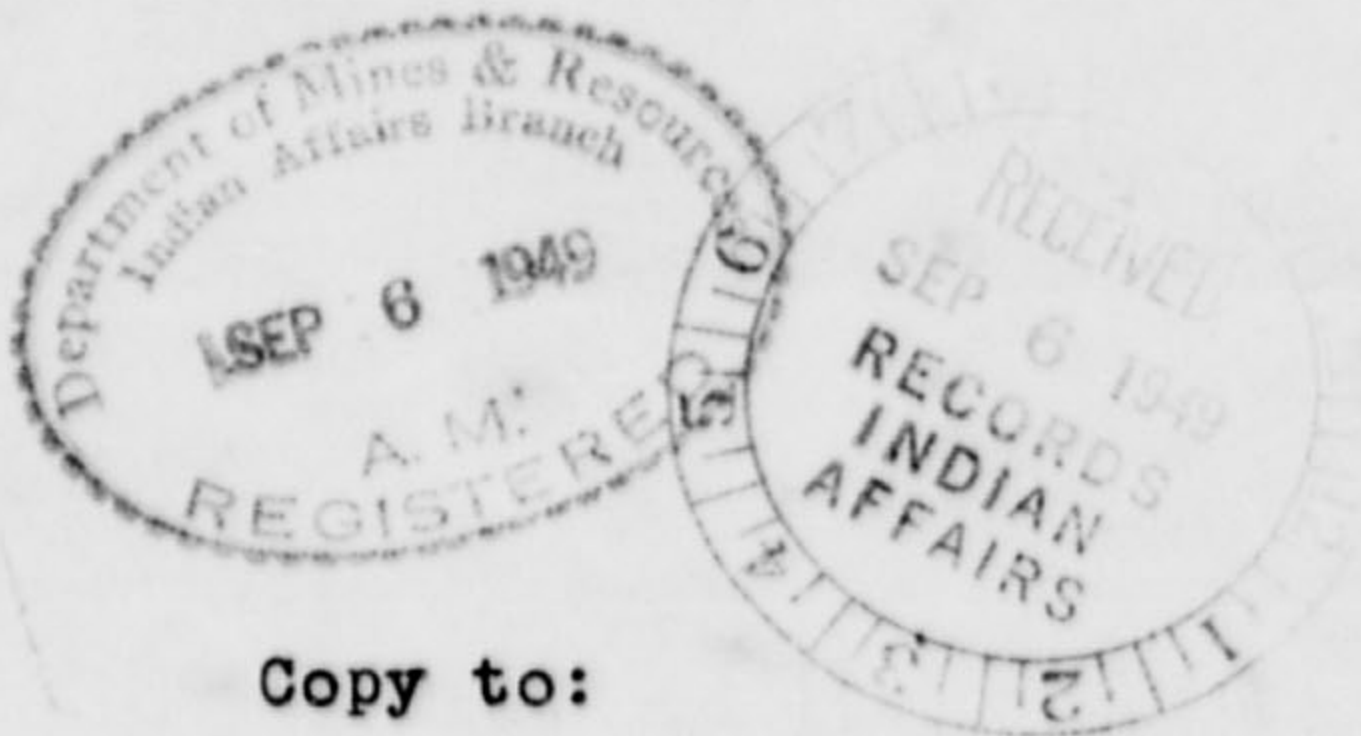

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Colonel Neary:

A few days ago, I discussed with Indian Agent Kirkby, such matters as furniture and kitchen utensils, temporary methods of attending to local water supply, fuel, janitor supplies, flag, and so forth, for both the Day River and Rocher River Indian Day Schools. Following this discussion, I understand Indian Agent Kirkby submitted requisitions, your file 139-6-1, on or about August 29th, covering the above items. Therefore, I am leaving this matter to his attention.

Yours very truly,

J.W. McKinnon,
Superintendent of Education,
Mackenzie District, N.W.T.

Copy to:

R.A. Gibson, Esquire,
Deputy Commissioner,

OFFICE OF
INDIAN AGENT

139-6-1 (Hay River)

905-5
12065
Yellowknife, N.W.T.
August 29th. 1949.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Ottawa, Ont.

Dear Sir:

Enclosed please find Requisition covering janitor supplies for the Hay River Day school. I cannot find any correspondence on this subject and presume that none of these supplies have been ordered. Please have these shipped by truck via Peace River at an early date. In the mean time we will purchase such items as are a necessity at the local store. It is regretted that no unit price has been quoted but I have no invoice or catalogue from which such prices can be obtained.

No flag is available for the opening of school and it is felt this item should be sent by parcel post being very light to ship. I believe that the flag used in the Northwest Territories is to be the new Canadian Flag.

It has been found that the cook stove supplied to the Hay River residence is a wood burning type. When the building was put up and fuel oil lines were put in, a supply line was run from the tank to the position of the kitchen stove. May I suggest that we purchase a oil burning unit to install on the back of the present cook stove. A requisition is enclosed giving the specifications of such a burner. This type bolts to rear of stove and can be installed in a matter of an hour or so without making any modifications to the present stove.

If it is decided that wood should be used in the cook stove I request authority to have ten cord of cook stove wood cut and piled in the yard ready for immediate use. At present the teacher is burning scraps from around the buildings and as soon as they are gone either wood or the oil burner must be obtained.

No supplies are on hand for the making of hot noon lunches for the children who come from the opposite side of the river and I have enclosed a Requisition covering these items for immediate shipment to Hay River. A two burner hot plate is requested for use in the school to heat water for these lunches.

As no water exists in Hay River except where brought to the buildings by tank truck it has become a necessity to provide both the school and residence with galvanized tanks. My Requisition calls for four tanks for immediate delivery via Peace River. These tanks to be used as follows: one for residence kitchen, one for engine room as extra supply for residence, one for boys wash room and one for girls wash room. Pails and wash basins are also included.

I have made up my estimates for the following year and will forward these at an early date. By so doing it is hoped that these last minute requisitions will be avoided.

Yours very truly,

I.F. Kirkby

Hay River Indian Day School,
September 20th, 1949.

Mr. J. W. McKinnon,
Superintendent of Education,
Yellowknife, N.W.T.

Dear Mr. McKinnon:-

The school is still going strong with the attendance increasing each day. You will notice in my requisition that I ordered 40 more seats, making us a total with the 80 we have here of 120, but our numbers have now exceeded that figure and I would like an additional forty, as I am inclined to believe you will need before Christmas and we will need anyway at the opening of school next September. Unless something radical happens this school will have an attendance next year of two hundred.

I would appreciate anything you could do regarding more seats

Sincerely yours,

(signed) W.A. Bowerman.

File 139-6-1

Yellowknife, N.W.T.
September 27, 1949.

EXTRACT FROM THE
LETTER OF I.F.KIRKBY DATED AS ABOVE AND WRITTEN FROM ABOVE.

During the past month I have been able to visit the three Indian Day Schools in this Agency as well as the Fort Resolution Residential School. As this trip was made just after the opening of the school term I believe it worth while to report on my observations at each point.

On September 21st, I visited the Hay River School and at the time there were over 130 pupils with six more to come within a few days. At this school the pupils are sitting on boxes and whatever can be scraped up. The teacher went over to the old Hay River school and picked up all the old desks that were available. Even with these the school is in urgent need of a shipment of new desks.

Mr. Bowerman has the school very well organized and the night I arrived at Hay River, a social was being put on to raise money for the Christmas concert. This social was held in the Hay River community hall.

At this school we have four teachers on full time with an average of over 30 pupils per teacher. With this attendance the teacher has no time to do ~~the~~ any janitor work and we must hire a man full time to do this job. The Public Works are still paying the present janitor but only for this month. There are four class rooms to sweep out, two large halls and four stair-ways to the second floor. This work has to be done every evening, and with the school, the residence, and the power house to look after, the man here will be kept busy. At the present time, a Mr. Frank Norn is doing the work and I believe he will do this work for possibly \$1500.00 although he has asked \$1800.00 I do not think we can expect any man to do our janitor work for less as there is

plenty of work in Hay River and the school job is a full time one, with no time to make extra on the side if not paid enough by us.

Mr. Bowerman has been very keen to get out and do welfare work and I have found him very useful in bringing the Indians together whenever I have sent him word that I am coming over for Indian meetings. He has also volunteered to look after the registration of Family Allowances and to help in any way possible with the organization of winter fishing programs for the Indians at this settlement.

This locality offers great opportunities for the Indians if they are properly organized and a welfare teacher is needed here as much if not more than any other place in the north. If we don't take advantage of the opportunities for the Indians and get them into working, we are going to have the same set up as at Yellowknife, where the Indian sits on the outskirts of the town and does the odd little bit of work though spending most of his time gambling and drinking, and giving us one of our greatest problems in the Agency. From my several contacts with Mr. Bowerman and his cooperation on all subjects, we may find it very hard to find a man better suited as a welfare teacher.

This school has been supplied with fuel oil by Department of Public Works to cover the construction period but not beyond. The school is in need of oil immediately and I have requested an order be placed with Imperial Oil immediately. As soon as authority is received, I will have IOL Hay River fill our storage tanks.

I have seen enormous progress at all the schools since last term and I believe we can look forward with confidence to the results that will be obtained from the new type of school in the Northwest Territories.

AIR MAIL

October 15th, 1949.

Mr. I.F. Kirkby,
Superintendent, Indian Agency,
Yellowknife, N.W.T.

Re: Hay River Indian Day School

With reference to your Voucher No. 145 issued in favour of the Hudson's Bay Company, there is attached to it an account of \$119.70 which is to be paid from the appropriation for Indian Education, and also another account amounting to \$5.20 which should be paid from another appropriation.

In future, I would appreciate it if you would forward a separate Voucher for charges against the appropriation for Indian Education.

We are returning both copies of the account amounting to \$5.20 so that you may issue a new Voucher and forward it for payment.

PP/ST
Attach.

Philip Phelan,
Chief, Education Division

REQUISITION FOR SUPPLIES

November 15 1949

This space for use of Head Office only

Requisition No.

Order No.

To The Departmental Purchasing Agent, Ottawa,

Hay River Indian Day School

PLEASE FURNISH THE FOLLOWING SUPPLIES FOR USE OF

VOTE 516 PRIMARY 12 OBJECT 415 DATE REQUIRED at once
SHIP TO The Teacher, Hay River Indian Day School, Hay River, N.W.T.

MAIL INVOICES TO I.F. Kirkby, Superintendent, Indian Agency, Yellowknife,
N.W.T.

Purpose for which required Hay River Indian Day School #905

QUANTITY		UNIT PRICE	TOTAL
20	single chair desks, medium		
20	" " " large		
NOTE: Owing to a heavy increase in the enrolment at this school, the above additional desks are required immediately. The last order was placed with Moyer School Supply Co. on Sept. 23, 1949. (see P.O. 47900). As these desks had not arrived by Nov. 6th we wired Moyer School Supply on Nov. 7th asking when they intended to ship. Up to this date we have received no reply from them. If it is your intention to also place this order with the Moyer School Supply, Edmonton, we feel it should be on the understanding that both the previous order and this order will be forwarded at once. Anything you can do to expedite both orders will be appreciated. P.O. 51321 7/12/49			

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

SIGNED—

APPROVED

Director

- (1) Group requisitions for equipment, supplies, and material according to commodity, i.e. books, stationery, printing, electrical goods, hardware, machinery, provisions, transportation equipment, etc.
- (2) Avoid issuing requisitions for one item, only, except in cases of emergent necessity.
- (3) Furnish exact details of product required.

FILE 139-6-1

905-5

11881
~~11881~~

Yellowknife, N.W.T.
November, 11th. 1949.

Mr. B.F. Neary,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
OTTAWA, Ont.

Dear Sir:

Enclosed please find Vouchers 182, 184, 186 and 187 covering expenditures for supplies and fuel oil at the Hay River Indian Day School.

When at Hay River some time ago I found that all the electrical fuses had been burned out and that in some cases it was necessary to use tin foil to make contact. As this was a definite fire hazzard I sent to Bruce Robinson for a shipment. I find that I had not notified you of this move when the fuses arrived which was an oversight on my part.

Fuel oil is being delivered as required and charged to Purchase Order 48819.

On my last visit to Hay River School it was brought to my attention that there are no repair parts for any of the electrical equipment what-so-ever. As the heating and lighting are entirely dependent on the light plant it seems reasonable to expect that two spare fuel injection lines and two spare nozzle tips should be available at all times. The above two parts sometimes give out on any motor and a two or three day wait in the middle of winter could be very inconvenient.

Yours very truly,

I.F. Kirkby

I.F. Kirkby,
Supt. of Indian Agencies.

Re: Voucher # 192

The Department finds it
necessary to return the above voucher.

In forwarding accounts
to be charged against appropriation for
Indian Education, it would be appreciated
if you would forward separate accounts for
each school. This is the only manner in
which we can keep the expenditures separate
as we have a separate file for each of our schools.

On the attached voucher you
have included three schools.

Philip Phelan,
Chief, Education Division.

905-5 (E6)

, December 28, 1949.

Mr. I.F. Kirkby,
Supt. Indian Agency,
Yellowknife, N.W.T.,

In response to your Army Signal in connection with a floor polisher and wax for the Hay River Indian Day School, we are forwarding a polisher from Ottawa, and arranging with Mr. Gooderham to forward to the school 24 2 lb. tins of paste wax.

This machine and wax is being provided the Hay River Day School to be used as a test whether cleanliness of the school can be improved by waxing the floors. It would be appreciated if you would report on this after your next visit to the school, as requests are being made by schools in the North for wax, and we are anxious to know if the cost is justifiable.

It has been found that best results in the maintenance of floors in Government buildings in Ottawa, can be had by thoroughly scrubbing the floor and allowing it to dry before the wax is applied. The wax should be allowed to set for fifteen to twenty minutes and then polished after each application as if it is not polished, there is extreme danger of children falling especially if their footwear is wet.

Two pound tins of wax are being provided as it is felt that one tin will be about sufficient for one application. An applicator that is used in the Government buildings is a sack affair filled with the paste wax and tied to a handle. This procedure has proved very satisfactory, however, should the wax ooze too freely a cloth of a finer weave should be used, or vis a versa.

Education, Ottawa.

Mr. I. F. Kirkby,
Superintendent of Indian Agencies,
YELLOWKNIFE, N.W.T.

Dear Sir:

RE: SCHOOL AT HAY RIVER, N.W.T.

This Department (Public Works) has been engaged on construction of school at Hay River N.W.T., during the past season and our workmen have only recently been withdrawn from that location. During the time our men were there some repairs and unfinished work remaining uncompleted in 1948-49 were being attended to. However, at the same time, our workmen were engaged also on other projects at Hay River so that they were at that location for a longer period than would have been necessary for the work remaining to be done in finishing the school. After our workmen had completed work on the school there were continual demands that our men be called back to that location for remedying of what at first appeared minor matters, but the recurrence of things to be attended to would lead one to believe that something was wrong when such demands for repairs in new construction and equipment were being asked for.

On the return to this City of Mr. C. A. Walrath, who was Engineer in charge during the past summer at Hay River, I requested a report on this situation. This report is herewith attached.

It is apparent that there is a lack of proper supervision of the school buildings, in that proper care is not being taken of same. From Mr. Walrath's report, when one reads that bolts placed in the floor have been ripped from their bearings and the accordion doors damaged, simply because someone has not taken the trouble to raise these bolts and secure same before opening the doors, - it is evident that something is wrong at this place. There are other instances of misconduct bordering on vandalism, or lack of responsibility, also in Mr. Walrath's report.

CURRENT REPLACEMENTS:

In order to bring you up to date on what has arisen I mention the following:

(a) POWERHOUSE AT TEACHERAGE: The voltage regulator on the generator was found to be not working satisfactorily and Canadian Fairbanks Morse Limited, who supplied the generator, were requested to send a new voltage regulator to Hay River. Mr. Walrath arranged with Jack Parnell of Bond Construction Company to install this motor (being sent addressed care of Mr. Bowerman) on its arrival and to send the account here. This is one case, however, where a mechanism is apt to go out of kilter without any apparent reason and without any suggestion of lack of attention from any person;

(b) SCHOOL: The 1 H.P. motor of the blower which drives the fan on the furnace has been found to be acting badly and it was apparent that two bearings were likely to be burnt out at any time and require replacement. As information was incomplete, the firm of Electrical Industries in Edmonton were requested to send two sets of two bearings

(over)

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

(total of 4 bearings) so as to be assured that the correct ones might arrive. Mr. Bowerman is being requested to return here the one set of two bearings which are not needed. We have not to date arranged for the installation of these bearings, but are sending word to Bond Construction Company to have their Mr. Jack Parnell install same. These bearings are being sent addressed to Mr. Bowerman, Hay River, via Macs Northern Transportation Company. The replacement of these bearings can only be attributed to lack of attention and proper oiling of the installed machinery over the past few months, and is one of the items of neglect mentioned by Mr. Walrath in his report.

The above two items (a) and (b) are particularly mentioned as two instances where this office is attending to replacement of parts in order that the various machines on the school premises may be kept in firstclass running condition, and the expenses of same are being paid for here. There is no complaint regarding our paying these expenses and keeping the machinery in working order while our men were at Hay River and in a position to attend to same. I am now advising you, however, that with the withdrawal of our men from Hay River, the construction work is considered fully completed for 1949-50, and any further arrangements for repairs will have to be attended to by you.

SUMMARY:

A considerable sum of money has been spent in the construction of school facilities with necessary machinery at Hay River, and as far as possible everything is being left in firstclass condition. It is evident the following situation exists:-

- (a), Lack of discipline for the proper care of the buildings;
- (b) Lack of trained personnel to observe ordinary instructions regarding the proper care and maintenance of machinery.

Unless these unsatisfactory conditions are rectified at once there is bound to be a recurrence of trouble with resulting expense in the maintenance and operation of these buildings. I thus consider it my duty at this time to point out the situation which exists at that place.

A copy of this letter is being sent to Col. B. F. Neary, Department of Education, Ottawa, for his information.

Yours truly,

W. J. Johnston

EDMONTON, December 21, 1949.

MEMORANDUM FOR W.J. JOHNSTON, DISTRICT ENGINEER, EDMONTON.

INSPECTION OF HAY RIVER SCHOOL AND RECOMMENDATIONS
FOR MAINTENANCE

Inspection of School as of December 14, 1949:

Work was completed on the school by December 1st this year and all woodwork was left in firstclass condition. As a result of the school being in use previous to this date it was found very difficult to clean the floors and woodwork before they could be varnished and left in good condition.

On inspection on December 14th several things were not in order and very disappointing to men who had worked so hard to finish a fine building.

Several of the flush bolts at the bottom of the accordion doors were broken off due to lack of care in lifting them when the doors were opened.

Boards which held coat hooks were torn off the walls from their proper place and nailed up in the main foyer. The workmanship on this work is very crude.

Mud was present on the ceiling of the main foyer.

There were football marks on the inside of the glass of the glazed doors.

On one occasion the fan on the furnace was found running dry and howling for oil. Considerable damage has been done to these bearings.

The main bearings on the 1 H.P. fan motor have become worn so badly that replacements are necessary almost immediately. This is too soon for such bearings to be worn so badly and it appears to be another case of no oil.

On another occasion the injector fan and motor had a knock in its operation which was remedied by oiling. It is hard to say what damage has been done to this motor.

On the twelfth of November mechanics took off the generator from the power plant to remedy oil leaking from the crankcase. The leaking oil was found to be coming from a sump that had not been drained. Instructions on the side of the plant require that the sump be drained daily.

Door-stops in the school have had rubber tips removed and the sharp ends uncovered, have marked the doors.

The handle on the night-latch on the front door has been twisted off.

RECOMMENDATIONS FOR MAINTENANCE ARE:

Supervision of the school children to stop vandalism

Accordion doors should not be operated by children, and by only those having authority to do so.

(over)

Indian Affairs (RG 10 Volume 6473, file 905-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

A schedule for oiling and checking machinery should be maintained. If personnel cannot do this they should not be employed. Instructions in the manual with the power unit should be followed.

FURTHER RECOMMENDATIONS FOR MAINTENANCE:

No changes in the construction and finish of the buildings should be made without proper authority and by competent tradesmen.

Proper care of floors requires these to be cleaned and waxed. At present this is not being done to show up the floors to their best advantage. Perhaps the chief difficulty is the lack of a waxer and polisher and it is recommended that such a machine be provided.

Details of articles necessary to be supplied are as follows:-

- 1 only No.13 LALONDE Floor Polisher
12" brush \$ 138.00
- 200 lbs., Linx or Johnson's Traffic Wax - sufficient for six months' supply.
(Paste recommended rather than liquid)
This should be used sparingly.
Floor should be washed (mopped) with a damp mop, not a wet one.

CAW/d

Dear Sir:

We are in need of a supply of light bulbs at the Hay River school and authority is requested to purchase the bulbs listed below. These bulbs can be ordered from Hudson's Bay, Edmonton and should be sent to Hay River by C.P. Airlines express as loss from breakages is sometimes high over the Hay River road.

3 dozen 25 watt, 110-115 volt bulbs.
3 dozen 60 watt, 110-115 volt bulbs.
2 dozen 100 watt, 110-115 volt bulbs.
1 dozen 200 watt, 110-115 volt bulbs.

See original above

Mr. W.A. Bowerman,
Teacher,
Hay River Indian Day School,
Hay River, N.W.T.

Dear Mr. Bowerman:

With reference to payment of your transportation to Hay River, arrangements are being made to forward you a cheque for \$195.58 covering the cost of the plane transportation and personal effects.

We are obliged to return invoice No. 348 from Mae's Northern Transport Company Limited as Treasury will not accept it in the manner in which it has been prepared. You will note that the first item reads:

Grimshaw to Lower Hay River, 640 lbs, @ .02¢

The extension is \$16.00 and it should be \$12.80.

The second item on the account reads:

N.A.R. Charges..... .. 39.55

and evidently covers the payment made by Mae's Northern Transport to the Northern Alberta Railroad. It will be necessary to have a receipt from the Northern Alberta Railroad attached to the account. Please arrange for the necessary adjustments in this account and return same so that we can refund the money to you.

Yours sincerely,

Philip Phelan,
Chief, Education Division.

B. F. Neary, Esq.
Supt. of Education,
Indian Affairs Branch,
OTTAWA, Ont.

Dear Sir:

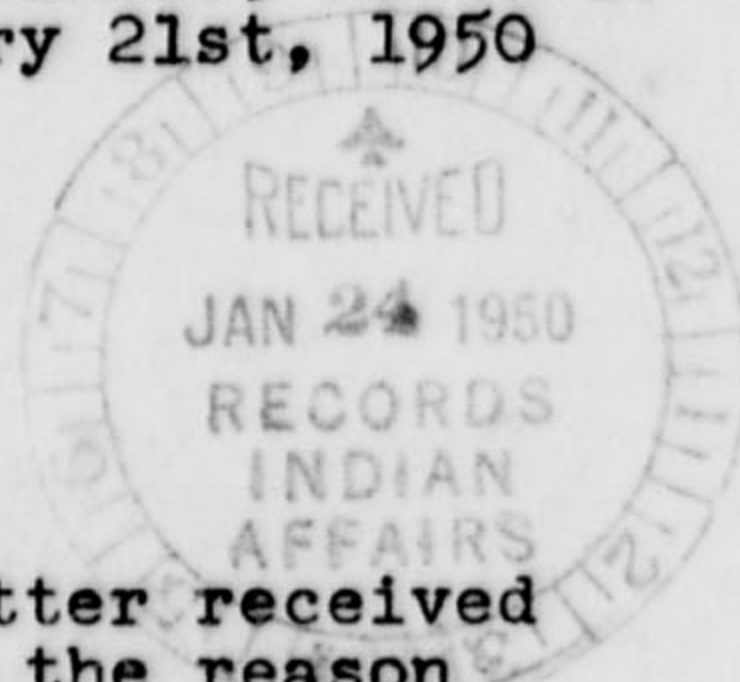

The following is an extract from a letter received from W.J. Johnston and fully explains the reason for our purchase from Bruce Robinson Electric, covered by Voucher #316. If this purchase hadn't been made by W. J. Johnston this school might have been out of operation for some time and I believe the action taken was in the best interest of our educational program.

"I had a radiogram today from Mr. Walrath that it was necessary to provide a standby $\frac{1}{2}$ H.P. motor temporary and requesting a new one H.P. motor in order to keep the school in operation. Arrangements have been made here to send a motor from Bruce Robinson Electric Co. Ltd., Edmonton, and our Purchase Requisition E-1553 has been temporarily issued in this respect to cover its purchase.

I took these emergency measures as I realized prompt action was necessary, and that you would not be in position to get this motor on plane of C.P.A. ex Edmonton, Jan 17th "

Yours very truly,

I. F. Kirkby,
Supt. of Indian Agencies

Dear Mr. Gibson:

Hay River Indian Day School.

We have noted the comments made by Mr. Burton as reported in your letter of January 12, concerning the building of the above school.

I presume that your Engineering and Construction Service will be also commenting on the cold now being experienced in both the school and teacherage at Hay River. The office of the Chief Engineer of the Department of Public Works has been in touch with our Superintendent of Education and I understand that they are going to fill the space under these buildings in a temporary way until a thorough study can be made of the situation in the spring.

Yours sincerely,

Yellowknife, N.W.T.
October 26, 1949.

R. A. Gibson, Esq.,
Deputy Commissioner,
Northwest Territories Administration,
Department of Mines and Resources,
Ottawa, Ont.

Dear Sir:

In order to safeguard the lives of children crossing the Hay River to the new Hay River Indian Day School, some type of supervised transportation should be provided. For four months in the year children are required to cross this river by boat. I would recommend that the Department either provide a boat and place same in charge of the Principal or Caretaker of the school or that they endeavour to make arrangements with someone locally to attend to this matter.

The Park Warden crosses the river each day to bring his children to school. Would it be possible to have him take a little longer route and bring all the children back and forth across the river?

Yours very truly,

Sgd. J.W. McKinnon,

Supt. of Education,
Mackenzie District, N.W.T.

Note: Matters relating to the Hay River School, including transportation, are to be considered at the next meeting of the Sub-Committee on Education of the NWT Council, in January, 1950.

Mr. B.F. Neary,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
OTTAWA, Ont.

Dear Sir:

I am in receipt of your wire of yesterday's date and as the native janitor has not been too satisfactory it is no doubt the best procedure to have a man brought in by the Civil Service.

At the present time we have no principal at this school and everyone is well aware of this. Mr. Kennedy has informed Mr. Bowerman that he has just as much authority as he has and consequently no one is in complete control nor is anyone responsible. I am over a hundred miles away and I do well to get into the settlement once a month. If we donot have a principal, who can be shouldered with responsibilities, then it becomes extremely difficult to lay the fault at any one man's door.

I do not agree with Mr. Johnston's report in which he tries to place all the blame for faulty equipment on the school and I have discussed the report with Mr. McKinnon in Mr. Johnston's presence. I have also a report from the Head Teacher, Mr. Bowerman and a copy of this is enclosed for your information.

We do not intend to side ^{step} ~~set~~ our responsibilities but neither do we wish to be blamed for faulty workmanship or installation that has occurred in more than one school that we have taken over from D.P.W. As Mr. Bowerman has pointed out in his letter he has personally checked the oiling of motors and fans when this was carried out by the janitor. It is also pointed out that several of these motors have never run properly from the day they were put in. I would like to point out that at both Hay River and Rocher River the circulator motors were running backwards and the change over to proper direction had to be made by our local men on the spot or freeze waiting for authority from D.P.W.

I would like to point out that at all the schools taken over so far we find that many things are left to be completed the following year or the year after that. This has been true both at Hay River and at Rocher River with the consequence that the buildings is put in operation in an unfinished state and before thorough checks have been made. In this way floors are improperly maintained and much of the equipment operates poorly, not through any fault of the man in charge, but because the building is used in a semi-complete state.

We have had furnace troubles at both Hay River and at Rocher River and in both places the floors are the next thing to impossible to heat. Mr. Bowerman's letter will bear out the heating problems and the difficulties encountered with both these schools.

The present plan of building on piles and to have all the heat above the floor with an insulated floor of

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

R-COPY

considerable thickness is, as far as I can see, a relatively new idea and unless the workmanship is perfect and insulation placed in a very careful manner it will be impossible to keep the floors at the desired temperature.

I intend to spend a few days in Hay River within the next two weeks and all the points brought out in both Mr. W.J. Johnston's letter and also Mr. Bowerman's letter will be gone into thoroughly to discover, if possible, just what is the matter with Hay River School.

With the exception of the motors and the fan bearings, which are very probably installation faults, the report has been very petty and when other things are taken into account is, I believe, made to distract one's attention from many of the construction faults we are now finding.

The offices at the rear of the school and on the second floor are used by Mr. Martin, who is the District Agent at that settlement, and much of the dirt was carried in by people going for interviews. The mud on the ceiling was kicked there by one party who told Mr. Bowerman that he had no authority over him and he would do as he liked. This is just another instance where the principal must be made responsible for the building and the janitor as well. These teachers receive more pay than I do and if they have only one building to look after or supervise as well as their school work I cannot see that they are being asked to do too much, they do not have to do any manual labour, only see that the janitor does his job.

cut
2
The present Hay River Administration have several buildings of their own and we have the school and the teacherage. If the Administration are to engage a janitor and if we engage one it will put two men doing the same type of work into Hay River and it would seem to me to be only logical that we get together with the Administration of Hay River and have both janitors come under the Administrator, working these men in two shifts of eight hours each. In this way both parties would get better service and the District Administrator would be able to check up and keep the buildings maintained to the best possible degree of cleanliness. Our school is only about half a mile from the Administration Buildings and each man while on shift could make the rounds of all buildings. In Ft. Smith the janitors at the Administration Buildings look after the school and better service is obtained than by using one man separately at each building.

If you feel that the above plan would not work out it is imperative that we have a school principal who can be made responsible and also given the necessary authority to ensure that both teachers and janitors will do as they are told. As I pointed out earlier I am unable to visit these schools more than once a month and in the mean time someone must keep things operating.

At the present time many people take delight in pointing out how dirty the school is and how it is being mis-used, but though pages can be written on each little incident, they are petty and if one man, who is on the spot, can be shouldered with the responsibility and authority that he needs then these criticisms will not exist, or the man in charge will have a good excuse why they happened. I am of the opinion the principal should be this man as his authority covers the teachers, the children, the discipline of the school and should therefore cover the janitors duties.

I would be pleased to see a principal at Hay River and have the responsibility of the school placed on his shoulders as far as cleanliness and daily operation goes.

Yours very truly,
J. A. Kelly

Hay River Indian Day School,
December 27th, 1949

Mr. W. J. Johnston,
District Engineer,
Department of Public Works,
9937 - 103rd Street,
EDMONTON, Alta.

Dear Sir:

There are certain facts regarding the school and teacherage that I think should be brought to your attention, and necessary action.

1. The teacherage floors are so cold that it is an impossibility to live in it, we cannot mop the floors because the ice freezes on it. I made a test and when the temperature of the thermostat is 80 degrees the floor temperature is 18 degrees. The cupboard in the kitchen, even with the oil stove on full, freezes solidly. This condition is due to faulty construction and lack of insulation.
2. The vibration due to faulty installation of the electric light plant is so great that it is almost an impossibility to keep the controls of the furnace adjusted. This motor was installed on a cement base without any means whatever taken to lessen the vibration. The trouble that we have had with the furnace motors is due to the fact that they were installed running backwards and thus burned themselves out. It is an impossibility to have your deisel engine running at the requested twelve hundred R.P.M. as this would deliver a voltage of over two hundred and eighty. This matter has been drawn to the attention of your resident engineer many times.
3. The electric motor in the school furnace has never run right from the first day we started the motor, as I am not a furnace man, nor a mechanic I did not know what was wrong, but as I told Mr. Walrath that any motor making that noise was not right. I have been informed by the superintendent that proper maintenance of the plant was not being taken, that is true because your men were doing the maintenance until the fifteenth of December, but as far as looking after the plant, changing filters, oiling, and etc., I have personally checked Mr. Norn, the caretaker, when he serviced these machines, I thought it only proper that I draw these matters to your attention.

Yours very truly

Mr. I. F. Kirkby,
Superintendent, Indian Agency,
Yellowknife, N.W.T.

Hay River School

Reference your 139-6-1 of January 4

By now, you will have received my Army Message concerning Mr. Bowerman and Mr. Kennedy and copies of my letters (a) to Mr. Bowerman, advising him of his reclassification as a Welfare Teacher and as Acting Principal, and (b) to Mr. Kennedy concerning the poor discipline in his classroom.

I have had several telephone conversations with the Engineers of the Department of Public Works and have sent them a copy of Mr. Bowerman's letter of December 27, 1949 and certain extracts of your letter. I believe that by now action will have been taken to fill in under these buildings so that some of the cold will at least have been eliminated.

Ventilators will have been left in the fill and the snow pack will be removed before thaw.

You can make it clear to Mr. Bowerman that you are delegating to him certain responsibilities with regard to the discipline, cleanliness and maintenance of this school. We regard you as the official trustee but naturally, being 100 miles away, the principal must assume more responsibility than is done in provincial schools.

Bernard F. Neary,
Superintendent of Education.

DEPARTMENT OF PUBLIC WORKS, CANADA

HAY RIVER NWT

REFER TO FILE

No. PP. 62

8571

Ottawa, February 3, 1950.

Superintendent of Education, Indian Affairs Branch,
Department of Immigration and Citizenship, Ottawa.

Your letter of January 26th has been received and, in reply, I would state that Mr. Johnston, District Engineer at Edmonton has informed me that he gave instructions that the open spaces around the bases of the school building and teacherage at Hay River be closed in with panels which had originally been intended for closing in the open space below the buildings in the summertime. Some openings will be left on each side of the buildings to allow ventilation and keep the ground cool. This arrangement should cut down the draught which now passes under the buildings and thereby help to reduce the coldness of the floors.

I have just received a letter from Mr. Johnston stating that he expects to be absent from his office from February 2nd to the 11th inclusive, to inspect various works throughout the Northwest Territories. I have no definite itinerary from Mr. Johnston and cannot say exactly when he will be in Hay River.

I note that your Mr. Kirkby expects to visit Hay River about this time and I would suggest that you ask him if he can possibly arrange to be there at the same time as Mr. Johnston. With the two of them working together perhaps some of the difficulties may be solved.

I have wired to Mr. Johnston to try to arrange a meeting with Mr. Kirkby and copy of my wire ~~to him~~ is attached herewith.

R. Blais

Robert Blais,
Chief Engineer.

LANDS AND
DEVELOPMENT
SERVICES BRANCH

Major D.M. MacKay,
Director,
Indian Affairs Branch,
Ottawa.

Mr. Burton, our District Administrator at Fort Smith, has forwarded to me copy of a letter of the 28th ultimo which he received from Magistrate Martin, Hay River, in reference to the construction of our buildings on Lot 78 and also the Indian day school and teacherage. As this school building was constructed by the Department of Public Works for your branch, it is considered you should be advised of Magistrate Martin's comments and the following is an extract from his letter:

"The large heaters in the two dwellings made no impression on the buildings, even with all the side rooms closed off, and the large heaters burning full on, the floors remain frozen and the inside temperature below zero. The outside temperature has averaged between 25 degrees and 38 degrees below zero during the past ten days.

The trouble lays in the construction of these buildings, putting them up in the air on piles and open to the elements, it is impossible to heat the floors. The same trouble is being experienced in the Hay River Indian Day School and the Teacherage, with the two furnaces going full blast twenty fours a day, the upstairs in these two buildings reach 80 degrees above and on the ground floors, water spilt on the floor freezes instantly. Frost has formed inside the corners of these two buildings. "

Copy of Magistrate Martin's letter has been forwarded to the Chief Engineer, Department of Public Works, with a request

that he take immediate action to have the space under our buildings properly enclosed with sheeting and building paper. When the matter was discussed with Colonel Anderson of the Department of Public Works he said he would advise Mr. Johnston to investigate the school building and report on present conditions. No doubt you will wish to communicate with Mr. Blais in this connection.

R.A. Gibson,
Director.

MEMORANDUM TO THE DIRECTOR:

Hay River Indian Day School.

With reference to your marginal note on a memorandum dated the 26th of January from the Director, Indian Affairs Branch, complaints regarding this school are being studied.

Our first concern is to fully establish facts as to whether the building was constructed in accordance with drawings and specifications. To this end, a request has been transmitted by wireless asking our Engineer at Hay River for a detailed inspection and report. Recommendation for correction and change in design if necessary will be dependent on this report.

The matter of vibration caused by the generator set will also be covered and a suitable recommendation made.

Victor F. Wain
Chief.

2556 OFFICE OF
INDIAN AGENT

Yellowknife, N.W.T.
January 9th. 1950.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
OTTAWA, Ont.

Dear Sir:

I have today returned from a complete survey of the school at Hay river and also the teachers residence. This report is intended as a true picture of what I have been able to observe to be at fault in the construction of these buildings and in the equipment that was installed. I do not intend to try and place the blame for the faulty workmanship as the buildings were up before I came to this Agency.

The report by Mr. Walruth and the subsequent report by Mr. W.J. Johnston were both received at this office and at yours and in places where we are at fault; which incidently was lack of proper maintenance of the floors due to lack of the right type of equipment; has been improved. I must point out that Mr. Bowerman declares he oiled every bearing and motor himself and that from the first time fans and motors were installed they did not operate properly, thus making it necessary to keep calling back the men to check and repair. I can say with absolute certainty that the the circulator fans were installed running backwards and it was only after making himself abnoxious, was Mr. Bowerman able to get these motors reversed and running correct. This did not do the motors any good and has shortened their life to some extent.

On this inspection of the school building it was found that the floors are much improved, all floors were scrubbed and now that the waxer has arrived they are beginning to look much more presentable in the rooms completed. Once all the rooms and halls are complete these floors should be a credit and the small expenditure for wax will save the floors and also the time to do the cleaning up. In appearance only we will not hesitate to take anyone on an inspection trip. My only complaint in this regard is that the polisher is too small and is one only large enough for a house or small office. At Hay River we have upwards of 7000 sq. ft. of floor surface in the school and another 1500 sq. ft. in the residence and I do not believe the polisher can stand up. It is also too light and has no applicator. Even with only one room waxed so far, I could see such an improvement from last trip into Hay River that I consider it a worth while piece of equipment.

When in Hay River the temperature was about 20 below with a wind of from four to six miles per hour. The floors of the residence were so cold that after sitting for ten minutes with outdoor footgear on my feet became cold. To touch the floors with the hand proved that they were very little if any above the freezing point. With this revealed to me on a calm day I began a thorough examination and I have the following to report.

In all the kitchen cupboards the water froze with the kitchen stove on full and the room temperature over 80 degrees. when these kitchen doors were opened up the cold air rushed in with enough force to put out a large candle light. Directly under the sink a small board was broken in the sub-floor and I cut a hole large enough to put my hand in for an examination of the insulation. I declare that there was more cold air

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

being forced up through the small hole I made; due to the difference in density of cold and warm air; than one could generate with one of the standard house fans now on the market. This in itself was proof that the space between the floor joists was not a dead air space as it should have been, also it was found that there was only a single two inch batt of insulation when there should have been the full ten or twelve of the floor joists. All around the outside of the building inside walls the air was being forced into the house where the base board joins the floor and here as under the sink the circulation was enough to put out a candle.

I then went under this house and the enclosed sketch will illustrate what I found. The boards are nearly placed between the floor joists and the joints are open enough to slide ones finger in, in places. I could see no paper and the insulation was placed on top of these boards. Without any paper and wind proof cracks the insulation was worthless and all the school residence has on the floor, between the inside and outside air is a double layer of boards; the sub and top floors.

As an immediate remedy and to save much fuel for the remainder of the season I recommend that two layers of paper be stapled to the under side of the floor joists and that shiplap be nailed over the paper and to the underside of the floor joists. This will stop the air and will make a dead air space between the floor joists of the first floor. Next summer an insulation blower should be brought in and the space between the floor joists blown full of ~~wool~~ blowing wool (fiber glass) from the underside of the floor by boring a hole between each joist large enough for the nozzle of the blowing machine. If the above two jobs are not done the building will be less than useless every winter and as a building gets older it always gets colder and less efficient.

The above immediate remedy, as in attached sketch, can be done with 1200 ft. of shiplap, 4 rolls of tar paper, 4 rolls of building (kraft) paper and possibly 30 pounds of nails plus the labour cost and could be done in four or five days. The filling with insulation and the blower work would require an estimate by a man familiar with that kind of work. At the present time the D.P.W. have a supply of dry shiplap stored at the school that could be used if released for the purpose.

On examination of the cold air registers it was found that in the residence they are placed eight inches above the floor on top of the base board while in the school they are directly on the floor in the base board. This will cause a dead air space of eight inches of cold air on the floor which will not circulate. The registers must be put down to the floor and this is not too much of a job. To obtain better circulation Mr. W.J. Johnston sent me instructions to get two fans and put them above the hot air ducts and pointing downward. This I did and if the floors are fixed and the cold air inlets changed much improvement should be obtained.

On close examination of the piles on which the building rests, I found one pile had sunk from two to three inches and drawn the spikes out of the main beam. This left the one wall resting on only three instead of four piles. In this respect I request that I be given authority to have this section raised slightly with a jack and the space between beam and pile shimmed.

I do not have a plan of this building and so do not know what is called for as far as the first floor goes but I am sure that no architect would put his name to the type of insulation that is put in this building and it would appear to be the fault of the foreman in charge of building and no one else. These buildings are now up and I wish to do my best to recommend feasible repairs and to see that they are done. It is not my intention to find fault with the builder but we are now left with the job of maintenance and I do not intend that repairs that we have to make either in the near or distant future, be blamed onto lack of supervision when it was faulty construction in the first place.

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

The interior finish of this residence would appear to be well done and if the first floor can be made livable, then the faulty section of this house will be eliminated before more damage has been done.

With the school building we have the very same floor problem with cold first floors and from the information gained in the house it is to be presumed that the insulation in the school floors are also lacking. These school floors are not healthy for small children and the longer one sits in a desk the colder his feet and legs become. In the school insulation must be improved but presents a much greater problem than in the house.

The school is on piles and on the top of these there is a complete first floor of concrete, this makes it impossible to add more insulation from the bottom and as I see it insulation must be added from the top. To do this the first floor would have to be lifted and the space between the floor joists blown full of blowing wool, then a two by four on its side placed directly above each floor joist, the space between these filled with a two inch batt of rock wool and then a double floor re laid. This would only raise the floor two and one half inches which is little or nothing with the high ceilings now in the building.

The present furnace never stops from one day to the next and the floors were cold at 20 below, what will it be like at 50 and 60 below. If floors can be made to warm up then the furnace should cut out for up to half the time and the saving in fuel oil as well as the improvements to the teaching conditions should should justify the cost of insulation.

When in the portion set aside as a wash room, and used for the past year, by Mr. Martin as his residence the frost has come through the walls in the corners just above the base board and these sections are next to impossible to heat. If it becomes impossible to warm the floors then no amount of heat in the rest of the upper air in the rooms is of much avail and we have to use far more heat than is necessary trying to do the impossible. It is from these observations that I feel I cannot too strongly recommend a complete re-insulation of both school and residence floors, and that the lessons we have learned by trial and error should be guarded against at any other school or building put up.

The present old warehouse at the front of the school is to be torn down and a small building for storage of windows etc. is to be built at the back of the lot. The front fire escape entrance still has scaffold in it and is to be completed next year. The school needs plank walks from the side door to the street, from the back door to the teachers residence and from the second side door to the toilets. These walks are a must in this town of ankle deep mud in spring and fall and after every rain. The three parts or projects outlined in this paragraph have been drawn to the attention of Mr. W.J. Johnston when he was in Yellowknife and he has made a note of them.

I understand that the lot on which the school is located is to be leveled and some other work done to it. Along this line I have no information but if we are to engage a full time janitor who has the required qualifications then the summer months can be spent in making lawns and doing some type of landscaping that I believe will have to be done eventually.

A copy of this letter is being forwarded to Mr. W.J. Johnston for his information and comments. He may possibly have some recommendations to make as to remedying some of these very urgent insulating problems. If Mr. Johnston is to be in Hay River some time during the winter and wishes to make a thorough inspection of the school and residence in my presence I will make an attempt to be there if I know well in advance when he expects to make the trip.

The attached sketches are intended to illustrate the

the floors as they are at the present time and my suggestions as to repairs that could be done to improve insulation and cut down on fuel bills as well as making the buildings comfortable to live and work in.

I received Mr. Johnston's letter; in which he recommended we put an electric fan above each hot air duct; the day before I left for Hay River and I had no time to request authority from you for their purchase. As no electric equipment is available in Hay River I made an immediate purchase in Yellowknife and took them with me. When the invoices arrive I will forward to you for payment if the necessary authority will be granted. The two fans complete with extension cord and some other electric attachments amounts to \$24.75.

These fans did have an effect in circulating the air but it is impossible to heat the floor itself under the present conditions.

When in Hay River I discussed the possibility of our janitor and the one doing the janitor work for the Local District Administrator be combined and instead of one man doing each establishment separately they work in two shifts and in this way the buildings will receive twenty four hour service instead of the present set-up where one man works a shift and the building is left for the school teacher to worry about the rest of the day and night. I brought this to Mr. Martin's attention and he feels that it would be a very satisfactory arrangement but he was not sure of the janitor arrangements to be put into effect by his Branch and suggested that we approach Mr. R.A. Gibson with the proposal of our combining janitors in the interest of better service and janitor supervision.

Mr. McKinnon has just returned from an inspection trip in which he has visited all schools and in order that we will be able to prevent duplication and much misunderstanding I will be taking the complete responsibility of repairs and maintenance of school buildings and the ordering of supplies and materials for these schools. With this in mind I have written this report and have pointed out the faults that must be rectified in the best interests of maintenance and economy of operation.

Yours very truly,

I. F. Kirkby

Department of Resources and Development,
Ottawa, Ontario.

Dear Mr. Gibson:

Construction of Hay River School

You will be interested in the following report recently received from Mr. Indian Superintendent Kirkby. I know that your Engineers have been concerned over the fact that this school and teacherage have not been erected in accordance with specifications:

"When in Hay River the temperature was about 20 below with a wind of from four to six miles per hour. The floors of the residence were so cold that after sitting for ten minutes with outdoor footgear on my feet became cold. To touch the floors with the hand proved that they were very little if any above the freezing point. With this revealed to me on a calm day I began a thorough examination and I have the following to report.

In all the kitchen cupboards the water froze with the kitchen stove on full and the room temperature over 80 degrees. When these kitchen cupboard doors were opened up the cold air rushed in with enough force to put out a large candle light. Directly under the sink a small board was broken in the sub-floor and I cut a hole large enough to put my hand in for an examination of the insulation. Hay River Indian Day School File 905-5 (E1)

I have enclosed corrected voucher No. 267 covering supplies for hot noon lunches for Hay River school. When I made the purchase for these supplies from Hay River Supply Co, they agreed to supply at wholesale price plus freight and 5% for their work of handling. Through some slip up on their part they did not supply me with the cost landed price of each item and the resulting voucher was returned for correction.

The present invoice has been corrected by the Supply Company and is attached to the corrected voucher.

Yours very truly,

[Handwritten signature: I.F. Kirkby]

Reference: Hay River School Condition

Dear Sir:

Your wire regarding dirty condition of Hay River school has been received. As I have just returned from the above school I am able to give an honest report on the condition of the floors and as I have been into Hay River when conditions were as bad as they can get I feel that I am in a position to report on both the good and the poor maintenance conditions that we hear about.

I am not in a position to know who made the report or complaint but I am reasonably sure where it came from and is intended to show how much better the Northwest Territories Administration keep their schools than what we do. It may also have been put forward with the idea that this particular school should be taken from Indian Affairs, if I am right in my guess as to where the complaint originated.

I have had both the Ft. Smith and Yellowknife schools compared to Hay River so far as cleanliness and janitor service is concerned. These two schools are both held up as shining examples and because Hay River does not measure up we are said to be lax and falling down on the job.

The Ft. Smith school is built in pure sand which does not cling to one's feet and no matter how much it rains there is still no mud. This school has a full basement with running water which can be used for cleaning if need be. This school in conjunction with the other Government buildings has three janitors and with steam heating can be kept warm enough to scrub the floors if need be. At this school they have used a large heavy duty floor waxer that probably cost close to \$300.00, also the attendance is half of what we have at Hay River and as the building was not used as an Administration office as well as a school the wear on the floors is possibly less than a quarter of the Hay River school.

At Yellowknife the whole town is built on either rock or gravel and mud is not known around the school or the play ground. This school has a large concrete paved area in front of the entrance over which every one must walk to enter the building. Once in the building the first floor is concrete and if dirt is carried in there is no excuse. This building has running hot and cold water and the floor polisher is a large automatic machine where-by the building can be kept spotless. Here the school is operated by the town with their own trustee board.

I would like to point out that at Hay River we have no walks, no paved expanse in front of any door and everyone who enters must step out of the mud, up half a dozen steps and directly into the school building. As we had over 140

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

school children attending daily as well as an undisclosed number of adults moving through the building to the local Administrators office, the floors of the school took a lot of hard wear and the varnish was worn completely off the center of the halls and the center of each step where the traffic was heavy. Once the light coat of varnish was removed the dirt was ground right into the wood and even now after the wood work has been thoroughly washed and waxed the halls look dirty and unkept because wooden floors varnished and waxed are very unsatisfactory in localities like Hay River. If we are to close the school every time we get a thaw or a rain storm we will be able to keep the floors "clean enough to eat off" as Supt. McKinnon insists they should be.

Every bucket of water for washing must be heated on the kitchen stove in the residence and carried to the school. This is a large school and one needs a barrel of water not a bucket full to start scrubbing so that it is a major problem to get enough hot water to do the job. To start scrubbing these hard-wood floors with strong soap and water every couple of days will result in the floor being completely ruined within a matter of a few months.

After freeze up last fall the floors in this building were completely scrubbed and when the waxer arrived the janitor began working down the floors in each room. The waxer was too light and small for such a large building with floors requiring constant maintenance for little practical purpose.

Frank Norn was found to be very unreliable and it was his lack of maintenance of the mechanical equipment and his lack of ability to learn how to do it properly that prompted me to ask for his release and to let him go. It is impossible for any one man to keep this place clean once the spring thaw comes and the floors will always ^{give} people who do not like the way we are doing things, a chance to criticize without any attempt to analyse the reasons behind any of these conditions.

The floors at this school will require a fresh varnish job at least once or twice a year and this will cover hall floors and stair treads. As stated earlier the halls and the stairs though washed and waxed look dirty and unkept right now this because the varnish has worn off from the action of the fall dirt being ground right into the wood. Invariably most of our critics are not able to visit the schools when the weather is bad or the conditions are at the worst, but do come in when everything is ideal except that our buildings are sometimes still dirty with the man in charge trying to clean up the mess that was caused by no fault of his own. If all these individuals have to do is find fault without looking for the reasons then their reports are only half truths that misrepresent the facts for their own benefit.

This school at Hay River has no washrooms, no plumbing and no facilities are available by which we can install them. A wash room has been set up in the furnace room, as this is the only place where the floor will stand water to be spilled or where it can be kept from freezing. This gives a very untidy appearance to the furnace room but it does give a wash room which we would not have otherwise. Barrels have been set up to hold fresh water and the janitor removes the waste twice a day. To any one who wished to complain, this furnace room is a very unsightly place but if we train the Indian children to keep clean then we have ~~###~~ been well rewarded for the dirt and untidy appearance of the furnace room.

The present janitor is doing a much better job of work than the last and is making every effort to keep the place clean and tidy. All rooms are kept clean or swept out and floors are waxed and polished as well as they can be. During the Easter Holidays the halls and stairs must be thoroughly scrubbed and varnished before they are waxed. This is the only time work of this type can be done and I request the

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Authority to purchase varnish, stain, brushes etc. required to do this work during the Easter holidays. The janitor will do the work of sanding rough spots, applying the varnish and we will not require any extra labour.

I wish to see this done so that I will be able to make a report on how well this wax and varnish will stand up during the mud and water of this springs break up. I do not feel that we can keep wood floors in the halls and wooden stair treads in the condition some people feel they should be. If the school continues with 120 to 150 pupils then we must have battleship linoleum on the halls and iron or heavy rubber stair treads, thus we can wash or scrub the halls every night and the stairs will not wear out or scuff. I intend to report on the school condition next spring, but I feel that the above two changes should be put into Hay River school. Each and every locality has a different problem and I feel that the type of soil we are dealing with requires special precautions as far as our floors go.

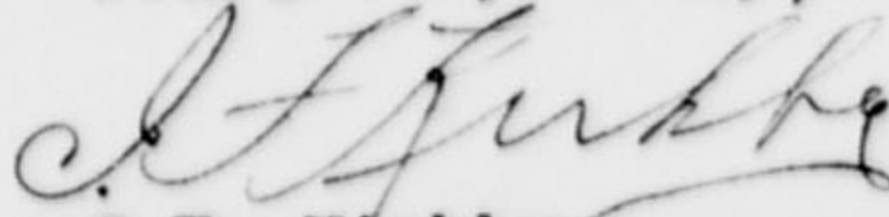

When Mr. W.J. Johnston of the Public Works was last in Yellowknife I asked him about putting board walks from the road to the main entrance, from the back door to the teacher's residence and from the second side entrance to the toilets. I will be seeing Mr. Johnston within the next week and will ask him if these walks can be put in before break up when the mud will be everywhere. I will write you after I have discussed the matter with Mr. Johnston but I feel that we must put the walks in at all cost as I do not want a repetition of last falls mud if it can be helped. I would also like to point out that last fall was the first time this school had enough pupils to call it open and though a great many complaints have been leveled at the janitor work done and the cleanliness obtained those who make the most absurd remarks, forget that the building is still being worked on by D.P.W., the yard has never been leveled nor walks put in and no gravel has been added to try and cut down the mud.

I saw some paper on the floor during the afternoon of my last visit, but the janitor had not swept up after school was out. This new janitor is much more alert than Mr. Norn and I feel he will try and keep things as clean as possible. Though the last Janitor lacked much and was far from what we desired the janitor to be, I do not believe that the building was one quarter as bad as the picture was painted and if the facts had been analyzed thoroughly, the complaint would not have been made but a recommendation sent in showing how the conditions could have been improved for those in charge of maintenance work.

Walls and ceilings were as clean as any school I have been in and the engine room and furnace room had been cleaned up since my last visit. The engine still throws some oil and the floors of these two buildings will need to be scrubbed next spring. I would like to point out that the furnace room floors and the engine room floors are concrete mats set up on posts two or three feet above the ground so that these floors are the same temperature inside as outside; 50 below when the weather is that cold;. It then becomes an impossibility to wash these floors and if oil or dirt drips on them it must be left until we get a spring thaw to clean it up.

If the complaint will specify special points then if it is accurate, ~~then~~ we can explain or deny but I do not believe the condition is as reported, or if it is so there was a very good reason behind it being this way.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

CONFIDENTIAL

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Re: Hay River Indian Day School

Mr. W. J. Johnston, Department of Public Works, Edmonton, was in the office a few days ago and gave me a copy of a report dated December 20th concerning the Hay River Indian Day School. In this connection, I would comment as follows:

I read Mr. Johnson's report and informed him that I considered much of his report petty and of little or no value. I am at variance with Mr. Johnston in his view that teachers and pupils should move into schools before they have been completed by the Department of Public Works and feel that the leaving of the school buildings in an unfinished state has resulted in undesirable conditions. You will recall that the teacher and pupils moved into the Hay River School before same was completed. In fact, the main entrance (fire exit) has not been completed. I brought this matter to Mr. Johnston's attention and he said he would attend to it. In contrast, the Department of National Defense completed the Fort Resolution Territorial Day School before handing it over to the Administration. As a result, pupils will have greater respect for the building as it has been left in first class condition. Whereas, the Hay River School was opened in an unfinished state; cleaning equipment was not provided so that the building could be kept in good condition. The pupils and teacher lived in a cold, unheated, unfurnished building for months. This condition is undesirable, yet, the Department of Public Works again have notified your Branch to move into the Fort Good Hope School in a similar unfinished condition. The opening of these schools in an unfinished condition permits officers of the Department of Public Works to try to pass the blame to our Department for their own shortcomings. For instance, C. A. Walrath has reported that several flush bolts at the bottom of the accordion doors were broken; while at Fort Good Hope, I endeavoured to open one of the accordion doors and found that I had partly jammed one of the bolts as I had not been shown how to properly open these doors. In this connection, I can readily see how several bolts could be accidentally broken. However, while at Hay River, I examined the accordion doors and failed to see any damage to them.

.... 2

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

1008-COPY

As for the coat hooks, these should definitely be in the halls beside each classroom as classes can be dismissed in a more orderly fashion by this arrangement. The Yellowknife School Board have found it practical to move the coat hooks into the halls beside the various rooms. Besides, Magistrate Martin was using one of the coat rooms as an entrance to his living quarters thus necessitating this change. The only mistake is that authority should have been obtained to move these and the change should have been made by a carpenter. This matter will receive our immediate attention as this condition may be rectified by purchasing a few boards to act as a back-stop for the hooks.

Mr. Walrath speaks of mud being present on the ceiling of the main foyer. During my inspection, I asked Mr. Bowerman how the mud got on to the ceiling. Mr. Bowerman was quite upset about the blotches of mud on the ceiling and informed me that he had noticed a fisherman enter the side door with very muddy feet. He asked him to clean the mud off his boots. The fisherman replied that he didn't have to take any orders from Mr. Bowerman as he was on his way up to see Magistrate Martin on business; the fisherman in defiance kicked his feet and thus the mud was spattered on the ceiling. Mr. Bowerman gave me the name of this gentleman but I did not take it down as a few minutes with some soap and water would remove all signs of the mud.

As for the other complaints mentioned in Mr. Walrath's report, I have already informed you of the apparent unsuitability of the present caretaker. I was amazed to find that he could not properly close a door. It may be his lack of care in closing the doors that caused the rubber-tipped door stops to be removed. I spoke to Mr. Bowerman about this at the time of my visit and when I next visited the school, I noticed that the doors were opened and closed properly.

Mr. Bowerman will likely argue that he was not made principal of the school, therefore it was not his responsibility to attend to the care of the entire school. I reported to your office the unsuitability of Mr. Kennedy and his inability to control his class. I feel that this has helped to produce this undesirable condition. However, I am of the opinion that neither Mr. Kennedy nor Mr. Bowerman are capable of handling the Hay River School. This school is too large for them and beyond their ability. It is for this reason that I have already suggested Mr. Bowerman's transfer to the Fort Franklin Indian Day School. Mr. Bowerman has done some fine welfare work among the Indians and would be more suitable in an Indian community. In fact, he has already written to you regarding this matter. I am not trying to pass the blame to others for anything which is within my field of responsibility but, at the same time, I do not think it is fair for the Department of Public Works to turn over their buildings to the Department in an unfinished condition and then write long memorandums containing petty complaints to cover up their mistakes.

... 3

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

The Officer in Charge of the R.C.C.S. at Fort Good Hope informed me that he had told Mr. Johnston that he could let us have 5 K.V.A. of electricity for our school. As Mr. Johnston wanted 15 K.V.A. for the school, the new generating plant was purchased. You will realize that when the Army Signals inform us that we may have 5 K.V.A. of electricity, they are making sure that they are on the safe side. Incidentally, at Fort Good Hope I learned from discussions with the Officer in Charge of the R.C.C.S. that there was in actuality a surplus of 10 K.V.A. that might be used by the school.

When the 16 K.V.A. lighting plants were installed, I argued that they were too large for our schools. I was under the opinion that a 2½ or 3 K.V.A. plant would meet our requirements and still feel that this would have been sufficient. However, I had nothing to do with the selection of these plants as I wasn't invited to attend the meeting when this matter was decided. However, I feel that the large lighting plants are the cause of most of the trouble as they require practically a specialist to attend to them and the cost of operation is excessive. I understand this matter will be settled in the spring when a central plant is installed at Hay River. If the Department of Public Works had installed a small plant along with the large unit, this condition would not prevail as the small plant could be used most of the time -- after school hours, at night, and so forth. This would have greatly reduced the costs of operation. However, this equipment will not go to waste as the large units at Hay River and Fort Good Hope might be moved to centres like Fort Rae and Fort McPherson where they would meet the requirements of a whole settlement. Should you decide to do this, I would suggest that you have the R.C.M.P. or some such group maintain this equipment in return for free light. This would relieve you of a large responsibility.

There are various matters I might report concerning the unfinished condition of schools but I shall leave this for my individual report on each school. Sufficient to report that all the woodwork at Rocher River is not completed. Fort Good Hope is quite incomplete. In spite of the report made by W. J. Johnston that the Hay River Indian Day School is complete, I wish to report that some of the steps and most of the front entrance, which is cased in by large glass brick windows, is in a very incomplete state. Apparently Mr. Johnston was unaware of this until I informed him of such at the time of his visit.

It is quite a contrast between the completely finished school at Fort Resolution and that of schools built by the Department of Public Works. The Department of National Defense did some very fine work at Fort Resolution. The floors were nicely sanded and left in first-class shape. The woodwork was completely varnished and left in good state. Walls were nicely coloured and, in general, the entire school building was a credit to the Army. In contrast, the Department of Public Works have done some very fine work but same is practically ruined by leaving their buildings in an incomplete state.

.... 4

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

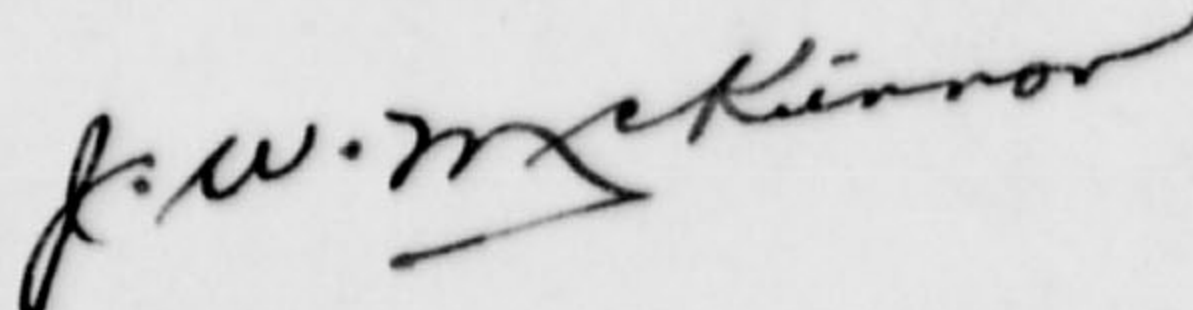

I note that in the Manual of Instructions to Indian Agents, that they are held responsible for the care, upkeep and maintenance of school buildings. I have discussed this matter with Indian Agent Hunter and Indian Agent Kirkby and they are assuming this responsibility. At the first opportunity, I shall submit a letter to you covering this matter.

I have written you this confidential letter in order that you will not have any undue concern regarding the Hay River Indian Day School. Both Indian Agent Kirkby and I will do everything possible to insure the proper care of property and equipment. At the same time, I wanted you to know that our main complaint is with caretaking service and the lack of ability of the caretaker to attend to such modern equipment as the electric light plant and the heating system. We shall endeavour to rectify this situation at the earliest date.

I just wish that I could drop in for a chat. It would be an easy matter then to let you know just how slipshod some of the work by the Department of Public Works has been. The apartment where we are living is a perfect example of poor work. Upstairs porches have been erected in such a way that the rain pours into the basement and wets everything in the grocery cupboard below. Ration rooms have been installed in the basement in such a way that everything will freeze. The basement floor is rough and left in an unfinished state. Floors have been left unfinished and so forth. In view of this type of work, I resent the fact that the Department of Public Works have tried to pass the blame to the pupils by pointing out that mud has been thrown on the ceiling when in such event the pupils were not responsible. Naturally, the pupils are not perfect and we shall do everything to improve their behaviour and to retain the buildings and equipment in the very best state.

Wishing you the compliments of the season and a very successful 1950, I am,

Yours very truly,

J.W. McKinnon,
Superintendent of Education,
Mackenzie District, N.W.T.

In connection with the construction of 4-Classroom Day School and Teacherage at Hay River, N.W.T., Public Liability and Property Damage Insurance was placed with Whalen Insurance Limited, Vancouver, by Mr. Peter Mattson, Contractor. It has only been called to my attention that an outstanding account of this Firm for period April 7th to May 31st, 1948, has remained unpaid. The amount of the account is \$17.00 and this is being forwarded to you in triplicate to be passed to the Department of Mines and Resources for payment, since it covers a period when that Department was in charge of this Project.

(Sgd.) W.J. Johnston
District Engineer.

Re: Hay River Indian Day School

The Department finds it necessary to return your Voucher 267. In your letter of February 10th you refer to the purchase of supplies from the Hay River Supply Company. The Voucher is issued in favour of "Hay River Supplies" and the account attached to the Voucher reads "In account with Robert Porret".

The information contained on the Voucher should agree with the information on the account.

QUOTE FILE I.A.1856-9

14649

OTTAWA 28 February, 1950.

MEMORANDUM TO THE DIRECTOR

Residence and School,
Hay River, N.W.T.

With reference to your marginal notation of the 16th February, on a letter from the Superintendent of Education of Indian Affairs dated the 14th February, in which complaint is made of the difficulty of heating the above buildings, may we comment as follows:

Upon receipt of Mr. Neary's letter, instructions were sent to Mr. Bruce Douglas at Hay River to investigate and report by Army Message. Mr. Douglas' reply was received on the 23rd February and he is quite definite that lack of adequate insulation is alone to blame.

Plans prepared by this Service call for four inches of rock wool insulation on floors, walls and ceilings. Mr. Douglas states that wool batts were split into a thickness of one inch in some cases and no thickness of insulation exceeds two inches, while in the residence shiplap is laid parallel to the joists contrary to the plans and leaving open joints and no dead air space.

The school floor was designed as a 4 inch reinforced concrete slab, 2 inches of cinder concrete and 4 inches of rock wool with a double floor fastened to 2" x 6" battens, and the insulation value is equal to that of the exterior walls.

There is no doubt in our minds that the entire responsibility for the unsatisfactory nature of the heating of these buildings, is that of those who erected the structure, with equal blame attached to those whose duty it was to see that the materials and requirements called for on the plans, were followed.

Mr. Douglas states he is forwarding a written report and upon receipt of same you will be informed in more detail of conditions at this school and residence.

We do not feel that such statements as the one that a wood pile of the residence foundation and which is frozen solid in permafrost has settled some two or three inches, should be so casually made. It is a physical impossibility for the pile to settle, as it would crush and split under load and not settle. We believe the pile was cut short and the beam forced down and then nailed. If the beam has sprung, the obvious method to adjust is to nail an adequate shim between the pile beam.

POOR COPY

With reference to a copy of a letter dated the 22nd February from Mr. R. Blais, Chief Engineer of the Department of Public Works suggesting that the plans of this school be reviewed, our Architect and Structural Engineer have done so and found absolutely nothing wrong with the design. The leaks of which complaint is made are said to be along the base of the dwarf wall and some water is said to follow vent pipes into the basement toilets which would seem to indicate lack of proper flashing.

We are at a loss to understand how a sag of 3 inches could occur at this part of the roof if the plans were followed. We would suggest an inspection of the ceiling under this portion of the roof, as a sag of 3 inches in the roof joists would surely be apparent at the ceiling. In any case instructions are being issued to our Mr. Douglas to have a portion of the ceiling removed which is directly below the 4" x 12" beam supporting the dwarf wall in order to determine the direction in which the roof joists were laid, and to clear up the possibility of any faulty construction.

Salient points to amplify the foregoing will be extracted from the report to be furnished by Mr. Douglas and will be embodied in a letter drafted for your signature to the Chief Engineer, Department of Public Works.

W. F. Warr

OTTAWA 9 March, 1950.

MEMORANDUM TO THE DIRECTOR

Four Classroom Day School,
Hay River, N.W.T.

With reference to our memorandum dated the 28th of February regarding a reported sag and leak in the west portion of the roof of the above school, we are now in receipt of a telegraphed report from Mr. Bruce Douglas, who was instructed to make an inspection under date of the 3rd of March.

An analysis of this report indicates that no sag of roof joists exists, that leakage was caused by faulty installation of flashing, since corrected, and that there is no indication of substitution or faulty workmanship in the roof framing itself. From these facts, it may be taken that the design of the roof was never at fault and is definitely adequate.

In more detail the report explains that a panel of the fibre board ceiling was removed directly under the 4" x 12" beam which supports the dwarf wall at the junction of the west and main roof and everything was found to be constructed in accordance with the plans. There was a small inequality of about 3/16 of an inch in the seam of the plaster board at the beam but it was neither serious nor unsightly. Water stains on the beam and joists indicated past leakage, but Mr. Douglas informs us that new copper flashing with soldered joints was placed at the roof and wall in the autumn of 1949 and should now be watertight. This would indicate that leakage was entirely due to faulty workmanship in placing flashing in the first instance.

The inspection should put at rest any reports indicating inadequacy of the roof design for this building. In future, any reports of a like nature on structures designed by this Service will be fully investigated at once but explanation should be requested from the source of such reports so much at variance with fact.

A full report on the Hay River School is being prepared for your information.

Major MacKay

For your information. We will give you the further report when it is received.

Re: Hay River Indian Day School and
Transportation of School Children

We are forwarding to you herewith a copy each of a letter from Mr. J. W. McKinnon, Superintendent of Education for the Mackenzie District, N. W. T., and a letter from Mr. W. A. Bowerman, Principal of the Hay River Indian Day School, concerning transportation of school children across the Hay River and from the West Channel to the school.

We should be pleased to have your comments concerning the suggestions contained in these letters relating to the transportation of children to and from school.

We might add, for your information, that the mouth of the Hay River is split by a large island which lies close to the southwest shore and opposite the Indian village. The channel between this island and Vale Island, on which the new town-site is located, is about 150 yards across and is open to wind and wave action from the main lake. This channel is never too rough for pontoon planes to land. However, any rough water can be avoided by travelling up water in the narrow channel near the Indian village and crossing some distance up river opposite the Game Warden's house. An ordinary skiff or 24 ft. freighter canoe would handle the school children safely.

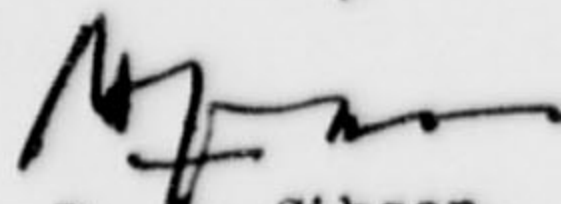

2....

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The children on the West Channel belong to families of fishermen. The local Administrative District at Hay River is now incorporated, and is in the same situation as Yellowknife, where transportation of school children is provided at the expense of the local tax-payer. It is thought, therefore, that it is up to the Board of Trustees of the local Administrative District to provide the necessary transportation at Hay River for white children.

R. A. Gibson,
Deputy Commissioner.

R.A. Gibson, Esquire,
Deputy Commissioner,
Lands and Development Services Branch,
Department of Resources and Development,
Ottawa, Ontario.

Dear Sir:

With reference to your letter of January 20, 1950, I requested a report from Mr. W. A. Bowerman, Principal, Hay River Indian Day School, concerning transportation of children across the Hay River and transportation from West Channel to the school. In this connection, I have attached herewith Mr. Bowerman's letter which is self-explanatory. As either Mr. Bowerman or the caretaker will assume responsibility for bringing the children across the Hay River, I see no reason for not purchasing a boat for this purpose as the Hay River is quite treacherous and several pupils have already nearly drowned.

As for the transportation of children from the West Channel area, I discussed this matter with Stipendiary Magistrate Martin and Mr. Bowerman. One solution suggested was that the Department purchase a station wagon for transportation purposes. We did not favour this method for the reasons of high cost of maintenance, need of daily care and so forth. The second method was that the people from West Channel contract with the local taxi firms to bring the children to school on the understanding that the Department will pay a certain portion of the cost. This second method seems the better as it appears that the local taxi firms would be responsible for injury caused by accident and so forth. Mr. Bowerman states that the cost would be approximately \$1,000 per school year. This amounts to \$35.00 per child. On this basis, I would recommend that the Department provide 50% of the cost of transportation up to a maximum of \$500.00 on the understanding that the local people at West Channel, or fish companies, provide the balance.

I see no reason for any parent not being able to pay \$15.00 per child for transportation purposes, that is providing there are not more than two children of school age in the same family. Should this latter solution meet with your approval, I shall visit West Channel and endeavour to make such an arrangement with the local people. As the children at West Channel are "Whites" it appears that this item of expense is the responsibility of our Administration; whereas the matter of transportation across the Hay River is the responsibility of the Indian Affairs Branch.

OR-COPY

Hay River, N.W.T.,
February 7, 1950.

Mr. J. W. McKinnon,
Superintendent of Education,
Mackenzie District, N.W.T.

Dear Mr. McKinnon:

Transportation of children across the Hay River

Number of Treaty children attending school: 35
Number of Non-Treaty children from across the
river attending school: 10

The Hay River is perhaps the most treacherous in the North. This is due to the fact that our prevailing wind piles huge waves into the river, and no small craft can cross. None of the Indians have a boat of sufficient size to cross every day. We almost had a triple drowning when school first began.

I hired and personally paid an Indian fisherman to use his boat to take the children back and forth every day, to and from school. Even with a large freight canoe there has been three days that the children could not cross. This cuts down our attendance and retards their work at the school.

Would it be possible to have our department obtain for the use of the school a boat of sufficient size to bring these children across? If such a craft was available either the caretaker or myself would see that the children were brought over. This seems to me to be the only solution to our problem of getting these children to school. The fact that I used my own money to pay for such service indicates whether I believe it is necessary or not.

Transportation of children from the West Channel area

Children of the fishing village of West Channel are three miles removed from the school, there is an attendance of 30 pupils from this section.

At the present time we are hiring two taxis to bring these children to the school, and paying the cost by means of dances, box socials, etc.,

I would recommend that the department either purchase a station wagon for use of the school, or as an alternate assume the cost of taxi service, which would be approximately \$1000.00 a year.

Both of these problems are of utmost importance to the school if we are to maintain our attendance standing and continue to have the pupils in regular attendance. For your attention, Sir, and necessary action.

Very truly yours,

(signed) W. A. Bowerman.

W.A. Bowerman, Principal.

Dear Mr. Gibson:

Re: Hay River Indian Day School

We are in receipt of your letter of
February 21st with reference to the transportation
of school children to the above school.

It is our understanding that this matter
has now been settled, and that it is unnecessary for the
Indian Affairs Branch to make any contribution towards
the children's transportation.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education

OTTAWA, Ontario.

Dear Sir:

I wish to thank you for the copies of the reports on Hay River school and I am pleased to note that this establishment will be repaired and an attempt made to re-insulate the floors as this should eliminate much of fuel waste at Hay River.

In the Memo to the Director on February 28th. I note that reference is made to the settled pile under the house. I would like to point out that this pile did settle and that it would have been a physical impossibility for any gang to have forced an 8" X 12" beam down to the top of the pile. The piles were sunk in permafrost and then before they were fully frozen back in, the beams were put on with the result that some piles were not to the bottom of the hole and did settle pulling away from the beam. In all the schools built on piles we can expect to have to do a certain amount of shimming and possibly jacking up for the entire life of the structure. As piles will conduct heat there is always the possibility of the permafrost thawing just enough around the pile to allow it to move during the summer when the water level in the area drops.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

Dear Sir:

Enclosed herewith please find requisitions for school supplies from the three Indian Day Schools in this Agency. These supplies cover maintenance, caretaker, hygiene and recreational needs at the various points.

These supplies are for the normal operation of the schools and the requisitions are to be added to the ones that I had attached to my 1950-51 estimates as submitted last fall. These requisitions are not intended as extra but are to cover items that were estimated for but not requisitioned for at the time. Fuel oil for light and heat, wood for fuel and supplies for noon lunches were requisitioned for at the time the estimates were submitted.

G.H.
In the case of fuel oil for Rocher River and Ft. Rae I would like to point out that I requested that this be purchased at Yellowknife and re-shipped from here in preference to having it brought in from Waterways. If purchased at Waterways we must pay approx. 20¢ per gallon, pay freight of approx. 23¢ per gallon to Ft. Rae and pay approx. 6¢ per gallon on return of empty drum to Waterways so that we pay 49¢ per gallon for fuel oil that could be purchased at Yellowknife for 27¢ plus the freight from here to Ft. Rae which should not be more than 8 to 10¢ per gallon. This applies to all points on Slave Lake and on last years shipment alone a saving of at least \$400.00 could have been made if oil had been purchased at Yellowknife.

OTTAWA 14 March, 1950.

MEMORANDUM TO THE DIRECTOR

Four Classroom Day School,
Hay River, N.W.T.

With reference to your memorandum dated the 6th March, respecting the unsatisfactory conditions at the above school, it is considered that faulty workmanship, lack of supervision and a complete disregard of insulation details as shown on our drawings, are to blame.

At the outset, the Indian Affairs Branch obtained authority from Council to award a contract for construction of the building to Peter Mattson, whom they understood to be the best qualified person in the area at that time. Considerable concern was felt when it was established that Mr. Mattson would be unable to finance his operations as a contractor, and arrangements were made to restrict his status to that of general foreman; responsibility for organization and supervisory control being assigned to the Department of Public Works. Mr. Mattson's documentary status as contractor nevertheless was never rescinded.

Respecting Mr. Mattson, we quote from a report dated the 22nd November, 1947, from Mr. G.R. Barnes who as an Assistant Engineer, with this Service, supervised the preliminary work. Mr. Barnes said "Mr. Mattson seems to be a competent and conscientious workman, but, as a contractor, will require considerable assistance from the Department in arranging for materials and getting things organized."

Responsibility for faults now evident in the construction of this building lies with those charged with supervision who permitted inefficient workmanship and inexcusable practices to be made use of, on a structure that was simple and straightforward.

Our memorandum dated the 28th February, based on a report from Mr. Bruce Douglas regarding the inadequate insulation, and a further memorandum dated the 7th March based on a later report from Mr. Douglas regarding leakage in the west roof, indicated that all faults are due to the aforementioned causes, and there is no fault in the design.

When this school was proposed, considerable research was made into soil and sub-soil conditions. Borings were taken and samples of soil from the site were carefully examined by our structural engineer. It was obvious that the building should be erected without a basement and several designs were investigated which would combine in a compact unit such services as

.....2

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

heating and electrical supply, suitable access, exits, fenestration and adequate insulation. The design decided upon was approved by Indian Affairs and considered so acceptable that a similar design of school was chosen for Fort Smith.

We do not know what more can be said than has been presented to you in this and our previous memoranda. The responsibility for leakage of the west roof has been cleared up, and roof repaired and there is no sag in the roof joists. The skimping of insulation material has been proven and the responsibility is not that of this Service.

The remedy suggested by Mr. Douglas for implementing insulation, namely by blowing in loose material is widely used, but is not what should be employed in a new building.

The vapour barrier and reinforcement against settlement provided by the treated paper backing on rockwool batts is taken into consideration when calculating heat losses.

Nevertheless without practically taking the whole interior finish apart and taking up the floors at a prohibitive cost, nothing better can be suggested.

The residence is a simple problem and easily rectified by removing present sheathing below the ground floor joists and placing four inches of insulation and masonite base as shown on plans. Wood shutters to close in the space under both buildings, are called for on the plans.

The deplorable situations being created at Hay River and other points in the North through an apparent lack of interest combined with inefficient construction supervision, and job organization, should not be allowed to recur, and it is felt that only by our own supervision of construction can repetitions be prevented.

Walter F. Wan
Chief.

Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir: Re: Hay River School Floors

I have just returned from a trip into Hay River and I can report that the building is in much better condition than on any previous trip. The floors have been much improved and will be scrubbed and waxed and varnished during Easter holidays.

I ordered a quantity of varnish and painting supplies on February 22nd. and to date have not received any notification that this has been ordered or shipped. As Easter holidays start two weeks from today I feel we should have a rush order on this varnish. Easter is our only chance to varnish until next summer and with the mud of Hay River to contend with during the break-up I feel we must varnish the halls and stairs now.

Please advise whether we can expect this varnish in order that we may make the necessary arrangements for the janitor to do this maintenance work during the holidays.

Yours very truly,
I. F. Kirkby

In accordance with our
memorandum of February
8th.

OTTAWA 23 March, 1950.

[Signature]
Director
24/3/50

MEMORANDUM TO THE DIRECTOR

Hay River Indian Day School

To complete our memorandum of the
7th February, we now have a report that there
is some vibration from the electric generator
set. It is also reported that the generator
is set directly on the concrete base.

This generator is in a separate
building and is mounted on a concrete floor
having a dead weight of more than thirty five
tons. Under the circumstances, any vibration
transmitted to the adjacent, but separate,
principal's residence should be negligible if
the generator is running properly. If the
usual cushioning material is introduced into
the mounting, the vibration will be reduced.
This installation, however, is of a temporary
character and will not be required when the
anticipated privately owned power supply be-
comes available.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

With reference to your wire of April 29th. 1950 in which you request the additional information regarding the warehouse to be used at the Hay River School I wish to report the following.

The enclosed sketch will indicate the Hay River school yard and the various buildings that are now on the lot or will be put up there. The warehouse has not been built but as an old one now exists I have been informed by Mr. Johnston that the D.P.W. are to remove the old warehouse; which is right beside the school and was only a store shed; and will be putting up a new warehouse for the school in the position indicated on the sketch. This building to be put up this summer and as far as I can gather is a part of D.P.W. program necessary to complete the school. I know nothing about Mr. Johnston's instructions but the building is to be put up.

The plan calls for a building 24' x 36' to be partitioned into three sections as indicated and it was the large section that I requested we be allowed to use this coming winter as a fish store house and weigh room. The building will not be used after the winter season for fish and will be completely cleaned so that no fish waste will be left to decay in the building.

We will be handling only frozen fish during the winter and have no intention of handling fish at other seasons of the year at any point. As it is an experiment to try and get more revenue to the Indian and at the same time give more Indians a share in this revenue it was my desire to use this building for one season to see if it was profitable and whether the Indians

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

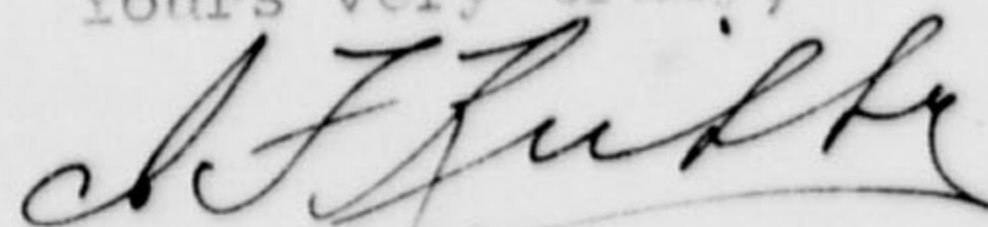

can be depended upon to deliver fish and do the majority of the running of the operation themselves. If it proves out I would then propose to put up a small winter packing house of our own where it would be well away from the school, but one hesitates to put up such a building before the Indians have shown their willingness to make the venture a success. As pointed out this is only a one winter arrangement.

I would expect the Welfare teacher to take enough interest in the project to keep track of what is going on and to be able to advise the Indian as to what to do and to prod them along when ever need be. He would also have to do the actual money transactions but nothing else. I do not think we are asking too much of the teacher seeing that he is a Welfare teacher paid more than Indian Superintendents; to help the Indian out by giving advise and instruction. The present teacher Mr. Bowerman has done this but many might not want to. All weighing of fish, boxing of fish, loading on trucks and everything including all cleaning up will be done by the Indian but actual supervision must be done by the Welfare Teacher.

The Indian is, by our standards at least, lazy and if no one is handy to prod him every so often then he does nothing. It is for this reason that I wish to have the first years work done near the school so that the Teacher can give it the once over every so often. Again I am sure that the Indian would be only too glad to see the Teacher do all the work while they sat around but this is not to be the case and every single bit of manual labor is to be done by the Indian.

I would like to say in closing that the success that was attained last winter in the fishing can be attributed, in no small way, to Mr Bowerman's after school efforts in working for the good of the Indians of Hay River.

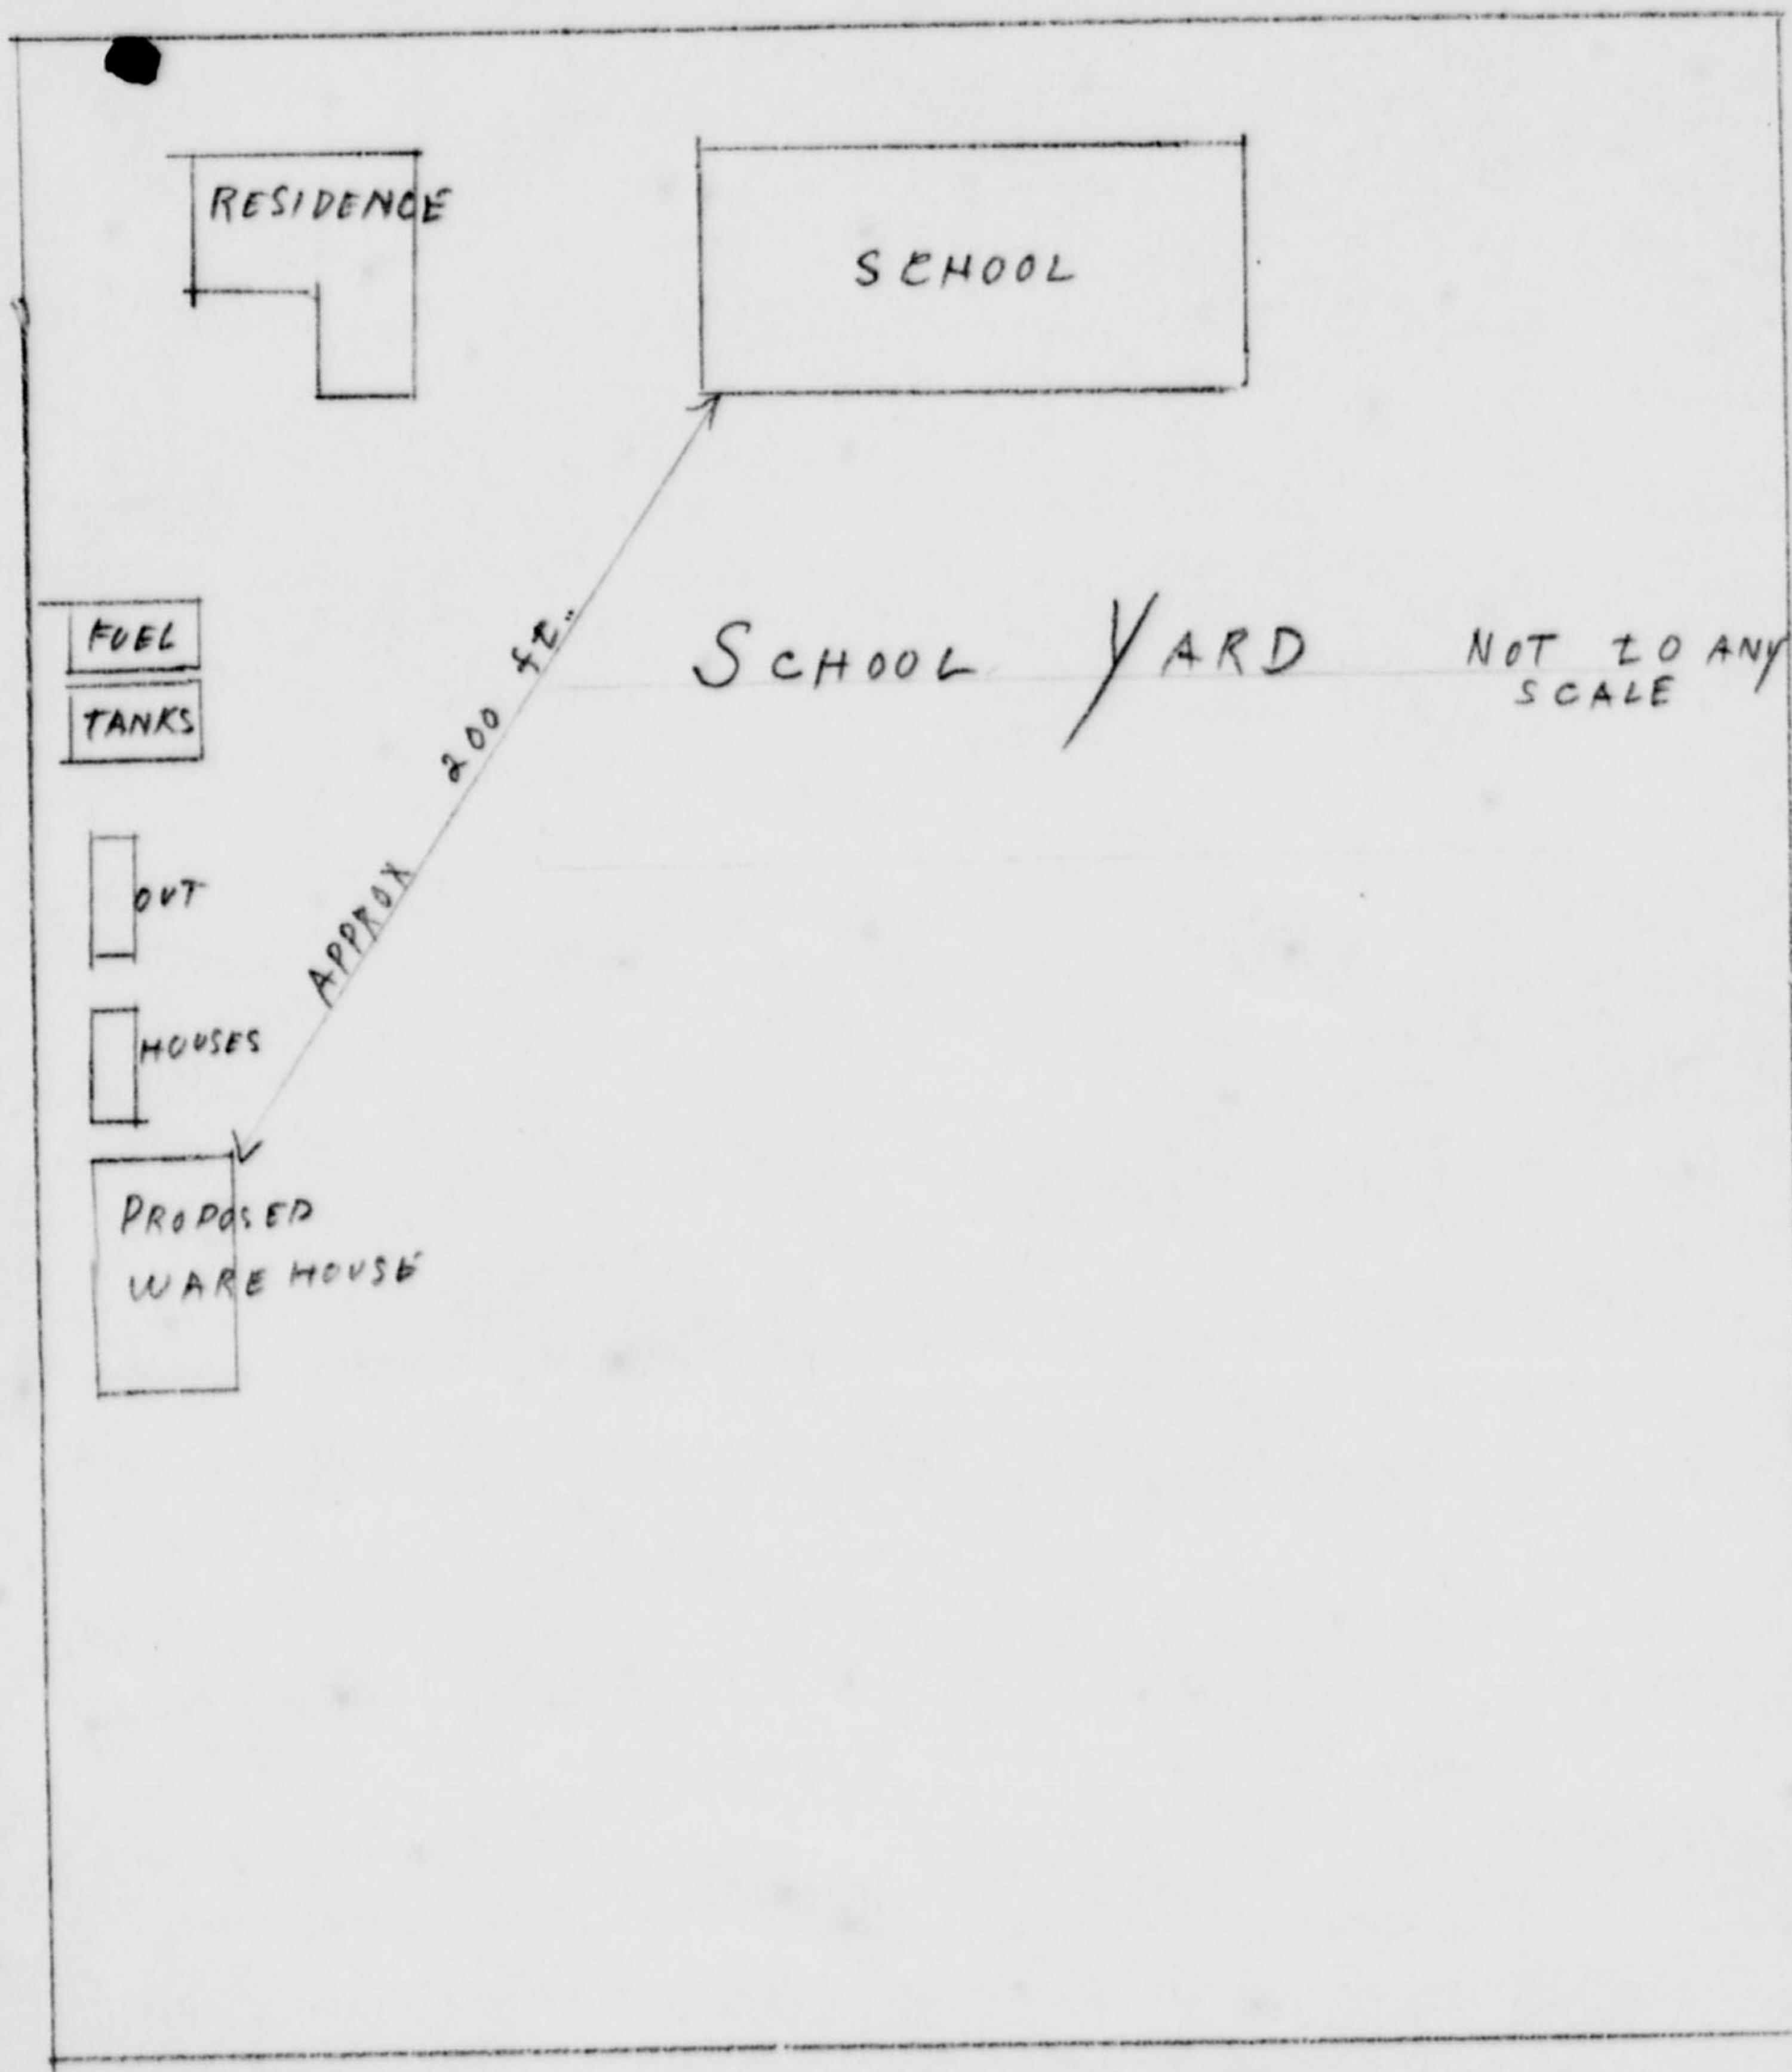

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

R-COPY

C O P Y

Extracts from the Minutes of the twenty-eighth Meeting of the Local Board of Trustees of the Hay River Administrative District, held on May 9, 1950.

Copy

Letter read from Mr. W.G. Brown written on April 29th enclosing copy of letter written by Mr. R.A. Gibson on April 1st, re the Indian Day School in Hay River. It appears to have been suggested that the District take over the Indian Day School. The Board does not wish to have anything to do with the Indian School until various improvements have been made to the school. The insulation is very poor; as an example, the lower floor in winter is freezing while the upper floor is roasting. The residence is in poor condition and is not habitable in the winter time; a case was presented by Trustee Osborne whereby a Christmas tree was brought into the house with a large lump of snow on it and after having the tree in the house for two weeks the lump of snow was still on the tree. Also, the school appears to be run by the children rather than by the teachers; the teachers do not exercise discipline and the parents are objecting to the teachers and their methods of teaching the children. The grounds are in very poor condition; there has been no attempt to landscape them nor plant grass. They have not been levelled. In the spring or whenever it rains, the grounds become a sea of mud which is tracked into the school by the children. Trustee Osborne did not feel that there would be enough taxes in the District to finance the upkeep of the school, the expenses are too great, for example, since the opening of the schools, 7 months ago, there has been \$5,000.00 worth of fuel oil used therein. Janitor and teacher expenses also discussed. Council feels that there is only one teacher at present in the school that is worth keeping. Feel they could hire three local teachers and with the one present good teacher, would have a satisfactory staff with more discipline and education taught. Trustee Osborne felt the government should take over the expense but the Council could form a school board and take over the management of the school. The Board members will agree to gather material to present to the Board of Inquiry when it visits Hay River.

June 12th, 1950.

The Secretary,
Department of Public Works,
Ottawa, Ontario.

Dear Sir:

Re: Hay River Indian Day School

The Northwest Territories Administration has forwarded to us a copy of an extract from the Minutes of the twenty-eighth meeting of the Local Board of Trustees of the Hay River Administrative District, held on May 9th, 1950.

With regard to the Hay River Indian Day School, the Minutes read in part as follows:

"The insulation is very poor; as an example the lower floor in winter is freezing while the upper floor is roasting. The residence is in poor condition and is not habitable in the winter time. A case was presented by Trustee Osborne whereby a Christmas tree was brought into the house with a large lump of snow on it, and after having the tree in the house for two weeks, the lump of snow was still on the tree."

I thought it advisable to bring this matter to your attention, as it is understood that repairs will be made to this building this summer under the direction of your Department. We have already transferred to your Department, an amount of \$3,000.00 for repairs to the Hay River Indian Day School.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education

April 27, 1950.

Mr. John V. Kennedy,
Hay River Indian Day School,
Hay River, Northwest Territories.

Dear Sir:

I have for answer your letter of April 12 and wish to advise that the Department accepts your resignation as teacher at the above Indian Day School, effective 1 July, 1950. If you will advise me as to your summer address, arrangements will be made for your Retirement Fund cheque to be sent to you in July.

With regard to the dishes which you have purchased, I would suggest that you might discuss this matter with Mr. Kirkby during his next visit to the school.

Yours sincerely,

(sgd) Bernard F. Neary,

Bernard F. Neary,
Superintendent of Education

(E)

March 31, 1950.

Mr. I. F. Kirkby,
Superintendent, Indian Agency,
Yellowknife, N. W. T.

You will recall previous correspondence concerning the sharing of caretaking expenses at Hay River. Mr. Magistrate Martin has written to the Deputy Commissioner of the Northwest Territories Administration, as follows:

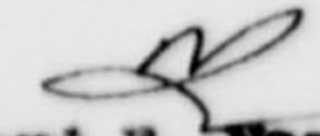

"In replying to your letter of February 14th, 1950, in the above connection, I do not consider an arrangement of this kind would be satisfactory. In the first place the Hay River Indian Day School and the Administration Buildings on Lot 78, are over a mile apart and a lot of the caretaker's time would be taken up going between the establishments.

"The school is a large four room building, with a power house and teacherage and is a full time job for one man, and when they landscape the school grounds the caretaker's work will increase.

"At present there is not much work for a caretaker at the Administration Buildings, all that is required is a scrub-woman for one half day a week to scrub and polish the office and Court Room floor. Each occupant of the houses is responsible for the cleanliness and good appearance of their house and surrounding grounds.

"The heating and lighting of the Administration Buildings is no problem and does not require the services of a caretaker."

DEVELOPMENT SERVICES
BRANCH

CANADA
DEPARTMENT
OF
RESOURCES AND DEVELOPMENT

OFFICE OF THE DIRECTOR

Ottawa, July 12, 1950.

Dear Major MacKay:

Engineer I.M. Marshall of our Engineering and Construction Service has been inspecting our buildings in the Mackenzie District, and in a report dated the 30th of June, 1950, he included the following remarks on the Hay River school:

"Together Mr. Martin and I visited the Hay River four-roomed school. Insulation has not yet been placed. I was informed that it will be started as soon as school is closed. I will be giving a full detailed report later on this school, but I must state now that I noticed some unfinished painting and some unfinished electrical connections. One point that I do not recall mentioned in the files is that both sets of double doors have an open space of at least one-quarter inch when closed. It is a wonder to me how anyone could ever stay in this school in the winter. All entrances need porches."

The above is submitted for your information.

Major D.M. MacKay,
Director,
Indian Affairs Branch,
Department of Citizenship and Immigration,
OTTAWA.

Yours very truly,

R.A. Gibson

Yellowknife, N.W.T.
July 20th. 1950.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

Supplies for the noon lunches to be given to the Indian children at the Hay River, Rocher River and Ft. Rae Indian Day Schools has arrived and it is noted that the milk supplied is Carnation while my requisition of April 3ed. stated Condensed milk which is sweetened milk.

As I had ordered Condensed milk I did not ask for any sugar to sweeten the cocoa as it was not necessary. Now that we have no sweet milk nor have we sugar to add to the milk we do have.

In view of the above I request authority to make local purchase of sugar locally in quantities listed below.

Ft. Rae.	300 lbs.
Rocher River	200 lbs.
Hay river	200 lbs.

Yours very truly,

I. F. Kirkby

Bruce Robinson Electric,
Edmonton, Alta.

Dear Sirs:

During October of last year we experienced much difficulty with the Rocher River light plant and eventually the post of one cell was burned off. This cell was still good but we had no way of repairing it and when I contacted Dept. of Public Works for a replacement you advised them that the plant would work without the #1 cell and that one would be shipped this summer by water transportation to replace the burned one.

As the cost of transportation by air was very high I kept the old cell here and it was sent out to you by N.P.C.L. a few days ago and should reach you in due course. Will you kindly send in a new cell as indicated in your letters to Mr. W.J. Johnston of D.P.W. last fall. The burning off of the battery post was due to negligence and faulty installation by the party who set up the plant and is not the fault of operation by any of our staff. The plant is now operating very satisfactory and I would like to install the new cell before another winter season to insure the best results possible.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies,

Hay River.

Yellowknife, N.W.T.
July 21st. 1950.

Fairbanks Morse, Co. Ltd.,
10255 - 104th. Street,
EDMONTON, Alta.

Dear Sir:

Reference your letter of July 19th. regarding repairs to the F.M. Model 43AG4 diesel light plant I wish to advise that this plant is in need of an overhaul and I have requested that I be given authority to ship the whole plant out for repairs. With this in mind will you kindly hold the new voltage regulator until I advise you as to whether the plant is to be returned to you for overhaul or whether it will be done locally in Hay River.

The report I received on the regulator was that the large circular cover that encloses the generator itself and also the voltage regulator became loose and shook onto the regulator shorting the entire regulator and causing it to burn out. On examining the cover it had large burned areas where it had been shorted and it is presumed that this is the reason for the break.

The Dept. of Public Works advise me that they had been in touch with your office and that new volt meters and ammeters were to be supplied to replace the originals which did not give service. Will you kindly look into this and if the plant is shipped out replace the old ones or send us new meters when the regulator is returned if I have to do the overhaul locally.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

During a recent visit into Hay River the power plant was inspected and it was found that the voltage regulator had been burned out. This was sent to Edmonton for repairs and the establishment is without any power at all. This being the summer holiday season no great difficulty is being felt.

The Hay River school light plant has been a very expensive piece of equipment and much time spent in repairs. The plant has run a full year or more without any overhaul and as it must run 24 hours every day it is now in need of a full overhaul to put in shape for next winter. There is a diesel man in Hay River who can do a thorough repair job but I feel that we should send the plant to Fairbanks Morse, Edmonton and get a good job done while at it.

The plant at Hay River is A.C. and as such must run no matter what power is needed so that we are often running with as little as one K.W. being needed and running at such a small load has resulted in the plant running away with itself and we get excessive wear. I cannot too strongly recommend that we provide a 1500 Watt standby plant at this point to be used at night when the power requirements are small and to provide for heat if a breakdown occurs. A

The Hay River plant being a diesel has some vibration and in its present set up has been mounted on a floor that is supported at the corners only and acts like a diaphragm so that the entire plant, plant house and residence vibrate all the time. With the addition of a three room warehouse just back of the school I feel that the light plant, when it returns from being

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

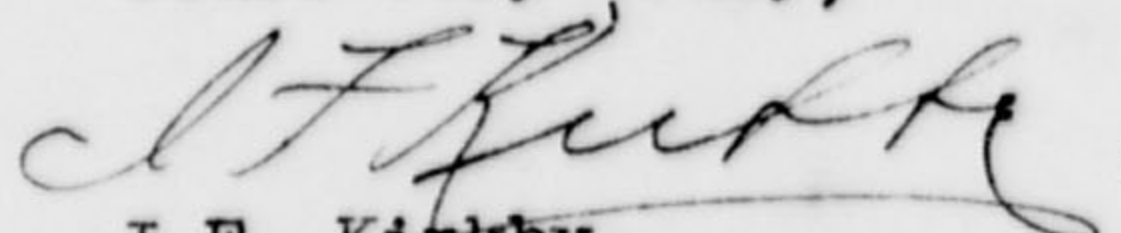

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

overhauled should be set in one room of the warehouse on a block of concrete to prevent the vibration of the entire residence and also to increase the life of the engine. The cost of this change will be negligible and will make for better operation all round.

I have discussed these points with Mr. Ducett on his recent trip into Hay River and believe he can give you a very clear picture of the Hay River needs.

In view of the above I would request authority to take the plant out and have it sent to Edmonton by truck. I would feel that a better job can be expected there than at Hay River, and we will be money ahead in the long run.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

Mr. Neary
per
B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

The Hay River light plant has been sent to Fairbanks Morse Edmonton for a good overhaul and will be out until the end of August. I have experienced so much trouble with power units at the schools during the past that I felt it would not be advisable to allow local so called mechanics to operate or work on the machine. The teacher is partly to blame in most cases by not showing much initiative or sence of responsibility.

These light plants are large complicated machines and with the AC outfit they must run 24 hours per day during cold weather and if they fail no power what-so-ever is available ~~for~~ to keep the place from freezing up. I cannot see why we are saddled with one large cumbersome plant about twice as large as we need for all but about one or two special occassions and no standbys. Each and every school would have been much easier to operate and much less bother if they had two small plants of possibly 3 KW and we would then always have a standby and the cost of both would have been no more than the one large one we now have. At these out-of-the-way places there are no mechanics and when the plant stops some of the hay wire teachers go at them with a screwdriver and we end up with a big repair bill. In most cases we cannot blame the teacher because to not get the plant going would result in everything freezing up but it does make maintenance a very difficult problem.

At Hay River we will be doing away with the light plant next summer but in the mean time we should have a small standby of possibly 3 KW. This is the only AC school in my Agency but I know that Mr. Hunter has several in his Agency (Franklin is best example) where a standby is a must. Can we not purchase

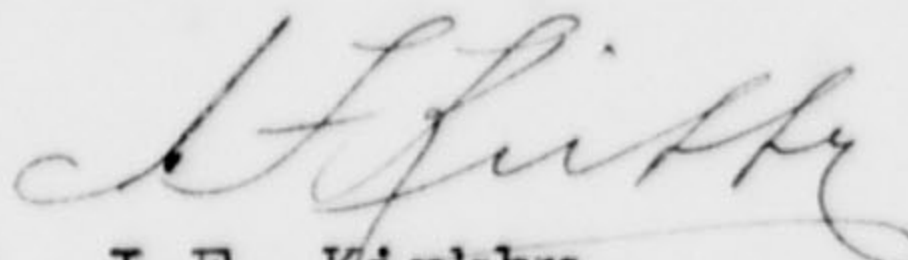

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

a small 3 KW or such like for Hay River with the understanding that it go to what-ever school Mr. Hunter requires it at next year when we hook onto Hay River power. The older these plants get the more grief we will get and with such large units one must get expert mechanics to run them and we do not have these in many points. The A.C. plant must run 24 hours a day and it is only reasonable that they will give out so that a standby is not a unnecessary piece of equipment but a must. One small plant of this type could be moved from any point to another at small cost and could make our work here a lot easier.

Enclosed are two wires received from W.A. Bowerman at Hay River during the present wet cold spell we are having. They are the type of wires we get and the addition of one small standby plant for use at any point where needed would more than justify the cost.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

1351
4-1 HAY RIVER

9937-103rd Street
Edmonton, Alberta
August 17, 1950

R. BLAIS, CHIEF ENGINEER, DEPT. PUBLIC WORKS, OTTAWA

Funds in the amount of \$3,000 have been allotted for the completion of the 4-classroom school and teacherage at Hay River, N.W.T. Since this estimate was prepared, additional work has been proposed on this structure for which no funds have been provided, and I now forward an estimate to cover the cost of this additional work amounting to \$2,270.00.

The additional work arises from the experience of last winter and the difficulty of heating, both the 4-classroom school and the teacherage and instructions were then issued that corrective measures must be taken. The corrections suggested are the construction of porches on the north and south entrances in the school, the closing in of the open underfloor to the ground by building a form and packing this with sawdust to effectively close off and insulate the air space under the school and prevent the circulation of air under the concrete slab. It is believed that this construction will eliminate the heat loss that is occurring through this floor, under the present construction. Similar action is required to protect the floors of the teacherage. Detailed estimates are:-

Porches - Materials:	\$350.00
(School) Labour:	
4 men 10 days @ \$18.00	720.00
Freight:	50.00
Total -	\$1,120.00

Insulation: under teacherage	
Materials	
40 bales insulation	123.20
3 rolls heavy paper	15.90
Labour:	
tearing off, 3 men 2 days	108.00
replacing	216.00
freight	20.00
Total -	\$483.10

Say \$500.00

Insulation: under school	
Sawdust, 90-cu. yd.	\$125.00
Lumber, 1000 2x4)	
1000 shiplap)	130.00
Paper, 5 rolls	26.50
Nails, 1 keg	15.00
Labour - 10 man days	\$180.00
Incidentals	23.50
Total -	500.00

Teacherage:	150.00
Total -	\$650.00

TOTALS:	Porches	\$1,120.00
	Teacherage	500.00
	Sawdust insula-	650.00
	tion	
	TOTAL-----	<u>\$2,270.00</u>

Materials must be purchased if this work is to be carried out and I ask that this office be advised by wire when approval is granted on this request as nothing further can be done on the school until further funds are made available. The funds allotted on the regular estimate are sufficient to carry out our original plan of work but will not cover any of the items listed above.

Ottawa, Ontario
August 21, 1950

DIRECTOR OF DEVELOPMENT SERVICES BRANCH
DEPARTMENT OF RESOURCES AND DEVELOPMENT
OTTAWA

Dear Sir:

I am enclosing copy of letter dated August 17th from Acting District Engineer J.E. Kellett, Edmonton, concerning the four class-room school and Teacherage at Hay River, N.W.T.

Mr. Kellett's letter points out the need of additional work to correct difficulties of heating both the school building and the Teacherage, and estimates that this work will involve an additional expenditure of \$2,270. You will note by the 2nd paragraph of his letter that he intends to close in the open underfloor to the ground by building a form and packing this with sawdust to close off and insulate the space under the school and teacherage. We think that this would be a good idea but feel that some adjustable ventilation should be provided. However, the provision of sufficient vents would not materially alter the estimated cost as given by Mr. Kellett.

As materials must be ordered and shipped in to Hay River, if it is decided to carry out this work, I would like to have your comments and further instructions at your earliest convenience.

Yours very truly,

(SGD) Robert Blais

OFFICE OF THE DIRECTOR

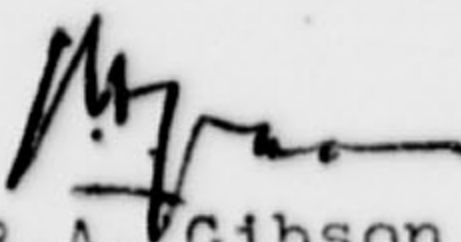

Ottawa, August 23, 1950.

Dear Colonel Neary:

I am sending you herewith a copy of a letter, dated the 21st of August, 1950, from Mr. R. Blais, Chief Engineer of the Department of Public Works, together with a copy of a letter dated the 17th of August, 1950, from Acting District Engineer J.E. Kellett, Edmonton, to Mr. Blais, concerning alterations to the Hay River day school. As this school is operated by your Branch, I am forwarding this correspondence for whatever action you may deem necessary.

The Chief Engineer of the Public Works Department has been advised that copies of both letters are being referred to you for attention.

Yours very truly,

R.A. Gibson

16238

Yellowknife, N.W.T.
August 30th. 1950.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
OTTAWA, Ontario

Dear Sir:

Attached herewith please find a letter from J.E. Kellett of the Dept. of Public Works, Edmonton, in which he outlines the proposed work to be carried out to repair the lack of insulation in the school and residence floors at Hay River, N.W.T.

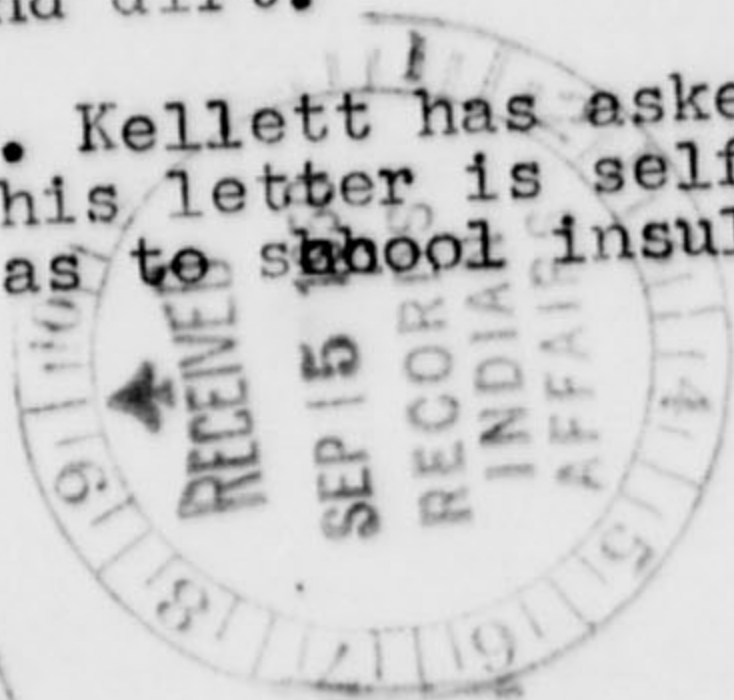

This work is a must before this coming winter and the school residence must come first as it is much worse than the school, as people must live in it all the time where the school is not used except during the day. Both these buildings should be repaired to save on fuel alone.

No mention is made of the furnace at the school but this requires a new combustion chamber and the cost of this plus the installation should not be over \$50. or \$60. This should make it more economical to burn fuel and have better heating with less smoke and dirt.

Mr. Kellett has asked for the materials to complete the job but his letter is self explanatory and is the complete information as to school insulation.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

#1351
Misc 4-1 Hay River

9037 - 103 Street,
EDMONTON, Alberta.
August 17, 1950.

R.BLAIS, CHIEF ENGINEER, DEPT. PUBLIC WORKS, O T T A W A.

Funds in the amount of \$3000.00 have been allotted for the completion of the 4 Classroom School and Teacherage at Hay River, N.W.T. Since this estimate was prepared, additional work has been proposed on this structure for which no funds have been provided, and I now forward an estimate to cover the cost of this additional work amounting to \$2270.00.

The additional work arises from the experience of last winter and the difficulty of heating, both the 4 Classroom School and the Teacherage and instructions were then issued that corrective measures must be taken. The corrections suggested are the construction of porches on the north and south entrances in the school, the closing in of the open underfloor to the ground by building a form and packing this with sawdust to effectively close off and insulate the air space under the school and prevent the circulation of air under the concrete slab. It is believed that this construction will eliminate the heat loss that is occurring through this floor, under the present construction. Similar action is required to protect the floors of the teacherage. Detailed estimates are:-

Porches - Materials:	\$ 350.00
(School) Labor:	
4 men 10 days @ \$18.00	720.00
Freight	50.00
Total:	<u>\$1120.00</u>

Insulation: Under Teacherage -	
Materials	
40 bales insulation	123.20
3 rolls heavy paper	15.90
Labor:	
Tearing off 3 men, 2 days	108.00
Replacing	216.00
Freight	20.00
Total:	<u>483.10</u>

Say - 500.00

Insulation under school -

Sawdust - 90 cu. yd.	125.00
Lumber - 100 2x4, 1000 Shiplap	130.00
Paper - 5 rolls	26.50
Nails - 1 keg	15.00
Labour - 10 man days	180.00

Incidentals	23.50
Total:	<u>\$500.00</u>

Teacherage:	\$150.00
Total:	<u>\$650.00</u>

OTTAWA, Ontario.

Hay River Indian Day School

Reference your 12967-2 of August 21

Your above letter has been referred to this Branch by the Director of the Development Services Branch of the Department of Resources and Development.

I have consulted with our Chief Engineer, Mr. Buck, and also with Mr. Marshall of the Development Services Branch, who recently visited the school. They are both agreed that we should take action immediately in having Mr. Kellett proceed with the work outlined in his letter of August 17 for the erection of porches and for the provision of insulation, both under the school and under the teacherage.

Would you please therefore instruct Mr. Kellett to proceed with this work as outlined. You already have funds to the amount of \$3,000.00 for this purpose. In closing may I point out that Mr. Buck feels the extra insulation will have to be provided in the walls of both of these buildings and that he will write to you in detail concerning the additional work thus required.

Bernard F. Neary,
Superintendent of Education.

Hay River Indian Day School

Dear Mr. Gibson:

Upon receipt of your letter of August 23 with attached letter from the Chief Engineer of the Department of Public Works, we issued instructions directly to this Department to have the work carried out on the above school as described in Mr. Kellett's letter.

Mr. Marshall of your Branch had visited the Superintendent of Education and had described the work which would be required in making this school more habitable during the coming months. Mr. Buck, our Chief Engineer, was also consulted and he feels that extra insulation will also be required in the walls of this school.

Yours sincerely,

MEMORANDUM FOR THE CHIEF

Hay River Teacherage.

From Fort Smith I forwarded to you Memorandum No. 2 in which I stated:-

" Principal's Residence:

5. Mr. R.A. Campbell asked me particularly to look at the centre piling under the principal's residence. It was reported that the centre pile had dropped. These are the facts:- There are seven pilings that have been shimmed. Pilings Nos. 7 and 12 were first noticed and shimmed last September by Bauerman. He did not notice any other piling to have dropped then or he would have shimmed them. The remainder were shimmed this spring, including No. 3.

6. The only comment I would make would be to recall to your attention that owing to the lack of proper insulation in this structure, and particularly under the floor, this dwelling was treated just the opposite to that for which it was designed and specified. Instead of having it left open below the floor, in order to keep from freezing Mr. Bauerman banked the walls and opened the furnace wide. How much the thermal regime under this house was disturbed could be a matter of eternal controversy".

2. I also enclosed a sketch showing the numbers given these pilings and the extent of shimming placed under each. A copy of this sketch is attached hereto.

3. From the files I.A. 1856-9 and Mr. W. Campbell's plan 62-17A it would appear:-

Original boring for permafrost was done prior to July 30th, 1947 (date of Mr. Campbell's log).

It is difficult to determine from File I.A. 1856-9 just when the placing of piling was done, but wood lath and other building supplies had been ordered and delivered prior to June, 1948.

A contract agreement was signed with Peter Mattson dated March 10, 1948, and final Claim statement was presented under date of April 1st, 1949.

It is reasonable to assume, therefore, that the pilings were jettied down and placed about or before the spring of 1948.

4. Be that as it may seem, it is abundantly apparent that the teacherage pilings have sunk at 7 points in both greater and less degree. The question is - "what caused these to sink?" The fact that they did sink can only be explained by reasoning that there was no permafrost gripping those that sank. This could be possible if:-

- (a) there was no permafrost at those points originally;
- (b) in jetting down with steam, the permafrost table and the thermal regime was altered and never recovered.

Indian Affairs (RG 10 Volume 6473, file 905-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- (c) the permafrost table was altered by other causes.

5. In considering (a) we have one bore hole put down by Mr. Campbell in 1947 as a guide. This was sunk on which is now the south wall of the teacherage proper. This (#9) encountered permafrost at 8 feet. Sixty feet south east another hole (#13) encountered permafrost at 10.5 feet. Directly east and 100 feet from Hole No. 9 permafrost was encountered at 8 feet in Hole No. 8. This hole was checked by the writer. Hole No. 10 at 75 feet due south of Hole No. 9 gave permafrost at 14 feet.

6. All these holes would convey the idea that the permafrost table was constant over 75 to 100 feet, but we cannot be certain about the permafrost table between these distances. A great deal can happen in 100 or less feet in the Hay River area. Consider Hole No. 1 with permafrost (Mr. Campbell's log) at 11 feet while Hole No. 2, 75 feet south had no permafrost at 20 feet of depth. The writer checked this hole and got no permafrost at 25 feet of depth.

7. Turning to (b) and reviewing Mr. Campbell's log we find that one foot of moss and peaty loam was encountered at the surface. The removal of this would in itself tend to disturb the permafrost level to some extent, but its effect at 8 feet of depth would not be great, however, it would have some effect on the rate of restoration of the permafrost table and thermal regime after thawing. A far greater effect would occur during the steam jetting of holes, particularly if the jet was left in any hole or at any point longer than was necessary. There is no information to guide an opinion on this. Nor do we know anything concerning the time and manner in which the permafrost table and thermal regime would recover and regain former horizons. In general terms we know that recovery would depend upon:-

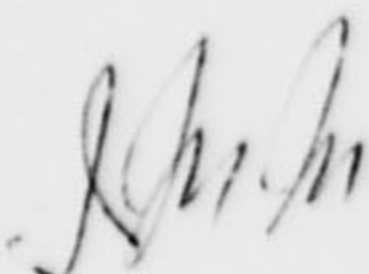

- (1) the structure and texture of the ground both above and below the thawing limit in depth;
- (2) the thickness of this underlying permafrost and the behaviour of the ground above it;
- (3) the temperature regime of the ground;
- (4) the hydrologic regime of the ground.

8. We know also that in some areas, notably around Yellowknife, recovery of the thermal regime and permafrost table is, at the greatest time, only a matter of a few days but the texture, type of ground, and other characteristics at Yellowknife are much different from Hay River.

9. Considering (c) and (4), the hydrologic regime of the ground, we have one interesting fact. Mr. Campbell's Hole No. 1 struck permafrost at 11 feet with water at 8 feet. The writer's check on this hole gave a very wet layer at 10.5 feet. Ground below this caved badly and had to be abandoned at 16 feet with no permafrost encountered. This shows that the permafrost table had changed at least at one point. Mr. Campbell's Hole No. 2 has already been mentioned. The writer's check substantiated this boring and also that the hole was wet. Mr. Campbell's Hole No. 10 (75 feet south of No. 9) showed a wet layer at 11 feet being 3 feet above permafrost. One hole bored near the West Channel gave a wet layer within permafrost. This horizon was slightly above the water level of the West Channel. All of which would indicate that this ground at Hay River has water layers

through it at various horizons. When one considers that the river rises as high as 10 or 11 feet above the water level at the time of boring there is ample opportunity for these water horizons to become real water channels with a complete change in the hydrologic regime. The fact that pilings 2, 3, 6, 8 and 11 were not noticed to have sunk until this spring supports very strongly this belief that an alteration in the hydrologic regime had a marked affect.

10. The writer tends to the belief that all (a) (b) and (c) contributed to the sinking. In other words it is possible that the permafrost table even fairly close to Hole No. 9 was not at the horizon that hole indicated: that the thawing completely upset the thermal regime and recovery did not take place in the degree necessary to hold the piling. Finally, this thawing had formed a "slud" which permitted entrance to a water horizon which in the spring became a channel.

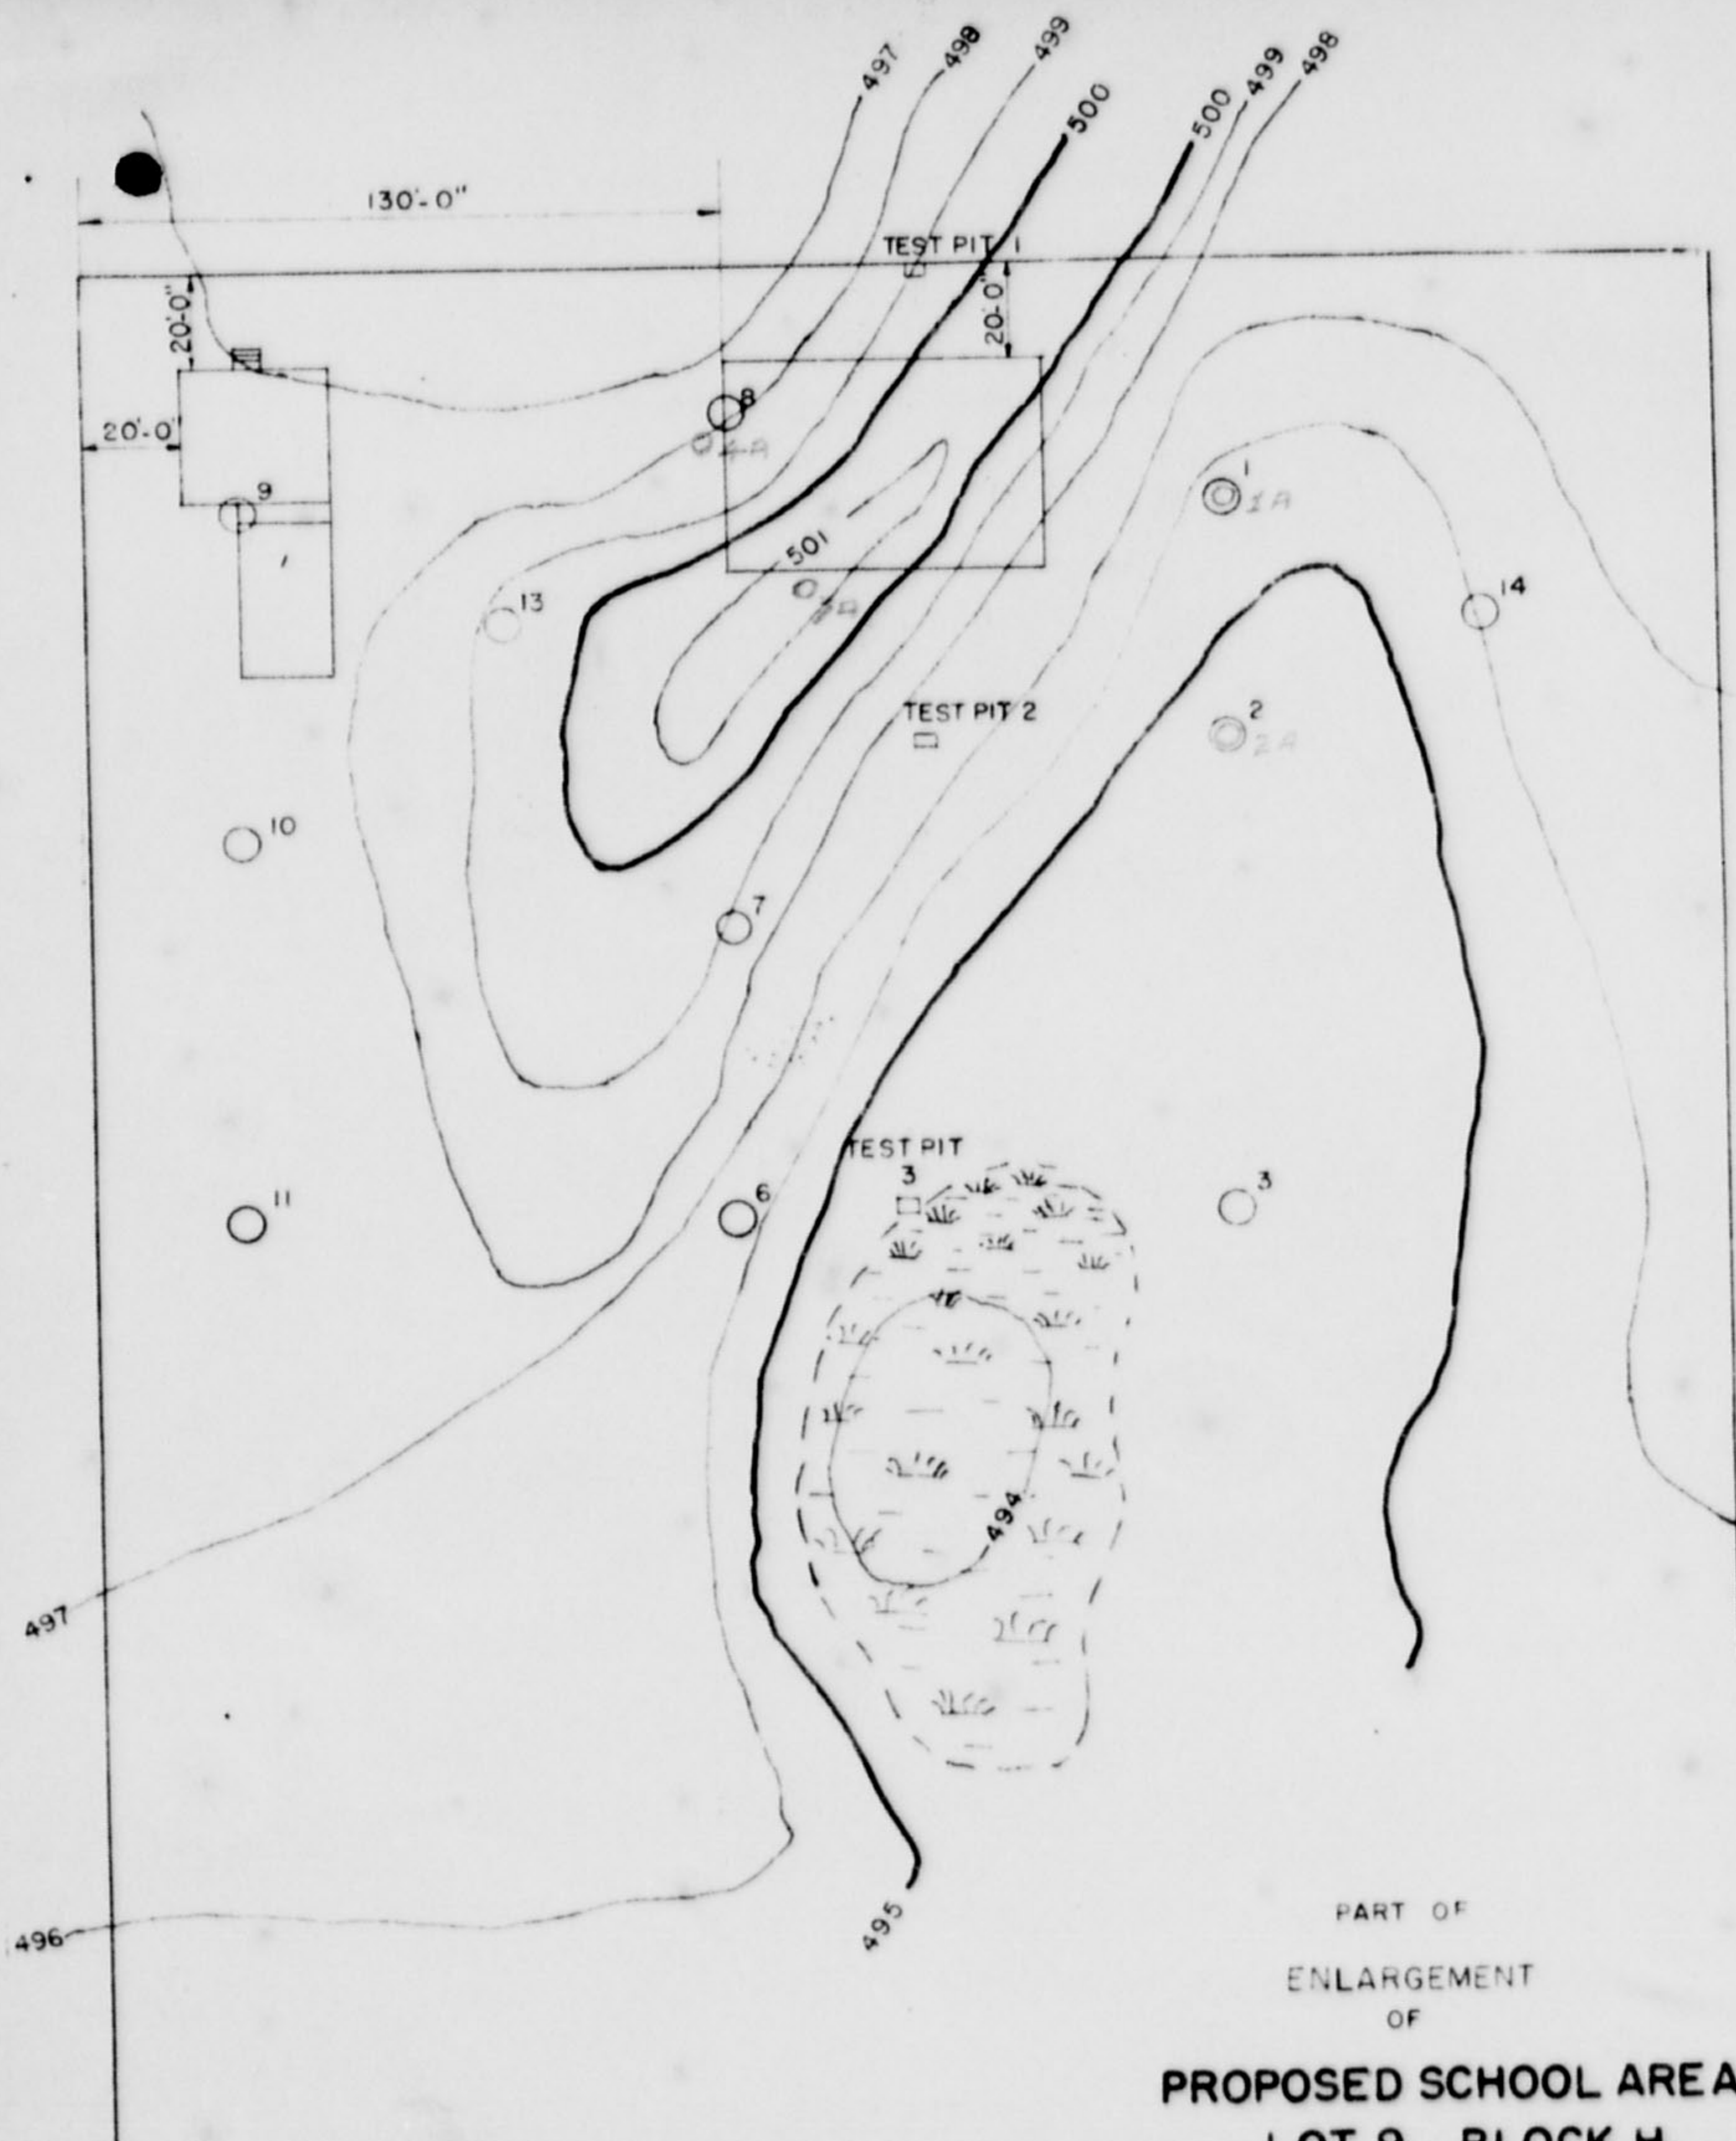

I. M. Marshall.

One hole bored near the West Channel gave a wet layer within permafrost. This horizon was slightly above the water level of the West Channel. All of which would indicate that this ground at Hay River has water layers

R-COPY

through it at various horizons. When one considers that the river rises as high as 10 or 11 feet above the water level at the time of boring there is ample opportunity for these water horizons to become real water channels with a complete change in the hydrologic regime. The fact that pilings 2, 3, 6, 8 and 11 were not noticed to have sunk until this spring supports very strongly this belief that an alteration in the hydrologic regime had a marked affect.

10. The writer tends to the belief that all (a) (b) and (c) contributed to the sinking. In other words it is possible that the permafrost table even fairly close to Hole No. 9 was not at the horizon that hole indicated: that the thawing completely upset the thermal regime and recovery did not take place in the degree necessary to hold the piling. Finally, this thawing had formed a "slud" which permitted entrance to a water horizon which in the spring became a channel.

I. M. Marshall.

Major D. M. MacKay,
Director,
Indian Affairs Branch,
Dept. Citizenship and Immigration,
Ottawa, Ont.

Dear Major MacKay:

I am sending you herewith two copies
of a report made by Mr. I. M. Marshall of the
Engineering and Construction Service covering his
inspection of the Principal's Residence at the Hay
River school.

Yours very truly,

R. A. Gibson,
Director.

B.F. Neary, Esq., INDIAN
Supt. of Education, AFFAIRS
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario,

Dear Sir: Hay River Light Plant Operation

With reference to your wire of September 1st. I wish to advise that I have taken this matter of plant maintenance up while in Hay River and the services of one good reliable plant operator to service this plant once every week and who will be available at any time to go and check on the plant if it fails has been obtained. This man will be entirely responsible for the plant and no one will be allowed to put a wrench on it.

This man has offered to do this for the sum of \$30.00 per month. The plant will be fuelled up every day by the janitor and will be kept clean and attended by him but he will not be allowed to make any alterations but will report all faults he sees to the mechanic.

The only terms on which this mechanic would consider the plant was if it were entirely his responsibility in-so-far as any repairs or adjustment went and he will also set it in operation when it arrives back from Edmonton. I believe this a good arrangement and one that should save us money and breakdowns in the long run. I also consider the wages asked by him to be reasonable even though this work will be done in his after hours spare time.

I trust that the above will meet with your approval.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario

Yellowknife, N.W.T.
Sept. 18th. 1950.

Dear Sir;

The Hay River School teacherage was gone over with a carpenter and will be divided into two apartments with a kitchen, combined living room and dining room and a bedroom each. There is very little way to provide two bathrooms so it will be necessary for the two couples to use the one bathroom.

The work is to be started next week and should be done within two weeks or less from that. This will include the building of a kitchen cupboard and putting in a sink, this to be painted and all other new wood work varnished. As it was a necessity to have the kitchen cupboard put in and I did not have time to wire for authority to purchase plywood for the job while at Hay River I instructed the carpenter to purchase the materials needed and the labour for this work will come out of the advance being sent to me.

As it is impossible to put in an oil or wood stove as we have no second chimney it is necessary to provide an electric range and put in a stove outlet. An Edmonton electrician, who is doing Government work on contract has enough material and time to put this in. As all the insulation is out of the floor this is the only time to put it in and this will be carried out.

I believe that the arrangement of two apartments should be satisfactory and although the building does not lend itself to making two perfect apartments the present arrangement is the best possible without building another house.

Yours very truly,

I.F. Kirkby, Supt. of Indian Agents

139/6-1

Yellowknife, N.W.T.,
Sept. 18th, 1950.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

During the past few days I have been in Hay River and several visits were paid to the school. The new term has been going for one and a half weeks and I wish to advise that the school both from the point of cleanliness and also discipline has improved many times over last year.

It was a pleasure to go through the school, the floors were clean and shiny and all rooms were free from dirt and paper. The present janitor has made a wonderful job and though he is not a mechanic who could run the light plant, has done a better job than anyone we have had so far and will be of much more value to the school than any other man in Hay River.

The class rooms were clean, desks were clean, the children had made a thorough clean-up for the week end and at the end of the day each room marched out instead of a mad scramble as last year. I am very pleased with the appearance of the new teacher and can only say that I wish the rest of our teachers at the other schools were half as good. Hay River, has, I believe, become a credit to the district and to Indian Affairs. If the DPW would complete their work and hand over the completed job and leave the maintenance to us the entire school set-up would be much easier to administer.

Yours very truly,

(sgd.) I.F. Kirkby,
Supt. of Indian Agencies.

Yellowknife,
Northwest Territories,
July 6, 1949.

R.A. Gibson, Esq.,
Deputy Commissioner,
Northwest Territories Administration,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir:

Re: Hay River Indian Day School, Hay River, N.W.T.

On June 19th and 20th, I inspected the Hay River Indian Day School and report as follows:

1. The school opened officially on February 28, 1949.
2. Buildings

The school is a very fine building, but it is not complete. The grounds around the school are very swampy and should be filled in in some places and levelled off in others. As Mr. W. J. Johnson, D.P.W., had told us that the school would be ready by the end of February, we moved in. This was a sad mistake as there was no heat, light or water in the building and the children had to remain in school during the months of March, April and May with their parkas on to keep warm.

The teachers' residence is also incomplete. There is no light, heat or water and there is insufficient furniture. As a result of the lack of these facilities, Mr. Bellevance, Superintendent Martin and the pupils have suffered a great deal from the cold. This made a very poor beginning for the school and has hindered its progress.

A 10 kilowatt generator is being installed. As it will cost about \$100 per month to operate the machine, I discussed this matter with Superintendent Martin who told me that he would have no difficulty in getting some of the local families to connect with the supply and thus reduce the overhead cost.

3. Attendance

When the school opened in February, there were 51 pupils in attendance; 21 Indian children, 30 Whites and Half-Breeds. At the time of my visit, there were 30 pupils present, consisting of 19 boys and 11 girls. I found that this attendance of 30 had been approximately 100% from the commencement of school with the exception of the period from April 27th to May 9th when the river was breaking up and it was impossible for them to get across. The group that were there consisted only of Whites and Half-Breeds.

..... 2

Indian Affairs (RG 10 Volume 6473, file 905-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

I questioned the fact that no Indians were present. Mr. Bellevance told me that he had found it necessary to scold the Indian children and to use corporal punishment. As a result, the Indian children refused to attend. Again, one of the Indian girls had been reprimanded for chewing gum and thus replied, "No gum, no school!" The Indian children went home about the beginning of March and did not return.

In this regard, I asked Mr. Bellevance if he had visited any of the Indian homes or discussed the matter with the parents. He admitted that he had not visited any of the homes nor done anything to bring them back. He said that the Indians should be in a separate school by themselves. In a discussion shortly following this, the local Priest brought forth the same view that he thought that the Indian children should be in a separate school on the island and that the new school should be used for Whites and Half-Breeds.

During the conversation with the Priest, he informed me that there were some 25 children of school age in the area but they were out in the bush. When I questioned him more closely, he admitted that they were on the island all the time.

Mr. Todd, a local resident, visited the school towards the beginning of March and asked the Principal to take his sixteen-year old boy into Grade VIII. Mr. Bellevance told him that he did not have to enroll anyone over sixteen years of age. Shortly after Mr. Bellevance told me this, the local Priest informed me that the Principal of the school did not have to take anyone into school sixteen years of age or over. I informed him that his statement was incorrect as anyone, immaterial of age, may attend school and that it is compulsory for Indian children to attend up to and including the age of sixteen years.

I am inclined to believe that both the local Priest and Mr. Bellevance have done nothing to assure regular attendance and, if anything, have tried to drive the children out.

In order to assure proper attendance, I would recommend that compulsory attendance be enforced for children up to the age of sixteen years, as laid down by the Indian Act, and that this compulsory attendance commence September 1, 1949. I understand that an Indian Agent is being appointed to the Hay River area and, if this is correct, he could quite easily attend to this as one of his duties, or, if this is not the case, a Truant Officer should be appointed to visit the homes of delinquents and strictly enforce compulsory attendance measures. If it is our wish to keep the Hay River School operating on a proper basis similar to the provinces, compulsory attendance must be enforced at the earliest possible date.

4. Classroom Work.

On examination of the children in their studies, I found them to be intelligent, clean and co-operative. The age range is from seven to fourteen years. I found that the children in Grade I had not been taught reading

..... 3

and that Mr. Bellevance had been emphasizing phonetics, which is a most unprogressive method of teaching. He also had the Grade I pupils attempting to write without first having taught them to print, which method has been found the most satisfactory. He had not taken the trouble to wire Ottawa for Grade I readers nor had he bothered to borrow Grade I readers from the residents who had Grade I readers in their possession, so the Grade I lacked this equipment. You will agree that it must have been a very difficult task for the pupils in Grade I to sit for three months without any reading industry and proper supervision.

At the time of the visit, he told me that he had requested that Grades I, II and III stay home the following day as he was going to give Grades IV, V and VI a test.

Mr. Bellevance had no text books for Grade I and had made out no requisitions for books or supplies to be sent in.

There has been no hot noon lunch served at all.

The Priest gave religious instruction in the school from 3:30 p.m. to 4:00 p.m. every day.

There was a holiday on June 13th although the reason for such a holiday is not clear.

5. Sports and Community Life

Mr. Bellevance has organized no sports in the school and the school has not been used as a Community Centre. In conversation with both Roman Catholic and Protestant residents at Hay River, I was informed that Mr. Bellevance had not visited their homes nor taken any interest in the Community. When questioned, Mr. Bellevance admitted that he liked living to himself and did not trouble to visit anyone. He said that he did not like Hay River and that the people of Hay River did not like him. He further stated that the Indians of Rocher River were a very hard people to manage and felt that he would like to have an Indian school somewhere else.

6. Qualifications.

Mr. Bellevance holds a Second Class Manitoba and Saskatchewan Teaching Certificate and has 24 years of experience, 15 years of which has been spent in Indian schools. He has spent 11 years with the Indian Affairs Branch and is a permanent Civil Servant. Mr. Bellevance is married; 52 years of age.

7. General

Superintendent Martin informed me that there were some 210 families who took part in the local election. This consisted of about 50 Indian and 160 White and Half-Breed families. About 100 residential lots have been granted in Hay River and, according to the local people, the Hay River School will be filled to capacity within the next year or so. However, there is no need of a separate school on the island as there is adequate accommodation for all the families in the new school for time to come.

..... 4

It is recommended that every effort should be made to have Mr. W. J. Johnson, D.P.W., finish the Hay River school before the fall term starts.

I note that a local Administrative District Unit has been organized in the Hay River area, similar to the one at Yellowknife. This Administrative Unit goes out two miles in all directions from the northwest corner of Lot 71.

I was informed by Superintendent Martin that a local Trustee Board had been formed. Superintendent Martin said that he was of the opinion that the people of Hay River can afford to pay their share of the cost of education. I am of the opinion that the only satisfactory solution to the Hay River School problem would be the formation of an elected School Board, similar to the one at Yellowknife and that the new school be turned over to the local residents on the understanding that they would pay their share of the cost of operating same.

Some of the local people resent the fact that the Indian children are permitted to go to the same school as the Whites and Half-Breeds because of the danger of Tuberculosis. Therefore, every precaution should be taken to ensure that the children are medically examined. Right now, there is an X-Ray Clinic here in Yellowknife which has been sent in by the Charles Cammel Hospital. It is suggested that the same procedure be followed at Hay River.

I discussed the idea of operating the Hay River Indian Day School during the summer vacation with practically all of the local residents and found that they were opposed to this idea as they felt that their children needed a rest. I would concur with them in the view that the school not be operated during the summer holidays as the local people remain in the district throughout the year.

I note that the services of two Protestant teachers, Mr. Bownam and his wife, have been obtained. I would be very pleased to receive information as to the qualifications and past experience of both teachers. It is vital that teachers appointed to the Hay River Indian Day School fall in the category of Welfare Teacher as there is much welfare work to be done in this area.

Also, I would recommend that all teachers for the Northwest Territories schools be selected from the Province of Alberta. I make this statement as both Roman Catholic and Protestant teachers in the Province of Alberta take the same Normal School training and, also, it is a very difficult task for outside teachers to adapt the Alberta Curriculum to northern areas. Alberta teachers have a thorough knowledge of the Alberta Curriculum and are qualified to teach all subjects as authorized for Elementary, Intermediate and High School courses. They are also familiar with departmental procedures as laid down by the Alberta Department of Education.

I have discussed with Dr. Lazerte, Dean of the Faculty of Education of the Province of Alberta,

..... 5

the type of teacher required for Northwest Territories schools and qualifications necessary. He assured me that he would be willing to select, at our request, the very best type of Roman Catholic and Protestant teachers for Northwest Territories schools. I would be quite willing to go to Edmonton to interview the prospective teachers which had been screened by Dr. Lazerte, should the Department of Mines and Resources wish to follow this procedure.

Schools in the Northwest Territories demand a higher type of teacher than is required anywhere else in the Dominion. This is due to the fact that there is such a great need for welfare work, the number of grades that it is necessary for one teacher to teach, and the general conditions under which the teacher must work.

In the Hay River Indian Day School it is likely that some pupils will be requiring Grade XII education next September. In this connection, we should bear in mind that a Second Class Teacher from any of the provinces would not be able to teach Grade XII subjects as authorized by the Alberta Curriculum. Teachers from provinces foreign to Alberta also have difficulty in teaching Grade XI and XII subjects as laid down by the Alberta Curriculum. It is for this reason, also, that I recommend the employment of Alberta teachers in the Northwest Territories schools.

I would suggest that the Roman Catholic principal selected for the Hay River Indian Day School have at least a First Class Alberta Certificate and a University Degree. Under regulations set up by the Alberta Department of Education, pupils may not be granted credit for Grade X, XI and XII subjects unless they are taught by a principal who is the holder of a University Degree.

I visited Rocher River on July 19th and found the new school well on the way to completion. The Department of Public Works have constructed an excellent school. The carpenter in charge told me that he was waiting for some Ten-Test to finish up some of the rooms. With the necessary material, it should take about ten days to complete. It will be one of the finest schools in Canada.

They will burn wood in the furnace. This can be obtained locally. They will use a direct current generator which will be run by batteries. I think that the idea of a direct current generator with batteries is very sound in view of the fact that the over-head cost will be kept at a minimum.

Seeing that we have an excellent school at Rocher River, it is essential that a well-qualified First Class Welfare Teacher be employed. Again, I would recommend that a First Class Alberta Teacher be employed. A married male teacher would add stability to the education set-up. I cannot emphasize too strongly the importance of the Rocher River School commencing operation at the earliest possible date, otherwise, children will leave the area and go to Fort Resolution. If possible, this school should begin operation this month. The local people were very disappointed that the school did not operate last September.

..... 6

If it is possible to engage a First Class Alberta Teacher, married man, at this date, I would recommend that he should be employed for Rocher River. However, if it is impossible to do this, there is no alternative but to send Mr. Bellevance there.

In order to get the best type of teacher, it is most important that transportation be paid to destination and that they be supplied with the very best accommodation. One of the severest criticisms of the teachers in the northern schools is that they are from France and do not speak the English language. In this connection, I might say that Mr. Bellevance speaks a broken English and is not competent to teach non-English children to read and write.

Respectfully submitted,

J.W. McKinnon

General Comment:

Mr. Bellevance has not taken an interest in the local community.

His methods of teaching primary work are poor. He has a very poor command of the English language. In general, the progress of the school is most unsatisfactory. All the residents with whom I spoke were dissatisfied with the progress their children were making and the conduct of the school.

Re: Inspection Report - Hay River Indian Day School

We are forwarding to you herewith a copy of "Inspection Report" submitted by Mr. J. W. McKinnon, Superintendent of Education, Mackenzie District, N. W. T., following his recent inspection of the Hay River Indian Day School.

No doubt you will be dealing with those matters referred to in Mr. McKinnon's report which affect directly the Indian Affairs Branch. You will note that the report draws attention to the need for having both the school house and the teacher's residence completed in order to assure normal functioning of the school. However, you will undoubtedly be taking this matter up with the Chief Engineer, Department of Public Works, as it is important that these buildings be completed at an early date.

We will be glad to discuss with you the features of this report which affect both the Indian Affairs Branch and the Northwest Territories Administration.

Encl.

R. A. Gibson,
Deputy Commissioner.

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH.

Inspection Report - Hay River Indian Day School.

In view of the information contained in Inspector McKinnon's report on the above school, we have made arrangements to transfer Mr. N. Bellavance from this school to a small one-room school in northern Saskatchewan.

The District Engineer of the Department of Public Works has informed me that work on this building will be finished by the end of the summer holidays. I would suggest that Inspector McKinnon's comments with regard to the formation of a School Board at Hay River, be made the subject of discussion at the next meeting of the Subcommittee on Education in the Northwest Territories.

W. M. M.
Director.

Copy for Indian Affairs Branch

Box 117,
Yellowknife, N.W.T.,
December 10, 1949.

R. A. Gibson, Esquire,
Deputy Commissioner,
Northwest Territories Administration,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir:

I inspected the Hay River Indian Day School
on November 12, 14, 15, 16, December 1 and 2, 1949.
I would report as follows.

Classification of Pupils

Grade	I	-	45
Grade	II	-	24
Grade	III	-	15
Grade	IV	-	8
Grade	V	-	12
Grade	VI	-	9
Grade	VII	-	5
Grade	VIII	-	5
Grade	IX	-	2
Grade	XII	-	1
<u>Total</u>		-	<u>126</u>

Room I	-	30	-	Grade I
Room II	-	31	-	Grades I & II
Room III	-	32	-	Grades II, III, IV, V
Room IV	-	33	-	Grades V - XII

Expected Enrollment

Mr. Bowerman has taken the census of the children for the new school year commencing September, 1950, and reports that the expected enrollment is 200. I am of the opinion that this figure will be 170. In any event, consideration should be given to closing the two stairs of the first floor of the building and the provision of two classrooms, one at each end of the building. This will be absolutely essential for September, 1950. There will be little cost involved as it will be necessary to provide only part of the wall and the flooring material.

Fire Exits

In the event that the Department make alterations, as suggested above, it will be necessary to have outside fire exits built to take the place of the corridors now used.

.... 2

Indian Affairs (RG 10 Volume 6473, file 905-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

Transportation

In regard to this matter, please refer to my letter of December 3, in which I advised that this matter be left to the local people at West Channel.

Health

There should be a medical check-up at this school each year and the school should be provided with vitamin pills.

Hot Noon Lunch

Two large electric hot-plates should be provided for the heating of soup, etc., for the hot noon lunch at this school. These hot-plates should be kept in the classrooms in order that the teachers do not have to leave their classrooms to attend to the preparation of this lunch. At the present time, the teacher has to leave her classroom to heat the soup on the stove in the teachers' residence. This situation is not satisfactory.

Fishing Industry

Mr. Bowerman is handling the fishing industry for Indian Agent Kirkby and is attending to nets, equipment, and so forth. During my visit, he was showing the Indians how to line-up nets and get them ready for the commencement of the fishing season. He will visit the fishing grounds periodically and the homes of the Indians who are out fishing in order to take mail back and forth and supervise them in their work.

Mr. Bowerman will also help the Indians in the handling of their money. About 50% of their earnings will be given to the wives for food, clothing, etc., and the other 50% will be banked in order to defray cost of equipment, and so forth, and also to encourage the Indians to save for the future.

Report on Room I - Mrs. Clyna Dussault

Classification of Pupils

Grade I - 30

Music

The children sang several songs during my visit and there is no doubt that they are receiving excellent training along this line.

Reading

The pupils read very well.

.... 3

Art

Practical Art is being stressed in this room, which is highly commendable. They are receiving good training in this subject.

General

Even though Mrs. Dussault has only a 2nd Class Alberta Certificate, she is rendering excellent service in the Hay River Indian Day School. Without a doubt, Mrs. Dussault has the most difficult task of any teacher of this school in view of the fact that she has practically all Indian children. She understands the psychology of children; has excellent discipline and excellent control; good methods of teaching; and, the pupils like her. As a result, the children like school and are progressing well in their work.

The notebooks are neat and well-kept. Mrs. Dussault keeps a day-book of work to be taught and has organized her work in the class very systematically. Mrs. Dussault gives the children Folk Dancing and emphasizes physical training and practical health.

The tone and atmosphere in this room are very good. I consider Mrs. Dussault to be doing excellent work.

Report on Room II - Mrs. Joan Bowerman

Classification of Pupils

Grade I	-	15
Grade II	-	16
<u>Total</u>	-	<u>31</u>

Reading

I found that in reading, many pupils are good readers. However, I stressed the importance of sight reading for the first five or six months of the school year.

Number Work

When I examined the children in number-work, I found them up to standard.

Art

The children are receiving excellent training in practical art. They are decorating the classroom and using Art in conjunction with other subjects.

.... 4

Indian Affairs (RG 10 Volume 6473, file 905-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

General

Mrs. Bowerman has an excellent personality and fine ability in teaching. She is giving the children excellent training in music and folk dancing. Every day, Mrs. Bowerman has the children singing health songs, which are sung in conjunction with the health programme. Health is being stressed in this class.

Mrs. Bowerman has shown the Indian Children how to bath and has even let them use the bathroom in the residence. This has had a good effect in that the Indian children are now coming to school with clean clothing and are nicely washed. They take pride in showing Mrs. Bowerman their clean underclothing.

Report on Room III - Mr. John Vincent Kennedy

Classification of Pupils

Grade II	-	8
Grade III	-	14
Grade IV	-	8
Grade V	-	2
<u>Total</u>	-	<u>32</u>

Mr. John Vincent Kennedy

Mr. Kennedy has no aptitude for teaching. He is unhappy at Hay River and stated that the climate disagreed with him and that he would like to return to Nova Scotia. I would advise his transfer at an early date, January 1, if possible.

I have received criticism from the parents in that he has not been correcting the pupils' work.

Mr. Kennedy has no control whatsoever over the children in his classroom. I am of the opinion that his eyesight is so bad that he is unable to see all of the pupils in the classroom. I have been informed that he is partly deaf.

Mr. Kennedy gave 90 corporal punishments in October, and, during the past month, he found it necessary to administer 40 more. However, this is just making a mockery out of education and I am of the opinion that he does not hurt any of the children as I was told that he is not very strong. Mr. Bowerman pointed out to him that, during his twenty years of teaching, he found it necessary to use the strap only three times.

In appearance, Mr. Kennedy is dirty, untidy, and not well-groomed. He lacks the ability to care for equipment.

.... 5

Indian Affairs (RG 10 Volume 6473, file 905-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

The pupils cannot read well. I feel that Mr. Kennedy has no idea of the techniques to be used in reading. This not only applies to reading but to all other subjects of the curriculum. Teaching is just a hit-and-miss process as far as Mr. Kennedy is concerned.

I visited this school on two occasions and both times I discussed with Mr. Kennedy the proper methods of teaching all subjects of the curriculum. During my last visit, I spent some three or four hours discussing educational matters with him in order to improve the work of his room. However, as Mr. Kennedy has no control over his class, I am sure that this time was wasted and thus I would advocate his transfer at an early date.

Mr. Kennedy taught Health by putting notes on the blackboard and having the children copy them. I pointed out to him that Health was something to be lived, not learned from blackboard notes -- to see that the room was clean, that the children were washed and wore clean clothes, that the children kept their books clean and that the children were taught the value of sleep. The pupils of this room were untidy, dirty and tired.

During my visit to Mr. Kennedy's room, no fewer than 25 children went to the toilet in ten minutes.

If the Department is interested in the welfare of this school, they will remove Mr. Kennedy as soon as possible. I would recommend that Mrs. Miron, who has submitted her application, be taken on temporarily.

Report on Room IV -- Mr. W. A. Bowerman

Classification of Pupils

Grade III	-	1
Grade V	-	10
Grade VI	-	9
Grade VII	-	5
Grade VIII	-	5
Grade IX	-	2
Grade XII	-	1
<u>Total</u>	-	<u>33</u>

Mathematics

I tested the pupils in the field of mathematics and found them quite efficient and well up to standard in both the Public and High School grades.

Music

Excellent training is being given in Music. The children of this school, under Mr. Bowerman's leadership, presented a programme of one hour's duration over the local Broadcasting Station. This programme was

.... 6

greatly enjoyed by the people of Hay River and the surrounding district.

Social Studies

I feel that the pupils are obtaining fine instruction in the field of Social Studies, under Mr. Bowerman's supervision. He correlates History, Mathematics, Art, and other subjects, which is commendable. In teaching the Constitutional History of Canada, he has prepared an excellent chart which simplifies this subject for the pupils. By this means, the children may be well prepared for the final examination in this subject.

Art

The Art work in this room is well up to standard. The children are being trained to use their own initiative and imagination. The subject is correlated with Social Studies and other subjects of the curriculum. I was pleased with the way this subject was being handled in this room.

General

I found the discipline and general tone of the classroom good; the children were very alert and eager to learn.

Mr. Bowerman is neat in appearance; he is most energetic and puts a lot of "pep" into his work. Mr. Bowerman is very free with his time and is carrying a tremendous load. The welfare work alone which he is doing is a full-time job.

General

During my visit, I found certain conditions about the school which had a great deal to be desired. Firstly, as both Mr. Kennedy and Mr. Bowerman were receiving the same salary, each felt that he did not have to meet the wishes of the other. I found that the lack of a principal for this school has resulted in certain undesirable conditions and, in order to preserve the buildings and further the welfare of the school, I appointed Mr. Bowerman Acting-Principal.

In order to bring about better discipline in the school as a whole, I suggested to Mr. Bowerman that he have a morning and evening assembly of all the children at which time there could be group singing, a discussion of pertinent matters, daily announcements, etc., and thus foster better discipline in the school.

I also suggested that teachers be present at each corridor during the assembly and dismissal periods. I further pointed out that the children were arriving at the school too early in the morning and, without supervision

... 7

Indian Affairs (RG 10 Volume 6473, file 905-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

R-COPY

at this time, they ran all over the school and thus caused a great deal of confusion and in some cases, damage of property. During my last visit, I noted that this matter had been rectified; Mr. Bowerman had requested that the teachers arrive at 8:30 a.m. They were free to leave at 3:30 p.m.

Magistrate Martin informed me that the above suggestions had improved the school a great deal.

I found Mr. Bowerman to be very open-minded and very open to suggestions as, when I made recommendations, he put them into effect immediately. This is a healthy condition. However, to preserve the school and further education at this centre, I would recommend Magistrate Martin be appointed immediately as Official Trustee with authority to dismiss the present caretaker if he is unsuitable to do the required work. This school should be cleaned from top to bottom. Two hundred pounds of wax should be provided and an electric polisher provided to ensure that the building may be put in first class shape. The Government has made a tremendous investment in this school and I see no other way in which it may be preserved for many years.

I would like to emphasize the importance of making Magistrate Martin Official Trustee with the powers of a School Board in order that the Hay River School be streamlined. As there are approximately one hundred white children attending this school, it is vital that it be made one of the best in Canada. The parents of these children come from good schools in the Provinces and thus they will demand the best.

Respectfully submitted,

Re: School Inspection Report dated December 10, 1949
on Hay River Indian Day School.

Mr. J. W. McKinnon, Superintendent of Education,
Mackenzie District, Northwest Territories, inspected the Hay
River Indian Day School on November 12, 14, 15, and 16 and on
December 1 and 2, 1949.

We are forwarding to you herewith a copy of Mr. McKinnon's
report on his inspection of this school which he conducted on the
dates as mentioned above.

DEPARTMENT OF RESOURCES AND
DEVELOPMENT.

Box 117,
Yellowknife, N.W.T.
June 17, 1950

R.A. Gibson, Esquire,
Deputy Commissioner,
Northern Administrations,
Department of Resources and Development,
Ottawa, Ontario.

Dear Sir:

In company with Indian Agent Kirkby, I inspected educational facilities at Hay River on May 29th and would report as follows:

Teachers' Residence

The teachers' residence at Hay River is large and oversize. It is too large for one couple with the result that it costs twice as much to heat as it should.

I can not see the necessity of a seven-room house being needed for one teacher, but, without making it into a duplex, I do not consider it at all satisfactory for two couples. I would suggest that some competent builder be asked to make an estimate of the change and that it be proceeded with this summer in time to take care of the new teacher who will be replacing Mr. Kennedy.

I feel that a small, compact residence has a tendency to make people more thrifty and to divide this house will give each party adequate room. We will continue to have many complaints if teachers are expected to live in one common house.

I have discussed the above matter with Indian Agent Kirkby. In view of the fact that the physical plant comes under his jurisdiction, he has submitted to Colonel B.F. Neary, sketch plans indicating the manner in which the teachers' residence might be made into a duplex at little additional cost. It would be possible to put the Principal into the lower suite and to put one couple or, if we had two single teachers, they could both occupy the upstairs suite as it would have two large bedrooms as well as kitchen and bathroom.

Attendance

The Indians at Hay River have received every assistance. Attendance last fall was kept up by Mr. Bowerman paying a man to bring the children across the river. As Mr. Bowerman is not assisting them this spring, the Indian children are not attending school. Yet, the Indian children do come across the river to visit the soda fountain as soon as school is out.

2.....

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

If the Indian took any responsibility on his own shoulders, he would take his own children and his neighbours' children over in their large canoes, but, they are looking for us to do it all. I believe the Indian feels that by staying away and not providing any assistance, he is forcing our hand and we must either provide a boat, cancel the Family Allowance or build a school on his side of the river which would divide Hay River with the result that the Indian and White would drift more apart instead of being assimilated as we are trying to do.

Under the present regulations, White and Half-Breed children can stay away from school under any pretext they like because we have no organized school districts. In most cases, the Indian and Half-Breed are identical but one is exempt from school regulations with the result that forcing one without the other causes nothing but ill-will for everyone. In this regard, we are badly in need of some unified policy.

Instruction

During my short time at Hay River, I observed lessons in all rooms and tested the senior classes. I consider the type of instruction to be fair as there is much room for improvement. Greater care should be given to the selection of our teaching personnel -- particularly to teachers selected by the Indian Affairs Branch.

Health

As Indian Agent Kirkby is responsible for the physical plant, I shall not report in detail in this regard. However, much improvement is required as to the general cleanliness and sanitation of this school. This poor condition may be due in part to the fact that the Caretaker had resigned and that there was no one available at the time of my visit to do caretaking services.

On January 4, 1950, I reported to Colonel Neary the unsuitability of Mr. Kennedy, and requested a transfer for Mr. Bowerman as he likes working with Indian children and has not the required experience to handle in a satisfactory manner the principalship of the Hay River school. My recent visit confirms these previous recommendations.

Electric Light Plant

I have discussed with Indian Agent Kirkby plans whereby the lighting plant may be operated only a few hours a day, thus creating a considerably saving during the spring and summer period.

Respectfully submitted,

(Sgd.) J.W. McKinnon

Re: Hay River School

Further to your letter of April 1st in connection with Hay River Indian Day School, I wish to advise that I proceeded to Hay River on June 20th with Mr. J.A. Doucet of the Indian Affairs Branch and Mr. Peter Parker of this office. I took Mr. Parker with me in order that he may gain experience and become familiar with the situation in Hay River and as well have the benefit of his knowledge and assistance. At Hay River I met Mr. J.W. McKinnon, Superintendent of Education, and Mr. I. F. Kirby, Indian Agent at Yellowknife, and a number of meetings were held on June 20th and 21st.

I am now preparing a submission to you in this matter and will forward the same at the earliest possible date.

(Sgd.) W.G. Brown,

W.G. Brown,
District Administrator.

Mr. I.F. Kirkby,
Supt. Indian Agency,
Yellowknife, N.W.T.,

This refers to your
Voucher # 119 in connection with furniture
for the teacher's residence at the Hay River
Indian Day School.

On checking our records, it
is found that this expenditure was paid on Voucher
178 which covered all household articles supplies to
the teacher's residence at the above school.

In view of the above your
voucher 119 is being disregarded.

Bernard F. Neary,
Supt. of Indian Education.

Mr. Bernard F. Neary
Supt. of Education
Ottawa

11875

Dear Mr Neary:

I intend to do my own cooking here, as I believe this will be a more suitable arrangement. To do this I will require a small size electric stove suitable for cooking purposes. I would like to know if you can supply this as soon as possible, and any other things which I may be allowed under the circumstances. I will also need a table and some dishes. I can buy my own groceries here, at Hay River in the store, for a start.

Yours very truly
John V. Kennedy
Teacher.

To those of our customers who are dependent on airplane or other irregular service for delivery of their shipments, we would suggest that when ordering they consider the amount of charges they will have to pay on the heavier lines of merchandise.

Unless you send us a sufficient remittance to cover goods and charges your order may be delayed while we write you, as we are, in many cases, uncertain whether you are prepared to pay charges that seem high.

On "Price Delivered" goods our allowance for charges is the regular postal or express charge only. We do not pay air mail charges.

Yellowknife, N.W.T.
June 1st. 1950.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

Sometime last fall a request was forwarded to Mr. D.J. Martin, Magistrate at Hay River to check on the school residence furniture and forward a complete list of all the equipment needed. Mr. Martin and Mr. Bowerman made up a list between them and I understood from them that it had been forwarded direct to you with the result that I did not receive a copy nor did I include any furniture on my requisitions for Hay River.

The residence at Hay River is very poorly furnished and is in need of the addition of many items that I have been informed, were included in Mr. Martin's list. As the shipping season is about to begin I would like to know whether any of this furniture can be expected so that certain plans can be made for the following summer and to be guided in my future requisitions.

One also receives enquiries from the teachers as to what they can expect for the following year so that they can make purchases of some items themselves if we are not going to supply. In this respect it would be of some value to be able to advise them what, if anything could be expected.

Yours very truly,

I.F. Kirkby

Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir: Re: Teacher's Residence Hay River

During the past term the school Residence at Hay River has been occupied by the Principal and part of the upstairs by the second man teacher. In this residence there is one kitchen and one bathroom while the second teacher has set up a small electric range in his bed room and being a single man has managed to get along with a very unsatisfactory arrangement. We have also had the continual complaining by the Principal that this man did nothing towards cleaning the stairs and other items which brings us to the point that two parties cannot live in the same residence and have any type of satisfactory arrangement where they have to use the same kitchen, bathroom, living room, stairs etc. and there will always be a continual complaining by one or both parties that the other man is getting too much.

The residence at Hay River is a large oversize place that is much too large for one couple with the result that it costs twice as much to heat as it should and we have but one residence where we need two. The size of this house is such that it could be made into two suites with very little work or expense and we would then have quarters for two couples while each would have his own private portion of the house.

There are two alternatives to making this house into a satisfactory duplex, one is to divide the house into two halves giving each couple two large rooms downstairs and two bedrooms upstairs with both using the same stairway which would possibly result in some friction as to who should do the cleaning. The other alternative is to put an outside

Indian Affairs (RG 10 Volume 6473, file 905-8, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

stairway up the back to the first landing of the present stairs and put in an outside door with the result that the principal would have a four roomed suite downstairs and the second teacher would have a four roomed suite upstairs. In this way no cutting of the building is necessary and all that is required is to put on an outside stairway, put in one outside doorway and one doorway leading downstairs to make the upstairs private. Downstairs one of the large rooms or two for that matter would have to have closets put into them to make bedroom storage with a bathroom off one of these rooms and we could then accommodate two teachers without increasing the cost of heating or maintenance with a small expenditure for minor changes.

I cannot see the necessity of a seven roomed house plus bath, plus halls and with food storage space available in the furnace room being needed for one teacher, but without making it into a duplex I do not consider it at all satisfactory for two couples. When the second teacher is through the day he, or she, should be free to prepare for the next day and not be bothered by trying to please the Principal nor should he have to please the teacher. I would suggest that the DPW or some competent builder be asked to make an estimate of the change and that it be proceeded with this summer in time to take care of the new teacher who will be replacing Mr. Kennedy.

I have enclosed a sketch of the present residence and though I do not know the exact size of the building all the rooms are large with the result that the suites will each have more floor space than most cottages have and each teacher will still have more room than he would get in a large percentage of the teacherages at many schools in the provinces.

The present power house and furnace room are very good size and once the Hay River central power ~~are~~ put in the light plant can be taken out of that section of the building and shelves and storage space for rations for both teachers will be available. As it is a room off the furnace room it will be heated with no freezing danger. The building is joined to the main residence so that no hardship will be encountered by having to go into this building for rations at meal time.

I feel that a small compact residence has a tendency to make people more thrifty and to divide this house will give each party adequate room that they can look after instead of too much room that is not used nor kept looking neat and clean at all times. During the past year the complaints about two parties living in one common house have been heard but have not been pressed but this spring they are heard more often and we will have much discontent at Hay River among the teachers in our residence if they are all expected to live in one common

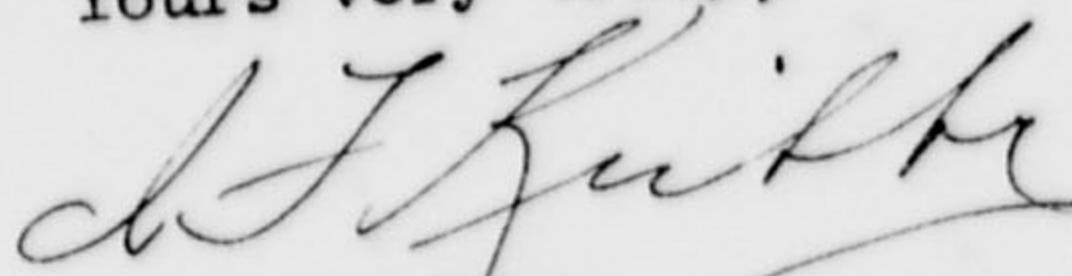

Indian Affairs (RG 10 Volume 6473, file 905-8, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

house that is plenty large enough for two small families but which has one common kitchen, bathroom etc. and leaves no one with any privacy at all.

The sketches are herewith enclosed for your consideration and I feel justified in recommending that this residence be made into a duplex for the teaching staff. With the change it would be possible to put the principal into the lower suite and to put one couple upstairs or if we had two single women teachers they could both occupy the upstairs suite as it would have two large bedrooms as well as kitchen and bathroom.

Yours very truly,

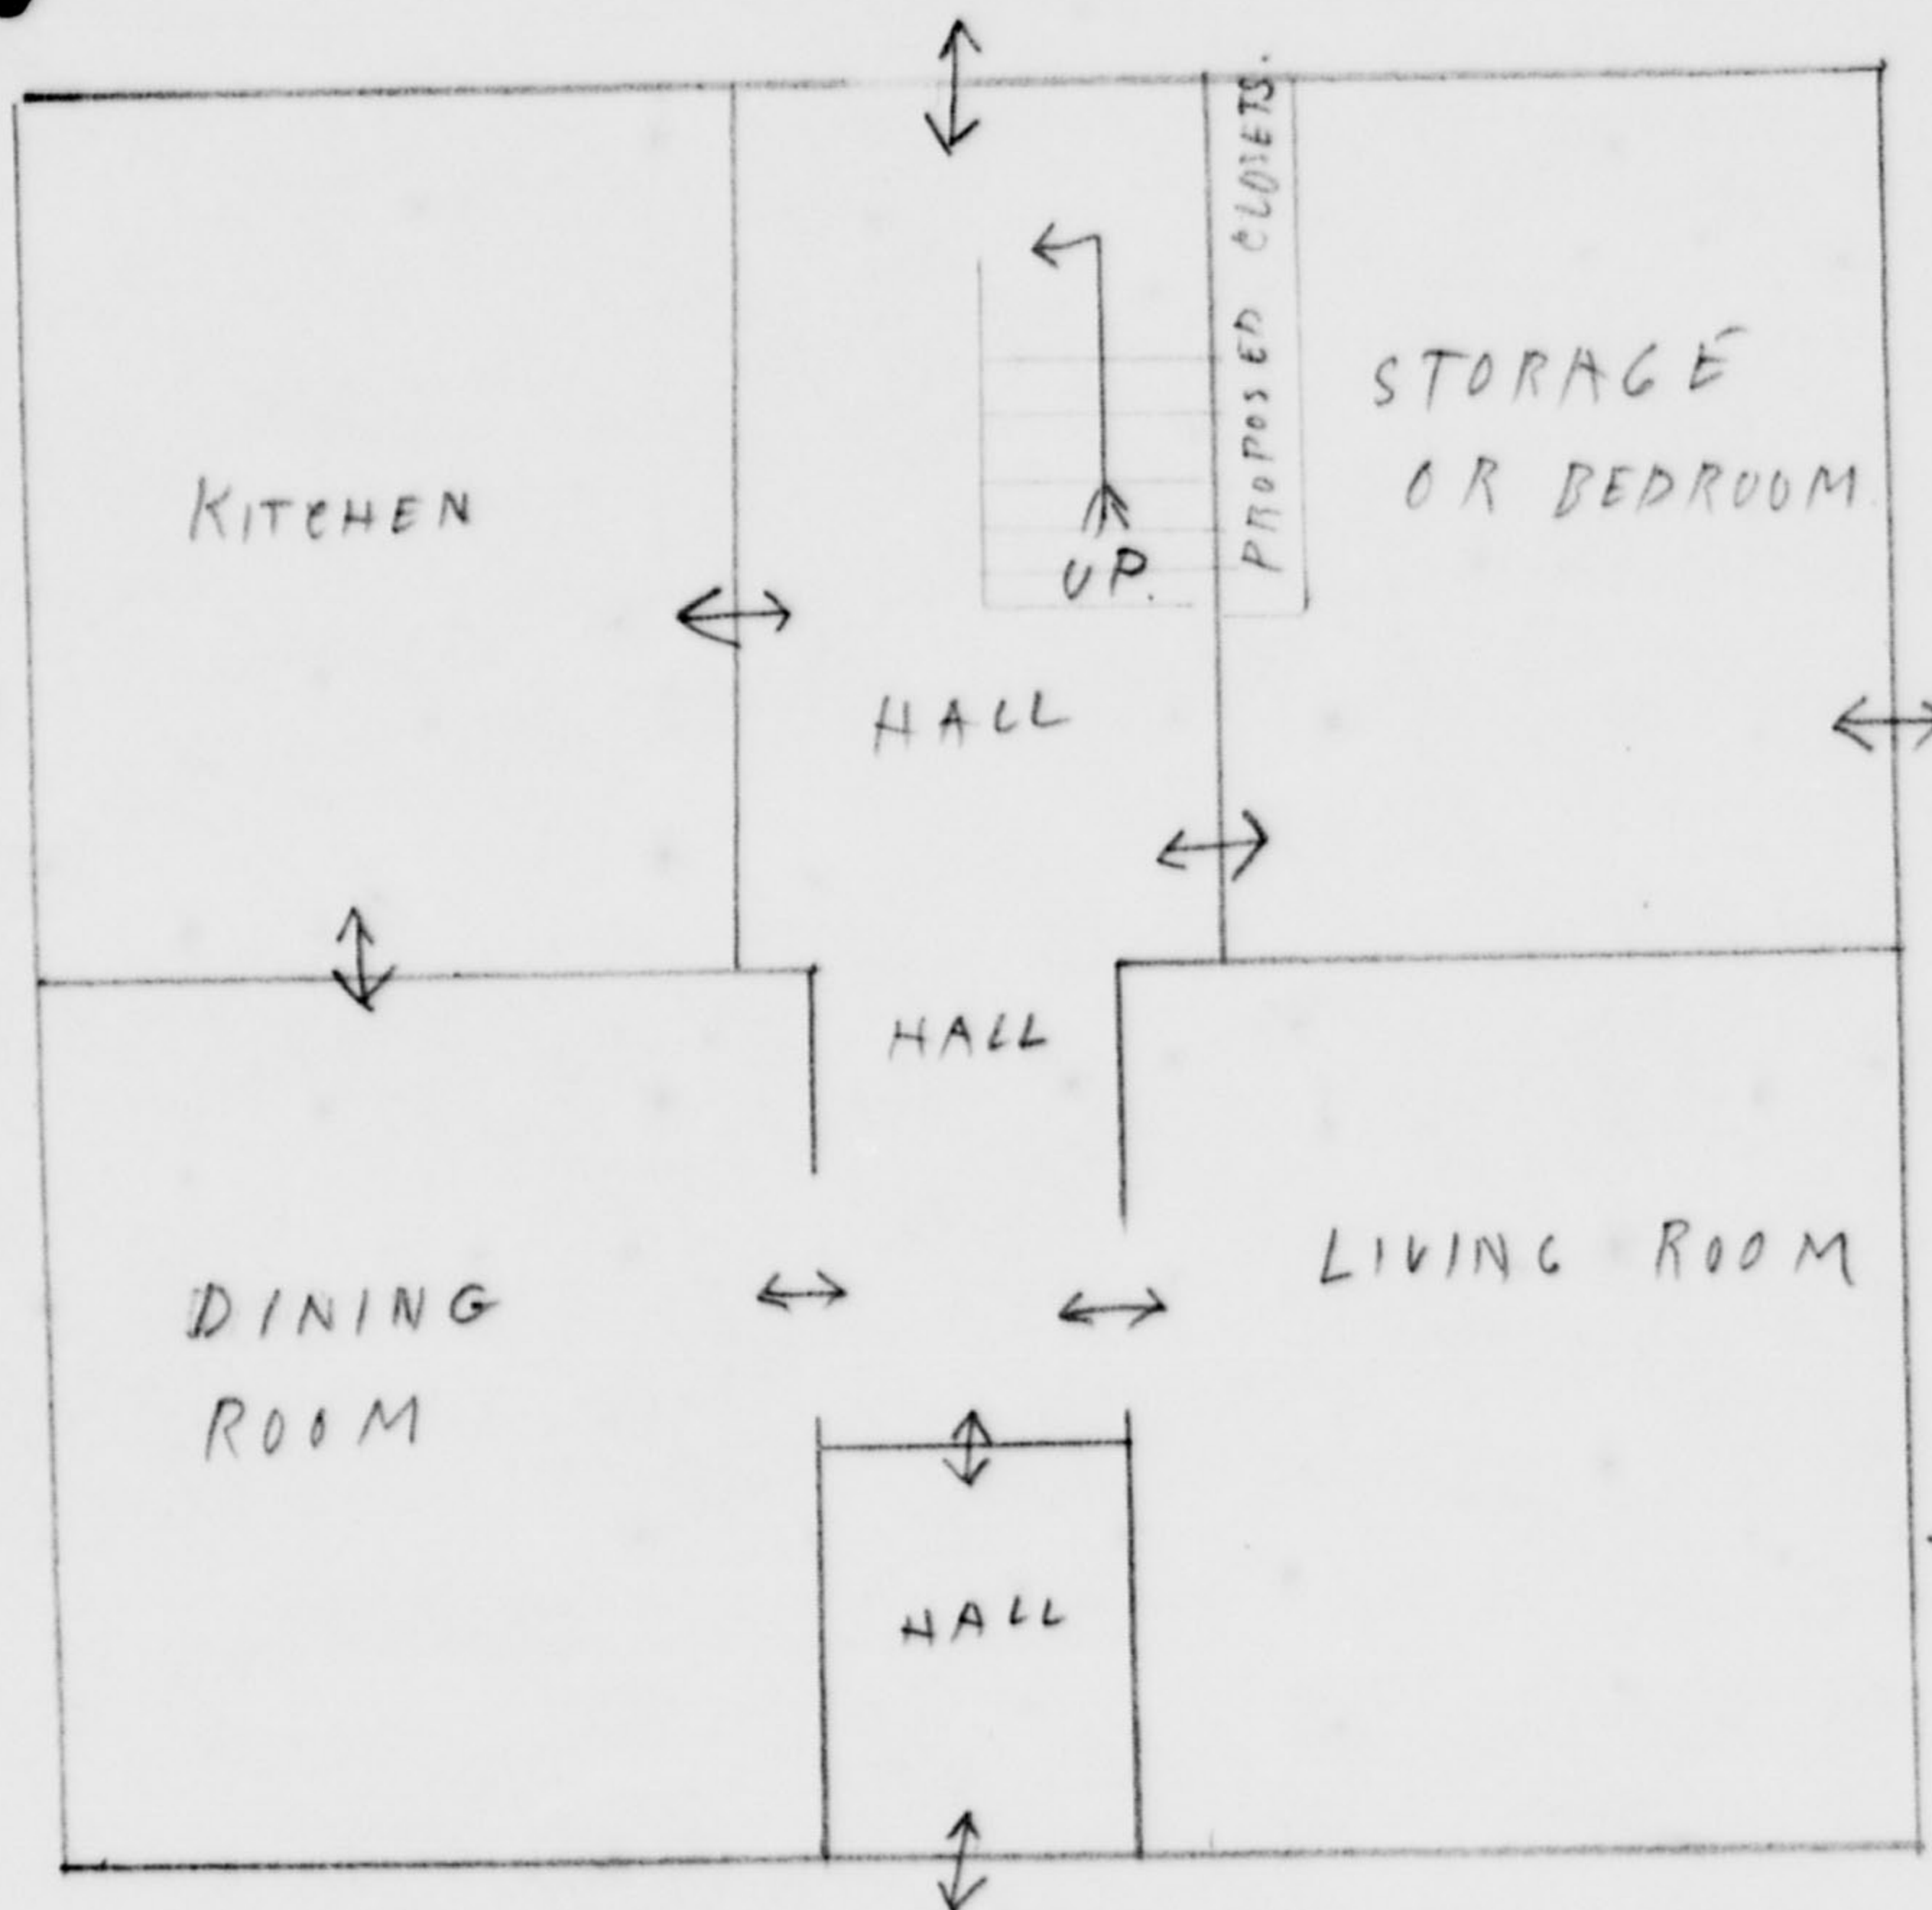

I.F. Kirkby,
Supt. of Indian Agencies.

June 12th, 1950.

The Secretary,
Department of Public Works,
Ottawa, Ontario.

Dear Sir:

Re: Hay River Indian Day School

With reference to the teacher's residence at the above school, I enclose copy of a letter received from Superintendent Kirkby.

As it is understood that certain repairs will be made this summer at the above school under the direction of the Public Works Department, I am bringing the matter mentioned by our Superintendent to your attention. His suggestion appears to be a reasonable one.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education

Re: Hay River Indian Day School
Your File 139/6-2

We received your letter of the first instant with regard to the teacher's living quarters at the above school.

A copy of your letter has been forwarded to the Public Works Department, as it is our understanding that one of their engineers will be in Hay River this summer with regard to renovations required at the building. Funds for the purpose have already been transferred to the Public Works Department.

PP/ST

Bernard F. Keary,

Hay River Teachers

I understand from Mr. Doucet that Mr. Bowerman should remain at Hay River and be given an opportunity to work in the school relatively free from heating and lighting problems.

He tells me of a teacher in town who might replace Mrs. Bowerman. I have yet to hear of her resignation but presume you will be forwarding this in the near future.

I understand Mrs. Dussault is quite satisfactory and will remain for next year.

I have already written two teachers to replace Mr. Kennedy and no doubt you have had some letters from them concerning the school.

Bernard F. Neary,
Superintendent of Education.

Yellowknife, N.W.T.
August 10th. 1950.

B.F. Neary Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

Hay River School Residence

I was in Hay River upon receipt of your wire and it was found that all carpenters of any account at all were either working for the D.P.W. or they were steadily employed and not in town. It was therefore impossible to get anyone to make an estimate or put in a tender to do the complete job of putting in an outside stairway for the residence and putting in cupboards for the upstairs kitchen and a cloths closet for the bedroom downstairs.

I was able to inspect the building in company with the D.P.W. foreman and the enclosed list of materials was made out to cover the work required. These materials would have to be provided in any case and as they are not available in Hay River they might just as well be ordered by us direct from one of the Edmonton lumber yards.

As the job is of such short duration one cannot bring in an outside carpenter and the D.P.W. foreman has informed me that he will put one of his men on the job provided we pay his wages so that it does not come out of the money he has available for his own work. At the present time they are not too busy and could spare the man.

If the materials could be ordered immediately for shipment by truck from Edmonton to Hay River it should be possible to complete the work by the time school starts or very shortly after.

If by the time the materials arrive it is possible to get a carpenter to put in a bid on the job I will wire, but the materials must be provided at once if we are to get the work

Resolution, N.W.T.,
September 24, 1928.

[Signature]
Sir,-

X

X

Notes
From Resolution we proceeded to Rae and the treaty was paid as soon as we recovered sufficiently on the 6th.

The main topic was the closing of beavers. The second question was a demand for a day school, idea that some half breed had put in the heads of the Indians, unpracticable, on account of so few Indians staying near the fort, and the high fuel, fish etc. but the idea had been launched with the Indians and they do not realize the difference between day and boarding school, so this will hurt the recruiting of children, and the Mission does not see the utility of a day school more than we do.

EXTRACT from letter of C. Bourget, M.D., Indian Agent, Ft. Resolution, N.W.T., dated January the 10th, 1929.

Noted
Original on File 11-139.

[Circular stamp: FEB 16 1929]
I was asked last summer by some of these Indians of Rae to give them a day school, which is at present quite a proposition due to the expenses of a building, fuel at excessive costs and the monotony of the life there, but I presume if they do insist, with time it may be a solution that must be found, and then one school teacher could then be engaged to do the two duties. Of course, I am against this day school as it would provide school for a few children only, the majority of Indians being far in the woods part of the year, and it would end the recruiting for the boarding school, but I am afraid the Indians will become more and more insistant on that question, being encouraged by a half breed who is on treaty and put the idea in their heads, and as they do not see the difference between a day school and boarding school they think it is the same thing on a smaller scale than the boarding school.

Ft. Resolution, N.W.T.,
July 31, 1935.

Sir,-

I beg to report on the Treaty Trip and
payment of Annuities to the Indians of the Great Slave
Lake Agency for 1935.

x

x

x

The Indians of Rae do not like to place
their children in any residential school for the simple
reason that they would like to visit their children
occasionally and cannot afford to come to Resolution.
They would rather like a day school. I have had enough
experience so far with the Indians, to recommend this,
and leave it to your discretion.

April 24th, 1936.

Dear Doctor Amyot:

The Department received your telegram of April 18th, with the greatest regret. I think there is a fair prospect of being able to station a nurse at Fort Rae, and to build accomodation for her as soon as such action can be taken in the summer. The present hope is to build a day school there with accomodation for a teacher and a nurse. In the meantime, if mail conditions will at all permit, I wish you would forward any suggestions you have as to the best method of building at Fort Rae, and any other recommendations you may wish to make in regard to the proposal.

EXD.

Dear Sir,

In reply to your letter of April 24th I may say that I am not prepared, at the present time, to make any suggestions whatsoever as to the building of a day school at Fort Rae. As far as I know, the establishment of a nurse is imperative, but not so much a day school.

June 16, 1936.

Dear Sir,-

Pursuant to a conversation with you while in Ottawa recently regarding the building of a Day School and a Staff Residence at Fort Rae, N.W.T., I am today sending you, under separate cover, a blue print copy of a plan which has been prepared for a Day School and one for a Staff Residence.

I will be glad if you will submit a price for the erection of these buildings, complete, at Fort Rae. Kindly quote a price for each building separately.

The plans are intended to indicate only the accommodation required and the general layout of rooms. When submitting your offer I will be glad to have your suggestions and recommendations as to the best and most economical materials to use in the construction of these buildings.

It is desired to keep the cost as low as possible, giving due consideration, however, to well constructed and warmly built buildings.

Yours very truly,

A. F. MacKenzie.

GENERAL CONTRACTORS AND ENGINEERS

10147 - 108TH STREET
EDMONTON, ALBERTA

July 11, 1936

Hudsons Bay Co.,
District Office,
Edmonton, Alberta.

Dear Sirs;

We hereby agree to supply all labor and material, transportation and board required in the erection and completion, according to plans and specifications, of an Indian School to be erected on a site where directed at Fort Rae, N.W.T. for the sum of Sixty-seven Hundred and seventy-eight (\$6778.00) Dollars.

Foundation to be of rocks well bedded on solid earth, or stone, and placed not more than six feet on center. The side and center sills to be built up of four pieces of 2"x8", the end sills of two pieces of 2"x8" well spiked together. Sills to rest solidly on the rocks by using shims where necessary. Protect the outside of the sills from the banked earth with a layer of one ply rubberoid.

Floor joists to be of 2" x 10" - 16" on center, with 2" x 2" bridging to each span, doubled under end walls and partitions running parallel with them. Outside platform joists to be 2" x 6" @ 16" O.C. Ceiling joists to be of 2" x 6" 24" O.C. butted at the center and a four foot piece of 2"x6" well spiked over the joint. Center to be hung from the 2"x6" rafters 24" O.C. with a 1"x8" well nailed with 2½" nails. Joists to be well spiked to sides of rafters and to the plate where they rest on same.

Studding to be 2"x4" - 24" O.C. on the outside walls and 16" O.C. on the interior partitions. Outside of studs to be covered with shiplap, one layer Sisalkraft paper, one layer building paper, and 6" drop siding. Paper to be doubled around openings, and to be worked into the groove of all sills. Inside of the outside studs to be covered with shiplap, one layer of building paper and ten test.

Rafters to be covered with shiplap, one layer of tar paper, and No 1 shingles laid 4½" to the weather. Ceiling joists to be covered underneath with shiplap, one layer of building paper, and ten test. Carry down the rafters in the classroom and down to the ceiling level of the cloak rooms and kitchen. Interior partitions to be covered both sides with ten test.

Floor joists to be covered with shiplap, laid diagonally, one layer of building paper, and No 1 E.G. Fir flooring.

Dear Sirs;

We hereby agree to supply all labor and material, transportation and board required in the erection and completion, according to plans and specifications; of a Staff Residence at Fort Rae, N.W.T., for the sum of Ten Thousand, one Hundred and Fifty (\$10,150.00) Dollars.

Foundation to be of rocks well bedded on solid earth or stone, and spaced not more than six feet on center. The side and center sills to be built up of 4 pcs 2 x 8, the end sills of 2 pcs of 2 x 8, well spiked together. Sills to rest solidly on the rocks by using shims where necessary. Protect the outside of the sills from the banked earth with a layer of one ply rubberoid.

Floor joists to be of 2"x10" -24" O.C., with 2x2 bridging to each span, doubled under end walls and partitions running parallel with them. Outside platform joists to be 2x6, 16" O.C. Ceiling joists to be of 2x6 - 24" O.C. Joists to be well spiked to sides of rafters and plates.

Studding to be 2x4 -24 O.C. on the outside walls and 16" O.C. on the interior partitions. Outside of studs to be covered with shiplap, and one layer of Sisalkraft paper, one layer of building paper, and 6" drop siding. Paper to be doubled around openings; and to be worked into the groove of all sills. Inside of the outside studs to be covered with shiplap, one layer of building paper and ten test.

Rafters to be covered with shiplap, one layer of tar paper, and No 1 shingles laid 4 1/2" to the weather. Gables to be shingled 5" to the weather. Second floor ceilings joists to be covered underneath with shiplap, one layer of building paper, and ten test. Interior partitions, both sides, and ground floor ceiling, to be covered with ten test.

Floor joists to be covered with shiplap laid diagonally, one layer of building paper and No 1 E.G. fir flooring. Outside platforms to have one layer of No 1 E.G. fir flooring, with joints painted with white lead before laying. Outside stair to be constructed of 2 x 10 stringers, 2 x 8 treads, and 2 x 4 rail and posts. Platform to be supported on 4 x 4 posts well braced.

Corner boards to be 1 x 4 and 1 x 5. Frieze 1 x 8, gable frieze 1 x 6 Plancier 1 x 10 and fascia 1 x 6.

Window and door frames to be of standard construction, Exterior doors to be of sizes and designs shown, 1 1/2" thick.

ARCHIVES PUBLIQUES
CANADA

POOR COPY

Outside kitchen and toilet doors to have combination storm and screen doors. Interior doors to be 1 3/8" 5x panel. Doors to have mortise locks and L.P. butts of suitable sizes. Outside toilet door to have transom to open.

Windows to be of sizes and designs shown, to have storm sash and half screens. Windows to have sash lifts, fasteners, and the lower sash to have spring sash bolts.

Interior casings and window apron to be 1 x 4 fir, window stools 1 1/4 x 4 rebated, bookstrips 1 x 4, base 1/2 x 6, with 1/4 round. Kitchen cupboard to have bins, drawers, and doors; two shelves below and five above.

Inside stair to have 2 x 10 stringers, 1 1/4 B N fir treads, 3/4 risers and skirting board, 4 x 4 Newel posts with moulded hand rail and square balusters. Dispensary shelving, linen closet, cupboard and basin stand in toilet and table, and stand in the kitchen to be constructed to suit.

The toilet fixtures on the ground and second floors to be chemical toilets with vent pipe connected to the chimney. Outside doors to these toilets are provided for quick access for emptying purposes.

Chimney to be 8 x 8 erected of sound burned brick layed in lime and cement mortar with thimbles for furnace and kitchen range, toilet vents and two to rooms adjoining.

Building to have eave gutter with one conductor pipe on each side and a three foot pipe to conduct the water well away from the building.

Furnace to be a McClary Magnet, wood burning, of sufficient size to properly heat the building. To have hot and cold air pipes, registers, etc. to rooms where shown. Furnace to rest on metal floor protector.

Outside and inside woodwork to be painted three coats to lead and linseed oil in selected colors. Shingles to have one coat of oil shingle stain. Floors to have one coat of hot linseed oil. Walls to be calsomined.

We will erect a building according to plan No 2, of similar construction for the sum of Nine Thousand Five Hundred (\$9,500.00) Dollars. The small reduction in cost in comparison to the reduction in size is because the plan No 2 has only one room less and it has the same size, and number of furnaces, chimneys, toilets, stairs and cupboards. However, it would appear that it has sufficient accomodation, and should be more economical to heat.

Yours truly,

R.H. TROUTH & CO LTD.,

Dear Sir:

NEW BUILDINGS - FORT RAE

With further reference to your letter of the 16th June,
we are pleased to enclose tenders submitted by the following:

R.H. TROUTH CO. LIMITED, EDMONTON:

Residence	Plan No. 1	\$ 10,150
"	" No. 2	9,500
School		6,778.

Plans submitted by Messrs. Trouth are being sent
under separate cover.

J.L. ARNETT, EDMONTON:

Residence	\$ 7,987
School	6,220.

Both firms have done considerable work for us in the north
and we found them reliable: Messrs. Trouth is probably the better.

We shall be very pleased to supervise construction to the
best of our ability; we would make no charge for this service.

Yours faithfully,
For the Hudson's Bay Company,

Ralph Parry
Fur Trade Commissioner.

Encl.

Dear Sirs:-

As requested we are returning herewith the blue prints of an Indian Day School and Staff Residence for Fort Rae N.W.T.

In revising these plans we have kept very close to the original drawings in arrangement altho in the Staff Residence there may be more rooms arranged for than will be required.

The rooms on the ground floor of the Staff Residence can be heated from the furnace and be made into comfortable living quarters.

In our opinion especial bath room accomodation is not necessary but inside toilets are very convenient. Our experience with chemical toilets has been that there is no odor except when emptying if properly vented to the chimney. We have arranged exit doors from the toilets for quick access to the outside for emptying purposes.

The construction of the buildings is similar to all others that we have erected in the North West Territories and seems to be best suited for their requirements.

The Pupils desks, Teachers desk and chair and visitors chair, blackboards, chalk rail and mouldings we consider as fixtures. The additional school supplies enumerated in the specifications which we consider necessary, amounts to \$90.05. There are ofcourse other supplies that will be necessary such as kitchen stoves, cooking utensils, household furniture, etc.

We regret that on account of other urgent work in hand there was a slight delay in completing the plans and estimates but on account of the short season the work should be started as soon as possible.

If the work is entrusted to us we will lose no time in getting the material ordered and will arrange to start the work as soon as the material can be transported to the site.

Yours truly

R.H.Trouth Co Ltd

Mr. A. F. MacKenzie,
Secretary,
Department of Indian Affairs,
OTTAWA, Canada.

Dear Sir:

I gave the Hudson's Bay Company a price on some buildings at Fort Rae, for your department, on July 11th, and they have advised me to write you for information as to what you are doing about it.

As you know, the season is very short, and any work to be done this year would have to be started within the next two or three weeks in order to get material in before the close of navigation.

I have erected several buildings for the Hudson's Bay Company in the north country, and am fairly well informed as to conditions, and if you intend building this year would like to hear from you.

Yours truly,

J. L. Arnett

YELLOWKNIFE, N.W.T.
17th August, 1944.

R. A. GIBSON, Esq., Deputy Commissioner, Northwest Territories,
OTTAWA, Canada.

Today, Constable Aime, Royal Canadian Mounted Police, Rae, called in connection with the matter of providing education for the half-breed, Indian, and white children at Rae. He says there are in the neighborhood of 12 children of school age who would greatly benefit if a day school were opened at that settlement.

I understand that Sister Gamache in the Roman Catholic Mission Hospital at Rae taught at Fort Simpson and possibly she might be available to carry on a day school. Constable Aime will forward a list of the children giving full particulars as to status and age and on receipt of this information I will forward it to you.

I would recommend that this matter be referred to Bishop Trocellier at Fort Smith with a view to having this school opened in September as there appears to be urgent need for providing education at this settlement.

Dr. H. W. McGill, Director, Indian Affairs Branch, Department of
Mines and Resources, Ottawa.

Attached is a copy of a letter dated August 17, in which
our Agent and Superintendent of Wood Buffalo Park draws attention
to the need of a day school at Rae, N.W.T.

Before writing Bishop Trocellier I would appreciate an
expression of your views and to what extent your Branch would be
prepared to support a day school at Rae. As you are probably
aware, this Administration pays annual grants of \$200.00 to day
schools operated in the southern or Indian sectors of the N.W.T.
provided the average daily attendance is five or more. I do
not know whether there are sufficient white and half-breed
children in the Rae area to justify payment of a school grant
as it is noted from the 1941 census that of the total population
of 767 there are 686 Indians.

Memorandum:

R. A. Gibson, Esq.,
Deputy Commissioner,
Northwest Territories.

Re: Establishment of Day School, Rae, N.W.T.

I have for acknowledgment your memorandum of August 23, in which you seek an expression of opinion from this Branch with respect to the establishment and operation of a day school at Rae, North West Territories.

The officials of the Welfare and Training Division inform me that there is very little on file here relating to educational facilities at Rae. If, however, there are five or more Indians of school age at this point, we shall be glad to co-operate with you to the fullest extent possible in the establishment of a school. Would it be possible to establish this school on the understanding that the cost of maintenance would be borne on a pro rata basis by the two Branches? You might communicate with me again after you have discussed the matter with Bishop Trocellier?

FORT SMITH, N.W.T.
September 15, 1944.

Mr. R. A. Gibson,
Deputy Commissioner,
Northwest Territories Administration,
Ottawa.

Dear Sir,-

Owing to my prolonged absence from Fort Smith, I have not had the opportunity of replying sooner to your letter of August 31, relative to the opening of a day school at Fort Rae.

Actually it is too late for supplies to be sent to Fort Rae this year. While there are five Sisters resident in the hospital there, it would be difficult to spare one of them for teaching, for they already have sufficient work to keep them busily occupied each day.

Although one of the buildings purchased by the mission from the R.C.M.P. detachment would be suitable for class-room purposes, I am of the opinion that very few children could be found to attend. For the greater part of the year, entire families are obliged to live in the bush, in order to live. Those who would necessarily remain in the Fort while their children are going to school, would have no means of sustenance whatsoever. Perhaps half a dozen children might be found, to come to the school, but judging from the means of livelihood of these people, I feel certain that the number of children who could actually attend regularly, would hardly warrant the opening of a school.

I will, however, give the matter serious consideration, trusting to have the occasion of conversing with you personally about it.

Very sincerely yours,

'sgd' M. J. Trocellier

Bishop of Adrymitium
Vicar Apostolic of Mackenzie.

Dear Sir:

As Head Chief of the Dogrib Band of Indians at Rae, N.W.T., I would like to advise you of two facts which are the subject of much interest and discussion amongst the Indians of my band at the present time. The first is that for the past several years it has become evident to the people of this band that there should be a school in Rae to teach our children. More white people are coming in to this district all the time and a little education would help our Indians very much in their dealings with the white people. Our lack of education is becoming a considerable handicap.

Re - Day School at Rae, N.W.T.

The Commissioner of the R.C.M. Police has sent me copy of a report from his N.C.O. in charge at Rae in which he refers to the need for a day school at that point. It is stated there are eleven children of mixed blood who would in all probability attend the school regularly as their parents are residing in the settlement. This number would likely be increased later and in addition there would be the Indian population which it is understood numbers between eight and twelve of school age.

The matter of establishing a day school at Rae was taken up with Bishop Trocellier last year and the following information obtained -

- (1) The Mission has a building at Rae which could be converted into a suitable day school to accommodate a minimum of thirty-five pupils. This building will require to be fixed for electric lighting and proper fixtures installed. No member of the Rae Mission staff is qualified to do this work and as a consequence someone from the Fort Smith Mission will require to be flown to Rae and returned to Fort Smith.
- (2) One of the Mission Staff at Rae is a qualified teacher and arrangements can be made for her release to take over the day school.
- (3) The Mission will supply the electric power needed to light the building.

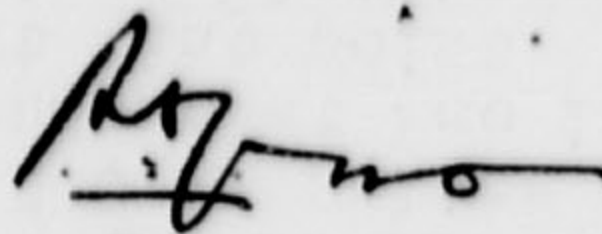

Indian Affairs (RG 10 Volume 6473, file 906-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

- (4) This Department (either the N.W.T. or Indian Affairs, or jointly) would be expected to assume the following -
- (a) Salary of teacher and caretaker, also fuel to heat the school building.
 - (b) Desks, school books and other necessary equipment and supplies.
 - (c) Wiring and electrical fixtures or if these are supplied by the Mission the grant should be increased accordingly.
 - (d) An annual cash grant of \$1,200 but if the Mission is required to supply electric wiring and fixtures it should be increased accordingly.

We find it difficult to deal with these matters at the present time pending the appointment of our School all be glad to have your views on this possible for it will be necessary to is to be done this year.

R. A. Gibson,
Deputy Commissioner.

C o p y

Fort Rae,
September 2, 1946.

Mr. McKinnon
Superintendent of Schools,
OTTAWA

Dear Sir:

When at Rae you were kind enough to ask our opinion about School. Badly impressed by the surrounding at the police barrack, only the two of us, afraid to displease you and the police, not perfectly understanding the meaning of some questions, taken also by surprise, we said things we should never have told and we did not mean at all. People are justly displeased and disapproving us. Beside, as in our language we have only one and same word to mean: protestant and English, a great misunderstanding resulted.

We don't care who is building the school, the Government or the Roman Catholic Mission, but we never had in mind to have Protestant in Charge.

As we are all Roman Catholics we want the good Sisters to do the teaching, and if not enough Sister available, Roman Catholic teachers to help them.

Mislead, we are now sincerely sorry for what we have said in front of you, it was not the opinion of the people, not our own. Hereagain in plain words what we all want: a boarding school, like the one at Fort Resolution, big enough to hold all the children of school age and run by the Roman Catholic Mission.

We thank you for your visit and promised school and hope our children will soon be able to write and read English and make a better living afterward.

We keep a copy of this letter for reference.

Yours very truly,

Jimmie BRUNO, Chief.

Louis Beaulieu, Headman.

Re Day-school at Fort Rae.

On August 19th I made a survey of educational conditions at Fort Rae with a view to determining the possibility of opening a day school there.

I inspected the building purchased by the Roman Catholic Mission from the R.C.M.P. for possible use as a day-school. I also interviewed Chief J. Bruno and local residents with regard to the proposal. At Bruno's invitation, I visited the Indians in their tents, and saw for myself the urgent need for the provision of school facilities.

Dr. Riopel of Fort Resolution advised me that there were about 150 children of school age in the locality, and that they were badly in need of a school. The general opinion appeared to be that ultimately there should be a residential school erected at this point. I discussed this matter with Bishop Trocellier who confirmed this view.

As a temporary and immediate solution to the problem, I would recommend the following procedure:-

(1) That the mission day-school be opened for the remainder of the current school year.

(2) Since the services of a properly qualified teacher are available locally, that the cost of salary, school supplies and a fair rent for the building be borne on a pro rata basis by the Bureau of Northwest Territories and the Indian Affairs Branch.

..

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

With respect to the building itself, I would add that it is divided into two rooms, one 14 feet by 11 feet, and the other 21 feet by 15 feet, and it has an 8-foot ceiling. I would suggest that a beginning be made with small classes, due to the entire illiteracy of the children.

Although I was told by the local priest that not two percent of the Indians in the area could read or write, I saw for myself the possibilities for improving this condition when I inspected the Dog Rib Indian children under Sister MacQuillan at Fort Providence. This sister had such children as young as six years of age reading and speaking English after only a few weeks of schooling.

FORT RAE - PROPOSED INDIAN DAY SCHOOL

At a recent meeting between the officials of the Indian Affairs Branch and the Bureau of Northwest Territories and Yukon Affairs, the proposed Indian day school at Fort Rae was discussed. It is understood from Inspector McKinnon that you are aware of the proposal of the Roman Catholic Mission to use a former R.C.M.P. building as a day school.

While we are fully aware of the fact that a residential school would probably be a better solution to the educational problem at this point, it is felt impossible to plan such a building under present conditions.

Therefore, the Department is prepared to establish the Fort Rae Indian Day School. We are willing to pay the teacher's salary, to provide text books and other school equipment, and to pay for the rent of a suitable building.

It is realized that this day school would be only a temporary solution to the problem. However, would you approach the Roman Catholic authorities to find out how far they have progressed with this matter. I am sending a copy of this letter directly to the Rev. Father Gillis so that he will be prepared to discuss this matter with you.

B. F. Neary,
Superintendent, Welfare and Training.

H. Q. FILE No.

Dr. W. P. Earle,
Indian Agent,
Resolution, N. W. T.

Dear Doctor,

During the summer months there are approximately one hundred Indian children around the settlement with nothing to do. I am of the opinion that were the Department to send in one half dozen soft balls and say, three bats, the children would derive many many hours of enjoyment therefrom. The members of this Detachment are only too willing to teach the children how to play ball.

Two complete sets of horse-shoes would also be welcomed and this Detachment would undertake to get the Indian men playing horseshoes.

May it be pointed out that there is absolutely nothing in the way of amusement around Rae and it is hoped the Department will give consideration to this request.

Yours truly,

W. A. Coombs Cst.

RE; Indian Children, Fort Rae.

The enclosed letter has been forwarded to me by the R.C.M.P. Fort Rae, regarding amusements for the Indian children during the summer months. As the members of the Detachment at Rae are keenly interested in the welfare of the Indians at that post and I can vouch for the truth of their statements, having spent several days there myself, I hope this matter will be given some consideration.

There is no Indian School at Rae and the children are left to their own devices in the way of amusement. I feel that anything in the way of teaching them sports would be a worthy effort and also a means of preventing them from getting into trouble, such as the acquiring of Venereal Disease. I am forwarding this letter for your consideration, please.

Indian Children at Fort Rae

Your letter of April 23 has been received. We have today arranged to forward six playground balls and three playground bats, as requested. These are being shipped via Waterways to Constable Coombs. Will you please advise him of our action in this regard.

On December 30, 1946, I sent a letter, a copy of which is attached, to Dr. Riopel, with a copy to Father Gillis, Fort Smith. To date I have received no answer to this letter. Could you please take the necessary action to promote the opening of a day school at Fort Rae, as indicated.

Bernard F. Neary,
Supt. of Welfare & Training.

Fort Resolution, N.W.T.

May 20th, 1947.

Mr. B. F. Neary,
Supt. of Welfare and Training,
Indian Affairs Branch, Ottawa.

Dear Sir,

Regarding your letter of May 6th, 1947, 139-5-1 (WT), I wish to thank you for your kind assistance in this matter. I have advised Constable Coombs by wireless that the baseball supplies will be shipped to him.

Regarding the opening of a day school at Fort Rae, I have asked the Father Superior about it at this Mission but he states he is entirely ignorant of the plans of the R.C. Mission in opening this school. As Dr. Riopel had already left before December 30th, 46, and there was no doctor here until I arrived on the 10th of February, this is the first time that the matter has been brought to my attention.

As I expect to be leaving this post next week, I would suggest that this matter should be taken up with my successor, Dr. Mulvahill, who will be arriving on the 23rd of this month. I will also ask him to make enquiries into this matter on his next trip to Fort Rae. As a school is badly needed there, I am sure that every assistance possible will be given towards its opening.

Yours very truly,

W. F. Earle,
W. F. Earle, M.D.

Acting Indian Agent.

R. A. Hoey, Esq., Director,
Indian Affairs Branch,
Department of Mines and Resources,
Booth Building, Ottawa, Ontario.

We have an opportunity to purchase the Buffum Property at Fort Rae for educational purposes. This property consists of a dwelling house thirty-six feet by twenty-two feet. It has on the ground floor, two bedrooms, dining room, and a kitchen and washroom. The upstairs consists of one large finished room. This residence is completely furnished except for linen and bedding. It contains a radio, two stoves, eight dining room chairs, two large beds, two cots, one Winnipeg couch, ice box, washing machine, twelve volt wind charger, storm doors and windows, and a full line of dishes and kitchen utensils. The floors are covered with linoleum and rugs. The building is in an excellent state of repair. It is well insulated and sided and would make an ideal residence for a teacher. About a year ago Mr. George Buffum refused an offer from the I. A. B. to purchase only the house for five thousand dollars. This did not include any of the land or surrounding buildings.

There is also on this land a store, forty feet by twenty-eight feet. It is of frame construction, well insulated, and in an excellent state of repair. It has a fir flooring and ceiling and was erected at an initial cost of six thousand dollars. It contains two stoves, a large teacher's desk, and some smaller furniture. The upstairs would make a play room. This building would make an excellent class room which would accommodate about thirty pupils.

Besides the above, the property contains several log shacks of little value, an oil and ice house, and a frame building twenty-four feet by sixteen feet which would make a suitable storehouse.

I have discussed the advisability of purchasing this property with Mr. J. G. McNiven who concurs in the view that we should take advantage of this opportunity, as it would cost considerable more than ten thousand dollars to erect one of the buildings at present cost

materials. This property is free from mortgage and consists of three and one half acres of land on the water front. It is centrally located and is the only suitable site in Rae for a school. There would be plenty of room on this property for a playground, an Indian Agent and Doctor's residence. It would be advisable for the Government to have their own school on Government property, and personally I see such as the only sound educational policy. I was informed that there were about one hundred and fifty children of school age and that about twenty-five would attend school the first year. We could open a day school at this point in the hope that all the residents would gradually become educated to leave their wives and children in the Fort while out trapping. By doing such education would have an elevating effect on the local inhabitants and develop initiative. As Fort Rae is the largest Indian Settlement in the N. W. T. there is great need of an Indian Agent at this point. An ideal combination at this centre would be a man as Agent, whose wife was teacher. By such an arrangement it would be easier to hold and obtain the best type of Government employees.

I suggest that we take advantage of Mr. Buffum's offer and purchase the above property for ten thousand dollars. We should also purchase the fifty-five cords of wood on the said property at twelve dollars a cord as it will be impossible to obtain fuel oil this year. The Hudson's Bay Post Manager informed me that their carpenter will be at Rae for several weeks so we might take advantage of this opportunity to have the store renovated into a class room.

By purchasing the above property we are taking advantage of the one and only opportunity to attack education from a sound basis at this centre. Kindly advise Mr. George Buffum at Fort Rae as soon as possible of your decision, as he will be leaving soon for his home at 11136 - 67th Street, in Edmonton. Also there are several interested parties desiring this property.

Respectfully submitted,

J. W. McKinnon

Fort Rae School

"On Thursday, July 17th, I visited Fort Rae to discuss the proposition suggested in Colonel Neary's wire regarding renting the Buffam property at \$50 per month with the option to buy. This Mr. Buffam agrees to, providing the government guarantees to purchase the property by the 1st May. This should be done.

"The residence alone is worth \$8,000 today; The store would make an ideal classroom. The Roman Catholic priest intimated that hospital space could be used as dormitory facilities for perhaps twelve children during the first year. George Buffam is honest and promised to hold the property for a week or so. If the property is leased, the government should take the 55 cords of wood, which would heat all the buildings for the first winter. Oil cannot be had. The school supplies and equipment for about thirty children should be forwarded, together with a 45-gallon drum of naphtha oil, as the wind charger is not always sufficient for the lights. Radio batteries are also required."

NORTHWEST TERRITORIES AND YUKON AFFAIRS

Ottawa, July 30, 1947.

MEMORANDUM

Mr. MeikleRe: Fort Rae

I visited Fort Rae on June 26th and examined the need for a school at this point. In this connection my letter of July 1st addressed to Mr. R. A. Gibson concerning the purchase of the Buffum property should be consulted.

While at Fort Rae I discussed the local situation with Cst. Coombs of the R.C.M.P., the Manager of the Hudson's Bay Company, the independent trader, and the local residents. They all requested that a government-operated day school be opened, together with accommodation for a teacher, in order that education might be placed on a firm foundation at this settlement. I was informed that there would be a minimum of 15 children who would attend school the first year. Since there are over 150 children of school age at Fort Rae, and since it is the largest Indian settlement in the Northwest Territories, there is great need for an Indian Agent and Doctor to be located here.

All with whom I spoke approved of the purchase of the Buffum property, as they were of the opinion that it was the only suitable site. Should the Indian Affairs Branch make an agreement to purchase this property, I would suggest that within the next few weeks the Manager of the Hudson's Bay Company be contacted in order to secure the services of a carpenter for converting the store into a suitable classroom.

I suggest that a well-qualified practical man be appointed Indian Agent at this settlement, and that if possible he be a married man whose wife is a qualified teacher. I would like to emphasize the need for establishing a school and providing a properly furnished modern home. A ration allowance of \$360 per person should be granted to the teacher, together with yearly transportation in and out of the Territories. These provisions, coupled with an adequate salary, will attract the desired type of employee, and they are in line with those enjoyed by employees of other government services stationed in the north.

J. W. McKinnon

Dear Sir:

Re: Rae Indian Day School.

It is our intention to rent the George Buffum Fur Trading Post at Rae, Northwest Territories and operate it as an Indian Day School for the next academic year. Constable Coombs who was formerly in charge of your detachment at Rae was keenly interested in the formation of this school. Therefore, it was suggested that the desks and school supplies be forwarded to Rae in his care. This was done and we now understand that Constable Coombs is moving from Rae. Therefore, it would be appreciated if you would advise your new Constable in charge to sign the receipt for these desks and school supplies. These receipts can be sent to our Indian Agent, Dr. J.P. Harvey, Aklavik, Northwest Territories for forwarding here.

This co-operation on your part would greatly assist in the establishment of this school. We hope to have a teacher for this position in the near future.

PRECIS FOR THE CLERK OF THE PRIVY COUNCIL:

Establishment of Rae Indian Day School, Northwest Territories.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT there are twenty-five (25) Indian children of school age at Rae, in the Northwest Territories, for whom educational facilities are required;

THAT the Indian Affairs Branch has agreed with the Bureau of Northwest Territories and Yukon Affairs to conduct a school at Rae for the education of Indian, half-breed and white children;

THAT funds are available in Vote 181, 1947-48, Indian Affairs Branch, Department of Mines and Resources, for the establishment of a day school for these children.

The undersigned, therefore, recommends that a day school be established at Rae, in the Northwest Territories, in accordance with the provisions of Section 9 (a) of the Indian Act, Chapter 98, 1927, to be known as the "Rae Indian Day School".

Respectfully submitted,

Acting Minister of Mines and Resources.

Dear Mr. Buffum:

We have just completed a search of your title on the Rae property at the Registry Office for the Lands Title Registration Division of the Northwest Territories. It has been found to be clear and therefore I am sending you a draft copy of the option for the purchase of this property.

It will be necessary for the Indian Affairs Branch to obtain an Order-in-Council before I can send you the official option for signature. As soon as this Order-in-Council is obtained, I will write you again. However, I thought that you would like to have an opportunity of seeing the draft option that is proposed. You can expect to hear from me again in the near future.

Sincerely yours,

Encl.

Bernard F. Neary,
Supt. of Welfare & Training.

EXD.

AIR MAIL.

Ottawa, November 15, 1947.

Dear Miss Allard:

Since my last letter to you, it has been brought to my attention that we still require a teacher for a school which we have just established at Rae in the Northwest Territories. If you will look at a map of the Territories you will find Rae situated to the north of Yellowknife.

We have arranged to rent a trading post there and have sent in desks and supplies but the Bishop has been unable to obtain a Catholic teacher for us.

As this would be pioneering work, we would be prepared to pay two teachers to begin this school. In other words, we could hire both your brother and yourself at the same school. In fact, your services will be fully required as there has never been a school conducted at Rae before so there will be a great deal of ground work to be done.

The trading post is fully furnished with the exception, of course, of sheets and blankets which we would expect you to provide for yourselves. We could also make a suitable agreement as to the payment of your transportation costs. I would appreciate hearing from you as to whether you would be interested in going in to the north and undertake this worthwhile and deserving work.

Sincerely yours,

Bernard F. Neary,
Supt. of Welfare & Training.

Miss T. Allard,
St. Francois Xavier, Manitoba.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

*Bishop Isoullier
Fort Smith NWT*

Fort Resolution, N.W.T.
November 27, 1947.

Mr. B.F. Neary,
Supt. of Welfare and Training,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ont.

Dear Sir:

On receipt of your wire re an Indian Day School at Fort Rae, I contacted the Police at that settlement and found that at present there are 12 Indian children of school age residing in the Fort. The Police stated that there were 30 desks and a sufficient quantity of text books, scribblers, pencils, blackboard material and so on, on hand to commence teaching.

I must state that I cannot see how a Day School would function to any advantage in Fort Rae. In the first place, these Indians are constantly leaving the settlement for trapping and hunting and if the school were a Day School it would be necessary that they take their children with them. Even in Fort Resolution there is great difficulty in assuring attendance of Day School pupils and I believe that the difficulties at Rae would be much greater; the attendance of the pupils would be so irregular that very little benefit would be derived from their attending classes.

While paying Annuities it is true that one of the complaints of the Indians at Rae was that they did not have a school and wanted one immediately but that is no guarantee that if there is a school available the children will attend.

The living conditions at Fort Rae could not be considered the best, due mainly to the isolation of the post. You mention that the girl is crippled - if her incapacity is marked she will have a very difficult time. However, I would not like to state that she could not handle the job, she may have the type of personality that could overcome such a handicap and possibly may render her more suitable and valuable as a teacher but she would undoubtedly be hindered trying to move around, particularly in the winter. At the present time there is only one other white woman at Fort Rae, excluding the Sisters, so her social activities would be limited.

In conclusion, I can only repeat that I do not recommend the opening of a Day School at Fort Rae at this time. It may be possible to run a Day School for two or three months in the summer when most of the Indians of the Band congregate at the settlement but even then I believe that the attendance figures would be disappointing. In my opinion Fort Rae requires a Residential School.

Yours very truly,

AIRMAIL

Ottawa, December 3, 1947.

L. J. Mulvihill, Esq., M.D.,
Indian Agent,
Fort Resolution, Northwest Territories.

Proposed Indian Day School at Fort Rae

I have received your army signal and airmail letter concerning the above Indian Day School.

It was decided last Spring to open a day school at Rae on a temporary basis. Mr. J. W. McKinnon, Inspector of Schools for the Northwest Territories, had recommended this procedure because of the delays which will occur before we can consider the opening of a residential school there. At the present time the Department has many requests before it for residential schools and we realize that due to building and other conditions, we can only build a few of those required.

Therefore it was decided to open a day school at Rae, in order to educate at least a few of these children, and to accustom them to going to school, even if only during the summer months. In view of the information contained in your letter of November 27, I have today sent the following telegram to Bishop Trocellier at Fort Smith:

"RE DAY SCHOOL FORT RAE -stop- UNDERSTAND TWELVE CHILDREN AVAILABLE THIS POST FOR SCHOOL DURING WINTER -stop- ONLY CATHOLIC TEACHER INTERESTED IS CRIPPLED GIRL WITH BROTHER BOTH OF WHOM ARE TEACHERS -stop- ATTENDANCE OF TWELVE DOES NOT WARRANT TWO TEACHERS -stop- IN VIEW OF FACT MOST OF INDIANS AWAY FROM POST COULD ONE OF SISTERS FROM HOSPITAL TEACH THIS SCHOOL DURING SLACK SEASON -stop- SCHOOL WOULD BE CONDUCTED IN BUFFUM PROPERTY WHICH WE HAVE RENTED -stop- ROYAL CANADIAN MOUNTED POLICE CARING FOR DESKS AND OTHER SCHOOL SUPPLIES WHICH HAVE BEEN SENT NORTH TO RAE -stop- HAVE PROTESTANT TEACHER AVAILABLE BUT WILL TRY LOCATE HIM ELSEWHERE -stop- HAVE DISCUSSED MATTER LONG DISTANCE SISTER SARRASIN GREY NUNS MONTREAL".

I will advise you by Army Signal of any further developments in this case.

Colonel Neary.

The salary of \$200 monthly seems to be
a fair deal, considering that the
incumbent will receive

quarters
fuel and light.

We shall certainly hear from him if
his other living costs become burdensome.

I notice there is no bedding. Air freight on
blankets would be considerable. Could the
Branch buy these from the local H.B. post?

Dear Sir:

Ft. Rae Indian Day School.

I am forwarding herewith, the Monthly Returns for the Fort Rae Indian Day School. It will be noted that Mr. Allard has made certain notations on the reverse side of these Forms.

During the month of May the attendance of this school dropped to an average of three pupils and Mr. Allard explains this by the fact that the Trading Post had insufficient food on hand for the Natives to leave their families to attend School. Mr. Allard has further stated that he expects a very large attendance during the month of June.

I may further mention that the attendance at this school is 100% Indian children, this information for the purpose of cost of requisition supplies.

Yours very truly,

L.C. Hunter,
Supt. Indian Agency.

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH.

RAE Indian Day School

On 17 June we received the following telegram from Mr. L. Allard, teacher at the above Indian Day School:-

"HAVE EIGHTY PUPILS AT PRESENT MORE EXPECTED. WOULD APPRECIATE HELP -stop- ADVISE ABOUT FOOD RATIONS FOR WINTER."

He was sent the following telegram in answer by our Superintendent of Education:

"MAKING ARRANGEMENTS RE YOUR CHEQUE AS REQUESTED - stop- WHAT IS ANTICIPATED PUPILAGE YOUR SCHOOL THIS WINTER -stop- WILL TWO TEACHERS BE REQUIRED ALL YEAR -stop- NEGOTIATING WITH HUDSON'S BAY COMPANY RE FURNISHING OF RATIONS FOR SALE TO YOU".

We have today received another telegram from Mr. Allard, reading as follows:-

"WILL HAVE 20 PERMANENT PUPILS 20 MORE COULD FIND ACCOMMODATION IN RAE IF DEPT PAYS BOARD LARGE FIELD WELFARE WORK -stop- TWO TEACHERS REQUIRED."

In view of Mr. McKinnon's knowledge of local circumstances at Fort Rae, it would be appreciated if we could have a

recommendation from him as to the following:

- (a) Number of teachers who should be employed on a full-time basis at Fort Rae;
- (b) Number of teachers who should be employed on a part-time bases at Fort Rae;
- (c) The length of the school term at Fort Rae and the months during which the annual vacation should be held.

We do not feel that Mr. Allard, the present teacher, is one who could satisfactorily fill the duties required of a Welfare Teacher.

Rae 1

Extract from Annual Report on Fort Rae on the Fort Resolution Northwest Territories Agency, dated 1947-48.

Fort Rae:

There are 708 Indians in the Fort Rae Band; of these, 660 were present for annuity payment last summer. Others had wandered into the Bear Lake regions where they probably will remain.

The Fort Rae Indians are the most primitive in the agency. They have absolutely no conception of the state of affairs anywhere except in their own small area. Very few have any education, very few speak English. The Indians live by hunting and trapping, there is very little opportunity for employment in other lines. The Hudson's Bay Post Manager figures the average income to be \$300.00 a year. Fishing is satisfactory and the caribou are plentiful in season.

When the white fox was valuable these people trapped far out in the Barrens and were quite wealthy. But now they are poor, dressed in ragged clothing and at times, particularly in summer, are really hungry. They no longer dry considerable quantities of fish and caribou and for the most part, wear store-bought clothing and live in tents.

Since this is the largest band of Indians in the Territories I think that plans for the betterment of the Indians should include the immediate construction of a Residential school at Fort Rae.

NORTHWEST TERRITORIES
CANADA

139-5-1
677

OTTAWA

July 2, 1948.

R. A. Hoey, Esq.,
Director,
Indian Affairs Branch,
Dept. of Mines and Resources,
Booth Building, Ottawa.

This will acknowledge receipt of your memoranda dated June 24th and June 28th requesting that the Inspector of Schools, Mr. J. W. McKinnon, submit recommendations regarding the seasonal school now in operation at Fort Rae, Northwest Territories.

Mr. McKinnon recommends that the seasonal school be extended to cover the full 1948-49 school year, and that Mr. Allard's sister be engaged to proceed to Fort Rae and assist her brother with the conduct of this school. Both teachers should be informed that this step is of an experimental nature, and that subsequent decisions will depend upon the enrolment and progress of the school.

Mr. McKinnon recommends that the present seasonal school be continued for the months of July and August, and that the school cease to function on a seasonal basis at the end of August. This will assist in making a division of the teaching load when a second teacher arrives, because one of the teachers can take the children who have already received some instruction.

Dr. Pett of the Nutrition Services, Department of National Health and Welfare, is now making some revisions in a ration list which he prepared several years ago for use in the Northwest Territories. We expect to receive this revised ration list within the next day or so, at which time a copy will be forwarded to your office. It is suggested that this ration list be mimeographed and forwarded to all teaching personnel who will require to order rations for the coming school year. In a recent

.....2

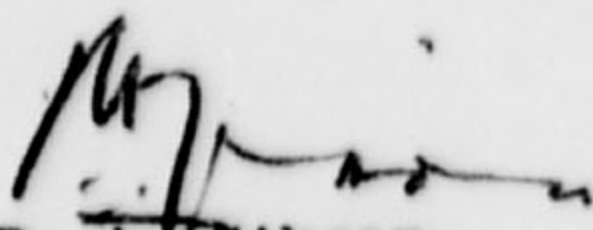

Indian Affairs (RG 10 Volume 6473, file 906-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

conversation, Mr. Chesshire of the Hudson's Bay Company suggested that copies of the ration list be forwarded to the teachers who will indicate thereon the articles they desire to purchase, and will return same to your office. The ration list should then be forwarded to the Wholesale Department of the Hudson's Bay Company at Edmonton; where it will be filled on a wholesale price basis and forwarded to the destination. In order that the teacher may enjoy the wholesale price for commodities, payment will have to be made within thirty days. This means that the Government should pay for the rations and deduct same from whatever living allowance may be made.

The time factor may make this arrangement regarding rations unsuitable in the case of Mr. Allard. He might be advised by wire to submit his ration order without delay to your office for transmission to the Hudson's Bay Company.

R. A. Gibson,
Deputy Commissioner.

Rae Indian Day School.

Dear Miss Allard:

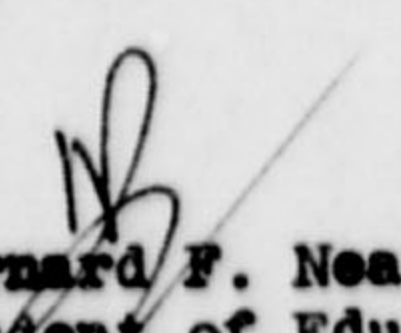

You will probably have heard from your brother by now that we have been considering sending a second teacher to help him at Fort Rae. Naturally, we thought of you and I am writing you therefore in this regard.

Upon the recommendation of the Inspector of Schools, we are prepared to operate the Rae School on a full-time basis and to engage you as the second teacher. This step is of an experimental nature only for the 1948-49 academic year and subsequent decisions will depend upon the enrolment and the progress of the school.

The question of your salary will be settled when a decision has been reached by the Civil Service Commission concerning the Living Allowance to be paid to the employees in the Northwest Territories.

I have already written to your brother with regard to your food supplies for next winter. Before making any further arrangements, however, I would like to know from you whether you would be interested in teaching at Rae during the next academic year.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Miss T. Allard,
St. Francois Xavier,
Manitoba.

AIR MAIL.

, July 19, 1948.

Dear Sir:

I have received a copy of your letter of June 22nd addressed to Mr. H.A. Gibson, Deputy Commissioner, Northwest Territories Administration, concerning the provision of food supplies for our school teachers in the North.

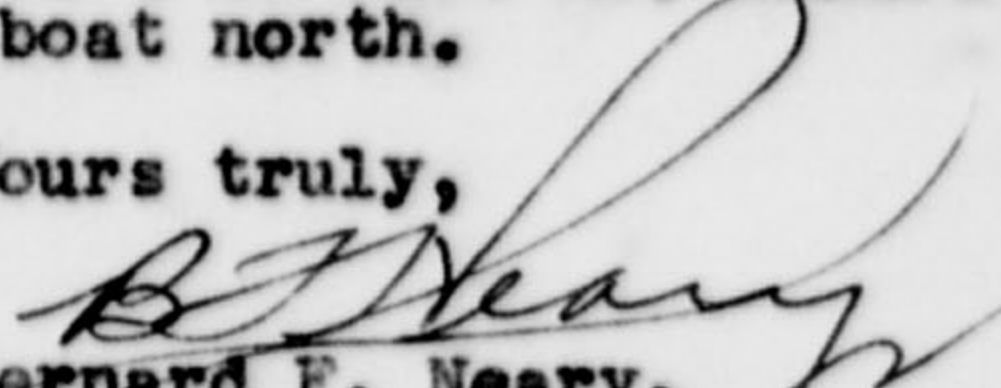

I have written to two of our teachers concerning the provision of these supplies and now wish to place an order for the attached list of rations for:

Mr. L. Allard,
Indian Day School,
Rae, Northwest Territories.

Would you please supply this list of rations to Mr. Allard and forward the account here. We will make arrangements to deduct an amount each month from Mr. Allard's living allowance in order to recover the cost of providing these food supplies.

The second teacher mentioned above is Miss Hinds at Fort McPherson. I understand that she has made arrangements with your store in Edmonton to provide her with the rations which she will be requiring. It would be appreciated if you could make every effort to have Mr. Allard's supplies forwarded to him on the last boat north.

Yours truly,

Bernard F. Neary,
Supt. of Indian Education.

Mr. Bernard J. Mary.
Superintendent of Education
Ottawa Ontario.

Dear Sir:

I have received your letter of the 15th. This morning and had previously received word from my brother concerning Rae School.

I am still interested in teaching at Rae, so would accept the position for the next academic year.

^{to know} I am now anxiously waiting when these duties will commence and would welcome all other instructions as soon as possible

Sincerely

(Miss) J. D. Allard.

Rae Indian Day School.

Dear Sir:

In the absence of His Excellency Bishop Trocellier, I acknowledge receipt of your communication of the 15th instant in connection with the possibility of obtaining electricity from our Mission at Fort Rae for the Indian Day School there.

We do not expect Bishop Trocellier back at Fort Smith before the middle of September; however copy of your letter is being forwarded to him at Fort Rae where he is scheduled to stop over upon returning from Coppermine late in August. Another copy is mailed also to Rev. Father N. Lapperrière who is Superior of our Mission at Fort Rae in order to inform him of your communication.

Yours very truly,

For Bishop J. Trocellier,

J. Serrurot

Dear Mr. Neary:

Re: purchasing of
electricity from R. C. Mission. The
mission would have been pleased to help
us out but unfortunately they are not
getting their new battery bank which
I counted on when I wrote to you. So that
leaves us with an available talkie projector
and no juice. But I still don't give
it up as a bad job. I included as a sugges-
tion which I think should for see service
to us and saving to your Department.

Suggested by the mission
that you provide a new battery bank for
their plant in exchange of electricity for
both school and house for the life of the batteries.
For your information, their plant is well
equipped with both diesel motor and
wind charger providing us with constant
light. The Fathers are quite capable of
taking good care of the batteries, their present

Indian Affairs (RG 10 Volume 6473, file 906-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

set is going on its eight year of continuous service. To my knowledge this is cheap electricity for out north. Keep in mind that we use lights all day for at least four full months and part time for two.

Our present set up depends on the wind and according to Mr. Buffin the lamps are used most of the time for both house and school. If you accept this deal it will cut off all lamp equipment, batteries for our plant, repairs and last but not least danger of fire.

Much to the contrary of needless talk against the R. C. Mission I find them all for the school and its success. That is why I suggest such a transaction which is for the good of the school.

The good attendance of the pupils has kept up in July and all is progressing slow but sure as expected. I am sending under separate cover samples of our needle craft which is an all Dogrib product made by young native girls. Would it be possible for you to arrange outside sale of such products. Their articles vary from novelty to practical such as slippers, gloves, moccasins, book marks etc. The work made by older girls and women is much better. Advise?

Included is a list of various articles which we would need if you decide on buying batteries for the mission. I would suggest your making the order and sending it by the H.B.C.-M.R.T. boat.

1 set of Delobeliter or other make of
110-DC battery bank which
consists of 54 - 2 cell batteries.
76 heavy duties are recommended.
1000 ft. of no. 8 outside wiring.
12 glass insulators no. 9.
12 Insulators & brackets (oak).
6 Porcelain strain insulators
6 Porcelain tubes.
2 Panel boards
1 dog size 15 standard fuses.
" " " 20 " "
2 desk lights
2 service entrance switches
1 dog. 50 watt bulbs for 110 volt D.C. plant.
" " 25 " " " "
" " 60 " " " "
6 pull chain sockets. Above articles
to go with a 110 volt D.C. plant.
I didn't write to Dr. Mulvinill in order to
save time you could contact him easier by
wire. Awaiting your answer I remain
yours very truly - Leon A. Altman.

Rae Indian Day School
July 28th, 48.

Mr. McKinnon,
Indian Day School Inspector,
Dept. of Indian's Affairs Branch,
Ottawa, Ontario.

Dear Mr. McKinnon:

Re: your proposal as to our salary and that of revised salary schedule on the June Bulletin. I was greatly disappointed when I read the report. Would you blame a person for not wanting to stay at such a salary? Why the ordinary labourer is well off compared to us. I presume it is the reason why my sister is not here yet. Needless to remind you that you will be facing difficulties to secure teachers in the future.

I have previously mentioned a few words to Mr. Neary regarding the janitor salary I am to get. I have paid out of my own funds for washing of school and attended to other duties myself. I wouldn't like to insist too much with Mr. Neary as I have seen corresponding steady for other requisitions. I therefore leave it to you to re-introduce it in a diplomatic way.

The boarding school question is proving itself of utmost importance if any success is to be expected. On the other hand a successful schooling for other young and old would be by far more fruitful than the latter. I hope I make myself clear, so far from what I can see of the pupils coming back from Resolution. The odd will keep up the healthy routine but as a whole they go back to the same habits. While if both young and old benefited of the teachings there would be greater possibilities of improvement. I don't know but it sure sounds like a loss of time to me to educate them and cure them of disease if any, and then send them back to sick and uneducated parents.

What about our school remodeling program? If we are to be two teachers would you send material and permission for partitioning in two? The Fathers are willing to give a hand sometimes this fall. I presume you have plans for the sliding partitions and could supply us the needed material. Or would the carpenters working on the Hay River contract come to remodel our school? We haven't as yet received windows and remodeling supplies, but there is still time if you transfer the goods on the H.B.C. - M.R.T. boat seeing that the N. T.

...2

Indian Affairs (RG 10 Volume 6473, file 906-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

have already made their one and only trip to Rae. The school dimensions are roughly 24 x 9 x 40ft. It would also be advisable to build a porch for wood supplies and wind break if we are to make two classrooms out of the building.

Your silence has greatly disappointed me with regards to our requisitions. Although I still expect more material by the H.B.C. boat. Received last year's stationery and various small articles plus game equipment and the books you promised me. I haven't as yet received the Look and See book. I got one from Yellowknife and my pupils are doing alright with it. The progress is as I expected it but I am not too disappointed with their work. Hoping that all will turn for a successful schooling for our little natives, I remain,

Yours very truly,

(sgd.) Leon A. Allard
Teacher Rae Indian Day School.

P. S. Would appreciate knowing what my future salary is to be?
Special allowance? Transportation???

Dear Miss Allard:

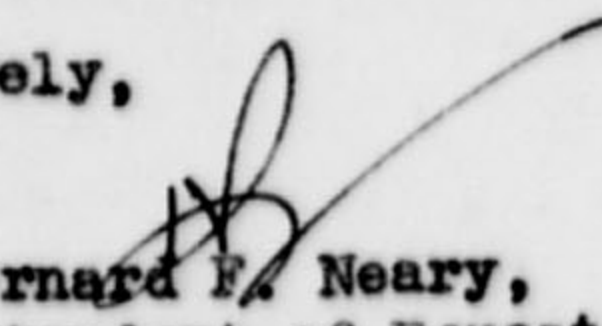

You have no doubt been wondering why we have not contacted you previously with regard to joining your brother at Fort Rae.

I have today sent your brother the following Army message:

"TEACHER HIRED NORMAN DAY SCHOOL UNABLE ACCEPT POSITION DUE ILLNESS FATHER -stop- HAVE WIRED INDIAN SUPERINTENDENT HUNTER SUGGESTING YOU TRANSFER NORMAN SCHOOL FOR WINTER -stop- COULD YOUR SISTER HANDLE RAE SCHOOL ALONE DURING WINTER MONTHS - stop- YOU CAN EXPECT WIRE MR HUNTER RE THIS PROPOSAL".

As soon as I hear from him and from Indian Superintendent Hunter regarding the feasibility of this transfer, I will write you immediately. In the meantime, I would suggest that you make your plans with regard to enrolling at the University as these can always be cancelled at a moment's notice.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education

Extract from Mr. Hunter's letter dated
September 15th. File 142-1-1.

I refer to your signal of September 11th, and to my signal of September 14th, regarding a teacher for the Fort Norman Indian Day School. I do not think it would be advisable to move Mr. Allard of Fort Rae, to Fort Norman. My reasons for this are; Mr. Allard has been at Fort Rae since April of this year and is now acquainted with the situation at that point. Your suggestion of Mr. Allard's sister as teacher at Fort Rae is advisable providing she acts as assistant to Mr. Allard but Fort Rae is too remote and rugged a settlement to expect any woman to carry on alone in. Further, I am of the opinion that the Fort Rae School requires the services of two teachers and the only means of accomplishing this would be to have brother and sister, or husband and wife.

Memorandum:CHIEF TREASURY OFFICERRe: Rae Indian Day School, No. 906

On April 19, 1948, we advised you of the appointment of Mr. L. Allard as teacher at the above Indian Day School. As this school was then being operated on a seasonal basis, his salary was at the rate of \$200.00 per month.

We have now been able to convert this to a full-time school, and Mr. Allard has thus become eligible for the northern living allowance (P.C. 57/4777 of October 20, 1948) *effective 1 Aug 1948,*

This means that he will revert, effective August 1, 1948, to his normal classification of a Grade I teacher at a salary of \$1,100.00 an academic year plus a northern living allowance of \$900.00 per year. Would you please make the necessary adjustments in his salary.

We will forward to you from the Hudson Bay Company the accounts for the food which has been shipped into Mr. Allard. These will be a charge monthly against a certain amount of his northern living allowance. I will discuss this matter further with you when these accounts are received.

FILE.....

OTTAWA

April 21, 1949.

Mr. ~~Shelan~~ Allard:Correspondence Course for
Teacher at Fort Rae (Mr. L.A. Allard):

It is my understanding that our teachers are required to pay the costs of any course they attend or take by mail. Either Mr. Allard or myself should be put right on this point.

I gather that Mr. Allard is under the impression that by completing this course he is qualifying for a salary increment. As he has no certificate and this course will not give him a teaching certificate, he should be set right on that point, too.

It appears that he proposes to spend 35 hours a week studying Grade XI and XII Academic subjects. This might leave little time for attention to lesson-preparation. As he is only 21 he might be well advised to slow down on correspondence work during the school term.

Col Mary

In December Mr Allard was paid \$125 in salary and \$75 for Northern Allowance. The deductions for the month were \$31.25 towards Retirement Fund, retro. active to August 1, 1948, the date he was made a full-time teacher from the seasonal position, and \$23.75 was deducted for Income tax. His ^{net} pay for the month was \$145, not \$140 as he states.

In January he was paid at \$125, and \$6.25 was deducted for the Retirement Fund and \$9.50 for Income Tax.

The Retirement Fund is deducted from all full-time employees at the rate of 5% of the gross salary. This money is kept in a fund and can be transferred towards Superannuation on appointment as a permanent full-time employee, or is refunded with interest on the employee leaving the service.

Mr. Allard will be able to ^{verify} ~~check~~ his deductions by checking out the cheque stubs that comes with every cheque he receives.

X

X

During the past month I have been able to visit the three Indian Day Schools in this Agency as well as the Fort Resolution Residential School. As this trip was made just after the opening of the school term I believe it worth while to report on my observations at each point.

On September 22nd, I proceeded to Fort Rae to check on progress of repairs to this building. This work is nearing completion and a very good job has been obtained. The entire building has been insulated and the second story as well. This gives a manual training room for future use. The first floor has been divided into two with all old partitions removed, giving two good class rooms. The dividing partition is movable and the school will now make a good hall. All walls of first floor have been lined with gyprock wallboard and painted. Part of the second story has been lined as well, but there was a shortage of material and this will be obtained next year when the work can be completed. This gives a very good fireproof interior and very durable.

The whole interior has been painted including the ceiling. The windows, which just arrived by last boat of the season, are being put in and when the teacher returns from his holidays, the building should be complete ready for school.

The two new oil stoves have arrived as well as fuel oil, all noon lunch materials and the teachers ration have been put into Fort Rae on the last boat.

I expect to pick up the carpenter by plane before the middle of October and will then pay all wages and incidentals and send an accounting to your office.

I have seen enormous progress at all the schools since last term and I believe we can look forward with confidence to the results that will be obtained from the new type of school in the Northwest Territories.

(Sgd.) I.E.Kirkby,
Supt. Indian Agencies.

November 7, 1949.

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Mr. Leon Allard, Fort Rae Indian Day School, Fort Rae, Northwest Territories, enquires of the possibility of obtaining a typewriter for personal and school use at a reduced rate through the Department. I don't think this is possible, however, you may have some definite information in this regard. He wishes to purchase the typewriter for his own personal property.

Yours very truly,

J. W. McKinnon

Dear Mr. McKinnon:

Rae Indian Day School

I have for answer your letter of
November 7th.

It is not possible to purchase a
typewriter under the conditions suggested by Mr.
Allard as naturally, this would lead to other
Departments being swamped with similar applications.

The only exception I know of in
cases like this is where the Department purchases a
sewing machine for an Indian girl graduating and who
has proved of outstanding ability in domestic science
work and who is about to be married.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

CONFIDENTIAL

For Departmental Use
ONLY

Box 117,
Yellowknife, N.W.T.,
November 8, 1949.

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Colonel Neary:

I have given some thought to the type of teacher required at Fort Rae and would recommend that Mr. Leon Allard be replaced by his sister, who is a qualified teacher.

Mr. Allard has done some fine work in getting the school established but it is regretted that he has not the ability to organize this school. He has no teacher training and thus he is not in a position to give this community the type of education required. About two weeks ago, he called at the office and inquired of the possibility of placing his sister, Miss Terry Allard, in charge of the school and having her father live with her; the father would attend to the fires and do caretaking services. Mr. Leon Allard inquired of this possibility on the understanding that he would be appointed to one of the schools operated by the Department elsewhere.

Miss Allard is a qualified teacher. She has a fine personality and a knowledge of the techniques of teaching; this is vital as far as teaching Indian children is concerned. Her ability as a teacher is reflected in her work. The children like her and learn quite well under her supervision. The parents are aware of this difference as they prefer their children to be taught by Miss Allard in preference to her brother.

I have had various complaints to the effect that Mr. Allard is becoming "bushed". I know that he is not liked as well as his sister. The Indians are of the opinion that their children learned far better under Miss Allard's supervision. I am also of the opinion that Mr. Allard might be more interested in organizing a trading company than a school as he inquired from me when I last visited Fort Rae of the possibility of his sister teaching in the school on the understanding that he be permitted to trade on the side and then teach during the seasonal periods. I squelched this idea by informing him that the Department would not grant him a trading license and that we were not interested

in having our teachers act as traders and teachers as the two professions did not go together.

I would recommend that Miss Allard be appointed teacher in charge of this school in June and that her father be engaged as Caretaker. Mr. Leon Allard might complete his High School courses and obtain teacher training on the understanding that he would receive every consideration at that time. As no action will be necessary regarding the appointment of a teacher to this school until June, I shall give Mr. Allard every opportunity to measure up to our expectations in the meantime. I shall submit a report on his work sometime in June as he may show considerable improvement in the intervening time.

Yours very truly,

J.W. McKinnon,
Superintendent of Education,
Mackenzie District, N.W.T.

RAE Indian Day School.

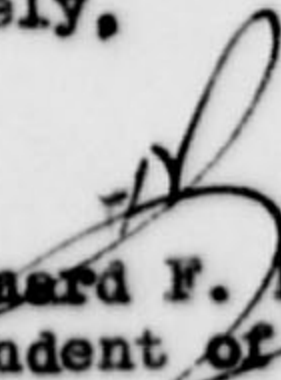

Dear Mr. McKinnon:

I have for answer your letter of November 8
and I agree entirely with you concerning Mr. Allard.

I have been in correspondence with Miss Allard
and offered her a school in Manitoba but did not receive any reply.
I do not know whether she has returned to university or not.

I note your recommendation concerning the
employment of her father as janitor. We would allow an amount
of \$30.00 per month to cover his wages. As we will be providing
him with a free house, fuel and light, it will not be possible
to pay him more than this without establishing a position.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

[Handwritten signature]
H.A. Hoev Esq;
Director,
Indian Affairs Branch,
Dept. Mines And Resources.
Booth Building Ottawa.

Dear Sir:

I have just returned from the north to the City of Edmonton. I prolong my stay at Rae waiting to hear from you. I have your wire of the eighth of August saying that option regards the Building at Rae was being Air Mailed that day. I have never received the letter as yet. Wish you would look up and see what has happened to it or mail another copy of the Option to me here at Edmonton, Alta.

Just before I left Rae your school supplies Arrived. They were the Desks, Books, Black board and Naptha gas for the lights. I turned the Keys over To Allen Dick, The N.C.O. in charge Of the R.C.M. Police at Rae. There are six glass type lighting Batterys in the house use for Light. These will freeze and burst as soon as the weather gets cold up there so I gave him instructions to removed them as soon as the weather got cold if there was no one in the house. It is just about Freezing up in Rae now and I dont presume you will be able to get any one in there before it does. This means that you wont be able to get any one in there before middle of November. It will be that long before the ice will be safe for planes to land on.

Hoping to be Favoured with a reply at an early date, I Am,

Yours Truly,

[Handwritten signature: George Puffum]

Ottawa, October 17, 1947.

Dear Mr. Buffum:-

I was very pleased to receive your letter of September 26th and am having typed another copy of the Option.

We have been having considerable difficulty locating a teacher for this school. The one whom we originally engaged was forced to change her plans in the last minute. I was pleased to hear that the school supplies had arrived and of the care which you have taken of them.

We are now negotiating with another teacher whom we hope will take this position.

You can expect the arrival of the Option in a few days.

Yours sincerely,

Bernard F. Neary
Supt. of Welfare & Training.

DRAFT

I, George Buffum, of RAE, Northwest Territories,
hereby agree to sell to the Indian Affairs Branch of the Department
of Mines and Resources the following lands and buildings which I
own at RAE, N. W. T.:

- (a) Store (40 x 28)
(b) Dwelling house (36 x 22)
(c) Oil and ice house
(d) Store house (24 x 16)

the log shacks located on my property.

- (e) ^{4.44} ~~32~~ acres of land on the water front upon which the above
buildings are located.

*Lot 3, Settlement of
Rae, N.W.T.*

~~The description of this land is as follows:~~

never used

The residence contains the following:-

- | | | |
|------------------------|-----------------------|------------------|
| 1 radio | 8 dining room chairs, | 1 Winnipeg couch |
| 2 stoves | 2 large beds | |
| 1 ice box | 2 cots | |
| 1 washing machine | | |
| 1 12-volt wind charger | | |

storm doors and windows, and a full line of dishes and kitchen
utensils.

The floors are covered with linoleum and rugs.

I have received the sum of five dollars from Dr. J.P. Harvey,
Indian Agent, as an option to purchase the above property for the
sum of ten thousand dollars (\$10,000.00) on or before 1 May, 1948.

Dear Mr. Buffum:

We have just completed a search of your title on the Rae property at the Registry Office for the Lands Title Registration Division of the Northwest Territories. It has been found to be clear and therefore I am sending you a draft copy of the option for the purchase of this property.

It will be necessary for the Indian Affairs Branch to obtain an Order-in-Council before I can send you the official option for signature. As soon as this Order-in-Council is obtained, I will write you again. However, I thought that you would like to have an opportunity of seeing the draft option that is proposed. You can expect to hear from me again in the near future.

Sincerely yours,

Bernard F. Neary,
Supt. of Welfare & Training.

Bernard F. Neary Esq;
Indian Affairs Branch,
Ottawa, Canada.

Dear Sir:

Your Airmail letter of 8th, inst. to hand along with a draft of option that is proposed. In regards of the option it some what different than agreed on with your inspector Mr. Mac Kinnon last summer. He stated that you had no fund available at present for purchase of the property but wanted to rent same from first of September 1947 until the first of May 1948. The rental to be at the rate of fifty Dollars per month. It was understood that you were very anxious of getting this property and that you had the option of purchasing until the first of May 1948.

I note by the ~~by-the~~ draft of the option you sent there is no mention of the rental instead a payment of seventy five Dollars is proposed to secure the option. This payment does not Half pay the fire insurance carried on the property at the present time. I also note you state in the option that it expires on the first of June 1948, instead of May first 1948.

Here is a Radiogram received from A.P. Harvey Aklavic dated August 8th, 1947.

George Buffum, Fort Rae.

Indian Affairs Branch advises will rent teachers building recommend by inspector MacKinnon for school and teachers residence at fifty dollars per month stop Lay forwarded Air Mail option to purchase May first 1948 understand you will sell fifty cords of wood at sight please advise if rental O.K. and what price for wood stop advise regards option as soon as you receive it.

A.P. Harvey

I wired Mr. Harvey that the this proposition of rentals O.K. and that the wood would be Five hundred dollars. But the option He mentioned in the wire I never did receive and this is the reason I wrote direct to Ottawa in September. Wish you would please let me know the reason of the change of option from the above term stated by Mr. Harvey.

Sincerely yours,

George Buffum

Bernard F. Neary Esq;
Indian Affairs Branch.
Ottawa Canada.

Dear Sir:

Yours of 15th, Inst. which clarifies the situation regards rental of property. As to the expiry date of the option if June 1, would suite your plan better than May 1, It would be quite allright with me.

In relation to the option in part. It states I agree to sell household effects and all contents presently with in the said buildings. I have store upstairs in the warehouses some personal effects along with equitment that does not go along with the build-ings..This is not anything that belong to the building or has been used in their connection. It consists of clothing, tents, camp stoves, tarps, ropes and blocks and fishing equitment. In the house everything in the way of equitment is there except linen and bedding which you will have to notify taking over.

I also have a stock of paint for the building left in the store and warehouse. It consists of twenty gallons of roof paint and around eight gallons of outside white and inside paint for the house. This paint was purchased several years ago at wholesale prices and therefore is some what cheaper than at present. I presume you will be wanting this paint if you purchase the buildings. They are in all good state of repair except the inside of the house there are three rooms that could do with a coat of paint, the living room, dinning room and one bed room they could do with a coat of paint to brighten them up.

This equitment I have left in the buildings dont think will be in your way as there is all the lower part of these warehouse to store your supplies in. I am planning going north to Rae in the spring and will remove this stuff as soon as you purchase the buildings

I would like to draw your attention to the tranportation into the north this coming season. Up until the present there has been two major companys handling freight but the coming season there will be only one, The Northern Transortation Co. No doubt they will have all the freight they can handle and perhaps more if they should have a bad season. So I would advise you to make arrangements for any freight you have at an early date so as to be assured of delivery.

Yours sincerely,

George Buffum

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

The undersigned has the honour to report:

(740)

THAT there are some 740 Indians living at Rae in the Northwest Territories of whom some 143 are of school age;

THAT the Indian Affairs Branch is preparing to conduct a day school in the trading post owned by George C. Buffum;

THAT the said George C. Buffum is willing to sell the said property for \$10,000.00;

THAT the property consists of four and forty-four hundredths acres of land, one store which would be suitable for classrooms, one fully furnished dwelling house which would be suitable for a teacherage, one oil and ice house and one storehouse, all in good condition;

THAT the undersigned has agreed and decided that due to present conditions, it is expedient to acquire the property above mentioned at the price offered rather than to erect a new school building.

It is, therefore, recommended that the undersigned be and is hereby authorized to enter now into an option agreement with George C. Buffum and to pay for the said property a sum not to exceed \$10,000.00 together with all costs necessarily incurred to make title thereto, the moneys to be provided from the Education Vote of the Indian Affairs Branch of the Department of Mines and Resources for the fiscal year 1948-49.

It is further recommended that
~~Respectfully submitted,~~

the sum of seventy the undersigned be authorized to pay the sum of seventy five dollars (\$75.00) to the vendor as consideration for the giving of this option and that this sum shall upon the completion of this agreement be allowed as per
 Minister of Mines and Resources.

OTTAWA 4th November, 1947.

MEMORANDUM;

Mr. Neary.

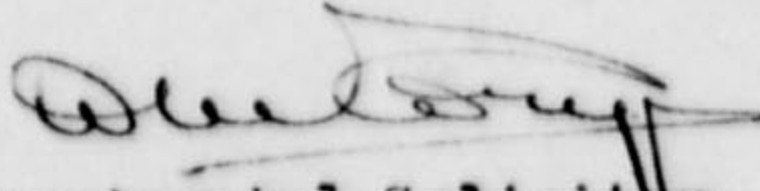

Re - Option and purchase of lot 3,
Rae Settlement, N.W.T. Geo. C. Buffum.

In accordance with your request, herewith please find draft form of option which I think will meet your requirements herein. My understanding is that the Crown is to purchase the above lot for \$10,000.00. This sale is to include all buildings, household effects, contents and fixtures in store.

This property, being located in the Northwest Territories, it will not be necessary to employ an agent of the Minister of Justice to complete this transaction. As you are aware, the Registry Office for the Land Titles Registration Division of the Northwest Territories is a function of this office. I have searched the title and find it to be clear. When the time comes to purchase we can put forward the enabling Report to Council and when the authority is obtained from Council to purchase, the transfer from George C. Buffum to the Crown, in right of Canada, will be prepared in this office. It can then be submitted through you to Mr. Buffum for execution. It will be recorded here and the prescribed fees will have to be paid from your appropriation.

It will be noted that the option is made for a six-month period from the 1st day December this year. I understand this will be satisfactory to all concerned.

Your attention is directed to the second last paragraph of the form of option. It will be necessary to accept by letter the option given by the vendor.

Departmental Solicitor.

EX'D.
M

Ottawa, November 27, 1947.

Memorandum:DEPUTY MINISTERRAE INDIAN DAY SCHOOL

You will recall that at a meeting of the Subcommittee on Education in the Northwest Territories we discussed the proposal to purchase a trading post to be established as a day school at Rae. It has been recommended, both by Inspector of Schools McKinnon and by the Chief of our Reserves Division, Mr. McCrimmon, that we purchase this property. Both of these officials have inspected the property and in fact Mr. McCrimmon has stayed at the trader's house. The property consists of the following:

- (a) Store (40 x 28)
- (b) Dwelling house (36 x 22)
- (c) Oil and ice house
- (d) Store-house (24 x 16)
- (e) The log shacks located in the property
- (f) 4.44 acres of land on the water front upon which the above buildings are located, Lot 3, Settlement of Rae, N.W.T.

The house is furnished with a radio, two stoves, an ice box, a washing machine, 8 dining room chairs, 2 large beds, 2 cots, a Winnipeg couch, a 12 volt wind charger, storm doors and windows and a full line of dishes and kitchen utensils.

Therefore it is felt that the purchase of this

property for \$10,000.00 is a good investment, especially in view of the fact that we could not build a day school there for less than \$40,000.00. At the present time we propose to rent this property from Mr. Buffum so that we can operate a school in it during the winter months. Our Superintendent of Education is now making final negotiations with a teacher who is willing to go in to Rae for this purpose.

We do not have the funds available in our present estimates for the purchase of this building and therefore the Departmental Solicitor has prepared a draft option or purchase agreement, as attached. I would recommend that this be approved by the Minister as a submission for an Order-in-Council.

Ottawa, November 15, 1947.

Dear Sir:

I have for answer your letter of November 12th.

The rental of your building at \$50.00 per month is a separate agreement from the option to purchase. I regret this misunderstanding and wish to assure you that the original plan for renting your building until we can purchase it still stands.

We also could be prepared to change the expiry date of the option to May 1, 1948.

It is suggested that you submit an account for the rental of your property for the months of September and October at the rate of \$50.00 per month. We can then arrange to pay this account separately.

I hope that this clarifies the situation and will expect to hear from you in the near future.

Yours sincerely,

Bernard F. Neary,
Supt. of Welfare & Training.

Mr. George Buffum,
11136- 67th Street,

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the 8 DECEMBER 1947

PRIVY COUNCIL

The Committee of the Privy Council
have had before them a report, dated 27th November,
1947, from the Minister of Mines and Resources,
representing:

That there are some 740 Indians living
at Rae in the Northwest Territories of whom some
143 are of school age;

That the Indian Affairs Branch is
preparing to conduct a day school in the trading
post owned by George C. Buffum;

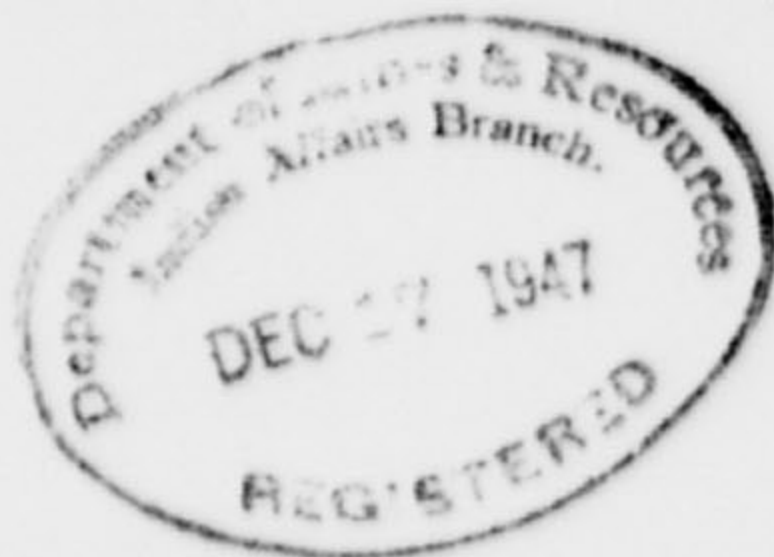

That the said George C. Buffum is willing
to sell the said property for ten thousand dollars
(\$10,000.00);

That the property consists of four and
forty-four hundredths acres of land, one store which
would be suitable for classrooms, one fully furnished
dwelling house which would be suitable for a
teacherage, one oil and ice house and one store-
house, all in good condition;

That the Minister has agreed and decided
that due to present conditions, it is expedient to
acquire the property above mentioned at the price
offered rather than to erect a new school building;

The Committee, on the recommendation
of the Minister of Mines and Resources, advise:

1. That authority be granted to enter now into an
option agreement with George C. Buffum and to pay
for the said property a sum not to exceed \$10,000.00
together with all costs necessarily incurred to make
title thereto, the moneys to be provided from the
Education Vote of the Indian Affairs Branch of the
Department of Mines and Resources for the fiscal
year 1948-49; and
2. To pay the sum of seventy-five dollars (\$75.00)
to the vendor as consideration for the giving of
this option, this sum upon the completion of this
agreement to be allowed as part payment of the
purchase money. This sum of seventy-five dollars
(\$75.00) to be provided from Vote 181 of the 1947-48
Estimates of the Department of Mines and Resources.

A. P. H. H. H.
Clerk of the Privy Council.

RAE INDIAN DAY SCHOOL

Dear Sir:

The necessary authority has now been granted by Order-in-Council to enter into the option agreement previously sent you. Please find attached:

- (a) Option Agreement for the purchase of your property at the Settlement of Rae in the Northwest Territories.
- (b) Cheque for seventy-five dollars (\$75.00) made to you as vendor as consideration for the giving of this option, this sum upon completion of this agreement to be allowed as part payment of the purchase money.

We agree to the removal of the personal effects mentioned in your letter of November 18. With regard to the paint, would you please quote the price for which you would sell this.

When the agreement has been signed by you, would you please return all copies for signature by our Minister.

Ottawa Ont.

Dear Sir;

Your letter to hand with Option agreement and check for seventy-five dollars enclosed. I have signed the Option and returning the three copys.

Regards the paint on hand at Rae for the buildings. There is Twenty gallons of roof paint made up of ten gallons shingle paint and ten gallons rubberroid paint. The price of this is two per gallon. There also is eight gallons of outside white paint inside paint, floor paint and varnish. The price of this is four dollars per gallon.

Sorry to hear you are unable to get a teacher for the school. The ideal set up would be a married couple for Rae. The man could be Indian agent while his wife could teach. Or better still if the man were a doctor.

Yours truly,

George Buffum.

Agreement made this

day of November, 1947,

BETWEEN

His Majesty the King, in right of Canada,
as represented by the Minister of Mines
and Resources, hereinafter called the
"purchaser"

OF THE ONE PART

and

George C. Buffum,

hereinafter called the "vendor"

OF THE OTHER PART.

WHEREAS the vendor alleges that he is the owner
of the four and forty-four hundredths acres of land in the
Settlement of Rae, in the Northwest Territories.

NOW THIS AGREEMENT WITNESSETH that the vendor in
consideration of the sum of Seventy-five Dollars (\$75.00), the
receipt whereof is hereby acknowledged, hereby offers and agrees
to sell to the purchaser, his successors or assigns, free from
encumbrances, the said lands together with all buildings thereon,
household effects and all contents presently within the said
buildings and all fixtures in the building at the date of execution
of this agreement used as a store, for the sum of Ten Thousand
Dollars (\$10,000.00) at any time before the 1st day of May, A.D.
1948, this offer to be irrevocable until the said last mentioned
date. This offer, if accepted before the said date, shall there-
upon constitute a binding contract of purchase and sale; all
adjustments to be made to date of transfer; the purchaser to
examine the title at his own expense, the vendor not to be bound to
produce or show any evidences of except such as are in his
possession. The purchaser to make objections and requisitions
within thirty days after acceptance and title to be deemed
accepted except as to any objection or requisition made within
that time, and if any objection to title be made which the vendor
is unable or unwilling to remove he may rescind this agreement.

The sum of Seventy-five Dollars (\$75.00) paid
by the purchaser to the vendor as consideration for the giving of
this option shall upon the completion of this agreement be
allowed as part payment of the purchase money.

This offer may be accepted by a letter delivered
to the vendor, or mailed postage prepaid and registered,
addressed to the vendor at

111 36 6/14 St

EDMONTON ALTA

Time shall be the essence of this contract and
this agreement shall ensure to the benefit of and be binding also
on the heirs, successors and assigns of His Majesty, and the heirs,
executors, administrators and assigns of the vendor,

In witness whereof the parties hereto have
hereunto set their hands and seals the day and year first above
written.

Rae Indian Day School.

Mr. George Buffum, now residing at 11136 - 67th Street, Edmonton, Alberta, has entered into an option contract with the Department for the sale of his trading post and other buildings for use as an Indian day school. In correspondence with the Department, he advised that he has a stock of paint for the building, left in the store and warehouse. He advised that there are 20 gallons of roof paint (10 gal. of shingle and 10 gal. of rubberoid paint). We have purchased this at \$2.00 per gallon. There are also 8 gallons of outside white paint, inside paint, floor paint and varnish. We have purchased this at \$4.00 per gallon.

Please find attached a purchase order covering the sale of these goods. Would you please take possession of these supplies and submit a voucher as per the purchase order attached.

P. C. 5011

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 8 DECEMBER, 1947.

The Committee of the Privy Council have had before them a report, dated 27th November, 1947, from the Minister of Mines and Resources, representing:

That there are some 740 Indians living at Rae in the Northwest Territories of whom some 143 are of school age;

That the Indian Affairs Branch is preparing to conduct a day school in the trading post owned by George C. Buffum;

That the said George C. Buffum is willing to sell the said property for ten thousand dollars (\$10,000.00);

That the property consists of four and forty-four hundredths acres of land, one store which would be suitable for classrooms, one fully furnished dwelling house which would be suitable for a teacherage, one oil and ice house and one storehouse, all in good condition;

That the Minister has agreed and decided that due to present conditions, it is expedient to acquire the property above mentioned at the price offered rather than to erect a new school building;

The Committee, on the recommendation of the Minister of Mines and Resources, advise:

1. That authority be granted to enter now into an option agreement with George C. Buffum and to pay for the said property a sum not to exceed \$10,000.00 together with all costs necessarily incurred to make title thereto, the moneys to be provided from the Education Vote of the Indian Affairs Branch of the Department of Mines and Resources for the fiscal year 1948-49; and
2. To pay the sum of seventy-five dollars (\$75.00) to the vendor as consideration for the giving of this option, this sum upon the completion of this agreement to be allowed as part payment of the purchase money. This sum of seventy-five dollars (\$75.00) to be provided from Vote 181 of the 1947-48 Estimates of the Department of Mines and Resources.

A. D. P. Heeney,

Clerk of the Privy Council.

The Honourable,
the Minister of Mines and Resources.

MEMORANDUM:

Mr. Neary.

Re - Option and purchase of Lot 3,
Rae Settlement, N.W.T. George C. Buffum.

I have your memorandum of the 6th instant, your file 139-5-5 (E), forwarding copy of Order in Council authorizing the purchase from George C. Buffum of the property and chattels located on Lot 3, Rae Settlement.

As requested, attached is a suggested transfer from this man to the Crown which should be submitted to Mr. W. Nason, Solicitor, Lands and Development Services Branch, who is now Registrar of Land Titles. I am forwarding a copy of this memorandum to Mr. Nason as all the files relating to the Land Titles Office are now in his possession. I have also sent him a copy of the draft transfer.

It is suggested that you get in touch with Mr. Nason as he may wish to give his observations with regard to this proposed transfer and the suggested form.

Returned herewith are the two copies of Order in Council P.C. 5011 of the 8th December, 1947, authorizing the purchase of the property in question.

[Signature]
Departmental Solicitor.

Dear Mr. Nason:

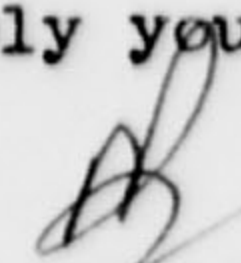

Rae Indian Day School.

It is understood that you are now Registrar of Land Titles for the Northwest Territories.

Please find attached a copy of P.C. 5011 dated 8th December, 1947, with regard to the purchase from George C. Buffum of the property and chattles located on lot 3, Rae settlement.

It is understood from the Departmental Solicitor that you have received a copy of a draft transfer which he prepared. Will it now be in order for us to submit this transfer to Mr. Buffum for execution?

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

CANADA
DEPARTMENT
OF

MINES AND RESOURCES
LANDS, PARKS AND FORESTS BRANCH

CC to Mr. R.A. Hoey.
Director, Indian Affairs,
Branch - Ottawa, Ont.

Yellowknife, N.W.T.,
April 26th -- 1948.

Mr. R.A. Gibson, Deputy Commissioner,
Bureau of N.W.T. & Yukon Affairs, OTTAWA, Canada.

Dear Sir:

Re: School - Fort Rae, Northwest Territories.

Enclosed herewith are three copies of a Requisition given to me by Mr. Allard, teacher at Fort Rae School.

As this school is mostly Indian, the provision of these supplies is the responsibility of the Indian Affairs Branch, so I would be very pleased if the additional copy of this Requisition were forwarded to the Indian Affairs Branch, for their attention. Indian Agent, Hunter, I understand, is submitting a similar Requisition, so it will be necessary to check both Requisitions in order to avoid any duplication of supplies.

As the school at Rae has just been opened, you will note that the amount of supplies needed will be considerably more than will be required next year. Mr. Lamberton and Colonel Neary will be in a position to add to this requisition, all the necessary supplies which will be needed during the coming year.

When school opened, there were seventeen children in attendance, and information available at Rae indicates that the pupilage will begin to increase about June 15th, and that there will be from fifty to one hundred and thirty children of school age in the settlement during a seasonal period of from four to five months depending upon fur conditions.

Mr. Allard, the teacher, is very anxious to receive a full line of hand tools and sufficient soft wood for manual training purposes. After seeing the fine woodwork produced by the Grade 1 Eskimo children at Fort Brabant, I am convinced that there is great value in this type of training and would recommend the purchase of all necessary supplies in this connection.

gum
As the children at Rae have had no schooling, I suggest that all children be X-rayed at the earliest possible date. There is a hospital in this settlement, with equipment available, so I am of the opinion that this can be attended to quite easily.

As there is a regular monthly mail service between Yellowknife and Rae, and as Rae is the largest Indian Settlement in the Northwest Territories, I recommend that a delco plant and projector be provided for this school in order that the educational films may be shown to the child and adult population of this community.

All in the north country with whom I have conversed are of the opinion that visual education - particularly the showing of health films - is one of the greatest elevating factors in bettering the conditions of the people. So if one large delco

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

- 2 -

plant were installed, it could be used to meet the needs of the Hudson's Bay Company, the Royal Canadian Mounted Police, and the school; and at the same time, by avoiding a duplication of this service, a greater measure of economy would be secured and the fire hazard would be reduced. It is most important that the fire extinguishers requisitioned for, be provided at the earliest possible date, as none are available at the present time.

Should the government purchase the Buffum property this way, it will be necessary to have a carpenter recut a full length of windows on one side of the class-rooms, as there is need of more light. One of the Brothers in the Roman Catholic Mission is trained in carpentry, and I understand he would be willing to remodel the class-room, installing windows and black-boards.

Mr. Allard appears to be a very capable young man, and informed me he would be willing to remain in the settlement for several years, provided he was given all necessary assistance and equipment. I assured him that the Government of Canada is vitally interested in the welfare of its people; and in this connection I plan to interview his sister, a qualified teacher, in order to determine her suitability as an additional teacher for the Fort Rae community.

While at Rae, Mr. Allard said that it was going to cost him a great deal to live at Rae, and wondered if the Indian Affairs Branch would allow him \$50.00 a month for caretaking services, in connection with the school. As such, he would be responsible for sweeping, attending to the fires, and the bringing in of water, and any other incidental activities in connection with the care of the school property. I suggest that the Indian Affairs Branch grant him this allowance in view of the high cost of living, and in the interests of fire prevention, as I do not think that children should be entrusted with attending of school fires. At Fort MacPherson, where the children had been attending to the fires, I noticed the floors splattered with oil, which doubtless creates a fire hazard.

Kindly consider this in the nature of an interim report, as I will be submitting at a later date, a complete report concerning each school.

Yours very truly,

J.W. McKinnon,
Inspector of Schools.

NORTH WEST TERRITORIES

Room 801 Norlite Bldg., Ottawa, Ont.,
May 3, 1948.

Colonel B.F. Neary,
Superintendent of Indian Education,
Indian Affairs Branch,
Booth Bldg.,
OTTAWA, Ont.

Dear Colonel Neary:

Re: Rae Indian Day School

I have your letter of May 1st. The Form of Transfer which Mr. Cory sent you on April 28th last appears to be in order except that I would delete the following words therefrom "together with all buildings thereon and chattels therein".

The description of the land I take it you have. I think in addition to the Affidavit of Execution there should be an affidavit by the Transferor as follows:

CANADA)

NORTHWEST TERRITORIES)

TO WIT:)

I, George C. Buffam of Rae Settlement in the Northwest Territories, (occupation) make oath and say:

1. That I am the within named Transferor and I am of the full age of twenty-one years.
2. That I am the registered owner of the within described lands.

Dear Sir:

Please find enclosed Statements for rent of
buildings during the months of March And April.

Regard these buildings I presume that you are
fully aware that you had an option to buy them up until
the first of May. Since this date has gone by and I have
not heard from you I presume that you are not further
interested in the purchase of these buildings. Wish you
would drop a line by return airmail and let me know if
you have any further interest in purchasing or not, so
as I can make other arrangements.

Yours sincerely,

George Buffum

Col. B.F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario

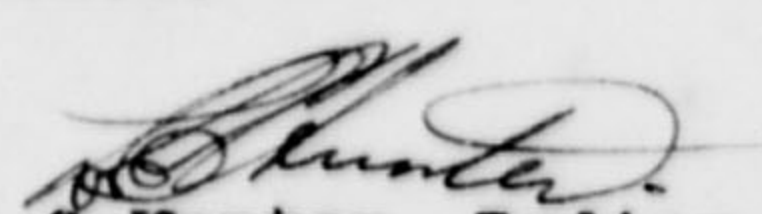

Re; Requisition, Fort Rae Day School.
For School year 1948/49.

I am submitting herewith the annual requisition requirements for the Fort Rae Indian Day School for the school year 1948-49.

The articles listed on this requisition were taken from a list of requirements as drawn up by Mr. J.W. MacKinnon, Inspector of Schools for the N.W.T. and are being submitted at his request.

It may be mentioned that the only Transportation Company serving the settlement of Ft. Rae, is the Hudson's Bay Transport Company. I believe that this Company will only carry freight for other than Hudson's Bay Company Posts, by special request, I would therefore suggest that arrangements be made with this Company to handle the Fort Rae school requirements.

L.C. Hunter, Indian Agent.

Mr. L.C. Hunter, Superintendent,
Indian Agency, Fort Norman, N.W.T.

With reference to your requisitions of April 21st for supplies for the Fort Rae School, the Department is not prepared to supply the gasoline lighting plant and batteries and voltage rectifier nor the chestnut canoe with outboard motor. Athletic equipment will be shipped from Ottawa.

We are supplying the items requested on page one of the requisition, with the exception of the foam fire extinguishers and Pyrene fire extinguishers.

We are not supplying the liquid soap and container but we are ordering a supply of lifebuoy soap.

The other articles which we usually supply will be ordered from the Government Stationery Office.

Bernard E. Neary
Superintendent of Education.

139-5-5
Extract from Annual Report on Fort Rae on the Fort
Resolution Northwest Territories Agency, dated 1947-48.

PA on
Rae 5

Fort Rae:

There are 708 Indians in the Fort Rae Band; of these, 660 were present for annuity payment last summer. Others had wandered into the Bear Lake regions where they probably will remain.

The Fort Rae Indians are the most primitive in the agency. They have absolutely no conception of the state of affairs anywhere except in their own small area. Very few have any education, very few speak English. The Indians live by hunting and trapping, there is very little opportunity for employment in other lines. The Hudson's Bay Post Manager figures the average income to be \$300.00 a year. Fishing is satisfactory and the caribou are plentiful in season.

When the white fox was valuable these people trapped far out in the Barrens and were quite wealthy. But now they are poor, dressed in ragged clothing and at times, particularly in summer, are really hungry. They no longer dry considerable quantities of fish and caribou and for the most part, wear store-bought clothing and live in tents.

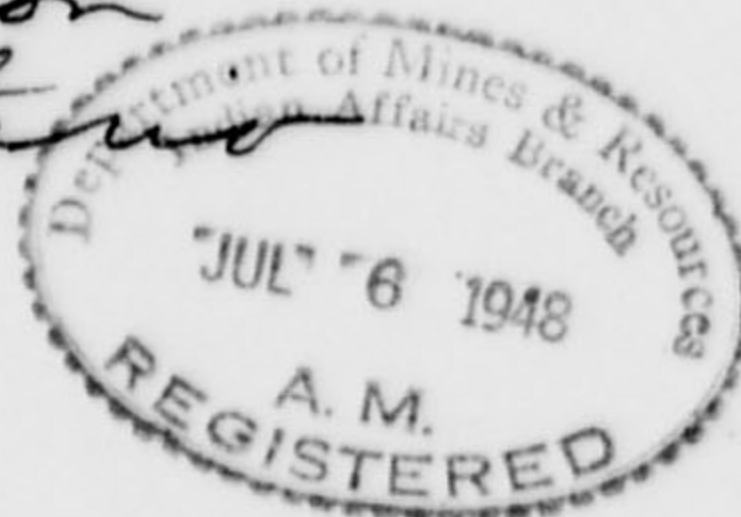

Since this is the largest band of Indians in the Territories I think that plans for the betterment of the Indians should include the immediate construction of a Residential school at Fort Rae.

Mr. B. F. Neary
Supt. of Education
Ottawa Ontario

Dear Mr. Neary:

I am in receipt of an invoice with regards to hardware goods and a teachers desk, which is to be sent through the Northern Transportation.

I take it for granted that this is only half of what I am to get. However seeing that every minute counts in order to have other goods delivered I will grant myself permission to send you a little reminder.

The following articles I consider of utmost importance for the success of the school.

- ~~Supplied~~
- ① Same equipment we have none. (of any kind) In and out doors.
 - ② School Bell. Big enough so as to be heard 1/2 mile around.

, July 19, 1948.

Dear Sir:

I have received a copy of your letter of June 22nd addressed to Mr. R.A. Gibson, Deputy Commissioner, Northwest Territories Administration, concerning the provision of food supplies for our school teachers in the North.

I have written to two of our teachers concerning the provision of these supplies and now wish to place an order for the attached list of rations for:

Mr. L. Allard,
Indian Day School,
Rae, Northwest Territories.

Would you please supply this list of rations to Mr. Allard and forward the account here. We will make arrangements to deduct an amount each month from Mr. Allard's living allowance in order to recover the cost of providing these food supplies.

The second teacher mentioned above is Miss Hinds at Fort McPherson. I understand that she has made arrangements with your store in Edmonton to provide her with the rations which she will be requiring. It would be appreciated if you could make every effort to have Mr. Allard's supplies forwarded to him on the last boat north.

Yours truly,

Bernard F. Neary,
Supt. of Indian Education.

Dear Mr. Neary:

Enclosed is a list which I have completed to the best of my capability. I would suggest your purchasing these and some for other articles or requisition and sending them through the M. R. T.'s H.B.C. boat no later than the beginning of August. However you are in a better position to find by ^{to} contacting the H.B. Co. for more accurate details.

I am sorry to inform you that your said letter has not as yet reached me and I don't suppose it will until the 1st week in August as we get mail once a month. It will then be too late to send my list. According to your last wire I was to wait the arrival of your letter but in view of circumstances I am unable to follow orders. I will however contact you by radiogram if

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

Dear Mr. Allard:

Rae Indian Day School.

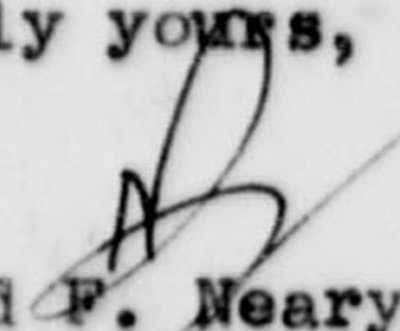

Please find attached two self-explanatory letters dealing with the following points raised by you in recent correspondence:

- (1) Provision of your food supplies from the Hudson's Bay Company.
- (2) Provision of Electricity from the R.C. Mission at Fort Rae.

In view of the fact that the Hudson's Bay Company is handling your ration delivery, it is presumed that they will be delivered on the M.R.T. boats.

I can not as yet advise you regarding the transportation charges on your trunk. However, I would like to have you send me a receipted bill covering the charges. Payment of these transportation charges are still under consideration by a sub-committee on Education and the Northwest Territories Council.

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

Fort Norman, N.W.T.
July 14th, 1948.

Col. B.F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ont.

Re; Fort Rae, School Supplies.

Referring to your wireless message
of July 9th, regarding supplies for the Fort Rae,
Indian Day school, I am forwarding herewith the
requisitions as suggested.

In your wireless message it is noted
that the Department are prepared to supply Condensed
milk. It will be noted that this has been included
on the requisition but I may suggest that I believe
that Dry milk would be more suitable for this purpose.
Should you concur with my opinion I would ask that
the requisition be changed to 10 (ten) drums of
Trumilk instead of the Condensed milk

At the present time the teacher of
the Ft. Rae School is of the opinion that there will
be an average attendance of fifty pupils for the
coming 12 months.

L.C. Hunter,
Superintendent,
Indian Agency.

Fort Norman, N. W. T.
September 15, 1948.

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Ottawa, Ontario.

Re: Fort Rae Indian Day School.

I have recently returned from visiting the Fort Rae Indian Day School and have found the majority of the supplies, as ordered for this school, have not yet arrived. As the navigation season to this point has expired for this season arrangements will necessarily have to be made for the transportation of these supplies from Yellowknife to Fort Rae.

While in Yellowknife I checked with the transportation companies and found that these supplies were in storage at Yellowknife. I was assured that transportation of these supplies would be made should any boat be going within the vicinity of Fort Rae, and further, if this can not be done I will be notified by these companies, which will necessitate the hiring of aircraft by this department.

The supplies which have not arrived at Fort Rae include food for the teachers and rations for the pupils mid-day meal. As can be seen these supplies are definitely necessary for the carrying on of this school, therefore I would request your authority to make arrangements for the hire of aircraft to transport these supplies should they not arrive by boat this season. It may further be stated the Northwest Territories Administration have aircraft at their disposal in this locality and it may be possible to use same for this purpose.

I have checked the other supplies and am vouchering the accounts immediately.

L. C. Hunter, Indian Superintendent.

COPY.

Rae Indian Day School,
Rae, N.W.T.
Nov. 27th, 1948.

Mr. L.C. Hunter,
Fort Norman.

Dear Mr. Hunter.

I am sending under separate cover signed waybill for freight received at Yellowknife. I presume these will be forwarded to you for payment. You will notice one article, # 36/25 has been checked short. As I haven't received invoices from the H.B.Co. I am not able to describe the contents. I am fairly sure that these must be cheese and honey the only articles that I didn't get. Are you in a position to claim these parcels? I have marked it short and signed it thus on the waybill.

You will also receive bills from Mr. Wilson H.B.C. Rae, for transportation of freight from Yellowknife. The high rate is due to the shortage of freight to make it a worthwhile trip. However it is cheaper than airfreight and the possibility of freezing the supplies has been avoided. In view of the high rate through no fault of mine but that of a Departmental delay I suggest that the overcharge be paid by the Department.

Included is a description of the school. By doing this I aim at furnishing all the necessary details so that you can decide for yourself or let Ottawa decide what the construction programme is to be. I would like to point out the necessity of a ventilation system, windows and complete reconstruction of the interior. I now have two stoves in the classroom and it isn't any too warm.

Here is my suggestions. :-

- (1) That at least twelve windows be added.
- (2) That ten Test or other similar material be used inside.
- (3) That a proper ventilation system be introduced,.
- (4) That some heating system or material be added to keep the floor warm.
- (5) That a heated porch be added large enough to be used as a cloak room.
- (6) That a sliding partition be built to separate the two classrooms.
- (7) That the upstairs be finished and rebuilt into a convenient kitchenet, washroom, lunchroom and library.

Although I don't recommend such high expenditures for two such small classrooms which would never accomodate the summer attendance I would like to bring to your attention the importance of this question. Besides being too small for two classrooms it is also in a poor location being in the midst of the summer sidewalks and the winter dog trails. The playground

Ext 1

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

(2)

LAYGROUND problem "unless we clear, bulldoze and level a ground at the back of Father's garden" is also to be considered.

Please advise on what arrangements I'm to make for the payment of (1) Floor washing, (2) general clean-up of School, (3) Putting up ice for summer use, (4) Building of a slide. The charges suggested are \$4.00 for washing the floor, \$8.00 for walls and ceiling about \$25.00 for the slide and \$15.00 for the ice. Items 1-2 and 3 need no explanation, regarding the slide it has been my desire to build a slide similar to that of Resolution school. I intend building it entirely of poles snow and water. It will prove itself very usefull for recreational activities.

In order to avoid such side charges I would suggest your increasing the handy man's salary. It would all turn out even as there is a lot of work such as painting, wood cutting, piling of wood, keeping the buildings repaired, interpreting, cleaning of school and a thousand other jobs. At \$25.00 a month one can't expect much. By the way my handyman Mr. Bouvier was very dissappointed, he hasn't received a penny yet ?

Requested that library books be furnished for teacher As you already know the important roll books paly in Northern Life I need not explain this requisition.

Included is a list of Hnady craft material. If Ottawa won't pay the air frate kindly cancel last items. The delay in answering your last wire was that I wired N.T.C.L. for information, their office being closed it was forwarded to Edmonton which all took time. The three pupils for Carde lll, lV and V are from Yellowknife and are now regular puplis of Rae. As stated their former school is Resolution. They are now permenent citizens of Fort Rae. Wishing you a Merry Xmas and Happy New Year I remain,

Yours truly
L.A. Allard.

Fort Norman, N.W.T.
December 28th, 1948.

Col. B.F. Neary.
Superintendent of Education,
Indian Affairs Branch,
Department of Mines & Resources.
OTTAWA. Ont.

Sir:

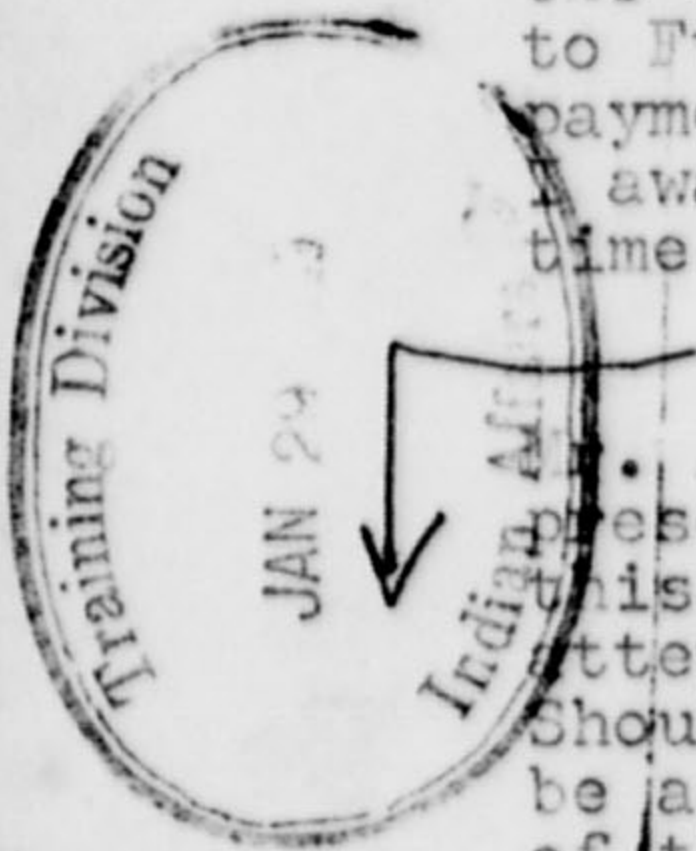

Re; Fort Rae, Indian Day School,
Fort Rae N.W.T.

I am attaching herewith a copy of a letter recently received from the teacher of the Fort Rae Indian Day School. I will attempt to deal with each point as raised by the teacher, separately, for your information.

It will be noted that the school supplies and teachers provisions arrived at Fort Rae. I do not consider the charge for the carrying of these supplies from Yellowknife to Ft. Rae exorbitant and am therefore passing the account for payment this date. As for the parcel that was short shipped, I await the waybills of the transportation Company at which time a claim will be submitted for the shortage.

As you will note from the attached letter, Mr. Allard has put forth suggestions for the remodeling the present school building. I concur with the suggestions that this work should be done during the coming summer, as the attendance at this school should warrant such an expenditure. Should the Department agree that this work be done may I please be advised so that the necessary material may be ordered. I am of the opinion that the work as described by Mr. Allard could be done by the R.C. Mission Church Brothers, if the material were supplied. I do not agree with Mr. Allard that the location of the school is wrong, as the property is owned by our Department it would only be necessary to have a fence placed around the grounds to stop people from using it as a main thoroughfare.

The present system that we have for paying janitors in the schools in the N.W.T. will necessarily have to

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

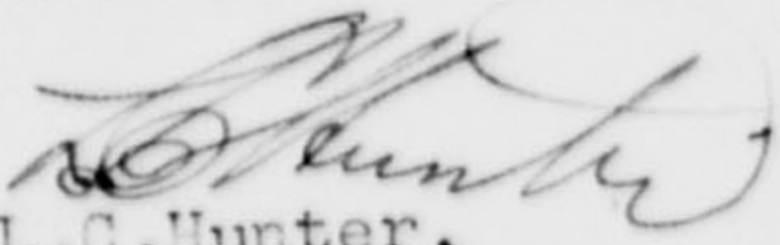

HAVE TO be changed. The fact that other Departments are paying from one hundred dollars to one hundred and fifty dollars per month for the services of a janitor and handy man, is causing considerable dissension. I would suggest that for a school such as Ft. Rae that a position be established for a casual laborer at a salary of one hundred dollars per month and that the person employed do all cleaning and repair jobs. This salary would include all tasks connected with the school, except for jobs that would require a tradesman. I am also covering this matter under separate letter on the Fort McPherson Indian Day school, and I would request that I be advised on your opinion. I have vouchered for the salary of the handyman of the Fort Rae School for the period Sept. 1st, 1948 to Nov. 30th, 1948.

I am advising the teacher of the Fort Rae school to withhold any charges or work for general cleaning of the school. Should the handyman or janitor be given an increase in salary such cleaning would be his responsibility. I may further mention that if the school is to be remodeled that the cleaning of the walls etc. would not be necessary at the present time.

I am instructing Mr. Allard to submit to me the entire requirements of the Ft. Rae School for the school year 1949/50, so that requisitions may be submitted to the Department in sufficient time to avoid any trouble in having our freight carried by the Transportation Companies.

The handy-craft material as mentioned in the letter of Mr. Allard, has been ordered from Eatons with the request that they prepay the Air Express and submit same with their invoice. The Air Express on these articles should be a very small amount.

It would be appreciated if I could be advised at the earliest, regarding the remodeling of this school and the increase of the salary for a casual laborer.

L.C. Hunter,
Superintendent.
Ft. Norman Agency.

Mr. L. C. Hunter,
Superintendent, Indian Agency,
Fort Norman, Northwest Territories.

Rae Indian Day School.

Reference your C-45 (142) of December 28, 1948.

We are endeavouring to have the transportation charges on the teacher's food paid, as requested.

I would prefer to have Mr. McKinnon's expression of opinion on alterations to the classroom at Rae as he naturally has had a great deal more experience in such matters than Mr. Allard. I am taking the liberty of sending him a part of Mr. Allard's letter so that this matter can be further investigated. Unfortunately, I do not know when Mr. McKinnon is again proceeding North or I would prefer delaying this project until he has provided a sketch plan of the suggested changes. If a janitor is paid a salary in excess of \$400.00 per year, it is necessary to establish a Civil Service position for the school concerned. This matter will therefore have to receive your further consideration as you can appreciate the fact that the establishment of these positions with high salaries will naturally increase greatly our educational expenses in the Northwest Territories.

Bernard F. Neary,
Superintendent of Education.

Memorandum:DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH.Fort Rae Indian Day School -
Alteration of Classroom.

We have received a letter from Mr. Indian Superintendent Hunter with regard to suggested changes in the classroom and teacherage at the above school. Mr. Allard has made the following recommendations:-

"Included is a description of the school. By doing this I aim at furnishing all the necessary details so that you can decide for yourself or let Ottawa decide what the construction programme is to be. I would like to point out the necessity of a ventilation system, windows and complete reconstruction of the interior. I now have two stoves in the classroom and it isn't any too warm.

Here is my suggestions : -

- (1) That at least twelve windows be added.
- (2) That ten Test or other similar material be used inside.
- (3) That a proper ventilation system be introduced.
- (4) That some heating system or material be added to keep the floor warm.
- (5) That a heated porch be added large enough to be used as a cloak room.
- (6) That a sliding partition be built to separate the two classrooms.

..... (7)

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- (7) That the upstairs be finished and rebuilt into a convenient kitchenet, washroom lunchroom and library.

"Although I don't recommend such high expenditures for two such small classrooms which would never accommodate the summer attendance I would like to bring to your attention the importance of this question. Besides being too small for two classrooms it is also in a poor location being in the midst of the summer sidewalks and the winter dog trails. The playground problem 'unless we clear, bulldoze and level a ground at the back of Father's garden' is also to be considered.

"Please advise on what arrangements I'm to make for the payment of (1) Floor washing, (2) general clean-up of School, (3) Putting up ice for summer use, (4) Building of a slide. The charges suggested are \$4.00 for washing the floor, \$8.00 for walls and ceiling about \$25.00 for the slide and \$15.00 for the ice. Items 1-2 and 3 need no explanation, regarding the slide it has been my desire to build a slide similar to that of Resolution School. I intend building it entirely of poles snow and water. It will prove itself very useful for recreational activities.

"In order to avoid such side charges I would suggest your increasing the handy man's salary. It would all turn out even as there is a lot of work such as painting, wood cutting, piling of wood, keeping the buildings repaired, interpreting, cleaning of school and a thousand other jobs. At \$25.00 a month one can't expect much. By the way my handyman Mr. Bouvier was very disappointed, he hasn't received a penny yet ? "

In forwarding Mr. Allard's letter Mr. Hunter has the following comments to make:

"As you will note from the attached letter, Mr. Allard has put forth suggestions for the remodelling of the present school building. I concur with the suggestions that this work should be done during the coming summer, as

... the

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

attendance at this school should warrant such an expenditure. Should the Department agree that this work be done may I please be advised so that the necessary material may be ordered. I am of the opinion that the work as described by Mr. Allard could be done by the R.C. Mission Church Brothers, if the material were supplied. I do not agree with Mr. Allard that the location of the school is wrong, as the property is owned by our Department it would only be necessary to have a fence placed around the grounds to stop people from using it as a main thoroughfare.

"The present system that we have for paying janitors in the schools in the N.W.T. will necessarily have to be changed. The fact that other Departments are paying from one hundred dollars to one hundred and fifty dollars per month for the services of a janitor and handy man, is causing considerable dissension. I would suggest that for a school such as Ft. Rae that a position be established for a casual labourer at a salary of one hundred dollars per month and that the person employed do all cleaning and repair jobs. This salary would include all tasks connected with the school, except for jobs that would require a tradesman. I am also covering this matter under separate letter on the Fort McPherson Indian Day School, and I would request that I be advised on your opinion. I have vouchered for the salary of the handyman of the Fort Rae School for the period Sept. 1st, 1948, to Nov. 30th, 1948.

"I am advising the teacher of the Fort Rae School to withhold any charges or work for general cleaning of the school. Should the handyman or janitor be given an increase in salary such cleaning would be his responsibility. I may further mention that if the school is to be remodeled that the cleaning of the walls, etc. would not be necessary at the present time."

I would like to receive from Mr. McKinnon an expression of his views concerning the proposed changes which Mr. Allard has recommended for the Rae Indian Day School.

I would suggest also that the question of janitor's or caretaker's salary be placed on the agenda for discussion at the next meeting of the Sub-committee on Education of the Northwest Territories Council.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

March 29, 1949.

Mr. L. A. Allard,
Rae Indian Day School,
Rae, Northwest Territories.

Dear Mr. Allard:

You will recall that I wrote to you previously concerning the employment of your sister as a second teacher at your school during the summer holidays. We have now received a letter from her indicating that she will be free from April 25 to September 20. I am writing to her today indicating that we are prepared to engage her services during this period. Mr. McKinnon and I discussed this matter recently and we realize that you will have a very large enrolment of Indian children during the summer months. Her salary would be at the rate of \$200.00 per month as a seasonal school teacher.

You will recall my letter to you of November 30 concerning your Northern Living Allowance. At that time I told you that you would be advised further in detail with regard to deductions from your Northern Living Allowance.

By Order-in-Council 5912 of December 21, 1948, new regulations were brought into effect dealing with Northern Living Allowances. The rate for single employees is still \$900.00 per annum but we are required to make the following deductions:

- (a) House, fuel and light - 10% of the maximum of the class range.

The highest salary for a Grade One welfare teacher is \$1,560.00 per year; therefore the monthly deduction for house, fuel and light will be \$13.00.

- (b) For furniture the deduction shall be at the rate of \$60.00 per annum. Therefore \$5.00 per month will be deducted from your allowance for this purpose.

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The total of your bill with the Hudson's Bay Company for rations came to \$544.17. I presume that you are anxious to get this paid off as fast as possible and therefore I have advised Treasury that a deduction at the rate of \$57.00 per month should be made from your Northern Living Allowance so that this account can be met.

Therefore, until your grocery bill has been paid off in entirety, your Northern Living Allowance will be used up as follows:

\$13.00 for house, fuel and light,
5.00 for furniture,
57.00 for rations.

I hope that the above explains clearly to you how we are handling your Northern Living Allowance payment at the present time.

We have received your ration requisition for 1949-50 and will take the necessary action to forward these supplies.

Sincerely yours,

Bernard E. Neary,
Superintendent of Education.

March 29, 1949.

Mr. L. C. Hunter,
Superintendent, Indian Agency,
Fort Norman, Northwest Territories.

Rae Indian Day School.

Your letter of December 28 has been the subject of several discussions between Mr. McKinnon and myself. Please find attached a copy of plan 888 which is our standard one-room school with attached teacher's residence. If you alter the classroom to conform generally to the classroom in this plan, I feel you should have a satisfactory school. I note that if the Department provides the materials, we can have the work done locally by Mr. Allard and the Roman Catholic Brothers. Would you please therefore submit, by airmail, the requisition for the windows, doors, etc., required to convert this building to a proper classroom or classrooms.

We are not prepared to move the school and agree with your comments about its location. With regard to the payment of janitor services, we certainly cannot pay \$100 to \$150.00 per month. Any position over \$400.00 must be established by the Civil Service Commission. We cannot permit the cost of operating day schools to rise by hiring caretakers and janitors for each individual school. At the present time we are prepared to pay an amount of approximately \$20.00 per classroom for caretaking duties. The sweeping and dusting should be done by the pupils. This is standard practice at all our Indian day schools and also in most provincial rural schools. The children can be rewarded by candies or similar prizes. The Department is prepared to allow an amount of \$5.00 per month for the purchase of these items. We are prepared to pay for the putting up of ice at the standard rate in the neighbourhood.

POOR COPY

906-5
Rae Indian Day School,
Rae N. W. 7.

March 14th, 1949

Mr. B. J. Neary,
Superintendent of Education
Indian's Affairs Branch
Ottawa Ontario

3323

Dear Mr. Neary:

Enclosed please find my 1949/50 rations. These will be deducted off my northern allowance as last year. I expected an answer to my last letter giving me further explanation to the 49/50 school year in Rae. I am willing to stay in Rae but if it is at all possible to transfer me to another school in the Territories I would appreciate it. I don't know if your department permits it but the Manitoba Department of Education permitted such exchange of schools. It is only a suggestion of course but a change in locality would do a lot of good to the teachers.

I have lately heard of raise in pay for all social welfare workers? Those that include me?

Yours very truly
L. A. Allard.

AIR MAIL

19th May, 1949.

Mr. R.H. Cheeshire,
General Manager,
Fur Trade Department,
Hudson's Bay Company,
Hudson's Bay House,
Winnipeg, Manitoba.

Dear Sir:

*This letter
was not sent
see memo above
about 8/20*

With reference to the provision of food supplies for teachers in Indian Day Schools in the north, I attach a list of rations which we would appreciate your forwarding to Mr. L.A. Allard, Rae Indian Day School, Rae, N.W.T.

The account covering the cost of these supplies should be forwarded to Mr. L.C. Hunter, Superintendent, Indian Agency, Ft. Norman, N.W.T. On receipt of the rations, Mr. Hunter will certify the account and forward to this office for payment.

We will make arrangements to deduct an amount each month from Mr. Allard's living allowance to cover the cost of providing these food supplies. Mr. Allard requests that the supplies reach Waterways at the earliest possible date, so as to ensure the supplies going forward on the first boat if possible.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education

Mr. L.C. Hunter,
Superintendent, Indian Agency,
Fort Norman, N.W.T.

We have your Voucher No. 46
issued in the amount of \$45.49. One item on
the Voucher reads "C.P. Airlines freight charges
on above Battery - \$6.44".

Before this item can be paid
we require a receipt from the C.P. Airlines.
Please obtain and forward this receipt. In the
meantime, we are forwarding the Hudson's Bay
Company a cheque for the balance of their account,
namely \$39.05.

From EDMONTON May 21

To: Colonel B. F. NEARY:

RE YOUR TEL TWENTIETH RECOMMEND WINDOW GLASS BE
GLAZED AT FACTORY

(a) THIS IS CHEAPER AS WINDOW SASH HAS TO BE CRATED
ANYWAY AND IF SEPARATE WOULD REQUIRE EXTRA PACKAGES AT
INCREASED COST

(B) BETTER JOB THAN AT DESTINATION -stop-

I FEEL THE ARCHITECTURAL APPEARANCE OF LARGE PANES OF GLASS
WHILE DESIRABLE FOR APPEARANCE SAKE IN SOUTHERN AREAS SHOULD
NOT BE STRESSED AT NORTH LOCATIONS AND SUGGEST LIGHTS
SAY 8 by 10 or 10 by 10 inches SO IN CASE OF BREAKAGE
REPLACEMENT IS NOT SO SERIOUS AS IF LARGER PANES WERE USED -stop
OFTEN BY THE TIME GOODS RECEIVED AND PANES DISCOVERED BROKEN
IT IS IMPOSSIBLE TO MAKE REPLACEMENT THAT SEASON -stop-
SHIPPING INSTRUCTIONS TO FORT RAE TO FOLLOW

(sgd.) W. J. Johnston

A I R M A I L

May 27, 1949.

Mr. L. C. Hunter,
Superintendent, Indian Agency,
Fort Norman, Northwest Territories.

Alterations - Indian Day School, Fort Rae, N.W.T.

Unfortunately, we have a very heavy building programme this year and it has been difficult to have an engineer prepare the bill of materials felt to be necessary for alterations to the Fort Rae School.

Please find attached a copy of the requisition sent to the Departmental Purchasing Agent, covering the windows, lumber, nails and paint thought to be necessary. It has been a real problem to draft this bill of materials and we can only hope that it will be sufficient for your needs. As I visualize it, your main problems are:

- (a) To improve the insulation in the schoolroom,
- (b) To provide more windows.

Therefore, we have ordered mineral wool insulation, plywood, and plaster board. The plaster board can be used above the blackboard level and the plywood below blackboard level.

We have also ordered 10 windows which I think, with the present ones, should prove more than adequate.

I would suggest that we plan on making any other alterations next summer and that you then submit a requisition

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

during the winter, based on the supplies being sent to you this summer.

Please advise me as to the size of the accountable advance which you will require to have this work carried out by local labour. I presume that Mr. Allard will be available to supervise and help with this work.

Bernard F. Neary,
Superintendent of Education.

ENCL.

Re: Rae Indian Day School

I.A.BR. file 906-5

Attached please find tenders received on building materials required for the construction of the above school.

We wish to draw your attention to the letter from Hayward Lumber Co., the only tenderer on the windows.

delete
The number of window sashes does not seem to agree with the number of double hung frames. Also, the number of casement windows is not given though the description of these is shown on the requisition.

Please let us have all the information necessary as soon as possible, *returning over*
file with your reply.

Memorandum:DEPARTMENTAL PURCHASING AGENT

Re: Rae Indian Day School,
Your File: 94251-4/3 NWT.

We are in receipt of your memorandum of June 15th with reference to our requisition of May 27th.

With reference to the number of window sashes, the following is the correct number:

<u>Frames</u>	<u>Sash</u>
6 double hung	12
4 " "	8

Please delete the order for "Casement windows". I have noted these changes on the copy of the requisition which you forwarded with your memorandum.

2.

Labour cost if rock wool used.

Removal of sheathing, interior	\$200.00
Insulating walls	150.00
Resheathing	200.00
Sheathing ceiling upstairs	150.00
Insulating ceiling upstairs	150.00
Installation of doors & windows	150.00
Painting inside and out	250.00
Constructing partitions	50.00
Total.....	\$1300.00
Board & room	300.00
	<u>\$1600.00</u>

Material for improvment work has been ordered, but if it is proposed to tear out the inside sheathing, at least 1500 bd. ft. of shiplap should be ordered for immediate delivery to Yellowknife. In this way it can be put into Ft. Rae before I take the building crew into that point.

I propose to take in one carpenter, if available, from Yellowknife as foreman, and hire two local men at Ft. Rae. There are no men at Ft. Rae suitable to act as foremen and if we are to complete the job this year I must have a man on the job who knows what he is doing at all times.

If shavings can be used in the walls, a local purchase of these will have to be made from Wynn's Saw Mill, Slave River immediately for shipment to Yellowknife, and reshipped to Ft. Rae.

Please send me an accountable advance to the Canadian Bank of Commerce, Yellowknife, for the sum of \$2000.00 to cover labour cost of repairing the school; painting school, teachers house and warehouse.

At the present time no material has arrived for repairs to this school but by the end of the month we expect this material to be delivered.

Yours very truly,

I. F. Kirkby

Yellowknife, N.W.T.
July 18, 1949

Bernard F. Neary,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ont.

Dear Sir:

On July 15th I inspected the school building at Ft. Rae, N.W.T. with a view to improving insulation, providing more windows, and general improvement of the interior.

If this building is to be insulated with the rock wool bats that are being supplied it will be necessary to remove the entire inside sheathing of the building first. This sheathing is shiplap, old and brittle, and by the time it has been removed will be of little value to put back on the walls. No extra shiplap has been provided for this work.

I request that I be given permission to insulate this building with shavings that can be procured from saw mills in the Resolution area. These shavings can be poured down between the wall studs without cutting or removing any sheathing since the studs are open above the ceiling. It would then be possible to completely insulate this building in no more than one week, whereas the installation of rock wool will require at least one month with the help available.

It has been proposed to insulate the ceiling of the second story with rock wool and sheath with shiplap. This will give a good manual training room at some later date.

The second story floor is constructed of flooring and the ceiling of the downstairs is also constructed of flooring. Either would invariably be ruined if it is decided to insulate the ceiling of the downstairs instead of the ceiling of the second floor. Consequently I believe it is best to insulate the second story ceiling.

Extra windows are to be installed in both ends of the building, and existing partitions should be removed giving added space for class rooms.

One movable sectional partition should be erected to divide the floor space into two sections if there are enough pupils for two rooms; or to cut down the size of the class room when fewer pupils are attending classes during the winter, when the smaller room will be easier to heat.

Labour costs if shavings are used.

Insulating walls with shavings	\$150.00
Insulating ceiling with rock wool	100.00
Sheathing ceiling of second floor	150.00
Installing windows and doors	150.00
Sheathing with plywood & gyprock	150.00
Painting inside and outside	250.00
Constructing partition	50.00
Total labour.....	\$1000.00
Board & room	200.00

6040

Dear Sir:

Repairs to Indian Day School, Ft. Rae, N.W.T.

Furthur to my letter of July 18th. and your wire of July 22nd. it would appear that I had made my letter a little ambiguous as to insulating the second story of this school. The first story up to level of top plate will be insulated with shavings to save time and expense. I had then proposed to insulate between the rafters and the second story ceiling with the rock wool bats supplied. This portion of the building had never been sheathed so no need to do any extra dismanteling. The rockwool for this section would give a much better finished job than shavings.

44947 /
On checking with Northern Transportation Co. I find that all materials ordered for Ft. Rae with the exception of shiplap and paint had been held at Ft. Smith on orders from Hayward Lumber Co. From this I presume that no additional windows are to be put in; walls insulated with shavings, ceiling insulated with rock wool and sheathed, sectional partition constructed and building painted, will be only repairs completed.

Material had been en-route to finish entire class rooms with wallboard but this was also held at Ft. Smith so will not be doing any interior improvement except as outlined in your wire.

I do believe that this building should have been covered inside with wallboard as it is very dingy but if it is the policy of the Department to build a new modern school; a building which must be considered soon at this point; then there is little point in spending more than just enough to make this old building comfortable for the present time.

As soon as I can get a cost of shavings from Wynn's Mill will advise you as requested in wire.

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

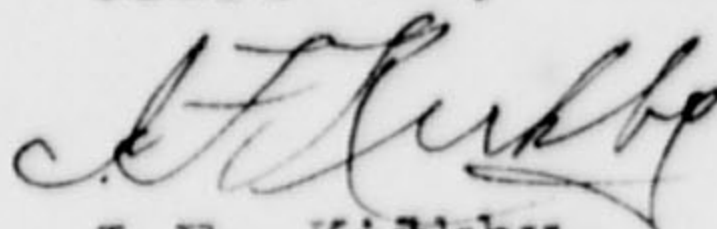

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I have just received the file on Ft. Rae School from Supt. Hunter of Ft. Norman and while checking over the requisition he sent in find that quantities of nails sent in or ordered are very inadequate for the work. Will it be in order for me to make local purchase of such items as are necessary to complete the repairs as set out in your wire.

I regret that these shortages appear but I have had little time to check back correspondence and only find them at the last minute. I do not believe the quantities will be excessive in any instance but as it is now too late to receive shipments from Edmonton require authority to make small local purchases. If you require I will wire each time a local purchase becomes necessary.

The shipments have not gone forward to Ft. Rae from here so believe it will be the end of second week in August at the very earliest before we can start work on this school.

Yours very truly

I.F. Kirkby,
Supt. of Indian Agencies.

Col. B.F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ont.

Re; Rae Indian Day School.

Recently I received from the teacher of the Rae Indian Day School a list of requirements for the School year 1949-1950.

As I did not submit the Annual estimates on the requirements of this school I do not know what funds are available, however I have submitted requisitions covering items that I realize are an absolute necessity. I am attaching, herewith, for your consideration, the original list as forwarded to me by Mr. Allard.

I realize that the furnishings of the teacher's quarters are in a poor condition and would suggest that the same items be forwarded to this school as in our new schools in the Northwest Territories. This suggestion would also apply to all materials ~~to~~ outside sports.

On the original list as submitted by Mr. Allard you will note that I have circled the items in red, for which requisitions have been submitted. May I please be advised of your decision and what items are to be forwarded to this school.

L. C. Hunter
L. C. Hunter,
Superintendent.

The Manager,
Hudson's Bay Company,
District Office,
10129 - 103rd St.,
Edmonton, Alta.

Dear Sir:

Attached please find an official order for a quantity
of supplies for Fort Rae Indian Day School.

We are anxious to have these supplies reach Waterways,
Alta. in time to reach the school before water transportation
season in that part of the country closes.

Yours truly,

Bernard F. Neary,
Supt. of Indian Education.

Re: Your Army Message of August 9

The three requisitions of May 1st were sent to the Purchasing Agent with instructions that these must reach Waterways by Sept. 6th to catch the last boat for Rae.

In reference to the other supplies ordered by Mr. Allard, you will find a copy of an order placed with the Hudson's Bay Company, Edmonton, and these should reach Waterways by September 6th.

A number of items ordered by Mr. Allard were omitted intentionally as the Department feels that when the new teachers residence is completed a set of standard supplies for a teachers' residence will be supplied at that time.

Bernard F. Neary,
Supt. of Indian Education.

OFFICE OF
INDIAN AGENT
File 906-5

Yellowknife, N.W.T.
August 10th. 1949.

Mr. Bernard F. Neary,
Supt. of Education,
Indian Affairs Branch,
OTTAWA, Ont.

Dear Sir:

Repairs to Indian Day School, Ft. Rae, N.W.T.

I have been advised by the teacher at Ft. Rae that all the materials on order have been delivered and with the exception of the shavings all necessary material is at the school. These shavings are to be delivered by Wynn to me at Yellowknife next week and I will then send them to Ft. Rae.

I intend to take in one carpenter foreman to Ft. Rae on August 18th and will start him to work repairing the school as indicated. We will be engaging two native laborers at that point to assist in completing the work.

With the material available there is at least three weeks repair work to be done before there is need to insulate with the shavings so I intend to start whether the shavings have been delivered or not.

Mr. Wynn has notified me that his shavings will be priced at \$2.50 per bale delivered at Yellowknife. We will need sixty bales which will indicate we need an expenditure of \$150.00 for this purpose. I am of the opinion that a small quantity of slaked lime should be put in with the shavings to prevent vermin from entering the building. Three sacks purchased locally will be all that is required.

It is quite obvious after I made a second check of the requisition, that we will need a small quantity of 2, 3 & 4 inch nails extra. We will be using some salvage material where it is possible and the extra nails will be needed for this.

The accountable advance for the labour costs of this school has not been deposited at the Bank in Yellowknife. If this has not gone forward could I receive same at an early date as all help in this country expect their pay at the end of every week.

This is an Indian Day School, will the Treaty Indians whom I engage as helpers be subjected to Income Tax? These people are not eligible for the Northern Allowance and I do not feel they should have to pay tax. I request this information for making up my pay list and for making deductions where necessary.

The following work will be completed at this school:

- (1) All exterior walls insulated with shavings.
- (2) Ceiling between rafters to be insulated with rockwool and sheathed with shiplap.
- (3) Existing partitions to be removed and a movable partition constructed to divide the building into two rooms.
- (4) Bottom four feet of walls to be sheathed with plywood. Top section of walls sheathed with Gyprock wallboard.
- (5) Interior of downstairs; or class room section, to be painted.
- (6) Exterior of building to be painted.
- (7) Doors and windows to be weatherproofed and position of windows changed to provide more light as indicated in your letter of May 27, 1949.

After I have been to Ft. Rae and have started the crew I will further indicate to you what is being done and progress made.

Indian Affairs (RG 10 Volume 6473, file 906-5, part 1)

OUR COPY

The present supply of wood at Ft. Rae is no more than enough to do this winter and if the fuel oil on special requisition of May 1st. is not delivered we will be short of wood. At the present time native labour is available and we can get wood cut without any difficulty. During the winter and spring all the natives will be able to get fur and will not want to cut wood. I therefore request authority to have Thirty Five cords of wood cut and piled in the school yard this fall. If this wood is not needed this winter it will be needed next and we will need to have it cut next spring at the latest.

As stated earlier, now is the best time to get native labour to cut wood when they are in need of money and desire some work. Transportation is always a problem at Ft. Rae and at this time of year wood can be brought in by boat.

If this wood can be cut I will instruct that those natives who desire work will be engaged and I will then submit the vouchers for payment in the usual way.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

Re: Heating equipment for Fort Rae Indian
School and Teachers quarters.

8131

The above requisition is dated May 1st and was received at this office on the 11th instant, which does not give us sufficient time to arrange for a purchase in the usual manner.

Our information is that shipments for points north of Fort Smith and as far as Fort Norman, on the Mackenzie River, must be delivered to Northern Transportation Co., Ltd., at Waterways not later than the 18th instant.

If Superintendent Robertson can arrange for purchase and delivery of the 10 items on Mr. Hunter's requisition before the closing of navigation, I would suggest that you authorize him to do so.

Re: Food supplies for Mid-day lunch for Indian
Day School Children, I.A.B. file 906-5.

We received to-day your Mr. Hunter's
requisition dated May 1st, 1949, covering five
items of food supplies.

In this connection I might state that it is
necessary that this shipment reach Waterways not
later than August 18th, which does not leave us
sufficient time to prepare an order, have it
encumbered and in the hands of the Edmonton vendor.

Under the circumstances, I would suggest that
your Edmonton representative arrange with Hudson's
Bay Company to ship the same if they can guarantee
delivery. Otherwise it would be necessary to buy at
retail prices from the Hudson's Bay Post at Fort
Rae.

W. M. Vincent,
Departmental Purchasing Agent.
